Commencing at a point on the north bank of Hot Springs Slough, which point is identical with the southeast corner of U. S. Survey No. 916; thence in a northerly direction following the east boundary of U. S. Survey No. 916 approximately 4,200 feet to corner No. 2, identical with the northeast corner of U. S. Survey No. 916; thence in an easterly direction approximately 1,320 feet to corner No. 3; thence in a southerly direction approximately 3,750 feet to corner No. 4, the point of intersection of line 3–4 with the north bank of Hot Springs Slough; thence following the meanders of the north bank of Hot Springs Slough in a westerly direction approximately 1,450 feet to corner No. 1, the point of beginning (Petition for Shorespace Restoration of Gus A. Benson, Fairbanks 09286).

The above described area embraces approximately 130 acres.

At the hour and date specified the lands restored by this order, all of which are unsurveyed, shall, subject to valid existing rights, be opened to settlement under the homestead laws and the homesite act of May 26, 1934 (49 Stat. 809; 48 U. S. C. 461), only, and to that form of appropriation only by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Commencing at 10:00 a. m., on the 112th day after the date of this order, any of the lands not settled upon by veterans shall become subject to settlement and other form of appropriation by the public generally in accordance with the appropriate laws and regulations.

FRED J. WEILER,
Chief, Division of Land Planning.

ALASKA

SHORESPACE RESTORATION ORDER NO. 491

OCTOBER 15, 1952.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059, 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the 80 rod shorespace reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028, 48 U. S. C. 371), is hereby revoked as to the following described lands, effective at 10:00 a. m. on the 21st day after the date of this order:

ANCHORAGE LAND DISTRICT

A tract of land located on the north bank of the Naknek River, Alaska, which when surveyed will be identified as U. S. Survey No. 3179, containing approximately three acres (Trade and Manufacturing Site application of James R. Mueller and Clifford M. Johnson, Anchorage 016359).

A tract of land located on Jamestown Bay, Alaska, more particularly described as follows:

Beginning at Corner No. 4 of U. S. Survey No. 2824 on the northeasterly boundary of the Sitka Highway right-of-way, Corner No. 1; thence N. 26 deg. 15 Mins. E. 900 feet to Corner No. 2; thence at right angles southeasterly 1,200 feet to Corner No. 3; thence at right angles southwesterly approximately 900 feet to the northeasterly boundary of the Sitka Highway right-of-way and Corner No. 4; thence along said northeasterly boundary line of said highway right-of-way to the place of beginning, containing approximately 28 acres. (Soldier's Additional Homestead application of Rachel Carlson and Angelina Glenn, Anchorage 017545).

At the hour and date specified the lands restored by this order, all of which are unsurveyed, shall, subject to valid existing rights, be opened to settlement under the homestead laws and the homesite act of May 26, 1934 (49 Stat. 809; 48 U. S. C. 461), only, and to that form of appropriation only by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Commencing at 10:00 a. m., on the 112th day after the date of this order, any of the lands not settled upon by veterans shall become subject to settlement and other form of appropriation by the public generally in accordance with the appropriate laws and regulations.

FRED J. WEILER,
Chief, Division of Land Planning.

Bureau of Reclamation

YUMA PROJECT, CALIFORNIA

ORDER OF REVOCATION

JULY 15, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Order of October 19, 1920, insofar as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

SAN BERNARDINO MERIDIAN, CALIFORNIA

T. 9 S., R. 9 E.,
Sec. 4, W½,
Sec. 5,
Sec. 8,
Sec. 9,
Sec. 15,
Sec. 16,
Sec. 17,
Sec. 21,
Sec. 22,
Sec. 23,
Sec. 25,
Sec. 26,
Sec. 27,
Sec. 28,
Sec. 33,
Sec. 34,
Sec. 35,
Sec. 36;
T. 10 S., R. 9 E.,
Secs. 1, 2, 11, and 12;
T. 10 S., R. 10 E.,
Secs. 5, 6, and 7;
T. 9 S., R. 10 E.,
Sec. 31.

The above areas aggregate approximately 16,362.13 acres.

ALFRED R. GOLZE,
Acting Assistant Commissioner.

I concur. The records of the Bureau of Land Management will be noted accordingly.

All of the lands except secs. 2 and 12 T. 10 S., R. 9 E., and sec. 6 T. 10 S., R. 10 E., are either patented or reserved. The lands are not suitable for agricultural purposes as the soils contain high concentrations of alkali salts, the annual rainfall is very low, and there is no known source of water for irrigation. There are limited opportunities for business sites and other small tract uses. Wells in the area are very deep and furnish poor quality brackish water.

While any application that is filed will be considered on its merits, it is unlikely that any substantial part of the restored (or opened) lands will be classified for any use other than as shown.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Los Angeles, California.

WILLIAM PINCUS,
Assistant Director,
Bureau of Land Management.

OCTOBER 17, 1952.

[F. R. Doc. 52-11458; Filed, Oct. 22, 1952; 8:48 a. m.]

OWYHEE PROJECT, OREGON

ORDER OF REVOCATION

FEBRUARY 29, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Order of March 28, 1925, insofar as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

WILLAMETTE MERIDIAN, OREGON

T. 22 S., R. 46 E., Sec. 4, Lots 1, 2, S½NE¼.

The above area aggregates 161.45 acres.

G. W. LINEWEAVER,
Acting Commissioner.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands are chiefly valuable for grazing. While any application that is filed will be considered on its merits, it is unlikely that any substantial part of the restored (or opened) lands will be classified for any use other than as shown.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Portland, Oregon, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Portland, Oregon.

WILLIAM PINCUS,
Assistant Director,
Bureau of Land Management.

Office of the Secretary

[Misc. 22620]

ALASKA

NOTICE FOR FILING OBJECTIONS TO WITHDRAWAL OF PUBLIC LANDS FOR CLASSIFICATION [1]

For a period of 60 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

VERNON D. NORTHROP,
Acting Secretary of the Interior.

OCTOBER 21, 1952.

DEPARTMENT OF COMMERCE

National Production Authority

[NPA Delegation 1, Supp. 1, as amended Oct. 23, 1952]

SECRETARY OF DEFENSE

DELEGATION OF FURTHER AUTHORITY AS TO CERTAIN PROGRAMS

Supp. 1 (as amended September 11, 1951) to NPA Del. 1 is hereby further amended by inserting new subparagraphs (b) and (c) in paragraph 1, to authorize the Secretary of Defense under certain conditions to reschedule the production and delivery of APRA Class B products and to take other related action; and by redesignating former subparagraph (b) of paragraph 1, as subparagraph (d).

1. This amended supplement to NPA Del. 1 is issued under the authority of the Defense Production Act of 1950, as amended. The Secretary of Defense has been delegated certain authority under NPA Del. 1. In addition to such authority, there is hereby delegated to the Secretary of Defense the following authority:

(a) To reschedule deliveries of materials which are required in support of the following Department of Defense programs: (1) Aircraft Program (A1), (2) Ships Program (A3), and (3) Tank-Automotive Program (A4): *Provided, however,* That such authority (1) shall be applicable only to the rescheduling of deliveries among rated orders or authorized controlled material orders bearing the same program identification issued by or under the authority of the Secretary of Defense; and (2) shall be applicable only to the extent that such rescheduling of deliveries requires no change in production schedules of the person making the deliveries.

(b) To schedule or reschedule the production and delivery of any Class B product assigned to Aircraft Production Resources Agency (Department of Defense) under Product Class Code No. 9500 in the NPA Official CMP Class B Product List (said B products being hereinafter referred to as "APRA Class B products") and which are required to be delivered pursuant to any rated order heretofore or hereafter accepted by a manufacturer or producer: *Provided, however,* That such authority shall be exercised only upon the following conditions:

(1) The consent of the manufacturer or producer of any APRA Class B product proposed to be scheduled or rescheduled is first obtained; and

(2) In providing for such scheduling or rescheduling, the manufacturer or producer is not required or authorized to displace the production of, or delay the delivery of, any product other than an APRA Class B product; and

(3) In any case where such scheduling or rescheduling is effected pursuant to such authority, the Secretary of Defense shall require the manufacturer or producer whose production or delivery has been so rescheduled to notify immediately in writing all customers whose deliveries have been changed as a result of such rescheduling.

The authority in this subparagraph does not extend to the rescheduling of the production or delivery of materials or products furnished by suppliers to manufacturers of APRA Class B products, and required in the manufacture of APRA Class B products.

(c) To require a copy of an order board or in lieu thereof the necessary scheduling data, covering APRA Class B products only, from a manufacturer of any such products which are in critically short supply and the lack of which products is seriously interfering with the fulfillment of other aircraft component or aircraft end-item schedules.

(d) To redelegate the authority hereby delegated to appropriate agencies of the Department of Defense or its authorized agents.

2. The exercise of this authority shall conform to the terms of the regulations and orders of the National Production Authority and to such priorities and allocations policy directives as may be issued by the Munitions Board to implement policies and procedures issued by the National Production Authority.

This supplement, as amended, shall take effect October 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
R. A. MCDONALD,
Administrator.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY WITH RESPECT TO RELEASED RATES ON DRUGS, MEDICINES, ETC.; APPLICATION NOS. 1438 AND MC-525

1. Pursuant to the provisions of sections 201 (a) (4) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority to represent the interests of the executive agencies of the Federal Government in the matter of Released Rates on Drugs, Medicines, etc., Application Nos. 1438 and MC-525 for authority to publish ratings on a released valuation basis, before the Interstate Commerce Commission, is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration and shall further be exercised in cooperation with the responsible officers, officials and employees of such Administration.

4. This delegation of authority shall be effective as of the date hereof.

Dated: October 16, 1952.

JESS LARSON,
Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27467]

PETROLEUM PRODUCTS FROM CRUPP AND ROGERSLACY, MISS., TO LOUISVILLE, KY.

APPLICATION FOR RELIEF

OCTOBER 20, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, on behalf of the Illinois Central Railroad Company and other carriers.

Commodities involved: Petroleum distillate fuel oil and petroleum residual fuel oil, in tank-car loads.

From: Crupp and Rogerslacy, Miss.

To: Louisville, Ky.

Grounds for relief: Competition with rail carriers and market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1253, Supp. 61.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27468]

SULPHURIC ACID FROM BATON ROUGE AND NORTH BATON ROUGE, LA., TO FRONT ROYAL, VA.

APPLICATION FOR RELIEF

OCTOBER 20, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1200, pursuant to fourth-section order No. 16101.

Commodities involved: Sulphuric acid, in tank-car loads.

From: Baton Rouge and North Baton Rouge, La.

To: Front Royal, Va.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27469]

SAND AND GRAVEL BETWEEN POINTS IN OKLAHOMA AND MISSOURI

APPLICATION FOR RELIEF

OCTOBER 20, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3736.

Commodities involved: Sand, gravel, and related articles, carloads.

Between: Points in Oklahoma and Missouri.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3736, Supp. 204.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER ADDITIONAL PRINTING EXPENSE

OCTOBER 17, 1952.

The Commission, by orders dated September 8, 1952, September 16, 1952, and September 23, 1952, having granted an application, as amended, filed pursuant to the act by Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia Company, a registered holding company, with respect to the issuance and sale of 140,000 shares of 4.15 percent Preferred Stock, $50 par value, and $14,000,000 principal amount of 3¼ Percent First Mortgage Bonds, Series due September 1, 1982, and the Commission having released jurisdiction over the payment of certain estimated fees and expenses, including printing expense in the amount of $20,000, provided the payments did not exceed the amounts estimated; and

Additional information having been received from Duquesne to the effect that the actual printing expense incurred aggregates $28,015.96, or $8,015.96 in excess of the amount estimated; and

Duquesne having requested that the Commission release jurisdiction over this additional amount; and

It appearing to the Commission that the additional printing expense, in the amount of $8,015.96, is not unreasonable and that jurisdiction with respect thereto should be released:

It is ordered, That jurisdiction be, and the same hereby is, released with respect to the additional printing expense.

It is further ordered, That the jurisdiction reserved in the order of September 23, 1952, over fees and expenses for accounting and legal services in connection with the proposed transactions be, and the same hereby is, continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2939]

TEXAS UTILITIES CO.

ORDER PERMITTING ACQUISITION OF SECURITIES OF NEWLY ORGANIZED SUBSIDIARY COMPANY

OCTOBER 17, 1952.

Texas Utilities Company ("Texas Utilities"), an exempt holding company, having filed an application pursuant to sections 9 (a) (2) and 10 of the act with respect to certain proposed transactions, which are summarized as follows:

On April 5, 1950, the Commission issued its findings, opinion and order granting Texas Utilities and each of its subsidiary companies, as such, an exemption pursuant to section 3 (a) (1) of the act from all the provisions of the act except with respect to section 9 (a), (2) and certain other sections.

Texas Utilities proposes to organize a new corporation under the laws of the State of Texas and to acquire for $500 in cash five shares (being all the shares) of the capital stock, par value $100 per share, of such company. The new company would be named Industrial Generating Co.

Texas Power & Light Company ("Texas Power"), a subsidiary company of Texas Utilities, has entered into contracts with the Aluminum Company of America ("Alcoa") under which Texas Power will construct in its service area near Sandow, Texas a new electric generating plant and transmission line for the account of Alcoa, operate such plant and certain lignite mines for Alcoa's account, and exchange emergency and standby power and energy with Alcoa. The Industrial Generating Co., on a nonprofit basis, would contract with Texas Power to perform the obligations of Texas Power to Alcoa imposed by the contract between the latter two named companies to operate Alcoa's generating plant. It is stated that the financial statements of Texas Power would be substantially distorted if there is incorporated therein the operating costs of Alcoa's generating plant with the items making up the costs of its regular normal operations. It is submitted that the newly organized company, which would operate Alcoa's generating plant, would avoid such distortion and simplify operations under the operating agreement between Alcoa and Texas Power.

It is represented that no fees or commissions are to be paid in connection with the organization of Industrial Generating Co. and that the transactions here involved are not subject to the jurisdiction of any state commission.

Notice of filing of said application having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act; the Commission not having received a request for hearing with respect thereto within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and the Commission finding that the applicable requirements of the act and the rules and regulations thereunder are satisfied, and deeming it appropriate in the public interest and the interests of investors and consumers that said application be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said application be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2941]

PHILADELPHIA CO.

ORDER GRANTING APPLICATION REGARDING PROPOSED STABILIZATION

OCTOBER 16, 1952.

Philadelphia Company ("Philadelphia"), a registered holding company, having filed an application, and amendments thereto, pursuant to the act and certain rules promulgated thereunder concerned with the following proposed transactions:

At the present time Philadelphia owns $6,354,000 principal amount of Twenty Year 3⅜ Percent Sinking Fund Debentures, due March 1, 1970, of Equitable Gas Company ("Equitable"), a former public utility subsidiary of Philadelphia. This Commission by order dated June 1, 1948, as supplemented by its order of March 14, 1950, has directed Philadelphia to divest itself of all securities of Equitable owned by Philadelphia. Philadelphia has heretofore notified this Commission, pursuant to Rule U-44 (c), that it intends to sell these debentures to non-affiliated interests under competitive conditions and the Commission determined that no declaration need be filed with respect to such proposed sale.

Bids for the purchase of the debentures will be invited by a newspaper advertisement which will provide that interested persons shall notify Philadelphia of their desire for an opportunity to purchase said debentures. Thereafter, Philadelphia will advise all such persons of the conditions of sale and the time for submitting bids, which time shall not be less than twenty-four hours after such advice has been given.

Philadelphia in the instant application seeks permission to acquire debentures of Equitable by purchases on the over-the-counter market, if, in the judgment of Philadelphia's officers, such purchases are necessary or advisable to facilitate the intended sale by stabilizing the market price thereof. Purchases, if any, by Philadelphia will be made only during the period beginning on the third full business day prior to the opening of bids for the purchase of debentures and ending at the time of such opening. The application states that the aggregate amount of debentures to be purchased through stabilization operations, if any, will not exceed ten percent of $6,354,000, the total amount of such debentures now owned by Philadelphia. Expenses in connection with these transactions are estimated at $1,000 of which the major portion is represented as being fees and expenses of counsel.

The filing further states that any debentures which are acquired through stabilization operations will be promptly disposed of by Philadelphia after appropriate notice to the Commission.

The Commission having issued a notice of filing pursuant to Rule U-23 and not having received a request for a hearing thereon within the period specified in said notice or otherwise, and not having ordered a hearing thereon;

It appearing to the Commission that the proposed transactions meet all applicable standards of the act and the rules and regulations thereunder and that it is appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted forthwith:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions of Rule U-24, that the application, as amended, be, and the same hereby is, granted forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-11459; Filed, Oct. 22, 1952; 8:48 a. m.]

[File No. 70-2944]

NORTH AMERICAN CO.

NOTICE OF FILING REGARDING PROPOSED STABILIZATION

OCTOBER 20, 1952.

Notice is hereby given that an application has been filed pursuant to the act and the rules and regulations promulgated thereunder by the North American Company ("North American"), a registered holding company. The application designates sections 9 and 10 of the act and Rule U-44 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized below:

Pursuant to a plan of liquidation and dissolution of North American Utility Securities Corporation, heretofore approved by this Commission under section 11 (e) of the act and ordered enforced by the United States District Court for the District of Maryland, North American will receive, inter alia, 78,684 shares of the common stock of Pacific Gas & Electric Company ("PG&E"), a former public utility subsidiary of North American. This Commission by order dated April 14, 1942, directed North American to divest itself of all of its direct and indirect interests in PG&E.

North American has notified this Commission, pursuant to Rule U-44 (c), that upon receipt of the same it intends to sell the 78,684 shares of common stock of PG&E to non-affiliated interests pursuant to a public invitation for sealed written competitive bids.

The sale of this common stock is not part of the instant application. North American in the instant application seeks permission to acquire common stock of PG&E by purchases on the New York Stock Exchange, if, in the judgment of North American's officers, such purchases are necessary or advisable to facilitate the intended sale by stabilizing the market price thereof. Purchases by North American will be made only during the period beginning on the day of the opening of bids for the purchase of the common stock and ending at the time of such opening. The filing states that all common stock acquired through these stabilization operations will be promptly disposed of by North American after the sale of the 78,684 shares of common stock of PG&E.

It is represented in the application that customary brokerage fees and commissions will be paid by North American in connection with purchases made by it for stabilization purposes. It is stated that other expenses incurred in connection with such stabilization operations are not separable from the fees and expenses to be incurred in connection with all the transactions enumerated above and that the aggregate fees and expenses in connection with such transactions are estimated at $13,500 of which $3,500 represents fees and expenses of counsel.

North American requests that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than October 28, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter such application as filed, or as amended, may be granted as provided in Rule U-23 of the rules and regulations under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2945]

AMERICAN GAS AND ELECTRIC CO. ET AL.

NOTICE OF FILING PROPOSAL FOR FINANCING OF NEW OPERATING COMPANIES, AND NOTICE AND ORDER FOR HEARING

OCTOBER 17, 1952.

In the matter of American Gas and Electric Company, Ohio Valley Electric Corporation, et al.; File No. 70-2945.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, the Cincinnati Gas & Electric Company ("Cincinnati"), a public utility company, and an exempt holding company, Kentucky Utilities Company ("Kentucky"), a public utility company and an exempt holding company, Louisville Gas and Electric Company ("Louisville"), a public utility company and an exempt holding company, Ohio Edison Company ("Ohio Edison"), a public utility company and a registered holding company, the West Penn Electric Company ("West Penn Electric"), a registered holding company, Ohio Valley Electric Corporation ("Ohio Valley"), Indiana-Kentucky Electric Corporation ("Indiana-Kentucky"), and American Gas and Electric Service Corporation ("Service Corporation"), a service company subsidiary of American Gas, have filed a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and have designated sections 6, 7, 9, 10, and 13 of the act, and Rules U-90, U-91, and U-100 thereunder, as applicable to the proposed transactions, which are summarized as follows:

Ohio Valley and Indiana-Kentucky have been organized for the purpose of constructing and operating two electric generating stations, having a combined expected capability of 2,200,000 kilowatts, together with related facilities, required for the supply of power to the Atomic Energy Commission in connection with a gaseous diffusion plant of the Atomic Energy Commission to be located in the vicinity of Portsmouth, Ohio, and known as the "Portsmouth Area Project". Ohio Valley has executed a power agreement with the Atomic Energy Commission for the supply of such power. The creation of Ohio Valley and Indiana-Kentucky and the execution of this power contract are in accord with a proposal submitted on May 12, 1952, to the Atomic Energy Commission by fifteen operating utility companies, namely: applicants-declarants Cincinnati, Kentucky, Louisville and Ohio Edison; Appalachian Electric Power Company, Indiana & Michigan Electric Company, and the Ohio Power Company (subsidiaries of American Gas); Monongahela Power Company, the Potomac Edison Company and West Penn Power Company (subsidiaries of West Penn Electric); Pennsylvania Power Company (a subsidiary of Ohio Edison); and Columbus and Southern Ohio Electric Company ("Columbus"), the Dayton Power and Light Company ("Dayton"), Southern Indiana Gas and Electric Company ("Southern Indiana"), and the Toledo Edison Company ("Toledo").

The cost of the facilities proposed to be constructed by Ohio Valley and Indiana-Kentucky is estimated in the filing to range between a minimum of $370,000,000 and a maximum of $440,000,000. The application-declaration states that the funds for this purpose, and for the purpose of supplying necessary working capital, will be secured by the sale of debt securities to institutional investors and banks, and by the issuance of equity securities in an amount presently estimated not to exceed $20,000,000. The definitive terms of the debt securities proposed to be issued have not yet been determined, and it is anticipated that the issuance of such debt securities will be the subject of a subsequent proceeding before the Commission.

The application-declaration seeks approval at this time of the issuance of the proposed equity securities of Ohio Valley and Indiana-Kentucky. Ohio Valley proposes to issue not in excess of 200,000 shares of common stock, par value $100 per share, for a cash consideration of $100 per share. It is proposed that 40,000 shares of such common stock will be issued initially, the proceeds of which will be used to proceed with the acquisition of land and land rights and with excavation and preliminary construction operations. The remaining shares of common

stock will be issued from time to time, prior to January 1, 1957, as required in connection with the construction program.

Ohio Valley proposes to issue its shares of common stock to certain of the applicants-declarants and to certain other participating operating utility companies, and such applicants-declarants (as well as such other companies) propose to acquire such common stock, in the following percentages of each issue of such stock:

Name of participating company:	Percentage
American Gas	37.8
Cincinnati	9.0
Columbus	4.1
Dayton	5.1
Kentucky	2.5
Louisville	7.0
Ohio Edison	16.5
Southern Indiana	1.5
Toledo	4.0
West Penn Electric	12.5

Indiana-Kentucky has been organized to operate as an electric utility company under the laws of the State of Indiana. All of its common stock issued upon incorporation has been acquired by Ohio Valley, which is organized to operate as an electric utility company under the laws of the State of Ohio. Ohio Valley has filed a statement on Form U-3A-2 for exemption as a holding company from the provisions of the act. Indiana-Kentucky proposes to issue not in excess of 100,000 shares of its common stock without par value, to Ohio Valley, for cash as required from time to time prior to January 1, 1957, and Ohio Valley proposes to acquire such shares.

As a result of the proposed transactions, Ohio Valley and Indiana-Kentucky will become subsidiaries of American Gas, of Ohio Edison, and of West Penn Electric. The latter three companies and Cincinnati, Kentucky, and Louisville request authority to acquire the common stock of Ohio Valley.

Service Corporation proposes to render engineering and construction services in connection with the facilities to be constructed. Such services are proposed to be performed at cost, as determined pursuant to Rule U-91, in accordance with the provisions of Rule U-90. Service Corporation has requested that, to the extent the proposed transactions involve a substantial change in the type and character of the companies to be serviced by it, or an increase in the scope of services to be rendered, from those provided in the order of the Commission dated May 11, 1939 (Holding Company Act Release No. 1528), the Commission approve such change and such proposed servicing arrangements pursuant to section 13 of the act and the rules thereunder.

The issuance of common stock by Ohio Valley, and the acquisition of shares of Ohio Valley common stock by Cincinnati, Columbus, Dayton, Ohio Edison and Toledo are proposed to be effected subject to orders of the Public Utilities Commission of Ohio. The issuance of common stock of Indiana-Kentucky is proposed to be effected subject to an order of the Pubic Service Commission of Indiana. The acquisition of common stock of Ohio Valley by West Penn Electric is proposed to be effected subject to an order of the Public Service Commission of Maryland.

In view of the importance and the urgent need for the prompt construction of the Atomic Energy Commission's Portsmouth Area Project, applicants-declarants desire that Ohio Valley and Indiana-Kentucky commence necessary excavation and preliminary construction operations as soon as possible, and request that the Commission issue its order at the earliest practicable date.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to the application-declaration, and that such application-declaration shall not be granted or permitted to become effective, except pursuant to the further order of the Commission;

It is ordered, That a hearing on said application-declaration, pursuant to the applicable provisions of the act and the rules of the Commission, be held on October 27, 1952, at 10:00 a. m., e. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On said date the Hearing Room Clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding should file with the Secretary of the Commission on or before October 27, 1952, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Edward C. Johnson, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the application-declaration, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed issuances of stock by Ohio Valley and Indiana-Kentucky are in accordance with the applicable standards of the act, particularly section 6 (b) or section 7 thereof;

2. Whether the proposed acquisitions of stock by the respective applicants-declarants are in accord with the applicable standards of the act, particularly section 10 thereof;

3. Whether the proposed program of services to be rendered by Service Corporation are in accord with the applicable provisions of the act, particularly section 13 thereof and the rules thereunder;

4. Whether the proposed transactions are in all respects in accordance with the standards of the act, and whether, in the event that the application-declaration should be granted and permitted to become effective, it is necessary or appropriate to impose any terms and conditions to insure compliance with the standards of the act or in the public interest or for the protection of investors and consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission serve a copy of this order by registered mail on the applicants-declarants herein, and that notice of said hearing shall be given to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 34, as Amended, Supplementary Regulation 3, as Amended, Section 5, Special Order 1]

FORD MOTOR CO., LINCOLN-MERCURY DIVISION

APPROVAL OF REVISIONS ATTACHED TO LETTER TO DEALERS, DATED SEPTEMBER 2, 1952

Statement of considerations. This Special Order, pursuant to section 5 of Supplementary Regulation 3 to Ceiling Price Regulation 34, approves certain modifications and supplements to time allowances which appear in the Lincoln-Mercury Suggested Labor Time Schedule 1949-50-51.

The Director of Price Stabilization has determined from the data submitted by the publisher of the Lincoln-Mercury Suggested Labor Time Schedule 1949-50-51, that the approval of these modifications and supplements would not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. 1. On and after the effective date of this order, the modifications and supplements to the Lincoln-Mercury Suggested Labor Time Schedule 1949-50-51, as covered in Lincoln-Mercury Application #LMPSB-1 are authorized for use in establishing the time allowances for the operations described therein.

2. The following notice must be printed or stamped in a prominent position in the publication "Approved by OPS October 18, 1952, by Special Order No. 1 issued under section 5 of SR 3 to CPR 34."

3. All provisions of Ceiling Price Regulation 34, as amended, and Supplementary Regulation 3, as amended, except as changed by this Special Order shall remain in full force and effect.

4. This Special Order or any provision thereof may be revoked, suspended or amended at any time by the Director of Price Stabilization.

Effective date. This order shall become effective October 18, 1952.

TIGHE E. WOODS, *Director of Price Stabilization.*

OCTOBER 17, 1952.

[F. R. Doc. 52-11445; Filed, Oct. 17, 1952; 4:47 p. m.]

[Ceiling Price Regulation 34, as Amended, Supplementary Regulation 3, as Amended, Section 5 Special Order 2]

FORD MOTOR CO.

APPROVAL OF REVISIONS ATTACHED TO LETTER TO DEALERS DATED SEPTEMBER 2, 1952

Statement of considerations. This Special Order, pursuant to section 5 of Supplementary Regulation 3 to Ceiling Price Regulation 34, approves certain modifications and supplements to time allowances which appear in the Ford Suggested Time Schedule Reprint dated June 15, 1952, Passenger Section.

The Director of Price Stabilization has determined from the data submitted by the publisher of the Ford Suggested Time Schedule, 1952, that the approval of these modifications and supplements would not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. 1. On and after the effective date of this order, the modifications and supplements to the Ford Suggested Time Schedule Reprint dated June 15, 1952, as covered in Ford Application #FPSB-1 and #FPSB-2 are authorized for use in establishing the time allowances for the operations described therein.

2. The following notice must be printed or stamped in a prominent position in the publication "Approved by OPS October 18, 1952, by Special Order No. 2 issued under section 5 of SR 3 to CPR 34."

3. All provisions of Ceiling Price Regulation 34, as amended, and Supplementary Regulation 3, as amended, except as changed by this Special Order shall remain in full force and effect.

4. This Special Order or any provision thereof may be revoked, suspended or amended at any time by the Director of Price Stabilization.

Effective date. This order shall become effective October 18, 1952.

TIGHE E. WOODS, *Director of Price Stabilization.*

OCTOBER 17, 1952.

[Ceiling Price Regulation 34, Supplementary Regulation 16, Special Order 4]

GENERAL MOTORS CORP.

CEILING PRICE FOR WHOLESALE LABOR WARRANTY SERVICES ON CERTAIN "SEALED RECIPROCATING COMPRESSORS"

Statement of considerations. This Special Order 4, issued upon application of General Motors Corporation, 3044 West Grand Boulevard, Detroit, Michigan, pursuant to section 3 of Supplementary Regulation 16 to Ceiling Price Regulation 34, establishes ceiling prices for first-year wholesale labor warranty services rendered to General Motors Corporation, or its authorized distributors or dealers, on a new product line of commercial refrigeration compressors known as "sealed reciprocating compressors", by dealers who have not sold the commodity to be serviced.

Section 3 of Supplementary Regulation 16 to Ceiling Price Regulation 34 provides that a manufacturer who is offering for sale a new model of an existing commodity, and who has customarily set or proposed uniform prices that have been adopted throughout the United States for wholesale labor warranty services sold by its dealers, or by central service firms, to it or its distributor organization, as an incident of the sale of commodities, may apply to the Office of Price Stabilization, Service Trades Branch, Washington 25, D. C., for a ceiling price for each new wholesale labor warranty service.

These "sealed reciprocating compressors" are new models of existing commodities manufactured by General Motors Corporation, which has customarily set or proposed uniform prices that have been adopted throughout the United States for wholesale labor warranty services sold by its dealers to it, or its distributor organization, as an incident of the sale of commodities.

The contracts General Motors Corporation has with its authorized dealers require the dealers to provide labor warranty services to customers to whom they sell commodities, without any charge to anyone other than their markup on the commodity. If the dealer who sells the commodity, however, has no service department, or if one dealer sells in another dealer's service area, or if the customer moves from one service area to another, and in some other circumstances, the dealer who sells the commodity is not required to provide such warranty services, but he is required to pay a uniform price, set by General Motors Corporation, to his distributor who in turn will pay that price to another dealer to provide such labor warranty services. When the commodity to be serviced is located in the service area of a different distributor, the distributor whose dealer sold the commodity pays the price for the labor warranty service to General Motors Corporation which in turn pays it to the distributor in whose service area the commodity is located, who in turn pays it to a dealer to provide labor warranty services.

The ceiling price established by this Special Order is based upon anticipated direct labor costs of rendering the wholesale labor warranty service, and is in line with the ceiling prices for comparable wholesale labor warranty services furnished to General Motors Corporation. This ceiling price does not include the cost of new parts, which will be furnished by General Motors Corporation without charge to anyone.

This Special Order applies only to wholesale labor warranty services furnished to General Motors Corporation, or to its distributors or dealers, by dealers who have not sold the commodities to be serviced.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 3 of Supplementary Regulation 16 to Ceiling Price Regulation 34, this Special Order is hereby issued.

1. The ceiling price which General Motors Corporation, 3044 West Grand Boulevard, Detroit, Michigan, may pay for first-year wholesale labor warranty services, exclusive of new parts which will be furnished by General Motors Corporation without charge to anyone, on the models of sealed reciprocating compressors listed below, to dealers who have not sold the commodity, and which such dealers may charge General Motors Corporation or its distributors or dealers for such services is as follows:

Model:	Ceiling price for first-year wholesale labor warranty charge
CAO-33	$14.25
CAO-50	15.50
CAO-75	17.00
CAO-100	17.75
CAO-150	21.00
CAO-200	26.50
CAO-300	35.00
CWO-50	23.25
CWO-75	24.75
CWO-100	26.25
CWO-150	30.00
CWO-200	38.50
CWO-300	48.00
CWO-500	68.25
CWO-750	83.25
CEO-150	30.00
CEO-200	38.50
CEO-300	48.00
CEO-500	68.25
CAWO-50	23.25
CAWO-75	24.75
CAWO-100	26.25
CAWO-150	30.00
CAWO-200	38.50
CAWO-300	48.00

2. Section 18 (c) of Ceiling Price Regulation 34 does not apply to services covered by this Special Order. All other provisions of Ceiling Price Regulation 34 except as changed by this Special Order remain in effect as to such services.

3. This Special Order, or any provision thereof, may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

Effective date. This Special Order shall become effective October 18, 1952.

TIGHE E. WOODS, *Director of Price Stabilization.*

OCTOBER 17, 1952.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 19038]

HELEN SIGBJORNSEN

In re: Estate of Helen Sigbjornsen, deceased; File No. D-28-13127: E. T. sec. 17236.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Exec-

utive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Fritz Sigbjornsen and Katharine Ritter, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever, of the persons named in subparagraph 1 hereof, in and to the Estate of Helen Sigbjornsen, deceased, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Theodora Carlson, as administratrix, acting under the judicial supervision of the Surrogate's Court of Kings County, State of New York;

and it is hereby determined:

4. That the national interest of the United States requires that the persons named in subparagraph 1 hereof, and each of them, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States, the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 20, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 19039]

SOPHIA THORNDIKE

In re: T/W Sophia Thorndike, deceased; File No. D-28-13123.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Elizabeth Francis Oelrichs, Isabella H. S. A. Oelrichs, Elizabeth W. B. Oelrichs, Margarethe G. S. Oelrichs, and Theodor Oelrichs, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraph 1 hereof, and each of them, in and to the trust created by Sophia Thorndike, deceased, presently being administered by Rhode Island Hospital Trust Company, as Successor Trustee, acting under the judicial supervision of the Superior Court, State of Rhode Island, is property which is, and prior to January 1, 1947, was payable or deliverable to, or claimed by, nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that such persons be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 20, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 19040]

MRS. PAULA KINDERMANN DE BERNDT ET AL.

In re: Debts owing to Mrs. Paula Kindermann de Berndt and others. D-28-13129-A-1.

Under the authority of the Trading With the Enemy Act, as amended, (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the persons whose names and last known addresses are listed below:

Name and Address

Mrs. Paula Kindermann de Berndt, Thrombergstrasse 33, Bautzen 1. s., Germany;

Juana Kindermann de Hocke, also known as Johanna Kindermann de Hocke, Kreis Mosbach, Ober-Baden, Germany;

Alred Kindermann also known as Alfred Kindermann, Dorfstrasse 69, Schlepzig, Kreis Lubben Spreewald, Germany;

Herman Kindermann, Ober-Bessingen, Kreis Giessen, Gross-Hessen, Germany;

Carlos Kindermann, Lauta, N. L., Germany;

Fritz Kindermann, Swickauerstr 137, Dresden A-27, Germany;

on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the property described as follows: Those certain debts or other obligations of the Pan-American Life Insurance Company, 2400 Canal Street, New Orleans, Louisiana, arising out of the interest of the persons named in subparagraph 1 hereof, in 100 shares of stock (now retired) of said Pan-American Life Insurance Company issued in the name of Elsa del Carmen, deceased, and income thereon, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons identified in subparagraph 1 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 20, 1952.

For the Attorney General.

VOLUME 17 NUMBER 209

Washington, Friday, October 24, 1952

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 526—INDUSTRIES OF A SEASONAL NATURE

DETERMINATION THAT HANDLING, PACKING, STORING, PREPARING IN THEIR RAW OR NATURAL STATE, FIRST PROCESSING OR CANNING OF PERISHABLE OR SEASONAL FRESH FRUITS OR VEGETABLES ARE INDUSTRIES OF A SEASONAL NATURE

On August 24, 1940 (5 F. R. 3167) the Administrator of the Wage and Hour Division issued a determination that the "first processing" of perishable or seasonal fresh fruits and vegetables is part of an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act. When this determination was issued, it was the position of the Division that the term "first processing" did not include by-product operations. This construction was in accordance with the Division's interpretation of the term for purposes of the exemption provided for first processing fresh fruits and vegetables in section 7 (c) of the act.

Certain modifications and clarifications were made in the Department of Labor's interpretation of "first processing" as used in section 7 (c) of the act on August 30, 1952 (17 F. R. 7929). As there stated, an employer who commences first processing operations on a perishable or seasonal fresh fruit or vegetable is, for the purpose of section 7 (c), considered engaged in "first processing" throughout each series of operations, including by-product operations, which commence with the initial processing of fresh fruits or vegetables and are performed in the same place of employment as a continuous series of operations during which the commodities remain perishable.

Although the Department has adopted this modified position with regard to the section 7 (c) exemption it is not the intention to extend the determination of August 24, 1940, referred to above, beyond its original scope. In order to make this intention clear on the face of the determination and to avoid any possible misconstruction, the determination of August 24, 1940, should be amended to indicate more clearly the original meaning of "first processing."

In order to accomplish this purpose notice is hereby given that paragraph 5 of the Administrator's determination published in the FEDERAL REGISTER on August 24, 1940 (5 F. R. 3167) is amended by adding at the end thereof, the following sentence: "As used in this determination, the first processing of perishable or seasonal fresh fruits or vegetables includes the initial operation which changes the form of the whole fresh fruit or vegetable and all operations on its main portions when performed in a single process as a continuous series of operations throughout which the commodity remains perishable, but does not include by-product operations."

In view of the fact that this amendment is intended only to clarify the application of the determination referred to above it has been concluded that the public procedure and notice requirements of section 4 of the Administrative Procedure Act need not be complied with. Accordingly, this amendment will become effective upon publication in the FEDERAL REGISTER.

(52 Stat. 1060; 29 U. S. C. 201-219)

Signed at Washington, D. C., this 17th day of October 1952.

WM. R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

interest, and the revision of the determination made herein shall be effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C. Sup. 1100) and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001) Sugar Regulation 811, the determination of the amount of sugar needed to meet the requirements of consumers in the continental United States for 1952 (16 F. R. 12929), is hereby revised to read as follows:

§ 811.4 *Sugar requirements, 1952.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1952 is hereby determined to be 7,800,000 short tons, raw value.

Statement of bases and considerations. On December 20, 1951, the supply of sugar required from quota sources in 1952 was determined to be 7,700,000 short tons, raw value. It was indicated at that time that distribution in the 12 months ended October 31, 1951, was about 7,850,000 short tons, raw value, that about 150,000 tons had been used in the 12 months from "invisible" inventories and that further depletion in such inventories probably would occur by December 31, 1951. Final distribution data for 1951 show a total of about 7,737,000 tons and "invisible" inventory statistics indicate the use of an additional quantity of approximately 250,000 tons. Thus, total use in 1951 appears to have been about 8,000,000 short tons. These quantities were utilized at annual average prices of 6.06 cents per pound for raw sugar and 8.38 cents, wholesale, New York basis, for refined sugar. Prices of 5.75 cents for raw sugar and 8.25 cents for refined prevailed at the time that the 7,700,000-ton determination was made. In that determination it was stated that these prices were too low to maintain the domestic sugar industry as required by the Sugar Act of 1948 and the quantity established reflected a reduction of 400,000 tons as a price stimulus.

Beginning in early June, the price of raw sugar, duty paid, New York, fluctuated between 6.37 and 6.62 cents per pound and the generally quoted basis price for refined sugar was 8.80 cents. Average prices for the first nine months of 1952 were 6.23 cents for raw sugar and 8.57 cents for refined sugar. In light of the specific criteria set forth in section 201 of the Sugar Act of 1948 and trends of other prices, refined sugar prices have not attained levels which are "excessive to consumers."

By September 1, refiners, importers and processors of mainland sugarcane and sugar beets had distributed 5,566,601 short tons of sugar, raw value. This was 240,000 more than was distributed in the comparable period of 1951. By October 11, distribution in 1952 was about 291,000 tons greater than by the comparable date in 1951. Total distribution for 1951 was about 7,737,000 tons. Distribution in September–December has increased gradually from about 2,267,000 tons in 1948 to 2,401,000 tons in 1951. If this trend continues in 1952, total distribution should be slightly in excess of 8,000,000 short tons, raw value. The difference between actual distribution and total quotas for a year is accounted for by changes in refiners and importers stocks.

Although an increase in quotas is necessary for continued market activity, in consideration of all stock and price data, the increase is limited to 100,000 tons, continuing a negative allowance for price effect.

Accordingly, the total of the quotas is increased by this action to 7,800,000 short tons, raw value.

(Sec. 403, 61 Stat. 932; 7 U. S. C., Sup., 1153)

Done at Washington, D. C., this 21st day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] K. T. HUTCHINSON,
Acting Secretary.

[Sugar Reg. 813, Amdt. 4]

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

DETERMINATION AND PRORATION OF 1952 QUOTAS

Basis and purpose. The amendments herein are issued pursuant to section 202 of the Sugar Act of 1948 and are made for the purpose of giving effect to the revision of the determination of sugar requirements made by the Secretary of Agriculture.

After providing for quotas in specific amounts for domestic sugar producing areas and the Republic of the Philippines, section 202 of the act provides that the difference between the sum of such quotas and the requirements estimate shall be prorated to foreign countries other than the Republic of the Philippines on the basis of stated percentages. Thus the statute states specifically how quotas are to be revised when there is a change in the estimate of requirements. Furthermore, in order to make available the additional sugar authorized by this amendment to meet current demand at stable prices and thereby protect the interests of consumers, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is impracticable, unnecessary, and contrary to the public interest. The amendments made herein shall become effective upon publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C. Sup. 1100) and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001), Sugar Regulation 813 (16 F. R. 13032; 17 F. R. 5691, 6758, 8449), establishing sugar quotas for 1952 is hereby amended as hereinafter set forth.

1. Section 813.32 is changed to read:

§ 813.32 *Basic quotas for other areas.* There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1952 the following quotas.

Area:	*Quota in terms of short tons, raw value*
Republic of the Philippines	974,000
Cuba	2,523,211
Other foreign countries	34,789

2. Paragraphs (e) and (f) of § 813.33 are changed to read:

§ 813.33 *Determination and proration of area deficits.* * * *

(e) *Deficit in proration of quota for foreign countries other than Cuba and the Republic of the Philippines.* It is hereby determined, pursuant to section 204 (b) of the act, that unfilled prorations to foreign countries of the quota for foreign countries other than Cuba and the Republic of the Philippines established under section 202 (c) of the act amount to 34,966,419 pounds of sugar, raw value, and that by September 1, 1952, Colombia, Costa Rica, the Dominican Republic, Haiti, Netherlands, Peru, and the United Kingdom had filled their prorations of such quota in effect on that date.

(f) *Allotment of unfilled prorations of quota for foreign countries other than Cuba and the Republic of the Philippines.* An amount of sugar equal to the unfilled prorations to foreign countries determined in paragraph (e) of this section is hereby prorated, pursuant to subsections (b) and (d) of section 204 of the act as follows:

Country:	*Additional prorations in pounds, raw value*
Colombia	484
Costa Rica	37,329
Dominican Republic	12,085,510
Haiti	1,670,272
Netherlands	394,843
Peru	20,142,455
United Kingdom	635,526

3. Paragraph (a) of § 813.34 is changed to read:

§ 813.34 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines—(a) Basic prorations.* The quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated, pursuant to subsection (c) of section 202 of the act, among such countries as follows:

Country:	*Proration in pounds, raw value*
Belgium	411,078
Canada	788,059
China and Hongkong	402,426
Czechoslovakia	367,770
Dominican Republic	9,314,271
Dutch East Indies	295,253
Guatemala	467,778
Haiti	1,267,274
Honduras	4,794,476
Mexico	8,425,089
Netherlands	304,305
Nicaragua	14,276,296
Peru	15,523,738
Salvador	11,465,369
United Kingdom	489,798
Venezuela	405,063
Other countries	59,957
Subtotal	69,078,000
Unallotted reserve	500,000
Total	69,578,000

Statement of bases and considerations—Revised quotas due to increase in requirements. The revised quotas for Cuba and "Other Foreign Countries" have been established by prorating the amount by which the revised estimate of requirements exceeds the quotas for domestic areas and the Republic of the Philippines on the basis of 98.64 percent to Cuba and 1.36 percent to "Other Foreign Countries" as provided in section 202 (c) of the act. In addition, the revised quota for "Other Foreign Countries", after setting aside 500,000 pounds for an unallotted reserve, has been prorated on the basis of the division of the quota made in General Sugar Quota Regulations, Series 4, No. 1, issued December 12, 1936, as provided in section 202 (c).

Area deficit. Section 204 (b) of the act provides that if on the first day of September in any calendar year any part or all of any proration of the basic quota to a foreign country other than Cuba and the Republic of the Philippines has not been filled, the Secretary may revise the prorations and allot the unfilled portions to those foreign countries which have filled their prorations by such date. Such revision was made by S. R. 813, Amendment 3 (17 F. R. 8449) on the basis of the basic quota for such countries prevailing on that date. Inasmuch as only Colombia, Costa Rica, the Dominican Republic, Haiti, Netherlands, Peru and the United Kingdom had filled their prorations of the smaller basic quota then prevailing, the unfilled portions of the quota established in § 813.32 herein and prorated in § 813.34 (a) is reallotted in § 813.33 (h) to the seven countries indicated above.

After giving effect to the changes set forth in this amendment to Sugar Regulation 813, the quotas for all areas are as follows:

BASIC QUOTAS, PRORATIONS OF DEFICITS AND ADJUSTED QUOTAS, 1952

[Short tons, raw value]

Production area	Basic quota	Proration of deficits		Adjusted basic proration Sept. 1, 1952	Adjusted quota

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 909—ALMONDS GROWN IN CALIFORNIA

ADDITIONAL OUTLETS FOR SURPLUS ALMONDS

Correction

In the first sentence of the first paragraph of F. R. Doc. 52-11451, appearing on page 9584 of the issue of Wednesday, October 22, 1952, the date "September 7, 1952" should read "September 17, 1952" and "Marketing Agreement No. 19" should read "Marketing Agreement No. 119".

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 34, Amdt. 4]

CPR 34—SERVICES

MODIFICATION OF POSTING REQUIREMENTS

Correction

In F. R. Doc. 52-11520, appearing on page 9602 of the issue for Thursday, October 23, 1952, the following change should be made:

In the eighth and ninth lines of the paragraph under item 1, "custioners" should read "customers".

[Ceiling Price Regulation 34, Amdt. 9 to Supplementary Regulation 3, Correction]

CPR 34—SERVICES

SR 3—APPROVAL OF CERTAIN AUTOMOTIVE AND FARM TRACTOR REPAIR SERVICE FLAT RATE MANUALS

ADDITIONAL FLAT RATE MANUALS; CORRECTION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Correction to Amendment 9 to Supplementary Regulation 3 to Ceiling Price Regulation 34 is hereby issued.

Through inadvertence Amendment 9 to Supplementary Regulation 3 to Ceiling Price Regulation 34, issued September 8, 1952 (17 F. R. 8118) did not include Appendix RR the "Notice" to be affixed to the Chevrolet 1952 Supplement to 1946–1950 Chassis Flat Rate Schedule.

Accordingly, the following Appendix is added to the amendment.

APPENDIX RR

This is the "Notice" for the 1952 Supplement to Chevrolet Chassis Flat Rate Schedule.

NOTICE

You are permitted by OPS to use this Manual, and you must use the Supplement to arrive at your ceiling price for a given job:

If—

(1) You use the computation table printed in the 1946-50 manual to compute the ceiling price for each job by multiplying the time allowance of each operation by your customers' hourly rate, which you charged in the base period, December 19, 1950, to January 25, 1951, inclusive; and

(2) Your present ceiling price for that job as determined under section 5 of Ceiling Price Regulation 34, is not a "fixed charge" which is lower than the price you determined by the use of this Manual (a fixed charge is a charge not computed on the basis of the hourly rate. Examples: Minor tune-up all Blank Models, $_____, Relining brakes on 1951 Blank Cars, $_____); and

(3) Where you did not use a previous edition of this Manual for the job during the base period, the supplementary statement which you file shows that such job is included among those jobs for which you will hereafter determine your ceiling price by the use of this Manual. (You must file with your District OPS Office in accordance with section 18 of Ceiling Price Regulation 34 a statement of your intention to use all or any part of this Manual for determining your ceiling price of any of your jobs for which you did not use an earlier edition of this Manual during the base period December 19, 1950, to January 25, 1951, inclusive.)

(4) The notice which you post in your place of business within ten days after you begin to use this Manual, states that such job is included among the jobs for which you will hereafter determine your ceiling price by the use of this Manual.

Important: In case you are in doubt about your ceiling prices, consult your OPS District Office.

This notice must be attached to your Manual.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 23, 1952.

[Ceiling Price Regulation 34, Amdt. 11 to Supplementary Regulation 3]

CPR 34—SERVICES

SR 3—APPROVAL OF CERTAIN AUTOMOTIVE AND FARM TRACTOR REPAIR SERVICE FLAT RATE MANUALS

APPROVAL OF ADDITIONAL FLAT RATE MANUALS AND LABOR SCHEDULES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 11 to Supplementary Regulation 3 (16 F. R. 8828) to Ceiling Price Regulation 34, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds various flat rate manuals and labor schedules and supplements thereof to the list of approved flat rate manuals and labor schedules in section 2 of Supplementary Regulation 3 to Ceiling Price Regulation 34.

The Statements of Consideration which accompanied Supplementary Regulation 3 to Ceiling Price Regulation 34, and Amendment 1 to that regulation are equally applicable to this amendment and are incorporated herein by this reference.

The character of the approval granted by this amendment made it impracticable and unnecessary to consult formally with representatives of the industry and trade associations although in each instance representatives of the publishers of the manuals were consulted and consideration was given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Supplementary Regulation 3 to Ceiling Price Regulation 34 is amended in the following respects:

1. Section 2 is amended by adding after paragraph (rr), paragraphs (ss) to (uu) inclusive as follows:

(ss) Chilton's Motor Age Body and Frame Manual, Third Edition, 1952.

(tt) 1952 Buick Flat Rate Manual, Chassis.

(uu) 1953 Ford Suggested Time Schedule, Passenger Cars.

2. Appendices SS to UU are added after Appendix RR as follows:

APPENDIX SS

This is the "Notice" for the Chilton's Motor Age Body and Frame Manual, Third Edition, 1952.

NOTICE

You are permitted by OPS to use this Manual to arrive at your ceiling price for a given job:

If—

(1) You use the Labor Charge Conversion table printed in the back part of the manual to compute the ceiling price for each job, and reduce the price list here for that job to one based on your own authorized customers' hourly rate which you charged in the base period December 19, 1950, to January 25, 1951, inclusive, if it is below $4.00 for body work or $3.00 for mechanical work; and

(2) Your present ceiling price for that job, as determined under section 5 of Ceiling Price Regulation 34 is not a "fixed charge" which is lower than the price you determined by the use of this Manual (a fixed charge is a charge not computed on the basis of the hourly rate. Examples: Hood Assembly, refinish to match car, all Blank Models, $_____, Windshield Glass, replace, all Blank Models $_____; and

(3) Where you did not use a previous edition of this Manual for the job during the base period, the supplementary statement which you file shows that such job is included among those jobs for which you will hereafter determine your ceiling price by the use of this Manual. (You must file with your District OPS Office in accordance with section 18 of Ceiling Price Regulation 34 a statement of your intention to use all or any part of this Manual for determining your ceiling price of any of your jobs for which you did not use an earlier edition of this Manual during the base period December 19, 1950 to January 25, 1951, inclusive.)

(4) The notice which you post in your place of business, within ten days after you begin to use this Manual, states that such job is included among the jobs for which you will hereafter determine your ceiling price by the use of this Manual.

Important. In case you are in doubt about your ceiling prices, consult your OPS District Office.

This notice must be attached to your manual.

APPENDIX TT

This is the Notice for the 1952 Buick Flat Rate Manual, Chassis.

NOTICE

You are permitted by OPS to use this Manual to arrive at your ceiling price for a given job:

If—

(1) You use the Labor Conversion Table at the back of the Manual to compute the ceiling price for each job by multiplying the time allowance of each operation by your customers' hourly rate, which you charged in the base period, December 19, 1950, to January 25, 1951, inclusive; and

(2) Your present ceiling price for that job, as determined under section 5 of Ceiling Price Regulation 34, is not a "fixed charge" which is lower than the price you determined by the use of this Manual (a fixed charge is a charge not computed on the basis of the hourly rate. Examples: Minor tune-up, all Blank Models, $_____, Relining brakes on 1951 Blank Cars. $_____); and

(3) Where you did not use a previous edition of this Manual for the job during the base period, the supplementary statement which you file shows that such job is included among those jobs for which you will hereafter determine your ceiling price by the use of this Manual. (You must file with your District OPS Office in accordance with section 18 of Ceiling Price Regulation 34 a statement of your intention to use all or any part of this Manual for determining your ceiling price of any of your jobs for which you did not use an earlier edition of this Manual during the base period December 19, 1950, to January 25, 1951, inclusive.)

(4) The notice which you post in your place of business, within 10 days after you begin to use this Manual, states that such job is included among the jobs for which you will hereafter determine your ceiling price by the use of this Manual.

Important: In case you are in doubt about your ceiling prices, consult your OPS District Office.

This notice must be attached to your manual.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 11 to Supplementary Regulation 3 to Ceiling Price Regulation 34 shall be effective on October 28, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 23, 1952.

[F. R. Doc. 52-11562; Filed, Oct. 23, 1952; 4:00 p. m.]

In the first sentence of the first paragraph of F. R. Doc. 52-11451, appearing October 23, 1952, the following change should be made:

In this notice insert "Manual."

[Ceiling Price Regulation 74, Amdt. 16]

CPR 74—Ceiling Prices of Pork Sold at Wholesale

SEMI-STERILE CANNED MEAT

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order 2, this Amendment 16 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment removes from Ceiling Price Regulation (CPR) 74 semi-sterile canned products listed in section 25 when sold by wholesale sellers who otherwise do not deal in meat items covered by one of the wholesale meat regulations—CPR 24, 74, 92 or 101.

At present both CPR 74 and CPR 14, the dry grocery wholesale regulation, establish ceiling prices for semi-sterile canned pork products sold at wholesale. To avoid confusion this amendment provides that CPR 74 will cover wholesale sales of those products by sellers who sell any other commodity the ceiling price of which is governed by one of the following wholesale meat regulations: CPR's 24, 74, 92 or 101. Other sellers of these products deal generally in dry groceries, which are governed by CPR 14. Since these sellers are generally accustomed to CPR 14 and have no occasion, except for semi-sterile canned pork products, to refer to CPR 74 in ascertaining their ceiling prices, placing their sales of these products under CPR 14 will relieve these sellers of the burden of complying with two separate ceiling price regulations.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives and has given full consideration to their recommendations. In his judgment the provisions of this regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended by deleting sec. 6 (f) and substituting therefor sec. 6 (f) and (g), reading as follows:

(f) Canned pork produced outside the continental United States and sold in the original container in which it was processed; or

(g) Semi-sterile canned meat, listed in section 25, sold by a seller who does not sell any other commodity the ceiling price of which is determined by Ceiling Price Regulations 24, 74, 92 or 101.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 28, 1952.

Tighe E. Woods,
Director of Price Stabilization.

October 23, 1952.

[F. R. Doc. 52-11563; Filed, Oct. 23, 1952; 4:00 p. m.]

[Ceiling Price Regulation 176]

CPR 176—New England Hemlock and Other Species of New England Softwoods

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 176 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollars-and-cents ceiling prices for New England hemlock lumber. It is intended in the near future to expand the coverage of this regulation so as to provide dollars-and-cents ceiling prices for the other species of New England Softwoods. This regulation covers manufacturers (sawmills, planing mills and concentration yards) producing merchantable rough or surfaced hemlock lumber sawed from hemlock (Tsuga canadensis) in the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. In recognition of their historic function in this industry, provision is made for allowing commission men, through whom a sale may be made, an addition to the mill ceiling price. Resellers, such as wholesalers and distribution yards, are not under the coverage of this regulation. Their ceiling prices are determined under the General Ceiling Price Regulation or by Supplementary Regulation 87 to the General Ceiling Price Regulation.

Nature of the industry. Hemlock lumber is sawed in these States in approximately 3,000 mills that also cut lumber from the other species of trees common to the region. Hemlock constitutes about 19 percent of the lumber output of these mills and has an annual f. o. b. mill value of more than $14,000,000.

The 1947 Census of Manufacturers shows that the mills cutting hemlock lumber are preponderantly small mills, 88 percent producing 1 thousand to 1 million board feet per year, all species, and the other 12 percent are larger mills that cut from 1 million to 10 million board feet per year. The mills in Maine, Massachusetts, New Hampshire, and Vermont produce 98 percent of the hemlock lumber. Hemlock lumber is used mainly for construction purposes.

The ceiling prices established by this regulation are at the level of prices prevailing during the period January 25, 1951, through February 24, 1951. These new dollar-and-cent ceilings will eliminate the distorted price pattern frozen under the General Ceiling Price Regulation and will simplify price control compliance and administration in this industry.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable in the formulation of this regulation, the Director of Price Stabilization has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; to those prevailing during the period January 25 through February 24, 1951, as well as to the level of prices prevailing just before the issuance of this regulation; and to all relevant factors of general applicability.

In formulating this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included two meetings in Washington, D. C., with the Industry Advisory Committee for Northeastern Softwoods, and several meetings with the subcommittees.

Every effort has been made to conform this regulation to existing business practices, especially those peculiar to the New England region with respect to the production, sale and distribution of New England hemlock and other species of New England Softwoods lumber. Insofar as any provisions of this regulation may operate to compel changes in those business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

ARTICLE I—COVERAGE

SECTION 1.1 *What this regulation does.* This regulation establishes dollars-and-cents ceiling prices for manufacturers' sales of New England Hemlock lumber which are effected directly by manufacturers or through commission men.

SEC. 1.2 *Which regulation is superseded.* This regulation supersedes the General Ceiling Price Regulation in respect to the transactions covered by this regulation.

SEC. 1.3 *Items, species, and area of production covered.* This regulation covers all New England Hemlock lumber (Tsuga canadensis), rough or dressed, green or dry, produced in the states of Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island.

SEC. 1.4 *Sellers and transactions covered.* (a) This regulation applies to all sales by manufacturers of the lumber covered by this regulation. It thus applies when a manufacturer sells his lumber to a wholesaler, retailer, industrial user, or to any other reseller or consumer of lumber, whether or not the sale is effected directly or through a commission man.

(b) The term "manufacturer" includes sawmills, planing mills and concentration yards. Sawmills and planing mills are establishments engaged in the production of lumber from logs or rough lumber by sawing or planing or both. Concentration yards are establishments which obtain lumber, chiefly in rough green form, from several producers; these establishments prepare lumber for commercial shipment by grading, resorting, drying, planing, resawing, or other processing; and they sell their lumber chiefly to large industrial users for remanufacture, to resellers, or to building contractors.

(c) The term "commission man" refers to a person who customarily initiates the sale of, and sells, lumber in carload or truckload quantities for two or more manufacturers; he does not purchase for his own account or assume any credit risks; he receives his compensation in the form of a commission based on the amount of lumber sold, and is independent of both buyer and seller.

SEC. 1.5 *Geographical applicability.* Every manufacturer's sale for delivery (F. O. B. or on a delivered basis) in the 48 states of the United States or in the District of Columbia is subject to this regulation, whether or not the sale of the lumber is made in the United States.

ARTICLE II—BASIC CEILING PRICES, ADDITIONS, RETAIL-TYPE SALES AND COMMISSION-TYPE SALES

SEC. 2.1 *General explanation of ceiling prices.* (a) The basic ceiling prices established by this regulation are f. o. b. ceiling prices. They are set forth in Article VII. These basic f. o. b. ceiling prices differ depending upon whether the sale is made: f. o. b. cars or trucks at customary loading points; f. o. b. mill pit; or f. o. b. on sticks in yard.

(b) Sections 2.2 through 2.6 explain how the basic f. o. b. ceiling prices are modified under certain circumstances, as, for example, when you sell your lumber on a delivered basis, or when you sell your lumber through a commission man.

SEC. 2.2 *Delivered sales; general.* This regulation permits you to sell your lumber on a delivered basis as well as on a f. o. b. basis. On sales on a delivered basis, you may add to the basic f. o. b. cars or trucks ceiling prices the transportation additions as described in section 2.3.

SEC. 2.3 *Delivered ceiling prices*—(a) *Rail carrier.* When you sell on a delivered basis and you ship your lumber by rail, the delivered ceiling prices are the basic f. o. b. cars or trucks ceiling prices plus an addition for transportation. The transportation addition is computed by multiplying the appropriate established weight shown in Article VII by the applicable through rail rate in effect at the time of shipment. When a rail shipment is followed by a truck haul, the actual cost of truck delivery may also be added. No addition may be made for a truck haul preceding the rail haul, as, for example, when a mill located away from a railhead hauls lumber by truck to the railhead. The transportation addition must be rounded out to the nearest quarter-dollar per M'BM. The delivered price need not thereafter be revised or adjusted even if the amount actually charged by the rail carrier is different from the addition for transportation included in your delivered price.

(b) *Common or contract carrier other than rail.* When you sell on a delivered basis and the shipment moves entirely by common or contract carrier other than by rail carrier, the actual cost of transportation may be added to the basic f. o. b. cars or trucks ceiling prices.

(c) *Private truck shipments.* When you sell on a delivered basis, and the shipment moves entirely by truck owned or controlled by you the delivered ceiling prices are the basic f. o. b. cars or trucks ceiling prices plus one of the following additions:

(1) For distances up to and including 30 miles, not more than $5.00 per M'BM.

(2) For distances greater than 30 miles, an amount equal either to the applicable through rail rate in effect at the time of shipment for the equivalent distance multiplied by the appropriate established weight; or an amount equal to the applicable common carrier truck charge.

(d) *Distance defined.* As used in this section, the term distance refers to the actual mileage from your customary loading out point to the point of destination as measured by truck speedometer. It does not include the return mileage from the point of destination to your customary loading out point. The term point of destination includes a yard or job site.

SEC. 2.4 *Retail-type sales*—(a) *Increased ceiling prices.* On retail-type sales, as defined in paragraph (b) of this section, the ceiling prices are the basic f. o. b. cars or trucks ceiling prices increased by 15 percent.

(b) *Definition and limitations.* (1) A retail-type sale is a sale of less than 10,000 feet board measure to a buyer who is a contractor or ultimate consumer, and who will use the lumber for construction or maintenance; it is not a sale to a commercial or industrial user for use in manufacturing; nor is it a sale to a buyer who purchases the lumber for resale. The lumber must be for use within a radius of 50 miles of the seller's customary loading out point by truck. The total quantity of lumber involved in a single transaction or sale, between you and the buyer, without regard to the quantities involved in single deliveries, shall determine whether or not a sale qualifies as a retail-type sale within the meaning of this section.

(2) If you increase the basic f. o. b. cars or trucks ceiling prices for a retail-type sale: You must give the buyer the privilege of exchanging and returning unused lumber; you must rectify promptly any short deliveries from stock you keep on hand for this purpose; you may either deliver the lumber to the buyer at your mill, or at a place the buyer selects, but you may not make a further addition for delivery as permitted in section 2.3; and you may not increase the basic ceiling prices for a commission paid to a commission man as permitted in section 2.6.

SEC. 2.5 *Miscellaneous price additions.* (a) You may add not more than the amount set forth below to the appropriate basic ceiling (or lower) prices, for the following indicated services:

(1) Antistain treatment by dipping in a vat (not by spraying) containing an effective chemical solution: $1.00 per M'BM.

(2) Staking, wiring, and separating lumber in open top cars: $25.00 per car covering all materials and labor.

(3) Erecting, on open or closed cars, bulkheads made in conformity with the specifications of the Mechanical Division of the Association of American Railroads: $10.00 per bulkhead covering all materials and labor.

(4) Packaging in sling-loads or otherwise whereby the load is divided into individual parcels to facilitate mechanical loading and reloading: $3.00 per M'BM covering all materials and labor.

(b) Except for antistain treatment, the additions provided in paragraph (a) of this section may be made only when the indicated services are specifically requested by the buyer.

SEC. 2.6 *Commission-type sales*—(a) *Addition allowed.* Except as provided in section 2.4 (b), when a sale of your lumber is brought about by the efforts of a commission man, your ceiling price is the otherwise applicable ceiling price on the lumber sold plus 4 percent of the applicable f. o. b. ceiling price. However, the amount which you may charge the buyer, pursuant to this section, over and above the otherwise applicable ceiling price, may not exceed the actual com-

mission which you pay the commission man. (The term commission man is defined in section 1.4.)

(b) *Pyramiding prohibited.* The price additions permitted for a commission man in this section may not be added more than once regardless of the number of commission men participating in the transaction.

ARTICLE III—PRICING RULES AND GRADES

SEC. 3.1 *Pricing rules.* You must apply the following rules in determining ceiling prices under this regulation:

(a) Lumber sold in a combination of grades, for which no ceiling price is specifically set forth in this regulation, may not be sold above the ceiling price for the lowest priced grade actually included in the combination. However, it is permissible to sell a combination of grades where the exact quantity of each grade shipped is separately shown on the invoice and separately tallied, in which case the appropriate ceiling price for the quantity of each grade shipped may be charged.

(b) If the buyer pays cash, your ceiling prices determined under other provisions of this regulation are reduced by the amount of the discount which during the period from December 19, 1950, through January 25, 1951, you allowed a purchaser of the same class for the payment of cash within the same period of time. If you were not in business between December 19, 1950, and January 25, 1951, your ceiling prices determined under other provisions of this regulation are reduced by 2 percent for cash payment within 10 days from date of invoice or bill of lading, whichever is later.

SEC. 3.2 *Grades.* The grade terms used in this regulation relative to Hemlock lumber have the meanings set forth in Standard Grading Rules for Hemlock and Tamarack Lumber published by the Northern Hemlock and Hardwood Manufacturers Association, Oshkosh, Wisconsin, effective July 10, 1947.

ARTICLE IV—SPECIAL CEILING PRICES

SEC. 4.1 *Establishment of ceiling prices on application*—(a) *Applications.* If you wish to sell a lumber item of any species, grade, size, seasoning, working, or other specification or extra, or if you wish to make an addition for a special service, for which a specific ceiling price is not listed in, or cannot be determined from, this regulation, you must file an application with the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., by registered mail, return receipt requested, to establish a ceiling price for the item or special service. Your application, which must be signed by an authorized person, must contain the following:

(1) Your trade name and address.

(2) As complete a description as possible of the lumber item or special service for which the application is filed. For the lumber item, you must include the species, grade, size, seasoning, and working (if any), and any other special specification, or extra, together with the quantity to be sold (if known).

(3) Your proposed ceiling price, which you must base upon the most closely comparable item or service, for which a dollars-and-cents ceiling price is established by this regulation, adjusted by the addition or subtraction of the differential which you believe will result in a ceiling price for the item, or service, that is in line with the level of other ceiling prices established by or under this regulation. You must state why you believe the differential you propose will result in a ceiling price for the item, or service, which is in line with the level of other ceiling prices established by this regulation.

(4) Your ceiling price of the item, or service, if any, and of the most closely comparable item, or service, as established by you under the General Ceiling Price Regulation.

(b) *Quotation of proposed ceiling prices.* You may quote a ceiling price proposed under the provisions of paragraph (a) of this section and you may sell at that proposed ceiling price: *Provided,* That you file an application for approval of that special ceiling price within five days after quoting the proposed ceiling price or selling at that price: *And provided further,* That you agree to refund, and later refund, to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item, or service, that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you by letter within 30 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to nonretroactive disapproval or adjustment at a later date.

(3) No application will be approved under this section unless it is found that a proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

(d) *Effect on other transactions.* A special ceiling price approved pursuant to application made under this section shall be your ceiling price for all transactions involving the same item or service unless a specific ceiling price for the item shall subsequently be established by changes in this regulation, or unless the approval is subsequently revoked or modified by the Director of Price Stabilization.

ARTICLE V—RECORDS AND INVOICES

SEC. 5.1 *Records*—(a) *Current records.* On and after the effective date of this regulation, every person who sells, and every person who in the regular course of business buys, lumber covered by this regulation, shall make and keep for inspection by the Director of Price Stabilization, for a period of two years, accurate records or invoices of each sale or purchase of lumber subject to this regulation. The records must show:

(1) The date of the purchase or sale.

(2) The name and address of the buyer and seller.

(3) The quantity, grade, size, and condition of lumber covered by this regulation which is sold or bought.

(4) Prices charged or paid and terms of sale.

(5) All pertinent information which affects the ceiling prices, such as any specification or extra, and whether each purchase or sale is made on an f. o. b. or on a delivered basis: In the case of a sale on delivered basis your records must show all the transportation charges, together with the rates applied, and the origin and destination of shipment. Records must also show all premiums, discounts and allowances.

The retention by a buyer of an invoice furnished by a seller, which includes the factual information required to be made a matter of record by this paragraph, shall be considered as compliance with the provisions of this paragraph.

(b) *Existing records.* You shall also continue to preserve, for the applicable periods indicated in section 16 of the General Ceiling Price Regulation, all records which you made and kept under the provisions of section 16 of the General Ceiling Price Regulation.

(c) *Other records.* If you apply for approval of a proposed ceiling price under the provisions of section 4.1 of this regulation, you shall preserve or make and you shall keep for inspection by the Director of Price Stabilization for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, accurate records from which you obtain the data you submit in connection with your application for such ceiling price.

SEC. 5.2 *Invoices.* On all sales of lumber covered by this regulation, you must submit an invoice to the buyer which shows the quantity, and a description, of the lumber sold. Any working, condition (green or dry), specification, extra, or service, which bears upon the price charged for your lumber must be set forth in the invoice, but the invoice need not show separately the charge for such items.

(a) On f. o. b. sales, your invoice must also show the f. o. b. price.

(b) On delivered sales, involving a rail or truck shipment, your invoice must also show:

(1) The delivered price;

(2) The point of origin and destination of shipment;

(3) The applicable rail or truck rate; otherwise the amount added for transportation.

ARTICLE VI—MISCELLANEOUS PROVISIONS

SEC. 6.1 *Modification of proposed ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices reported or proposed under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 6.2 *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revised.

SEC. 6.3 *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 6.4 *Transfers of business or stock in trade.* If the business assets or stock in trade of any business are sold or otherwise transferred after the effective date of this regulation, and the transferee carries on the business, or continues to deal in the same products, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject, if no such transfer had taken place, and his obligations to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 6.5 *Excise, sales and similar taxes.* Any person may collect, in addition to the ceiling price established by this regulation, any excise, sales or similar tax imposed upon him by reason of his sale of a product covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the amount of the tax collected.

SEC. 6.6 *Interpretations.* If you wish an official interpretation of this regulation you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon, and in conformity with a written official interpretation, will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revised.

SEC. 6.7 *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt or agree to do or omit to do any such acts. Specifically (but not in limitation of the above) you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established by this regulation, and you shall keep, make and preserve true and accurate records and reports required by this regulation. Prices lower than the ceiling prices may, of course, be charged and paid.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or, if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 6.8 *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements, trade understandings, and breaking up an order or apportioning deliveries in order to get the retail-type sale addition, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 6.9 *Exports.* The ceiling prices for export sales, or sales for export, of lumber covered by this regulation are governed by Ceiling Price Regulation 61 issued by the Office of Price Stabilization.

ARTICLE VII—BASIC CEILING PRICE TABLES AND ESTABLISHED WEIGHTS

SEC. 7.1 *Ceiling prices and established weights for square edge New England Hemlock.* The basic ceiling prices f. o. b. cars or trucks at customary loading out points, or f. o. b. on sticks in yard, or f. o. b. mill pit for New England Hemlock lumber processed square edge per 1,000 feet board measure are set forth below in Table I. Established weights for this lumber per 1,000 feet board measure are set forth below in Table 2.

TABLE I

[Basic ceiling prices for New England hemlock lumber f. o. b. cars or trucks at customary loading out points, square edge, green, D4S or D2S & M, and shiplap, R/L, 6- to 14-foot lengths, inclusive.]

3 x 4 and 4 x 4''	$82.00
2 x 3, 4 and 5''	78.00
2 x 6'' and wider	81.00
1 x 4'' and wider	80.00
1 x 5'' and wider	81.00
1 x 6 and 8''	83.00

No. 3 Hemlock (outs) deduct $20.00.

FOOTNOTES

Additions and deductions per M'BM to ceiling prices in Table I.

1. Rough: deduct $10.00.
2. D1S or D2S: deduct $2.00.
3. 1 x 3'': deduct $3.00 from 1 x 4'' and wider price.
4. 1'' Hemlock shorts: deduct $20.00.
5. Rough in pit: deduct $10.00.
6. Dry on sticks, 90 days or more: add $10.00.
7. Dry, 90 days or more, f. o. b. cars or truck: add $15.00.
8. For each 2 feet over 14 feet length in 2'' and thicker: add $2.00.
9. Timbers 4 x 6'' to 8 x 8'': add $4.00 to 2 x 6'' and wider prices.
10. Timbers 4 x 10'' to 12 x 12'': add $8.00 to 2 x 6'' and wider prices.
11. Specified lengths: add $3.00.
12. Bead or V-joint 1 side: add $1.00.
13. Bead or V-Joint 2 sides: add $1.50.
14. Siding to pattern No. 105 or No. 106: add $5.00.
15. Siding to standard patterns other than No. 105 or No. 106, 4'' or wider: add $7.00.
16. D2S and resaw 1 cut: add $2.50.
17. D2S and resaw 2 cuts: add $4.50.
18. D4S and resaw 1 cut: add $4.50.
19. D4S and resaw 2 cuts: add $6.50.
20. Resaw rough dry 1 cut: add $6.50 to rough dry ceiling price as calculated in footnote 1 above; and second cut: add additional $2.00.
21. Ripping: add for each cut $3.00.
22. No addition for double end trimming.

TABLE II

[Established weights for square edge New England hemlock lumber]

	ROUGH	DRESSED
	Pounds per M'BM	*Pounds per M'BM*
Green	4,000	3,000
Dry	3,000	2,000

ARTICLE VIII—DEFINITIONS

SEC. 8.1 *Definitions.* As used in this regulation, the terms which appear in it shall be construed in the following manner unless otherwise clearly required by the context:

Commission man. This term is defined in section 1.4.

Director of Price Stabilization. This term extends to any official (including officials of Regional or District Offices) to whom the Director of Price Stabilization, by order, delegates a function, power, or authority referred to in this regulation.

Established weights. This term means the weights per 1,000 feet board measure as set forth in Article VII of this regulation.

F. o. b. cars. This term means loaded at the seller's expense on railroad cars at the customary loading out point of the seller.

F. o. b. mill pit. This term means loaded at the seller's expense on buyer's truck or other conveyance at the end of the seller's mill pit.

F. o. b. on sticks in yard. This term refers to lumber piled on sticks in the seller's yard from which point the buyer takes delivery.

F. o. b. trucks. This term means loaded at the seller's expense on the truck of the seller or of a common or contract carrier at the seller's customary loading out point, such as, at the mill site or at the nearest point to the mill site where the carrier sends a truck.

Manufacturer, saw mill, planing mill, concentration yard. These terms are defined in Section 1.4 of this regulation. Note particularly that the term "mill" as used in this regulation includes saw

mills, planing mills, and concentration yards.

M'BM. This abbreviation refers to 1,000 feet board measure of lumber.

Most comparable item or grade. This term means the item or grade of lumber covered by this regulation most nearly like an item or grade for which an application is filed under Article IV of this regulation. That item or grade is the closest one of a group of related items or grades which are normally classed together for pricing purposes, even though they may differ in respect to size or name.

Person. This term includes any individual, corporation, partnership association, or any other organized group of persons, or the legal successor or representative of the foregoing, and the United States and any other government or political subdivisions or agencies.

Records. This term includes books of accounts, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, settlement sheets and other papers or documents.

Retail type sale. This term is defined in section 2.4.

Sell. This term includes sell, dispose, supply, barter, trade, lease, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

Square edge. This term refers to square edge lumber covered by this regulation which is sawn or processed on four sides.

Surfaced, dressed, or worked. These terms refer to lumber when planed to a smooth finish and generally surfaced to a specified thickness. The process of producing surfaced or dressed lumber is known as "surfacing," "dressing", or "planing." Abbreviations used in this regulation are D1S, D2S, and D4S meaning, respectively, "dressed" on 1, 2, and 4 sides.

You. The pronoun "you" indicates any person who manufactures lumber subject to this regulation. "Your" and "yours" are construed accordingly.

Effective date. This regulation shall become effective October 28, 1952.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 23, 1952.

[F. R. Doc. 52-11564; Filed, Oct. 23, 1952; 4:01 p. m.]

[General Ceiling Price Regulation, Amdt. 3 to SR 65]

GCPR, SR 65—ADJUSTMENT OF CEILING PRICES FOR RETAIL SALES OF PORK PRODUCTS

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to Supplementary Regulation 65 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes four substantive changes in Supplementary Regulation (SR) 65 to the General Ceiling Price Regulation (GCPR):

(1) Heretofore, retailers were required to adjust the retail ceiling prices for pork cuts on the basis of the weekly dollar and cent changes in the prices per pound of each wholesale cut of pork from which the retail cuts were derived. Since the issuance of Amendment 11 to Ceiling Price Regulation (CPR) 74, which provided for higher ceiling prices on wholesale pork cuts, retailers may have been unable to realize the overall margins on pork which they had been able to realize prior to the issuance of Amendment 11. This is due in large part to the fact that SR 65 has permitted retailers to pass on their increased costs of pork only on the portion they resell and not on that portion of the meat they purchase which disappears in fabrication and shrinkage. To remedy this situation, this amendment provides that retailers shall calculate the retail ceiling prices of pork cuts upon a percentage basis as is now provided for lamb, mutton, veal, and calf in SR 79. Retailers who sell pork products derived from wholesale purchases of dressed hogs or live hogs will continue to use the dollar and cent pass through currently provided in sections 6 and 7 of SR 65, since those sections make allowance for meat that disappears through shrinkage and fabrication.

(2) At present, both SR 65 to the GCPR and the dry grocery regulations (CPRs 15 and 16) have provisions establishing ceiling prices for semi-sterile canned pork products, which are listed in Section 25 of CPR 74 and are sold in cans to consumers. In order to avoid the confusion that results from these two different methods of fixing prices, this amendment excludes from SR 65 to the GCPR semi-sterile canned pork products listed in section 25 of CPR 74, which are not removed from the can by the retailer before sale to the consumer.

(3) Certified hog processors who are also retailers could, under the existing requirements of SR 65, secure higher prices than other retailers. To prevent this situation, this amendment specifies that the "seven-day cost" per pound for dressed hogs shall not exceed the ceiling price allowed by section 31 of CPR 74.

(4) Retailers are now faced with the requirement of recalculating their ceiling prices for pork cuts each week. Some small retailers have complained to OPS that this is burdensome and have requested permission to recalculate their pork ceiling prices monthly. Accordingly, section 10 (c) of this regulation is added to allow retailers to elect whether to calculate their ceiling prices for pork cuts on a monthly or on a weekly basis.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations.

Every effort has been made to conform this amendment to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this amendment may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of the regulation. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

AMENDATORY PROVISIONS

1. Section 4 is amended by adding a new subparagraph (f) to read as follows:

(f) Semi-sterile canned pork products, which are listed in section 25 of Ceiling Price Regulation 74, and are sold in cans to consumers.

2. Section 5 is amended to read as follows:

SEC. 5. *How to compute the retail ceiling prices for wholesale pork cuts and for pork items derived from wholesale pork cuts.* If you buy wholesale pork cuts and resell at retail these cuts or pork items derived from them, you shall determine your ceiling prices for these cuts and items as follows:

(a) Compute separately the total number of pounds of each wholesale pork cut delivered to you between January 19, 1951 and January 25, 1951, inclusive. This period is referred to as your "base week".

(b) Compute separately the total cost of the same wholesale pork cut delivered to you during the "base week". (See section 8 of this supplementary regulation.)

(c) Divide the figure computed under paragraph (a) of this section for each wholesale pork cut into the figure computed under paragraph (b) of this section for the corresponding wholesale cut. The resulting quotient is your base week cost per pound for that wholesale pork cut in dollars and cents. If that wholesale pork cut was not delivered to you during the base week, see section 9 of this supplementary regulation.

(d) Compute separately the total number of pounds of the same wholesale pork cut delivered to you during the seven days preceding each Monday after the effective date of this regulation.

(e) Compute separately the total cost of the same wholesale pork cut delivered to you during the seven days preceding each Monday after the effective date of this regulation. (See section 8 of this supplementary regulation.)

(f) Divide the figure computed under paragraph (d) of this section into the figure computed under paragraph (c) of this section. The resulting quotient is your seven-day cost per pound for that wholesale pork cut, in dollars and cents, but in no case shall this seven-day cost exceed the ceiling price allowed by Ceiling Price Regulation 74.

(g) Divide the figure determined under paragraph (c) of this section, ("base week cost") computed for that wholesale pork cut, into the figure determined under paragraph (f) of this section ("seven-day cost") for the same wholesale pork cut, and round each figure to the nearest whole percent.

(h) Each Monday after October 28, 1952, multiply the figure determined for that wholesale pork cut under paragraph (g) of this section by your ceiling price in dollar and cents per pound as determined under the General Ceiling Price Regulation prior to July 29, 1951, for that wholesale pork cut and for each pork item derived from that cut. The results, rounded to the nearest whole cent, are your dollar and cents per pound retail ceiling prices for that wholesale pork cut and for each pork item derived from that wholesale pork cut, respectively. These ceiling prices will be effective for the seven-day period commencing with that Monday.

EXAMPLE: Between January 19, 1951, and January 25, 1951, 1,000 pounds of pork loins were delivered to you. They cost you $500.00. Your "base week cost" is $500.00 for 1,000 pounds or 50 cents per pound. During the seven-day period preceding Monday, August 18, 1952, 500 pounds of pork loins were delivered to you at a total cost of $300.00. Your current "seven-day cost" for pork loins is $300.00 for 500 pounds or 60 cents per pound. Divide your "base week cost" per pound for pork loins ($0.50) into your current "seven-day cost" for pork loins ($0.60). Multiply the resultant quotient, 1.20, by each of the retail prices for cuts from the pork loin established under GCPR prior to July 29, 1951, to arrive at your new retail ceiling prices for each pork loin cut for the seven-day period commencing with Monday, August 18, 1952. Thus, if your GCPR price prior to July 29, 1951, for center cut pork chops is $0.73 per pound, your new ceiling price will be $0.73×1.20 or $0.876, which rounded to the nearest cent is $0.88 per pound.

3. Section 6 (f) is amended to read as follows:

(f) Divide the figure computed under paragraph (d) of this section into the figure computed under paragraph (e) of this section. The resulting quotient is your seven-day cost per pound for dressed hogs in dollars and cents, but in no case shall this seven-day cost exceed the ceiling price allowed by section 31 of Ceiling Price Regulation 74.

4. Section 10 is amended by adding a new section 10 (c) to read as follows:

(c) *Calculating "seven-day costs" monthly instead of weekly.* (1) Any individual store, or any group of stores under one ownership pricing from a central point, may choose to compute monthly instead of weekly its ceiling prices for retail sales of pork under sections 5, 6, and 7 (a) of this supplementary regulation. If a monthly basis for calculation of retail ceiling prices is selected, the "seven-day cost" per pound will be determined either (i) upon the basis of deliveries received during the seven days preceding the first Monday of each month, or (ii) upon the basis of deliveries received during the seven days preceding the Thursday prior to the first Monday of each month, depending upon which you elect. Once you use one of these two bases, you may not thereafter use the other basis. Ceiling prices determined on the basis of costs determined in this manner shall be placed in effect on the first Monday of each month.

(2) Once your seven-day cost per pound is computed pursuant to section 10 (c), no other method of computation may be used thereafter. Moreover, if you use this method of computation under either sections 5, 6 or 7 (a), you must use this method for all computations under all three sections.

(3) If this method of determining your ceiling prices is adopted, it must be used for all stores in any group of stores under one ownership pricing from a central point.

5. The first paragraph of section 11 is amended to read as follows:

If in the seven-day period which you use to determine your "seven-day cost" you obtain a given pork cut or item in more than one way (e. g., by purchasing wholesale pork cuts and by cutting dressed hogs), you shall:

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 28, 1952.

NOTE: The record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 23, 1952.

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 79]

GCPR, SR 79—ADJUSTMENT OF CEILING PRICES FOR RETAIL SALES OF VEAL, LAMB, AND MUTTON PRODUCTS

ELECTION TO RECALCULATE CEILING PRICES MONTHLY

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Supplementary Regulation 79 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in Supplementary Regulation (SR) 79 to the General Ceiling Price Regulation (GCPR):

(1) Retailers are now faced with the requirement of recalculating their ceiling prices for veal, lamb and mutton cuts each week. Some small retailers have complained to OPS that this is burdensome and have requested permission to recalculate their veal, lamb and mutton ceiling prices monthly. Accordingly, section 10 (c) of this regulation is added to allow retailers to elect whether to calculate their ceiling prices for veal, lamb or mutton cuts on a monthly or on a weekly basis.

(2) In addition this amendment corrects a typographical error in the title of section 10.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the Act.

Every effort has been made to conform this amendment to existing business practices, cost practices or methods or means or aids to distribution. Insofar as any provisions of this amendment may operate to compel changes in business practices, cost practices, or methods, or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of the regulation.

AMENDATORY PROVISIONS

1. Section 10 is amended by changing the title to read as follows:

SEC. 10. *Alternative provisions for determining your "seven-day cost" per pound under sections 4, 5, and 6 of this regulation.*

2. Section 10 is further amended by adding a new section 10 (c) to read as follows:

(c) *Calculating "seven-day costs" monthly instead of weekly.* (1) Any individual store, or any group of stores under one ownership pricing from a central point, may choose to compute monthly instead of weekly its ceiling prices for retail sales of veal, lamb, and mutton under sections 4, 5, or 6 of this Supplementary Regulation. If a monthly basis for calculation of retail ceiling prices is selected, the "seven-day cost" per pound will be determined either (i) upon the basis of deliveries received during the seven days preceding the first Monday of each month, or (ii) upon the basis of deliveries received during the seven days preceding the Thursday prior to the first Monday of each month, depending on which you elect. Once you use one of these two bases, you may not thereafter use the other basis. Ceiling prices determined on the basis of costs determined in this manner shall be placed in effect on the first Monday of each month.

(2) Once your seven-day cost per pound is computed pursuant to this section 10 (c) no other method of computation may be used thereafter. Moreover, if you use this method of computation under either sections 4, 5, or 6, you must use this method for all computations under all three sections.

(3) If this method of determining your ceiling prices is adopted, it must be used for all stores in any group of stores under one ownership pricing from a central point.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 28, 1952.

NOTE: The record-keeping requirements of this amendment have been approved by the

Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 23, 1952.

[F. R. Doc. 52-11566; Filed, Oct. 23, 1952; 5:01 p. m.]

[General Overriding Regulation 9, Amdt. 26]

GOR 9—EXEMPTIONS OF CERTAIN INDUSTRIAL MATERIALS AND MANUFACTURED GOODS

EXTENSION OF SUSPENSION OF APPLICATION OF CEILING PRICE REGULATIONS TO SALES OF KITS OR SETS OF BOAT PARTS BY MANUFACTURERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 26 to General Overriding Regulation 9 is hereby issued.

STATEMENT OF CONSIDERATIONS

On August 15, 1952, the suspension from price control of ships over 65 feet in length was extended to cover all marine craft, regardless of motive power. Certain builders of boats also make boat kits or sets of parts from which the purchaser can build a complete boat. Boats sold in this manner are similar to the boats completely assembled by the builder before sale. In the opinion of the Director of Price Stabilization no benefit will accrue to the stabilization program from control of the boat kits in view of the earlier suspension of boats. This amendment therefore extends the suspension from price control to boat kits.

In the formulation of this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

General Overriding Regulation 9 is amended in the following respects:

Subparagraph (4) of section 2 (b) is amended to read as follows:

(4) *Ships and boats.* Sales or deliveries, by the builder, of any new ship, boat, barge, canal boat, lighter or tug, or other marine craft whether propelled manually, by sail, by motor power or towed by other craft; and sales or deliveries, by the manufacturer, of any kit or set of boat parts which is capable of being assembled by the buyer into a complete boat without the necessity of purchasing additional parts or hiring additional labor.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 26 to General Overriding Regulation 9 shall become effective October 23, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

GSO 12—NEW PROFIT-SHARING AND OTHER BONUSES

STATEMENT OF CONSIDERATIONS

In adopting General Salary Stabilization Regulation 2 the Salary Stabilization Board recognized that the regulation did not provide for the payment of profit-sharing and other bonuses by employers who did not pay bonuses during the calendar years from 1946 to 1950. The purpose of this order is to establish a basis for the payment of bonuses by such employers.

The revision conforms references to other salary stabilization regulations and orders contained in this order to the appropriate provisions of General Stabilization Regulation 1, Amended, issued since the effective date of this order.

In the formulation of this order due consideration has been given to the standards and procedures set forth in Title IV and Title VII of the Defense Production Act, as amended.

REGULATORY PROVISIONS

Sec.
1. New bonuses.
2. Inequities created by payment of new bonuses.
3. Record-keeping requirements for new bonuses.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *New bonuses.* (a) An employer who is not authorized to pay bonuses under General Salary Stabilization Regulation 2 may establish a bonus fund which (1) shall be distributed in or with respect to the current calendar or fiscal year to such employees under the jurisdiction of the Salary Stabilization Board as he may select and (2) shall not exceed in amount the sum of the following:

(i) The total produced by multiplying the number of payroll periods in a year by the amount available to the employer for increases in salary and other compensation under section 22 of General Salary Stabilization Regulation 1, Amended, in the last payroll in the calendar or fiscal year in or with respect to which the new bonuses are distributed; and

(ii) The total produced by multiplying the number of payroll periods in a year by the amount available to the employer for increases in salaries and other compensation under section 41 of General Salary Stabilization Regulation 1, Amended, in the last payroll period of the calendar or fiscal year in or with respect to which the new bonuses are distributed.

(b) To the extent that any amount available for distribution in the form of new bonuses under this section is so used by the employer, it may not be paid to employees as compensation in any other form during any of the payroll periods used in computing such amount.

(c) For the purposes of this section "the payroll periods in a year" means:

(1) With regard to the computation made in paragraph (a) (2) (i), the payroll periods in the calendar or fiscal year in or with respect to which the new bonuses are distributed;

(2) With regard to the computations made in paragraph (a) (2) (ii), the payroll periods in the calendar or fiscal year immediately following the year in or with respect to which the new bonuses are distributed: *Provided, however,* That if the amount available in the last payroll period of the current calendar or fiscal year for the computation under paragraph (a) (2) (ii) of this section actually became available to the employer in an earlier payroll period as a result of computations then made, "the payroll periods in a year" shall begin at the time of such earlier computation.

SEC. 2. *Inequities created by payment of new bonuses.* Any inequities created by the payment of a bonus under this Order shall not constitute a basis for adjustments in salaries or other compensation.

SEC. 3. *Record-keeping requirements for new bonuses.* An employer paying bonuses authorized by this Order shall comply with the applicable record-keeping and summary statement requirements of section 101 of General Salary Stabilization Regulation 1, Amended.

NOTE: The record-keeping requirements of this Order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By order of the Salary Stabilization Board, October 1, 1952.

JUSTIN MILLER,
Chairman.

Approved: October 17, 1952.

ROGER L. PUTNAM,
Economic Stabilization Administrator.

[General Salary Stabilization Regulation 2, Amdt. 2]

GSSR 2—PROFIT-SHARING AND OTHER BONUSES

STATEMENT OF CONSIDERATIONS

Section 9 of General Salary Stabilization Regulation 2 is amended in order to conform the section to the provisions of General Salary Stabilization Regulation 1, Amended.

AMENDATORY PROVISIONS

Section 9 of General Salary Stabilization Regulation 2 is amended to read as follows:

SEC. 9. *Relationship to 10 percent increase authorized under section 22 of General Salary Stabilization Regulation 1, Amended.* (a) Bonuses payable in accordance with the terms of this regulation shall not be included in the aggregate base compensation of a group of employees within the meaning of section 22 (a) (1) of General Salary Stabilization Regulation 1, Amended.

(b) To the extent that permissible increases based upon salaries and compensation (other than bonuses) authorized by section 22 of General Salary Stabilization Regulation 1, Amended, have not been exhausted, such increases may be added to the bonus fund authorized by this regulation and paid by way of bonuses.

(c) Any increases in bonuses made prior to January 26, 1951, or authorized by this regulation (other than an increase provided for in paragraph (b) of this section 9) need not be taken into account in determining increases in salary or other compensation permitted under section 22 of General Salary Stabilization Regulation 1, Amended.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Adopted by the Salary Stabilization Board, October 2, 1952.

JUSTIN MILLER,
Chairman.

Approved: October 17, 1952.

ROGER L. PUTNAM,
Economic Stabilization Administrator.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-1, Amendment 2 of October 23, 1952]

M-1—IRON AND STEEL

LEAD TIME CHANGE

This amendment to NPA Order M-1 as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this amendment, consultation with industry representatives has been impracticable because of the need for immediate action.

NPA Order M-1 as amended July 3, 1952, and as further amended by Amendment 1 of August 1, 1952, is hereby amended in the following respect:

A footnote numbered 18, applicable to the word "Alloy" appearing in the heading of column B (4) of Table I to NPA Order M-1, is added and reads as follows:

[18] For orders calling for delivery on or after April 1, 1953, for clad products, add 45 days to lead time indicated.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect October 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52-11557; Filed, Oct. 23, 1952; 11:14 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 1—GENERAL PROVISIONS

COPIES OF RECORDS AND PAPERS

In § 1.526, paragraph (c) is amended to read as follows:

§ 1.526 *Copies of records and papers.* * * *

(c) Where only one or a relatively few copies of papers from a claimant's file are desired by the veteran or a dependent, for use in securing one of the governmental benefits or in connection with a claim for commercial insurance, the workmen's compensation, or similar benefit, the necessary copies will be supplied without charge. In case of evident abuse of this service to veterans or lack of demonstrated need on the part of the applicant, the manager or staff member in central office having jurisdiction in the matter is authorized to refuse the request for free copies.

* * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016; 38 U. S. C. 11a, 426. Interpret or apply sec. 30, 43 Stat. 615, as amended, Vet. Reg. 11, as amended; 38 U. S. C. 456, ch. 12 note)

This regulation effective October 24, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-11480; Filed, Oct. 23, 1952; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 995]

[Docket No. AO-197-A1]

HANDLING OF MILK IN LIMA, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order, regulating the handling of milk in the Lima, Ohio, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Lima, Ohio on June 23-24, 1952, pursuant to notice thereof which was issued on June 5, 1952 (17 F. R. 5195).

The material issues of record were concerned with the following:

(1) Increasing the level of the Class I price premiums, providing a separate classification and lower price for cream utilized for fluid consumption, and substituting a cheese price formula for the butter-cheese formula as one of the three alternative methods of determining the basic formula price;

(2) Enlarging the marketing area to include all of Allen County, Ohio;

(3) Altering the definition of Class I milk to designate specifically the products covered instead of depending upon the requirements of local health authorities;

(4) Providing that other source milk be allocated on a pro rata basis with producer milk under certain conditions;

(5) Determining the producer butterfat differential on the basis of a fixed ratio of the market price for butter; and

(6) Increasing the rate of assessment for marketing services performed by the market administrator.

Findings and conclusions. The following findings and conclusions on the issues decided herein are hereby made upon the basis of the record of the hearing:

(1) *Pricing provisions.* The Class I price differentials should be increased by an annual average of 17.5 cents per hundredweight, cream should continue to be classified as Class I, and a cheese formula should be substituted for the butter-cheese formula as one of the three alternative bases for determining the basic formula price.

Producers proposed that the Class I price in Lima for any given month be set at the higher of two alternatives, one being the Class I price under the Cleveland order less the handler location differential from Lima to Cleveland and

the second being the arithmetical average of the Class I prices provided by the Toledo and Dayton-Springfield orders. This proposal was based upon the close competition for milk supplies between Lima and the other three markets. Cleveland shippers are located throughout the same territory as those supplying Lima, and a Cleveland handler maintains a country station in Lima from which some milk is bottled and distributed locally and the greater portion is shipped bulk to Cleveland. The Lima milkshed overlaps with those of Toledo to the north and Dayton-Springfield to the south. Producers considered it necessary that Class I prices under the Lima order be at least equal to Cleveland order prices at all times, and to the average of the competing markets to the north or south whenever such average was higher than the net Cleveland price.

Handlers opposed this method of pricing and proposed instead that increases in the Class I differential averaging 9½ cents annually would be sufficient to restore order prices to competitive levels. They testified that the producer proposal would fail to result in blend prices equal to those in the competing markets even though Class I prices would be the same. Such differences would result from variations in the classification and utilization of milk in the various markets. They also felt that abnormal conditions in any one of the three competitive markets would affect Lima prices even though the abnormal condition might not extend to the Lima supply and distribution territories.

It is apparent that the need for raising the level of Class I prices in Lima originated in price actions taken in the competing markets in the fall of 1951. Effective October 1, 1951, the Dayton-Springfield order was amended to provide for a supply-demand adjustment and, of more immediate effect, for an emergency increase of 35 cents per hundred pounds through February, 1952 to help offset drought conditions. A supply-demand adjustment became effective in Toledo at the same time. It resulted in a 14-cent increase in October and 50-cent increases each month from November through February. These price increases in Toledo and Dayton-Springfield coincided with an aggressive policy on the part of Cleveland handlers to obtain increased supplies of milk for that market. They paid sufficient premiums in the Lima, Toledo, and Dayton-Springfield areas to meet the local competition. The Lima handlers also found it necessary to pay premiums in order to maintain their regular supplies of milk. Although there is considerable intermarket competition for milk, it was not shown at the hearing that marketing conditions in Lima are so subsidiary to those in one or a combination of the competing markets as to require identical pricing. The emergency period in Dayton-Springfield terminated at the end of February and the amount of the supply-demand adjustment has steadily declined as the supply-demand ratio has returned to more normal levels. The supply-demand ratio in Toledo improved somewhat during the summer months, with a corresponding decrease in the amount of the price adjustment.

In the circumstances it appears that maintaining the Class I differential at 85 cents per hundredweight during April, May, and June and increasing them to $1.15 during February, March, July, and August and to $1.45 during September through January will best serve the needs of this market. The proposed Class I differentials average $1.20 per hundredweight. This is equal to the differential for Grade A milk under the Dayton-Springfield order and somewhat below the differentials, inclusive of the supply-demand adjustments, which have prevailed in Toledo since October 1, 1951.

The proposals by handlers and producers that skim milk and butterfat utilized in the form of fluid cream and specified cream products be classified separately and priced at a definite rate per hundredweight below the Class I price were abandoned by both parties at the hearing.

The present butter-cheese formula was designed some years ago to measure the value of milk for all manufacturing purposes rather than the value of milk used for making cheese. Also it reflects a much higher proportion of butter relative to cheese than is currently being produced, and the prices developed by the formula are usually considerably below the other basic formula prices.

The cheese price formula presented for consideration at the hearing was developed after a study of the relationship between butter and cheese prices and prices paid for 3.5 percent milk by Wisconsin cheese factories. This study indicated that during the years 1948 through 1951 prices resulting from this formula were within 6 cents per hundred pounds of the monthly average prices actually paid for 3.5 milk at the cheese factories in over 80 percent of the cases, and 16 cents was the maximum difference.

To determine the value per hundred pounds of 3.5 milk the average price per pound of cheddar cheese, as reported in the Wisconsin primary markets, is multiplied by 8.53, the price per pound of 92-score creamery butter at Chicago is multiplied by 0.902, and 24.3 cents is subtracted from the sum of these products.

(2) *Marketing area.* No change should be made in the marketing area.

Handlers proposed that the present marketing area which includes only the city of Lima be extended to include all of Allen County. They testified that the city and county health authorities were to be combined for the purpose of milk inspection and regulation. The same requirements would be extended throughout the county as are presently in effect for Lima. It was their position that once such uniformity was achieved the pricing and other provisions of the order would be equally applicable throughout Allen County.

At the time of the hearing the proposed consolidation had not been effectuated. However, the hearing examiner specified that official notice could be taken of a Grade A ordinance for the county if as and when such ordinance was passed. The matter was not mentioned in any of the briefs submitted, so apparently no action had been taken by July 12. Since milk of less than Grade A standards can be sold in Allen County outside the city of Lima the pricing provisions of the order are not directly applicable and the proposal must be denied.

(3) *Classification.* The uses of milk which constitute Class I utilization should be specifically designated in the order.

At present certain uses are specifically designated, but the order also classifies as Class I any skim milk and butterfat disposed of as "any other milk product defined by the Lima, Ohio Board of Health".

Health Department requirements are an important consideration in the production and marketing, and hence in the classification and pricing, of milk but are not the sole determinant. The classification of milk should be established and altered only upon formal consideration of all aspects of the problem.

(4) *Allocation of milk.* The provisions relating to the allocation of milk from producers and from other sources to the classified utilization of milk by handlers should not be changed.

The order now provides that other source milk be allocated to Class I only after producer milk, exclusive of shrinkage, has been so allocated. One of the handlers proposed that a quantity of other source milk not to exceed 15 percent of the handler's total Class I utilization or the quantity received in bottled form and disposed of as Class I without further processing or packaging be allocated on a pro rata basis with producer milk. This proposal was designed to meet a problem arising from this handler's sales of milk in 2-quart paper containers. The proponent took the position that the proposed amendment was the most satisfactory means of dealing with the problem although certain alternative solutions were advanced.

It was brought out that the proposed allocation would constitute an incentive for all handlers in the market to displace producer milk with milk from other sources up to the specified limit. Since alternatives are available to the proponent without involving the possibility of such far-reaching changes in the market structure, this proposal should be denied.

(5) *Producer butterfat differential.* The producer butterfat differential should be computed by multiplying the price of 92-score butter at Chicago by 0.13.

The order now provides that the butterfat differential to producers be equal to the weighted average of the handler butterfat differentials on Class I and Class II sales of producer milk. This provision gives each individual producer a pro rata share of the butterfat differentials charged to handlers. However, it should be noted that the entire sales proceeds from the milk sold to handlers is pooled for redistribution for producers. Such redistribution should be related to the supply and demand for the butterfat and skim milk components. In this regard the comparatively high butterfat differential to handlers on Class I milk and the large proportion of Class I sales in this market yield especially high producer butterfat differentials. There has been a steady increase in the average butterfat test of milk received from producers and it is clear that the high butterfat differentials must have contributed substantially to this trend. In addition, the average test of milk received from producers has exceeded the average test of the Class I sales of producer milk in every month since August 1950 and by increasing margins.

It is concluded, therefore, that there is no continued need for such high butterfat differentials to producers as have prevailed heretofore. At the price levels prevailing in 1951 the proposed differentials would have ranged from a low of 8.0 cents in the summer months to a high of 9.4 cents in December as compared with order differentials ranging from 9.4 cents in June to 11.4 cents in December.

(6) *Marketing services.* To defray the cost of performing marketing services for producers who are not members of a cooperative association determined to be performing such services, the rate of deduction from payments to producers should be increased to 6 cents per hundredweight.

The deduction for marketing services has remained at 4 cents per hundredweight since the inception of the order. This amount has proved insufficient to cover the costs of the necessary services and should be increased. Testimony based on experience under other Federal orders showed that comparatively low rates were charged for those services performed on a contract basis in Lima.

Reissuance of order, as amended. The entire order should be recodified in accordance with Revised Regulations of the Division of the Federal Register issued October 12, 1948.

General findings. (a) The proposed marketing agreement and the order as hereby proposed to be amended and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order as hereby proposed to be amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order as hereby proposed to be amended will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and certain handlers. The briefs contained proposed findings of fact, conclusions and argument with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended marketing agreement and order as amended. The following order, as amended, is recommended as the appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order:

DEFINITIONS

§ 995.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 1946 ed. 601 et seq.).

§ 995.2 *Secretary.* "Secretary" means the Secretary of Agriculture, or such other officer or employee of the United States as may be authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 995.3 *U. S. D. A.* "U. S. D. A." means the United States Department of Agriculture.

§ 995.4 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 995.5 *Lima, Ohio, marketing area.* "Lima, Ohio, marketing area" called the "marketing area" in this subpart means the territory within the corporate limits of Lima, in the County of Allen, State of Ohio.

§ 995.6 *Grade A milk.* "Grade A milk" means milk produced by a person holding a dairy farm inspection permit issued by the Lima, Ohio, Board of Health for the production of Grade A milk, which is permitted by such health authority to be disposed of as Grade A milk.

§ 995.7 *Fluid milk plant.* "Fluid milk plant" means a plant or other facilities used in the preparation or processing of Grade A milk all or a portion of which is sold or disposed of in the marketing area as Class I milk.

§ 995.8 *Producer.* "Producer" means any person who produces Grade A milk received (a) at a fluid milk plant, or (b) at any other plant by diversion from a fluid milk plant for the account of a handler or a cooperative association.

§ 995.9 *Producer-milk.* "Producer-milk" means milk produced by one or more producers under the conditions set forth in § 995.8.

§ 995.10 *Handler.* "Handler" means any person who (a) operates a fluid milk plant; (b) receives milk at a plant and either directly or indirectly disposes of milk, skim milk, buttermilk, or flavored milk drink from such plant to a wholesale or retail stop(s) in the marketing area other than a fluid milk plant; or (c) any cooperative association with respect to producer milk diverted by it from a fluid milk plant to any plant not a fluid milk plant for the account of such association.

§ 995.11 *Producer-handler.* "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers: *Provided*, That (a) the maintenance, care and management of the dairy animals and other resources necessary to produce milk is the personal enterprise of and at the personal risk of such person in his capacity as a producer and (b) the processing, packaging, and distribution of the milk is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

§ 995.12 *Other source milk.* "Other source milk" means all skim milk and butterfat received other than producer milk, except (a) receipts from a producer-handler, and (b) any non-fluid milk product received and disposed of in the same form.

§ 995.13 *Cooperative association.* "Cooperative Association" means any cooperative marketing association of producers which the Secretary determines, after application by the association: (a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (b) to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and (c) to have all of its activities under the control of its members.

MARKET ADMINISTRATOR

§ 995.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 995.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 995.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 995.76:

(1) The cost of his bond and of the bonds of his employees;

(2) His own compensation; and

(3) All other expenses, except those incurred under § 995.77, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 995.30 or § 995.31, or (2) payments pursuant to §§ 995.70, 995.71, 995.73, 995.76, 995.77, 995.78, or 995.80;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers to verify the reports and payments required pursuant to the provisions of this subpart; and

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month the minimum prices for skim milk and butterfat for each class computed pursuant to §§ 995.51, and 995.52 and the butterfat differential computed pursuant to § 995.75; and

(2) On or before the 12th day after the end of such month, the uniform price computed pursuant to § 995.61.

REPORTS, RECORDS AND FACILITIES

§ 995.30 *Monthly reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator, the following information with respect to all milk received from producers, all milk, skim milk, cream, and milk products received from other handlers, all other source milk received during the month at his fluid milk plant(s) (in the case of a handler not operating a fluid milk plant, all other source milk received), and milk diverted pursuant to §§ 995.8 and 995.82:

(a) The quantities of butterfat and skim milk contained in such receipts, and their sources;

(b) The utilization of such receipts; and

(c) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

§ 995.31 *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows, except that each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request: On or before the 22d day after the end of each month his producer payroll for the month, which shall show (a) the pounds of milk and the percentages of butterfat contained therein received from each producer; (b) the amounts and dates of payments to each producer or cooperative association; and (c) the nature and amount of each deduction or charge involved in the payments referred to in paragraph (b) of this section.

§ 995.32 *Records and facilities.* Each handler shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, and for other contents of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 995.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 995.40 *Basis of classification.* All skim milk and butterfat (in any form) received at a fluid milk plant as (a) producer milk, (b) a transfer from another fluid milk plant, and (c) other source milk, shall be classified in the classes set forth in § 995.41.

§ 995.41 *Classes of utilization.* Subject to the conditions set forth in §§ 995.42, 995.43, 995.44, and 995.45, the classes of utilization of milk shall be:

(a) Class I milk shall be all skim milk and butterfat disposed of (1) in fluid form (other than as livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cultured milk products, concentrated milk, and sweet or sour cream, eggnog and any cream product in fluid form having more than 8 percent butterfat; and (2) as all skim milk and butterfat not accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat accounted for as (1) used to produce a product other than those specified in paragraph (a) of this section, (2) having been dumped or disposed of for livestock feeding, (3) actual plant shrinkage of skim milk and butterfat received in producer milk but not to exceed 2 percent of such receipts of skim milk and butterfat, respectively, and (4) actual plant shrinkage of skim milk and butterfat in other source milk received: *Provided,* That if producer milk is utilized as milk, skim milk, or cream in conjunction with other source milk, the shrinkage allocated to each shall be computed pro rata according to the proportions of the volume of skim milk and butterfat, respectively, received from each such source to their total.

§ 995.42 *Interplant transfers.* Skim milk and butterfat disposed of in the form of milk, cream, or skim milk by a handler to any milk processing or milk manufacturing plant, including any other fluid milk plant, shall be Class I milk, unless (a) Class II use is indicated in writing to the market administrator by both the transferring handler and the receiver on or before the 7th day after the end of the month within which such disposition was made, and (b) the receiver maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the verification of such reported utilization: *Provided,* That, in no event shall the amount so reported be greater than the total amount so used by the receiver.

§ 995.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 995.44 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for obvious errors the report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 995.45 *Allocation of butterfat classified.* The market administrator shall determine the classification of butterfat in producer milk as follows:

(a) Subtract from the total pounds of butterfat in Class II milk the total pounds of butterfat shrinkage pursuant to § 995.41 (b) (3) and (4).

(b) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat received from other handlers and used in such class.

(c) Subtract from the pounds of butterfat remaining in each class, in sequence beginning with Class II milk, the pounds of butterfat in other source milk other than butterfat shrinkage in other source milk subtracted pursuant to paragraph (a) of this section.

(d) Add to the pounds of butterfat remaining in Class II milk the pounds of butterfat shrinkage in producer milk subtracted pursuant to paragraph (a) of this section; and if the remaining pounds of butterfat in all classes exceed the pounds of butterfat received in producer milk, subtract such excess from the remaining pounds of butterfat in each class, in sequence beginning with Class II milk. The pounds of butterfat remaining shall be the pounds in each class allocated to producer milk.

§ 995.46 *Allocation of skim milk classified.* Skim milk shall be allocated to each class in accordance with the same procedure as outlined for butterfat in § 995.45.

MINIMUM PRICES

§ 995.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum price for Class I milk for the month as provided in this section shall be the highest of the prices determined pursuant to paragraphs (a), (b), and (c) of this section:

(a) The market administrator shall compute (to the nearest tenth of a cent) an average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator by the U. S. D. A. or by the companies listed below:

Company and Location

Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight resulting from the following formula:

(1) Multiply by 0.902 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month; and

(2) Add 8.53 times the average of the daily prices per pound of cheese at Wisconsin Primary Markets ("Cheddars", f. o. b. Wisconsin assembling points, cars or truckloads) as reported by the U. S. D. A. during the month; and

(3) Subtract 34.3 cents.

(c) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the average price of butter computed pursuant to paragraph (b) (1) of this section, subtract 3 cents, add 20 percent of the resulting amount, and then multiply by 3.5; and

(2) From the simple average of the weighted averages of carlot prices per pound of spray and roller process nonfat dry milk solids in barrels for human consumption f. o. b. manufacturing plants in the Chicago area as published for each month by the U. S. D. A., deduct 5.5 cents, and multiply the result by 8.2.

§ 995.51 *Class I milk prices.* The minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received at his fluid milk plant during the month, which is classified as Class I milk, shall be determined by the market administrator as follows:

(a) To the basic formula price add the following amounts for the months indicated:

April, May, June	$0.85
July, August, February, March	1.15
All others	1.45

(b) Add together the amounts determined in § 995.50 (c) (1) and (2), divide the sum into the amount determined in § 995.50 (c) (1) and multiply by 100.

(c) Multiply the price determined in paragraph (a) of this section by the percent determined in paragraph (b) of this section and then divide by 0.035. The resulting amount shall be the Class I butterfat price per hundredweight.

(d) From the price determined in paragraph (a) of this section subtract the amount computed in paragraph (c) of this section times 0.035, and divide the remainder by 0.965. The resulting amount shall be the Class I skim milk price per hundredweight.

§ 995.52 *Class II milk prices.* The minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received at his fluid milk plant during the month, which is classified as Class II milk, shall be determined by the market administrator as follows:

(a) The market administrator shall compute (to the nearest tenth of a cent) an average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices have been reported to the market administrator by the U. S. D. A. or by the companies listed below:

Company and Location

Defiance Milk Products Co., Defiance, Ohio.
Pet Milk Co., Coldwater, Ohio.
Nestles Milk Products Co., (uninspected milk price), Marysville, Ohio.
Fisher Dairy and Cheese Co., Wapakoneta, Ohio.
Swift and Co., Lima, Ohio.

(b) Multiply the price computed in paragraph (a) of this section by the percentage computed in § 995.51 (b), and then divide by .035. The resulting amount shall be Class II butterfat price per hundredweight.

(c) Subtract from the price computed in paragraph (a) of this section the amount computed in paragraph (b) of this section times 0.035 and divide the remainder by 0.965. The resulting amount shall be the Class II skim milk price per hundredweight.

DETERMINATION OF UNIFORM PRICE

§ 995.60 *Value of producer milk.* Except as provided in § 995.80 the value of producer milk received by each handler during the month shall be the sum of money computed by the market administrator by multiplying the hundredweight of skim milk and butterfat in each class by the applicable class prices and adding together the resulting amounts, and adding or subtracting, as the case may be, the amount necessary to correct errors in classification for previous months as disclosed by audit of the market administrator: *Provided,* That, if a handler after the substraction of other source milk and receipts from other handlers, has disposed of skim milk or butterfat which on the basis of his reports for the month, pursuant to § 995.30, has been credited to his producers as having been received from them, there shall be added to the value of his producer milk a further amount computed by multiplying the pounds in each class as subtracted pursuant to § 995.45 (d) and § 995.46 by the applicable class price.

§ 995.61 *Computation of uniform price.* For each month the market administrator shall compute a uniform price per hundredweight of producer milk by:

(a) Combining into one total the values computed pursuant to §§ 995.60 and 995.80 for all handlers who reported pursuant to § 995.30 for such month, except those in default in payments required pursuant to §§ 995.73 and 995.80 for the preceding month;

(b) Subtracting, if the weighted average butterfat test of all producer milk represented by the amounts included under paragraph (a) of this section is greater than 3.5 percent or adding, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent, by the butterfat differential computed pursuant to § 995.75 multiplied by 10;

(c) Adding or subtracting, as the case may be, the amount necessary to correct errors in classification for previous months as disclosed by audit of the market administrator;

(d) Adding an amount representing not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Dividing the result by the total hundredweight of producer milk represented by the amounts computed pursuant to § 995.60; and

(f) Subtracting not less than 4 cents nor more than 5 cents.

§ 995.62 *Notification.* On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing for such month:

(a) The amount and value of his producer milk in each class;

(b) The uniform price computed pursuant to § 995.61, and the butterfat differential computed pursuant to § 995.75;

(c) The amount to be paid by such handler to the producer-settlement fund pursuant to § 995.73 or § 995.80, or the amount due such handler from the producer-settlement fund pursuant to § 995.74, as the case may be; and

(d) The amounts to be paid by such handler pursuant to §§ 995.76 and 995.77.

PAYMENTS

§ 995.70 *Time and method of final payment.* On or before the 18th day after the end of each month, each handler shall pay to each producer, or to a cooperative association with respect to milk which was caused to be delivered to him by such association either directly or from producers who have authorized such association to collect payment for them, for milk received from such producer or so delivered by such cooperative association, respectively, during such month not less than the uniform price adjusted by the butterfat differential pursuant to § 995.75, less the amount of payment made pursuant to § 995.71.

§ 995.71 *Partial payment.* On or before the last day of each month, each handler shall pay to each producer, or to a cooperative association authorized to collect payment, not less than the uniform price for the preceding month for milk received from such producer or caused to be delivered to such handler by such cooperative association during the first 15 days of such month: *Provided,* That in the event any producer discontinues shipping to such handler during any month, such partial payments shall not be made and full payment for all milk received from such producer during such month shall be made on the 18th day after the end of such month pursuant to § 995.70.

§ 995.72 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 995.73 and 995.80, and out of which he shall make all payments to handlers pursuant to § 995.74.

§ 995.73 *Equalization payments to the producer-settlement fund.* On or before the 14th day after the end of each month each handler shall make full payment to the market administrator of any amount by which the total value of his milk for such month is greater than the sum required to be paid by such handler pursuant to §995.70.

§ 995.74 *Equalization payments out of the producer-settlement fund.* On or before the 16th day after the end of each month, the market administrator shall pay to each handler any amount by which the sum required to be paid by such handler pursuant to § 995.70 is greater than the total value of the milk of such handler for such month, less any unpaid obligations of the handler: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments to such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 995.75 *Producer butterfat differential.* In making payments pursuant to § 995.70 the uniform price shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential (computed to the nearest tenth of a cent) computed as follows: Multiply by 1.3 the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month, and divide the result by 10.

§ 995.76 *Expense of administration.* As his pro rata share of expense incurred pursuant to § 995.22 (d), each handler shall pay the market administrator, on or before the 14th day after the end of each month, 3 cents per hundredweight of milk, or such amount not to exceed 3 cents as the Secretary may from time to time prescribe, with respect to receipts during such month, of (a) producer milk (including any milk of such handler's own production), and (b) other source milk classified as Class I milk: *Provided,* That a handler who receives only other source milk shall make such payments with respect to all skim milk and butterfat disposed of within the marketing area during such month as any item included in Class I milk.

§ 995.77 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 995.70, with respect to all milk received each month from each producer (except milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight of milk, or such amount not to exceed 6 cents as the Secretary may from time to time prescribe, and on or before the 18th day after the end of such month shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of milk of such producers and to provide such producers with market information, such services to be performed by the market administrator, or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 995.70 as may be authorized by the membership agreement or contract between such cooperative association and such producers, and shall pay such deductions on or before the 18th day after the end of such month to the cooperative association rendering such services of which such producers are members.

§ 995.78 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, or such handler from the market administrator, pursuant to §§ 995.73, 995.74, 995.76, 995.77, or 995.80, or (b) any producer or cooperative association from such handler pursuant to § 995.70 the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

APPLICATION OF PROVISIONS

§ 995.80 *Milk subject to special payments.* (a) Milk received by a handler the handling of which is subject to the pricing and payment provisions of any other Federal milk marketing order issued pursuant to the act shall not be subject to the pricing and payment provisions of this section, except that for any month for which the Class I milk price determined pursuant to § 995.51 (a) exceeds the corresponding minimum Class I milk price (adjusted by any applicable location differential) provided by such other order, the handler shall pay into the producer-settlement fund on or before the 14th day after the end of each month, with respect to all skim milk and butterfat disposed of within the marketing area during such month as any item included in Class I milk, an amount computed by the market administrator as follows: From the total value of such skim milk and butterfat at the prices determined pursuant to § 995.51 (c) and (d) subtract the total value of such skim milk and butterfat at prices computed by applying the procedures prescribed in § 995.51 (b), (c), and (d) to the highest Class I milk price provided by such other order.

(b) Any handler who receives only other source milk, which milk is not subject to the pricing and payment provisions of any other Federal milk marketing order issued pursuant to the act, shall pay into the producer-settlement fund on or before the 14th day after the end of each month a sum computed by the market administrator by multiplying the hundredweight of all skim milk and butterfat disposed of by such handler within the marketing area as any item included in Class I milk during such month by the respective differences between the prices for skim milk and butterfat in Class I milk and Class II milk for such month.

§ 995.81 *Milk caused to be delivered by cooperative associations.* Milk referred to as received from producers by a handler shall include milk of producers caused to be delivered directly from the farm to the fluid milk plant of such handler by a cooperative association which is authorized to collect payment for such milk.

§ 995.82 *Milk diverted.* (a) Producer milk diverted by an operator of a fluid milk plant from such plant to a plant not a fluid milk plant shall be deemed to have been received by the fluid milk plant from which such milk was diverted.

(b) Producer milk diverted by a cooperative association from a fluid milk plant to a plant not a fluid milk plant shall be deemed to have been received by such association.

§ 995.83 *Producer-handlers.* Sections 995.40 through 995.46, 995.50 through 995.52, 995.60 through 995.62 and 995.70 through 995.78 shall not apply to the milk of a producer-handler.

TERMINATION OF OBLIGATIONS

§ 995.90 *Termination of obligations.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books or records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 995.100 *Effective time.* The provisions of this subpart, or of any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 995.101 *When suspended or terminated.* Whenever the Secretary finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act, he shall terminate or suspend the operation of this subpart, or any such provision of this subpart.

§ 995.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 995.103 *Liquidation.* Upon the suspension or the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 995.110 *Agents.* The Secretary may by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 995.111 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and of the remaining provisions of this subpart, to other persons or circumstances shall not be effected thereby.

Filed at Washington, D. C., this 17th day of October 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 1, 3, 4a, 4b, 5, 6, 13, 14, 40, 41, 42, 61]

1952 ANNUAL REVIEW OF AIRWORTHINESS REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to the airworthiness provisions of the Civil Air Regulations and the issuance of a Special Civil Air Regulation in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention, Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by November 24, 1952. Copies of such communications will be available after November 27, 1952, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

The proposed amendments to the airworthiness regulations as set forth below stem from the studies conducted during the Board's 1952 annual airworthiness review and particularly from the discussions which took place at the annual meetings held in Washington August 4 through 14. Those issues which are sufficiently resolved are being published herein in the form of proposed amendments to the regulations. These pertain to the following parts of the Civil Air Regulations: 1, 3, 4a, 4b, 5, 6, 13, 14, 41, 42, and 61. The explanatory statements accompanying the proposed amendments explain the basis for the amendments and the reasons why certain other proposals are not considered sufficiently resolved to justify specific recommendations for amendment of the regulations at the present time.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560; 62 Stat. 1216)

Dated: October 20, 1952, at Washington, D. C.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN, *Director.*

Part 1

Discussions were held during the recent annual airworthiness meeting on a few subjects dealing with certification procedures. Most of these discussions indicated the desirability of amending certain of the provisions of Part 1 to make more clear the intent of the regulations. Specific proposals are contained herein.

One of the significant proposals deals with inspection procedures under the terms of a type certificate. It is proposed to add a provision which would require a manufacturer, producing products without a production certificate, to establish after six months from the date of issuance of the type certificate a production inspection system approved by the Administrator.

Another important proposal concerns quality control data to be submitted under the terms of a production certificate. It is proposed to specify in more detail the data required.

It is proposed to amend Part 1, effective January 1, 1953, as follows:

1. By amending § 1.15 (a) by adding after the word "inspections" the following clause " and, in the case of aircraft, flight tests."

2. By amending § 1.15 by changing the headnote to read *Inspections and tests* and by adding a new paragraph (d) to read as follows:

§ 1.15 *Inspections and tests.* • • •

(d) A manufacturer producing a product under the terms of a type certificate without a corresponding production certificate shall provide, for products manufactured after six months from the date of issuance of the type certificate, a production inspection inspection system approved by the Administrator which will give assurance that each article produced is in conformity with the type design and is in a condition for safe operation.

3. By amending § 1.22 by deleting the phrase "by an authorized representative of the Administrator" and substituting in lieu thereof the phrase "in accordance with a method acceptable to the Administrator."

4. By amending § 1.32 by deleting the reference "§§ 1.33 through 1.37." and substituting in lieu thereof "§§ 1.33 through 1.36."

5. By amending § 1.36 to read as follows:

§ 1.36 *Quality control data requirements; prime manufacturer.* The applicant shall submit for approval by the Administrator, as evidence of his ability to control the quality of any product for which he requests a production certificate, data describing the inspection and test procedures necessary to insure that each article produced is in conformity with the type design and is in a condition for safe operation. The data submitted shall include such of the following as are applicable to the product involved.

(a) A statement describing assigned responsibilities and delegated authority of the quality control organization, together with a chart indicating the functional relationship of the quality control organization to management and to other organizational components and indicating the chain of authority and responsibility within the quality control organization.

(b) A description of inspection procedures applying to raw materials, outside purchased items, subcontracted parts and assemblies, and assemblies produced by subsidiary manufacturers. The information shall include the methods used to insure acceptable quality of assemblies which cannot be completely inspected for conformity and quality when delivered to the prime manufacturer's plant.

(c) A description of the methods used for production inspection of individual parts and complete assemblies, including the identification of any special manufacturing processes involved, the description of the means used to control such processes, and a description of the final test procedure for the complete assembly or, in the case of aircraft, a copy of the manufacturer's production flight test procedure and check-off list.

(d) An outline of the materials review system, including the procedure for recording review board decisions and disposing of rejected parts.

(e) An outline of a system by means of which company inspectors are kept currently informed regarding changes in engineering drawings, specifications, and quality control procedures.

(f) A list or chart showing location and type of inspection stations.

6. By amending § 1.37 to read as follows:

§ 1.37 *Information on subsidiary manufacturers.* The prime manufacturer shall make available information regarding any major inspection accomplished by a subsidiary manufacturer on parts or assemblies for which the prime manufacturer is responsible.

7. By amending § 1.38 to read as follows:

§ 1.38 *Changes in quality control system.* Subsequent to the issuance of a production certificate, any changes to the quality control system shall be subject to review by the Administrator. The holder of a production certificate shall immediately notify the Administrator in writing of any such changes affecting the data prescribed in § 1.36.

8. By amending § 1.43 by changing the headnote to read *Inspections and tests* and by adding after the word "inspections" the following clause "and, in the case of aircraft, flight tests."

Part 3

There were discussed at the recent annual airworthiness meeting a number of significant items pertaining to the certification of airplanes under the provisions of Part 3. One of these items dealt with the limitation of applicability of Part 3. A proposal was considered to limit Part 3 to airplanes of 12,500 pounds or less. A further suggestion was made that this weight be limiting only in the case of initial certification of a type, and that a further limitation of 15,000 pounds be made to account for the normal growth of the airplane after its original certification. The Bureau considers that a dual limitation to allow for the growth of the airplane's weight has little practical significance, because the higher of the two weights automatically becomes the limiting one. Thus, under the recommendation made at the meeting, the actual limitation would become 15,000 pounds. Cognizance should be taken of the fact that certain operating regulations and certain economic rules promulgated by the Board make a specific delineation between "small airplanes" and "large airplanes." This delineation is in all cases 12,500 pounds. For this reason, the Bureau considers that any value limiting the applicability of Part 3 other than 12,500 pounds would be confusing and, in fact, impractical. Therefore, the proposal contained herein makes 12,500 pounds the limiting weight for certification of airplanes under the provisions of Part 3.

A new requirement is being proposed with respect to induction system deicing and anti-icing which experience indicates more appropriate than the present requirement.

A recommendation was made at the annual airworthiness meeting to eliminate a mandatory Airplane Flight Manual for airplanes of 6,000 pounds weight or less. The changes proposed herein reflect that recommendation and require for such airplanes that the information normally included in the Airplane Flight Manual shall be made available in the form of clearly stated placards, markings, or manuals.

Another subject discussed at the annual airworthiness meeting was that pertaining to stall warning indication. A recommendation was made to eliminate the upper limit on stall warning which is now required in the regulations, because of its impracticability in certain instances. Although this matter was given consideration subsequent to the meeting, the issues associated with the problem have not been resolved and, therefore, the Bureau does not propose a change in the regulation at this time.

In addition to the aforementioned items, there are included herein a number of miscellaneous changes which are either of minor substantive or editorial nature.

It is proposed to amend Part 3, effective January 1, 1953, as follows:

1. By amending § 3.0 by adding before the first sentence a new sentence to read as follows: "The applicability of this part shall be limited to airplanes having maximum weights of not more than 12,500 pounds."

2. By amending § 3.1 (a) (3) by adding the following reference: "(See § 3.18)."

3. By amending § 3.15 (c) to read as follows:

§ 3.15 *Inspections and tests.* • • •

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

4. By amending § 3.72 (b) by deleting the reference "§ 3.755–3.770" and substituting in lieu thereof the reference "§§ 3.766 and 3.777."

5. By amending § 3.242 by deleting the phrases "the ground load requirements of § 4b.241, and shock absorption requirements of § 4b.371 and its related sections, the wheel and tire requirements of §§ 4b.391 and 4b.392, and the fuel jettisoning system requirements of § 4b.536." and substituting in lieu thereof the following: "the ground load requirements of § 4b.230, the landing gear requirements of §§ 4b.331 through 4b.336, and the fuel jettisoning system requirements of § 4b.437."

6. By amending Figure 3–12 (a) by interchanging in the third column the expressions "nWb'/d'" and "nWa'/d'".

7. By amending § 3.301 by deleting the words "ANC–5 and ANC–18" and substituting in lieu thereof the words "ANC–5, ANC–18, and ANC–23, Part II."

8. By amending the note following § 3.301 to read as follows:

NOTE: ANC–5, "Strength of Metal Aircraft Elements," ANC–18, "Design of Wood Aircraft Structures," and ANC–23, "Sandwich Construction for Aircraft," are published by the Subcommittee on Air Force-Navy-Civil Aircraft Design Criteria, and may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

9. By amending § 3.606 (c) by deleting from the first sentence the phrase "embody features tending to reduce the possibility of ice formation" and inserting in lieu thereof the phrase "have been tested and proven to incorporate features preventing the formation of ice."

10. By amending § 3.606 (d) to read as follows:

§ 3.606 *Induction system de-icing and anti-icing provisions.* • • •

(d) Airplanes equipped with sea level engines employing carburetors which have been tested and proven to incorporate features preventing the formation of ice shall be provided with a sheltered alternate source of air. The preheat supplied to this alternate air intake shall be not less than that provided by the engine cooling air downstream of the cylinders.

11. By amending § 3.700 (b) by deleting the last sentence and substituting in lieu thereof the following: "The individual lights shall be of an approved type."

12. By amending § 3.700 (c) by deleting the last sentence and substituting in lieu thereof the following: "The light shall be of an approved type."

13. By amending § 3.713 to read as follows:

§ 3.713 *Flare requirements.* When parachute flares are required, they shall be of an approved type.

14. By amending § 3.715 by deleting the first sentence and substituting in lieu thereof the following: "Safety belts shall be of an approved type."

15. By amending § 3.716 to read as follows:

§ 3.716 *Rafts and life preservers.* Rafts and life preservers shall be of an approved type.

16. By amending § 3.750 by deleting the reference: "(See Parts 42 and 43 of this chapter.)" and substituting in lieu thereof the following: "(See the appropriate operating parts of the Civil Air Regulations.)"

17. By amending § 3.770 to read as follows:

§ 3.770 *Operating limitations placard.* A placard shall be provided in clear view of the pilot stating: "This airplane must be operated as a _____ or _____ category airplane in compliance with the operating limitations stated in the form of placards, markings, and manuals."

18. By amending § 3.777 by adding the following clause at the end of the first sentence: "having a maximum certificated weight of more than 6,000 pounds."

19. By amending § 3.777 by designating the present text as paragraph (a) and by adding a new paragraph (b) to read as follows:

§ 3.777 *Airplane Flight Manual.* • • •

(b) For airplanes having a maximum certificated weight of 6,000 pounds or less, the information prescribed in this part for inclusion in the Airplane Flight Manual shall be made available to the operator by the manufacturer in the form of clearly stated placards, markings, or manuals.

Parts 4a, 4b, 41, 42, and 61

Numerous subjects pertaining to transport category airplanes were discussed at the recent annual airworthiness meeting. Some of these subjects are now considered sufficiently resolved to warrant specific proposals for amendment to the regulations. Other subjects are considered to require further study before any proposals can be formulated.

The proposed amendments contained herein to those parts of the Civil Air Regulations which affect certification or operation of transport category airplanes reflect the discussions at the annual airworthiness meeting and include certain changes of considerable importance. They also include other substantive changes of relatively minor importance, as well as a number of editorial clarifications and corrections.

Certain of the subjects discussed at the annual airworthiness meeting which are not being reflected in any proposed changes are considered of sufficient importance to set forth reasons for the lack of action at this time.

Rearward facing seats were the subject of lengthy discussions, but it was apparent that studies now being conducted by various governmental agencies and private enterprises have not progressed far enough to reach definite conclusions as to the safety advantages of this type of seating arrangement. It is anticipated that in a year or two this matter may be re-evaluated to the point where specific amendments to the regulations can be considered. As in the case of rearward facing seats, the matter of improved cockpit vision is being given further study, aiming toward the establishment of some specific standards.

Discussions at the annual airworthiness meeting on the subject of crash-resistant fuel tanks were not aimed at any immediate changes in the regulations. They were mainly of an informatory character on the research now being conducted to develop a design of fuel tank less conducive to fire hazard. Consequently, it is premature at this time to make any proposals on this matter. Another subject on fire protection discussed at the annual meeting and which is not sufficiently resolved to warrant a change in the regulations is that of electrical circuits in fire zones. It became apparent during the discussions that the implications of the recommended change in the regulations were not clear and, therefore, that any specific proposal at this time would be premature.

An attempt was made at the annual airworthiness meeting to resolve the problem of smoke detectors in certain class baggage compartments. At the present time, the provisions of Part 4b require the installation of smoke detectors; however, Special Civil Air Regulation SR–329 has waived these provisions because of the questionable reliability of available smoke detectors. The discussions at the meeting revealed that progress is being made on new type smoke detectors; however, it became evident that insufficient experience has been achieved with the limited number of these detectors used to warrant the rescission of SR–329. For this reason, no proposal is now being included for a change in the presently effective regulations.

Requiring oil quantity indicators on all future transport category airplanes was a highly controversial subject at the annual airworthiness meeting. There was considerable evidence presented to indicate that such an instrument might offer valuable information to the pilot. On the other hand, it was pointed out that present regulations do require an oil quantity indicator when a transfer or oil reserve system is installed. It was also revealed that most operators now include an oil quantity indicator on their airplanes. There was evident support for considering a low-level oil indicator as being an equally useful instrument. In view of the controversial nature of the recommendation and because it would apply only to new type airplanes and therefore would not now affect safety of operations, the Bureau is hesitant in making any specific proposal at this time. Furthermore, the Bureau feels that the multitude of controls and instruments now used in transport category airplanes, in itself, is not conducive to safety and that extreme care should be taken in requiring additional instruments unless such instruments are definitely shown to be necessary for safety.

Discussions were held at the annual airworthiness meeting regarding the relation between the maximum take-off weight and the maximum landing weight which is contingent on the facilities to jettison fuel from the maximum take-

off weight to the maximum landing weight. Some question was raised as to the intent of the pertinent regulation, and it was suggested that the regulations should require jettisoning of fuel from the maximum take-off weight only to 105 percent of the landing weight. The present regulation as interpreted by the Administrator of Civil Aeronautics requires jettisoning of fuel from the maximum take-off weight to the maximum landing weight for all altitudes. It was further pointed out that the proposal would result in substantial weight increases in the certificated weights of certain type airplanes. The Bureau considers that the Administrator's interpretation of the regulation is in accord with the intent and for that reason finds no justification in proposing any amendment to the regulation along the lines recommended at the meeting. Instead, a study will be made of the language of the pertinent requirement with the aim of making the intent more clear if necessary.

There were discussions at the annual airworthiness meeting on subjects related to the presently effective performance and flight requirements. The main objective of these discussions was to ascertain whether any changes in the regulations are desirable at this time. One of the more important subjects on which the Bureau does not propose any action was that of automatic power indication. The issue in this instance was to recognize the increased safety stemming from the use of automatic power indicating devices and to establish in the regulations appropriate performance allowances. The difficulty in resolving this problem was that no specific installations are available for study, and it was generally agreed that until such an installation were available no specific proposal for amendment of the regulations could be made.

A performance problem discussed in detail at the annual airworthiness meeting was that of drift-down. The term drift-down, as commonly used, refers to en route operating conditions wherein the airplane with one engine inoperative does not necessarily have the capability of climbing at a prescribed minimum rate of climb over the highest terrain but has sufficient performance to clear that terrain by a safe margin by reason of a required higher operating altitude. The present regulations require all transport category airplanes to have a specific minimum rate of climb en route with one engine inoperative 1,000 feet above the highest terrain along the flight path. Recommendations have been made to amend the regulations to permit a drift-down procedure in certain instances. The Board very recently has had the opportunity of evaluating the problem of drift-down and considers that there exists some question as to the appropriateness of applying drift-down procedures to airplanes operated in accordance with the presently effective transport category rules. Because of this, no proposal for drift-down is being made by the Bureau at this time.

Another subject dealing with flight characteristics which is not considered sufficiently resolved for the present is that of demonstrated crosswind. It was made evident at the annual airworthiness meeting that there would be certain operational advantages if airplanes were capable of taking off and landing in crosswinds higher than those now required by the regulations. A proposal was made to amend the regulations to require demonstration of take-offs and landings in 30-mile per hour crosswinds instead of the lesser values now prescribed. It was pointed out that the 30-mile per hour crosswind would be measured near the surface of the runway and, therefore, that it would correspond with approximately a 45-mile per hour wind as measured in weather observations. A question was raised as to the reasonableness and practicability of crosswind demonstrations in such a high wind. Since the proposal made at the meeting would be applicable only to new type airplanes, the Bureau considers that further study of this problem is advisable before any changes are made in the regulation.

The following outstanding subjects discussed at the annual airworthiness meeting are considered sufficiently resolved to warrant specific proposals for changes in the regulations, and such proposals are contained herein.

An important amendment is being proposed to the regulations regarding structural reserve fuel. The present rules require that the airplane be designed to withstand structural loads with zero fuel in the wings or, if some fuel is assumed, that such fuel be considered unusable, in which case it would have to be carried in the airplane at all times. It was suggested at the annual airworthiness meeting that this requirement introduces unreasonable conservatism because of the improbability of flight at or near zero fuel conditions. A specific proposal was made which would permit the manufacturer to assume a certain amount of fuel in the wings for the structural analysis of the airplane, provided that this amount did not exceed the reserve fuels required by the operating rules. The Bureau agrees that there are conservative aspects in the presently effective requirements. However, the implications of a requirement such as was recommended at the meeting are not generally predictable, and on some airplanes, particularly with certain fuel distributions along the wing span, the static and fatigue strength of the airplane may be appreciably decreased. The reduced safety would be most obvious on very high-speed airplanes where the ratio of reserve fuel to total fuel is relatively large and on airplanes where the fuel is carried in the outboard portions of the wing. It is proposed herein to permit more reasonable assumptions regarding fuel load provisions in those cases where it is shown that the structural strength of the airplane with zero fuel is not seriously reduced below that prescribed, where the probability of disastrous fatigue failure is not increased, and where the flutter, deformation, and vibration characteristics of the airplane are unaffected (see proposed amendments to §§ 4b.1 (c), 4b.210 (c), 4b.719, and 4b.741 (c)).

Another change is being proposed to the structural requirements. It consists of the addition of a new level landing condition to account for spring-back loads (see proposed amendment to § 4b.231).

Among proposed changes dealing with general design of transport category airplanes are those covering the certification of the airplane for ditching. The presently effective requirements are being clarified and expanded to cover detail provisions for the type of ditching equipment to be carried and the installation provisions for such equipment (see proposed amendments to §§ 4b.261, 4b.361, 4b.645, and 4b.646). There are also proposed changes pertaining to cockpit standardization. These changes reflect the standards agreed upon between the Munitions Board and the Society of Automotive Engineers and cover mainly the basic flight instrument panel arrangement and the location, movement, etc., of cockpit controls (see proposed amendments to §§ 4b.353 (c), (e), and (f), 4b.471 (c), 4b.473 (c), 4b.474 (a) (3), 4b.476a, 4b.611 (b), and Fig. 4b–16, Fig. 4b–17, and Fig. 4b–23). In addition, a provision is being proposed to assure that the ventilating air from passenger compartments is not circulated into the flight crew compartment (see proposed amendments to §§ 4b.371 (a) and (e)).

Certain additional powerplant fire protection rules are being proposed in order to reduce the consequences of powerplant fires which experience indicates can be encountered. These would require on all new type airplanes fire-extinguishing systems in Zone 1 and fireproof nacelle skin in Zone 3. Furthermore, the proposal would require that all airplanes manufactured after October 1, 1953, have either the Zone 1 extinguishing systems or the Zone 3 fireproof nacelle skin (see proposed amendments to §§ 4b.484 (a) (1) and 4b.487). In addition, it is proposed to make applicable to all airplanes manufactured after October 1, 1953, the provision which requires fire-resistant lines in propeller feathering systems (see proposed amendment to § 4b.401 (c)).

The present regulations require take-off cooling tests only if the time for which take-off power is used exceeds two minutes. It is now proposed that on new type airplanes take-off cooling tests be conducted regardless of the time during which take-off power is used. It is considered that such tests will diminish the possibility of dangerous engine temperature conditions with the use of take-off power during take-off (see proposed amendment to § 4b.453).

The proposed amendments include a requirement intended to prevent the overfilling of tanks during fuel transfer operations in flight. The proposal consists of requiring either an automatic fuel shutoff or a warning device (see proposed amendment to § 4b.418).

Changes are proposed to certain required equipment. The present regulations require a power indicating device (torquemeter) on airplanes equipped with automatic feathering systems. It is now proposed that power indicating devices also be required for all engines of 2,000 cubic inch displacement or more (see proposed amendment to § 4b.604 (m)). It is also proposed to require a device to indicate when the propeller is in the reverse position. This latter proposal is being made because of the extremely serious consequences which may result from a propeller reversing in the air. Recent experience indicates that a propeller reverse thrust warning device would be of considerable value to the crew in an emergency. The Bureau as a rule believes that dependability of all equipment on the airplane should be such as not to require additional safety provisions such as warning devices. In this instance, however, compliance with the proposed rule would be relatively easy of accomplishment and would contribute materially to safety (see proposed amendment to § 4b.604 (n)).

Changes are proposed to the provisions for protective breathing equipment. These changes, however, are not of a substantive nature, but are deemed necessary for purposes of clarification (see proposed amendment to § 4b.651 (h)).

As a result of studies and discussions at the annual airworthiness meeting, the Bureau considers it appropriate to propose certain amendments to the regulations with respect to position and anti-collision lights. The proposals contained herein include a change in the specification for the flashing frequency of position lights. At present the regulations prescribe a frequency of between 36 and 60 cycles per minute, but since the promulgation of this rule studies have indicated that the optimum frequency for conspicuity is approximately 75 cycles per minute. For this reason, it is proposed that the regulations be changed to prescribe frequencies between 65 and 85 cycles per minute. It is also proposed to include in the regulations a broad standard for anti-collision lights if such are used. During the past year or so considerable research was conducted toward improvement of conspicuity of aircraft at night, and a number of operators have reached the conclusion that the most practical way of increasing conspicuity is to install anti-collision lights. The research conducted on position and navigation lights was on a limited number of airplanes under the provisions of Special Civil Air Regulation SR–361. The Bureau believes that the use of anti-collision lights should be encouraged and that operators should be allowed to make these installations fleetwise. However, in order that installations which depart radically from those now considered by the operators are not installed indiscriminately fleetwise, a broad standard of design should be established. The proposed standard covers in almost every respect the types of anti-collision lights now considered by the operators. The one exception may be the requirement limiting the anti-collision lights to the use of a red light. It is believed that the red light has been proven to be most effective and distinctive. In order that research can continue toward the further development of navigation light conspicuity, a new Special Civil Air Regulation is being proposed to supersede SR–361 which expires December 31, 1952. The proposed new Special Civil Air Regulation will permit experimentation on a limited number of airplanes and is being worded in such broad terms as not to restrict the scope of such experimentation (see proposed amendments to §§ 4b.632 (f) and 4b.637 and proposed Special Civil Air Regulation).

During the annual airworthiness meeting a recommendation was made to require the calibration of air-speed indicating systems for ground effect in take-off. The Bureau considers such a recommendation appropriate and, therefore, includes herein a specific proposal for amendment of the regulations (see proposed amendment to § 4b.612 (a) (2)).

The discussions at the annual airworthiness meeting included certain performance subjects aimed at revisions to the presently effective requirements. One of these was a matter of clarifying the intent of the two-engine-out en route performance operating limitation. The Bureau, cognizant of the different interpretations placed on this requirement, considers it advisable to rewrite this particular rule. It is proposed that the rewrite make clear that in all cases the point of failure of the second engine is assumed to be 90 minutes after take-off. This is the most liberal of the possible interpretations, and it is one which has most generally received acceptance. The Bureau considers, however, that the proposal should not prejudice any further study of this requirement if it is found that the liberal interpretation does not provide the necessary level of safety (see proposed amendments to § 41.30 (c), §42.75 and § 61.221 (proposed § 40.58)).

The subject of temperature and humidity has been under discussion for a number of years. The presently effective regulations contain certain provisions to account for these two atmospheric factors. Temperature is being applied operationally on all transport category airplanes to the take-off run, i. e., up to the 50-foot point. On the other hand, the regulations take into account humidity only in the certification of new type airplanes and require that the certificated weights be based upon 80 percent relative humidity. As a result, most of the presently operated airplanes are not required to account for humidity. It has been recommended on numerous occasions during the past few years that humidity accountability be applied operationally to the complete take-off regime and that temperature accountability be extended to the obstacle clearance portion of the take-off. It appears that this latter part of the take-off is now most critical from the standpoint of temperature and humidity effects. Records do not indicate any accidents which could be definitely attributed to the lack of a more rational approach to temperature and humidity accountability in the regulations. However, there have been instances of marginal take-off performance of the airplane because of the high existing temperature and/or humidity conditions. This problem has not been heretofore resolved because of the lack of specific proposals for more rational temperature and humidity accountability. However, notwithstanding the lack of any specific accidents, experience of pilots tends predominantly to reveal marginal safety of transport category airplanes in high temperature and humidity conditions. For these reasons, a specific proposal is being included for the purpose of obtaining complete comments on this subject. It is considered that the problem of temperature and humidity accountability can be more readily resolved by the Board if the Board has available fully documented comments of all interested parties.

The proposal for temperature and humidity contained herein is based upon a CAA proposal submitted during the 1951 annual airworthiness review, with the exception that it is proposed to regard humidity as an independent factor unrelated to temperature. Specifically, the proposal would extend the presently effective temperature corrections to the take-off flight path beyond the end of the runway and would require humidity corrections similar to those made for temperature. Simultaneously, it is proposed to eliminate the regulation which requires certification of new type airplanes under conditions of 80 percent relative humidity and thus would permit such certification to be based on dry air. The effects of considering humidity operationally rather than in conjunction with certification of airplanes would be that new type airplanes which previously were certificated on the basis of 80 percent relative humidity might be permitted higher certificated weights, but that the use of these higher weights would be restricted operationally by the requirements for humidity accountability. Furthermore, older type airplanes which were not certificated under conditions of 80 percent relative humidity would now be subject to operational humidity accountability (see proposed amendments to §§ 4b.110 (a), 4b.117, 4a.749a–T, 41.28 (d), 42.70 (c), and 61.214 (d) (proposed § 40.53 (c)).

a. It is proposed to amend Part 4b, effective January 1, 1953, as follows:

1. By amending § 4b.1 (a) (3) by adding the following reference: "(See § 4b.18.)".

2. By amending § 4b.1 (c) by adding a new subparagraph (9) to read as follows:

§ 4b.1 *Definitions.* • • •

(c) *Weights.* • • •

(9) *Structural reserve fuel.* Structural reserve fuel refers to one or more fuel loading conditions, i. e., quantity and location of fuel, selected by the applicant in lieu of a zero fuel condition for the purpose of showing compliance with structural requirements. (See §§ 4b.103, 4b.210 (c), and 4b.741 (c).)

3. By amending § 4b.1 (f) (5) (i) by deleting the word "or" and substituting in lieu thereof the word "and".

4. By amending § 4b.15 (c) to read as follows:

§ 4b.15 *Inspections and tests.* • • •

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

5. By amending § 4b.110 (a) to read as follows:

§ 4b.110 *General.* (a) The performance prescribed in this subpart shall be determined, and compliance shall be shown, for standard atmospheric conditions and still air (see § 4b.1 (b) (1)).

6. By amending § 4b.117 to read as follows:

§ 4b.117 *Temperature and humidity accountability.* Operating correction factors for take-off weight, take-off distance, and take-off flight path shall be determined to account for temperatures above and below standard and for humidities above zero, and when approved by the Administrator they shall be included in the Airplane Flight Manual. These factors shall be obtained as follows:

(a) For any specific airplane type, the average full temperature and humidity accountability shall be computed for the range of weights of the airplane, altitudes above sea level, and ambient temperatures and humidities required by the expected operating conditions. Account shall be taken of the temperature and humidity effects on the engine power and of temperature effect on the aerodynamic characteristics of the airplane. The full accountability for temperature and humidity shall be expressed per degree of temperature and per unit of vapor pressure, respectively, in terms of a weight correction, a take-off distance correction, a take-off climb gradient correction, and a change, if any, in the critical-engine-failure speed V_1.

(b) The operating correction factors for the airplane weight, take-off distance, and take-off climb gradient shall be at least one-half of the full accountability values. The value of V_1 shall be further corrected by the average amount necessary to assure that the airplane can stop within the runway length at the ambient temperature and humidity, except that the corrected value of V_1 shall not be less than a minimum at which the airplane can be controlled with the critical engine inoperative.

7. By amending § 4b.210 by deleting from the first sentence the words "for which certification is desired" and substituting in lieu thereof the words "selected by the applicant."

8. By amending § 4b.210 by adding a new paragraph (c) to read as follows:

§ 4b.210 *General.* • • •

(c) *Fuel loads and distribution.* The disposable load combinations shall include all fuel loads in the range from zero fuel to the maximum fuel load selected by the applicant, except that it shall be permissible for the applicant to select one or more practicable structural reserve fuel conditions in lieu of the zero fuel condition for showing compliance with the structural flight load requirements, if the Administrator finds that the design complies with the following provisions which are intended to account for those exceptional operating conditions when structural reserve fuel is consumed. (See § 4b.741 (c).)

(1) The structural strength with zero fuel is not seriously reduced below that prescribed in the flight load conditions.

(2) The probability of disastrous fatigue failure is not increased (see 4b.306 (d)).

(3) The flutter, deformation, and vibration requirements are met with zero fuel (see § 4b.308).

9. By amending the title of Figure 4b–2 to read as follows: "Maneuvering envelope".

10. By amending the title of Figure 4b–3 to read as follows: "Gust envelope".

11. By amending § 4b.231 (a) by adding a new subparagraph (3) to read as follows:

§ 4b.231 *Level landing conditions*—(a) *General.* • • •

(3) *Condition of maximum spring-back load.* Forward-acting horizontal loads resulting from a rapid reduction of the spin-up drag loads shall be combined with the vertical ground reactions at the instant of the peak forward load. It shall be acceptable to apply this condition only to the landing gear and the directly affected structure.

12. By amending § 4b.231 (b) by deleting the words "paragraphs (a) (1) and (a) (2)" and substituting in lieu thereof the words "paragraph (a)".

13. By amending § 4b.231 (c) (1) by deleting the second sentence and substituting in lieu thereof the following: "The conditions specified in paragraph (a) of this section shall be investigated."

14. By amending § 4b.231 (c) (2) by deleting the last sentence and substituting in lieu thereof the following: "The conditions specified in paragraph (a) of this section shall be investigated, except that in conditions (a) (1) and (a) (3) it shall be acceptable to investigate the nose and main gear separately neglecting the pitching moments due to wheel spin-up and spring-back loads, while in condition (a) (2) the pitching moment shall be assumed to be resisted by the nose gear."

15. By amending § 4b.261 to read as follows:

§ 4b.261 *Structural ditching provisions.* (For structural strength considerations of ditching provisions see § 4b.361 (c).)

16. By amending § 4b.306 (c) to read as follows:

§ 4b.306 *Material strength properties and design values.* • • •

(c) ANC–5, ANC–18, and ANC–23, Part II values shall be used unless shown to be inapplicable in a particular case.

NOTE: ANC–5, "Strength of Metal Aircraft Elements," ANC–18, "Design of Wood Aircraft Structures," and ANC–23, "Sandwich Construction for Aircraft," are published by the Subcommittee on Air Force-Navy-Civil Aircraft Design Criteria, and may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

17. By amending § 4b.353 (c) by adding the following phrase at the end of the first sentence: "with the seat belt fastened."

18. By amending § 4b.353 (e) to read as follows:

§ 4b.353 *Controls.* • • •

(e) The wing flap (or auxiliary lift device) and landing gear controls shall be located on the top of the pedestal and shall comply with the following:

(1) The wing flap control shall be located aft of the throttle(s), centrally or to the right of the pedestal centerline and shall be not less than 10 inches aft of the landing gear control.

(2) The landing gear control shall be located to the left of the pedestal centerline.

19. By amending § 4b.353 (f) to read as follows:

(f) The control knobs shall be shaped in accordance with Figure 4b–22, and such knobs shall be of the same color, but of a color in contrast with that of not only the other control knobs but also the surrounding cockpit.

20. By amending Figure 4b–16 by changing the movement and actuation for flaps (or auxiliary lift devices) to read as follows: "Forward for flaps up; rearward for flaps down."

21. By amending Figure 4b–17 by changing the movement and actuation for mixture controls to read as follows: "Forward or upward for rich".

22. By amending figure 4b–17 by changing the movement and actuation for carburetor air heat to read as follows: "Forward or upward for cold."

23. By amending figure 4b–17 by adding to the movement and actuation for supercharger controls the following sentence: "In the case of turbosuperchargers, forward, upward, or clockwise to increase pressure."

24. By amending § 4b.358 (b) (1) (ii) by deleting the phrase "in the fore-n-aft direction."

25. By amending § 4b.361 to read as follows:

§ 4b.361 *Ditching.* Compliance with this section is optional. The requirements of this section are intended to safeguard the occupants in the event of an emergency landing during overwater flight. When compliance is shown with the provisions of paragraphs (a) through (c) of this section and with the provisions of §§ 4b.362 (d), 4b.645, and 4b.646, the type certificate shall include certification to that effect. When an airplane is certificated to include ditching provisions, the recommended ditching procedures established on the basis of these requirements shall be set forth in the Airplane Flight Manual (see § 4b.742 (d)).

(a) All practicable design measures compatible with the general characteristics of the type airplane shall be taken to minimize the chance of any behavior of the airplane in an emergency landing on water which would be likely to cause immediate injury to the occupants or to make it impossible for them to escape from the airplane. The probable behavior of the airplane in a water landing shall be investigated by model tests or by comparison with airplanes of similar configuration for which the ditching characteristics are known. In this investigation account shall be taken of scoops, flaps, projections, and all other factors likely to affect the hydrodynamic characteristics of the actual airplane.

(b) It shall be shown that under reasonably probable water conditions the flotation time and trim of the airplane will permit all occupants to leave the airplane and to occupy the life rafts required by § 4b.645. In showing compliance with this provision, it shall be acceptable to use buoyancy and trim computations in which appropriate allowances are made for probable structural damage and leakage.

(c) External doors and windows shall be designed to withstand the probable maximum local pressures, unless the effects of the collapse of such parts are taken into account in the investigation of the probable behavior of the airplane in a water landing as prescribed in paragraphs (a) and (b) of this section.

26. By amending § 4b.371 (a) by adding the following second sentence: "Air from passenger compartments shall not be recirculated into the crew compartments."

27. By amending § 4b.371 by adding a new paragraph (e) to read as follows:

§ 4b.371 *Ventilation.* • • •

(e) The control of ventilating air and temperature in crew compartments shall be independent of similar controls in passenger compartments.

28. By amending § 4b.383 by adding at the end of paragraphs (a) and (b) (1) the following reference: "(See § 4b.380 (c) for protective breathing requirements.)"

29. By amending that portion of the text of § 4b.383 (c) preceding subparagraph (1) by deleting from the first sentence the word "categories" and substituting in lieu thereof the word "classifications".

30. By amending § 4b.386 (a) by deleting the reference "§§ 4b.480 through 4b.490" and substituting in lieu thereof the reference "§§ 4b.480 through 4b.486 and § 4b.489."

31. By amending § 4b.401 (c) by adding in the last sentence after the words "the feathering lines" the phrase "on all airplanes manufactured after October 1, 1953."

32. By amending § 4b.418 by adding the following:

§ 4b.418 *Flow between interconnected tanks.* • • • If it is possible to pump fuel from one tank to another in flight, the following provisions shall be made to safeguard against structural damage to tanks or overflow of fuel in flight.

(a) There shall be provided either a visual or aural warning device to warn the crew that overfilling is imminent, or an automatic means to shut off fuel transfer before damage or overflow occurs.

(b) If a warning device is used without an automatic shutoff means, such device shall be in addition to the normal fuel tank quantity gauge, and the design of the fuel tank vents and the fuel transfer system shall be such that structural damage to tanks will not occur in the event of overfilling.

33. By amending that portion of the text of § 4b.453 preceding paragraph (a) by deleting the first sentence and inserting in lieu thereof the following: "A take-off cooling test shall be conducted to demonstrate cooling during take-off and during subsequent climb with one engine inoperative."

34. By amending § 4b.471 (c) to read as follows:

§ 4b.471 *Throttle and A. D. I. system controls.* • • •

(c) If an antidetonant injection system is provided, the flow of A. D. I. shall be automatically controlled in relation to the amount of power produced by the engine. In addition to the automatic control, a separate control shall be provided for the A. D. I. pumps.

35. By amending § 4b.473 (c) to read as follows:

§ 4b.473 *Mixture controls.* • • •

(c) The mixture controls shall be placed in a location accessible to both pilots, except where a separate flight engineer station with control panel is provided, in which case the mixture controls shall be accessible to the flight engineer.

36. By amending § 4b.474 (a) (3) to read as follows:

§ 4b.474 *Propeller controls.* • • •

(a) *Propeller speed and pitch controls.* • • •

(3) The master propeller speed and pitch control or the separate propeller speed and pitch controls, if a master control is not provided, shall be placed to the right of the pilot's throttle and shall be at least 1 inch lower than the throttle controls. If a separate flight engineer station with a control panel is provided, the separate propeller speed and pitch controls shall be located at such station and shall be accessible to the flight engineer, in which case a master control shall be provided for the pilot.

37. By amending § 4b.476a to read as follows:

§ 4b.476a *Supercharger controls.* Supercharger controls shall be accessible to the pilots, except where a separate flight engineer station with a control panel is provided, in which case they shall be accessible to the flight engineer.

38. By amending § 4b.480 (b) by deleting the reference "§§ 4b.481 through 4b.489" and substituting in lieu thereof the reference "§§ 4b.481 through 4b.490".

39. By amending § 4b.483 (c) by deleting the words "paragraph (a)" and inserting in lieu thereof the words "paragraphs (a) and (b)."

40. By amending § 4b.484 (a) (1) to read as follows:

§ 4b.484 *Fire extinguisher systems*—(a) *General.* (1) Fire extinguisher systems shall be provided to serve all designated fire zones and the engine induction system. This requirement shall be effective with respect to applications for type certificates in accordance with the provisions of § 4b.12. In addition, all other airplanes manufactured after October 1, 1953, shall comply with this requirement unless the engine power section is completely isolated from the engine accessory section by a fireproof diaphragm complying with the provisions of § 4b.488 and unless the cowling and nacelle skin comply with the provisions of § 4b.487, in which case fire extinguisher systems need not be provided in the engine power section.

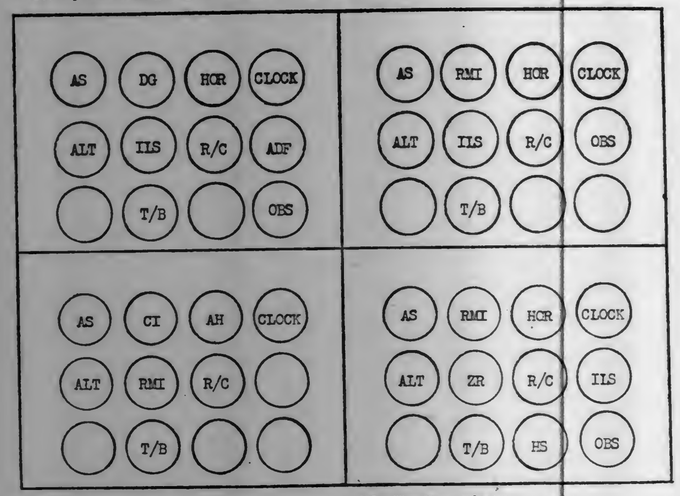
41. By amending § 4b.484 by deleting paragraph (a) (3) and making the text of this subparagraph (3) the first sentence of paragraph (e), and by redesignating the present paragraph (a) (4) as paragraph (a) (3).

42. By amending § 4b.486 (a) by deleting the word "engine."

43. By amending § 4b.487 by changing the headnote and by adding a new paragraph (e) to read as follows:

§ 4b.487 *Cowling and nacelle skin.* • • •

(e) The airplane shall be so designed and constructed that fire originating in the engine power or accessory sections cannot enter, either through openings or by burning through external skin, into any other zone of the nacelle where such fire would create additional hazards. If the airplane is provided with a retractable landing gear, this provision shall apply with the landing gear retracted. Fireproof materials shall be used for all nacelle skin areas which might be subjected to flame in the event of a fire originating in the engine power or accessory sections.



44. By amending § 4b.604 (m) by adding the following clause at the end of the paragraph: "or if the total engine cylinder displacement is 2,000 cubic inches or more."

45. By amending § 4b.604 by adding a new paragraph (n) as follows:

§ 4b.604 *Powerplant instruments.* • • •

(n) A means for each reversing propeller to indicate to the pilot when the propeller is in reverse pitch.

46. By amending Figure 4b–23 to read as follows:

ADF—Automatic direction finder.
AH—Approach horizon.
ALT—Altimeter.
AS—Air speed.
CI—Course indicator.
DG—Direction gyro.
HOR—Artificial horizon (bank and pitch).
HS—Heading selector.
ILS—Instrument landing system.
OBS—Omni-bearing selector.
R C—Rate of climb.
RMI—Radio magnetic indicator.
T/B—Turn and bank.
ZR—Zero reader.

FIGURE 4b–23—BASIC FLIGHT INSTRUMENT PANEL ARRANGEMENT.

47. By amending § 4b.611 (b) to read as follows:

§ 4b.611 *Arrangement and visibility of instrument installations.* • • •

(b) Flight instruments required by § 4b.603 shall be grouped in accordance with one of the flight instrument panels in Figure 4b–23 dependent upon which instruments are installed. The panel shall be centered as nearly as practicable about the vertical plane of the pilot's forward vision. The required flight instruments not shown in Figure 4b–23 shall be placed adjacent to the prescribed grouping.

48. By amending § 4b.612 (a) (2) to read as follows:

§ 4b.612 *Flight and navigational instruments*—(a) *Air-speed indicating systems.* • • •

(2) The air-speed indicating system shall be calibrated to determine the system error, i. e., the relation between IAS and CAS, in flight and during the accelerated take-off ground run. The ground run calibration shall be obtained from 0.8 of the minimum value of V_1 to the maximum value of V_2, taking into account the approved altitude and weight range for the airplane. In the ground run calibration, the flap and power settings shall correspond with the values determined in the establishment of the take-off path under the provisions of § 4b.116, assuming the critical engine to fail at the minimum approved value of V_1.

49. By amending § 4b.632 by deleting from paragraphs (b) and (c) the last sentence and substituting in lieu thereof the following: "The individual lights shall be of an approved type."

50. By amending § 4b.632 (f) by deleting the numerals "36" and "60" and substituting in lieu thereof the numerals "65" and "85", respectively.

51. By adding a new § 4b.637 to read as follows:

§ 4b.637 *Anti-collision light.* If an anti-collision light is used, it shall be of the rotating beacon type installed on top of the fuselage or tail in such a location that the light would not be detrimental to the crew's vision and would not detract from the conspicuity of the position lights. The color of the anti-collision light shall be aviation red in accordance with the specifications of § 4b.635 (a). The arrangement of the anti-collision light, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute with an on-off ratio between 1:25 and 1:75. If an anti-collision light is used, it shall be permissible to install the position lights in a manner so that the forward position lights and the rear white position light are on steady while the fuselage lights and the rear red position light are not energized.

52. By amending § 4b.643 by deleting the first sentence and substituting in lieu thereof the following: "Safety belts shall be of an approved type."

53. By amending § 4b.645 to read as follows:

§ 4b.645 *Ditching equipment.* When the airplane is certificated for ditching in accordance with § 4b.361, the ditching equipment shall be as prescribed in paragraphs (a) through (d) of this section.

(a) *Life rafts.* Life rafts shall be of an approved type. Unless excess rafts of sufficient capacity are provided, the buoyancy and seating capacity beyond the rated capacity of the rafts shall be such as to accommodate all occupants of the airplane in the event of a loss of one life raft of the largest rated capacity on board. Each life raft shall be equipped with a trailing line and with a static line, the latter designed to hold the raft near the airplane but to release it in case the airplane becomes totally submerged. Each raft shall contain obvious markings of instruction on the operation of the raft.

(b) *Life raft equipment.* Approved equipment intended for survival shall be attached to each life raft and marked for identification and method of operation.

NOTE: The extent and type of survival equipment will depend upon the route over which the airplane is operated.

(c) *Long-range signalling device.* An approved long-range signalling device shall be provided for use in one of the life rafts.

(d) *Life preservers.* Life preservers shall be of an approved type. They shall be reversible and shall contain obvious markings of instruction on their use.

54. By amending § 4b.646 to read as follows:

§ 4b.646 *Stowage of safety equipment.* Special stowage provisions shall be made for all prescribed safety equipment to be used in emergencies. The stowage provision shall be such that the equipment is directly accessible and its location is obvious. All safety equipment shall be protected against inadvertent damage. The stowage provisions shall be marked conspicuously to identify the contents and to facilitate removal of the equipment. In addition, the following shall specifically apply.

(a) *Emergency exit means.* The stowage provisions for the emergency exit means required by § 4b.362 (e) (7) shall be located at the exits which they are intended to serve.

(b) *Life rafts.* The provisions for the stowage of life rafts required by § 4b.645 (a) shall accommodate a sufficient number of rafts for the maximum number of occupants for which the airplane is certificated. Stowage shall be near exits through which the rafts can be launched during an unplanned ditching. Rafts automatically or remotely released on the outside of the airplane shall be attached to the airplane by means of the static line prescribed in § 4b.645 (a).

(c) *Long-range signalling device.* The stowage provisions for the long-range signalling device required by § 4b.645 (c) shall be located near an exit to be available during an unplanned ditching.

(d) *Life preservers.* The provisions for the stowage of life preservers required by § 4b.645 (d) shall accommodate one life preserver for each occupant for which the airplane is certificated. They shall be located so that a life preserver is within easy reach of each occupant while seated.

55. By amending § 4b.651 (h) to read as follows:

§ 4b.651 *Oxygen equipment and supply.* • • •

(h) *Protective breathing system.* When protective breathing equipment is required by the Civil Air Regulations, it shall be designed to protect the flight crew from the effects of smoke, carbon dioxide, and other harmful gases while on flight deck duty and while combating fires in cargo compartments (see § 4b.380 (c)). The protective breathing equipment and the necessary supply of oxygen shall be in accordance with the following provisions.

(1) The protective breathing equipment shall include masks covering the eyes, nose, and mouth, or only the nose and mouth where accessory equipment is provided to protect the eyes.

(2) A supply of protective oxygen per crew member shall be of 15-minute duration at a pressure altitude of 8,000 feet and a respiratory minute volume of 30 liters per minute BTPD.

NOTE: When a demand type oxygen system is employed, a supply of 312 liters of free oxygen at 70° F. and atmosphere (760 mm Hg.) pressure is considered to be of 15-minute duration at the prescribed altitude and rate of flow. When a continuous flow protective breathing system is used, including a mask with a standard rebreather bag, a flow rate of 60 liters per minue at 8,000 feet (45 liters per minutes at sea level) and a supply of 623 liters of free oxygen at 70° F. and atmospheric pressure is considered to be of 15-minute duration. (BTPD refers to the international standard for measurement of gases. This standard assumes body temperature conditions, i. e., 37° C., at ambient pressure, dry.)

56. By amending § 4b.719 by changing the headnote and the first sentence to read as follows:

§ 4b.719 *Airplane weight, center of gravity, and weight distribution limitations.* The airplane weight, center of gravity, and weight distribution limitations shall be those prescribed in §§ 4b.101, 4b.102, 4b.103, and, if applicable, § 4b.210 (c). • • •

57. By amending § 4b.471 (c) by adding the following at the end of the paragraph: "If structural reserve fuel conditions have been established (see § 4b.210 (c)), the fuel quantities and locations appropriate to each structural reserve fuel condition shall be included, together with statements to the effect that:

(1) Structural reserve fuel shall be used last, and

(2) The total fuel supply for any flight shall be not less than the fuel required by the applicable operating rules of the Civil Air Regulations to fly to the first point of intended landing, and thereafter to the most distant alternate airport if such alternate is required, plus the greater of the following:

(i) Any additional fuel which is required by the operating rules, or

(ii) The structural reserve fuel appropriate to the particular airplane loading condition.

b. It is proposed to amend Parts 4a, 41, 42, and 61 (proposed revised Part 40) and to issue a Special Civil Air Regulation, effective January 1, 1953, as follows:

1. By rescinding § 4a.749a–T.

2. By amending §§ 41.28 (d), 42.70 (c), and 61.214 (d) (§ 61.214 (d) will appear as § 40.53 (c) upon adoption of the proposed revision of Part 40) to read as follows:

§ 41.28 *General limitations.* • • •

(d) No airplane shall be taken off at a weight which exceeds the allowable weight for the runway being used as determined in accordance with the take-off limitations of the transport category operating rules, after taking into account the temperature and humidity operating correction factors required by § 4b.117, and set forth in the Airplane Flight Manual for the airplane.

§ 42.70 *Operating limitations for transport category airplanes.* • • •

(c) (To read in substance the same as proposed § 41.28 (d) of this subchapter.)

§ 61.214 *General limitations.* • • •

(d) (To read in substance the same as proposed § 41.28 (d) of this subchapter.)

3. By amending §§ 41.30 (c), 42.75, and 61.221 (§ 61.221 will appear as § 40.58 upon adoption of the proposed revision to Part 40) to read as follows:

§ 41.30 *En route limitations.* • • •

(c) The provisions of this paragraph shall apply only to airplanes certificated in accordance with the performance requirements of Part 4b of this subchapter. No airplane having four or more engines shall be flown along an intended track except under the conditions of either subparagraph (1) or subparagraph (2) of this paragraph.

(1) No place along the intended track shall be more than 90 minutes away from an available landing area at which a landing can be made in accordance with the requirements of § 41.34, assuming all engines to be operating at cruising power.

(2) The take-off weight shall not be greater than that which would permit the airplane, with the two critical engines inoperative to have a rate of climb in feet per minute equal to 0.01 $V_{s_0}^2$ (V_{s_0} being expressed in miles per hour) with the airplane's weight equal to that which would exist 90 minutes after departure (assumed to be the moment of falure of the second engine). If fuel jettisoning is provided, the airplane's weight at this point shall be considered to be not less than that which would include sufficient fuel to proceed to an available landing area at which a landing can be made in accordance with the requirements of § 41.34 and to arrive there at an altitude of at least 1,000 feet directly over the landing area. The prescribed rate of climb shall be realized along all points of the route to the landing area either at an altitude of 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track or at an altitude of 5,000 feet, whichever is higher.

§ 42.75 *En route limitations—two engines inoperative.* (To read in substance the same as proposed § 41.30 (c) of this subchapter.)

§ 61.221 *En route limitations—two engines inoperative.* (To read in substance the same as proposed § 41.30 (c) of this subchapter.)

4. To issue a Special Civil Air Regulation superseding presently effective Special Civil Air Regulation SR–361 to read as follows:

Contrary provisions of the Civil Air Regulations notwithstanding and subject to the approval of the Administrator, any air carrier may engage, while operating airplanes in scheduled or other service in experimentation projects on a limited number of airplanes, such projects designed to improve position light and anti-collision light systems presently specified in Part 4b of the Civil Air Regulations. The Administrator shall prescribe such conditions and limitations as may be necessary to assure safety and to avoid confusion in air navigation, and shall require each carrier to disclose publicly its deviations from the requirements of Part 4b at times and in a manner which he deems consistent with the best interests of safety.

Part 5

The presently effective Part 5 of the regulations concerning the certification of gliders consists only of the administrative provisions and utilizes the technical provisions of Part 3 as a basis for certification. No general discussions on Part 5 were held during the recent annual airworthiness meeting. There were noted, however, a couple of minor points of an editorial and clarifying nature. Therefore, the following two amendments are proposed. These amendments are made for the purpose of consistency with other airworthiness parts of the regulations.

It is proposed to amend Part 5, effective January 1, 1953, as follows:

1. By amending § 5.1 (a) (3) by adding the following reference: "(See § 5.18.)"

2. By amending § 5.15 (c) to read as follows:

§ 5.15 *Inspections and tests.* • • •

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

Part 6

Numerous subjects pertaining to rotorcraft were discussed at the recent annual airworthiness meeting. Some of these subjects are now considered sufficiently resolved to warrant specific proposals for amendment of the regulations. Other subjects are considered to require further study before proposals can be formulated.

The proposed amendments contained herein to Part 6 of the Civil Air Regulations reflect the discussions at the annual airworthiness meeting and include certain changes of considerable impor-

tance. They also include other substantive changes of relatively minor importance, as well as a number of editorial clarifications and corrections.

Certain of the subjects discussed at the annual airworthiness meeting which are not reflected in the proposed changes are considered of sufficient importance to set forth reasons for the lack of action at this time.

A proposal was made to establish a rotorcraft transport category. It was brought out at the meeting, however, that the establishment of a transport category, including the necessary detail requirements, would be premature at this time because of lack of experience with rotorcraft used in carrying passengers for hire. For example, considerable question exists as to the appropriateness of requiring all transport category rotorcraft to be multiengine. The proposal presented at the annual meeting included such a requirement following the principles established for airplanes. There appears to be much less justification for applying these principles to rotorcraft. The Bureau believes that additional thought should be given to the basic principles underlying any future rotorcraft transport category before detail requirements for such rotorcraft can be established. Consequently, changes in Part 6 to establish a rotorcraft transport category are not proposed at this time. Instead, the study of this subject will be pursued with the aim of first establishing the broad principles and subsequently developing the detail criteria.

Consideration was given at the meeting to a proposed definition for hovering which would involve certain limitations with respect to forward speed and prevailing wind velocity. A number of different requirements in Part 6, including those pertaining to performance, controllability, and ventilation, make reference to hovering in zero wind. The use of hovering in zero wind is a rational basis for certain of the requirements. However, in other instances (controllability and ventilation) corrections from actually existing conditions to conditions of zero wind are not appropriate. Since this problem has many implications, more study is needed before establishing a definition for hovering. For this reason, a specific proposal for a change in the regulations is not being made at this time.

Some question was raised at the annual airworthiness meeting concerning the intent of the regulation with regard to the establishment of a range of rotor speeds and a variation in the never-exceed speed with the rotor speed. The Bureau considers that the requirement with respect to range of rotor speeds (§ 6.103 (a)) indicates clearly that such range shall provide a margin for variation of the rotor speed and will depend upon the individual design of the synchronizer or governor employed. Similarly, the regulation permits a variation of never-exceed speed with altitude and rotor speed (§ 6.711 (b)), if the ranges of the variables are sufficiently large to be practical and consistent with safety. It is possible that additional experience on rotorcraft in this respect will permit the formulation of more specific rules. In the meantime, however, there appears no alternative but to rely upon findings of the Administrator in each individual type rotorcraft under consideration. For this reason no change in the regulation is being proposed.

A question was raised at the annual airworthiness meeting whether or not § 6.120 (b) should be interpreted to require a specific time delay between one flight maneuver and the next in performing a smooth transition. It was recommended that, if the intent of the regulation is to require a time delay, the wording should be altered accordingly. The Bureau considers that the language in this regulation is sufficiently clear as not requiring a time delay. Whether or not some time delay should be required is a matter for further study. Until such study is completed, the Bureau is not proposing a change to the regulation in this respect. (Note: A change is proposed to § 6.120 (b), but not with respect to the subject of time delay.)

A recommendation was made at the annual airworthiness meeting with respect to § 6.260 (a) that the prescribed crash load factors in the three directions should be considered as being applied separately. The Bureau considers that the intent of this requirement in Part 6, as well as in other aircraft airworthiness parts, always has been to treat all crash load factor components simultaneously, because a crash condition which would assume the load factors to act separately along one of the main axes of the rotorcraft would be unrealistic. For this reason, a change in the present regulation along the lines recommended is not being proposed.

Discussions during the annual airworthiness meeting indicated the desirability of reviewing the validity of certain provisions pertaining to landing loads. It was generally agreed that a study should be made of this subject with the objective of discussing the details during the 1953 annual airworthiness review. Consequently, specific proposals for changes in the regulations are not being made at this time.

It was recommended at the annual airworthiness meeting that § 6.719 include a statement to the effect that the scope and arrangement of the maintenance manual should be left to the discretion of the manufacturer. The Bureau considers that the recommended inclusion would not contribute in substance to the regulation, because the maintenance manual is not subject to the approval of the Administrator as is the case with a rotorcraft flight manual. Therefore, the arrangement of the manual automatically becomes a matter for decision by the manufacturer. On the other hand, the scope of the manual is prescribed by the regulations in general terms. For these reasons, such a change to the regulations is not proposed.

The following outstanding subjects discussed at the annual airworthiness meeting are considered sufficiently resolved to warrant specific proposals for changes in the regulations, and such proposals are contained herein.

A change in the regulations is herein proposed with respect to usable fuel. The presently effective regulations require that the fuel capacity be determined in relation to the maximum continuous horsepower. The proposed change would require the carriage of sufficient usable fuel for one hour's operation at the maximum continuous power (see proposed amendments to §§ 6.101 (b) (2) and 6.420).

The minimum maneuvering limit load factor prescribed in the presently effective regulations is 2.5. Experience indicates that for certain designs this value is overly conservative, and therefore it is proposed to reduce it to 2.0 (see proposed amendment to § 6.212). It has also been found that the presently effective regulation which requires auxiliary rotors to be designed for centrifugal loads equal to twice those resulting when the rotor is driven by the engine at maximum continuous speed is overly conservative. Consequently, it is proposed that the centrifugal loads be those resulting from operation of the engine at maximum design rotor speed (see proposed amendment to § 6.221).

A significant change is being proposed with respect to the application of rotor lift during landing. Two recommendations were made at the annual airworthiness meeting, one to allow rotor lift equal to one-half the design maximum weight, the other to allow two-thirds. Test data substantiating these two viewpoints were submitted subsequent to the meeting. These data indicate that considerable rotor lift is effective during a landing. Certain of these data attempted to show the validity of assuming the rotor lift to be two-thirds of the design maximum weight. However, these were not considered sufficiently conclusive for application to all type rotor craft. For these reasons, the Bureau considers it more appropriate to propose that the rotor lift be assumed only one-half the design maximum weight. It is anticipated that further experimentation will be conducted on this matter and that at some future time a more accurate value for rotor lift can be established (see proposed amendment to § 6.230 (c) and proposed note under § 6.237 (a)).

Additional changes in substance are being proposed for the structural criteria. These include a clarification of equilibrium in the level landing conditions (see proposed amendment to § 6.231 (b) (2)), new specifications for shock absorption tests (see proposed amendment to § 6.237), and a reduction in the prescribed vertical load for the float landing conditions (see proposed amendment to § 6.245 (b)).

A change is being proposed with respect to cargo and baggage compartment fire protection. This change is intended to safeguard controls, wiring, lines, equipment, or accessories which might be located in baggage or cargo compartments (see proposed amendment to § 6.382). In addition, a provision is being proposed for protection from fire of structures, controls, etc., other than those located in baggage or cargo compartments (see proposed amendment to § 6.384).

A number of changes are being proposed which are intended to protect from engine fires rotorcraft equipped with engines of relatively high powers. These proposed rules are based on the assumption that a controlled autorotational landing can be executed within five minutes after the start of an engine fire. The scope of the proposals covers the installation of fire walls, lines and fittings, flammable fluid systems, shutoff means, fire detector and fire extinguisher systems (see proposed amendments to §§ 6.480, 6.482, 6.483 (a), 6.485, 6.486, 6.487, and 6.488).

It is proposed to amend Part 6, effective January 1, 1953, as follows:

1. By amending § 6.1 (a) (3) by adding the reference: "(See § 6.18.)".

2. By amending § 6.1 (g) (5) (i) by deleting the word "or" and inserting in lieu thereof the word "and".

3. By amending § 6.15 (c) to read as follows:

§ 6.15 *Inspections and tests.* • • •

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

4. By amending § 6.101 (b) (2) to read as follows:

§ 6.101 *Weight limitations.* • • •

(b) • • • (2) usable fuel for one hour's operation at the maximum continuous power and rpm.

5. By amending § 6.101 (b) (4) to read as follows:

§ 6.101 *Weight limitations.* • • •

(b) • • • (4) 170 pounds in all seats, except that when the maximum permissible weight to be carried in a seat is less than 170 pounds it shall be acceptable to use this lesser weight. (See § 6.738 (a).)

6. By amending § 6.101 (d) (3) to read as follows:

§ 6.101 *Weight limitations.* • • •

(d) • • • (3) oil in the quantity determined in accordance with the provisions of § 6.440 (b).

7. By amending § 6.120 (b) by adding after the word "possible" the phrase "to maintain a flight condition and."

8. By amending § 6.121 (b) by deleting the words "the maximum permissible forward speed" and inserting in lieu thereof "V_{NE} (see § 6.711)."

9. By amending § 6.200 (a) by deleting from the third sentence the words "paragraph 5 (b) through (e)" and inserting in lieu thereof the words "paragraphs (b) through (e)."

10. By amending § 6.202 (c) by deleting the reference "§ 6.300" and inserting in lieu thereof the reference "§ 6.203."

11. By amending § 6.212 by deleting from the second sentence the numeral "2.5" and substituting in lieu thereof the numeral "2.0."

12. By amending § 6.221 by deleting from the second sentence the clause "centrifugal loads of twice those resulting when the rotor is driven by the engine at its maximum continuous speed." and inserting in lieu thereof the clause "centrifugal loads resulting from the maximum design rotor r. p. m."

13. By amending § 6.230 (c), (d), and (e) to read as follows:

§ 6.230 *General.* • • •

(c) *Design weight.* The design weight used in the landing conditions shall not be less than the maximum weight of the rotorcraft. It shall be acceptable to assume a rotor lift, not exceeding ½ the design maximum weight, to exist throughout the landing impact and to act through the center of gravity of the rotorcraft.

(d) *Load factor.* The structure shall be designed for a limit load factor, selected by the applicant, of not less than the value of the limit inertia load factor substantiated in accordance with the provisions of § 6.237, except in conditions in which other values of load factor are prescribed.

(e) *Landing gear position.* The tires shall be assumed to be in their static position, and the shock absorbers shall be assumed to be in the most critical position, unless otherwise prescribed.

14. By amending § 6.230 by adding a new paragraph (f) to read as follows:

§ 6.230 *General.* • • •

(f) *Landing gear arrangement.* The provisions of §§ 6.231 through 6.236 shall be applicable to landing gear arrangements where two wheels are located aft and one or more wheels are located forward of the center of gravity.

15. By amending § 6.231 (b) (2) by adding the following to the present text: "For attitude prescribed in paragraph (a) (1) of this section the resulting pitching moment shall be assumed resisted by the forward gear, while for the attitude prescribed in paragraph (a) (2) of this section the resulting pitching moment shall be assumed resisted by angular inertia forces."

16. By amending § 6.237 to read as follows:

§ 6.237 *Shock absorption tests.* Drop tests shall be conducted in accordance with paragraphs (a) and (b) of this section to substantiate the landing limit inertia load factor (see § 6.230 (d)) and to demonstrate the reserve energy absorption capacity of the landing gear. The drop tests shall be conducted with the complete rotorcraft or on units consisting of wheel, tire, and shock absorber in their proper relation.

(a) *Limit drop test.* The drop height in the limit drop test shall be 13 inches measured from the lowest point of the landing gear to the ground. A lesser drop height shall be permissible if it results in a drop test contact velocity found by the Administrator to be equal to the greatest probable sinking speed of the rotorcraft at ground contact in power-off landings likely to be made in normal operation of the rotorcraft. In no case shall the drop height be less than 8 inches. If rotor lift is considered (see § 6.230 (c)), it shall be introduced in the drop test by the use of appropriate energy absorbing devices or by the use of an effective mass.

NOTE: In lieu of more rational computations, the following may be employed when use is made of an effective mass:

$$W_e = W\left[\frac{h+(1-L)d}{h+d}\right]; \text{ and } n = n_j\frac{W_e}{W}+L;$$

where:

W_e = the effective weight to be used in the drop test (lbs.);

$W = W_M$ for main gear units (lbs.), equal to the static reaction on the particular unit with the rotorcraft in the most critical attitude;

$W = W_N$ for nose gear units (lbs.), equal to the vertical component of the static reaction which would exist at the nose wheel, assuming the mass of the rotorcraft acting at the center of gravity and exerting a force of 1.0g downward and 0.25g forward;

h = specified free drop height (inches);

L = ratio of assumed rotor lift to the rotorcraft weight, not in excess of 0.5;

d = deflection under impact of the tire (at the approved inflation pressure) plus the vertical component of the axle travel relative to the drop mass (inches);

n = limit inertia load factor;

n_j = the load factor during impact developed on the mass used in the drop test (i. e., the acceleration dv/dt in g's recorded in the drop test plus 1.0).

(b) *Reserve energy absorption drop test.* The reserve energy absorption capacity shall be demonstrated by a drop test in which the drop height is equal to 1.5 times the drop height prescribed in paragraph (a) of this section, and the rotor lift is assumed to be not greater than 0.75 times the rotorcraft maximum weight, except that the resultant load factor need not exceed 1.5 times the limit inertia load factor determined in accordance with paragraph (a) of this section. In this test the landing gear shall not collapse.

NOTE: The effect of rotor lift may be considered in a manner similar to that prescribed in paragraph (a) of this section.

17. By amending § 6.245 (a) (1) by adding the following clause to the last sentence: "or shall be assumed to be the same as the load factor determined for the ground type landing gear."

18. By amending § 6.245 (b) to read as follows:

§ 6.245 *Float landing conditions.* • • •

(b) *Side load condition.* The vertical load in this condition equal to 0.75 the vertical load prescribed in paragraph (a) (1) of this section, divided equally between the floats, shall be applied together with a side component. The total side component shall be equal to 0.25 the total vertical load in this condition and shall be applied to one float only.

19. By amending § 6.251 (c) by deleting from the second sentence the phrase: "by a factor of 1.5." and substituting in lieu thereof the clause: ", as defined by the power conditions in § 6.1 (g) (3), by a factor of 1.33."

20. By amending § 6.306 (c) and (d) to read as follows:

§ 6.306 *Material strength properties and design values.* • • •

(c) ANC–5, ANC–18, and ANC–23, Part II values shall be used unless shown to be inapplicable in a particular case.

NOTE: ANC–5, "Strength of Metal Aircraft Elements," ANC–18, "Design of Wood Aircraft Structures," and ANC–23, "Sandwich Construction for Aircraft," are published by the Subcommittee on Air Force-Navy-Civil Aircraft Design Criteria, and may be obtained

from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

(d) The strength, detail design, and fabrication of the structure shall be such as to minimize the probability of disastrous fatigue failure.

NOTE: Points of stress concentration are one of the main sources of fatigue failure.

21. By adding a new § 6.313 to read as follows:

§ 6.313 *Rotor blade clearance.* Clearance shall be provided between the main rotor blades and all other parts of the structure to prevent the blades from striking any part of the structure during any operating condition of the rotorcraft.

22. By amending §6.338 to read as follows:

§ 6.338 *Skis.* Skis shall be of an approved type. The maximum limit load rating of each ski shall not be less than the maximum limit load determined in accordance with the applicable ground load requirements of this part.

23. By redesignating §§ 6.340 and 6.341 as §§ 6.341 and 6.342, respectively.

24. By adding a new § 6.340 to read as follows:

§ 6.340 *Floats.* Floats shall be of an approved type and shall comply with the provisions of §§ 6.341 and 6.342.

25. By amending redesignated § 6.342 (a) by deleting from the second sentence the words "maximum expected vertical load" and inserting in lieu thereof "vertical loads prescribed in § 6.245 (a)."

26. By amending redesignated § 6.342 (b) by deleting from the first sentence the words "maximum expected vertical, horizontal, and side loads" and inserting in lieu thereof "vertical, horizontal, and side loads prescribed in § 6.245."

27. By amending § 6.382 to read as follows:

§ 6.382 *Cargo and baggage compartments.* Cargo and baggage compartments shall be completely lined with fire-resistant material, except that flame-resistant materials shall be acceptable in compartments which are readily accessible to a crew member in flight. Compartments shall include no controls, wiring, lines, equipment, or accessories the damage or failure of which would affect the safe operation of the rotorcraft, unless such items are shielded, isolated, or otherwise protected to that they cannot be damaged by movement of cargo in the compartment, and so that any breakage or failure of such items will not create a fire hazard.

28. By amending § 6.384 to read as follows:

§ 6.384 *Fire protection of structure, controls, and other parts.* All structure, controls, rotor mechanism, and other parts essential to a controlled landing of the rotorcraft which would be affected by powerplant fires shall either be of fireproof construction or shall be otherwise protected, so that they can perform their essential functions for at least 5 minutes under all foreseeable powerplant fire conditions. (See also §§ 6.480 and 6.483 (a).)

29. By amending § 6.414 to read as follows:

§ 6.414 *Shafting critical speed.* The critical speeds of all shafting shall be determined by actual demonstration, except that analytical methods shall be acceptable for determining these speeds if the Administrator finds that reliable methods of analysis are available for the particular design. If the critical speeds lie within or close to the operating ranges for idling, power-on, and autorotative conditions, it shall be demonstrated by tests that the resultant stresses are within safe limits. If analytical methods are used and indicate that no critical speeds lie within the permissible operating ranges, the margins between the calculated critical speeds and the limits of the permissible operating ranges shall be adequate to allow for possible variations of the computed values from actual values.

30. By amending § 6.420 to read as follows:

§ 6.420 *Capacity and feed.* The usable fuel capacity shall not be less than that required for one hour's operation at maximum continuous power and rpm. Gravity feed or mechanical pumping of fuel shall be employed. Air-pressure fuel systems shall not be allowed. The fuel supply system shall be arranged so that, insofar as practicable, the entire fuel supply can be utilized in the maximum inclinations of the fuselage for any sustained conditions of flight, and so that the feed ports will not be uncovered during normal maneuvers involving moderate rolling or sideslipping. On rotorcraft with more than one fuel tank (see § 6.422 (e)) the system shall feed fuel promptly after one tank is turned off and another tank is turned on, and there shall be installed in addition to the fuel quantity indicator (see § 6.604 (a) (1)) a warning device to indicate when the fuel in any tank becomes low. The fuel remaining in such tank at the time of warning indication shall not be considered usable fuel.

31. By amending § 6.462 (c) to read as follows:

§ 6.462 *Induction system de-icing and anti-icing provisions.* * * *

(c) Rotorcraft equipped with sea level engines employing carburetors which have been tested and proven to incorporate features preventing the formation of ice shall be provided with a sheltered alternate source of air. The preheat supplied to this alternate air intake shall be not less than that provided by the engine cooling air downstream of the cylinders.

32. By amending § 6.462 (e) by deleting the phrase "embody features tending to reduce the possibility of ice formation" and inserting in lieu thereof the phrase "have been tested and proven to incorporate features preventing the formation of ice."

33. By amending § 6.480 by adding a note to read as follows:

§ 6.480 *General.* * * *

NOTE: The powerplant fire protection provisions are intended to insure that the main and auxiliary rotors and controls remain operable, the essential rotorcraft structure remains intact, and that the passengers and crew are otherwise protected for a period of at least 5 minutes after the start of an engine fire to permit a controlled autorotational landing.

34. By amending § 6.482 by adding the following to the present text: "Shutoff valves and their controls shall be located on the remote side of the fire wall from the engine, unless it is shown that the valve will perform its intended functions under all fire conditions likely to result from an engine fire. In installations using engines of less than 500 cu. in. displacement, shutoff means need not be provided for engine oil systems."

35. By amending § 6.483 (a) to read as follows:

§ 6.483 *Fire wall.* (a) Engines shall be isolated from personnel compartments by means of fire walls, shrouds, or other equivalent means. They shall be similarly isolated from the structure, controls, rotor mechanism, and other parts essential to a controlled landing of the rotorcraft, unless such parts are protected in accordance with the provisions of § 6.384. All auxiliary power units, fuel-burning heaters, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the rotorcraft by means of fire walls, shrouds, or other equivalent means. In complying with the provisions of this paragraph, account shall be taken of the probable path of a fire as affected by the air flow in normal flight and in autorotation. (See also § 6.486.)

36. By adding a new § 6.485 to read as follows:

§ 6.485 *Lines and fittings.* All lines and fittings carrying flammable fluids or gases in areas subject to engine fire conditions shall comply with the provisions of paragraphs (a) through (c) of this section.

(a) Except those lines and fittings forming an integral part of the engine, lines and fittings which are under pressure, or which attach directly to the engine, or which are subject to relative motion between components shall be flexible, fire-resistant lines with fire-resistant end fittings of the permanently attached, detachable, or other approved types.

(b) Lines and fittings which are not subject to pressure or to relative motion between components shall be of fire-resistant materials.

(c) Vent and drain lines and fittings shall be subject to the provisions of paragraphs (a) and (b) of this section.

37. By adding a new § 6.486 to read as follows:

§ 6.486 *Flammable fluids.* (a) Fuel tanks shall be isolated from the engine by a fire wall or shroud. On all rotorcraft having engines of more than 900 cu. in. displacement, all tanks and other flammable fluid tanks shall be similarly isolated unless the fluid contained, the design of the system, the materials used in the tank, the shutoff means, all connections, lines, and controls are such as to provide an equally high degree of safety.

(b) Not less than one-half inch of clear air space shall be provided between any tank and the isolating fire wall or shroud unless other equivalent means are used to protect against heat transfer from the engine compartment to the flammable fluid.

38. By adding a new § 6.487 to read as follows:

§ 6.487 *Fire detector systems.* On all rotorcraft having engines of more than 900 cu. in. displacement, quick-acting fire detectors of an approved type shall be provided in all engine compartments, and they shall be sufficient in number and location to assure prompt detection of engine fires. Fire detector systems shall comply with the following provisions:

(a) Fire detectors shall be constructed and installed to assure their ability to resist without failure all vibration, inertia, and other loads to which they would be subjected in operation.

(b) Fire detectors shall be unaffected by the exposure to oil, water, or other fluids or fumes which might be present.

(c) Means shall be provided to permit the crew to check in flight the functioning of the electrical circuit associated with the fire detector system.

(d) Wiring and other components of the fire detector systems which are located in engine compartments shall be of fire-resistant construction.

39. By adding a new § 6.488 to read as follows:

§ 6.488 *Fire extinguisher systems*—(a) *General.* (1) On all rotorcraft having engines of more than 1,200 cu. in. displacement, fire extinguisher systems shall be provided to serve all engine compartments and engine induction systems.

(2) On single-engine rotorcraft, the fire extinguisher system, the quantity of extinguishing agent, and the rate of discharge shall be such as to provide an adequate discharge for the engine compartment. On multiengine rotorcraft, the system shall provide two adequate discharges and it shall be possible to direct both discharges to any engine compartment.

(b) *Fire-extinguishing agents.* (1) Extinguishing agents employed shall be methyl bromide, carbon dioxide, or any other agent which has been shown to provide equivalent extinguishing action.

(2) If methyl bromide, carbon dioxide, or any other toxic extinguishing agent is employed, provision shall be made to prevent the entrance of harmful concentration of fluid or fluid vapors into any personnel compartments either due to leakage during normal operation of the rotorcraft or as a result of discharging the fire extinguisher on the ground or in flight even though a defect may exist in the extinguishing system. Compliance with this requirement shall be demonstrated by appropriate tests.

(3) If a methyl bromide system is provided, the containers shall be charged with a dry agent and shall be sealed by the fire extinguisher manufacturer or by any other party employing appropriate recharging equipment.

(c) *Extinguishing agent container pressure relief.* Extinguishing agent containers shall be provided with a pressure relief to prevent bursting of the container due to excessive internal pressures. The following provisions shall apply:

(1) The discharge line from the relief connection shall terminate outside the rotorcraft in a location convenient for inspection on the ground.

(2) An indicator shall be provided at the discharge end of the line to provide a visual indication when the container has discharged.

(d) *Extinguishing agent container compartment temperature.* Under all conditions in which the rotorcraft is intended for operation, the temperature range of the extinguishing agent containers shall be maintained to assure that the pressure in the containers can neither fall below the minimum necessary to provide an adequate rate of extinguishing agent discharge nor rise above a safe limit so that the system will not be prematurely discharged.

(e) *Fire extinguisher system materials.* Materials in the fire extinguisher system shall not react chemically with the extinguishing agent so as to constitute a hazard. All components of the fire extinguisher systems located in engine compartments shall be constructed of fireproof materials.

40. By amending § 6.620 (c) by deleting the first sentence and inserting in lieu thereof the following: "Electrical sources of power shall have sufficient capacity during all normal flight operating conditions to supply the electrical load requirements without electrical or thermal distress."

41. By amending § 6.626 by deleting the words "used in flight" and inserting in lieu thereof the words "essential to safety in flight."

42. By amending § 6.631 (a) to read as follows:

§ 6.631 *Landing lights.* (a) When landing or hovering lights are required, they shall be of an approved type.

43. By amending § 6.632 (b) by deleting the last sentence and inserting in lieu thereof the following: "The individual lights shall be of an approved type."

44. By amending § 6.632 (c) by deleting the last sentence and inserting in lieu thereof the following: "The light shall be of an approved type."

45. By amending § 6.710 by inserting the words "rotor speed, power," after the word "altitude.".

46. By amending § 6.711 (a) by inserting in the second sentence the words "at sea level" between the words "speed" and "with."

47. By amending § 6.713 by adding after the first sentence the reference: "(See also § 6.710.)."

48. By amending § 6.714 (b) (2) by adding at the end of the subparagraph the reference: "(See §§ 6.103, 6.710, and 6.711.)."

49. By amending § 6.719 by adding at the end of the section the following sentence: "Such components shall be identified by serial number or by other equivalent means."

50. By amending § 6.732 by deleting the reference: "(See § 6.612 (a).)" and inserting in lieu thereof the reference: "(See §§ 6.612 (a), 6.710, 6.711, 6.712, 6.713, and 6.715.)."

Part 13

There were only a few substantive matters regarding the certification of engines discussed at the recent annual airworthiness meeting.

The most important subject was that of engine endurance tests. Two separate proposals were made at the meeting, both intended to increase the severity of these tests. One of the proposals provided for test runs at powers and speeds above the rated. The proponents of this proposal indicated that such over-rating in the tests was necessary in order to remedy for the future the type difficulties which are being experienced on presently operated engines. No meeting of minds was reached between the proponents of the two separate proposals, although it was generally agreed that more severe tests are appropriate.

The Bureau considers that insufficient evidence has been presented to support the necessity of endurance tests under powers and speeds higher than the rated. For this reason, the Bureau considers it appropriate to propose amending the regulations to include those endurance test provisions suggested at the meeting which do not involve over-rating of engines. However, the Bureau considers that the subject of power and speed over-rating in endurance tests deserves further study to ascertain the effectiveness of such tests in improving the reliability of engines in service.

At the annual airworthiness meeting it was generally agreed that the regulations should include a requirement for the installation of power indicating provisions (torquemeter heads) on newly certificated engines of certain minimum power rating. However, there was also agreement that power indication should be provided on all transport category airplanes using engines of over 2,000 cubic inch displacement and on all engines using automatic feathering propellers. In view of this, the Bureau considers it unnecessary that Part 13 include a mandatory requirement for power indicating provisions.

In addition to the more severe endurance test requirements, the proposed amendments contained herein include a few items of an editorial and clarifying nature.

It is proposed to amend Part 13, effective January 1, 1953, as follows:

1. By amending § 13.1 (a) (3) by adding the following reference: "(See § 13.18.)"

2. By amending § 13.15 (c) to read as follows:

§ 13.15 *Inspections and tests.* * * *

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

3. By amending § 13.152 by deleting from the second sentence the words "such tests" and substituting in lieu

thereof the words "the power characteristics calibration tests".

4. By amending § 13.154 to read as follows:

§ 13.154 *Endurance test.* The endurance test of an engine with a representative propeller shall include a total of 150 hours of operation and, depending upon the type and contemplated use of the engine, shall consist of one of the series of runs specified in paragraphs (a) through (c) of this section, whichever series is applicable. The runs shall be performed in such periods and order as are found appropriate by the Administrator for the specific engine. During the endurance test the engine power and the crankchaft rotational speed shall be controlled within ±3 percent of the specified values.

(a) *Single-speed engines.* For engines not incorporating a supercharger and for those incorporating a single-speed supercharger, the following series of runs shall apply:

(1) A 30-hour run shall be conducted consisting of alternate periods of 5 minutes at take-off power and speed, and 5 minutes at maximum best economy cruising power or at maximum recommended cruising power.

(2) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 75 percent maximum continuous power and 91 percent maximum continuous speed.

(3) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 70 percent maximum continuous power and 89 percent maximum continuous speed.

(4) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 65 percent maximum continuous power and 87 percent maximum continuous speed.

(5) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 60 percent maximum continuous power and 84.5 percent maximum continuous speed.

(6) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 50 percent maximum continuous power and 79.5 percent maximum continuous speed.

(7) A 20-hour run shall be conducted consisting of alternate periods of 2½ hours at maximum continuous power and speed, and 2½ hours at maximum best economy cruising power or at maximum recommended cruising power.

(b) *Two-speed engines.* For engines incorporating a two-speed supercharger, the following series of runs shall apply:

(1) A 30-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 5 minutes at take-off power and speed, and 5 minutes at maximum best economy cruising power or at maximum recommended cruising power. If a take-off rating is desired in the higher gear ratio, 15 hours of the 30-hour run shall be conducted in the higher gear ratio in alternate periods of 5 minutes at the observed horsepower obtainable with the take-off critical altitude manifold pressure and take-off speed, and 5 minutes at 70 percent high ratio maximum continuous power and 89 percent high ratio maximum continuous speed.

(2) A 15-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and ½ hour at 75 percent maximum continuous power and 91 percent maximum continuous speed.

(3) A 15-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and ½ hour at 70 percent maximum continuous power and 89 percent maximum continuous speed.

(4) A 30-hour run shall be conducted in the higher gear ratio at maximum continuous power and speed.

(5) A 5-hour run shall be conducted consisting of alternate periods of 5 minutes in each of the supercharger gear ratios. The first 5 minutes of the test shall be conducted at normal rated speed in the higher gear ratio and the observed horsepower obtainable with 90 percent of the normal rated manifold pressure in the higher gear ratio under sea level conditions. The condition for operation for the alternate 5 minutes in the lower gear ratio shall be that obtained by shifting to the lower gear ratio at constant speed.

(6) A 10-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and 1 hour at 65 percent maximum continuous power and 87 percent maximum continuous speed.

(7) A 10-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and 1 hour at 60 percent maximum continuous power and 84.5 percent maximum continuous speed.

(8) A 10-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and 1 hour at 50 percent maximum continuous power and 79.5 percent maximum continuous speed.

(9) A 20-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 2 hours at maximum continuous power and speed, and 2 hours at maximum best economy cruising power and speed or at maximum recommended cruising power.

(10) A 5-hour run shall be conducted in the lower gear ratio at maximum best economy cruising power and speed or at maximum recommended cruising power and speed.

NOTE: Where simulated altitude test equipment is not available and when operating in the higher gear ratio, the runs may be conducted at the observed horsepower obtained with the critical altitude manifold pressure or specified percentages thereof, and the fuel-air mixtures may be adjusted rich enough to suppress detonation.

(c) *Helicopter engines.* For engines to be eligible for use on helicopters, the following series of runs shall apply:

(1) A 35-hour run shall be conducted consisting of alternate periods of 30 minutes each at take-off power and speed, and at maximum continuous power and speed.

(2) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at maximum continuous power and speed, and at 70 percent maximum continuous power at maximum continuous speed.

(3) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at maximum continuous power and speed, and at 70 percent maximum continuous power at 80 to 90 percent maximum continuous speed.

(4) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at 80 percent maximum continuous power at take-off speed, and at 80 percent maximum continuous power at 80 to 90 percent maximum continuous speed.

(5) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at 80 percent maximum continuous power at take-off speed, and at either maximum continuous power at 110 percent maximum continuous speed or at take-off power at 103 percent take-off speed, whichever condition results in the greater speed.

(6) A 15-hour run shall be conducted at 105 percent maximum continuous power and 105 percent maximum continuous speed or at full throttle and corresponding speed at standard sea level carburetor entrance pressure, provided that 105 percent of the maximum continuous power is not exceeded.

5. By amending § 13.252 (a) by deleting from the second sentence the words "such tests" and substituting in lieu thereof the words "the power characteristics calibration tests."

Part 14

No general discussions with respect to certification of propellers were held during the recent annual airworthiness meeting. There were noted, however, two minor points of an editorial and clarifying nature. Therefore, the following amendments are proposed. These amendments are made for the purpose of consistency with other airworthiness parts of the regulations.

It is proposed to amend Part 14, effective January 1, 1953, as follows:

1. By amending § 14.1 (a) (3) by adding the following reference: "(See § 14.18.)"

2. By amending § 14.15 (c) to read as follows:

§ 14.15 *Inspections and tests.* • • •

(c) All manufacturing processes, construction, and asembly are as specified in the type design.

[F. R. Doc. 52–11496; Filed, Oct. 23, 1952; 8:49 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Order No. 488]

REGIONAL AND ACTING REGIONAL ADMINISTRATORS AND CHIEF AND REGIONAL CHIEFS, DIVISION OF ADMINISTRATION

DELEGATION OF AUTHORITY TO TRANSFER, DONATE, OR DISPOSE OF EXCESS OR SURPLUS REAL PROPERTY

OCTOBER 20, 1952.

SECTION 1. *Authority of certain officers to dispose of excess real property.* Pursuant to the authority contained in section 4 (b) of Order No. 2696 of July 17, 1952, of the Secretary of the Interior, the following classes of employees are authorized to transfer, donate or dispose of real property and related personal property excess to the needs of the Bureau of Land Management, as provided in that order and in accordance with the Federal Property and Administrative Services Act of 1949 (63 Stat. 377; 40 U. S. C. 1946 ed., Supp. V, secs. 471–475) as amended, and the regulations issued thereunder contained in 44 CFR 1951 Supp., Part 101:

Regional Administrators.
Acting Regional Administrators.
Chief, Division of Administration.
Regional Chiefs, Division of Administration.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[General Overriding Regulation 10, Special Order 13]

WHITE ROCK BOTTLING CO. OF ARIZONA, INC.

ADJUSTED CEILING PRICES

Statements of considerations. White Rock Bottling Company of Arizona, Inc. (hereinafter called "applicant") has applied to the Office of Price Stabilization pursuant to General Overriding Regulation 10 for an adjustment of its ceiling prices and the ceiling prices of resellers for sales of White Rock Beverage and Dad's Root Beer.

Applicant submitted the information required by section 3 of the regulation which in the judgment of the Director established that it was eligible for an adjustment.

On the basis of the information submitted, it appeared that applicant bottled the commodities in question for sale to retailers in the Phoenix area. It further appeared that applicant had been operating at a loss with respect to its bottling operations, and that the loss was attributable to the level of its ceiling prices. Letter Order No. GOR 10, Sec. 4, L–196 was issued June 2, 1952, adjusting applicant's ceiling prices as follows:

12–26 ounces White Rock Beverage, from $1.45 to $1.60 per case.
12–32 ounces Dad's Root Beer, from $1.25 to $1.45 per case.

Since the issuance of the above-mentioned Letter Order, the retailers who purchased from applicant have had a ceiling price for White Rock Beverage of 19 cents per bottle, under the provisions of section 11 of the General Ceiling Price Regulation. Applicant points out that his resellers compete directly with Canada Dry Beverages, for which they have a ceiling price of 20 cents per bottle or two bottles for 39 cents. Applicant states that, unless its resellers can charge the same price for White Rock Beverage as they do for the competitive products, the economic effect is to nullify to some extent the relief it was supposed to have obtained under the Letter Order issued on June 2, 1952.

In the judgment of the Director, adjustment of the ceiling prices of retailers who resell applicant's White Rock Beverage is necessary, in line with the established ceiling prices of retailers in the Phoenix area for the sale of the competitive White Rock Beverages. This order therefore establishes for retailers who resell applicant's 28 oz. White Rock Beverage ceiling prices of 20 cents per bottle or two bottles for 39 cents.

Paragraph 3 of this order requires applicant to supply a copy of this special order to each retailer to whom applicant sells its White Rock Beverage.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of General Overriding Regulation 10, this special order is issued.

1. The ceiling prices for 28-ounce bottles of White Rock Beverage sold by retailers in the Phoenix, Arizona, area who have purchased this commodity from the White Rock Bottling Company of Arizona, Inc. of Phoenix, Arizona, shall be 20 cents per bottle and two bottles for 39 cents.

2. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

3. White Rock Bottling Company of Arizona, Inc. shall deliver a copy of this special order to each retailer to whom it sells White Rock Beverage, such delivery to be made in each case with or prior to the first delivery of White Rock Beverage to the reseller after the effective date of this order.

Effective date. This special order is effective October 18, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 17, 1952.

[F. R. Doc. 52–11443; Filed, Oct. 17, 1952; 4:46 p. m.]

[Ceiling Price Regulation 34, as Amended, Section 20 (c), Special Order 16]

TRUSTEE OF CENTER TOWNSHIP, LAKE COUNTY, CROWN POINT, INDIANA

CEILING PRICES FOR INDIGENT BURIAL SERVICES AND GRAVE OPENING AND CLOSING RENDERED

State of considerations. The ceiling prices for indigent burial services rendered to the Trustee of Center Township, Lake County, Crown Point, Indiana, are adjusted by this Special Order pursuant to section 20 (c) of CPR 34, as amended.

This section authorizes the Director of Price Stabilization to adjust ceiling prices of sellers of an essential non-retail service as to which there is a limited supply available. In order to obtain an adjustment under this section, the buyer must demonstrate that he is purchasing an essential non-retail service as to which there is a limited supply available from sellers thereof who are too numerous to make recourse by them to section 20 (b) of Ceiling Price Regulation 34, as amended, practicable. The purchaser must further demonstrate that these sellers are threatening to discontinue supplying him with such service, and in addition, the applicant must agree to absorb any price increase over his seller's existing ceiling prices, and must so state in his application. The buyer may not apply for or obtain an increase in his suppliers' ceiling prices for the service supplied to him, which would bring the proposed increased ceiling prices in excess of the price he would be required to pay to other suppliers of the same service. The buyer's application must also show the nature and extent of the sellers' direct labor and material cost increases incurred by them since their ceiling prices for that service were established. These cost increases will be considered by the Office of Price Stabilization in determining the amount of price increase which may be granted. Where practicable the purchaser must state the names and addresses of the sellers and the ceiling prices of each seller.

It appears from information submitted in the application that the Lake County Funeral Directors Association in Lake County, Indiana, render indigent burial services to the Trustee of Center Township. The Director of Price Stabilization has determined that the supply of such service is limited; that the increased ceiling prices will not exceed the prevailing prices at which the applicant could purchase the same service; that the applicant's suppliers are threatening to discontinue supplying such service because their ceiling prices are below prevailing rates; that the applicant has agreed to absorb any price increases and will not pass on such increases in the form of increased prices to others; and that the sellers of such burial services to the applicant are too numerous to make recourse to paragraph 20 (b) of CPR 34, as amended, practicable. The increased ceiling prices reflect the direct labor and

material cost increases incurred by these sellers since their ceiling prices for the service were established, and such increases will not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 20 (c) of CPR 34, as amended, this Special Order is hereby issued.

1. The application of the Trustee of Center Township, Lake County, Crown Point, Indiana (hereinafter referred to as Trustee), for an adjustment of the ceiling prices which sellers of indigent burial services may charge applicant is granted as follows:

(a) On and after the effective date of this Special Order, the ceiling price for burial services supplied to Trustee by the following firms shall be for each indigent burial a maximum price of $150 plus $25 for grave opening and closing:

2. Trustee may pay to the sellers listed therein the prices determined under paragraph 1 of this Special Order provided that it shall absorb the increase over the former selling price and shall not pass on such increase in rates in the form of increased prices to others.

3. Copies of this order shall be provided by Trustee to the firms listed above. A copy of this order shall be kept at the place of business of each of these firms and another copy shall be filed by each seller of burial service with the appropriate District Office of the Office of Price Stabilization with which each of the firms has filed or is required to file a statement of its ceiling prices under section 18 of CPR 34.

4. All provisions of CPR 34, as amended, except as changed by the pricing provisions of this Special Order shall remain in effect.

5. This Special Order or any provisions thereof may be revoked, suspended or amended by the Director of Price Stabilization at any time.

Effective date. This order shall become effective October 18, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 17, 1952.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27470]

CRUDE PETROLEUM OIL FROM WATFORD CITY, N. DAK., TO SHEBOYGAN, WIS.

APPLICATION FOR RELIEF

OCTOBER 21, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Great Northern Railway Company for itself and on behalf of carriers parties to its tariff I. C. C. No. A-8051.

Commodities involved: Crude petroleum oil, in tank-car loads.

From: Watford City, N. Dak.

To: Sheboygan, Wis.

Grounds for relief: Competition with rail carriers and market competition.

Schedules filed containing proposed rates: GN Ry. tariff I. C. C. No. A-8051, Supp. 206.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27471]

LOGS FROM VIRGINIA TO HIGH POINT, AND THOMASVILLE, N. C.

APPLICATION FOR RELIEF

OCTOBER 21, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the High Point, Thomasville & Denton Railroad Company and other carriers.

Commodities involved: Logs, native wood, Canadian wood or Mexican Pine, carloads.

Territory: From Disputanta, Va., to Thomasville, N. C., and from New Bohemia, Va., to High Point, N. C.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 728, Supp. 253.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27472]

PHOSPHATE ROCK FROM POINTS IN TENNESSEE TO TULSA, OKLA.

APPLICATION FOR RELIEF

OCTOBER 21, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1169.

Commodities involved: Phosphate rock, ground or not ground, not acidulated nor ammoniated, in carloads.

From: Points in Tennessee.

To: Tulsa, Okla.

Grounds for relief: Competition with rail carriers, circuitous routes and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1169, Supp. 20.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

ASPHALT FROM CERTAIN POINTS TO ILLINOIS AND WESTERN TRUNK-LINE TERRITORIES

APPLICATION FOR RELIEF

OCTOBER 21, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3825.

Commodities involved: Asphalt, in tank-car loads.

From: Points in Arkansas, Kansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas.

To: Points in Illinois and western trunk-line territories.

Grounds for relief: Competition with rail carriers, circuitous routes, and market competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3825, Supp. 153.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. FEDERAL POWER COMMISSION

[Docket No. E-6459]

DUKE POWER CO.

NOTICE OF APPLICATION

OCTOBER 20, 1952.

Take notice that on October 16, 1952, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Duke Power Company, a corporation organized under the laws of the State of New Jersey and doing business in the States of North Carolina and South Carolina, with its principal business office at Charlotte, North Carolina, seeking an order authorizing the issuance of 2,777,615 shares of Common Stock without par value. Applicant proposes to reduce the stated value of its issued and outstanding shares of Common Stock without nominal or par value to $25 per share and to issue two additional shares of Common Stock without nominal or par value to have a stated value of $25 per share for each share issued and outstanding. The additional Common Stock will be issued pro rata to the holders of the outstanding Common Stock of Applicant upon a basis of two shares of additional stock for each one share held; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 5th day of November 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

VOLUME 17 NUMBER 210

Washington, Saturday, October 25, 1952

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 924—MILK IN THE DETROIT, MICHIGAN, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 924.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, as amended, and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Detroit, Michigan, during May 12–16, 1952, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Detroit, Michigan, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than November 1, 1952, this order amending the said order, as amended. This action is necessary in the public interest in order to reflect current marketing conditions and to insure the production of an adequate supply of milk. Accordingly, any further delay in the effective date of this order, as amended, and as hereby further amended, will seriously impair orderly marketing of milk in the Detroit, Michigan, marketing area. The provisions of the said amendatory order are well known to handlers—the public hearing having been held May 12–16, 1952, and the decision having been executed by the Secretary on October 2, 1952. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the Detroit, Michigan, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who, during the determined representative period (August 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 924.6 (b) insert "or of Wayne County" following "Port Huron".

2. In § 924.50 delete the phrase "paragraphs (a), (b), (c) and (d)" and substitute therefore the phrase "paragraphs (a), (b) and (c)".

3. Delete § 924.50 (c).

4. Delete § 924.50 (d) and substitute therefor the following:

(c) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants, except any which meet the qualifications of § 924.6, for which prices have been reported to the market administrator:

Present Operator and Location

Borden Co., Perrinton, Mich.
Carnation Co., Sheridan, Mich.
Carnation Co., Sparta, Mich.
Fairmont Foods Co., Bad Axe, Mich.
Grand Ledge Milk Co., Grand Ledge, Mich.
Kraft Cheese Co., Clare, Mich.
Kraft Cheese Co., Pinconning, Mich.
Nestle Co., Ubly, Mich.
Pet Milk Co., Hudson, Mich.

5. In § 924.51 (a) delete the phrase "plus $1.35" and substitute therefor the phrase "plus $1.43".

6. Delete § 924.51 (b) and substitute therefor the following:

(b) The percentage which total receipts of producer milk by all handlers during the next two preceding months is of total Class I utilization of all handlers during such period shall be computed each month by the market administrator and for the month in which the computation is made the Class I price shall be decreased 15 cents if such percentage is 5.0 percentage points or more above the average of the percentages for the corresponding months in the following schedule and increased 15 cents if such percentage is 5.0 percentage points or more below the average of the percentages for the corresponding months in such schedule and the Class I price shall be decreased or increased an additional 15 cents for each additional full 5 percentage points which such ratio of producer milk receipts to Class I utilization is above or below such average percentage:

Month:	*Percentages*
January	121.3
February	123.1
March	129.6
April	138.1
May	152.6
June	156.3
July	142.9
August	140.1
September	129.6
October	121.7
November	117.5
December	122.3

7. Delete § 924.52 and substitute therefor the following:

§ 924.52 *Class II milk price.* (a) The minimum price per hundredweight to be paid by each handler f. o. b. his plant as described in § 924.6 for milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class II utilization, shall be the price per hundredweight as described in § 924.50 (c): *Provided*, That for the months of May, June, and July, there shall be credited to each handler with respect to butterfat used in the manufacture of butter and skim milk used in the manufacture of non-fat dry milk solids in the handler's plant, or transferred to and so used in a plant not operated by a handler after first allocating such butterfat and skim milk to any uses in such plant other than for the manufacture of butter and non-fat dry milk solids, (1) an amount per pound of butterfat equal to the excess of the Class II price determined under this paragraph over the price determined pursuant to § 924.50 (b) less 9.3 cents, such excess to be multiplied by 0.18, and, (2) an amount per hundredweight of skim milk equal to such excess multiplied by 0.36.

8. Delete § 924.53 and substitute therefor the following:

§ 924.53 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to §§ 924.51 and 924.52, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent an amount equal to the producer butterfat differential applicable to milk delivered in the current month.

9. In § 924.60 (c) delete from the tabulation appearing at the end of the section the reference to zone 8 and add the following:

Zone No.	Shortest road distance from Detroit city hall	Rate per hundredweight
8	More than 97 miles but not more than 105 miles	$0.21
9	More than 105 miles but not more than 113 miles	.22
10	More than 113 miles but not more than 121 miles	.23
11	More than 121 miles but not more than 129 miles	.24
12	More than 129 miles but not more than 137 miles	.25
13	More than 137 miles	.26

10. In § 924.64 (b) delete "§ 924.70 (b)" and in § 924.80 delete "§ 924.70 (b) and (c)" and insert "§ 924.70 (b), (c), and (d)".

11. In § 924.65 delete "11th day" and substitute therefor "12th day".

12. In § 924.70 (a) substitute "on December 1" for "previous to August 1".

13. In the next to the last sentence of § 924.70 (b) delete the phrase "August through December by 0.8" and substitute therefor the phrase "August and September by 0.8 and October, November and December by 0.9".

14. Delete § 924.70 (c) and substitute therefor § 924.70 (c) and (d) as follows:

(c) From the effective date of this part, as amended, through December 1952, each producer shall have the option, upon request to the market administrator, of being paid at the uniform price for all milk delivered.

(d) Whenever total receipts of producer milk by all handlers during the month are less than 112.5 percent of the total Class I utilization of all milk by handlers during such month, all pro-

ducers and cooperative associations shall be paid the uniform price for all milk delivered.

15. Add a § 924.132, as follows:

§ 924.132 *Special reporting dates.* When a holiday prevents normal business activities on any day except Sunday during the first 15 days of the month, those of the dates specified in §§ 924.22 (j) (2), 924.31 (b), 924.65, 924.80, 924.84, 924.85, 924.86, and 924.87 which follow such holiday shall be postponed by the number of days lost as a result of such holiday.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 22d day of October 1952, to be effective on and after the 1st day of November 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

[F. R. Doc. 52-11544; Filed Oct. 24, 1952; 8:57 a. m.]

[Lemon Reg. 458]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.565 *Lemon Regulation 458*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as provided in this section, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on October 22, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 26, 1952, and ending at 12:01 a. m., P. s. t., November 2, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 225 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 457 (17 F. R. 9235) and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 23d day of October 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-11572; Filed, Oct. 24, 1952; 8:57 a. m.]

PART 982—MILK IN THE CENTRAL WEST TEXAS MARKETING AREA

SUBPART—ORDER RELATIVE TO HANDLING

Sec.
982.0 Findings and determinations.

DEFINITIONS

982.1 Act.
982.2 Secretary.
982.3 Department.
982.4 Person.
982.5 Cooperative association.
982.6 Central West Texas marketing area.
982.7 Approved plant.
982.8 Unapproved plant.
982.9 Handler.
982.10 Producer.
982.11 Producer milk.
982.12 Other source milk.
982.13 Producer-handler.
982.14 Route.
982.15 Base milk.
982.16 Excess milk.

MARKET ADMINISTRATOR

982.20 Designation.
982.21 Powers.
982.22 Duties.

REPORTS, RECORDS AND FACILITIES

982.30 Reports of receipts and utilization.
982.31 Reports of payments to producers.
982.32 Other reports.
982.33 Records and facilities.
982.34 Retention of records.

CLASSIFICATION

982.40 Skim milk and butterfat to be classified.
982.41 Classes of utilization.
982.42 Shrinkage.
982.43 Responsibility of handlers and reclassification of milk.
982.44 Transfers.
982.45 Computation of the skim milk and butterfat in each class.
982.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

982.50 Class I milk.
982.51 Class II milk.
982.52 Butterfat differential to handlers.
982.53 Location adjustment to handlers.

APPLICATION OF PROVISIONS

982.60 Producer-handlers.
982.61 Handlers subject to other orders.
982.62 Handlers operating unapproved plants from which Class I milk is disposed of in the marketing area.

DETERMINATION OF UNIFORM PRICE

982.70 Computation of value of milk.
982.71 Computation of aggregate value used to determine price(s).
982.72 Computation of uniform price.
982.73 Computation of uniform prices for base milk and excess milk.

DETERMINATION OF BASE

982.80 Computation of daily average base for each producer.
982.81 Base rules.

PAYMENTS

982.90 Time and method of payment.
982.91 Location adjustments to producers.
982.92 Producer butterfat differential.
982.93 Producer-settlement fund.
982.94 Payments to the producer-settlement fund.
982.95 Payments out of the producer-settlement fund.
982.96 Adjustment of accounts.
982.97 Marketing services.
982.98 Expense administration.
982.99 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

982.100 Effective time.
982.101 Suspension or termination.
982.102 Continuing power and duty of the market administrator.
982.103 Liquidation.

MISCELLANEOUS PROVISIONS

982.110 Agents.
982.111 Separability of provisions.

AUTHORITY: §§ 982.0 to 982.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 982.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Central West Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the months of (i) other source milk which is classified as Class I milk, and (ii) milk from producers including such handler's own production.

(b) *Additional findings.* In view of the widely scattered location of the plants of handlers, the brief base forming period for producers; and the fact that this order will constitute the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers, should be put into effect prior to the effective date of the provisions relating to prices and payments to producers, in order that handlers may have opportunity to make necessary adjustments in their accounting and other operational procedures to conform with all provisions of the order. Reasonable time will have been afforded interested parties to prepare to comply with the aforesaid provisions. It is hereby found and determined, in view of the aforesaid facts and circumstances, that good cause exists for making §§ 982.1 through 982.16, 982.20 through 982.22 (i), 982.30 through 982.34, 982.40 through 982.46, 982.60 through 982.62 (a), 982.62 (c), 982.80, 982.81, 982.98, 982.99, 982.100 through 982.103, 982.110 and 982.111 effective on November 1, 1952, and that it would be contrary to the public interest to delay such effective date beyond that specified.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order which is marketed within the Central West Texas marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who during the determined representative period (July 1952) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Central West Texas marketing area shall be in conformity to and in compliance with the following terms and conditions as set forth below:

DEFINITIONS

§ 982.1 *Act.* "Act" means Public Act No. 10, 73rd Congress, as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 982.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 982.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 982.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 982.5 *Cooperative Association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 982.6 *Central West Texas marketing area.* "Central West Texas Marketing Area" called the marketing area in this subpart means all territory within the corporate limits of the following cities, all in the state of Texas:

Abilene.	Lamesa.
Ballinger.	Midland.
Big Spring.	Odessa.
Breckenridge.	Ranger.
Brownwood.	San Angelo.
Cisco.	Snyder.
Coleman.	Stamford.
Colorado City.	Sweetwater.
Comanche.	Winters.
Eastland.	

§ 982.7 *Approved plant.* "Approved plant" means:

(a) A milk plant approved by and under the routine inspection of the health authority of any municipality in the marketing area:

(1) From which Class I milk, labeled Grade A in consumer packages is disposed of in the marketing area on routes, or

(2) Which receives milk from producers as defined in § 982.10 (a) which serves as a receiving station by receiving, weighing and commingling producer milk, and from which milk or skim milk (i) is moved to a plant specified in subparagraph (1) of this paragraph during the month, or (ii) was moved to plant(s) specified in subparagraph (1) of this paragraph in an amount equal to 60 percent or more of total receipts of producer milk during the months of October through January immediately preceding any month of April, May or June during which no milk was moved to such a plant; or

(b) A milk plant approved by and under the routine inspection of a health authority other than that of a municipality in the marketing area from which Class I milk labeled Grade A in consumer packages is disposed of in the marketing area on a route operated wholly or partially in the marketing area in an amount equal to 15 percent or more of the total disposition of Class I milk from such plant during the month.

§ 982.8 *Unapproved plant.* "Unapproved plant" means any milk processing or distributing plant which is not an approved plant.

§ 982.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant;

(b) Any person in his capacity as the operator of an unapproved plant from which Class I milk is disposed of during the month on a route in the marketing area; or

(c) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 982.10 *Producer.* "Producer" means any person other than a producer-handler:

(a) Who produces milk under a dairy farm permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by the health authority of any municipality in the

marketing area, which milk is received at an approved plant described in § 982.7 (a); or

(b) Who produces milk under a dairy farm permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by a health authority whose certification is accepted by the appropriate health authority of a municipality in the marketing area, which milk is received at an approved plant described in § 982.7 (b).

(c) "Producer" shall include any such person whose milk is regularly received at an approved plant, but whose milk is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include any person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this order pursuant to § 982.61.

§ 982.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by producers which is received by a handler, either directly from producers or from other handlers.

§ 982.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 982.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk other than from his own production and from approved plants.

§ 982.14 *Route.* "Route" means any delivery (including any delivery by a vendor or at a plant store) of milk, skim milk, buttermilk or flavored milk drink other than to a milk processing plant.

§ 982.15 *Base milk.* "Base milk" means milk received from a producer by a handler during any of the months of April through June which is not in excess of such producer's daily average base computed pursuant to § 982.80 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 982.16 *Excess milk.* "Excess milk" means producer milk received by a handler during any of the months of April through June which is in excess of base milk received from such producer during such month, and it shall include all milk received from producers for whom no daily average base can be computed pursuant to § 982.80.

MARKET ADMINISTRATOR

§ 982.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 982.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 982.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 982.98 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 982.97) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and such other means as he deems appropriate, the name of any person who, within 5 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to § 982.30 to § 982.32, inclusive; or

(2) Made payments pursuant to § 982.90 to § 982.99, inclusive.

(i) On or before the 12th day after the end of each month, report to each cooperative association, which so requests, the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum prices for Class I milk pursuant to § 982.50 and the Class I butterfat differential pursuant to § 982.52 (a), both for the current month, and the minimum price for Class II milk pursuant to § 982.51 and the Class II butterfat differential pursuant to § 982.52 (b), both for the preceding month; and

(2) On or before the 12th day of each month, the uniform prices computed pursuant to § 982.72 or § 982.73 as applicable and the butterfat differential computed pursuant to § 982.92, both applicable to milk delivered during the preceding month;

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information; and

(l) Furnish to a cooperative association upon request the data furnished to the market administrator pursuant to § 982.31 (a) with respect to milk of its members.

REPORTS, RECORDS AND FACILITIES

§ 982.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator as follows for each approved plant operated by him, or, in the case of a cooperative association, for producer milk diverted by it;

(a) The quantities of skim milk and butterfat contained in milk received from producers, and for the months of April through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The quantities of skim milk and butterfat contained in or represented by all milk, skim milk, cream and products specified as Class I milk pursuant to § 982.41 (a) on hand at the beginning and the end of the month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(f) The pounds of milk received from producers at each approved plant and the pounds of Class I milk disposed of from each such plant, if the handler operates more than one approved plant;

(g) The disposition of Class I products on routes wholly outside the marketing area; and

(h) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 982.31 *Reports of payments to producers.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show:

(a) The total pounds and the average butterfat test of milk received from each producer and cooperative association, the number of days, if less than the entire month, for which milk was received from each such producer, and, for the months of April through June, such producer's deliveries of base milk and excess milk;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 982.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 982.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representatives during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 982.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 982.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to § 982.30 shall be classified by the market administrator pursuant to the provisions of §§ 982.41 to 982.46, inclusive.

§ 982.41 *Classes of utilization.* Subject to the conditions set forth in §§ 982.43 and 982.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog, aerated cream products and mixes for ice cream or other frozen dairy products) of cream and milk or skim milk, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section; and

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In shrinkage up to 2 percent (5 percent, with respect to receipts of skim milk during the months of April, May, and June) of receipts from producers;

(4) In shrinkage of other source milk; and

(5) In inventory at the end of the month as skim milk, cream or any product specified in paragraph (a) of this section.

§ 982.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in producer milk and in other source milk.

§ 982.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if later disposed of (whether in original or other form) as Class I milk.

§ 982.44 *Transfers.* Skim milk or butterfat disposed of by a handler by either transfer or diversion from an approved plant shall be classified:

(a) At the class mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred, otherwise as Class I milk, if transferred or diverted in the form of milk, skim milk or cream, to the approved plant of another handler (except a producer-handler), subject in either event to the following conditions:

(1) The receiving handler has utilization in such class of an equivalent amount of skim milk and butterfat, respectively; and

(2) Such skim milk or butterfat shall be classified so as to allocate to producer milk the greatest possible Class I utilization in the two plants.

(b) As Class I milk, if transferred to a producer-handler in the form of milk, skim milk or cream.

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk to an unapproved plant more than 300 miles distance by the shortest highway distance, as determined by the market administrator.

(d) As Class I milk if transferred in the form of cream under Grade A certification to an unapproved plant located more than 300 miles distant and as Class II milk if so transferred without Grade A certification.

(e) As Class I milk if transferred or diverted in the form of bulk milk, skim milk or cream to an unapproved plant located not more than 300 miles distant by the shortest highway distance and from which fluid milk is disposed of on wholesale or retail routes, unless the conditions in subparagraphs (1) and (2) of this paragraph are met:

(1) The market administrator is permitted to audit the records of such unapproved plant; and

(2) Such unapproved plant receives milk from dairy farmers who the market administrator determines constitutes its regular source of supply for Class I milk.

(3) If these conditions are met, the market administrator shall classify such milk as reported by the handler, subject to verification as follows:

(i) Determine the use of all skim milk and butterfat at such unapproved plant; and

(ii) Allocate the skim milk and butterfat so transferred or diverted to the highest use classification remaining after subtracting in series beginning with the highest use classification, the skim milk and butterfat in milk received at the unapproved plant direct from dairy farmers.

(f) As Class II milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located not more than 300 miles distant by the shortest highway distance from which fluid milk is not disposed of on wholesale or retail routes.

§ 982.45 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I and Class II milk for such handler.

§ 982.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 982.45, the market administrator shall determine the classification of milk received by each handler from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 982.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other handlers in a form other than milk, skim milk or cream according to its classification pursuant to § 982.41;

(3) Subtract from the remaining pounds of skim milk in Class I the pounds of skim milk received as Class I products in consumer packages from an unapproved plant which are not in excess of the pounds of skim milk transferred to such unapproved plant as Class I milk;

(4) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk in other source milk;

(5) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk contained in the Class I items in inventory at the beginning of the month;

(6) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of milk, skim milk or cream according to its classification as determined pursuant to § 982.44 (a);

(7) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(8) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I milk and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 982.50 *Class I milk.* Subject to the provisions of §§ 982.52 and 982.53 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class I milk shall be the price for Class I milk established under Federal Order No. 43 regulating the handling of milk in the North Texas marketing area, plus 35 cents.

§ 982.51 *Class II milk.* Subject to the provisions of § 982.52 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class II milk shall be computed by adding together the plus values pursuant to paragraphs (a) and (b) of this section:

(a) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the mid-point of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(b) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for non-fat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5 and multiply by 0.96.

§ 982.52 *Butterfat differential to handlers* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 982.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to §§ 982.50 and 982.51, for each one-tenth of one percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department during the appropriate month, by the applicable factor listed below and dividing the result by 10:

(a) Class I milk: Multiply such price for the preceding month by 1.25; and

(b) Class II milk: Multiply such price for the current month by 1.15.

§ 982.53 *Location adjustment to handlers.* For milk classified as Class I milk the price set forth in § 982.50 shall be subject to the following adjustments:

(a) For milk received from producers at an approved plant located within 70 highway miles of the United States Post Office in Midland, Texas, such price shall be increased 20 cents;

(b) For milk received from producers at an approved plant located (1) east of the 103d principal meridian, (2) more than 180 highway miles from the United States Post Office in Midland, Texas, and also (3) at the following highway distances from the United States Post Office in Abilene, Texas, such price shall be reduced as follows:

	Cents
More than 70 miles but less than 105 miles	20
105 miles or more	35

(c) If a handler operates two or more approved plants at which different Class I prices apply, the total milk received by such handler from producers and classified as Class I milk shall be assigned to the milk received from producers at each such plant in the following sequence:

(1) The Class I milk disposed of from each such plant shall be assigned to receipts from producers at such plant to the extent of such receipts;

(2) Class I milk disposed of from any such plant in excess of receipts from producers at such plant shall be assigned to milk received from producers at other approved plants of such handler pro rata to the volumes of producer milk moved to such plant from each such other plant to the extent that milk was so moved; and

(3) Any remaining milk received from producers and classified as Class I milk shall be assigned pro rata to receipts from producers to which Class I milk is not otherwise assigned.

APPLICATION OF PROVISIONS

§ 982.60 *Producer-handlers.* Sections 982.40 through 982.46, 982.50 through 982.53, 982.70 through 982.75, 982.80, 982.81 and 982.90 through 982.99 shall not apply to a producer-handler.

§ 982.61 *Handlers subject to other orders.* In the case of any handler who operates a plant which the Secretary determines disposes of a greater quantity of milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act than in this marketing area, the provisions of this subpart shall not apply with respect to the operations of such plant, except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 982.62 *Handlers operating unapproved plants from which Class I milk is disposed of in the marketing area.* In the case of any handler described in § 982.9 (b) who is not subject to the provisions of § 982.61, the reporting, pricing and payment provisions of this subpart shall apply only as follows:

(a) The handler shall report as required pursuant to §§ 982.30 and 982.31, reporting receipts from and payments to dairy farmers in lieu of such information with respect to producers, and shall allow verification of such reports pursuant to § 982.33;

(b) The handler shall pay to the market administrator, on or before the 25th day after the end of the month, with respect to all skim milk and butterfat disposed of as Class I milk during the month on routes operated wholly or partially within the marketing area, any plus difference between

(1) The value of such skim milk or butterfat at the Class I price which would be applicable at an approved plant thus located, and

(2) The value of such skim milk and butterfat at the price paid dairy farmers by such handler for milk received at the unapproved plant from them during the month, adjusted by the method used in computing payments to such dairy farmers to the average butterfat test of Class I milk disposed of in the marketing area: *Provided*, That if such handler has paid more than one such price, the lowest price(s) paid for an equivalent volume of milk shall be used in this computation; and

(c) As his pro rata share of the expense of administration of this subpart, the handler shall pay to the market administrator, with respect to all Class I milk disposed of on routes in the marketing area, an amount per hundredweight and in the manner specified in § 982.98.

DETERMINATION OF UNIFORM PRICE

§ 982.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices and adding together the resulting amounts: *Provided*, That if the handler had overage of either skim milk or butterfat, there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 982.46 by the applicable class prices.

§ 982.71 *Computation of aggregate value used to determine price(s).* For each month the market administrator shall compute an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 982.70 for all handlers who made the reports prescribed in § 982.30 and who made payments pursuant to §§ 982.90 and 982.94 for the preceding month;

(b) Subtract the aggregate of the values of all plus location adjustments to producers pursuant to § 982.91, and add the aggregate of the values of all such minus adjustments;

(c) Add not less than one-half of the unobligated cash balance on hand in the producer-settlement fund; and

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 982.92 and multiplying the resulting figures by the total hundredweight of such milk.

§ 982.72 *Computation of uniform price.* For each of the months of July through March the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received at an approved plant as follows:

(a) Divide the aggregate value computed pursuant to § 982.71 by the total hundredweight of milk included in such computation; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 982.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through June the market administrator shall compute the uniform prices for hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, received from producers at an approved plant as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in these computations by (1) multiplying the hundredweight of such milk by the price for Class II milk of 4.0 percent butterfat content, and (2) adding to the result the amount, if any by which the value computed pursuant to paragraph (c) (1) of this section exceeds the value computed pursuant to paragraph (c) (2) of this section;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) The total value of base milk included in these computations shall be the lesser of:

(1) The aggregate value computed pursuant to § 982.71 less the value computed pursuant to paragraph (a) (1) of this section, or

(2) The hundredweight of such base milk multiplied by the price for Class I milk of 4.0 percent butterfat content plus 4 cents;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations;

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

DETERMINATION OF BASE

§ 982.80 *Computation of daily average base for each producer.* For the months of April through June of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 982.81:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of October through January immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

§ 982.81 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred only by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

PAYMENTS

§ 982.90 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to §§ 982.72 or 982.73, adjusted by the butterfat differential computed pursuant to § 982.92, subject to location adjustments to producers pursuant to § 982.91, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided*, That if by such date such handler has not received full payment pursuant to § 982.95, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section for milk received during the first 15 days of such month at not less than the Class II price of the preceding month.

(c) On or before the 13th and 23d days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, to a cooperative association which so requests, with respect to producers for whose milk such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producer. Such payment shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 982.31.

§ 982.91 *Location adjustments to producers.* (a) In making payments to producers pursuant to § 982.90 the following adjustments shall apply to the uniform price for all milk computed pursuant to § 982.72 or to the uniform price for base milk computed pursuant to § 982.73 (e):

(1) For milk received from producers at an approved plant located within 70 highway miles of the United States Post Office in Midland, Texas, each handler shall add 20 cents;

(2) For milk received from producers at an approved plant located (i) east of the 103d principal meridian, (ii) more than 180 highway miles from the United States post office in Midland, Texas, and, also (iii) at the following distances from the United States post office in Abilene, Texas, each handler may deduct the applicable amounts set forth below:

	Cents
More than 70 miles but less than 105 miles	20
105 miles or more	35

(b) The location adjustment applicable with respect to excess milk shall be computed as follows:

(1) Subtract from the total volume of Class I milk allocated to producer milk pursuant to § 982.46 the total volume of base milk received by all handlers;

(2) Divide the result by the total volume of excess milk received by all handlers; and

(3) Multiply by the rate of location adjustment applicable for base milk re-

ceived at the same location and round to the nearest cent.

§ 982.92 *Producer butterfat differential.* In making payments pursuant to § 982.90 (a), there shall be added to or subtracted from the uniform price for each one-tenth of one percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average, as computed by the market administrator of the daily wholesale selling prices per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month when such milk was received, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 982.93 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 982.62 (b), 982.94 and 982.96, and out of which he shall make all payments to handlers pursuant to §§ 982.95 and 982.96.

§ 982.94 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 982.70 is greater than the amount required to be paid producers by such handler pursuant to § 982.90.

§ 982.95 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 982.70 is less than the amount required to be paid producers by such handler pursuant to § 982.90: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 982.96 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due;

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 982.97 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 982.90 (a), shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services, accompanied by a statement showing the quantity of milk for which such deduction was computed for each such producer.

§ 982.98 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers, including such handler's own production.

§ 982.99 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to 8 (c) 15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 982.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 982.101.

§ 982.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 982.102 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 982.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 982.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 982.111 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart to other persons or circumstances, shall not be affected thereby.

Sections 982.1 through 982.16, 982.20 through 982.22 (i), 982.30 through 982.34, 982.40 through 982.46, 982.60 through 982.62 (a), 982.62 (c), 982.80, 982.81, 982.98, 982.99, 982.100 through 982.103, 982.110 and 982.111, shall be effective on and after the first day of November 1952, and the entire order (§§ 982.1 through 982.111) shall be effective on and after the first day of December 1952.

Issued at Washington, D. C. this 22d day of October 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5948]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BRADFORD SPORTSWEAR CO.

Subpart—*Misbranding or mislabeling:* § 3.1185 *Composition;* § 3.1255 *Manufacture or preparation.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure;* § 3.1845 *Composition;* § 3.1890 *Safety.* In connection with the offering for sale, sale and distribution in commerce, of sweaters or of any other garments made of the material known as brushed rayon or of any similar material, (1) representing, directly or by implication, that said garments are hand tailored; (2) offering for sale or selling any garments, composed in whole or in part of rayon, without clearly and affirmatively disclosing thereon, or on tags or labels affixed thereto, such rayon content; or, (3) offering for sale or selling garments made of highly inflammable material without clearly and affirmatively disclosing thereon, or on tags or labels affixed thereto, that said garments are highly inflammable and are dangerous and unsafe to be worn as articles of clothing; prohibited.

(Sec. 6, 38 Stat. 722, 15 U. S. C. 46. Interprets as applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Louis Rafaneli t. a. Bradford Sportswear Company, Providence, R. I., Docket 5948, Aug. 19, 1952]

In the Matter of Louis Rafaneli, an Individual Trading and Doing Business as Bradford Sportswear Company

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission, and respondent's answer in which he admitted all the material allegations of facts set forth in the complaint and waived all intervening procedure and further hearing as to said facts.

Thereafter the proceeding regularly came on for final consideration by said examiner, therefore duly designated by the Commission, upon said complaint and answer, all intervening procedure having been waived, and said examiner issued his initial decision. Subsequently, upon motion of counsel supporting the complaint, the Commission placed the proceeding on its docket for review, and amended the complaint, vacated and set aside said initial decision, and remanded the case to the examiner for further proceedings upon such amended complaint.

Thereafter, following the filing by respondent of his answer to the amended complaint, in which he admitted all the material allegations of facts set forth therein and waived all intervening proceedings and further hearing as to said facts, said examiner, having duly considered said amended complaint and respondent's answer thereto, and the complete record in the matter, and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusions drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on August 19, 1952.

The said order to cease and desist is as follows:

[1] Filed as part of the original document.

It is ordered, That the respondent Louis Rafanelo, an individual trading and doing business as Bradford Sportswear Company, or under any other name or names, and his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of sweaters or of any other garments made of the material known as brushed rayon or of any similar material, do forthwith cease and desist from:

1. Representing, directly or by implication, that said garments are hand tailored;

2. Offering for sale or selling any garments, composed in whole or in part of rayon, without clearly and affirmatively disclosing thereon, or on tags or labels affixed thereto, such rayon content;

3. Offering for sale or selling garments made of highly inflammable material without clearly and affirmatively disclosing thereon, or on tags or labels affixed thereto, that said garments are highly inflammable and are dangerous and unsafe to be worn as articles of clothing.

By "Decision of the Commission and order to file report of compliance," Docket 5948, August 19, 1952, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

By the Commission.

Issued: August 19, 1952.

[SEAL] WM. P. GLENDENING, JR.,
Acting Secretary.

[F. R. Doc. 52-11538; Filed, Oct. 24, 1952; 8:55 a. m.]

[Docket 5750]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

DE LUXE SALES CO. AND DE LUXE MFG. CO.

Subpart—*Misrepresenting oneself and goods—Business status, advantages or connections:* § 3.1400 *Dealer as manufacturer.* Subpart—*Using misleading name—Vendor:* § 3.2420 *Manufacturing nature.* Subpart—*Using or selling lottery devices:* § 3.2475 *Devices for lottery selling.* I. Selling or distributing in commerce, push cards, punchboards, or other lottery devices which are to be used or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme; and, II, in connection with the offering for sale, sale, or distribution of push cards, punchboards or other merchandise in commerce, using the word "manufacturing" or any other word or words of similar

import or meaning in respondent's trade name; or otherwise representating, directly or by implication, that respondent manufactures the merchandise sold by him; prohibited.

(Sec. 6, 38 Stat. 722, 15 U .S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Harry C. Hayes d. b. a. De Luxe Sales Co., etc., Blue Earth, Minn., Docket 5750, Aug. 18, 1952]

In the Matter of Harry C. Hayes, an Individual Trading and Doing Business as De Luxe Sales Co. and De Luxe Manufacturing Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and respondent's answer admitting all of the material allegations of fact therein and waiving all intervening procedure, and the Commission having made its findings as to the facts' and its conclusion' that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Harry C. Hayes, individually, trading under the name De Luxe Sales Co. or De Luxe Manufacturing Company or trading under any other name, and his agents, representatives and employees, directly or through any corporate or other device, do forthwith cease and desist from: Selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, push cards, punchboards, or other lottery devices which are to be used or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme.

It is further ordered, That said respondent and his agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of push cards, punchboards or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from: "Using the word "manufacturing" or any other word or words of similar import or meaning in respondent's trade name; or otherwise representing, directly or by implication, that respondent manufactures the merchandise sold by him.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

Issued: August 18, 1952.

[SEAL] WM. P. GLENDENING, JR.,
Acting Secretary.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1951 Supp., Part 146; 17 F. R. 2600, 3632, 5812, 6579) are amended as indicated below:

1. In § 141.32 *Procaine penicillin and buffered crystalline penicillin for aqueous injection* subparagraph (3) (iii) of paragraph (b) *Buffered crystalline penicillin content* is amended by changing the figure "25–ml." in the second sentence to read "50–ml."

2a. In § 146.27 *Penicillin tablets,* paragraph (a) *Standards of identity* * * *, the first sentence is changed to read: "Penicillin tablets are tablets composed of sodium penicillin, calcium penicillin, potassium penicillin, crystalline penicillin O, dibenzylethylenediamine dipenicillin G, or procaine penicillin, with or without acetylsalicylic acid, acetophenetidin, caffeine, or probenecid, with or without one or more suitable sulfonamides and antihistaminics, and with or without one or more suitable and harmless buffer substances, diluents, binders, lubricants, colorings, and flavorings."

b. Section 146.27 (c) (1) (iii) is amended to read:

(c) *Labeling.* * * *
(1) * * *
(iii) If the batch contains, in addition to penicillin, one or more of the other active ingredients specified in paragraph (a) of this section, the name and quantity of each such other ingredient in each tablet.

c. Section 146.27 (c) (3) is amended to read:

(3) On the label and labeling, if it contains, in addition to penicillin, one or more of the other active ingredients specified in paragraph (a) of this section, after the name "penicillin tablets," wherever it appears, the words "with ------ (the blank being filled in with the common or usual name of each such other ingredient)" in juxtaposition with such name.

3. In § 146.50 *Procaine penicillin and buffered crystalline penicillin for aqueous injection* paragraph (c) *Labeling* is amended by deleting that portion thereof following "§ 146.47 (c) (3) (iii)" and substituting therefor the following: "the statement 'Sterile suspension may be kept in refrigerator for ------ week(s) without significant loss of potency,' the blank being filled in with the figure '1,' or if the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him does not lose significant potency after having been stored in a refrigerator for 4 weeks, the blank may be filled in with the figure '4,' unless it is packaged to conform with paragraph (b) of this section."

4. In § 146.67 *Procaine penicillin in streptomycin sulfate solution* * * * paragraph (b) *Packaging* is amended by changing the period at the end of the second sentence to a comma and adding the following clause: "unless it is packaged to contain a single dose."

5. In § 146.77 *Dibenzylethylenediamine dipenicillin G for aqueous injection* subparagraph (2) (ii) of paragraph (c) *Labeling* is amended by changing the period at the end thereof to a comma and adding the following clause: "unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled."

6. In § 146.409 *Bacitracin-polymyxin ointment,* paragraph (a) is amended as follows:

a. In subparagraph (1) change the figure "400" to read "200".

b. In subparagraph (2), change the figure "8,000" to read "4,000".

c. Renumber subparagraphs (4) and (5) as (5) and (7), respectively, and insert the following new subparagraph (4) between subparagraph (3) and renumbered subparagraph (5) and the following new subparagraph (6) between renumbered subparagraphs (5) and (7):

(4) If it is in liquid form, it shall be packaged in immediate containers of transparent glass which meet the test for tight containers as defined by the U. S. P.

* * * * *

(6) In addition to complying with the requirements of § 146.402 (c), if it is in liquid form, each package shall bear on the outside wrapper or container and the immediate container, the statements "Shake well" and "Not for injection."

This order, which provides for the addition of acetylsalicylic acid, acetophenetidin, caffeine, and one or more suitable antihistaminics to tablets containing penicillin; for a change in the size of the volumetric flask used in the assay of procaine penicillin and buffered crystalline penicillin for aqueous injection from a 25-milliliter size to a 50-milliliter size; for the use of suspensions of procaine penicillin and buffered crystalline penicillin for aqueous injection for up to four weeks if the person who requests certification has proved his drug to be stable for such period of time; for deletion of the requirement that immediate containers packaged to contain a single dose of procaine penicillin in streptomycin sulfate solution be packaged in glass; for deletion of the requirement that dibenzylethylenediamine dipenicillin G for aqueous injection packaged for dispensing and intended solely for veterinary use and conspicuously so labeled bear the prescription legend; for a change in the minimum potency of bacitracin-polymyxin ointment from 400 units to 200 units per gram of bacitracin and from 8,000 units to 4,000 units of polymyxin per gram of ointment; for bacitracin-polymyxin ointment that is in liquid form to be packaged in immediate containers of transparent glass; and for the statements "Shake well" and "Not for injection" to appear on the labels of the glass containers of bacitracin-polymyxin ointment, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay providing for the changes set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

Dated: October 21, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 52–11529; Filed, Oct. 24, 1952; 8:51 a. m.]

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 146; 17 F. R. 2600, 7885, 8036) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.116 *Streptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary, dihydrostreptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary*—(a) *Potency*—(1) *Streptomycin content.* Using 3.0 grams of the sample, proceed as directed in § 141.101, except paragraph (k) of that section. Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams of streptomycin it is represented to contain.

(2) *Dihydrostreptomycin content.* Proceed as directed in subparagraph (1) of this paragraph, using the dihydrostreptomycin working standard as a standard of comparison. Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams of dihydrostreptomycin it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.5 (a).

2. The headnote of § 141.212 is changed to read: "§ 141.212 *Aureomycin suppositories.*"

3. Part 141 is amended by adding the following new section:

§ 141.217 *Aureomycin calcium oral drops, aureomycin calcium syrup*—(a) *Potency.* Proceed as directed in § 141.201 (a). Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams of aureomycin that it is represented to contain.

(b) *pH.* Using the undiluted sample, proceed as directed in § 141.5 (b).

(c) *Toxicity.* Administer orally, by means of a cannula or other suitable device, to each of 5 mice, within the weight range of 18 to 25 grams, a sufficient volume of the preparation to contain 25 milligrams of aureomycin. If no animal dies within 48 hours, the sample is nontoxic. If one or more animals die within 48 hours, repeat the test with 5 unused mice weighing 20 grams (±0.5 gram) each; if all animals survive the repeat test the sample is nontoxic.

4. Part 141 is amended by adding the following new section:

§ 141.412 *Bacitracin-polymyxin tablets*—(a) *Potency*—(1) *Bacitracin content.* Proceed as directed in § 141.403 (a). Its content of bacitracin is satisfactory if it contains not less than 85 percent of the number of units it is represented to contain.

(2) *Polymyxin content.* Using an aliquot of the solution prepared in accordance with subparagraph (1) of this paragraph, proceed as directed in § 141.112 (a) (1) (ii). Its content of polymyxin is satisfactory if it contains not less than 85 percent of the number of units it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.5 (a).

5. In § 146.51 *Buffered penicillin powder* * * *, paragraph (b) *Packaging* is amended by changing the last sentence to read as follows: "Each immediate container may be packaged in combination with a container of a suitable and harmless aqueous vehicle, with or without one or more suitable sulfonamides."

6. Section 146.53 is amended to read:

§ 146.53 *Penicillin for diagnostic use; streptomycin for diagnostic use; dihydrostreptomycin for diagnostic use; aureomycin for diagnostic use; chloramphenicol for diagnostic use; bacitracin for diagnostic use.* (a) Penicillin, streptomycin, dihydrostreptomycin, aureomycin, chloramphenicol, or bacitracin, packaged for dispensing and intended for use solely in laboratory procedures in connection with the diagnosis or treatment of disease and conspicuously so labeled, shall be exempt from the requirements of sections 502 (l) and 507 of the act if each package bears on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The statement "Not for therapeutic use. For use in laboratory diagnosis only."

(ii) The potency of each such tablet, disc, vial, or other such form.

(iii) The batch mark.

(iv) The statement "Expiration date ----------," the blank being filled in with the date which is not more than 24 months after the month during which the batch was last assayed and released by the manufacturer.

(2) On the circular or other labeling within or attached to the package, directions adequate for the use of such drug.

7. In § 146.69 *Dibenzylethylenediamine dipenicillin G oral suspension* change the figure "18" in subparagraph (1) (v) of paragraph (c) *Labeling* to read "24".

8. Part 146 is amended by adding the following new section:

§ 146.111 *Streptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary, dihydrostreptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary*—(a) *Standards of identity, strength, quality, and purity.* Streptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary and dihydrostreptomycin - kaolin-pectin-aluminum hydroxide gel powder veterinary is streptomycin or dihydrostreptomycin, kaolin, pectin, and dried aluminum hydroxide gel with or without the addition of one or more suitable and harmless diluents, colorings, and flavorings. Its content of streptomycin or dihydrostreptomycin is not less than 37.5 milligrams per gram of powder. Its moisture content is not more than 10 percent. The streptomycin used conforms to the standards prescribed therefor by § 146.101 (a), except subparagraphs (2) and (4) of that paragraph. The dihydrostreptomycin used conforms to the standards prescribed therefor by § 146.103, except the standards for sterility and pyrogens. Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P. The composition of the immediate container shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limits therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of milligrams of streptomycin or dihydrostreptomycin per gram in the immediate containers.

(iii) The quantity of kaolin, pectin, and aluminum hydroxide per gram in the immediate container.

(iv) The statement "Expiration date ----------," the blank being filled in with the date which is 12 months after the month during which the batch was certified.

(v) The statement "For veterinary use only."

(2) On the circular or other labeling within or attached to the package, directions and precautions adequate for the use of such powder, including:

(i) Clinical indications.

(ii) Dosage and administration.

(iii) Contraindications.

(iv) Untoward effects that may accompany administration.

If two or more such immediate containers are in such package, the number of circulars or other labeling shall not be less than the number of such containers.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the streptomycin or dihydrostreptomycin used in making such batch was completed, the potency per gram of powder, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and a statement that each ingredient used in making the batch conforms to the requirements prescribed therefor, if any, by this section.

(2) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; average potency per gram of powder and average moisture.

(ii) The streptomycin or dihydrostreptomycin used in making the batch; potency, toxicity, histamine content, moisture, *p*H, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin sulfate.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; one immediate container for each 5,000 containers in the batch, but in no case less than 20 such containers or more than 100 immediate containers, unless each such container is packaged to contain more than 1.0 gram, in which case the sample shall consist of 1.0 gram for each 5,000 immediate containers in the batch, but in no case less than 20 grams or more than 100 grams. Such samples shall be collected by taking single immediate containers or 1.0-gram portions at such intervals throughout the entire time the containers are being filled that the quantities packaged during the intervals are approximately equal.

(ii) The streptomycin or dihydrostreptomycin used in making the batch; 5 packages containing approximately equal portions of not less than 0.5 gram each, packaged in accordance with the requirements of § 146.101 (b).

(iii) In case of an initial request for certification, each other ingredient used in making the batch; one package of each containing approximately 5.0 grams.

(4) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the service rendered with respect to each batch under the regulations in this part shall be:

(1) $1.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) of this section; $10.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (iii) of this section.

(2) If the Commissioner considers that investigations, other than examination of such immediate containers, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification, unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

9a. The headnote of § 146.212 is changed to read: "§ 146.212 *Aureomycin suppositories (aureomycin hydrochloride suppositories).*"

b. In § 146.212, paragraph (a) *Standards of identity* • • • is amended by deleting the word "vaginal" from the first sentence, by changing the period at the end of the second sentence to a comma, and by adding the following clause: "except if it is intended for rectal use its potency is not less than 50 milligrams."

c. Section 146.212 (c) (2) is amended by adding the following new subdivision:

(c) *Labeling.* • • •

(2) • • •

(iii) The statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)."

d. In § 146.212, subparagraph (1) of paragraph (d) *Request for certification* • • • the word "vaginal" is deleted.

10. Part 146 is amended by adding the following new section:

§ 146.217 *Aureomycin calcium oral drops, aureomycin calcium syrup*—(a) *Standards of identity, strength, quality, and purity.* Aureomycin calcium oral drops or aureomycin calcium syrup is aureomycin calcium, prepared from crystalline aureomycin hydrochloride, and one or more suitable and harmless buffer substances, suspending agents, and preservatives, suspended in a suitable and harmless vehicle. Each milliliter shall contain a quantity of aureomycin calcium equivalent to not less than 80 milligrams of aureomycin hydrochloride. It is nontoxic. The pH is not less than 6.5 nor more than 9.0. The crystalline aureomycin hydrochloride used to prepare the batch conforms to the requirements of § 146.201 (a), except subparagraphs (2), (4), and (5) of that paragraph. Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P. and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package of aureomycin calcium oral drops and aureomycin calcium syrup shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The potency per milliliter expressed in terms of its equivalency of aureomycin hydrochloride.

(iii) The name and quantity of each preservative used in making the batch.

(iv) The statements "Warning: Not for injection" and "Shake well."

(v) The statement "Expiration date ----------," the blank being filled in with the date which is 12 months after the month during which the batch was certified.

(2) On the outside wrapper or container, if it is intended for use by humans," the statement "Caution: Federal law prohibits dispensing without prescription" and a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer such drug; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or printed matter will be sent on request: *Provided, however,* That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On the circular or other labeling within or attached to the package, if the drug is intended solely for veterinary use, directions and precautions adequate for the use of such drug, including:

(i) Clinical indications.

(ii) Dosage and administration.

(iii) Contraindications.

(iv) Untoward effects that may accompany administration.

If two or more such immediate containers are in such package, the number of such circulars or other labeling shall not be less than the number of such containers.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the aureomycin hydrochloride used in making such batch was completed, the date on which the latest assay of the drug comprising such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; average potency per milliliter, toxicity, *p*H.

(ii) The aureomycin hydrochloride used in making the batch; potency, toxicity, moisture, *p*H, and crystallinity.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; one package for each 5,000 packages in the batch, but in no case less than 5 or more than 12 packages, collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The aureomycin hydrochloride used in making the batch; 10 packages each containing approximately equal portions of not less than 60 milligrams, packaged in accordance with the requirements of § 146.201 (b).

(iii) In case of an initial request for certification, each other ingredient used in making the batch; one package of each containing approximately 5 grams.

(4) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i), (ii), and (iii) of this section.

(2) If the Commissioner considers that investigations other than examination of such packages are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

11. Part 146 is amended by adding the following new section:

§ 146.412 *Bacitracin-polymyxin tablets.* (a) Bacitracin-polymyxin tablets conform to all requirements prescribed by § 146.403 for bacitracin tablets, and are subject to all procedures prescribed by § 146.403 for bacitracin tablets, except that:

(1) Each tablet contains not less than 400 units of bacitracin.

(2) Each tablet contains not less than 8,000 units of polymyxin B sulfate.

(3) In lieu of the labeling prescribed for bacitracin tablets by § 146.403 (c) (1) (ii), each package shall bear on the outside wrapper or container and the immediate container the number of units of bacitracin and the number of units of polymyxin B in each tablet of the batch.

(4) In addition to complying with the requirements of § 146.403 (d) a person who requests certification of a batch shall submit with his request a statement showing the batch mark and (unless it was previously submitted) the results and the date of the latest tests and assays of the polymyxin B used in making the batch for potency and toxicity. He shall also submit in connection with his request a sample consisting of not less than 30 tablets of such batch, and (unless it was previously submitted) a sample consisting of 5 packages, each containing approximately equal portions of not less than 0.5 gram of the polymyxin B used in making the batch.

(b) The fee for the services rendered with respect to each container in the sample of polymyxin B submitted in accordance with the requirements prescribed therefor by this section shall be $4.00.

This order, which provides for tests and methods of assay and certification of the new antibiotic preparations aureomycin calcium oral drops, aureomycin calcium syrup, streptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary, dihydrostreptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary, and bacitracin-polymyxin tablets; for certification of aureomycin suppositories intended for rectal use and for requiring the labeling of all aureomycin suppositories to bear the refrigeration statement; for deletion of the requirement as to the minimum-size container of buffered penicillin powder; for a change in the packaging and labeling requirements for antibiotics intended for use solely in laboratory procedure in connection with the diagnosis or treatment of disease and conspicuously so labeled; and for a change in the expiration date of dibenzyl-ethylenediamine dipenicillin G oral suspension from 18 to 24 months, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and so I find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

Dated: October 21, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 169, Amdt. 1]

CPR 169—IRON ORES PRODUCED IN MINNESOTA, WISCONSIN OR MICHIGAN

IRON ORES PRODUCED IN THE SPRING VALLEY AREA OF SOUTHERN MINNESOTA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 169 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes two changes in Ceiling Price Regulation 169. First, it provides a pricing method for iron ores produced in the Spring Valley Area of Southern Minnesota. Second, it extends the field within which the Office of Price Stabilization may establish ceiling prices by individual letter order.

As issued, Ceiling Price Regulation 169 covered iron ore produced in Michigan, Wisconsin, and Minnesota north of Minneapolis. This limitation to ore produced north of Minneapolis was too narrow due to the fact that at least one mine in Minnesota south of Minneapolis, has always been considered as being part of the Lake Superior District. The output of this mine has been priced, historically, on the basis of the prevailing price for other ores produced in the Lake Superior District. The omission of this ore was inadvertent and the ore produced therein should be covered by CPR 169 and the price adjustment made by the regulation should apply to all deliveries since July 26, 1952, as provided for other ores in CPR 169. This amendment accomplishes that result and provides an appropriate pricing technique.

Under section 2 (b) (5), as originally issued, the Office of Price Stabilization could establish ceiling prices by individual order only for special ores not listed in the regulation. It has been found advisable to extend this pricing method by this amendment for all cases where a seller is unable to determine his ceiling prices under the regulation.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and full consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. Section 2 (b) (5) is amended to read as follows:

(5) *Other special ores.* The ceiling price, delivered at Lower Lake ports, for any off-grade or premium ore not specifically named in this paragraph (b) is the sum of the seller's 1950 weighted average spot price for such ore plus the difference between the seller's 1950

weighted average spot price for standard ore and the ceiling price established by this regulation for such standard ore.

2. Section 2 (c) is amended to read as follows:

(c) *Ore sold for delivery other than at Lower Lake ports.* (1) If ore is sold for delivery at the mine, other than a mine in the Spring Valley Area of Southern Minnesota, Upper Lake railroad weights shall govern and there shall be deducted from the ceiling prices applicable to sales for delivery at Lower Lake ports an amount equal to the total of:

(i) Upper Lake rail freight (including handling charges) at the rates in effect at time of shipment;

(ii) Lake freight to Lower Lake ports (including unloading charges) at the rate in effect at time of shipment;

(iii) A sum equal to the transportation tax on such Upper Lake rail and Lake freight; and

(iv) The sum of $9.02 per gross ton.

(2) If ore is sold for delivery at Upper Lake ports, vessel bill of lading weights shall govern (except that in case of lump ore railroad weights minus 0.5 per cent shall be used) and there shall be deducted from the ceiling prices applicable to sales for delivery at Lower Lake ports an amount equal to the total of:

(i) Lake freight to Lower Lake ports (including unloading charges) at the rate in effect at time of shipment;

(ii) A sum equal to the transportation tax on the freight charge under (i).

(3) If ore produced in the Spring Valley Area of Southern Minnesota is sold for delivery at the mine, the ceiling price determined under subparagraph (1) of this paragraph (c) for ore produced elsewhere shall apply with the following adjustments:

(i) There shall be added a sum equal to the freight from the Gogebic Range, in Northern Michigan and Wisconsin, to Granite City, Illinois, including transportation tax, at the rates in effect at time of shipment; and

(ii) There shall be deducted a sum equal to the freight from the Spring Valley Area of Southern Minnesota to Granite City, Illinois, including transportation tax, at the rates in effect at time of shipment.

3. A new section, designated section 5a, is inserted after section 5 to read as follows:

SEC. 5a. *Establishment of ceiling prices by order.* (a) If a ceiling price cannot be determined under any other section of this regulation, it will be established by the Office of Price Stabilization by order upon application of the prospective seller. Such application should be addressed to the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and should contain the applicant's name and address, the type of ore and a metallurgical analysis of the ore for which a ceiling price is requested, the applicant's proposed ceiling price, and a statement of the basis upon which such proposed ceiling price was determined. The ceiling price established by the Office of Price Stabilization pursuant to such application shall be in line with the level of ceiling prices established by this regulation.

(b) After receipt of the application, the Director may approve or disapprove the proposed ceiling price or pricing method, establish a different ceiling price or pricing method by order, or request further information. Pending any such action the applicant may sell the product covered by his application at the proposed ceiling price provided that he agrees with the purchaser to refund the amount, if any, by which such price exceeds the ceiling price established by the Office of Price Stabilization. If, within thirty days after receipt of the required application by the Office of Price Stabilization, none of the actions listed above have been taken, the proposed ceiling price will be deemed to be established for all deliveries made between the date of filing the application and the date of any order issued by the Office of Price Stabilization disposing of the application.

(c) If a seller is required to file an application pursuant to this section, and does not do so, the Director may issue an order establishing ceiling prices for him. Any ceiling price set forth in any such order will be in line with the ceiling prices otherwise established by this regulation and will apply to all deliveries for which a ceiling price was not otherwise established by this regulation, including deliveries completed prior to the date of the order. The issuance of such an order will not relieve the seller of the various penalties for his failure to comply with this regulation.

(d) The Director of Price Stabilization may, at any time, modify the ceiling prices established by order so as to bring them in line with the ceiling prices otherwise established under this regulation.

4. Section II (b) is amended to read as follows:

(b) "Iron ore" means all classifications, grades, groupings, blends, mixes, and other categories of iron ore, whether sold under a trade name or otherwise, produced in the State of Minnesota, Wisconsin or Michigan.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to Ceiling Price Regulation 169 is effective as of September 17, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 24, 1952.

[F. R. Doc. 52-11580; Filed, Oct. 24, 1952; 11:02 a. m.]

[General Interpretation 9]

GEN. INT. 9—SERVICES AND WARRANTIES INCIDENTAL TO SALE OF EXEMPTED OR SUSPENDED COMMODITIES

Following the exemption of or suspension from price control of certain commodities questions have been raised regarding the effect of such actions on services, charges or terms and conditions of sale which relate to such commodities.

In general, services, including warranties, which are sold as such are subject to Ceiling Price Regulation 34 and remain under price control, unless specifically exempted or suspended from control by General Overriding Regulation 14. However, certain services which are incidental to the sale of exempted or suspended commodities are now exempted or suspended from control by the action taken with respect to the commodity. These services must clearly be incidental to the sale however. For example, the sale of television sets is suspended from price control and this suspension carries along with it the suspension from control of the sale of the warranties accompanying the sale of the sets, which are included in the price. Such warranties include a compulsory warranty, whether or not its price is separately stated. They do not include an optional warranty which need not be purchased with the set. An optional warranty is not incidental to the sale of the set and remains under control.

Interest or financing charges in connection with the sale of a commodity are likewise placed outside control when the commodity is exempted or suspended, inasmuch as this interest represents an enhancement in the ceiling price of the commodity sold. It should be noted, however, that interest for the use of money loaned by persons other than the seller of the commodity has never been controlled by this agency.

The exemption or suspension from control carries with it the exemption or suspension of the entire transaction of the sale, thus obviating the requirement for maintenance of customary terms and conditions of sale in connection with sales of that commodity. Accordingly discounts, terms for payment and differentials between classes of customers need no longer be maintained after a commodity has been exempted or suspended from price control.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

OCTOBER 24, 1952.

[F. R. Doc. 52-11581; Filed, Oct. 24, 1952; 11:02 a. m.]

[General Overriding Regulation 6, Amdt. 8]

GOR 6—EXEMPTIONS RELATING TO SPECIFIED NONPROFIT ORGANIZATIONS

SALES BY VOLUNTEERS OF AMERICA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to General Overriding Regulation 6 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 6 removes the restriction on the type of sales by the Volunteers of America which have been exempted by the regulation from any price regulations issued by the Office of Price Stabilization.

As was pointed out in the Statement of Considerations, accompanying Amendment 5 to General Overriding Regulation 6, the Volunteers of America is a group of nonprofit organizations which operate throughout the United States for the purpose of providing rehabilitation, training and sheltered employment for handicapped persons.

A part of the program of these organizations involves the gathering of salvage materials and scrap of all sorts for processing and resale to scrap dealers. Such sales are not technically considered sales at retail in the scrap metal and salvage industry. This amendment exempts such sales.

Generally, the considerations stated in support of General Overriding Regulation 6 and Amendment 5 thereto are likewise applicable to the sales here referred to.

In the judgment of the Director of Price Stabilization the removal of the restriction on the character of sales by the Volunteers of America exempted by the provisions of Section 8 of the General Overriding Regulation will not impair the carrying out of the requirements of the Defense Production Act of 1950, as amended, and it is accordingly not necessary to restrict the character of the sales included in the exemption.

To the extent practicable under the circumstances, the Director has consulted with persons involved prior to the issuance of this amendment and has given consideration to their recommendations.

AMENDATORY PROVISIONS

Section 8 of General Overriding Regulation 6 is amended by deleting the words "at retail" from the section so that section 8 shall read as follows:

SEC. 8. *Sales by Volunteers of America.* No price regulation issued by the Office of Price Stabilization applies to sales by organizations known as the Volunteers of America which are affiliated with the National Society of the Volunteers of America of used and waste goods donated by members of the public to those organizations and sold in the condition received or as reconditioned by the organizations.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to General Overriding Regulation 6 shall become effective October 24, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 24, 1952.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[General Salary Stabilization Regulation 8, Revised, Amdt. 1]

GSSR 8—HEALTH AND WELFARE PLANS

STATEMENT OF CONSIDERATIONS

As a result of the experience of the Office of Salary Stabilization with the operation of this regulation, it now appears possible further to widen the scope of benefits which may be contained in health and welfare plans which an employer may put into effect on a self-administering basis in accordance with section 1 of this regulation. Accordingly, Amendment 1 has been adopted by the Salary Stabilization Board.

AMENDATORY PROVISION

The introductory paragraph of section 1 is amended by striking out the words "in-hospital" preceding the words "medical expense."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Adopted by the Salary Stabilization Board, October 2, 1952.

JUSTIN MILLER,
Chairman.

Approved: October 17, 1952.

ROGER L. PUTNAM,
Economic Stabilization Administrator.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 21 to Schedule B]

[Rent Regulation 2, Amdt. 22 to Schedule B]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREAS OR PORTIONS THEREOF

OHIO

Effective October 27, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 22d day of October 1952.

ED DUPREE,
Acting Director of Rent Stabilization.

1. A new item 67 is added to Schedule B of Rent Regulation 1—Housing, reading as follows:

67. Provisions relating to Butler County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area (Item 227 of Schedule A):

With respect to housing accommodations in Butler County, Ohio, section 141 of this regulation is changed to read as follows:

SEC. 141. *Alternate adjustment for increase in costs and prices.* The present maximum rent for the housing accommodation does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable housing accommodations on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation, for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the housing accommodation or comparable housing accommodations, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under sections 157 or 162 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director.

All provisions of this regulation insofar as they are applicable to Butler County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area, are amended to the extent necessary to carry into effect the provisions of this item 67 of Schedule B.

2. A new item 73 is added to Schedule B of Rent Regulation 2—Rooms, reading as follows:

73. Provisions relating to Butler County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area (Item 227 of Schedule A):

With respect to housing accommodations in Butler County, Ohio, section 138 is added to this regulation to read as follows:

SEC. 138. *Alternate adjustment for increases in costs and prices.* The present maximum rent for the room does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable rooms on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation, for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the room or comparable rooms, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under section 157 or 160 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director.

All provisions of this regulation insofar as they are applicable to Butler County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area, are amended to the extent necessary to carry into effect the provisions of this item 73 of Schedule B.

[F. R. Doc. 52-11541; Filed, Oct. 24, 1952; 8:56 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III; LOAN GUARANTY

MISCELLANEOUS AMENDMENTS

1. In § 36.4303, new paragraphs (g) and (h) are added as follows:

§ 36.4303 *Reporting requirements.*

* * *

(g) Subject to compliance with the regulations concerning guaranty or insurance of loans to veterans, the certificate of guaranty, or the evidence of insurance credit will be issuable within the available entitlement of the veteran on the basis of the loan stated in the final loan report or certification of loan disbursement. The available entitlement of a veteran will be determined by the Administrator as of the date of his receipt of an application for guaranty or insurance of a loan or of a loan report. Such date of receipt shall be the date the application or loan report is time stamped into the Veterans Administration. Eligibility derived from World War II service is automatically canceled by that derived from Korean service as of the date of discharge from such later service. The available entitlement of a borrower derived from active service on or after June 27, 1950, will be reduced by the amount entitlement derived from active service prior to June 27, 1950, was used to obtain a direct, guaranteed, or insured loan (1) on real property which the veteran owns on such date of receipt, or (2) as to which, on such date, the Administrator shall have incurred actual liability or loss: *Provided*, That if the Administrator issues or has issued a certificate of commitment covering the loan described in the application for guaranty or insurance or in the loan report, the amount and percentage of guaranty or the amount of the insurance credit contemplated by the certificate of commitment shall not be subject to reduction if the loan has been or is closed on a date which is not later than the expiration date of the certificate of commitment notwithstanding that the Administrator in the meantime and prior to the issuance of the evidence of guaranty or insurance shall have incurred actual liability or loss on a direct, guaranteed or insured loan previously obtained by the borrower through the use of entitlement derived from active service prior to June 27, 1950. For the purposes of this paragraph, the Administrator will be deemed to have incurred actual loss on a guaranteed or insured loan if he has paid a guaranty or insurance claim thereon and the veteran's resultant indebtedness to the Government has not been paid in full, and to have incurred actual liability on a guaranteed or insured loan if he is in receipt of a claim on the guaranty or insurance or is in receipt of a notice of default. In the case of a direct loan the Administrator will be deemed to have incurred an actual loss if the loan is in default. A loan the proceeds of which are to be disbursed progressively or at intervals will be deemed to have been closed for the purposes of this paragraph if the loan has been completed in all respects excepting the actual "pay-out" of the entire loan proceeds.

(h) Any amounts which are disbursed for an ineligible purpose shall be excluded in computing the amount of guaranty or insurance credit.

2. In § 36.4304, the paragraph (a) designation and paragraphs (b) and (c) are deleted, so that § 36.4304 reads as follows:

§ 36.4304 *Deviations; changes of identity.* A deviation of more than 5 percent between the estimates upon which a certificate of commitment has been issued and the report of final payment of the proceeds of the loan, or a change in the identity of the property upon which the original appraisal was based, will invalidate the certificate of commitment unless such deviation or change be approved by the Administrator. Any deviation in excess of 5 percent or change in the identity of the property upon which the original appraisal was based must be supported by a new or supplemental appraisal of reasonable value: *Provided*, That substitution of materials of equal or better quality and value approved by the veteran and the designated appraiser shall not be deemed a "change in the identity of the property" within the purview of this section. A deviation not in excess of 5 percent will not require the prior approval of the Administrator.

3. In § 36.4313, a new paragraph (d) is added as follows:

§ 36.4313 *Advances and other charges.*

* * *

(d) Advances of the type enumerated in paragraph (a) of this section and any other advances determined to be necessary and proper in order to preserve or protect the security may be authorized by employees designated in § 36.4342 (b) in the case of any property constituting the security for a loan acquired by the Administrator or constituting the security for the unpaid balance of the purchase price owing to the Administrator on account of the sale of such property. Such advances shall be secured to the extent legal and practicable by a lien on the property.

4. In § 36.4342, paragraph (b) is amended to read as follows:

§ 36.4342 *Delegation of authority.*

* * *

(b) Designated positions:

Assistant Administrator for Finance.
Director, Loan Guaranty Service.
Assistant Director, Loan Guaranty Service.
Division Chief, Loan Guaranty Service.
Assistant Division Chief, Loan Guaranty Service.
Loan Guaranty Officer.
Assistant Loan Guaranty Officer.

* * * * *

5. A new § 36.4361 is added as follows:

§ 36.4361 *Right of the Administrator to refuse to appraise residential properties.* (a) The Administrator may refuse to appraise dwellings to which a request for appraisal relates if he determines that any party or parties involved or financially interested in the construction or sale of such units have theretofore participated in the construction or sale of units sold to veterans which involved (1) substantial deficiencies in the construction, or (2) a failure or indicated inability to discharge contractual obligations to the veterans who contracted for the construction or purchase of such units, or (3) the use of a contract of sale or of methods or practices in marketing such units of a type which under standards promulgated by the Administrator was unfair or unduly prejudicial to the veterans concerned. Upon any such refusal to appraise, the Administrator shall give written notice thereof to the person or firm submitting the appraisal request and shall state the basis for such refusal.

(b) Any person or persons affected by such refusal to appraise shall have the right within 10 days after receipt of the written notice of such refusal to file with the director, loan guaranty service, by registered mail, a request for a hearing. The director, loan guaranty service, shall thereupon designate a time and place for such hearing and shall appoint one or more persons to conduct the hearing. The person or persons requesting such hearing shall be afforded full opportunity to appear at the hearing in person or by counsel, or both, and to introduce evidence showing why the sanction should be terminated or modified. The persons designated by the director to conduct the hearing shall have the authority to administer oaths to witnesses. The findings and recommendations of the members of the hearing board shall be forwarded to the director, loan guaranty service. Based on the evidence presented at such hearing, the director will render a determination in the case.

(Sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 694d)

This regulation is effective October 25, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

PART 401—PLANS AND PROGRAMS OF VOCATIONAL REHABILITATION

PART 403—VENDING STAND PROGRAM FOR THE BLIND IN FEDERAL AND OTHER BUILDINGS

EXTENSION OF AUTHORITY OF DIRECTOR TO WAIVE COMPLIANCE WITH REGULATIONS; EXTENSION OF TIME FOR COMPLIANCE BY LICENSING AGENCIES

1. In order to extend until April 1, 1953, the authority of the Director to waive compliance with requirements contained in the regulations in this part which are different from or in addition to requirements previously established by or under regulations, § 401.59, formerly § 600.59 of the regulations published July 29, 1948 (13 F. R. 4353) is hereby amended to read as follows:

§ 401.59 *Effect of the regulations in this part upon approved State plans and Federal requirements previously established.* (a) Insofar as they are not inconsistent with the act and the regulations in this part, State plans approved pursuant to the regulations issued by the Administrator under date of October 9, 1943 (8 F. R. 14158) shall be of the same force and effect and subject to the same conditions as though approved pursuant to the regulations in this part. Waiver of compliance with any requirements contained in the regulations in this part which are different from or in addition to those previously established by or under regulations, "may be permitted by the Director until April 1, 1953."

(b) All requirements as to content of State plans heretofore established are superseded by the regulations in this part. All requirements and standards heretofore established with respect to Federal reimbursement inconsistent with the regulations in this part are superseded to the extent of such inconsistency.

(Sec. 7 (c), 57 Stat. 374; 29 U. S. C. 37 (c))

2. In order to extend until April 1, 1953, the time for licensing agencies to comply with the requirements of § 403.7, formerly § 602.7, and to submit those materials which are, by this part, required to be submitted as a part of the application for designation as licensing agency but which were not previously required to be thus submitted, § 403.18 (a), formerly § 602.18 (a) (13 F. R. 5236), as amended (14 F. R. 5780), is hereby further amended to read as follows:

§ 403.18 *Previous designation as licensing agency; effective date of regulations.* (a) Applications for designation as licensing agency submitted to and approved by the Commissioner of Education or the Director prior to the effective date of this part shall have the same force and effect and shall be subject to the same conditions as though submitted and approved under this part, except that licensing agencies heretofore designated shall have until April 1, 1953, to comply with the provisions of § 403.7 and to submit those materials which are by this part, required to be submitted as a part of the application for designation as licensing agency but which were not previously required to be thus submitted.

(Sec. 2, 49 Stat. 1559; sec. 6, 60 Stat. 1095; 20 U. S. C. 107; 5 U. S. C. 133y-16)

Dated: October 20, 1952.

[SEAL] JOHN L. THURSTON,
Acting Federal Security Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DEC. 31, 1941

ABATEMENT OF TAX ON CERTAIN TRUSTS FOR MEMBERS OF ARMED FORCES DYING IN SERVICE

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 345 (relating to abatement of tax on certain trusts for members of armed forces dying in service) of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. Section 29.162–1, as amended by Treasury Decision 5838, approved April 17, 1951, is hereby amended by adding after paragraph (b) (3) thereof the following new subparagraph (4):

(4) For the deduction allowed a trust which accumulated income for a beneficiary who died on or after December 7, 1941, and before January 1, 1948, while in active service as a member of the military or naval forces of the United States or of any of the other United Nations, see § 29.421–1.

PAR. 2. There is inserted immediately preceding § 29.421–1 the following:

SEC. 345. ABATEMENT OF TAX ON CERTAIN TRUSTS FOR MEMBERS OF ARMED FORCES DYING IN SERVICE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

In the case of a trust which accumulated income for a beneficiary who died on or after December 7, 1941, and before January 1, 1948, while in active service as a member of the military or naval forces of the United States or of any of the other United Nations, there shall be allowed as a deduction in computing the net income of such trust (in addition to other deductions allowable under sections 23 and 162 of the Internal Revenue Code) income of the trust for any taxable year (before diminution for income tax) which was accumulated for such beneficiary if—

(1) The income accumulated was for a taxable year of the trust which ended with or within a taxable year (ending on or after December 7, 1941) of such beneficiary during any part of which he was a member of such military or naval forces, or, in the case of the taxable year of the trust during which such beneficiary died, the income accumulated was for the period in such taxable year prior to the death of such beneficiary; and

(2) The amount of such accumulated income was, without regard to this section, taxable to the trust, and

(3) The income for such taxable year accumulated for the beneficiary, if not distributed to him prior to his death, was payable by the trust at or after his death only to his estate, spouse, or lineal ancestors or descendants.

PAR. 3. Section 29.421–1, as amended by Treasury Decision 5645, approved July 20, 1948, is hereby amended by renumbering present paragraph (d) as paragraph (e) and by inserting after the paragraph (c) thereof the following new paragraph (d):

(d) In the case of a trust which accumulated income for a beneficiary who died on or after December 7, 1941, and before January 1, 1948, while in active service as a member of the military or naval forces of the United States or of any of the other United Nations, there shall be allowed as a deduction in computing the net income of the trust for any taxable year the income of the trust for such taxable year, before diminution for income taxes with respect thereto, which was, or would have been but for such diminution, accumulated for such beneficiary. This deduction shall be allowed, however, only if (1) the income accumulated was for a taxable year of the trust which ended with or within a taxable year (ending on or after December 7, 1941) of such beneficiary during any part of which he was a member of such military or naval forces, or, in the case of the taxable year of the trust during which such beneficiary died, the income accumulated was for the period in such taxable year prior to the death of such beneficiary, and (2) the amount of such accumulated income was, without regard to this paragraph, taxable to the trust, and (3) the income for such taxable year accumulated for the beneficiary, if not distributed to him prior to his death, was payable by the trust at or after his death only to his estate, spouse, or lineal ancestors or descendants.

The amendments to §§ 29.162–1 and 29.421–1 (Regulations 111), covering taxable years beginning after December 31, 1941, set forth in this Treasury decision, are hereby made applicable to any taxable year affected which is covered by Part 19 of this chapter (Regulations 103).

Office of the Secretary

[31 CFR Part 54]

GOLD REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Secretary of the Treasury proposes to amend the Gold Regulations (31 CFR Part 54) as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting their views and data or arguments in writing to the Director of the Mint, Treasury Department, Washington 25, D. C., prior to November 24, 1952. All communications should be submitted in quadruplicate.

It is proposed to amend § 54.21 of the Gold Regulations as follows:

1. By adding in paragraph (b) a new condition, namely, that the aggregate amount of gold acquired, held, transported, melted and treated, and imported, by a person operating pursuant to the provisions of § 54.21 shall not exceed in any calendar month 250 fine troy ounces of gold content. This new condition will be in addition to all of the existing conditions in paragraph (b);

2. By making a limited exception to the prohibition against the consignment of gold in paragraph (c), subparagraph (1), to permit the consignment of scrap gold to the holder of a Treasury Department Gold License on Form TGL–13 for processing and return in the form of semiprocessed gold; and

3. By prohibiting in paragraph (c), subparagraph (2) the furnishing of melted scrap gold to other persons operating pursuant to the provisions of § 54.21, or to persons operating pursuant to the provisions of § 54.18. As a result of this amendment, persons operating pursuant to the provisions of § 54.21 will be authorized to furnish melted scrap gold only to a Mint or to the holder of a Treasury Department gold license which authorizes the acquisition of such gold.

The proposed amendments are to be issued under the authority contained in sections 3 and 11 of the Gold Reserve Act of 1934, 48 Stat. 340, 342; 31 U. S. C. 442, 822b; section 5 (b), 40 Stat. 415, as amended; sec. 2, 48 Stat. 1; sec. 301, 55 Stat. 839; 12 U. S. C. 95 (a); E. O. 6260, August 28, 1933, 31 CFR Part 50; E. O. 6359, October 25, 1933; E. O. 9193, July 6, 1942, as amended, 7 F. R. 5205; 3 CFR 1943 Cum. Supp.; E. O. 10289, September 17, 1951, 16 F. R. 9499.

[SEAL] JOHN S. GRAHAM,
Acting Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[P. & S. Docket No. 442]

CLEVELAND UNION STOCK YARDS CO.

NOTICE OF PETITION FOR MODIFICATION OF RATE ORDER

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), an order was issued on November 7, 1951 (10 A. D. 1402), extending to and including December 9, 1952, the order of December 4, 1950 (9 A. D. 1434), which authorized the current schedule of rates and charges.

By a petition filed on October 10, 1952, the respondent has requested that it be authorized "to publish, file with the Secretary, and collect on and after December 9, 1952," the rates and charges set forth below under the heading "Proposed Rates" or "such other rates and charges as the Secretary may find to be just, reasonable and nondiscriminatory."

PROPOSED RATES

	Cents per head
(a) For yardage:	
Cattle	89
Calves	45
Hogs	30
Sheep	17
Plus 25 cents for each draft weighed.	
(b) Storage for market livestock after sale:	
Cattle	16
Calves	8
Hogs	6
Sheep	4
(c) For handling and delivery of direct shipments by truck:	
Cattle	40
Calves	23
Hogs	15
Sheep	9
(d) For handling and storage of railborne shipments not offered for sale on the public market. For each 24 hours or fraction thereof:	
Cattle	16
Calves	8
Hogs	6
Sheep	4
Horses	75
(e) For reweighing:	
Cattle	23
Calves	14
Hogs	7
Sheep	6
(f) For resale or change of ownership:	
Cattle	7
Calves	5
Hogs	4
Sheep	3

	Cents per linear foot
(g) For washing and disinfecting trucks and trailers:	
For washing single deck trucks	25
For washing double deck trucks	35

	Cents
For disinfecting, small trucks or trailers	50
For disinfecting, medium trucks or trailers	75
For disinfecting, large trucks or trailers	$1.25

For cleaning and disinfecting chutes, pens, and alleys after handling exposed, infected or diseased livestock, 2 cents per square foot.

The proposed rates and charges, if authorized, will produce additional revenue for the respondent and increase the cost of marketing livestock. Accordingly, it appears that this public notice of the filing of the petition and its contents should be given in order that all interested persons may have an opportunity to be heard in the matter.

All interested persons who desire to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days after the publication of this notice.

Done at Washington, D. C., this 20th day of October 1952.

[SEAL] AGNES B. CLARKE,
Hearing Clerk.

[F. R. Doc. 52–11522; Filed, Oct. 24, 1952; 8:50 a. m.]

[7 CFR Part 730]

RICE

NOTICE OF DETERMINATIONS PERTAINING TO MARKETING QUOTAS AND ACREAGE ALLOTMENTS FOR 1953 CROP

Section 354 (a) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1354 (a)), requires the Secretary of Agriculture to determine whether marketing quotas shall be in effect on the 1953 crop of rice and, if quotas are required, to proclaim such quotas not later than December 31, 1952. Section 352 of the act, as amended (7 U. S. C. 1352), requires the Secretary not later than December 31, 1952, to proclaim the national acreage allotment of rice for the calendar year 1953.

In preparing to make such determination and issue such proclamations, the Secretary has under consideration sections 304 and 371 (b) of the act, which provide, in effect, that the acreage allotment and marketing quota provisions of the act shall not be invoked with respect to any one of the several commodities to which farm marketing quotas are applicable in case the Secretary finds that acreage allotments and marketing quotas should be dispensed with to protect consumers, to meet a national emergency, or to provide a material increase in exports.

Prior to the determination and proclamations with respect to marketing quotas and acreage allotments for the 1953 crop of rice, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than 20 days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 22d day of October 1952.

[SEAL] G. F. GEISSLER,
Administrator.

[7 CFR Part 975]

[Docket No. AO–179–A9]

HANDLING OF MILK IN CLEVELAND, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Cleveland, Ohio, on June 25–27, inclusive, 1952, pursuant to notice thereof which was issued on June 13, 1952, (17 F. R. 5469).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on September 29, 1952, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on October 3, 1952 (17 F. R. 8861).

The material issues and the findings and conclusions of the recommended decision (17 F. R. 8861; F. R. Doc. 52–10726) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein subject to the following revisions:

1. On page 8862, column 1, fourth line from the bottom, after the word "provided" insert a comma and the phrase "effective July 1, 1953,".

2. On page 8863 insert after the third paragraph beginning in column 2, the following:

The standard Class I price differentials should be made subject to automatic upward adjustment whenever total supplies of milk from producers fail to cover adequately the Class I requirements. There should be a corresponding automatic downward adjustment whenever an oversupply develops. However, the application of such adjustment should be postponed until the market has had an opportunity to develop a more normal relationship between receipts and sales. The comparative shortages of supplies from producers in the fall of 1950 and of 1951 were corrected through the general payment of premiums sufficient to maintain the regular shippers and to cause four additional plants to qualify as pool plants in February and March 1952. These additions resulted in a more than sufficient supply. This situation, in turn, was modified effective July 1 by the addition of a major handler to the market and in mid-August by the withdrawal of a pool plant. The current shortage season and the flush season of 1953 should suffice to complete these types of adjustments between supplies and requirements. Accordingly, a supply-demand adjustment should become effective July 1, 1953.

3. On page 8864 delete the first four paragraphs beginning in column 1 and substitute therefor the following:

2. The butter-cheese formula should be deleted as one of the three alternative methods of determining the basic formula price.

The present butter-cheese formula was designed some years ago to measure the value of milk for all manufacturing purposes rather than the value of milk used for making cheese. Also it reflects a much higher proportion of butter relative to cheese than is currently being produced, and the prices developed by the formula are usually considerably below the other basic formula prices.

A revised formula, designed to measure the value of milk for cheese-making was introduced at the hearing. However, it appears that there has not been opportunity for as full a consideration of the formula as the problem warrants. In the circumstances, the new formula should not be adopted at this time.

Rulings. Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Determination of representative period. The month of August 1952 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of amendments to the order regulating the handling of milk in the Cleveland, Ohio, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 22d day of October 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

Order[1] Amending the Order as Amended, Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area

§ 975.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cleveland, Ohio, on June 25–27 inclusive, 1952, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Cleveland, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 975.51 (c) (1) delete the phrase "and skim milk or buttermilk disposed of for livestock feed;" and substitute therefor the following: "or accounted for as dumped milk or skim milk or as homogenized milk, flavored milk and milk drinks, skim milk, or buttermilk disposed of for livestock feed;"

2. Delete from each of paragraphs (a), (b), and (c) of § 975.53 the phrase "and as Class II milk if transferred as cream,"

3. Delete from paragraphs (a) and (e) of § 975.56 the phrase "(other than butterfat in butter)".

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

4. In that portion of the text of § 975.60 preceding paragraph (a) change the phrase "pursuant to paragraphs (a), (b) and (c)" to read "pursuant to paragraphs (a) and (b)".

5. Delete § 975.60 (b).

6. Redesignate paragraph (c) of § 975.60 as paragraph (b) and change subparagraph (1) to read as follows:

(1) From the average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter for the delivery period as reported by the Department of Agriculture for the Chicago market, subtract 3 cents, add 20 percent of the resulting amount, and then multiply by 3.5; and

7. Delete § 975.61 (a) and substitute therefor the following:

(a) Add to the basic formula price the following amount for the delivery period indicated:

Delivery period:	*Amount*
April, May, and June	$1.00
February, March, and July	1.45
All others	1.90

and, effective July 1, 1953, add or subtract a "supply-demand adjustment" computed as follows:

(1) Divide the total quantity of milk received from producers during the first and second months preceding the delivery period by the gross quantity of milk utilized as Class I in the same two months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current utilization percentage".

(2) Compute a "deviation percentage" by subtracting from the current utilization percentage as computed in subdivision (i) of this subparagraph, the "standard utilization percentage" shown below:

Month for which the price is being computed:	*Standard utilization percentage*
January	117
February	121
March	125
April	132
May	142
June	158
July	168
August	156
September	141
October	132
November	128
December	120

(3) (i) Determine the amount of the supply-demand adjustment from the following schedule:

If deviation percentage is—	Supply-demand adjustment for specified months is—		
	Jan., Feb., Mar., Aug., and Sept.	Apr., May, June, and July	Oct., Nov., and Dec.
	Cents	*Cents*	*Cents*
+18 or over	−37	−55	−37
+15 or +16	−31	−46	−31
+12 or +13	−25	−37	−25
+9 or +10	−19	−28	−19
+8 or +7	−13	−19	−13
+3 or +4	−7	−10	−7
+1 or −1	0	0	0
−3 or −4	+7	+7	+10
−6 or −7	+13	+13	+19
−9 or −10	+19	+19	+28
−12 or −13	+25	+25	+37
−15 or −16	+31	+31	+46
−18 or below	+37	+37	+55

(ii) When the deviation percentage does not fall within the tabulated brackets the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month: *Provided*, That with respect to Class I milk in sweet or sour cream for fluid consumption, the amount added to the basic formula price shall be the amount set forth above in this paragraph less 45 cents.

8. Delete § 975.62 (a) and substitute therefor the following:

(a) The price of butterfat shall be the average price of butter as computed pursuant to paragraph (b) (1) of § 975.60 multiplied by 120.

9. In § 975.63 (b) replace the colon preceding the word *"Provided"* with a period and delete all language appearing thereafter.

10. In § 975.70 replace the colon preceding the phrase *"And provided also"* with a period and delete all language appearing thereafter.

11. In § 975.71 change "17 cents per hundredweight" to read "18 cents per hundredweight", and change "an additional 1 cent for each additional 15 mile zone" to read "2 cents additional for each additional 15 mile zone".

12. In § 975.81 (b) change "not to exceed 17 cents" to read "not to exceed 18 cents" and change "an additional 1 cent for each additional 15 mile zone." to read "2 cents additional for each 15 mile zone."

Order of the Secretary Directing That a Referendum Be Conducted Among the Producers Supplying Milk to the Cleveland, Ohio, Marketing Area, and Designation of an Agent to Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Cleveland, Ohio, marketing area) who, during the month of August 1952 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of August 1952 is hereby determined to be the representative period for the conduct of such referendum.

Howard G. Eisaman is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 25th day from the date this referendum order is issued.

FEDERAL SECURITY AGENCY

Public Health Service

[42 CFR Part 71]

FOREIGN QUARANTINE

PSITTACINE BIRDS: RESTRICTIONS ON ENTRY; DISPOSITION OF EXCLUDED BIRDS

Notice is hereby given that the Surgeon General of the Public Health Service, with the approval of the Federal Security Administrator, proposes to amend §§ 71.152 and 71.153 of the Public Health Service regulations (42 CFR 71.152, 71.153) as indicated below. Interested persons may submit written data, views, or arguments in regard to the proposed amendments to the Surgeon General of the Public Health Service, Washington 25, D. C., not later than 30 days after the publication of this notice in the FEDERAL REGISTER.

1. Section 71.152 would be revised to read as follows:

§ 71.152 *Psittacine birds: Definitions; restrictions on entry*—(a) *Definitions.* As used in this section and § 71.153, the term:

(1) "Psittacine birds" includes birds commonly known as parrots, Amazons, African grays, cockatoos, macaws, parakeets, lovebirds, lories, lorikeets, and all other birds of the order Psittaciformes.

(2) "United States" means the continental United States, its territories and possessions (other than the Canal Zone).

(3) "Zoological park" means a place, premises, or an establishment maintained for the exhibition of live animals for recreational or educational purposes. It does not include any place, premises, or establishment that is used for, or whose owner or operator engages directly or indirectly in, selling or trading, or offering for sale or trade, psittacine birds to the public or to dealers in birds.

(b) *Import restrictions.* Psittacine birds shall not be brought into the United States for the purpose of sale or trade. Psittacine birds may be brought in only for the purposes and under the conditions prescribed in subparagraphs (1) to (4) inclusive of this paragraph, and subject to the provisions of § 71.153.

(1) *Medical research.* Psittacine birds may be brought in for purposes of medical research under conditions prescribed by the Surgeon General to minimize risk of psittacosis infection, if the birds are accompanied by a permit issued by the Surgeon General and if they appear to the quarantine officer to be in good health unless otherwise specified in the permit.

(2) *Zoological parks.* (i) Psittacine birds may be brought in for a zoological park if the birds appear to the quarantine officer to be in good health and they are accompanied by a permit issued by the Surgeon General. On arrival at the zoological park or at detention facilities approved by the Surgeon General, the birds shall be immediately isolated for at least thirty days where they will not have contact with other birds or with the public. When any bird in isolation displays symptoms suggestive of psittacosis, the owner or operator of the park or detention facility shall have the bird killed promptly and shall immediately notify the nearest quarantine station of the Public Health Service or the Surgeon General. Such owner or operator shall comply with such measures, including preservation of the carcass for examination, as are determined by the Surgeon General to be necessary to prevent the spread of psittacosis.

(ii) Application for a permit under this subparagraph shall be submitted by the owner or operator of the zoological park and shall furnish such information as the Surgeon General may require, including the number and species of birds to be imported, their place of origin, the probable port and date of arrival, a description of the detention facilities to be used for isolation of the birds, and the precautions to be taken to prevent transmission of psittacosis.

(iii) The application shall include a certification that: The birds are not intended for sale or trade; the zoological park is not used for the sale or trade of psittacine birds to the public or to dealers in birds, or for offering psittacine birds for such sale or trade; and the owner or operator of the zoological park does not engage directly or indirectly in such sale or trade of psittacine birds or in offering them for such sale or trade. Upon receipt of such certification and of such other evidence as he may require, the Surgeon General may designate a place, premises, or an establishment as a zoological park for the purposes of this section; he may then waive the requirement for submission of the certification with subsequent applications for permits in the case of that park. Such designation and waiver shall be subject to revocation at any time in the discretion of the Surgeon General.

(3) *Pets.* A maximum of two psittacine birds may be imported by the owner thereof provided (i) the birds appear to the quarantine officer to be in good health; (ii) not more than two birds are brought in by members of a family comprising a single household; and (iii) the owner submits at the port of arrival of the birds a sworn statement that they are not intended for sale or trade in the United States, that neither he nor any member of his family within his household has imported any other birds under this paragraph in the preceding twelve months, and that the birds have been in the owner's possession for the four months preceding arrival except for any period occasioned by the arrival of the owner and birds on separate conveyances.

(4) *Return to United States.* Psittacine birds taken out of the United States may be admitted if, upon their return:

(i) The requirements of subparagraph (3) of this paragraph are complied with; or

(ii) They are accompanied by a permit for return issued by the Surgeon General, the owner submits a sworn statement as to compliance with the terms of the permit and such other information as the Surgeon General may require, and the birds appear to the quarantine officer to be in good health. Application for such a permit should be made by the owner of the birds prior to their departure from the United States and shall include a sworn statement as to the itinerary, the number and description of the birds, and such other information as the Surgeon General may require.

(c) *Cancellation of permit.* Any permit issued under this section shall be subject to cancellation if procured or used in a manner inconsistent with this part, or if cancellation is otherwise found necessary by the Surgeon General in the interest of the public health.

(d) *Delegation of authority by Surgeon General.* The Surgeon General may delegate his powers and duties under this section to any officer or employee of the Service.

2. Section 71.153 would be revised to read as follows:

§ 71.153 *Psittacine birds: Exclusion of exposed birds; disposal of excluded birds*—(a) *Exclusion of exposed birds.* Notwithstanding any provision of § 71.152, psittacine birds may not be brought into the United States if, during shipment, they have been exposed to psittacosis, or have been in contact with birds showing symptoms suggestive of psittacosis or with birds dying from unconfirmed causes.

(b) *Disposal of excluded birds.* (1) Birds appearing healthy which have been exposed to infection as described in paragraph (a) of this section or which are excluded from admission by § 71.152 shall be either exported or destroyed. Exportation shall be permitted only if the owner exports the birds within a reasonable time, as determined by the medical officer in charge; pending exportation, the birds shall be detained at the port of entry at the owner's expense. While so detained, birds that have been exposed as described in paragraph (a) of this section shall be isolated.

(2) Psittacine birds that show, either upon arrival or while held in detention, symptoms suggestive of psittacosis shall be destroyed immediately.

(Sec. 215, 58 Stat. 690; 42 U. S. C. 216. Interpret or apply secs. 361-369, 58 Stat. 703-706; 42 U. S. C. 264-272)

[SEAL] W. P. DEARING,
Surgeon General.

Approved: October 21, 1952.

JOHN L. THURSTON,
Acting Federal Security Administrator.

NOTICES

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

SCOPE OF TERM "FARM EQUIPMENT" AS USED IN EXECUTIVE ORDER 10161

MEMORANDUM OF AGREEMENT

The memorandum of agreement (17 F. R. 6129) between the Administrator of the Production and Marketing Administration, United States Department of Agriculture, and the Administrator of the National Production Authority, signed by them on June 18 and 26, 1952, respectively, pursuant to Defense Food Delegation No. 1 (15 F. R. 6424; 16 F. R. 2446, 3311, 3519) and NPA Organizational Statement No. 1 (17 F. R. 4305), and setting forth the understanding of the Production and Marketing Administration and the National Production Authority as to the scope of the term "farm equipment" as used in Executive Order 10161 (15 F. R. 6105), omits reference, in Appendix A thereof, to certain items of equipment used in connection with the production of sugar beets and sugar cane. It is, therefore, agreed that Appendix A of such memorandum of agreement is hereby amended in the following manner so as to include these items:

1. Under the general classification "Cultivators and weeders," the following new item is added:

Blockers, mechanical, sugar beet.

2. Under the general classification "Harvesting equipment," the following new item is added:

Harvesting equipment, sugar beet and sugar cane.

3. Under the general classification "Transportation equipment, farm (not motor)" the listing "wagons and carts, cane" is changed to read as follows:

Wagons, carts, sleds and water carts, sugar cane.

Dated: October 16, 1952.

National Production Authority

[Suspension Order 39; Docket No. 27]

STAR FASTENER, INC.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 19th day of August 1952, and on the 17th day of September 1952, before Philip E. Hoffman, Esquire, a hearing commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16-06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to National Production Authority General Administrative Order 16-06 (16 F. R. 8799), redesignated as RP 1—Rules of Practice Before Hearing Commissioners (16 F. R. 8894); and

The respondents, Star Fastener, Inc., a New York corporation; Arthur Lazarus, as President of Star Fastener, Inc., and individually; Henry Kaufmann, as Vice President of Star Fastener, Inc., and individually; Aaron Africk, as Treasurer of Star Fastener, Inc., and individually; and Barry Platt, as Secretary of Star Fastener, Inc., and individually; all of 201 Front Street, Brooklyn, N. Y., having been duly apprised of the specific violations charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings; and

The National Production Authority being represented by Herbert L. Saunders, attorney, and the respondents being represented by Herbert L. Wasserman, Harry Steiner, and David E. Feldman, attorneys, and testimony and evidence having been offered and received in support of the charges and in opposition thereto and the hearing commissioner being advised in the premises, it is hereby determined:

Findings of Facts. 1. During the month of December 1950, Star Fastener, Inc., used in the manufacture of slide fasteners 11,604 pounds of aluminum, such quantity being 9,723 pounds in excess of 1,881 pounds permitted to be used by Star Fastener, Inc., during December 1950 by National Production Authority Order M-7, section 26.25 (a), as amended December 1, 1950 (15 F. R. 8576).

2. During the month of January 1951, Star Fastener, Inc., used in the manufacture of slide fasteners 10,957 pounds of aluminum, such quantity being 9,452 pounds in excess of 1,505 pounds permitted to be used by Star Fastener, Inc., during January 1951 by National Production Authority Order M-7, section 26.25 (b), as amended December 1, 1950 (15 F. R. 8576).

3. During the month of February 1951, Star Fastener, Inc., used in the manufacture of slide fasteners 10,957 pounds of aluminum, such quantity being 9,546 pounds in excess of 1,411 pounds permitted to be used by Star Fastener, Inc., during February 1951 by National Production Authority Order M-7, section 5 (b), as amended February 1, 1951 (16 F. R. 1122).

4. During the month of March 1951, Star Fastener, Inc., used in the manufacture of slide fasteners 6,775 pounds of aluminum, such quantity being 5,552 pounds in excess of 1,223 pounds permitted to be used by Star Fastener, Inc., during March 1951 by National Production Authority Order M-7, section 5 (b), as amended February 1, 1951 (16 F. R. 1122).

5. During the second calendar quarter of 1951, Star Fastener, Inc., used in the manufacture of slide fasteners 20,326 pounds of aluminum, such quantity being 16,657 pounds in excess of 3,669 pounds permitted to be used by Star Fastener, Inc., during the second quarter 1951 by National Production Authority Order M-7, section 5 (c), as amended March 9, 1951 (16 F. R. 2337), March 31, 1951 (16 F. R. 2922), April 6, 1951 (16 F. R. 3118), May 1, 1951 (16 F. R. 3916), and June 1, 1951 (16 F. R. 5259).

6. During the month of December 1950, Star Fastener, Inc., used in the manufacture of slide fasteners 46,750 pounds of brass mill products, such quantity being 8,036 pounds in excess of 38,715 pounds permitted to be used by Star Fastener, Inc., during December 1950 by National Production Authority Order M-12, section 29.26 (a), dated November 29, 1950 (15 F. R. 8219), as amended December 30, 1950 (16 F. R. 124).

7. During the month of January 1951, Star Fastener, Inc., used in the manufacture of slide fasteners 33,475 pounds of brass mill products, such quantity being 567 pounds in excess of 32,908 pounds permitted to be used by Star Fastener, Inc., during January 1951 by National Production Authority Order M-12, section 29.26 (b), as amended December 30, 1950 (16 F. R. 124).

8. During the month of February 1951, Star Fastener, Inc., used in the manufacture of slide fasteners 33,475 pounds of brass mill products, such quantity being 567 pounds in excess of 32,908 pounds permitted to be used by Star Fastener, Inc., during the month of February 1951 by National Production Authority Order M-12, section 29.26 (b), as amended December 30, 1950 (16 F. R. 124), and February 19, 1951 (16 F. R. 1730).

9. During the second calendar quarter of 1951, Star Fastener, Inc., used in the manufacture of zipper slider bodies, separating end-components, and top and bottom stops, 91,932 pounds of brass mill products, such quantity being 4,824 pounds in excess of 87,108 pounds permitted to be used by Star Fastener, Inc., during the second calendar quarter of 1951 by National Production Authority Order M-12, section 6 (c), as amended April 1, 1951 (16 F. R. 2957), and April 9, 1951 (16 F. R. 3175).

10. During the period commencing December 1, 1950, and terminating on June 30, 1951, Arthur Lazarus, Henry Kaufmann, Aaron Africk, and Barry Platt owned, dominated, managed, and controlled Star Fastener, Inc., and directed and supervised Star Fastener, Inc., during the time Star Fastener, Inc., used the unauthorized quantities of aluminum and brass mill products set forth in paragraphs 1 through 9 above.

Conclusion. During the period commencing December 1, 1950, and terminating on June 30, 1951, Star Fastener, Inc., a New York corporation, Arthur Lazarus, Henry Kaufmann, Aaron Africk, and Barry Platt, all of 201 Front Street, Brooklyn, N. Y., violated the provisions of the National Production Authority regulations, orders, and directives as hereinabove cited by using in the manufacture of slide fasteners and components thereof 50,930 pounds of aluminum and 13,993 pounds of brass mill products in excess of the quantities permitted by said National Production Authority regulations, orders, and directives.

In order to correct the unauthorized use of aluminum and brass mill products in the manufacture of slide fasteners and components thereof, occasioned by the violations found herein,

It is accordingly ordered. 1. That all outstanding allotments and allocations of copper and copper-base alloy brass mill products; including automatic allotments and allocations acquired through self-certification and/or self-authorization, directive, or otherwise; to respondent Star Fastener, Inc., of 201 Front Street, Brooklyn, N. Y., for the manufacture of slide fasteners during the fourth calendar quarter, 1952, be and they hereby are reduced in the amount of 13,993 pounds, and all excess allotments and allocations and purchase orders placed pursuant to such excess allotments and allocations shall be cancelled or reduced in accordance with section 13 of National Production Authority CMP Regulation No. 1 as amended November 23, 1951 (16 F. R. 11860), and Controlled Materials Plan Form CMP-12.

2. That commencing with the fourth calendar quarter, 1952, all allotments and allocations of aluminum; including automatic allotments and allocations acquired through self-certification, self-authorization, directive, or otherwise; to said Star Fastener, Inc., for the manufacture of slide fasteners during said fourth quarter or succeeding quarters, be and the same hereby are reduced to 5,000 pounds for each of said calendar quarters, or 25 percent of said allotments and allocations, whichever is greater, until such time as said allotments and allocations so withdrawn and withheld total 50,930 pounds, and all excess allotments and allocations and purchase orders placed pursuant to such excess allotments and allocations shall be cancelled or reduced in accordance with section 13 of National Production Authority CMP Regulation No. 1 as amended November 23, 1951 (16 F. R. 11860), and Controlled Materials Plan Form CMP-12.

3. That said Star Fastener, Inc., its successors and assigns, Arthur Lazarus, Henry Kaufmann, Aaron Africk, and Barry Platt, as officers of Star Fastener, Inc., and individually, be and hereby are prohibited during each and all of the aforesaid periods from acquiring and using aluminum and/or copper and copper-base alloy brass mill products in excess of the amounts permitted by the terms of this order.

Issued this 17th day of October 1952 at New York City, N. Y.

NATIONAL PRODUCTION AUTHORITY,
By PHILIP E. HOFFMAN,
Hearing Commissioner.

FEDERAL POWER COMMISSION

[Project No. 2102]

WARRIOR RIVER ELECTRIC CO-OPERATIVE ASSN.

ORDER FIXING HEARING

OCTOBER 21, 1952.

On March 18, 1952, Warrior River Electric Co-operative Association (Applicant), of Oneonta, Alabama, filed an application for preliminary permit under the Federal Power Act for a proposed hydroelectric development (Project No. 2102) located on Locust Fork of Black Warrior River in Blount County, Alabama.

Responses to the notice of application indicate a public interest in the proposed project.

The Commission finds: In order to carry out the provisions of the Federal Power Act, particularly section 4 (f) thereof, it is appropriate and in the public interest that a hearing be held on the application filed March 18, 1952, for preliminary permit for proposed Project No. 2102.

The Commission orders: A public hearing be held commencing on November 17, 1952, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and issues presented in this proceeding on the application for preliminary permit for proposed Project No. 2102 on the Locust Fork of Black Warrior River in Blount County, Alabama.

Date of issuance: October 21, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF INTERIOR

DELEGATION OF AUTHORITY WITH RESPECT TO DISPOSAL OF CERTAIN EXISTING TELEPHONE SYSTEMS AT INDIAN AGENCIES

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, as amended, I hereby authorize the Secretary of the Interior to effect the disposal, by negotiated sale or otherwise, of certain existing telephone lines and systems situated at Indian Agencies under the jurisdiction of the Department of the Interior.

2. In the event that disposal of any or all of the particular telephone lines or systems is accomplished by negotiation, the Secretary of the Interior shall submit to the appropriate Committees of Congress an explanatory statement of the type required by section 1 (i) of Public Law 522, 82d Congress, at least thirty (30) days prior to the consummation of the negotiated sale. A copy of each of such statements shall be provided this Administration.

3. The authority herein delegated may be redelegated to any officer or employee of the Department of the Interior.

4. This delegation of authority shall be effective as of October 17, 1952.

Dated: October 21, 1952.

JESS LARSON,
Administrator.

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY WITH RESPECT TO INCREASES—MIDDLEWEST CLASS RATES; INCREASES — MIDDLEWEST COMMODITY RATES

1. Pursuant to the provisions of sections 201 (a) (4) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority to represent the interests of the executive agencies of the Federal Government in the matter of Increases—Middlewest Class Rates, I & S Docket No. M–4355, and Increases—Middlewest Commodity Rates, I & S Docket No. M–4414, before the Interstate Commerce Commission, is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration and shall further be exercised in cooperation with the responsible officers, officials and employees of such Administration.

4. This delegation of authority shall be effective as of the date hereof.

Dated: October 22, 1952.

JESS LARSON,
Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27474]

MERCHANDISE IN MIXED CARLOADS FROM CHICAGO, ILL., AND INDIANAPOLIS, IND., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

OCTOBER 22, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to his tariff I. C. C. No. 752.

Commodities involved: Merchandise, in mixed carloads.

From: Chicago, Ill., and Indianapolis, Ind.

To: Points in southern territory.

Grounds for relief: Competition with rail and motor carriers and circuitous routes.

Schedules filed containing proposed rates: R. G. Raasch, Agent, I. C. C. No. 752, Supp. 13.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27475]

PETROLEUM PRODUCTS FROM RITCHAL, KANS. TO CERTAIN POINTS

APPLICATION FOR RELIEF

OCTOBER 22, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to tariffs listed on attached sheet.

Commodities involved: Petroleum, petroleum products, and related articles, carloads.

From: Ritchal, Kans.

To: Points in southern, southwestern, official, and western trunk-line territories.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates:

	Tariff I. C. C. No.	Supp. No.
F. C. Kratzmeir, agent	3585	524
	3802	124
	3825	151
	3651	299
	3724	158
	3494	293
L. E. Kipp, agent	A–3578	71

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27476]

ALCOHOLS AND RELATED ARTICLES BETWEEN POINTS IN THE SOUTHWEST AND MASSACHUSETTS AND MAINE

APPLICATION FOR RELIEF

OCTOBER 22, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3721.

Commodities: involved: Alcohols and related articles, in carloads.

Territory: From Tallant, Okla., to St. Louis, Mo., and from points in Texas, Arkansas, Louisiana, and Oklahoma to Boston, Mass., and Portland, Maine.

Grounds for relief: Competition with rail carriers, circuitous routes, and market competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3721, Supp. 237.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27477]

COMMODITY RATES BETWEEN POINTS IN THE UNITED STATES

APPLICATION FOR RELIEF

OCTOBER 22, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to fourth-section applications Nos. 26770 and 27353.

Involving: Commodity rates constructed on basis related to docket No. 28300 class rates.

Between: Points in the United States generally east of the Rocky Mountains.

Grounds for relief: Rail competition, circuitous routes, grouping, and to apply rates constructed on the basis of the short line distance formula.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. OFFICE OF DEFENSE MOBILIZATION

[CDHA 86]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

OCTOBER 24, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations and the availability of housing and community facilities and services for such defense workers and military personnel in the area set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that said area is a critical defense housing area.

Point Arena, California, Area. (The area consists of Arena Township in Mendocino County, California.)

HENRY H. FOWLER,
Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3451]

GABRIEL STEEL CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

OCTOBER 20, 1952.

Gabriel Steel Company, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw its Common Stock, $5.00 Par Value, from registration and listing on the Detroit Stock Exchange.

The reasons stated by the company in the application for withdrawing this security from registration and listing are that the total number of shareholders, counting joint holdings of husband and wife as one, has dropped from 144 on November 1, 1949, to 80 on August 25, 1952; that there is virtually no public interest in trading in this security; that there have been many periods of weeks and months during which no shares of this security were traded on this exchange; and that under these circumstances the work and expense of preparing the reports required by the Commission, including the mandatory annual physical inventory in the presence of a certified public accountant, are not justified.

Upon receipt of a request, prior to November 12, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 54-168]

ELECTRIC BOND AND SHARE CO.

ORDER GRANTING RECITALS IN ACCORDANCE WITH SUPPLEMENT R OF THE INTERNAL REVENUE CODE

OCTOBER 21, 1952.

The Commission having approved the acquisition by Electric Bond and Share Company ("Bond and Share"), a registered holding company, of 183,050 shares of the common stock of the Washington Water Power Company ("Washington") received by Bond and Share pursuant to a plan of distribution by American Power & Light Company, subject to the condition that Bond and Share dispose of such common stock of Washington prior to December 31, 1952; and

The Commission having approved a plan of Bond and Share providing for the distribution as a dividend and the sale, prior to the end of 1952, of the common stock of Washington received as a distribution from American; and

Bond and Share having notified the Commission, pursuant to Rule U-44 (c) of the rules and regulations promulgated under the act, of the declaration of a dividend on the common stock of Bond and Share, payable December 29, 1952, to stockholders of record on November 24, 1952, in shares of the common stock of Washington, at the rate of two shares of common stock of Washington for each 100 shares of Bond and Share's outstanding common stock, requiring an aggregate of 105,007.16 shares of common stock of Washington for this purpose; and

The Commission having notified Bond and Share that no declaration need be filed with respect to this matter; and

Bond and Share having requested that the Commission enter an order containing the recitals required by section 1808 (f) and Supplement R of the Internal Revenue Code, and the Commission deeming it appropriate that such request be granted:

It is ordered and recited, That the payment by Bond and Share as a dividend to its stockholders of 105,007.16 shares of common stock of Washington is necessary or appropriate to the integration or simplification of the holding company system of which Bond and Share is a member and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of the Internal Revenue Code and section 1808 (f) and Supplement R thereof.

By the Commission.

UNITED LIGHT AND RAILWAYS CO. AND AMERICAN NATURAL GAS CO.

ORDER POSTPONING HEARING

OCTOBER 21, 1952.

In the matter of United Light and Railways Company, American Light & Traction Company (now American Natural Gas Company); File Nos. 59-11, 59-17, 54-25.

The Commission having fixed November 10, 1952, as the date for the commencement of a reconvened hearing in the above proceeding for the purpose of taking testimony upon the retainability by the American Natural Gas Company system of Milwaukee Solvay Coke Company, a non-utility subsidiary, in accordance with the jurisdiction theretofore reserved by the order of the Commission dated December 30, 1947; and

The Public Service Commission of Wisconsin having requested a postponement of said hearing, and the Commission deeming it appropriate under the circumstances to grant such request:

It is ordered, That the hearing in this matter be reconvened at 10:00 a. m., e. s. t., on November 24, 1952, in the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

By the Commission.

[File No. 70-2933]

NARRAGANSETT ELECTRIC CO.

ORDER AUTHORIZING PROPOSED NOTE ISSUES

OCTOBER 21, 1952.

The Narragansett Electric Company ("Narragansett"), a public-utility subsidiary company of New England Electric System, a registered holding company, having filed with this Commission a declaration, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") and Rules U-23 and U-42 (b) (2) promulgated thereunder, with respect to the following proposed transactions:

In the declaration Narragansett estimates that, as at September 30, 1952, it will have outstanding with banks $5,150,000 principal amount of six-months promissory notes. Narragansett proposes to issue to banks, from time to time but not later than December 31, 1952, additional unsecured six-months promissory notes in an aggregate principal amount not in excess of $4,400,000. Narragansett further proposes that the principal amount of all of its unsecured promissory notes outstanding at any one time prior to December 31, 1952, will not exceed $7,950,000.

Each of the proposed notes will bear interest at the prime rate of interest at the time of the issuance thereof. It is stated that said interest rate for such notes at the present time is 3 percent per annum. In the event that such interest rate is in excess of 3¼ percent per annum at the time any of said additional promissory notes are to be issued, Narragansett will file an amendment to its declaration setting forth therein the name of the bank or banks, the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. Narragansett requests that such amendment become effective at the end of such period unless the Commission notifies it to the contrary within said period.

Narragansett will use $1,400,000 of the proceeds derived from the proposed issuance of additional promissory notes to pay outstanding promissory notes maturing prior to December 31, 1952, and

will use the remainder of such proceeds to pay for other corporate purposes. Narragansett estimates that its construction expenditures for the period from October 1, 1952, to December 31, 1952, will aggregate $3,582,500. Narragansett proposes that if any permanent financing is done during the period from October 1, 1952, to December 31, 1952, the proceeds therefrom will be applied in reduction of, or in total payment of, promissory notes then outstanding, and the amount of authorized but unissued notes, if any, will be reduced by the amount, if any, by which such permanent financing exceeds the notes at the time outstanding.

The declaration states that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $900. The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Narragansett requests that the Commission's order herein become effective forthwith upon issuance.

Notice of the filing of the declaration having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration be, and hereby is, permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

[File No. 811-183]

AERONAUTICAL SECURITIES, INC.

NOTICE OF APPLICATION FOR AN ORDER DECLARING THAT THE COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

OCTOBER 20, 1952.

Notice is hereby given that Aeronautical Securities, Incorporated, of the City of New York (hereinafter referred to as "Applicant"), a registered investment company, has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order of the Commission declaring that it has ceased to be an investment company within the meaning of the act.

Section 8 (f) provides that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company it shall so declare by order and upon the taking of effect of such order the registration of such company shall cease to be in effect.

Applicant sets forth the following facts in support of the application:

On February 9, 1951, Applicant and Bullock Fund, Ltd. (hereinafter referred to as "Bullock") entered into an agreement, dated February 9, 1951, which contemplated, in effect, the merger of Applicant into Bullock through the transfer of the assets of Applicant to Bullock in exchange for stock of Bullock and its assumption of the liabilities of Applicant, followed by dissolution of Applicant and distribution of Bullock stock in liquidation to shareholders of Applicant. On February 16, 1951, Applicant and Bullock filed with the Securities and Exchange Commission a joint application pursuant to section 17 (b) of the act for an order exempting the proposed transaction from the provisions of section 17 (a) of the act. On March 13, 1951, the Securities and Exchange Commission entered an order granting the application.

On March 29, 1951, a notice was mailed to all of the stockholders of Applicant advising them that the transfer of the assets of Applicant to Bullock had been completed and that such stockholders were entitled to receive in the liquidation of Applicant 33.52 percent of a share of Bullock stock, for each share of stock in Applicant held by them, and cash payment in lieu of fractional shares of Bullock stock at the rate of $23.3938 for each full share of Bullock stock. Such notice further advised the stockholders of Applicant that distribution of the Bullock stock and cash would be made upon surrender of the stock of Applicant held by them to Irving Trust Company, One Wall Street, New York, New York, as agent of Applicant for the exchange.

At a meeting of the Board of Directors of Applicant held on February 8, 1951, and at a meeting of the stockholders of Applicant held on March 22, 1951 (adjourned from March 6, 1951), it was voted to dissolve Applicant pursuant to the provisions of section 39 of the General Corporation Law of the State of Delaware.

The aggregate value of the net assets of Applicant transferred to Bullock (net after deducting liabilities of $18,516.81 assumed by Bullock and $11,608.81 in cash reserved for payment to shareholders of Applicant in lieu of fractional shares of Bullock stock) was $1,082,129.04, consisting almost entirely of investments valued at the market price. The aggregate value of the assets received by Applicant upon the exchange (namely, 46,257 shares of the capital stock of Bullock having a then per share net asset value of $23.393844) was $1,082,129.04.

The expenses incurred in connection with the transfer of the assets of Applicant to Bullock and the dissolution of Applicant amounted to $9,702.09. Such expenses are included in the $18,516.81 of liabilities assumed by Bullock as stated above.

At July 16, 1952, all except 2,383 shares of Applicant had been surrendered to Irving Trust Company, as agent, in exchange for Bullock stock and cash. At July 16, 1952, Irving Trust Company held 786 shares of Bullock stock and $302.74 against the surrender of such 2,383 shares of Applicant still outstanding. Irving Trust Company also held at that date dividends accumulated on such 786 shares of Bullock stock in the amount of $2,082.40.

All interested persons are referred to said application which is on file in the offices of the Commission for a detailed statement of the proposed transaction and the matters of fact and law asserted.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission on or at any time after November 10, 1952, unless prior thereto a hearing upon the application is ordered by this Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may submit to the Commission in writing, not later than November 7, 1952, at 5:30 p. m., his views or any additional facts bearing upon the application or the desirability of a hearing thereon, or a request to the Commission that a hearing be held thereon. Any such communication or request should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issue of fact or law raised by the application which he desires to controvert. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington, D. C.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-802]

EQUITY CORP. ET AL.

NOTICE OF APPLICATION

OCTOBER 20, 1952.

In the matter of the Equity Corporation, Industrial Bank of Schenectady, and Earl L. Griswold; File No. 812-802.

Notice is hereby given that the Industrial Bank of Schenectady (Bank), 224 State Street, Schenectady, New York, has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission granting an exemption from the provisions of section 17 (a) (3) of the act so as to permit Earl L. Griswold to borrow money on a mortgage loan from the Bank in the proposed transaction hereinafter set forth.

The Equity Corporation (Equity), a registered investment company, is the owner and holder of a majority of the voting stock of The Morris Plan Corporation of America (Morris Plan) which in turn owns approximately 73 percent of the capital stock of the Bank. Both Equity and Morris Plan maintain offices at 103 Park Avenue, New York, New York. Griswold, residing at Pearse Road, Schenectady, New York, is a director and shareholder of the Bank, but does not own as much as 5 percent of the capital stock of the Bank. Under these circumstances, Griswold is an affiliated person of an affiliated person of Equity and under the provisions of section 17 (a) (3) it is unlawful for him to borrow money from the Bank unless an exemption is granted by the Commission pursuant to the authority vested in it by section 17 (b) of the act.

Mr. Griswold, a funeral director in Schenectady, proposes to borrow $25,000 repayable in approximately equal monthly installments over a period not to exceed ten years with interest at a rate not less than 4 percent per annum from the Bank for improvement on real estate located at 1867 State Street in Schenectady. The value of said property has been appraised at $65,000 after completion of the proposed construction, and it is proposed that the loan will be secured by a mortgage on the property. The Bank, a New York corporation, is authorized by state law to make loans upon the security of real property, subject to certain restrictions, none of which is applicable here. The Bank, at a meeting of directors has authorized the proposed loan by unanimous vote of all directors present, Griswold not voting.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after November 5, 1952, unless prior thereto a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than November 3, 1952, at 5:30 p. m., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request in writing that the Commission order a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Vesting Order 19041]

HERMANN GAENSLEN ET AL.

In re: Debts owing to Hermann Gaenslen and others.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the individuals whose names and last known addresses are set forth as owners in Exhibit A, attached hereto and by reference made a part hereof, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That the enterprises, whose names are set forth as owners in the aforesaid Exhibit A, are corporations, partnerships, associations or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That the persons whose names and last known addresses are set forth below:

Names and Last Known Addresses

Max Anton Paschen, Reutlingen, Charlottenstr. 75, Germany;

F. W. Koehler, Mainz, Kaiserstr. 29, Germany;

Daniel Voegeli, Spayer, Stübergasse 2, Germany;

on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

4. That the person who owns the property described in subparagraph 6 (e) hereof, who if an individual there is reasonable cause to believe, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and which, if a partnership, corporation, association or other business organization there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, was organized under the laws of and had its principal place of business in Germany, is and prior to January 1, 1947, was a national of a designated enemy country (Germany);

5. That Gotthard Allweiler Pumpenfabrik A. G., the last known address of which is Radolfzell, Germany, Aluminiumwerk Tscheulin G. m. b. H., the last known address of which is Teningen, Baden, Germany, and Guntter-Staib Verlag, the last known address of which is Biberach, Germany, are corporations, partnerships, associations or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

6. That the property described as follows:

a. Those certain debts or other obligations evidenced by the checks and drafts described in Exhibit A attached hereto and by reference made a part hereof, owned by the persons referred to therein as owners, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations and any and all rights in, and under said checks and drafts,

b. Those certain debts or other obligations evidenced by fifteen (15) American Express Company U. S. Dollar Travellers Cheques, numbered H5,133,-121/135, each in the amount of $20.00, owned by Max Anton Paschen, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations and any and all rights, in and under said cheques,

c. That certain debt or other obligation, matured or unmatured, evidenced by a promissory note, dated November 22, 1939, in the amount of $590.94, issued by Wilhelm Wild & Co., Inc., payable to and owned by F. W. Koehler, together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same, and any and all rights in and under said promissory note,

d. That certain debt or other obligation evidenced by one (1) American Express Company Money Order, numbered AL-1071063 dated November 2, 1939, in the amount of $20.10, payable to and owned by Danield Voegeli, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation and any and all rights in and under said money order,

e. That certain debt or other obligation matured or unmatured, evidenced by a promissory note dated March 16, 1932, payable at 250 West 94th Street, New York City, in the amount of $250.00, payable to Erna Hofman and owned by the person referred to in subparagraph 4 hereof, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation and any and all rights in and under said promissory note,

f. That certain debt or other obligation evidenced by one (1) American Express Company Money Order, numbered AK 5187209, dated February 28, 1940, in the amount of $11.03, payable to and owned by Guntter-Staib Verlag, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation and any and all rights in and under said money order,

g. That certain debt or other obligation evidenced by a Sola of Exchange D-42F—No. 121586 drawn on The Guaranty Trust Company of New York, dated September 20, 1939, in the amount of $129.31, payable to Gotthard Allweiler and owned by Gotthard Allweiler Pumpenfabrik A. G., together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation and any and all rights in and under said Sola of Exchange, and

h. Any and all rights and interests in and under 3 Trade Acceptances, drawn on Nicholas Gal, 103 Park Avenue, New York City, payable at J. Henry Schroder Banking Corporation to the order of Aluminiumwerk Tscheulin G. m. b. H., numbered, dated and in the amounts listed below:

Trade acceptance No.	Date	Amount
2	May 29, 1939	$477.00
3	June 7, 1939	504.42
4	June 14, 1939	366.22

said Acceptances owned by Aluminiumwerk Tscheulin G. m. b. H.,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

7. That the national interest of the United States requires that the persons referred to in subparagraphs 1, 2, and 4 and named in subparagraphs 3 and 5 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 21, 1952.

For the Attorney General.

[Vesting Order 16937, Amdt.]

DEUTSCHE REICHSBANK

In re: Securities owned by Deutsche Reichsbank. F-28-1282-A-4.

Vesting Order 16937, executed January 4, 1951, as amended, is hereby further amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the Deutsche Reichsbank, the last known address of which is Berlin, Germany, is a corporation, partnership, association, or other business organization, which on or since December 11, 1941, and prior to January 1, 1947, was organized under the laws of and had its principal place of business in Germany and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Those certain bonds described in Exhibit A, attached hereto and by reference made a part thereof, presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account number F 86224, entitled Deutsche Reichsbank, Wertpapieraebteilung, together with any and all rights thereunder and thereto,

b. Those certain shares of stock described in Exhibit B, attached hereto and by reference made a part hereof, presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account number F 86224, entitled, Deutsche Reichsbank, Wertpapieraebteilung, together with all declared and unpaid dividends thereon,

c. Those certain certificates of deposit described in Exhibit C, attached hereto and by reference made a part hereof, presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account number F 86224, entitled, "Deutsche Reichsbank, Wertpapieraebteilung, together with any and all rights thereunder and thereto,

d. Receipt for Mercantile Arcade & Office Bldg. 6½ percent Bonds numbered D 6522/5 and M 6829/31, registered in the name of Fred Tollner, with an aggregate value of $5,000, said receipt numbered 26767, and presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account number F 86224, entitled, Deutsche Reichsbank, Wertpapieraebteilung, together with any and all rights in, to and under the aforesaid receipt and the aforesaid bonds,

e. All rights and interest in, to and under a certificate for ten (10) shares no par value common stock of Electric Power & Light Corporation, 2 Rector Street, New York, New York (now dissolved), said certificate numbered 0123711, registered in the name of Miss Anna Prochnow, presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, in an account, Account Number F86224, entitled Deutsche Reichsbank, Wertpapieraebteilung, together with all declared and unpaid dividends thereon, and any and all liquidating dividends thereon,

f. Ten (10) shares of no par value common Class A new stock of General Gas & Electric Corporation, evidenced by certificate numbered G075115, registered in the name of Anna Prochnow, presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account Number F-86224, entitled Deutsche Reichsbank, Wertpapieraebteilung, together with all declared and unpaid dividends thereon, and any and all rights under a plan of reorganization of December 1, 1945,

g. One (1) Participation Certificate for two shares of no par value capital stock of Foreign Park Hotel Co., St. Louis, Missouri, said participation certificate numbered 938, registered in the name of Fred Tollner and presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account Number F-86224, entitled Deutsche Reichsbank, Wertpapieraebteilung, together with any and all rights in, to and under the aforesaid participation certificate, and

h. One (1) United States Customs House Receipt, bearing No. 6374, presently in the custody of the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in an account, Account Number S 63077/634, entitled Deutsche Reichsbank, said receipt covering a Certificate of Participation, numbered 2564, of the Labor National Bank, Paterson, New Jersey, registered in the name of Edward Theuer, said certificate of participation presently in the custody of the Federal Reserve Bank of New York, in a General Ruling No. 5 account, entitled "Secretary of the Treasury under Executive Order No. 8389, as amended," and any and all rights in, to and under the aforesaid receipt, and any and all rights in, to and under the aforesaid certificate of participation,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Deutsche Reichsbank, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person referred to in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "nationals" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 21, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1952 Honey Bulletin 1, Amdt. 3]

PART 624—HONEY

SUBPART—1952 HONEY PRICE SUPPORT PROGRAM

AVAILABILITY OF PRICE SUPPORT; WHEN TO APPLY

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 17 F. R. 3698, 17 F. R. 4285 and 17 F. R. 6610, containing the requirements with respect to the 1952 Honey Price Support Program are hereby amended as follows:

Paragraph (d) *When to apply* of § 624.302 *Availability of price support* is amended to extend the period during which loans and purchase agreements are available in certain States from October 31, 1952, to December 31, 1952, so that the paragraph reads as follows:

(d) *When to apply.* Loans and purchase agreements will be available from April 1, 1952, through December 31, 1952, in Florida, Georgia, South Carolina, Alabama, Mississippi, Louisiana, Texas, New Mexico, Arizona and California. In all other States, loans and purchase agreements will be available from July 1, 1952, through December 31, 1952. Applicable documents must be signed by the producer and delivered to the county committee not later than December 31, 1952.

(Sec. 4, 62 Stat. 1070 as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1446, 1421)

Issued this 22d day of October 1952.

[SEAL] ELMER F. KRUSE,
Vice President,
Commodity Credit Corporation.

Approved:

HAROLD K. HILL,
Acting President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[Amdt. 5]

PART 713—COUNTY AND COMMUNITY COMMITTEES

SUBPART—SELECTION AND FUNCTIONS OF PRODUCTION AND MARKETING ADMINISTRATION COUNTY AND COMMUNITY COMMITTEES

APPLICABILITY AND AREA DESIGNATIONS

By virtue of the authority vested in the Secretary of Agriculture by the Soil Conservation and Domestic Allotment Act, as amended, the regulations pertaining to the Selection and Functions of Production and Marketing Administration County and Community Committees, as amended (14 F. R. 5916, 15 F. R. 4262, 16 F. R. 6998, 17 F. R. 5057, 17 F. R. 5689), are hereby amended by revising the introductory paragraph and § 713.7 as follows:

The introductory uncodified paragraph of Federal Register Document 49-7835 (14 F. R. 5916) is amended by adding a new sentence at the end thereof, as follows: "The regulations in this subpart shall apply to the continental United States and the Territory of Alaska."

A new sentence is added to follow the first sentence of § 713.7 and the section is revised to read:

§ 713.7 *Determination of elective areas.* Each county shall be divided into local administrative areas, referred to in this subpart as "communities." The term "county" in the Territory of Alaska shall be the area so designated by the State Committee. The boundaries of the communities shall be fixed by the State Committee after considering any recommendations by the county committee. No such community shall include more than one county or parts of different counties.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret and apply 49 Stat. 1149, as amended; 16 U. S. C. 590h)

Done at Washington, D. C., this 23d day of October 1952. Witness my hand

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

PART 384—GENERAL ORDERS

MISCELLANEOUS AMENDMENTS

1. Section 372.3 *How to file an application for export license* is amended in the following particulars:

[1] This amendment was published in Current Export Bulletin No. 681, dated October 16, 1952.

Notes 4, 5, 6 and 7 following paragraph (c) *Information required* are renumbered respectively as follows: "5. *Preparation of Form IT–116.*", "6. *Assembly and submission of applications.*", "7. *Inquiries and correspondence.*", and "8. *Clearance by teletype.*"; and a new Note 4, *Preparation of Form IT–419 (revised April 1952)*, is added to read as follows:

4. *Preparation of Form IT–419 (revised April 1952).* The following instructions apply to the preparation of applications submitted on Form IT–419, Application for Export License (revised April 1952),[2] for all types of validated export licenses issued by the Department of Commerce, except as modified by special licensing procedures and provisions contained in Parts 372 through 375 of this subchapter. (See Notes 2 and 3 above for preparation of previous revisions of this form.)

Item 1: The date of the application must be shown.

Item 2: The applicant's reference number may be used for applicant's convenience.

Item 3: The country of final (ultimate) destination is to be entered, not a country through which the exportation may travel in transit to its final destination. A statement of ultimate destination and prohibition against diversion must be placed on shipper's export declaration, bills of lading, and commercial invoices for various export shipments as provided by § 381.4 of this chapter. Transshipment or diversion of commodities from country of final (ultimate) destination is a violation subject to the denial of export privileges and to criminal penalties, unless specifically authorized by the Office of International Trade.

Item 4: If a previous application covering this same transaction has been submitted, the OIT case number must be entered in this space. (To be answered only when the application covers the same transaction for which a previous application was returned without action, or rejected, by OIT. Exporters must not submit a duplicate application to cover any transaction for which an application for export license is still pending before OIT.)

Item 5: Enter the import permit number and/or MSA (or ECA) procurement authorization number, if required by specific regulations. If application is related to the Mutual Security Agency Program (formerly European Recovery Program), the identification number and symbol of the procurement authorization or loan authorization under which the foreign customer is entitled to import should be inserted, if known; if unknown or not yet assigned, so indicate.

Item 6: The name and address of the applicant must be entered in Item 6.

Item 7: The person named as ultimate consignee should be the person abroad who is actually to receive the material for the designated end use. A bank, freight forwarded, forwarding agent, or other intermediary is not acceptable as an ultimate consignee, but should be disclosed as the intermediate consignee.

Item 8: The intermediate consignee may be a bank, forwarding agent, or other intermediary in a foreign country who participates as an agent for the exporter or for the purchaser or ultimate consignee for the purpose of effecting delivery of the exportation to the purchaser or ultimate consignee. If no intermediary is to be used, state "None," if unknown at time of application, state "Unknown." In all cases the actual intermediate consignee (name and address) must be ascertained and disclosed on shipper's export declaration filed before exportation. In certain cases amendment of the license also is required.

Item 9: The name and address of the person, other than applicant, authorized by the applicant to receive the license, if issued, should be entered in this space.

Item 10: The person named as purchaser should be the person abroad who has entered into the export transaction with the applicant. If such person is the same as the ultimate consignee, applicant should state "Same."

Item 11 (a): Give the quantity to be shipped using units specified in Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States[3] (unless otherwise specified in this subchapter) and also in trade units where different.

Item 11 (b): Commodities must be described in terms which correspond with the commodity descriptions in Schedule B. Additional details must be furnished to the extent necessary for identification of the specific items so classified. (Include basic ingredients, composition, type, size, gauge, grade, horsepower, etc., where applicable. Show brand or trade names, catalog numbers, or other trade characteristics which will aid in exact identification of commodities.)

Item 11 (c): The Schedule B number, processing code, and related commodity group number, if any, must be shown in this column. (Unless the processing code is followed by a related commodity group number, a separate application must be filed for each entry on the Positive List of Commodities.)

Item 11 (d): Unit price should be shown except where a large variety of products within a single Schedule B classification makes such a breakdown extremely difficult. In such cases only total price need be shown. The applicant must show total price in the customary form of quotation such as f. o. b. (factory), f. a. s. (named port), c. i. f., or other form. The particular form of price quotation must be specified. If accepted order is involved, the price stated must be the export contract price, and the point of delivery must be clearly indicated. Where the normal trade practice in a given commodity makes it impracticable to establish a firm contract price, the precise terms upon which the price is to be ascertained and from which the contract price may be objectively determined must be stated on the application. A mere statement by the exporter of "market price, at the time of delivery of shipment" or other such general statement of price, will not be acceptable.

Item 12: If the applicant is exporting for other than his own account, the name and address of the foreign principal must be shown and an explanation of the transaction given in full.

Item 13, Availability of material to be exported: All applicable parts of item must be answered, showing the exact status of the applicant's procurement of the commodities to be exported. In the case of a producer, the approximate delivery date is the date on which the commodities will be available for export. If more than one delivery date is required for the commodities covered by the application, each date should be given, using a supplementary sheet, if necessary.

Applications for licenses to export certain commodities will be considered only when answers to item 13 indicate that the commodities will be available to the applicant within the normal validity period of licenses for such commodities, as set forth in § 372.11 (e), and other provisions shown in § 373.16 of this subchapter.

Item 14: End use of commodities covered by this application will be an important factor in determining issuance of license. Statement by ultimate consignee (and purchaser, if not same) as to ultimate destination and end use must be submitted for certain exportations as required by the regulations. (Applicant's reference to such statement does not relieve him of responsibility to fully disclose any additional or different information he may know.) Applicant should indicate clearly the end use for which material is to be exported, e. g.:

For purchaser's own personal use;

For resale in country of ultimate destination and consumption in that country;

For a service to be rendered, indicating how the item(s) described herein will be used in this service;

For new construction or expansion;

For maintenance, repair, or operation of existing facilities;

To enable the purchaser to produce the following needed materials or products for export to (insert country);

To be re-exported and, if so, to what country;

To fill a specific need endorsed as of high priority by the government of the receiving country, stating the need and the nature of the endorsement;

However, end-use statements consisting of brief outlines (such as above) are not considered sufficient in themselves. A complete and detailed description of end use is required.

Item 15: Application must be signed by applicant, or by an officer or duly authorized agent of the applicant. (If signed by agent of the applicant, title and firm name of agent must be shown.) The name of the applicant and the name and title of person who signs the application must also be typed or printed legibly in the space provided. Sign the original copy.

2. Section 373.24 *Statement of past participation in exports for certain commodities*, paragraph (b) *Commodities requiring statement of past participation* is amended by adding thereto a new subparagraph (8) to read as follows:

(8) *Commodities for which a Periodic Requirements license is requested.* The report on Form IT–821 shall cover the quantity of exports of the commodity (§ 376.51 of this subchapter, Supplement 1) shipped to each consignee during a period of two full years immediately preceding the submission of the certificate of qualification (Form IT–888) for the exportation of that commodity. The name and address of the consignee shall be shown under appropriate countries listed in item 4 (a) of Form IT–821.

3. Section 373.51 *Supplement 1; Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended in the following particulars:

a. The following entry and related submission dates for the Fourth Quarter 1952 are deleted:

[2] Filed as part of the original document.

[3] For sale by Superintendent of Documents, United States Government Printing Office, Washington 25, D. C., and at all field offices of the Department of Commerce.

Dept. of Commerce Schedule B No.	Commodity	Submission dates, fourth quarter 1952
618557	Copper-base alloy (including brass and bronze) plumbing fixtures and fittings (including pipe valves with working pressure not exceeding 125 p. s. i. W. O. G. ratings), and specially fabricated parts, n. e. c. (specify by name).	Sept. 8-Sept. 22, 1952.

b. The following submission dates for the First Quarter 1953 are added thereto:

Dept. of Commerce Schedule B No.	Commodity	Submission dates, first quarter 1953
503300 through 504100.	Lubricating oils and greases (for shipments to Burma, Ceylon, Taiwan, Indochina, Hong Kong, India, Macao, Federation of Malaya, Republic of Indonesia, Pakistan, Republic of the Philippines, Singapore, and Thailand (see § 373.8).	On or before Nov. 15, 1952.

4. The export regulations are further amended in the following particulars:

A new Part 376 is added thereto to read as follows:

PART 376—PERIODIC REQUIREMENTS LICENSE

Sec.
376.1 Periodic Requirements license.
376.2 Certificate of qualification for Periodic Requirements license.
376.3 Application for Periodic Requirements license.
376.4 Issuance of Periodic Requirements license.
376.5 Amendment of license.
376.51 Supplement 1; Commodities subject to Periodic Requirements license.

AUTHORITY: §§ 376.1 to 376.51 issued under sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR 1945 Supp.; E. C. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR 1948 Supp.

§ 376.1 *Periodic Requirements license*—(a) *General.* A procedure for a Periodic Requirements license (PRL) is hereby established. Under this procedure, a single application may be made to export commodities listed in § 376.51 at any time during the period authorized by that section to one or more named ultimate consignees at a named ultimate destination.

(b) *Applicability of PRL procedure.* Applications under this procedure will not be considered for the exportation of commodities to Hong Kong, Macao, Subgroup A countries, and to destinations specifically excluded by § 376.51.

(c) *Established trade relationships.* A PRL license is issued to cover only U. S. export transactions, in a commodity or group of commodities specified in § 376.51 between a U. S. exporter and one or more ultimate consignees who, with respect to that commodity, have an established trade experience with each other of at least two years' duration prior to the issuance of a Periodic Requirements license.

(d) *Waiver of order requirements.* In view of the limitations on the issuance of a Periodic Requirements license, OIT will permit application by an exporter for such a license in anticipation of future orders. The provisions of §§ 372.1 (e) and 373.1 (b) of this subchapter relating to orders are therefore waived with respect to applications for PRL licenses.

(e) *Historical trade pattern between exporters not a criterion.* The limitation on issuance of PRL licenses is not intended to restrict trade to any historic pattern with respect to the volume of trade or distribution between exporters. OIT will continue to issue individual licenses, and Blanket (BLT) licenses where applicable, for the export of commodities subject to the PRL procedure. Therefore, any exporter ineligible for a Periodic Requirements license by reason of paragraph (c) of this section may become eligible thereunder by experience developed through transactions in these commodities covered by other types of licenses.

(f) *Application for other validated license.* An exporter holding a Periodic Requirements license shall not apply for, nor will OIT issue, an individual or BLT license for any transaction involving a commodity and consignee covered by such PRL license.

NOTE: Exporters are advised not to apply for a PRL license to export commodities valued at less than $1,000 per calendar quarter. Generally such applications will be rejected with a recommendation that another form of license application be used.

§ 376.2 *Certificate of qualification for Periodic Requirements license*—(a) *Certificate of qualification required.* No application for a PRL license will be considered until a certificate of qualification, Form IT–888[4] shall have been issued. Consequently, Form IT–419 should not be submitted with the documents specified in paragraph (b) of this section when application for a certificate of qualification is made. Applications on Form IT–419 for individual or BLT export licenses may be submitted while an application for certificate of qualification is pending, but such applications must bear the notation "Certificate of qualification pending" in the column headed "Commodity Description."

(b) *How to apply for certificate of qualification.* Each application for certificate of qualification shall comprise the following documents:

(1) Form IT–888 (in three copies).

(2) Form IT–821, Data of Past Participation in Exports Questionnaire (in two copies). Both original forms shall be assembled together and both duplicate forms shall be assembled together. When approved or rejected, the triplicate Form IT–888 will be returned to the applicant with an indication of official action by OIT.

[4] Filed as part of the original document.

(c) *Preparation of documents.* The documents submitted by an applicant in connection with an application for certificate of qualification shall be prepared in accordance with the following instructions:

(1) *Form IT–888.* This form shall indicate the person to whom advice of OIT action is to be mailed; Schedule B number and processing code of commodity for which certificate of qualification is requested; total number of countries and total number of consignees to whom commodity is to be exported.

(2) *Form IT–821.* This form shall be filed in accordance with the provisions of § 373.24 (b) (8) of this subchapter for each named foreign consignee.

(d) *Notice of action.* (1) (i) When the application for certificate of qualification is approved by OIT, a Form IT–888 will be validated, and the OIT reference number in the upper right-hand corner of the form will become the official certificate of qualification (CQ) number. An application for a PRL license(s) to export the commodities to consignee(s) listed in the Form or Forms IT–821 may then be considered by OIT.

(ii) When an application is approved subject to modifications by OIT, such stipulations will be indicated on the reverse side of Form IT–888.

(iii) When an application is returned without action by OIT, reason(s) will be stated on the reverse side of Form IT–888.

(iv) When an application is rejected by OIT, the reason for such action will be shown on the reverse side of Form IT–888. The applicant may apply for individual validated licenses for transactions covered by the rejected CQ application.

(2) The approval of an application does not imply continued approval. The OIT may withdraw an approval previously granted at any time it may consider it desirable to do so. Similarly, the granting of an approval for a stated period does not imply that future applications will be approved.

§ 376.3 *Application for Periodic Requirements license*—(a) *Submission date.* Applications for PRL licenses should be submitted on Form IT–419 not later than 30 days preceding the period for which the license is to be effective. Applications submitted later may be considered, but any application filed less than 15 days prior to the beginning of the period will automatically be returned without action.

(b) *Identification of PRL application.* When filing Form IT–419 for a PRL license, the applicant should identify it as such by inserting the CQ number in the column headed "Commodity Description," in the following manner: "Certificate of Qualification No. CQ * * *"

(c) *Application for export to several consignees.* (1) The exporter must apply for, and, if approved, OIT will issue a separate PRL license for exportation of the specified commodity to each country of ultimate destination. Exportations to more than one consignee located in the same country may be included in a single application, provided all consignees are eligible for licensing under the PRL procedure (i. e., are covered by the certificate of qualification). In making an application to export to two or more consignees in the same country of destination the applicant shall show:

(i) In the ultimate consignee column, "See attached list of consignees."

(ii) In the quantity column, the estimated total quantity of the commodities to be exported to the country of destination, based upon distribution ratios submitted on Forms IT–888 and IT–821, followed by the notation "Breakdown of quantity per consignee included in attached list of consignees."

(iii) In the value column, the actual or estimated unit price and the aggregate value of the material to be exported.

(2) Issuance of a certificate of qualification does not assure approval of any Periodic Requirements license for which application is made. PRL applications are subject to individual consideration by the Office of International Trade, and must meet all the criteria of validated individual and Blanket license applications with the exceptions noted in § 376.1 (d). As a general rule, OIT will restrict the quantity approved in a PRL license to the level of previous business between exporter and importer as evidenced by the Form IT–821 on which certificate of qualification was approved.

NOTE: As indicated in § 376.4 (c), except as modified by this part, all the provisions of Parts 370 through 399 of this subchapter are applicable to any application for a Periodic Requirements license and any license issued pursuant thereto. Among other things, these regulations require that:

(1) Each application for a Periodic Requirements license to an R country must be supported either by an import certificate or ultimate consignee/purchaser statement (§§ 373.34 and 372.3 (d) respectively of this subchapter).

(2) Groups of applications from a single exporter may be forwarded to OIT for handling in accordance with the unit process procedure set forth in § 372.7 of this subchapter.

(3) Commodities may be grouped in accordance with the provisions of § 372.2 (c) of this subchapter.

§ 376.4 *Issuance of Periodic Requirements license.* PRL licenses will be issued on Form IT-628 (export license document), and will bear the identifying words "Periodic Requirements License" below the validation stamp.

(a) *Validity period.* The validity period of PRL license will be for the period indicated on Supplement 1, and the effective dates of validity will be indicated on Form IT-628.

(b) *Presentation of licenses to customs.* The Periodic Requirements license shall be deposited with the collector of customs at the port of exit through which the greater portion of shipments thereunder will move. Upon request of the licensee, collectors may authorize movement of a portion of the commodity from another port in accordance with the procedures established in § 379.1 (a) (4) of this subchapter.

(c) *Effect of other provisions.* Except as modified by this part, all of the provisions of Parts 370 through 399 of this subchapter are applicable to any application for a Periodic Requirements license and any license issued pursuant thereto.

§ 376.5 *Amendment of license.* If the amount licensed under a PRL license proves insufficient to meet an exporter's requirements for any country, he may request an increase in the quantity authorized for export under such license. This should be done by requesting amendments of the appropriate Periodic Requirements license on Form IT-763, in accordance with the provisions of § 380.2 of this subchapter.

§ 376.51 *Supplement No. 1.*

COMMODITIES SUBJECT TO PERIODIC REQUIREMENTS LICENCE

Applications for certificates of qualification for licensing under the PRL procedure established in this part may be submitted for exportation of the following commodities to destinations other than Hong Kong, Macao, those in Subgroup A, and any destination specifically excepted below for a particular commodity.

Schedule B No.	Commodity description	License validity period[1]	Excepted destinations (in addition to Hong Kong, Macao, and those in Subgroup A)[2]
503300	Red and pale oils (including all red or pale lubricating oils, except those oils intended for use in internal combustion engines) (see 503910 and 504030) (bbl. of 42 gal.).		
503400	Black oils (including all black and dark green oils, except those intended for use in steam cylinders) (bbl. of 42 gal.).		
503510	Cylinder, bright stock (including bright stock and industrial lubricating oils which are predominantly bright stock and have a Saybolt Universal Viscosity at 210° F. of 95 seconds or more) (bbl. of 42 gal.).		
503520	Cylinder, steam-refined stocks (including cylinder stock, steam cylinder oil, gear, and other lubricating oils consisting principally of such stocks) (bbl. of 42 gal.).		
503800	Insulating or transformer oils		
503910	Diesel engine lubricating oils (report Diesel fuel oil in 503000) (bbl. of 42 gal.).		
503920	Turbine lubricating oil (bbl. of 42 gal.)		
503940	Other industrial engine lubricating oils (bbl. of 42 gal.) (specify by name).		
503990	Industrial lubricating oils, n. e. c. (bbl. of 42 gal.) (specify by name).		
504005	Aviation engine lubricating oils (bbl. of 42 gal.)		
504030	Automotive engine lubricating oils (bbl. of 42 gal.)		
504050	Automotive gear oils (bbl. of 42 gal.) (specify by kind and grade).		
504090	Lubricating oils, n. e. c., except in containers of 4 oz. or less (specify by name).		
504095	Cutting oils and compounds, petroleum base (report cutting oils and compounds, except petroleum base in 825000) (specify by name).		
504100	Lubricating greases, except graphite lubricants (report graphite lubricants in 548095).		
504200	Petrolatum and petroleum jelly (all grades)		
504400	Microcrystalline wax		
504500	Emulsion wax, chief value paraffin wax; hydrolatum; and slop wax.		
504600	Benowax; Pennwax; Cabax Wax; Diax-O-Wax; and Velatrum wax.		
504710	Unmanufactured petroleum asphalt (report natural asphalt in 547000 and 547100).		
504720	Petroleum asphalt manufactures, n. e. c. (report asphalt tile in 546000) (specify by name).		
504800	Petroleum coke, including petroleum coke flour		
545600	Brake lining, molded and semi-molded		
545700	Brake lining, woven		
545800	Clutch facing, molded, semi-molded, and woven, including clutch lining.		
701300	Automotive storage batteries, 6- and 12-volt, lead-acid type.		
709030	Spark plugs, automobiles, bus, tractor, truck, and industrial engine type.		
709220	Starting, lighting, and ignition equipment, n. e. c., and specially fabricated parts and accessories, n. e. c.: automobile, bus, tractor, truck, and industrial engine type (specify by name).		
709865	Automotive ignition wire in coils, reels, or spools in lengths of 100 feet or less; other rubber and/or synthetic rubber-insulated wire and cable (except building wire and cable), with plain, braided, leaded, or armored finishes (specify by name).		
715900	Marine engine accessories, and specially fabricated parts (specify Diesel or gasoline); parts, n. e. c., specially fabricated for internal combustion locomotive engines (report bp. and r. p. m. of engines requiring parts); other parts and accessories, n. e. c., specially fabricated for internal combustion engines, n. e. c.		
720210	Parts, accessories and attachments, n. e. c., specially fabricated for power excavators included on the Positive List under Schedule B Nos. 720112 through 720142, and 720160.		
721540	Parts and accessories, n. e. c., specially fabricated for the equipment included on the Positive List under Schedule B Nos. 721510 and 721535.		
722022	Parts and accessories, n. e. c., specially fabricated for: scrapers, graders, and pneumatic-tired soil compactors; and self-propelled, steel-tired road rollers.		
722025	Parts and accessories, n. e. c., specially fabricated for contractors' wheel type tractors.		

[1] Unless otherwise indicated in this column, the validity period of PRL licenses covering the commodities listed herein is 6 months.

[2] Unless otherwise indicated in this column, excepted destinations include only Hong Kong, Macao, and those in Subgroup A.

Schedule B No.	Commodity description	License validity period [1]	Excepted destinations (in addition to Hong Kong, Macao, and those in Subgroup A) [2]
722035	Parts and accessories, n. e. c., specially fabricated for: angle dozers; brush cutters; brushrakes; bulldozers, clamshell attachments; ditching attachments; excavating attachments; hydraulic controls for tracklaying tractors; loading attachments; ripper attachments; rooter attachments; snowplow attachments; trailbuilders; treedozers; trenching attachments; and winches for tracklaying tractors.		
722045	Specially fabricated parts for: contractors' trucks, dump wagons, quarry trailers, and other off-the-road haulage vehicles; subgraders.		
722045	Specially fabricated parts for: logging arches and sulkies; and rotary snowplows.		
723060	Specially fabricated parts, n. e. c., for cranes included on the Positive List under Schedule B Nos. 723010 through 723070.		
725050	Parts, accessories, and attachments, n. e. c., specially fabricated for fully- or partially-powered industrial trucks and tractors.		
770775	Specially fabricated parts for types of blowers included on the Positive List under Schedule B Nos. 770700 through 770775.		
770990	Parts, n. e. c., specially fabricated for air compressors included on the Positive List under Schedule B Nos. 770400 through 770615.		
770990	Parts, n. e. c., specially fabricated for pumps classified under Schedule B Nos. 770900 through 770950, and 770980, irrespective of delivery pressures, operating temperatures and materials used in their fabrication.		
788901	Parts and accessories, n. e. c., specially fabricated for tracklaying tractors.		
791210	Parts for commercial automobiles, trucks, and busses; engines for assembly; motor truck and bus engines; Diesel and semi-Diesel.		
791220	Parts for commercial automobiles, trucks, and busses; engines for assembly; motor truck and bus engines; gasoline; gas and kerosene, over 10 horsepower.		
791230	Parts for commercial automobiles, trucks, and busses; engines for assembly; passenger car engines.		
791240	Engines for replacement; Diesel and semi-Diesel		
791250	Engines for replacement; gasoline; gas and kerosene, over 10 horsepower.		
791255	Bodies, truck and bus, for assembly		
791260	Bodies, truck and bus, for replacement		
791265	Bodies, automobiles, for assembly		
791270	Bodies, automobiles, for replacement		
791275	Knee-action springs (helical or coil), for replacement.		
791280	Leaf springs and spring leaves, for replacement		
792610	Parts and accessories, n. e. c. specially fabricated, for assembly; except: air cleaners, ammeters; brake extension handles; bumpers; clearance lights; dashboard plugs; door locks; fog lights; heaters; horns; hub caps; lighters; oil filter clamps; oil filters; oil pressure switches; oil purifiers; oil rectifiers; parking lights; power take-offs for trucks; radiator caps; radiator ornaments; reflex signals, road traffic; shock absorbers; speedometers; spotlights; stop lights; taximeb meters; third axle assemblies; tire locks; windshield wipers; and specially fabricated parts for the excepted items.		
792620	Parts, n. e. c., specially fabricated, for spares, replacement, or manufacture into larger components, except: air cleaners; brake extension handles; bumpers; door locks, horns, hub caps; oil filter clamps; oil filters; oil purifiers; oil rectifiers; parking lights; radiator caps; radiator ornaments; reflex signs, road traffic; stop lights; third axle assemblies; windshield wipers; and specially fabricated parts for the excepted items.		
829910	Antiknock compounds except of petroleum origin (report compounds of petroleum origin in 501400).		

[1] Unless otherwise indicated in this column, the validity period of PRL licenses covering the commodities listed herein is 6 months.

[2] Unless otherwise indicated in this column, excepted destinations include only Hong Kong, Macao, and those in Subgroup A.

5. Section 382.51 *Table of compliance orders currently in effect denying export privileges*, paragraph (b) *Table of compliance orders* is amended by adding thereto the following entries:

Name and address	Effective date of order	Expiration date of order	Export privileges affected	Federal Register citation
Baker Street Trading Co., Ltd., 245 Knightsbridge, London, S. W. 7, England.	3-25-52	1-31-53	General and validated licenses, all commodities, any destination. (Company related to Ivan Otto Schwarz and/or Arnost Polak, which see.)	17 F. R. 2792, 3-29-52.
B. P. S. Precision Products Co. Ltd., 245 Knightsbridge, London, S. W. 7, England.	3-25-52	1-31-53	do	17 F. R. 2792, 3-29-52.
Harding Wire Products Co., Ltd., 245 Knightsbridge, London, S. W. 7, England.	3-25-52	1-31-53	do	17 F. R. 2792, 3-29-52.
Hartley, Stewart, & Co., Ltd., 245 Knightsbridge, London, S. W. 7, England.	3-25-52	1-31-53	do	17 F. R. 2792, 3-29-52.
Peerless Precision Products Co., Ltd., 245 Knightsbridge, London, S. W. 7, England.	3-25-52	1-31-53	do	17 F. R. 2792, 3-29-52.

6. Section 384.1 *Commodity advisory panels and committees* is amended to read as follows:

§ 384.1 *Commodity advisory panels and committees*—(a) *Purpose.* (1) The purpose of this section is to establish a procedure whereby the Office of International Trade of the Department of Commerce may consult with the export trade and obtain advice and recommendations concerning export licensing policies and procedures under the export control law.

(2) The provisions of this section are not to be construed as prohibiting individuals or groups of individuals from seeking discussions with employees of the Office of International Trade.

(b) *Organization of the panels and committees*—(1) *Representation by commodities.* It is intended, for convenient operation and size, to provide representation of the export trade by commodities. Wherever practicable, segments of the trade handling different commodities (or groups of commodities) will be represented by separate panels or committees. Where panels are formed, the membership may be called upon to meet as a whole, or committees may be organized from among the members to consider specific problems as they arise. The panels and committees will be selected by the Office of International Trade.

(2) *Standards of selection.* As the purpose of the panels and committees is to give advice and make recommendations to the Office of International Trade affecting the trade as a whole, or segments thereof, the members of the panels and committees will be selected in an effort to obtain advice and recommendations which will represent the viewpoint of all parts of the trade involved. The panels and committees will be formed of the minimum number of persons necessary to represent a fair cross-section of the trade in the commodity (or groups of commodities) from the standpoints of (i) large, medium, and small-sized companies, (ii) geographical distribution, (iii) segments of the export trade involved—e. g., by types of exporters (such as manufacturers, manufacturers' representatives, merchant exporters, combination export managers, etc.), (iv) by types of commodities, and (v) trade association membership and non-membership.

(3) *Special conferences.* If export trade advice is sought on a special problem, and there is no foreseeable need to seek the continuing advice of the trade a special conference may be called. Except for omission of formal establishment of a panel or committee, the procedure for calling and conducting a special conference shall be the same as set forth under the provisions of this section.

(4) *Representation of small business.* In forming commodity advisory panels and committees the Office of International Trade will be governed by the principles of Senate Concurrent Resolution 14 (80th Cong.) and the President's memorandum to heads of Executive Departments and Agencies of December 12, 1947, with respect to the representation of small business on Government committees.

(5) *No compensation allowed.* Members of the panels and committees pay their own expenses and are entitled to no compensation for their services.

(c) *Functions of the panels and committees*—(1) *Authorized.* The functions of commodity advisory panels and committees formed by the Office of International Trade under this section are to give advice and make recommendations through one or more commodity advisory committees to the Office of International Trade, at committee meetings, on export licensing policies and procedures affecting those parts of the export trade represented by the committee. Where deemed appropriate, in view of the nature of a specific licensing policy or procedure, the Office of International Trade will authorize the holding of full panel meetings.

(2) *Unauthorized activities.* (i) No other activities by these commodity advisory panels and committees or by their members are sponsored or authorized by the Department of Commerce or the Office of International Trade. No meetings of these commodity advisory panels and committees, or any part thereof, are sponsored or authorized by the Department of Commerce or the Office of International Trade unless such meetings are called and conducted by appropriate officials of the Office of International Trade in accordance with the provisions of this section.

(ii) The panels and committees are not authorized to determine policies for the export trade nor are they authorized to compel or coerce any person to comply with any request, order, or regulation made by the Department of Commerce or Office of International Trade.

(d) *Meetings of the panels and committees*—(1) *Calling of meetings.* (i) Commodity advisory panel meetings and commodity advisory committee meetings will be called by the Office of International Trade in connection with the promulgation of export licensing policies or procedures affecting the parts of the export trade represented by the panel or committee, as the case may be, except where the necessary timing or other public exigency does not permit such prior consultation.

(ii) A meeting of a trade advisory panel or committee may be proposed by any three of its members. Such proposal should be addressed to the Government presiding officer and state the reasons for proposing the meeting. The Government presiding officer is responsible for determining whether a meeting should be called.

(2) *Agenda and presiding officer.* (i) The agenda of the meeting will be prepared by the Office of International Trade. A representative of the Office of International Trade will preside at every panel meeting and every committee meeting.

(ii) Prior to a meeting, members of a panel or committee may propose subjects for the agenda to the Government presiding officer, but during a meeting may not introduce any subject not included on the agenda.

(3) *Attendance at meetings.* (i) Attendance at meetings shall be limited to duly appointed members and invited Government representatives. The attendance of other persons at meetings, such as industry or trade observers or alternates for accredited members, is not authorized. If it is essential for the purpose of a particular meeting to invite a non-member expert or technician who can provide advice concerning a specialized subject, a special written invitation from the Office of International Trade will be required requesting the attendance of such person at the meeting.

(ii) A meeting of a segment or segments of an advisory panel or committee may be called to discuss subjects of interest only to that part of the trade, provided that the segment of the trade is representative, or that additional representatives are appointed in order to make it representative.

(4) *Conduct during meetings.* During a meeting, members are restricted to expressions of advice and recommendations and may not make resolutions nor shall they submit or request submission of a vote regarding a recommendation under discussion.

(5) *Minutes.* The Office of International Trade will keep minutes of each meeting and where practicable will make summaries available to members of the commodity advisory panel, the committee, the export trade, and the press.

This amendment shall become effective as of October 16, 1952.

LORING K. MACY,
Director,
Office of International Trade.

[F. R. Doc. 52-11484; Filed, Oct. 27, 1952; 8:45 a. m.]

[6th Gen. Rev. of Export Regs., Amdt. P. L. 13 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related Commodity group	GLV dollar value limits	Validated license required
711900	Parts, n. e. c., specially fabricated for combustion gas turbine engines, except aircraft (specify by name) (see § 370.5 of this subchapter). [1]	----------	GIEQ	100	RO

[1] The commodities included in this Positive List entry are subject to IC/DV procedure (see § 373.34 of this subchapter).

This part of the amendment shall become effective as of 12:01 a. m., October 23, 1952.

2. The following revisions are made in commodity descriptions. These revisions include changes in validated license control where indicated:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
711510	Steam engines and turbines, n. e. c., and parts, n. e. c.: Combustion gas turbine engines, except aircraft (see § 370.5 of this subchapter). [1]	No.	GIEQ	None	RO
813593	Inorganic medicinal chemicals, n. e. c., bulk, for which export controls on other grades are indicated elsewhere on the Positive List (specify by name) (report dosage forms in 812400 for liquids, 812790 for solids, 813591 for ampoules). [2]	----------	DRUG	Export controls applicable to each chemical under this classification are the same as the controls for other grades of the same chemical indicated elsewhere on the Positive List. †	
813595	Organic medicinal chemicals, n. e. c., bulk (coal tar origin included), for which export controls on other grades are indicated elsewhere on the Positive List (specify by name) (report dosage forms in 812400 for liquids 812790 for solids, 813591 for ampoules). [2]	----------	DRUG	Export controls applicable to each chemical under this classification are the same as the controls for other grades of the same chemical indicated elsewhere on the Positive List. †	

†A single shipment hereunder may include two or more chemicals, each up to its GLV limit.

[1] The above revised entry is substituted for the entry presently on the Positive List under Schedule B No. 711510. The effect of this amendment is to change the control from R to RO and to clarify the description. The commodities included in this Positive List entry are subject to the IC/DV procedure (see § 373.34 of this subchapter).

[2] The above entry is substituted for the entry presently on the Positive List under this Schedule B number. The effect of this revision is to clarify the instructions for determining validated license requirements.

[1] This amendment was published in Current Export Bulletin No. 681, dated October 16, 1952.

the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.101 is amended to read:

§ 600.101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska).* That airspace over United States territory from the intersection of the southeast course of the San Diego, Calif., radio range and the United States-Mexican Border via the San Diego, Calif., radio range station; the intersection of the northwest course of the San Diego, Calif., radio range and the southeast course of the Long Beach, Calif., radio range; Long Beach, Calif., radio range station; Los Angeles, Calif., radio range station; Newhall, Calif., radio range station; Bakersfield, Calif., radio range station; Fresno Calif. radio range station; Sacramento, Calif., radio range station; Williams, Calif., radio range station; Red Bluff, Calif., radio range station; Fort Jones, Calif., radio range station; Medford, Oreg., radio range station; Eugene, Oreg., radio range station; Portland, Oreg., radio range station; Toledo, Wash., radio range station which overlaps the portion excluding the portion which overlaps the Fort Lewis, Wash., danger area; Seattle, Wash., radio range station; Everett, Wash., radio range station; Bellingham, Wash., radio range station to the Vancouver, British Columbia, radio range station. That airspace over United States territory from the Sandspit, British Columbia, radio range station to the intersection of the northwest course of the Sandspit, British Columbia, radio range and the southwest course of the Annette Island, Alaska, radio range; Annette Island, Alaska, radio Sitka (Biorka Island), Alaska, radio range station; Yakutat, Alaska radio range station; the intersection of the northwest course of the Yakutat, Alaska, radio range and the southeast course of the Hinchinbrook, Alaska, radio range; Hinchinbrook, Alaska, radio range station; the intersection of the northwest course of the Hinchinbrook, Alaska, radio range and the southeast course of the Anchorage, Alaska, radio range; Anchorage, Alaska, radio range station; Skwentna, Alaska, radio range station; Puntilla Lake, Alaska, nondirectional radio beacon; McGrath, Alaska, radio range station; Unalakleet, Alaska, radio range station to the Nome, Alaska, radio range station.

2. Section 600.102 *Amber civil airway No. 2 (Long Beach, Calif., to Point Barrow, Alaska)* is amended by changing the Alaskan portion to read: "From the intersection of the northwest course of the Snag, Yukon Territory, radio range and the United States-Canadian Border via the Northway, Alaska, radio range station; Big Delta, Alaska, radio range station; the intersection of the northwest course of the Big Delta, Alaska, radio range and the east course of the Fairbanks, Alaska, radio range; Fairbanks, Alaska, radio range station; Betties, Alaska, radio range station; Umiat, Alaska, radio range station to the Point Barrow, Alaska, radio range station."

3. Section 600.227 *Red civil airway No. 27 (Atlanta, Ga., to Detroit, Mich.)* is amended by changing the first portion to read: "From the intersection of the south course of the Atlanta, Ga., NAS radio range and the northeast course of the Campbelliton, Ga., radio range via the Atlanta, Ga., NAS radio range station; the intersection of the north course with the south course of the Atlanta, Ga., NAS radio range and the northeast course of the Knoxville, Tenn., radio range";

4. Section 600.621 *Blue civil airway No. 21 (Louisville, Ky., to Erie, Pa.)* is amended by correcting name of facility at Parkersburg, W. Va. to read: "Parkersburg, W. Va., VHF radio range station."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001, e. s. t., October 28, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-11548; Filed, Oct. 27, 1952; 8:46 a. m.]

[Amdt. 79]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 600 is amended as follows:

1. Section 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)* is amended by adding a first portion to read: "From the intersection of the Oakland omnirange 217° True and the Salinas omnirange 319° True radials (Half Moon Bay intersection) via the Oakland, Calif., omnirange station; Sacramento, Calif., omnirange station;"

2. Section 600.6025 *VOR civil airway No. 25 (Oakland, Calif., to Ellensburg, Wash.)* is amended by changing the first portion to read: "From the Oakland, Calif., omnirange station via the Ukiah, Calif., omnirange station to the Red Bluff, Calif., omnirange station."

3. Section 600.6027 is amended to read:

§ 600.6027 *VOR civil airway No. 27 (Santa Barbara, Calif., to Medford, Oreg.).* From the Santa Barbara, Calif., omnirange station via the Paso Robles, Calif., omnirange station including a west alternate via the intersection of the Santa Barbara omnirange 304° True and the Paso Robles omnirange 169° True radials; intersection of the Paso Robles omnirange 335° True and the Salinas omnirange 134° True radials; Salinas, Calif., omnirange station; San Francisco, Calif., omnirange station including an east alternate from the Paso Robles, Calif., omnirange station to the San Francisco, Calif., omnirange station via the intersection of the Paso Robles omnirange 335° True and the San Francisco omnirange 141° True radials; intersection of the San Francisco omnirange 304° True and the Ukiah omnirange 162° True radials; Ukiah, Calif., omnirange station, including an east alternate from the San Francisco, Calif., omnirange station to the Ukiah, Calif., omnirange station via the Oakland, Calif., omnirange station and the intersection of the Oakland omnirange 305° True and the Ukiah omnirange 162° True radials, and also a west alternate from the Salinas, Calif., omnirange station to the Ukiah, Calif., omnirange station via the intersection of the Salinas omnirange 319° True and the Ukiah omnirange 162° True radials; Fortuna, Calif., omnirange station; Crescent City, Calif., omnirange station to the Medford, Oreg., omnirange station.

4. Section 600.6109 is added to read:

§ 600.6109 *VOR civil airway No. 109 (Paso Robles, Calif., to Fresno, Calif.).* From the Paso Robles, Calif., omnirange station via the Coalinga, Calif., omnirange station to the Fresno, Calif., omnirange station.

5. Section 600.6110 is amended to read:

§ 600.6110 *VOR civil airway No. 110 (San Francisco, Calif., to Modesto, Calif.).* From the point of intersection of the San Francisco omnirange 218° True and the Salinas omnirange 319° True radials (Saratoga Intersection) via the San Francisco, Calif., omnirange station; intersection of the San Francisco omnirange 038° True and the Modesto omnirange 273° True radials (Altamont Intersection) to the Modesto, Calif., omnirange station.

6. Section 600.6111 is added to read:

§ 600.6111 *VOR civil airway No. 111 (Salinas, Calif., to Los Banos, Calif.).* From the Salinas, Calif., omnirange station to the intersection of the San Francisco omnirange 111° True and the Salinas omnirange 062° True radials (Los Banos Intersection).

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. October 30, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-11547; Filed, Oct. 27, 1952; 8:46 a. m.]

[Amdt. 83]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required. Part 601 is amended as follows:

1. Section 601.17 is amended to read:

§ 601.17 *Green civil airway No. 7 control areas (Nome, Alaska, to Fairbanks, Alaska).* All of Green civil airway No. 7.

2. Section 601.101 is amended to read:

§ 601.101 *Amber civil airway No. 1 control areas (United States-Mexican Border to Nome, Alaska).* All of Amber civil airway No. 1.

3. Section 601.102 *Amber civil airway No. 2 control areas (Long Beach, Calif., to Point Barrow, Alaska)* is amended by changing the last portion to read: "From the intersection of the northwest course of the Snag, Yukon Territory, radio range station and the United States-Canadian Border to a line extended at right angles through a point 25 miles northwest of the Fairbanks, Alaska, radio range station."

4. Section 601.1052 is amended to read:

§ 601.1052 *Control area extension (Atlanta, Ga.).* All that airspace within a 50-mile radius of the Atlanta radio range station excluding the portion which overlaps caution areas.

5. Section 601.1135 *Control area extension (Atlanta, Ga.)* is revoked.

6. Section 601.1301 *Control area extension (Winslow, Ariz.)* is amended by adding the following portion to present control area extension: "and within 5 miles either side of the 300° True and 120° True radials of the Winslow, Ariz., omnirange extending from the omnirange station to points 25 miles northwest and southeast."

7. Section 601.1984 *Five-mile radius zones* is amended by adding the following airports:

Unalakleet, Alaska: Unalakleet Airport.
Moses Point, Alaska: Moses Point Airport.

8. Section 601.2222 *Austin, Tex., control zone* is amended by changing the portion on the northwest course of the Austin radio range to read: "within 2 miles either side of the northwest course of the Austin, Tex., radio range extending from the radio range station to a point 10 miles northwest."

9. Section 601.4013 *Green civil airway No. 3 (San Francisco, Calif., to New York, N. Y.)* is amended by deleting the following reporting point: "the intersection of the east course of the Philipsburg, Pa., radio range and the south course of the Williamsport, Pa., radio range;" and by adding the following reporting point in lieu thereof: "Selinsgrove, Pa., nondirectional radio beacon;".

10. Section 601.4017 *Green civil airway No. 7 (Nome, Alaska, to Fairbanks, Alaska)* is amended by adding the following reporting points at beginning of airway: "Moses Point, Alaska, radio range station; the intersection of the east course of the Moses Point, Alaska, radio range and the north course of the Unalakleet, Alaska, radio range;".

11. Section 601.4101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska)* is amended after "McGrath, Alaska, radio range station;" by adding the following reporting point: "Unalakleet, Alaska, radio range station;"

12. Section 601.4102 *Amber civil airway No. 2 (Long Beach, Calif., to Point Barrow, Alaska)* is amended by deleting the following reporting point: "The intersection of the northwest course of the Northway, Alaska, radio range and the northeast course of the Tanacross, Alaska, radio range;"

13. Section 601.5001 *Other reporting points* is amended by adding the following reporting points:

Abeam Annette intersection. The intersection of the southwest course of the Annette, Alaska, radio range and the centerline of the Anchorage-Sandspit route.

Abeam Sitka intersection. The intersection of the southwest course of the Sitka, Alaska, radio range and the centerline of the Anchorage-Sandspit route.

Abeam Gustavus intersection. The intersection of the southwest course of the Gustavus, Alaska, radio range and the centerline of the Anchorage-Sandspit route.

Abeam Yakutat intersection. The intersection of the southwest course of the Yakutat, Alaska, radio range and the centerline of the Anchorage-Sandspit route.

Abeam Yakataga intersection. The intersection of the centerline of the Anchorage-Sandspit route and a line bearing 90° therefrom and lying over the Yakataga, Alaska, radio range station.

---

1 A single shipment hereunder may include two or more chemicals, each up to its GLV limit.
2 The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 829070.
The effect of this revision is to clarify the regulations governing validated license requirements.
3 For instructions with respect to shipping containers see Schedule B Nos. 61001 or 61012.
4 The above revised entry is substituted for the twelfth entry presently on the Positive List under Schedule B No. 829060. The effect of this revision is to establish new instructions for determining validated license requirements in place of the present R control.

This part of the amendment shall become effective as of 12:01 a. m., October 23, 1952.

3. The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
829670	Reagent chemicals for laboratory use (C. P., U. S. P., N. F., A. C. S., or other recognized reagent grades only) for which export controls on other grades are the same as the controls for the grades indicated elsewhere on the Positive List (see 371.3(b) of this subchapter) (specify by name) (formerly 815400) [1]	.....	ORGN	Export controls applicable to each chemical under this classification are the same as the controls for other grades of the same chemical indicated elsewhere on the Positive List	Yes.
829090	Chemical specialty compounds, n. e. c., containing 80 percent or more by quantity of any item or combination of items specified elsewhere on the Positive List.[4]	.....	ORGN	100	Yes, where any component thereof is listed on the Positive List as subject to R control, otherwise subject to R control.

carrier on or before November 15, 1952, requires a validated license for export.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59; 3 CFR, 1948 Supp.)

LORING K. MACY,
Director, Office of International Trade.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 78]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of

Dept. of Commerce Schedule B No.	Commodity
611900	Hollow ware, solid or plated, and specialty fabricated parts, n. e. c.: Aluminum.
612030	Cooking, kitchen, and hospital utensils, and specialty fabricated parts, n. e. c.: Stamped and spun: Aluminum.

This part of the amendment shall become effective as of October 16, 1952.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations, as a result of changes set forth in Parts 1 and 2 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., October 23, 1952, may be exported under the previous general license provisions up to and including November 15, 1952. Any such shipment not laden aboard the exporting

14. Section 601.7001 *VOR reporting points* is amended by adding the following reporting point:

Fairville intersection. The intersection of Rochester, N. Y., omnirange 091° True and the Elmira, N. Y., omnirange 356° True radials.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. October 28, 1952.

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required. Part 601 is amended as follows:

1. Section 601.1193 is amended to read:

§ 601.1193 *Control area extension (Monterey, Calif.).* The area bounded by a line 5 miles southeast of and parallel to the 229° True radial of the Salinas VOR radio range extending from the western boundary of VOR civil airway No. 27W to a point at latitude 36°27'30" N., longitude 121°52'30" W; thence to a point 3 nautical miles offshore and 5 statute miles southeast of the southwest course of the Moffett, Calif., NAS radio range; thence in a northeasterly direction parallel to the southwest course of the Moffett NAS radio range to the western boundary of VOR civil airway No. 27W; thence southeasterly along the western boundary of VOR civil airway No. 27W to the point of beginning, excluding the area below 3000 feet within the boundaries of the Ford Ord Danger Area.

2. Section 601.6027 is amended to read:

§ 601.6027 *VOR civil airway No. 27 control areas (Santa Barbara, Calif., to Medford, Oreg.).* All of VOR civil airway No. 27 including east and west alternates.

3. Section 601.6109 is added to read:

§ 601.6109 *VOR civil airway No. 109 control areas (Paso Robles, Calif., to Fresno, Calif.).* All of VOR civil airway No. 109.

4. Section 601.6111 is added to read:

§ 601.6111 *VOR civil airway No. 111 control areas (Salinas, Calif., to Los Banos, Calif.).* All of VOR civil airway No. 111.

5. Section 601.7001 *VOR reporting points* is amended by adding the following reporting points:

Coalinga, Calif., omnirange station.
Crescent City, Calif., omnirange station.
Fortuna, Calif., omnirange station.
Fresno, Calif., omnirange station.
Medford, Oreg., omnirange station.
Oakland, Calif., omnirange station.
Ontario, Calif., omnirange station.
Paso Robles, Calif., omnirange station.
Point Reyes Intersection: Intersection of the Oakland, Calif., omnirange 305° True and the Ukiah, Calif., omnirange 165° True radials.
Red Bluff, Calif., omnirange station.
Sacramento, Calif., omnirange station.
Salinas, Calif., omnirange station.
San Francisco, Calif., omnirange station.
Santa Barbara, Calif., omnirange station.
Ukiah, Calif., omnirange station.

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
Esler Field (Alexandria) (D-423) (Beaumont Chart).	N boundary: lat. 31°24'35" N.; S boundary: lat. 31°23'15" N.; E boundary: long. 92°16'50" W.; W boundary: long. 92°18'50" W.	Surface to 6,000 feet.	0700 to 1800, daily (to be used under weather conditions of ceiling at least 6,000 feet and visibility at least 8 miles as reported by the weather reporting station at Alexandria AFB). [Amdt. 21]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURE

LOW FREQUENCY RANGE AND AUTOMATIC DIRECTION FINDING PROCEDURES

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 609 is amended as follows:

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. October 30, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-11546; Filed, Oct. 27, 1952; 8:45 a. m.]

[Amdt. 33]

PART 608—DANGER AREAS

ESLER FIELD (ALEXANDRIA), LOUISIANA

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required. Part 608 is amended as follows:

In § 608.26, an Esler Field (Alexandria), Louisiana (D-423), area is added to read:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LOW FREQUENCY RANGE PROCEDURES

Station; frequency; identification; class	Minimum initial approach altitude from fix, direction and radio fix indicated	Final approach range course	Procedure turn minimum at distances from radio range station	Minimum altitude over range, final approach (ft.) TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53127]

PART 3—DOCUMENTATION OF VESSELS

RENEWAL OF LICENSE

The purpose of the following amendment is to provide for a form of notification to the owner of a vessel of the date of expiration of the license of the vessel at an appropriate time in advance of the date of expiration.

Section 3.25, Customs Regulations of 1943 (19 CFR 3.25), is amended by deleting the parenthetical matter at the end of paragraph (e) and by adding a new paragraph (f) at the end reading as follows:

§ 3.25 *Renewal of license.* • • •

(f) The collector at the home port of a licensed or enrolled and licensed vessel shall transmit a notice of the date upon which the license will expire and the form of oath to be executed by the master on customs Form 1280 to the last-known address of the owner of the vessel not more than 40 days prior to its expiration nor less than 21 days prior thereto. Neither the failure of a collector to transmit such notice and form of oath nor the fact that the master did not receive it shall be deemed to excuse the master from the penalty or penalties provided by law.

(R. S. 161, sec. 2, 23 Stat. 118, R. S. 4325, as amended, 4326, 4327, 4498, as amended; 5 U. S. C. 22, 46 U. S. C. 2, 267-279, 496, sec. 102, Reorganization Plan No. 3 of 1946; 3 CFR 1946 Supp., Ch. IV. Reorganization Plan No. 26 of 1950; 3 CFR 1950 Supp., Ch. III)

This amendment shall be effective on and after January 1, 1953.

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: October 20, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter E—Organized Reserves

PART 561—OFFICER'S RESERVE CORPS

APPOINTMENTS

Sections 561.5 (c), 561.8 (c), and 561.13 (b) (1) (ix) and (b) (4) are amended to read as follows:

§ 561.5 *Authority to appoint.* • • •

(c) Appointments in the Military Intelligence and Army Security sections will not be made until Department of the Army approval has been obtained from The Adjutant General. Appointments in the Chaplains section will not be made until verification of the applicant's education and ecclesiastical qualifications has been received from The Adjutant General. Appointment of noncitizens of the United States who have not declared their intention to become a citizen thereof will not be made until Department of the Army approval has been obtained from The Adjutant General.

• • • • •

§ 561.8 *Eligibility requirements.* • • •

(c) *Citizenship.* (1) A male applicant must be a citizen of the United States, its Territories or possessions, or have made a declaration of intention to become a citizen thereof, except for a noncitizen who had prior service in the Armed Forces of the United States, or who is serving in the active military service of the Army, who must meet the following requirements:

(i) Must be residing or serving in the Army within the continental United States.

(ii) Must lawfully have entered the United States for permanent residence, except that an individual in the active military service of the Army who entered such service outside the United States and was ordered to the United States by competent authority for military duty is exempt from this requirement.

(2) A female applicant must be a citizen of the United States, its Territories or possessions.

• • • • •

§ 561.13 *Applications.* • • •

(b) *Applications and allied papers.* • • •

(1) *For applicants in general.* • • •

(ix) Individuals who are not citizens of the United States by birth will submit a certificate signed by an officer of the Army or a notary public, reading substantially as indicated in (*a*), (*b*), (*c*), or (*d*) of this subdivision, as appropriate. In no circumstances will facsimiles or copies, photostatic or otherwise, of naturalization certificates, declarations of intentions, certificates of citizenship, or Alien Registration Receipt cards be made as the reproducing of these certificates or any parts thereof constitutes a felony. See act of June 25, 1948 (62 Stat. 767; 18 U. S. C. 1426 (h)).

(*a*) For those who are citizens by naturalization.

I certify that I have this date seen the original certificate of citizenship. No. ____ (or certified copy of the court order establishing citizenship) stating that _____ (Name) was admitted to United States citizenship by the court of _____ at _____, on _____ (City and State) (Date)

(*b*) For those who claim citizenship through naturalization of parent.

I certify that I have this date seen the original certificate of citizenship, No. _____ issued by the Immigration and Naturalization Service, Department of Justice, stating that _____ (Name) acquired citizenship on _____ (Date)

(*c*) For those who have declared their intention of becoming a citizen of the United States.

I certify that I have this date seen a copy of the declaration of intention to become a citizen of the United States, No. _____, made by _____ (Name) on _____ (Date), in the court of _____ (City and State). This copy was impressed with the seal and contained the signature of the clerk of the _____ court at _____ (City and State)

NOTE: Declarations of intention are valid for 7 years.

(*d*) For noncitizens (see §§ 561.2 to 561.10 for those eligible) who have not declared their intention of becoming a citizen of the United States:

I certify that I have this date seen the original Alien Registration Receipt Card Form No. I-151, bearing No. _____ issued to _____ (Name) on _____ (Date). Or if individual does not possess the Alien Registration Receipt Card Form No. I-151, army commanders processing the application will communicate with the District Director, Immigration and Naturalization Service of the district in which the alien's residence is located and request a statement as to lawful entry of the individual into the United States for permanent residence. Statement of lawful entry will be made a part of the application. The above is not required for a noncitizen serving in the active military service in the Army within the United States who entered such service outside the United States and was ordered by competent authority to the United States for military service. For such individual the army commander processing the application will verify the fact that the individual was ordered to the United States by competent military orders, and a statement of such verification will be attached to the application stating such details as classification will permit.

• • • • •

(4) *For member of Reserve Components of the United States Air Force, Navy, Marine Corps, the Coast Guard, and United States Public Health Service.* (i) Forms required by subparagraph (1) of this paragraph.

(ii) A certificate, signed by an official of the parent service authorized to accept resignations, that the applicant will be released from his/her current status if tendered an appointment in the Officers Reserve Corps of the Army.

[F. R. Doc. 52-11639; Filed, Oct. 27, 1952; 11:34 a. m.]

[Ceiling Price Regulation 172, Amdt. 1]

CPR 172—Distillers' Dried Products

DISTILLERS' SOLUBLES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 172 is hereby issued.

STATEMENT OF CONSIDERATIONS

Information received by this Office since the issuance of CPR 172 indicates that the ceiling prices for distillers' solubles should not be set by reference to protein content. Solubles are primarily used in starter and breeder rations for livestock and poultry because of the complex B, G, and other vitamin content of the product. Protein content is not a proper index of the value of solubles, and soluble prices in the industry have not been customarily set on the basis of protein content. Moreover, maintenance of the protein content specified in the regulation would oblige processors who customarily produce solubles at less than this specified protein content to reduce their ceiling prices to levels below that which the value of their products justify. This amendment, therefore, dispenses with any standard protein content for solubles. Henceforth, there will be a flat ceiling price for solubles and no discounts on a protein content basis are required.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended. Although consultation with trade association representatives was not practicable in the formulation of this amendment, there has been consultation with industry representatives, to the extent practicable, and consideration was given to their recommendations.

AMENDATORY PROVISIONS

Table I of section 2 (a) (1) of Ceiling Price Regulation 172 is amended by deleting the standard protein content for distillers' solubles. As amended, Table I reads as follows:

TABLE I—PROCESSORS' BASING POINT PRICES PER TON

Products	Standard protein content	Area A Basing point prices, Peoria, Ill.	Area B Basing point prices, Louisville, Ky.	Area C Basing point prices, Kansas City, Mo., and Omaha, Nebr.
	Percent			
Distillers' dried grains (light grains)	21	$65.00	$69.50	$63.25

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

This amendment shall become effective October 23, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 23, 1952.

[F. R. Doc. 52-11560; Filed, Oct. 23, 1952; 11:51 a. m.]

[General Overriding Regulation 32, Special Order 8]

GOR 32—Adjustment of Ceiling Prices for Materials to the Minimum Prices Fixed by State Laws

SO 8—Sellers of Cigarettes in Tennessee

CEILING PRICES RAISED TO CONFORM WITH TENNESSEE UNFAIR CIGARETTE SALES ACT

Statement of considerations. This special order raises the ceiling prices of Tennessee cigarette sellers above those previously established under regulations of the Office of Price Stabilization (OPS) where necessary to conform to the mimimum prices required to be charged by the Tennessee Unfair Cigarette Sales Act. This action does not presently affect ceiling prices of Tennessee cigarette sellers which are at or above the minimum prices required by that Act on the effective date of this special order. Provision is also made for the adjustment of ceiling prices of cigarette sellers subject to the Tennessee Unfair Cigarette Sales Act in the event of a change in the minimum prices computed pursuant to that Act and in some instances for the establishment of ceiling prices for new brands of cigarettes sold in Tennessee.

This special order is issued pursuant to section 5 of General Overriding Regulation (GOR) 32. That regulation was issued by the OPS to conform to the requirements of section 402 (1) of the Defense Production Act of 1950, as amended. GOR 32 sets forth certain facts which must be shown to exist in a particular State before the OPS is required by the above-noted statutory provision to raise ceiling prices to the minimum prices required by the law of that State.

It appears from the information contained in the application of the Commissioner of the Department of Finance and Taxation of Tennessee that the Tennessee Unfair Cigarette Sales Act was in effect and enforced on June 30, 1952, and on August 15, 1952 (the date of application); that the act has not been held invalid by any court of competent jurisdiction; and that the ceiling prices of some cigarette sellers in the State of Tennessee are lower than the minimum sales prices required to be charged by that act.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of GOR 32, this special order is hereby issued.

1. Ceiling prices of cigarette sellers subject to the Tennessee Unfair Cigarette Sales Act, hereinafter referred to as the Tennessee Act, which are below the minimum sales prices computed pursuant to that act, as specified in paragraph 5 hereof, are hereby raised to those minimum sales prices.

2. If the minimum prices for brands of cigarettes sold in Tennessee on August 15, 1952 (the date of the application submitted by the Commissioner of the Department of Finance and Taxation of Tennessee, hereinafter referred to as the Tax Commissioner, under GOR 32), have increased after that date pursuant to the Tennessee Act, such higher minimum prices shall become ceiling prices as hereinafter specified in this paragraph, upon the sending of a report by the Tax Commissioner by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. That report will indicate the reason for the change as well as the computations by which the new required minimum prices have been determined and will list the new prices for various brands of cigarettes. The higher minimum prices so reported shall be established as ceiling prices for the sellers affected by paragraph 1 hereof and any other seller subject to the Tennessee Act whose ceiling prices would, as a result of such change, be below the new required minimum prices. If the minimum prices for brands of cigarettes sold in Tennessee on August 15, 1952 are decreased after that date pursuant to the Tennessee Act, ceiling prices of the sellers affected by paragraph 1 hereof shall be established at the new required minimum prices. However, where such lower minimum prices are below the ceiling prices in effect immediately prior to the date of this special order, these ceiling prices shall be in effect after such change in the minimum prices.

3. If new brands of cigarettes are sold in Tennessee after August 15, 1952, the cigarette sellers subject to the Tennessee act who are unable to compute ceiling prices for the new brands pursuant to section 5 of the General Ceiling Price Regulation (because their comparison brands are not priced under section 3 of the General Ceiling Price Regulation but are priced under paragraph 1 or 2 of this special order) shall take as their ceiling prices for such new brands the minimum sales prices computed for them in accordance with the Tennessee act. These prices will be established as ceiling prices for such cigarette sellers upon the sending of a report by the Tax Commissioner by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. This report will set forth the brand names of the cigarettes and the minimum sales prices required to be charged for them in accordance with the Tennessee act and will indicate how these minimum prices were computed.

4. Nothing in this special order shall prevent a cigarette seller subject to the Tennessee act whose ceiling prices would be affected by the Tax Commissioner's filing the report set forth in paragraph 2 or 3 hereof, from filing such report in his own behalf. The individual seller may use as his ceiling prices the minimum prices required by the Tennessee act upon his mailing of such report unless and until such seller is notified by the OPS that the reported prices are disapproved or that further information is required. In the event of a request for further information, the reported minimum prices shall not be used as ceiling prices until such further information is sent by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C.

5. As used in this special order, the term "Tennessee Unfair Cigarette Sales Act" shall mean that Act as amended up to June 30, 1952 (House Bill No. 413, Chapter No. 68 of the Public Acts of Tennessee for 1949).

6. This special order or any provision hereof may be revoked, suspended, or amended by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This special order is effective October 28, 1952.

NOTE: The record-keeping and reporting requirements of this special order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 27, 1952.

Chapter X—Defense Solid Fuels Administration, Department of the Interior

[Solid Fuels Order 4, as amended October 25, 1952]

SFO-4—Distribution of Bituminous Coal

The action of the Wage Stabilization Board in regard to the National Bituminous Coal Wage Agreement of 1950 as amended September 29, 1952, has been followed by work stoppages at most of the bituminous coal mines whose operators were signators to that agreement. In addition, work stoppages have occurred at many mines whose employees are not members of the United Mine Workers of America. The cessation of production at these mines, if continued, will create shortages in the supply of bituminous coal for the military programs in support of national security and for essential civilian needs. Accordingly, this amended order is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order it was impracticable to consult with industry representatives because of the need for immediate action.

Sec.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61, 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this amended order does.* Order SFO-4, issued October 19, 1952, prohibited shipment in railroad cars after 12:01 a. m., October 19, 1952, except as specifically directed by DSFA, of bituminous coal produced at a mine, the operator of which is a signator to the National Bituminous Coal Wage Agreement of 1950 as amended September 29, 1952, and effective October 1, 1952, with the United Mine Workers of America. The ruling of the Wage Stabilization Board concerning the National Bituminous Coal Wage Agreement has been followed by stoppages of production not only at mines whose employees were members of the United Mine Workers of America but at many other mines whose employees were not members of that union. Accordingly, Order SFO-4 is hereby amended to make it applicable to all coal mines at which production has ceased because of a work stoppage.

SEC. 2. *Definitions.* As used in this order:

(a) "DSFA" means Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C.

(b) "Bituminous coal" includes all forms of bituminous, sub-bituminous, and lignitic coals.

(c) "Person" means any individual, firm, partnership, corporation, association, or any other organized group of persons.

(d) "Shipper" means any person who ships bituminous coal produced at an affected coal mine, as defined in section 2 (f), in railroad cars from a coal mine, loading ramp, coal preparation plant, scales, classification or assembly yards between mines and scales, designated mine tracks, mine sidings or hold points.

(e) "Coal mine" means any open pit, underground or any other type of operation conducted for the primary purpose of producing bituminous coal.

(f) "Affected coal mine" means a bituminous coal mine at which production has ceased because of a work stoppage.

(g) "Loading ramp" means any facility for the loading of bituminous coal from trucks into railroad cars for rail shipment.

(h) "Coal preparation plant" means a facility for the cleaning, sizing, or otherwise preparing bituminous coal for shipment in raidroad cars.

(i) "Designated mine track; mine sidings or hold point" means a point where a specific number of cars may be held without billing free of demurrage.

(j) "Area Distribution Manager" means the person appointed by Defense Solid Fuels Administration as its temporary representative in a specified area for the period this order remains in effect. The names and addresses of Area Distribution Managers and the territories over which they have jurisdiction are shown in Appendix A to this order.

(k) "Railroad" means any common carrier by railroad subject to the jurisdiction of the Interstate Commerce Commission.

SEC. 3. *Restrictions on shipments of bituminous coal.* Except as provided in section 5 of this order, no shipper shall ship or deliver to any railroad for shipment in railroad cars any bituminous coal produced at an affected mine as described in section 2 (f).

SEC. 4. *Railroads prohibited from accepting bituminous coal for shipment.* Pursuant to an ICC Service Order, each railroad subject to such service order will be prohibited after 12:01 a. m., October 21, 1952, from accepting for shipment over its lines any car of bituminous coal from any shipper, as defined in section 2 (d), unless the waybill or forwarding instructions covering the shipments contains a certification by the shipper substantially as set forth in section 8.

SEC. 5. *Exceptions.* The provisions of this order shall not apply to:

(a) Coal required by the operator of the producing coal mine for the operation of his power plant.

(b) Coal which is consigned to lake ports specifically for use as vessel fuel.

(c) Coal which is consigned to an installation of the Department of Defense, or of the Atomic Energy Commission: *Provided*, That the Contracting Officer for that installation shall certify to the shipper that he has less than 10 days' supply on hand.

(d) Double screened coal which is consigned to retail dealers, provided that prior to shipment the retail dealer shall certify to the shipper that he has less than 10 days' supply on hand.

(e) Any shipment which may be specifically authorized by the Defense Solid Fuels Administration.

SEC. 6. *Report to Area Distribution Manager.* Each shipper shall report by letter or telegram before noon of the day following the day on which the work stoppage occurs to the Area Distribution Manager having jurisdiction over the area in which his mine, loading ramp, coal preparation plant, or designated hold point, is located, the number of unbilled cars of bituminous coal by type of car and size of coal which he has on hand, together with the name of the railroad, or railroads, upon which his facility is located. Shippers who make shipments under the exceptions provided in sections 5 (a), 5 (b), 5 (c), or 5 (d) of this order shall report by letter to the Area Distribution Manager on the day following such shipment the names and addresses of the consignees and the number of cars and size of coal shipped to each.

SEC. 7. *Shipment of unbilled cars of coal held pursuant to this order.* To assure the most efficient and equitable distribution of the available supply of bituminous coal in the interest of national defense and public health and welfare, DSFA will direct shipments of coal held on tracks in accordance with this order by individual directives issued pursuant to DSFA Order SFO–2. Such directives shall be in the form of a letter or telegram and must be fully complied with. Any person receiving such a directive requiring delivery of bituminous coal by him shall immediately acknowledge to DSFA receipt of the directive and shall indicate his ability to comply: *Provided, however*, That no shipper shall be required to deliver bituminous coal to any other person at the direction of the DSFA Administrator unless such other person makes arrangements for payment satisfactory to the shipper to whom the directive is issued. The terms proposed by the shipper shall not be more stringent than those he offers to his customers of like class in the normal course of his business, and the price charged shall not be higher than the applicable ceiling price established by the Office of Price Stabilization.

SEC. 8. *Certification that shipment is made pursuant to the terms of this order.* Each shipper who makes a shipment of bituminous coal by railroad after 12:01 a. m., October 19, 1952, shall place upon the waybill or forwarding instructions a certification substantially as follows:

This shipment is made pursuant to Directive No. ------ issued by DSFA under Order SFO–4.

SEC. 9. *How a consumer may obtain coal.* Any consumer of bituminous coal who is urgently in need of coal and who is unable to obtain coal from his normal source of supply because of a work stoppage at the mine where such coal is produced may apply to the Area Distribution Manager or DSFA for priority assistance. Such application may be in the form of a letter or telegram which gives the applicant's name and address, the name and address of his normal source of supply, size and type of coal required, the number of tons and the number of days' supply he has on hand, the purpose for which the coal is to be used, the nature of his business, and evidence of its essentiality to the national defense program or national health or welfare. The application should be directed to the Area Distribution Manager, at the address shown on Appendix A, or Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C. It shall be the policy of DSFA to allocate and distribute the available supply of coal accumulated in railroad cars pursuant to this order on the basis of need and essentiality. An applicant to whom an allocation is made will be informed by telegram the name and the address of the shipper who has been directed to make shipment to him. It will then be the obligation of the applicant to communicate with the shipper and arrange for suitable terms of payment.

SEC. 10. *Applications for adjustment or exception.* Any shipper subject to any provision of this order may file a request for adjustment or exception on the ground that such provision works an undue hardship upon him, not suffered generally by other shippers, and that its enforcement against him would not be in the interest of the national defense or in the public interest. Requests for adjustment or exception may be either in the form of a letter or telegram and must set forth in detail all facts upon which they are based.

SEC. 11. *Exemptions from damages or penalties.* No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with this order or any directive issued under it or under DSFA Order SFO–2.

SEC. 12. *Violations.* Any person who wilfully fails to comply with the provisions of this order or with any directive issued under this order or DSFA Order SFO–2, or who wilfully conceals a material fact or furnishes false information in the course of operation under this order or any directive issued pursuant to this order or DSFA Order SFO–2, is guilty of a crime and upon conviction may be punished by fine or imprisonment of both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of solid fuels or using facilities under priority or allocation control and to deprive him of priorities assistance.

SEC. 13. *Communications.* All communications concerning this order or any directive issued pursuant to this order shall be addressed to "Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C."

NOTE: All reporting requirements of this order have been approved by the Bureau of Budget in accordance with the Federal Reporta Act of 1942.

This amended order shall take effect at 12:01 a. m., October 25, 1952.

DEFENSE SOLIDS FUELS ADMINISTRATION,
CHAS. W. CONNOR,
Defense Solids Fuels Administrator.

APPENDIX A

The Area Distribution Managers and the districts they will cover are as follows:

District 1 (eastern Pennsylvania, Maryland, and Grant, Mineral, and Tucker Counties of West Virginia): F. Wallace Krater, Central Pennsylvania Coal Producers Association, Pennsylvania Electric Building, Altoona, Pa. Telephone: Altoona 3–8175.

District 2 (western Pennsylvania): H. A. Sutter, Western Pennsylvania Coal Operators Association, Oliver Building, Pittsburgh, Pa. Telephone: Court 1–2446.

District 3 (northern West Virginia): Daniel E. Cronin, Fairmont Coal Bureau, Peoples Building, Fairmont, W. Va. Telephone: Fairmont 4230.

District 4 (Ohio) and District 6 (West Virginia Panhandle): Ezra Van Horn, Ohio Coal Association, NBC Building, Cleveland, Ohio. Telephone: Prospect 1–8233.

District 7 (low volatile coal producing areas of Virginia and West Virginia): Dan Carroll (Room 605, Appalachian Building), Bluefield, W. Va. Telephone: Bluefield 8149.

District 8 (high volatile coal producing areas of West Virginia, eastern Kentucky, southwest Virginia, North Carolina, and Tennessee): Goodwyn Holmes, Appalachian Coals Inc., Cincinnati, Ohio. Telephone: Main 6677.

District 10 (Illinois): J. R. Henderson, Illinois Coal Producers Advisory Association, 105 West Monroe, Chicago, Ill. Telephone: Franklin 2–7952.

District 11 (Indiana): C. C. Lydick, Coal Trade Association of Indiana, 632 Cherry Street, Terre Haute, Ind. Telephone Crawford 1353.

District 13 (Alabama, Georgia, and southeastern Tennessee): Northeast Cross, 300 Transportation Building, Birmingham, Ala. Telephone: 54–6287.

Area offices will be established and Area Distribution Managers will be appointed for other Districts if need is demonstrated. Shippers of coal produced in mines which are located in a District for which no Area Distribution Manager has been appointed shall make reports required under section 6 of this order, or applications for adjustment or exception as provided for in section 10 of this order, to the Administrator, Defense Solid Fuels Administration, Washington 25, D. C. Similarly, consumers whose normal source of supply is a mine located in a District for which no Area Distribution Manager has been appointed should address requests for assistance under section 9 of this order to the Administrator, Defense Solid Fuels Administration, Washington 25, D. C.

Reports required under section 6 of this order from shippers of coal produced in a District for which no Area Distribution Manager has been appointed should be mailed not later than the day after the day on which the work stoppage occurs.

[F. R. Doc. 52–11636; Filed, Oct. 27, 1952; 11:00 a. m.]

Chapter XI—Defense Electric Power Administration, Department of the Interior

[DEPA Order EO–5]

EO–5—LIMITATION ON DELIVERIES OF ELECTRIC ENERGY IN PACIFIC NORTHWEST UNDER CONTRACTS ENTERED INTO AFTER SEPTEMBER 1, 1952

An electric power deficiency in the Pacific Northwest requires conservation of electric power. Efforts must be made to prevent this shortage from being intensified. To assure adequate availability of electric power for essential civilian services and necessary defense production, the supply of electric power being delivered under commitments entered into by electric utilities with large new consumers after it became apparent that an electric power shortage might exist in the Pacific Northwest must be curtailed.

This order is necessary and appropriate to promote the national defense. Industry representatives, including trade association representatives, have been consulted in connection with its formulation, and their recommendations have been given consideration. The order is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended.

Sec.
1. What this order does.
2. Definitions.
3. Limitation on power deliveries under new contracts.
4. Applications for adjustment or exception.
5. Violations.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended; 50 U. S. C. App. 2071, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp., E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.

SECTION 1. *What this order does.* This order prohibits electric power deliveries to large power consumers under new contracts entered into after September 1, 1952.

SEC. 2. *Definitions.* For the purpose of this order:

(a) "Shortage area" means all of the State of Washington and those portions of Northern and Western Oregon, Northern Idaho and Western Montana within the service areas of the electric utilities named in Appendix A to this order.

(b) "Electric utility" means any person designated in Appendix A, and any person located in the shortage area, supplying, or having facilities built for supplying, electric energy directly or indirectly for general use by the public or, in the case of a cooperative, for use by its members.

SEC. 3. *Limitation on power deliveries under new contracts.* An electric utility shall not deliver under a new contract entered into after September 1, 1952, electric power to any consumer in the shortage area using in excess of 50,000 kilowatt hours per week, provided that this prohibition shall not apply in the case of consumers to whom power was being delivered by such electric utility on September 1, 1952.

SEC. 4. *Applications for adjustment or exception.* Any electric utility affected by this order which considers that its application would work an exceptional and unreasonable hardship on it or would interfere with military needs, defense production or essential civilian services may appeal for relief to the Defense Electric Power Administrator, who may grant such special exemptions or take such other action as may be consistent with the purposes of this order.

SEC. 5. *Violations.* Any person who wilfully violates any provision of this order or direction relating thereto or any other order or direction of DEPA, or who wilfully conceals a material fact or furnishes false information in the course of operation under this order, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials (including electric energy) or of using facilities under priority or allocation control and to deprive him of further priorities assistance.

This order shall take effect on October 29, 1952.

JAMES F. FAIRMAN,
Administrator, Defense Electric Power Administration.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 6—UNITED STATES GOVERNMENT LIFE INSURANCE

MISCELLANEOUS AMENDMENTS

1. The centerhead immediately preceding § 6.202 is amended to read: "Disability Insurance Claims".

2. Sections 6.202, 6.204, and 6.205 are revised to read as follows:

§ 6.202 *Claim for disability benefits under insurance.* A claim for total disability or total permanent disability benefits under a contract of insurance is any writing which alleges total disability or total permanent disability at a time when the contract was in force or which uses words showing an intention to claim total disability or total permanent disability insurance benefits. However, the claimant may be required to furnish a statement in support of his claim on forms provided by the Veterans' Administration, and such additional information concerning his industrial activities and physical and mental condition as may be required by the Veterans' Administration.

§ 6.204 *Appeal from decision of disability insurance claims service or disability insurance claims division.* Where the disability insurance claims service in central office or the disability insurance claims division, insurance service (Washington), finds that total disability or total permanent disability does not exist as alleged in a claim for disability insurance benefits, or where the disability insurance claims division in a district office finds that total disability does not exist as alleged in a claim for disability insurance benefits, such denial shall be final. However, a veteran or his authorized representative shall have the right to file an application for review on appeal to the Administrator of Veterans' Affairs within 1 year from the date of mailing of notice of the decision of the disability insurance claims service, central office, the disability insurance claims division, insurance service (Washington), or the district office disability insurance claims division. Any new and material evidence must be submitted within a period of 1 year or prior to the consideration of the appeal. Such appeal must be in writing and otherwise comply with the regulations governing appeals to the Administrator. An application for review on appeal filed with the activity which entered the denial which is postmarked prior to the expiration of the 1 year period will be accepted as having been filed within the time limit.

§ 6.205 *Ratings for insurance benefits not applicable for disability pension or compensation.* Since decisions of the disability insurance claims service in central office, the disability insurance claims division, insurance service (Washington), or the disability insurance claims division in a district office determining the existence or nonexistence of total or total permanent disability for insurance purposes and decisions of rating agencies determining the existence or nonexistence of total or total permanent disability for pension or compensation purposes are based upon distinctly dissimilar standards, it follows that the former cannot be determinative for pension or compensation purposes and the latter cannot be determinative for insurance purposes.

3. A new § 6.206 is added as follows:

§ 6.206 *Reconsideration of insurance claims where suits have terminated in favor of the Government.* Where suit has been brought against the United States under section 19 of the World War Veterans Act, 1924, as amended, for the benefits of yearly renewable term insurance, automatic, or United States Government life insurance because of alleged total permanent disability, or total disability as defined in the total disability provision attached to United States Government life insurance policies, or under section 617 of the National Service Life Insurance Act of 1940, as amended, and judgment on the merits in favor of the Government has been entered, the claim will be reconsidered only where it is definitely shown that new and material evidence has been produced which was not presented to the court, or that manifest error was made.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 6, Pub. Law 23, 82d Cong.; 38 U. S. C. 11a, 426, 707. Interpret or apply secs. 300, 301, 43 Stat. 624, as amended; 38 U. S. C. 511, 512)

This regulation is effective October 28, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 721]

CORN

NOTICE OF DETERMINATIONS PERTAINING TO MARKETING QUOTAS AND ACREAGE ALLOTMENTS FOR 1953 CROP OF CORN

Section 322 of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1322), requires the Secretary of Agriculture to determine whether marketing quotas shall be in effect on the 1953 crop of corn, and if quotas are required, to proclaim such quotas not later than November 15, 1952. Sections 327 and 328 of the act, as amended (7 U. S. C. 1327, 1328), require the Secretary, not later than February 1, 1953, to proclaim the commercial corn-producing area and the acreage allotment of corn for the calendar year 1953.

In preparing to make such determination and issue such proclamations, the Secretary has under consideration sections 304 and 371 (b) of the act, which provide, in effect, that the acreage allotment and marketing quota provisions of the act shall not be invoked with respect to any one of the several commodities to which farm marketing quotas are applicable in case the Secretary finds that acreage allotments and marketing quotas should be dispensed with to protect consumers, to meet a national emergency, or to provide a material increase in exports.

Prior to the determination and proclamations with respect to marketing quotas and acreage allotments for the 1953 crop of corn, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than 15 days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 23d day of October 1952.

[SEAL] HAROLD K. HILL,
Acting Administrator.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

GENERAL RULES AND REGULATIONS UNDER SECURITIES EXCHANGE ACT OF 1934

REPORTS OF DIRECTORS, OFFICERS, AND PRINCIPAL STOCKHOLDERS

Notice is hereby given that the Securities and Exchange Commission, acting pursuant to the authority vested in it by the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 3 (b), 16 (b), and 23 (a) thereof, has under consideration two proposals for the adoption of rules under sections 16 (a) and 16 (b).

One proposal, which deals with the filing of reports required by section 16 (a) of the Securities Exchange Act of 1934 with respect to the ownership of securities held in trusts, is the product of suggestions and criticisms received by the Commission upon Securities Exchange Act Release No. 4720, another proposal dealing with the filing of reports under section 16 (a) with respect to ownership of securities held in trust. Since the new proposal differs substantially from the earlier one, it was deemed advisable to offer it, too, for comment by interested persons.

The new proposal provides that any trustee who was an officer, director or ten percent stockholder of a company with any class of equity securities registered on a national securities exchange shall be required to file the reports specified by section 16 (a) of the Securities Exchange Act where either he or members of his immediate family have a vested interest in the income or corpus of the trust. It also provides that beneficiaries of trusts and settlors with the power of revocation should also file the reports under some circumstances. They are exempted from sections 16 (a) and 16 (b) where less than twenty percent of the securities of the trust having a readily ascertainable market value consist of equity securities with respect to which a report would otherwise be required and when the trust transactions are entered into without their advice or knowledge. Like the proposal contained in Securities Exchange Act Release No. 4720, the new proposal also requires the trustees of a trust holding ten percent or more of any registered security to file reports. The definition of "immediate family" of a trustee is more limited than that contained in the earlier proposal in that it excludes uncles, aunts, nieces and nephews. The new proposal also contains a provision exempting from section 16 (a) the beneficial owners of certain trusts which have filed statements of their nature and composition pursuant to the requirements of the Securities Act, the Securities Exchange Act, or the Investment Company Act.

The other new proposal being considered by the Commission provides an exemption from sections 16 (a) and 16 (b) for certain transactions in which the amounts involved are so small that, it is suggested, there is no public interest requiring reports of the transaction. Acquisitions would be exempted where there are no less of securities of the same class for six months thereafter, and where the total acquisitions and dispositions of securities of the same class in any six months period which includes the transaction do not have a total market value in excess of $3,000. Both acquisitions and dispositions of securities by way of gifts are exempted from sections 16 (a) and 16 (b) where the gifts do not exceed $3,000 for any six months period.

The proposed rules would provide substantially as follows:

§ 240.16a–8 *Ownership of securities held in trust.* (a) Beneficial ownership of a security for the purpose of section 16 (a) shall include:

(1) The ownership of securities as a trustee where either the trustee or members of his immediate family have a vested interest in the income or corpus of the trust,

(2) The ownership of securities as a beneficiary of a trust, and

(3) The ownership of securities as a settlor of a trust in which the settlor has the power either alone or in conjunction with another, to revoke the trust;

(b) Except as provided in paragraph (c) of this section, beneficial ownership of securities solely as a settlor or beneficiary of a trust shall be exempt from the provisions of sections 16 (a) and 16 (b) where less than twenty percent in market value of the securities having a readily ascertainable market value held by such trust, determined as of the end of the preceding fiscal year of the trust, consists of equity securities with respect to which reports would otherwise be required. Exemption is likewise accorded from sections 16 (a) and 16 (b) with respect to any obligation which would otherwise be imposed solely by reason of beneficial ownership of securities held in trust, where the ownership or disposition of such securities by the trust is without the advice or knowledge of the beneficial owner, or where such beneficial interest is not a vested interest. No exemption pursuant to this subsection shall, however, be acquired or lost solely as a result of changes in the value of the trust assets during any fiscal year or during any time when there is not transaction by the trust in the securities otherwise subject to the reporting requirements of section 16 (a).

(c) In the event that ten percent of any class of any equity security (other than an exempted security) which is registered on a national securities exchange is held in a trust, that trust and the trustees thereof as such shall be deemed a person required to file the reports specified in section 16 (a) of the act.

(d) Not more than one report need be filed to report any holdings or with respect to any transaction in securities held by a trust, regardless of the number of officers, directors or ten per cent stockholders who are either trustees or beneficiaries of a trust, provided that the report filed shall disclose the names of all trustees and beneficiaries who are officers, directors or ten per cent stockholders. The person having an interest, only as a beneficiary of a trust, shall not be required to file any such report so long as he relies in good faith upon an understanding that the trustee of such trust will file whatever reports might otherwise be required of such beneficiary.

(e) As used in this section the "immediate family" of a trustee means:

(1) A son or daughter of the trustee, or a descendant of either,

(2) A stepson or stepdaughter of the trustee,

(3) A brother, sister, stepbrother, or stepsister of the trustee,

(4) The father or mother of the trustee, or an ancestor of either,

(5) A stepfather or stepmother of the trustee,

(6) A son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law of the trustee.

(7) A spouse.

For the purpose of determining whether any of the foregoing relations exist, a legally adopted child of a person shall be considered a child of such person by blood, and a brother or sister by the half blood shall be considered a "brother" or "sister."

(f) In determining, for the purposes of § 240.16a–1 (Rule X-16A-1), whether a person is the beneficial owner, directly or indirectly, of more than 10 per cent of any class of any listed equity security, the interest of such person in the remainder of a trust shall be excluded from the computation.

(g) If any statement, report, or other document is filed with the Commission pursuant to the requirements of the Securities Act, the Securities Exchange Act or the Investment Company Act disclosing the nature and composition of a trust and such trust does not engage in short term purchases and sales or sales and purchases no report required by section 16 (a) need be filed by any officer, director, or ten per cent beneficial owner under this rule with respect to his interest in any securities held in that trust.

(h) Nothing in the rule shall be deemed to impose any duties or liabilities with respect to any transactions or holdings prior to its effective date.

§ 240.16a–9 *Exemption from section 16 (a) and 16 (b) for small transactions.* (a) Any acquisition of securities shall be exempt from section 16 (a) and 16 (b) where:

(1) The person effecting the acquisition does not within six months thereafter effect any disposition, otherwise than by way of gift, or securities of the same class, and

(2) The person effecting such acquisition does not participate in acquisitions or in dispositions of securities of the same class having a total market value in excess of $3,000 for any six months period during which the acquisition occurs.

(b) Any acquisition or disposition of securities by way of gift, where the total amount of such gifts does not exceed $3,000 in market value for any six months period, shall be exempt from sections 16 (a) and 16 (b) and may be excluded from the computations prescribed in paragraph (a) (2) of this section.

(c) Any person exempted by paragraphs (a) or (b) of this section shall include in the first report filed by him after a transaction within the exemp-

tion a statement showing his acquisitions and dispositions for each six months period or portion thereof which has elapsed since his last filing.

All interested persons are invited to submit data, views and comments on the above proposals in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before November 7, 1952.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

OCTOBER 20, 1952.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

ORDER OF TRANSFER OF JURISDICTION OF INTEREST

OCTOBER 20, 1952.

Whereas, the Office of Territories, Department of the Interior, made application Anchorage 021657, for transfer of jurisdiction of interest to the Office of Territories, under section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), in the lands hereinafter described, for a public works project (Ninilchik School), which was approved under section 4 of the act, and

Whereas, notice of the proposed transfer of jurisdiction was published in the FEDERAL REGISTER, September 30, 1952 (17 F. R. 8669), and no protest to the transfer was filed within the time allowed.

Now, therefore, by virtue of the authority contained in section 7 of the Public Works Act of August 24, 1949, supra, and pursuant to section 2.56 of Delegation Order No. 427, of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Jurisdiction of interest in and to the following described lands is hereby transferred to the Office of Territories, Department of the Interior:

T. 1 S., R. 14 W., Seward Meridian:
Sec. 34, Lot 6.

Any subsequent conveyance which may be made of the lands to a public body under authority of the act of August 24, 1949, supra, the instrument of conveyance shall contain a provision reserving a right-of-way for ditches and canals constructed under authority of the United States, and reserving also to the United States (1) all fissionable source materials in the land, together with the right of the United States to enter upon the land and prospect for, mine and remove such materials in accordance with the act of August 1, 1946 (60 Stat. 755; 43 U. S. C. 1801), (2) all oil and gas and other mineral deposits in the lands together with the rights of the United States, its agents, representatives, lessees or permittees, to prospect for, mine and remove the same under such regulations as the Secretary may prescribe, (3) a right-of-way for the construction of railroads, telegraph and telephone lines in accordance with the act of March 12, 1914 (38 Stat. 305; 48 U. S. C. 305), (4) a right-of-way for roads, highways, tramways, trails, bridges and appurtenant structures constructed by or under authority of the United States or of any State created out of the Territory of Alaska, in accordance with the act of July 24, 1947 (61 Stat. 418; 48 U. S. C. 321d), and (5) such other reservations, covenants, terms, and conditions as may be deemed proper by the Office of Territories, as well as those which may be required for the protection of the Department of the Interior or any agency thereof.

LOWELL M. PUCKETT, *Regional Administrator.*

ALASKA

NOTICE OF PROPOSED TRANSFER OF JURISDICTION

OCTOBER 20, 1952.

Notice is hereby given that the Office of Territories, Department of the Interior, has made application, Anchorage 019599, for transfer of jurisdiction of interest to the Office of Territories, under section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), in the following described lands for a public works project (Kodiak Water and Sewer System), which has been approved under section 4 of said act:

Beginning at Corner Number 2 (the Northwest Corner) of United States Land Survey No. 2538-A Government Reserve; the point of beginning, go South 34° 34' East, 1,990.56 feet to a point; thence South 5° 27' West, 1,089.25 feet to a point; thence South 36° 16' West, 210.63 feet to a point; thence South 58° 09' West 357.25 feet to a point; thence South 53° 37' West, 1,152.91 feet to a point; South 41° 06' West, 379.13 feet to a point; thence South 64° 33' West, 945.28 feet to a point; thence South 59° 27' West, 425.64 feet to a point; thence South 74° 26' West, 1,410.0 feet to a point; thence South 61° 33' West, 1,443.61 feet to a point; thence North 5° 05' 30" West, 670 feet plus or minus, to a point, which point is common with the Northeast Corner of the United States Naval Reservation, United States Survey Number 2539; thence North 34° 34' West, 4,250 feet, plus or minus, to a point; thence North 55° 21' East, 10,868.88 feet to a point; thence South 34° 39' East, 2,627 feet, plus or minus, to a point; thence South 55° 21' West, 4,300 feet, plus or minus, to the point of beginning; thereby comprising a tract of land containing 1,063 acres, more or less.

The purpose of this notice is to give persons having bona fide objection to the transfer, the opportunity to file with the Manager of the Land Office, Anchorage, Alaska, a protest within 30 days from the date of the notice, together with evidence that a copy of the protest has been served on the District Director, Office of the Territories, Juneau, Alaska.

LOWELL M. PUCKETT, *Regional Administrator.*

DEFENSE TRANSPORT ADMINISTRATION

[Organization Order DTA 3, as Amended October 23, 1952]

ORGANIZATION AND FUNCTIONS; SUBMITTALS AND REQUESTS

Pursuant to the provisions of section 709 of the Defense Production Act of 1950, as amended, section 3 of the Administrative Procedure Act, Executive Order 10161, and Executive Order 10219, Organization Order DTA 3 describing the organization and functions of the Defense Transport Administration was issued on August 21, 1951 (16 F. R. 8556), and is hereby amended.

This amendment affects the order in the following respects: In section 1, adds references to Title II of the Defense Production Act of 1950, as amended, Executive Orders 10281, and 10324, and Defense Production Administration Regulation 3; in section 2, revises paragraphs (j) and (k), renumbers paragraph (m) as (n), and adds a new paragraph (m); renumbers section 3 as 4, and adds a new section numbered 3; revises former section 3 (now numbered 4); revises former section 4 (now numbered 5); in former section 5 (now numbered 6) adds a new paragraph (c) and renumbers paragraphs (c) and (d) as (d) and (e), and adds a new paragraph (f); renumbers sections 4 through 9 as sections 5 through 10; from former section 6 (now numbered 7) eliminates paragraphs (b) and (c) and lists the field office locations (revised) of the Interstate Commerce Commission contained therein in Appendices A and B, now added to the order; adds an Appendix C.

Law 774, 81st Cong., 64 Stat. 815, as amended by Pub. Law 96, 82d Cong., 65 Stat. 138; sec. 3, 60 Stat. 238, 5 U. S. C. Supp. 1002; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR 1950 Supp.; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; E. O. 10219, Feb. 28, 1951, 16 F. R. 1983; E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; E. O. 10324, Feb. 6, 1952, 17 F. R. 1171.

SECTION 1. *Creation and authority.* By Executive Order 10161 (15 F. R. 6105), the President conferred upon that Commissioner of the Interstate Commerce Commission who is responsible for the supervision of the Bureau of Service of the Commission, among other things, certain functions vested in the President by Titles I, II, III, and VII of the Production Act of 1950, with respect to domestic transportation, storage, and port facilities, as defined in said order, as amended, but excluding pipe lines, air transport, coastwise, intercoastal, and overseas shipping. For the purpose of carrying out the responsibilities conferred by Executive Order 10161, and in accordance with authority delegated in that Executive Order, the Commissioner described established on October 4, 1950, a Defense Transport Administration (Organization Order DTA 1, 15 F. R. 6728, as amended February 1, 1952 (17 F. R. 1308)), at the head of which organization is an Administrator. The authority of the Defense Transport Administration has since been affected by the issuance of Executive Order 10193 (15 F. R. 9031); Executive Order 10200 (16 F. R. 61); Defense Production Administration Delegation 1, as amended (16 F. R. 738, 11245); Defense Production Administration Regulation 3 (16 F. R. 12431); Executive Order 10219 (16 F. R. 1983); Executive Order 10281 (16 F. R. 8789); and Executive Order 10324 (17 F. R. 1171) which by amending the definition of the term "domestic transportation, storage, and port facilities" extended the authority to the Territories and possessions of the United States.

SEC. 2. *Functions.* The general functions and responsibilities of the Defense Transport Administration (hereinafter sometimes referred to as DTA) with respect to domestic transportation, storage and port facilities are to:

(a) Assemble and analyze data with respect to requirements to be imposed on domestic transportation, port and storage systems and facilities and with respect to the ability of such systems and facilities to satisfy such requirements;

(b) Formulate such plans and programs, and take such actions, as may be desirable to meet requirements for domestic transportation, storage, and port services, including, among other things, programs and measures for increasing the efficiency and obtaining maximum utilization of domestic transportation, port and storage systems and facilities and for providing additional transportation, port and storage facilities;

(c) Coordinate and direct the domestic movement of passenger and freight traffic in cooperation with the Interstate Commerce Commission and private transportation organizations and agencies;

(d) Allocate the use of domestic transportation, port and storage facilities by operators thereof, and allocate domestic transportation, port and storage services to the users thereof;

(e) Administer such priorities as may be necessary to insure the movement of essential traffic or the storage of essential commodities, subject to such policies and orders as the Defense Production Administrator may prescribe;

(f) Act as claimant for materials and manpower for the construction, operation, maintenance, and repair of domestic transportation, port and storage systems and facilities, and, pursuant to National Production Authority Delegation 14, as amended (16 F. R. 7628, 9784, 17 F. R. 326, 8882), act upon applications for construction authorizations and allotments of materials filed under the controlled materials plan of the National Production Authority;

(g) Cooperate with the Secretary of Commerce, the Secretary of Defense and the Secretary of the Interior to achieve the effective coordination of inland and ocean transportation and the efficient operation of all port facilities to meet military and civilian requirements;

(h) Cooperate with the Secretary of Defense and the Administrator of General Services to achieve the effective coordination and utilization of storage facilities;

(i) Utilize the services of the Interstate Commerce Commission and of such other Federal, State, and local agencies as the Administrator deems desirable in the performance of his functions;

(j) Pursuant to Defense Production Administration Delegation 1, as amended, make recommendations to the Defense Production Administrator with respect to the issuance under section 310 of Executive Order 10161, as amended, of certificates of essentiality of defense loans for expansion of capacity of domestic transportation, storage, and port facilities under sections 302 and 303 of the Defense Production Act of 1950, as amended;

(k) Pursuant to Defense Production Administration Delegation 1, as amended, make recommendations to the Defense Production Administrator with respect to domestic transportation, storage and port facilities in connection with the issuance under section 2 (e) of Executive Order 10200, as amended, of certificates for amortization for income tax purposes under subsection (e) of section 124A of the Internal Revenue Code, as added by section 216 of the Revenue Act of 1950;

(l) Carry out the consultations referred to in section 708 (a) of the Defense Production Act of 1950, as amended, and make recommendations to the Defense Production Administrator for the approval of voluntary agreements and programs as provided in section 708 of that act;

(m) Pursuant to Defense Production Administration Regulation No. 3, perform the functions of an initiating or delegate agency, as the case may be, with respect to the requisition or condemnation of property, or an interest therein, used, or to be used, for domestic transportation, storage, or port purposes, and with respect to the disposal of property, or an interest therein, so acquired and used for such purposes; and

(n) Perform such other functions with respect to domestic transportation, storage and port facilities as may be assigned or delegated from time to time by the President or other Government authority.

SEC. 3. *Organization.* The Defense Transport Administration consists of the Administrator, five principal staff offices or officers and eight divisions.

SEC. 4. *Administrator and staff offices or officers*—(a) *Administrator.* The Commissioner of the Interstate Commerce Commission who is responsible for the supervision of the Bureau of Service of the Commission is ex officio the Administrator, and, as such, is responsible for the discharge of the duties and responsibilities described in section 2 of this order.

(b) *Staff offices and officers.* The duties and responsibilities of the principal staff offices and officers of DTA are:

(1) *Office of the Deputy Administrator.* The Office of the Deputy Administrator coordinates the functions performed within DTA, represents the Administrator in liaison with other agencies of the Government at the highest levels, including the Bureau of Service and other units of the Interstate Commerce Commission, and performs such other duties as may be assigned or required by the Administrator. The Deputy Administrator serves as Acting Administrator during the disability or absence from official headquarters in Washington, D. C., of the Administrator.

(2) *Office of the Executive Assistant.* The Office of the Executive Assistant provides advice, consultation, and assistance as to policies, programs, operational procedures, use of advisory bodies, planning studies, liaison with other agencies and reports of agency activities and performs such other special duties as may be assigned or required by the Administrator. The Executive Assistant serves as Executive Secretary of DTA's Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization and serves as Acting Administrator during the disability or absence from official headquarters in Washington, D. C., of both the Administrator and Deputy Administrator.

(3) *Office of the General Counsel.* The Office of General Counsel renders legal services to the Administrator and other officers with respect to the functions of DTA, and represents it in liaison with other departments and agencies of the Government with reference to litigation and other matters of law. The General Counsel serves as Acting Administrator during the disability or absence from official headquarters in Washington, D. C., of the Administrator, Deputy Administrator, and Executive Assistant.

(4) *Administrative Officer.* The Administrative Officer advises the Administrator on the development of over-all agency administrative management policies; directs and coordinates the effectuation of such policies; directs and coordinates administrative management programs throughout the agency to effect budgetary, fiscal, organizational, personnel and procedural controls; provides property, equipment, communications and other administrative services; maintains liaison with other Government agencies on over-all administrative management policies affecting DTA, and with domestic surface transportation interests concerning affairs of administration having a direct bearing on the internal management and program relations of DTA.

(5) *Information and Liaison Officer.* The Information and Liaison Officer is responsible: (i) For the direction of the public informational activities of DTA to promote common understanding and cooperation in the accomplishment of its programs and objectives, and (ii) for advising and cooperating with other government agencies in the attainment of common or related aims. Upon request, he serves as spokesman for the Administrator in the explanation and interpretation of DTA objectives and policies to obtain adherence to its programs of voluntary cooperation or mandatory controls. Except as to legal matters and internal administrative services, he maintains liaison between DTA and officials of the Interstate Commerce Commission in areas of joint or common interest.

(6) *Special Assistant to the Administrator.* Among other responsibilities, the Special Assistant to the Administrator represents him on policies, programs, and special projects not normally within the responsibilities of any of the divisions or other staff officers; acts as Special Assistant for Territories and possessions and in respect thereto represents the Administrator in liaison with other Government agencies, Territorial officials, and private interests, concerned with surface transport, storage, and port affairs in the Territories and possessions; as required, plans, develops, and completes special asignments normally requiring the personal attention of the Administrator; acts as executive secretary to various committees or groups formed by the Administrator from time to time and performs such other duties of a special or highly confidential nature as may be assigned to him.

SEC. 5. *Divisions.* Each division performs its duties under the immediate direction of a director, subject to the control of the Administrator, with functions as follows:

(a) *Railroad Transport Division.* (1) The Railroad Transport Division plans and administers the policies, programs and regulations adopted by DTA in the performance of the functions described in paragraphs (a) through (e), (g), (i), (l), (m), and (n) of section 2 of this order as they pertain to domestic railroad facilities and services.

(2) The Division consists of the Operations Branch, the Roadway, Equipment and Manpower Branch, the Research and Analysis Branch, and a field service unit.

(b) *Street and Highway Transport Division.* (1) The Street and Highway Transport Division plans and administers the policies, programs and regulations adopted by DTA in the performance of the functions described in paragraphs (a) through (e), (g), (i), (l), (m), and (n) of section 2 of this order as they pertain to domestic street and highway transportation facilities and services (including for-hire carriers of property, private carriers of property, farm vehicles, intercity buses, urban transportation, school transportation, taxicabs, hearses, ambulances, rental vehicles, and private passenger motor vehicles.

(2) The Division consists of the Passenger Operations Branch, Property Operations Branch, Field Operations Branch, Program Planning Branch and Requirements Branch.

(c) *Inland Water Transport Division.* (1) The Inland Water Transport Division plans and administers the policies, programs and regulations adopted by DTA in the performance of the functions described in paragraphs (a) through (e), (g), (i), (l), (m), and (n) of section 2 of this order as they pertain to inland water transport facilities and services, including watercraft on the Great Lakes, in harbors, and on inland waterways.

(2) The Division consists of the Equipment and Manpower Branch, Allocations and Permits Branch, Field Operations Branch, and Research and Analysis Branch.

(d) *Warehousing and Storage Division.* (1) The Warehousing and Storage Division plans and administers the policies, programs and regulations adopted by DTA in the performance of the functions described in paragraphs (a) through (e), (h), (i), (l), (m), and (n) of section 2 of this order as they pertain to domestic storage facilities and services.

(2) The Division consists of the Requirements and Facilities Branch, Refrigerated Branch, General Merchandise Branch, Bulk Commodities Branch, and a field service unit.

(e) *Port Utilization Division.* (1) The Port Utilization Division plans and administers the policies, programs and regulations adopted by DTA in the performance of the functions described in paragraphs (a) through (e), (g) (i), (l), (m), and (n) of section 2 of this order as they pertain to domestic port facilities and services on the Atlantic Coast, Pacific Coast, Gulf of Mexico, and the coasts of the Territories and possessions of the United States.

(2) The Division consists of the Requirements and Facilities Branch, the Utilization and Traffic Control Branch, and the Research and Analysis Section.

(3) The Director of the Division is Chairman of the Port Operations Committee, the other members of which are the directors of the four divisions mentioned in paragraphs (a) through (d) of this section 5, and the Director, Bureau of Service, Interstate Commerce Commission.

(f) *Equipment and Materials Division.* (1) The Equipment and Materials Division plans and administers policies, programs and regulations in connection with the performance by DTA of the functions described in paragraphs (f), (i), and (n) of section 2 of this order as they pertain to materials and equipment for the construction, operation, maintenance, and repair of domestic transportation, port and storage systems and facilities.

(2) The Division consists of the Program Branch, Materials Branch, and Research and Analysis Branch.

(3) The Director of the Division is Chairman of an Equipment and Materials Program Committee, the members of which are the program officers designated by the directors of the divisions mentioned in paragraphs (a) through (e) of this section 5.

(g) *Manpower Division.* (1) The Manpower Division plans and administers policies and programs adopted by DTA in the performance of the functions described in paragraphs (f), (i), and (n) of section 2 of this order as they pertain to manpower for the construction, operation, maintenance, and repair of domestic transportation, port and storage systems and facilities.

(2) The Division consists of the Selective Service and Defense Department Specialist, the Recruitment Specialist, the Training and Utilization Specialist, the Statistical Analyst and a field service unit.

(3) The Director of the Division is Chairman of the Manpower Program Committee, the members of which are the program officers designated by the directors of the divisions mentioned in paragraphs (a) through (e) of this section 5.

(h) *Tax Amortization and Defense Loans Division.* (1) The Tax Amortization and Defense Loans Division administers policies, programs and regulations in the performance by DTA of the functions described in paragraphs (j), (k), and (n) of section 2 of this order relating to tax amortization and defense loans for domestic transportation, storage and port facilities.

(2) The Division consists of the Defense Loans Branch, the Tax Amortization Branch, and the Administrative, Reports & Statistics Section.

(3) The Director is Chairman of the Program Committee for Industrial Expansion, the members of which are the program officers designated by the directors of the divisions mentioned in paragraphs (a) through (e) of this section 5.

(i) *Cooperation between divisions.* Each of the divisions mentioned in paragraphs (a) through (e) of this section 5 cooperates with the Equipment and Materials Division and the Manpower Division mentioned in paragraphs (f) and (g) of this section 5 as to the functions described in paragraph (f) of section 2 of this order, and with the Tax Amortization and Defense Loans Division mentioned in paragraph (h) of this section 5 as to those functions described in paragraphs (j) and (k) of section 2 of this order.

SEC. 6. *Delegations of authority.* (a) By DTA Delegation 1 (15 F. R. 9004), the Director, Bureau of Service, Interstate Commerce Commission, has been empowered to perform the function referred to in paragraph (d) of section 2 of this order to allocate the use of railroad passenger-carrying equipment. Such function may be performed by the Director through such Government agencies, officers and employees and in such manner as he may determine, subject, however, to the general control and supervision of the Administrator of DTA.

(b) By DTA Delegation 2 (16 F. R. 2046), the Director, Bureau of Motor Carriers, Interstate Commerce Commission, has been empowered to perform the following functions with respect to street and highway transportation facilities and services: (1) Conduct surveys and furnish reports to the Administrator on the adequacy of motor transportation and on the available supply and shortages in manpower, equipment, and parts for all street and highway transportation subject to the jurisdiction of the Defense Transport Administration; (2) organize and supervise industry program committees; (3) attend meetings involving street and highway transportation subjects and problems; (4) check individual applications made to the Defense Transport Administration by persons engaged in street and highway transportation; (5) make recommendations to the Administrator of Defense Transport Administration as to the issuance of appropriate emergency, temporary or special authorities to operators of street and highway transportation equipment or facilities, when such authority is required by general or special orders of the Defense Transport Administration; (6) obtain and report to the Defense Transport Administration such information respecting or affecting the operations, practices and business of any street or highway transport operator as may be required by any request, direction or order issued by the Defense Transport Administration; (7) supervise, regulate and control motor transportation subject to the jurisdiction of the Defense Transport Administration in accordance with any request, direction, general, special or specific order issued by the Defense Transport Administration. The foregoing functions may be performed by the Director through such Government agencies, officers and employees and in such manner as he may determine, subject, however, to the general control and supervision of the Administrator, and the Director of the Street and Highway Transport Division of DTA.

(c) By DTA Delegation 8 (17 F. R. 1489), the Director, Bureau of Water Carriers and Freight Forwarders, Interstate Commerce Commission, has been empowered to perform the following functions with respect to inland water transport and port facilities and services: (1) Conduct surveys of, and furnish reports on, the adequacy of inland water transportation and port services and on the shortages and available supply of manpower, equipment, parts, materials, and supplies for all inland water transportation and port facilities and services subject to the jurisdiction of the Defense Transport Administration; (2) organize and supervise inland water transport or port utilization committees; (3) attend meetings involving inland water transportation and port utilization subjects and problems; (4) check individual applications made to the Defense Transport Administration by persons engaged in or using inland water transportation or port services; (5) give information to the public concerning the activities, plans, programs, measures, and procedures of Defense Transport Administration with particular reference to inland water transportation and port services and facilities; (6) make recommendations as to issuance of appropriate emergency, temporary, or special authorities provided for by formal general or special orders of the Defense Transport Administration; (7) obtain and report to the Defense Transport Administration such information respecting or affecting the operations, practices, and business of any inland water transport or port facility operator as may be required by any request, direction, or order issued by the Defense Transport Administration; and (8) in accordance with requests or directions from the Defense Transport Administration or in accordance with and as authorized by any formal general or special order issued by the Defense Transport Administration, supervise, regulate, or control all forms of inland water transportation and port facilities and services, both private and for-hire, and effect the coordination of inland transportation with ocean shipping in the utilization of port facilities. The foregoing functions may be performed by the Director through such Government officers, agencies, and employees and in such manner as he may determine, subject, however, to the control and supervision of the Administrator, and the respective Directors of the Inland Water Transport Division and the Port Utilization Division, of DTA.

(d) In accordance with arrangements made between Defense Transport Administration and the Interstate Commerce Commission, the field staffs of the Bureau of Motor Carriers, Bureau of Service, and Bureau of Water Carriers and Freight Forwarders of that Commission, gather information and perform such other functions for or on behalf of Defense Transport Administration as may be specifically assigned or delegated.

(e) By DTA Delegation 6 (16 F. R. 4149), the Administrator, DTA, has delegated to the Administrator of the Petroleum Administration for Defense authority to perform the functions and exercise the powers conferred upon the Defense Transport Administration with respect to facilities required for bulk storage of petroleum and gas, subject to the reservations and conditions stated in DTA Delegation 6.

(f) By Memorandum of Agreement executed on October 24 and 25, 1951 (16 F. R. 11512) and amended on September 30, 1952 (17 F. R. 8992) and reciprocal delegations of authority, namely, DTA Delegation 7 (16 F. R. 11512) and Defense Food Delegation No. 10 (16 F. R. 11510), the Defense Transport Administration and the Production and Marketing Administration, United States Department of Agriculture, have defined their respective functions and responsibilities with respect to storage and warehousing matters.

SEC. 7. *Field Offices.* The Defense Transport Administration has not established field offices, but has continuing representation in the field through the respective field organizations of the Bureau of Motor Carriers, the Bureau of Service, and the Bureau of Water Carriers and Freight Forwarders, Interstate Commerce Commission, pursuant to delegations referred to in section 6 of this order. The locations of the field offices of the Bureau of Motor Carriers, the Bureau of Service, and the Bureau of Water Carriers and Freight Forwarders are listed in Appendices A, B, and C, respectively, attached to this order.

SEC. 8. *Information, submittals, and requests.*—(a) Except as otherwise stated herein, or provided in published instructions, orders, or directions issued by Defense Transport Administration, and except to the extent that there is involved any function of the United States requiring secrecy in the public interest, or relating only to the internal management of the Administration, information regarding the Administration and matters within its jurisdiction may be obtained upon request from the Information and Liaison Officer, Defense Transport Administration, Washington 25, D. C.

(b) Except to the extent that there is involved any function of the United States requiring secrecy in the public interest, or relating to the internal management of the Administration, information regarding the following matters may also be obtained at the offices described below:

(1) Railroad transport, from the field offices of the Bureau of Service of the Interstate Commerce Commission located as set forth in Appendix B to this order;

(2) Street and highway transport, from the field offices of the Bureau of Motor Carriers of the Interstate Commerce Commission located as set forth in Appendix A to this order;

(3) Inland water transport and port facilities and services, from the field offices of the Bureau of Water Carriers and Freight Forwarders of the Interstate Commerce Commission located as set forth in Appendix C to this order.

(c) Submittals and requests are to be made to such officers or persons at such places and in such manner as may be prescribed by published instructions, orders, or directions issued by Defense

Transport Administration from time to time. Any other submittal or request may be made to the Administration at its headquarters in Washington, D. C.

SEC. 9. *Opinions and orders; inspection of public records.* (a) All final opinions or orders in the adjudication of cases (except those required for good cause to be held confidential and not cited as precedents) shall be available for public inspection at the office of the Information and Liaison Officer at the Administration's headquarters in Washington during usual office hours. Copies of such opinions or orders may be secured from the Information and Liaison Officer upon payment of the cost of reproducing them when no extra copies are available.

(b) Save as otherwise required by statute, other matters of official record, except information held confidential for good cause found, will be made available by the Information and Liaison Officer for inspection by persons properly and directly concerned at the Administration's headquarters in Washington during usual office hours, except during such times as inspection would unduly interfere with work in progress.

SEC. 10. *Addresses.* The headquarters of the Defense Transport Administration is located in the Interstate Commerce Commission Building, Twelfth Street and Constitution Avenue NW, Washington, D. C., and the addresses of the appropriate field offices are set out in Appendices A, B, and C to this order.

Issued at Washington, D. C., this 23d day of October 1952.

JAMES K. KNUDSON,
Administrator,
Defense Transport Administration.

APPENDIX A

To Organization Order DTA 3, as amended October 23, 1952

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54–177, 59–91]

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

NOTICE OF FILING OF AMENDED PLAN AND NOTICE OF AND ORDER REOPENING RECORD AND RECONVENING HEARING IN CONSOLIDATED PROCEEDINGS

OCTOBER 22, 1952.

In the matter of Pennsylvania Gas & Electric Corporation, et al.; File No. 54–177, and Pennsylvania Gas & Electric Corporation and its subsidiary companies; File No. 59–91.

On June 5, 1952, the Commission issued its findings and opinion (Holding Company Act Release No. 11298) with respect to a plan of dissolution of Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company, which plan had been filed pursuant to section 11 (e) of the act. In its opinion the Commission concluded that the proposed plan was unfair and inequitable to the security holders affected and the Commission indicated, in general, the manner in which the plan might be amended so that it would become fair and equitable. No order has been entered by the Commission disapproving the plan and Penn Corp has been afforded an opportunity to amend the plan in accordance with the views expressed by the Commission in its opinion.

Notice is hereby given that Penn Corp has filed an Amended Plan, dated September 18, 1952, and amendments thereto (the "Amended Plan"), which Amended Plan is stated to conform to the views of the Commission. The Amended Plan is represented by Penn Corp as being predicated upon the evaluations of the various classes of securities of Penn Corp determined upon by this Commission in its decision of June 5, 1952. Penn Corp further represents that the Amended Plan has the approval and support of all representatives of the various classes of securities of Penn Corp who participated in the proceedings before the Commission involving the original plan. The principal provisions of the Amended Plan are summarized as follows:

The outstanding securities of Penn Corp consist of 20,000 shares of $7 Cumulative Preferred Stock, no par value; 10,000 shares of 7 percent Cumulative Preferred Stock, $100 per share par value; 112,223 shares of Class A Common Stock, no par value; and 224,446 shares of Class B. Common Stock, no par value. The preferred stocks are of equal rank in all respects and, as of December 31, 1950, cumulative unpaid dividends applicable thereto aggregated $87.87½ per share. The Class A Common Stock, which ranks junior to the preferred stocks, has a non-cumulative dividend preference at the rate of $1.50 per share annually over the Class B Common Stock.

By the terms of the Amended Plan, the preferred stockholders of Penn Corp, for each share of preferred stock held, will receive in exchange therefor 15 shares of capital stock of North Penn Gas Company ("North Penn"), a gas utility company and a direct subsidiary of Penn Corp., one-half share of reclassified common stock of Crystal City Gas Company ("Crystal City"), also a gas utility company and a direct and wholly-owned subsidiary of North Penn, and a cash distribution equivalent to $7 a year from December 31, 1950, to the date of consummation of the Amended Plan. The holders of Class A Common Stock of Penn Corp, for each share of such stock held, will receive in exchange therefor 8/40ths of a share of the reclassified common stock of Crystal City. The holders of the Class B Common Stock of Penn Corp, for each share of such stock held, will receive in exchange therefor 1/40th of a share of the reclassified common stock of Crystal City.

In order to effectuate the Amended Plan, Crystal City will reclassify its present capital stock, of the par value of $100 per share, into common stock, par value $10 per share, and will issue 43,047 shares of the reclassified common stock in exchange for 2,639 shares of the presently outstanding capital stock all of which are held by North Penn. Subsequently North Penn will transfer the 43,047 shares of Crystal City common stock to Penn Corp. Prior to such transfer, North Penn will refinance its presently outstanding debentures since, under the terms thereof, the Crystal City stock could not be transferred to Penn Corp. The details with respect to such financing are to be embodied in a separate filing by North Penn.

No certificates for fractional shares of the common stock of Crystal City are to be issued. In lieu thereof, scrip certificates will be issued and arrangements will be made by Penn Corp whereby holders of scrip certificates may either sell the same or purchase additional scrip certificates sufficient to entitle them to a full share of the common stock of Crystal City without the payment of any commission, transfer taxes or service charge for a period of six months after the date of consummation of the Amended Plan and thereafter at their own expense.

The period of time in which the stockholders of Penn Corp may exchange their holdings for the securities of North Penn and Crystal City and any dividends paid thereon during the exchange period is to be five years from the date of consummation of the Amended Plan. Immediately following this five year period all the capital stock of North Penn and all common stock of Crystal City held by the exchange agent is to be sold and the proceeds from the sale, together with any dividends theretofore paid on such stock, and all other cash received by the exchange agent pursuant to the provisions of the Amended Plan are to be paid over to North Penn and/or Crystal

City as provided in the plan. Thereupon for an additional period of five years stockholders of Penn Corp who surrender their certificates duly endorsed for transfer shall be entitled to receive their share of the cash proceeds which have theretofore been surrendered to North Penn and/or Crystal City. At the end of the second five year period all unclaimed cash, if any, arising from the transactions performed in effectuating the Amended Plan which has been paid over to North Penn and/or Crystal City by the exchange agent shall become the property of North Penn and/or Crystal City, as the case may be, and all capital stock of Penn Corp shall become void and of no value.

The Amended Plan provides that Penn Corp will pay the fees and expenses incurred in connection with proceedings pursuant to section 11 of the act involving Penn Corp and companies now or formerly in its holding company system to the extent that this Commission shall approve or direct payment, subject to the right to seek judicial review of any such determination.

After the satisfaction, or providing for the satisfaction, of all liabilities and expenses of Penn Corp all other assets of that company are to be surrendered to North Penn as a capital contribution whereupon Penn Corp will dissolve under the applicable laws of the State of Delaware. In the event that Penn Corp's assets should be insufficient to meet the requirements of the Amended Plan or any tax liability of Penn Corp, such obligations, but no others, are to be assumed by North Penn.

The Amended Plan provides that periodic notices will be mailed to all known security holders of Penn Corp and published in a newspaper of general circulation in New York City. In addition to these mailed and published notices Penn Corp and/or North Penn undertake to employ such methods of personal solicitation as may appear necessary to the management or to the Commission from time to time. However, no solicitation is to be made of holders of less than 25 shares of Class A Common Stock or of less than 500 shares of Class B Common Stock of Penn Corp.

The Amended Plan further provides that the charters of North Penn and Crystal City are to be amended to provide that their stockholders shall have pre-emptive rights and the right to vote their stock cumulatively for the election of directors, and that said provisions may only be changed by the consent of the holders of at least two-thirds of the issued and outstanding stock. Additionally, it is proposed that the officers and directors of North Penn will continue to function in like capacity after consummation of the Amended Plan and until the new stockholders of that company elect their successors. The new management for Crystal City has not been designated in the Amended Plan but before any person may serve as a member of the Board of Directors of Crystal City, that person must first be approved by the Commission, the Amended Plan providing that the names and business affiliations of the new Board of Directors of Crystal City will be supplied to the Commission prior to the consummation of the Amended Plan.

The Amended Plan also provides that promptly after the date of consummation Penn Corp will donate to Penn-Western Service Corporation ("Penn-Western"), presently an approved mutual service corporation, Penn Corp's holdings of 120 shares of common stock of Penn-Western. Within one year after the date of consummation of the Amended Plan Penn-Western will cancel its service contract with Crystal City if that contract is then still in effect. It is represented that in the Amended Plan that Penn-Western intends to dissolve and liquidate and that it will endeavor to effect its dissolution and liquidation within twelve months after consummation of the Amended Plan and in any event within twenty-four months of such cosummation date.

It appearing to the Commission that it is appropriate in the public interest that notice should be given and a hearing held with respect to said Amended Plan and that the record heretofore closed in these consolidated proceedings be reopened for the limited purposes hereinafter indicated: *It is ordered*, That:

1. The record in these proceedings be, and it hereby is, reopened and a hearing shall be held, for the limited purposes hereinafter provided, on the 7th day of November 1952, at 11:30 a. m., at the offices of this Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing shall be held;

2. The evidence to be adduced at such reconvened hearing shall be limited to matters bearing upon the circumstances and considerations leading up to the development of the Amended Plan;

3. Any person desiring to be heard or otherwise wishing to participate in these proceedings and who has not previously been granted leave therefor should notify the Commission to that effect in the manner provided in Rule XVII of the Commission's rules of practice on or before November 5, 1952.

It is further ordered, That Edward C. Johnson or any other officer or officers of the Commission designated by it for that purpose shall preside at the reconvened hearing in such matter. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid reconvened hearing by mailing copies of this order by registered mail to Penn Corp, North Penn, Crystal City, the Federal Power Commission, the New York Public Service Commission, and the Pennsylvania Public Utility Commission, and to all persons who have heretofore entered an appearance herein; that notice shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the persons on the mailing list of this Commission for releases under the act, and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

It is further ordered, That Penn Corp shall give further notice of the reconvened hearing to all of its security holders (insofar as the identity of such security holders is known or available to Penn Corp) by mailing to each of said persons at his last known address, at least 10 days before the date set for such hearing, a statement setting forth in brief the amended proposals and a statement of the time, date and place of the public hearing. Such statement shall be submitted to the Commission for review prior to the mailing.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

TITLE 3—THE PRESIDENT

PROCLAMATION 2994

ARMISTICE DAY, 1952

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the American people, who detest war and reject it as an instrument of national policy, were nevertheless drawn into two world-wide conflicts within one generation, in the defense of freedom, and are even now engaged in an epic struggle against shameless aggression; and

WHEREAS the Armistice of November 11, 1918, which furled the flags of World War I, brought hope and promise to us and to all mankind that wars between nations were at an end; and

WHEREAS the Congress passed a concurrent resolution on June 4, 1926 (44 Stat. 1982), calling for the observance of November 11 with appropriate ceremonies, and later provided in an act approved May 13, 1938 (52 Stat. 351), that the eleventh of November should be a legal holiday and should be celebrated and known as Armistice Day; and

WHEREAS renewed acts of aggression have stressed the need for a spiritual rededication to the ideal of lasting peace, which seemed close to fulfillment on Armistice Day in 1918:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby call upon the people of the Nation to observe Tuesday, November 11, 1952, by commemorating the heroic sacrifices made by our fellow countrymen across the seas, and I urge all our citizens to devote themselves anew on that day to the task of promoting a permanent peace among all the people of the earth. I also direct the appropriate officials of the Government to arrange for the display of the flag of the United States on all public buildings on Armistice Day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 24th day of October in the year of our Lord nineteen hundred and [SEAL] fifty-two, and of the Independence of the United States of America the one hundred and seventy-seventh.

HARRY S. TRUMAN

By the President:

DAVID BRUCE,
Acting Secretary of State.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. SR-388]

PART 34—FLIGHT NAVIGATOR CERTIFICATES

SPECIAL CIVIL AIR REGULATION; LIMITED FLIGHT NAVIGATOR CERTIFICATES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 22d day of October 1952.

In a series of Special Civil Air Regulations commencing on July 20, 1950, the Board made provision for the issuance of limited flight navigator certificates of short duration which enabled military contract carriers to obtain the services of certain individuals who were not currently certificated navigators, but who had previously served in the capacity of flight navigators as members of the armed forces of the United States, as employees of United States air carriers, or as employees of persons engaged in the conduct of military contract operations. In effect, these regulations permitted qualified applicants to obtain limited flight navigator certificates, for use on military contract flights only, without fully complying with the requirements of Part 34 of the Civil Air Regulations (Flight Navigator Certificates), upon demonstration to the Administrator that they could actually meet the basic skill, knowledge, and experience requirements of that part. These limited certificates were effective for only three months and were not renewable;

however, the holders of such certificates were eligible to be issued flight navigator certificates if they successfully accomplished the written examination prescribed in Part 34.

The availability of these certificates materially aided the carriers in carrying out their military contract operations in connection with the Korean hostilities. However, the records of the Administrator shows that up to March 31, 1951 (the expiration date of the last special regulation of this series, SR–359), of the 113 applicants who had been issued limited flight navigator certificates, only 39 had obtained flight navigator certificates, and no backlog of applications for the limited certificates existed.

An examination of the problems involved in the training and certificating of navigators reveals that the flight test required for certification is the critical factor, because it is so costly as to effectively dissuade former flight navigators, who do not at present hold certificates, from making an effort to obtain them. In addition, the same cost element deters interested individuals, without previous navigation experience, from enrolling in navigation ground training courses. This aspect of the problem becomes more significant when considered together with the fact that the current and anticipated opportunities for flight navigators are relatively limited.

Although during the last few months contract airlift operations have stabilized at a level considerably lower than the previous peak and no shortage of navigators currently exists, the Department of Defense and the Defense Air Transportation Administration have emphasized that in the event of a national emergency a serious shortage of qualified navigators would occur. It is believed highly desirable that a government-sponsored program be established to overcome obstacles presently retarding the certification of navigators and to encourage interested persons to attempt to qualify as navigators. Such a program will aid in the creation of a pool of trained navigators sufficient to meet the possible demand during a national emergency. In order to achieve this objective, it is necessary that the Civil Air Regulations permit individuals with no previous navigation experience and ex-military personnel with navigation training to obtain sufficient training and experience to perform the duties of flight navigators on military contract operations.

A study of the problems associated with the certification of flight navigators was initiated by the Board, and a proposed Special Civil Air Regulation was published in the FEDERAL REGISTER on May 29, 1952, as a notice of proposed rule making and circulated as Draft Release No. 52–18. As a result of comments received in response to the proposed regulation, conferences were held with interested persons and additional study and discussion of these problems accomplished.

The regulation herein adopted will permit persons without previous flight experience to obtain a limited flight navigator certificate and then to obtain flight training and experience under the supervision of qualified navigators. Ex-military personnel with recent navigation training will be given credit for their training toward the obtainment of limited navigation certificates and their utilization in military contract operations, if they make application within 12 months subsequent to discharge or release from the armed forces.

In order to assure that limited flight navigators maintain a satisfactory level of proficiency, the recent experience and requalification requirements contained in the regulations differ in some respects from those contained in Part 34. In order for the limited navigator to originally qualify to act as navigator in military contract operations, he not only must have 50 hours of flight experience in the preceding 12 months but also have his certificate endorsed by an authorized representative of the Administrator to the effect that he has satisfactorily passed a flight check on his overall ability to perform his duties as navigator in the operations contemplated. Thereafter, the limited navigator must continue to obtain at least 50 hours of flight experience during any 12-month period. Upon failure of the limited navigator to obtain 50 hours of flight experience during any 12-month period, he has a 12-month grace period during which he may requalify by meeting the recent flight requirements for original qualification. Upon failure to requalify during this grace period, the limited flight navigator must then meet all of the requirements for original issuance and use of the limited flight navigator certificate.

In order to encourage limited flight navigators to obtain flight navigator certificates under Part 34 of the Civil Air Regulations, provision is made herein for the issuance of such certificates if the limited flight navigator can meet the experience and skill requirements of that part.

Full realization of the benefits which may accrue from this regulation will be possible only if adequate training facilities are assured and the existence of such facilities is widely publicized.

As this regulation is designed primarily to assist civil operators in the accomplishment of military assignments, and has no direct civil application, it is being issued in the form of a special regulation rather than incorporated in a permanent part.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective November 28, 1952:

LIMITED FLIGHT NAVIGATOR CERTIFICATES

REQUIREMENTS FOR CERTIFICATE

1. *Issuance.* A limited flight navigator certificate will be issued to an applicant who meets the following requirements.

2. *Age.* Applicant shall be at least 21 years of age.

3. *Citizenship.* Applicant shall be a citizen of the United States.

4. *Education.* Applicant shall be able to read, write, speak, and understand the English language.

5. *Physical standards.* Applicant shall meet the physical standards of the second class as prescribed in Part 29 of the Civil Air Regulations: *Provided*, That an applicant who is unable to distinguish aviation signal red, aviation signal green, and white shall be issued an airman certificate appropriately endorsed to prohibit the holder thereof from exercising the privileges of such certificate except under such conditions, or with the use of such equipment, which would not require the ability to distinguish such aviation signal colors.

6. *Knowledge.* Applicant shall pass a written examination on the following subjects:

(a) Those provisions contained in the Civil Air Regulations which are pertinent to the duties of a navigator in the navigation of aircraft;

(b) The fundamentals of flight navigation, including flight planning and cruise control;
(c) Practical meteorology, including the analysis of weather maps, weather reports, and weather forecasts; weather sequence abbreviations, symbols, and nomenclature;
(d) Types of air navigation facilities and procedures in general use;
(e) The calibration and use of instruments used in air navigation;
(f) Navigation by dead reckoning;
(g) Navigation by celestial means;
(h) Navigation by means of radio aids;
(i) Pilotage and map reading;
(j) Interpretation of navigational aid identification signals.

CERTIFICATION RULES

7. *Application.* Application shall be made on a form and in the manner prescribed by the Administrator.

8. *Military competence.* An applicant for a limited flight navigator certificate shall be deemed to have met the knowledge requirements of section 6 and the practical flight training requirements of section 18 of this regulation, if he presents reliable documentary evidence showing that, within twelve months preceding the date of application, he had been honorably discharged or released from the armed forces of the United States and had been either on flying status as a rated navigator for six consecutive months preceding such discharge or release, or graduated from and rated as a navigator by a military navigational flying training school within six months preceding such discharge or release.

9. *Certificate.* No individual shall serve in the flight crew as a limited flight navigator unless he has in his personal possession while so serving a limited flight navigator certificate issued by the Administrator.

10. *Re-examination after failure.* An applicant who has failed any prescribed written or practical examination or test may not apply for re-examination within a 30-day period unless he presents a statement, signed by a certificated flight navigator, a certificated ground instructor, or an equally qualified individual acceptable to the Administrator, which attests that the applicant has received an additional five hours of instruction in each of the subjects failed and that the applicant is considered competent for re-examination.

11. *Medical certificate and renewal.* No individual shall exercise the privileges of a limited flight navigator certificate unless he has in his personal possession while so serving a medical certificate or other evidence satisfactory to the Administrator showing that he has met the physical requirements appropriate to his certificate within the preceding 12 calendar months.

12. *Certificate display.* A limited flight navigator shall, upon request, present his airman and medical certificates for examination by any representative of the Civil Aeronautics Board or Administrator or by any State or local law enforcement officer.

13. *Operation during physical deficiency.* No limited flight navigator shall exercise the privileges of his airman certificate during any period of known physical deficiency or increase in physical deficiency which would render him unable to meet the physical requirements prescribed for the issuance of his currently effective medical certificate.

14. *Change of address.* Within 30 days after any change in the permanent mailing address of a holder of a limited flight navigator certificate, the holder shall notify the Administrator in writing of such change. Such notice shall be mailed to the Administrator of Civil Aeronautics, attention Airman Records Branch, Washington 25, D. C.

15. *Duration.* A limited flight navigator certificate shall remain in effect until the termination date of this regulation, unless sooner surrendered, suspended, revoked, or otherwise terminated by order of the Board. After revocation or termination, and upon request after suspension, the certificate shall be returned to the Administrator.

16. *Identification.* The holder of a certificate issued under the provisions of this regulation shall not, except while engaged in operations conducted by a scheduled air carrier, exercise the privileges conferred by the certificate unless he has in his personal possession a current airman identification card or other identification card acceptable to the Administrator, which duly describes him. The airman identification card may be obtained from the Administrator who shall prescribe its form and the manner of applying for it.

PRIVILEGES AND LIMITATIONS

17. *Practical flight training.* The holder of a limited flight navigator certificate is authorized to utilize his certificate to engage in practical training under the direct supervision of either a fully certificated flight navigator or an equally qualified individual of the armed forces acceptable to the Administrator. Such practical training shall be in scheduled or irregular air carrier operations (including military contract operations), scheduled Military Air Transport Service Operations over routes or route segments on which a flight navigator is a required crew member, or military navigational training flights.

18. *Military contract operations.* The holder of a limited flight navigator certificate who has completed 100 hours of practical flight training (as authorized by section 17) may utilize his certificate to act as flight navigator in military contract operations only: *Provided,* That he has met and maintains the recent flight experience requirements of this regulation.

19. *Recent flight experience requirements.* No limited flight navigator shall perform, or be assigned to perform, flight navigator duties in military contract operations unless:

(a) Within the preceding 12 months he has had at least 50 hours of satisfactory flight experience as a flight navigator or practical flight training as such; and

(b) His certificate has been endorsed by an authorized representative of the Administrator indicating that either a fully certificated flight navigator designated by the Administrator, or an equally qualified individual of the armed forces acceptable to the Administrator, has checked the limited flight navigator during a flight of at least four hours' duration and has determined that he is (1) familiar with all current navigational information pertaining to the operations of the air carrier, or the Military Air Transport Service, and (2) competent to perform the duties of a limited flight navigator with respect to the operating procedures and navigational equipment to be used.

20. *Requalification.* (a) A limited flight navigator having once met the recent flight experience requirements of this regulation, but who fails to maintain the requirements contained in section 19 (a), may within the succeeding 12-month period requalify for military contract operations by meeting the requirements contained in section 19 (a) and (b).

(b) A limited flight navigator who fails to requalify in accordance with paragraph (a) of this section will be required to meet all of the requirements for the original issuance and use of the limited flight navigator certificate.

FLIGHT NAVIGATOR CERTIFICATE

21. *Issuance to limited flight navigator.* The holder of a limited flight navigator certificate who desires to obtain a flight navigator certificate under Part 34 of the Civil Air Regulations shall, upon application therefor and satisfactory demonstration to the Administrator that he has complied with the provisions of §§ 34.6 and 34.8, be issued a certificate under Part 34.

This regulation shall terminate November 28, 1955, unless sooner superseded or rescinded by the Board.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[Regs. 111; T. D. 5942]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

FILING OF JOINT RETURN AFTER SEPARATE RETURN HAS BEEN FILED

On July 17, 1952, notice of proposed rule making with respect to regulations under section 51 (g) of the Internal Revenue Code, as added by section 312 of the Revenue Act of 1951, approved October 20, 1951, was published in the FEDERAL REGISTER (17 F. R. 6561). After consideration of all relevant matter presented by interested persons regarding the rules proposed, the amendments to Regulations 111 (26 CFR Part 29), set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 29.51–1, the following:

SEC. 312. JOINT RETURN AFTER FILING SEPARATE RETURN (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Change of election.* Section 51 of the Internal Revenue Code (relating to making of individual returns) is hereby amended by adding at the end thereof the following new subsection:

(g) *Joint return after filing separate return*—(1) *In general.* If an individual has filed a separate return for a taxable year for which a joint return could have been made by him and his spouse under subsection (b) of this section, and the time prescribed by law for filing the return for such taxable year has expired, such individual and his spouse may nevertheless make a joint return for such taxable year. A joint return filed by the husband and wife in such a case shall constitute the return of the husband and wife for such taxable year, and all payments, credits, refunds, or other repayments made or allowed with respect to the separate return of either spouse for such taxable year shall be taken into account in determining the extent to which the tax based upon the joint return has been paid.

(2) *Payments required before joint return can be made.* A joint return can be made under paragraph (1) only if there is paid in full at or before the time of the filing of the joint return—

(A) All amounts previously assessed with respect to either spouse for such taxable year;

(B) All amounts shown as the tax by either spouse upon his separate return for such taxable year; and

(C) Any amount determined, at the time of the filing of the joint return, as a deficiency with respect to either spouse for such taxable year if, prior to such filing, a notice under section 272 (a) of such deficiency has been mailed.

(3) *Time for making joint return.* A joint return cannot be made under paragraph (1)—

(A) After the expiration of three years from the last date prescribed by law for filing the return for such taxable year (determined without regard to any extension of time granted to either spouse);

(B) After there has been mailed to either spouse, with respect to such taxable year, a notice of deficiency under section 272 (a), if the spouse, as to such notice, files a petition with the Tax Court of the United States within the time prescribed in such section;

(C) After either spouse has commenced a suit in any court for the recovery of any part of the tax for such taxable year; or

(D) After either spouse has entered into a closing agreement under section 3760 with respect to such taxable year, or after any civil or criminal case arising against either spouse with respect to such taxable year has been compromised under section 3761.

(4) *Elections made in separate return.* If a joint return is made under this subsection, any election (other than the election to file a separate return) made by either spouse in his separate return for such taxable year with respect to the treatment of any income, deduction, or credit of such spouse shall not be changed in the making of the joint return where such election would have been irrevocable if the joint return had not been made.

(5) *Death of spouse.* If a joint return is made under this subsection after the death of either spouse, such return with respect to the decedent can be made only by his executor or administrator.

(6) *Additions to the tax.* Where the amount shown as the tax by the husband and wife on a joint return made under this subsection exceeds the aggregate of the amounts shown as the tax upon the separate return of each spouse—

(A) *Negligence.* If any part of such excess is attributable to negligence or intentional disregard of rules and regulations (but without intent to defraud) at the time of the making of such separate return, then 5 per centum of the total amount of such excess shall be assessed, collected, and paid in the same manner as if it were a deficiency;

(B) *Fraud.* If any part of such excess is attributable to fraud with intent to evade tax at the time of the making of such separate return, then 50 per centum of the total amount of such excess shall be so assessed, collected, and paid, in lieu of the 50 per centum addition to the tax provided in section 3612 (d) (2).

(7) *Rules for application of sections 275 and 291.* For the purposes of section 275 (relating to period of limitations upon assessment and collection), and for the purposes of section 291 (relating to delinquent returns), a joint return made under this subsection shall be deemed to have been filed—

(A) Where both spouses filed separate returns prior to making the joint return—on the date the last separate return was filed (but not earlier than the last date prescribed by law for filing the return of either spouse);

(B) Where only one spouse filed a separate return prior to the making of the joint return, and the other spouse had less than $600 of gross income for such taxable year—on the date of the filing of such separate return (but not earlier than the last date prescribed by law for the filing of such separate return); or

(C) Where only one spouse filed a separate return prior to the making of the joint return, and the other spouse had gross income of $600 or more for such taxable year—on the date of the filing of such joint return.

(8) *Rule for application of section 322.* For the purposes of section 322 (relating to refunds and credits), a joint return made under this subsection shall be deemed to have been filed on the last date prescribed by law for filing the return for such taxable year (determined without regard to any extension of time granted to either spouse).

(9) *Additional time for assessment.* If a joint return is made under this subsection, the period of limitations provided in sections 275 and 276 on the making of assessments and the beginning of distraint or a proceeding in court for collection shall with respect to such return include one year immediately after the date of the filing of such joint return (computed without regard to the provisions of paragraph (7) of this subsection).

(10) *Rule for application of section 3809 (a).* For the purposes of section 3809 (a) (relating to criminal penalties in the case of fraudulent returns) the term "return" includes a separate return filed by a spouse with respect to a taxable year for which a joint return is made under this subsection after the filing of such separate return.

(b) *Effective date.* The amendment made by subsection (a) shall be applicable only with respect to taxable years beginning after December 31, 1950.

PAR. 2. Section 29.51–1, as amended by Treasury Decision 5893, approved April 4, 1952, is further amended as follows:

(A) By striking therefrom the second undesignated paragraph of paragraph (b) (1), commencing "A joint return may not be made," and inserting in lieu thereof the following:

With respect to taxable years beginning prior to January 1, 1951, a joint return may not be made by a husband and wife for a taxable year if a separate return has been filed by one of the spouses for such year and the time for filing the return of such spouse has expired. For taxable years beginning after December 31, 1950, see subparagraph (3) of this paragraph. For any taxable year where a joint return has been filed, separate returns may not be made by the spouses after the time for filing the return of either has expired. See, however, subparagraph (2) of this paragraph for the right of an executor to file a late separate return for a deceased spouse and thereby disaffirm a timely joint return made by the surviving spouse.

(B) By inserting in the first sentence of paragraph (b) (2), after "except as provided by section 51 (b), as amended by the Revenue Act of 1948," the following: "or by section 51 (g), as added by the Revenue Act of 1951,".

(C) By inserting immediately preceding the last sentence of the first undesignated paragraph of paragraph (b) (2), which sentence begins "For the purposes of this subparagraph," the following: "Section 51 (g), as added by the Revenue Act of 1951, provides, for taxable years beginning after December 31, 1950, that a joint return may be made, under certain conditions, after separate returns have been filed even though the time prescribed by law for filing the return for such year has expired. See subparagraph (3) of this paragraph. A joint return made under section 51 (g) after the death of either spouse shall, with respect to the decedent, be made only by his executor or administrator. Thus where no executor or administrator has been appointed, a joint return cannot be made under section 51 (g)."

(D) By adding immediately after paragraph (b) (2) the following new subparagraph:

(3) *Joint return after filing separate return*—(i) *In general.* (a) Section 51 (g), as added by the Revenue Act of 1951, provides, for taxable years beginning after December 31, 1950, where an individual has filed a separate return for a taxable year for which a joint return could have been made by him and his spouse under section 51 (b), and the time prescribed by law for filing the return for such taxable year has expired, such individual and his spouse may, under conditions hereinafter set forth, make a joint return for such taxable year. The joint return filed pursuant to section 51 (g) shall constitute the return of the husband and wife for such year, and all payments, credits, refunds, or other repayments, made or allowed with respect to the separate return of either spouse are to be taken into account in determining the extent to which the tax based on the joint return has been paid.

(b) For the purpose of this section, the determination whether an individual is married at any time during the taxable year shall be made in accordance with the provisions of section 51 (b) (5). See subparagraph (1) of this paragraph. The fact that the taxpayer and his spouse are divorced or legally separated at any time after the close of the taxable year for which separate returns are filed shall not deprive them of their right to file a joint return for such taxable year pursuant to section 51 (g).

(ii) *Payments required before joint returns can be made.* A joint return may not be made under section 51 (g) for a taxable year unless at or before the time of the filing of such joint return the following amounts are paid:

(a) All amounts previously assessed with respect to either spouse for such taxable year;

(b) All amounts shown as the tax by either spouse upon his separate return for such taxable year; and

(c) Any amount determined, at the time of the filing of the joint return, as a deficiency with respect to either spouse for such taxable year if, prior to such filing, a notice under section 272 (a) of such deficiency has been mailed.

(iii) *Time for making joint return.* A joint return may not be made under section 51 (g) with respect to a taxable year:

(a) After the expiration of 3 years from the last day prescribed by law for filing the return for such taxable year determined without regard to any extension of time granted to either spouse. Thus where an extension of time for filing returns has been granted by the Commissioner or his representative in accordance with section 53 (a), the extension shall be disregarded in determining the last day upon which a joint return may be filed after separate returns have been filed.

(b) After there has been mailed to either spouse, with respect to such taxable year, a notice of deficiency under section 272 (a), if the spouse, as to such notice, files a petition with the Tax Court of the United States within the time prescribed in section 272 (a), that is, within 90 days (or 150 days if notice is addressed to taxpayer outside the States of the Union and the District of Columbia) after the mailing of the notice, excluding Saturday, Sunday or a legal holiday in the District of Columbia as the ninetieth day;

(c) After either spouse has commenced a suit in any court for the recovery of any part of the tax for such taxable year; or

(d) After either spouse has entered into a closing agreement under section 3760 with respect to such taxable year, or after any civil or criminal case arising against either spouse with respect to such taxable year has been compromised under section 3761.

(iv) *Elections made in separate return.* If a joint return is made under section 51 (g), any election, other than the election to file a separate return, made by either spouse in his separate return for the taxable year with respect to the treatment of any income, deduction or credit of such spouse shall not be changed in the making of the joint return where such election would have been irrevocable if the joint return had not been made. Thus, if one spouse has made an irrevocable election to adopt and use the elective inventory method under section 22 (d), this election may not be changed upon making the joint return under section 51 (g).

(v) *Additions to the tax.* Where the amount shown as the tax by the husband and wife on a joint return made under section 51 (g) exceeds the aggregate of the amounts shown as tax on the separate return of each spouse, and such excess is attributable to negligence, intentional disregard of rules and regulations, or fraud at the time of the making of such separate returns, there shall be assessed, collected, and paid in the same manner as if it were a deficiency an additional amount as provided in the two succeeding sentences. If any part of such excess is attributable to negligence, or intentional disregard of rules and regulations, at the time of the making of such separate return, but without any intent to defraud, this additional amount shall be 5 percent of the total amount of the excess. If any part of such excess is attributable to fraud with intent to evade tax at the time of the making of such separate return, this additional amount shall be 50 percent of the total amount of the excess. The latter addition is in lieu of the 50 percent addition to the tax provided in section 3612 (d) (2).

(vi) *Rules for application of sections 275 and 291.* For the purpose of section 275, relating to the period of limitations upon assessment and collection, and section 291, relating to delinquent returns, a joint return made under section 51 (g) shall be deemed to have been filed, giving due regard to any extension of time granted to either spouse, on the following dates:

(a) Where both spouses filed separate returns, prior to making the joint return under section 51 (g), on the date the last separate return of either spouse was filed for the taxable year, but not earlier than the last date prescribed by law for the filing of the return of either spouse;

(b) Where only one spouse was required and did file a return prior to the making of the joint return under section 51 (g), on the date of the filing of the separate return, but not earlier than the last day prescribed by law for the filing of such return; and

(c) Where both spouses were required to file a return, but only one spouse did so file, on the date of the filing of the joint return under section 51 (g).

(vii) *Rule for application of section 322.* For the purpose of section 322, relating to refunds and credits, a joint return made under section 51 (g) shall be deemed to have been filed on the last date prescribed by law for filing the return for such taxable year, determined without regard to any extension of time granted to either spouse for filing the return or paying the tax.

(viii) *Additional time for assessment.* In the case of a joint return made under section 51 (g), the period of limitations provided in sections 275 and 276 shall not be less than 1 year after the date of the filing of such joint return. The expiration of the 1 year is to be determined without regard to the rules provided in subdivision (vi) of this subparagraph, relating to the application of sections 275 and 291 with respect to a joint return made under section 51 (g).

(ix) *Rule for application of section 3809 (a).* For the purposes of section 3809 (a), relating to criminal penalties in the case of a fraudulent return, the term "return" includes a separate return filed by a spouse for the taxable year for which a joint return is subsequently made under section 51 (g).

PAR. 3. Section 29.275–1, as amended by Treasury Decision 5924, approved August 4, 1952, relating to the period of limitation upon assessment of tax, is further amended by inserting immediately preceding the last paragraph thereof the following:

(r) In the case of a joint return made under section 51 (g), the period of limitations shall not be less than 1 year immediately after the date of the actual filing of such return, computed without regard to the provisions of section 51 (g) (7).

PAR. 4. Section 29.275–2, relating to the period of limitation upon collection of tax, is amended by inserting at the end thereof the following:

(f) In the case of a joint return made under section 51 (g), the period of limitations shall not be less than 1 year immediately after the date of the actual filing of such return, computed without regard to the provisions of section 51 (g) (7).

PAR. 5. Section 29.322–7, as amended by Treasury Decision 5837, approved April 5, 1951, relating to limitations upon the crediting and refunding of taxes paid, is further amended by inserting immediately preceding the last undesignated paragraph of paragraph (a) the following:

In the case of a filing of a joint return under section 51 (g), the joint return shall be deemed to have been filed on the last date prescribed by law for filing the return for such taxable year, determined without regard to any extension of time granted to either spouse for filing the return or paying the tax. See § 29.51–1 (b) (3).

(53 Stat. 32,467; 26 U. S. C. 62, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: October 24, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

Subchapter B—Estate and Gift Taxes

[Regs. 105; T. D. 5941]

PART 81—REGULATIONS RELATING TO ESTATE TAX

DESCRIPTION OF TAX

In order to conform Regulations 105 (26 CFR Part 81) to section 606 of the Revenue Act of 1951, relating to exemption from additional estate tax of members of the armed forces upon death, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately before § 81.2 the following:

SEC. 606. EXEMPTION FROM ADDITIONAL ESTATE TAX OF MEMBERS OF ARMED FORCES UPON DEATH (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 939 (relating to the estate tax treatment of certain members of the armed forces) is hereby amended as follows:

(1) By inserting before the first sentence thereof the following:

(a) *Deaths after December 6, 1941, and before January 1, 1947.*

(2) By adding at the end thereof the following:

(b) *Deaths after June 24, 1950, and before January 1, 1954.* The tax imposed by section 935 shall not apply to the transfer of the net estate of a citizen or resident of the United States dying after June 24, 1950, and before January 1, 1954, while in active service as a member of the armed forces of the United States, if such decedent—

(1) Was killed in action while serving in a combat zone, as determined under section 22 (b) (13); or

(2) Died as a result of wounds, disease, or injury suffered, while serving in a combat zone (as determined under section 22 (b) (13)) and while in line of duty, by reason of a hazard to which he was subjected as an incident of such service.

PAR. 2. Section 81.2, as amended by Treasury Decision 5858, approved September 14, 1951, is further amended as follows:

(A) By striking "Section 939 of the Internal Revenue Code" from the first sentence of paragraph (b) and inserting in lieu thereof "Section 939 (a) of the Internal Revenue Code",

(B) By inserting immediately after the first undesignated subparagraph of paragraph (b) (ending with "incident of military or naval service".) the following undesignated subparagraph:

Section 939 (b) of the Internal Revenue Code, as added by section 606 of the Revenue Act of 1951, provides that the additional estate tax does not apply to the transfer of the net estate of a citizen or resident of the United States dying after June 24, 1950, and before January 1, 1954, while in active service as a member of the armed forces of the United States if the decedent was

(1) Killed in action while serving in a combat zone, as determined under section 22 (b) (13) of the Internal Revenue Code, or

(2) Died as a result of wounds, disease, or injury suffered while serving in such combat zone and while in line of duty, by reason of a hazard to which he was subjected as an incident of such service.

For purposes of section 939 (b), service is performed in a combat zone only if it is performed in an area which the President of the United States has designated by Executive Order for purposes of section 22 (b) (13) as an area in which the armed forces of the United States are, or have, after June 24, 1950, engaged in combat, and only if it is performed on or after the date designated by the President by Executive Order as the date of the commencing of combatant activities in such zone (or on or after June 25, 1950, in the case of the zone designated in Executive Order 10195) and on or before the date designated by the President by Executive Order as the date of termination of combatant activities in such zone.

(C) By amending the first sentence of the third undesignated subparagraph of paragraph (b) (beginning "A person was in active service as a member of the military or naval forces") to read as follows: "A person was in active service as a member of the forces described in section 939 (a) or (b) if he was at the time of his death actually serving in such forces, not necessarily in the field or in the theater of war."

(D) By inserting immediately following the third undesignated subparagraph of paragraph (b) (ending "periods of active service.") the following sentence: "A member of the armed forces in active service in a combat zone who there becomes a prisoner of war or missing in action and occupies such status at death or when the wounds, disease or injury resulting in death were incurred, is considered for purposes of this section as serving in a combat zone."

(E) By striking therefrom the first sentence of the fourth undesignated subparagraph of paragraph (b) and inserting in lieu thereof the following sentence: "For the purposes of this section, the term 'military or naval forces of the United States' and the term 'armed forces of the United States' each includes all regular and reserve components of the uniformed services which are subject to the jurisdiction of the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, or the Secretary of the Air Force. The terms also include the Coast Guard. The members of such forces include commissioned officers and the personnel below the grade of commissioned officer in such forces."

Because of the technical nature of the amendments made herein, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

(53 Stat. 467; 26 U. S. C. 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: October 24, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Overriding Regulation 14, Amdt. 25]

GOR 14—EXCEPTED AND SUSPENDED SERVICES

EXEMPTION OF FEES BY NON-PROFIT CLUBS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.) as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 25 to General Overriding Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

In accord with the policy of the Office of Price Stabilization to concentrate its efforts within the major areas materially affecting the cost of living, the average American family, business costs for the defense program, this Amendment extends the coverage of GOR 14 to include all dues, fees, assessments and charges for services rendered by non-profit clubs. The services covered by this amendment do not enter significantly into the cost of living of the average American family, business costs or the defense program and the continuance of control involves administrative difficulties for the Office of Price Stabilization and the suppliers concerned which are disproportionate in relationship in the value of such control to the price stabilization program.

All charges made by non-profit social and athletic clubs except those rendered for a specific service have already been exempt from control by section 3 (a) (72) of General Overriding Regulation 14. Inasmuch as many of the charges of non-profit social and athletic clubs have already been exempt from price control administrative convenience makes it desirable to broaden the exemption to cover the remaining services. Exemption from price control of these services will not affect the price stabilization program. Furthermore, many non-profit social and athletic clubs are luxury items which have no effect upon the cost of living of the average American family.

In the formulation of this amendment there has been consultation with industry representatives, including trade associations, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended is further amended in the following respects:

1. Paragraph (a) of section 3 is amended by adding at the end thereof the following subparagraph.

(112) All dues, fees, assessments and charges for services rendered to members and their guests by non-profit clubs organized and operated for social and athletic purposes, no part of the earnings of which accrues to the benefit of any private shareholder. Included in this exemption among others are golf clubs, country clubs, and athletic clubs.

(64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 25 to General Overriding Regulation 14 shall be effective October 28, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 28, 1952.

[Ceiling Price Regulation 177]

CPR 177—ALFALFA PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this ceiling price regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes ceiling prices for processors and distributors of alfalfa products.

Alfalfa products are classified as dehydrated (those processed by artificially drying freshly cut green alfalfa) or sun-cured (those processed from hay cured in the field).

Alfalfa is the leading forage crop in the United States and accounts for about a third of the nation's annual hay crop. Although only approximately 2.6 percent of the 1951 alfalfa crop went into the production of alfalfa meal (the major processed alfalfa product), this production for the 1951–52 season amounted to 1,120,600 tons of meal with an estimated value of 56.2 million dollars.

Alfalfa meal is widely used as an ingredient in commercial poultry mashes, and in mixed feeds for swine, dairy calves, and such animals as rabbits. It is also a common ingredient in mixed horse and mule feeds. In terms of feeding value, it contains approximately one and a half times more protein than grains like corn and wheat, and about half as much nitrogen-free extract (carbohydrates). It is principally important nutritionally in providing vitamins necessary to rapid growth, and is one of the chief sources in poultry rations of carotene—a substance supplying Vitamin A.

As alfalfa varies in composition according to the stage of growth of the plant, and as its stability is readily affected by every treatment to which it is later subjected, the enhancement and preservation of protein and carotene have become major industry problems. Carotene is especially perishable. When alfalfa is cured in the field, there is a loss of from 50 to 80 percent of the total carotene present. For this reason, dehydrated alfalfa, which is processed from alfalfa cut green in the field, transported to a nearby plant, dried and ground into meal in a continuous operation not exceeding 1½ hours, has assumed increasing importance in the production picture. But because the cutting season usually ends in September, and the feed manufacturer needs a year round supply of meal, the dehydrator must resort to storage. In order to retard loss of carotene content through oxidative degradation, he uses both cold and inert gas storage and anti-oxidants. In addition, particularly during the non-productive season, some dehydrators blend high carotene or protein meal with lower grades to produce a desired potency of Vitamin A, or a desired level of protein, as well as uniformity of color and grind.

Sun-cured alfalfa meal, however, is not sold on the basis of carotene content; its production, from hay stacked or baled, is quite evenly distributed throughout the year.

Under both the GCPR and CPR 22, there were wide artificial variations in the ceiling prices of even identical types and grades of alfalfa meal. Interim pricing letter orders, issued under CPR 22, while bringing such prices into line (at slightly higher than normal levels because of then prevalent drought and flood conditions), lacked the flexibility and breadth to provide effectively for the more normal variations due to seasonal production, area, and, to a certain extent, protein and carotene content.

The dollar-and-cents ceiling prices established by this regulation for dehydrated meal vary with protein content, and, in keeping with the seasonal pattern of the industry, are graduated according to the month of delivery. Prices reflect cumulative storage charges for the winter months beginning in the Fall and extending through late Spring. Two different areas are recognized to reflect established differences in prices.

Dehydrators are allowed to add to their ceiling prices for meal a fixed amount for bona fide blending, and premiums for carotene content starting with 75,000 international units.

When compared with ceiling prices established for alfalfa meal by letter order under CPR 22, the simple average ceiling prices, under this regulation, for grades of dehydrated straight run meal represent moderate reductions. However, ceiling prices for blended meal will show an increase of $4.00 a ton over prices for the same grade of straight meal. Available information indicates that such an allowance is necessary to permit the continuance of essential blending operations.

Dollar-and-cents prices are established for sun-cured alfalfa meal on a state basis reflecting a fixed processing margin.

Experience has shown that in the ordinary course, and especially under adverse weather conditions of drought or flood, such as characterized the 1951 crop year, the price of baled and stacked alfalfa hay rises sharply. To insulate the sun-cured processor against a "squeeze" resulting from such increase in the cost of hay which would narrow or eliminate his processing margin, this regulation permits him to adjust his ceiling price upward by the amount by which reported state prices exceed state basic prices for baled alfalfa hay. Conversely, where such upward adjustments are made, ceiling prices must follow reported prices downward.

Ceiling prices for other alfalfa products are determined by applying a base period differential to the ceiling price for dehydrated or sun-cured meal.

Distributors determine their ceiling prices by applying fixed dollar-and-cents markups to their suppliers' ceiling prices. The dollar-and-cents markups were based upon information received from distributors and representatives of the mixed feed industry.

It is not believed that this regulation will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of this regulation.

The specifications and standards for alfalfa products used in this regulation, including those used in distinguishing different kinds, grades, and types of products, were, prior to the issuance of the regulation, in general use in the industry. No practicable alternative to the use of these standards exists in securing effective price control of these products.

In the formulation of this regulation there has been extensive consultation with industry representatives, including the Alfalfa Products Industry Advisory Committee and trade association representatives; and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, the provisions of this regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Processors' ceiling prices per ton, bulk, carload quantities, f. o. b. plant for dehydrated and suncured alfalfa meal.
3. Processors' ceiling prices, per ton, bulk, f. o. b. plant for other alfalfa products.
4. Processors' delivered ceiling prices.
5. L. c. l., pelleting and oil differentials.
6. Jobbers' ceiling prices.
7. Wholesalers' and retailers' ceiling prices.
8. Limitation on distributors' markups.
9. Allowances for sacks and sacking.
10. Modification of section 3 ceiling prices by the Director of Price Stabilization.
11. Petitions for amendment.
12. Adjustable pricing.
13. Excise taxes.
14. Transfer of business.

Sec.
15. Records.
16. Compliance with this regulation.
17. Definitions.

AUTHORITY: Sections 1 to 17 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 806, as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does*—(a) *Coverage.* This regulation establishes ceiling prices for sales by processors and distributors of domestic alfalfa products. For the products and sellers covered, this regulation supersedes Ceiling Price Regulation 22, and the General Ceiling Price Regulation.

(b) *Geographical applicability.* This regulation applies in the 48 States of the United States and the District of Columbia.

(c) *Exemptions.* This regulation does not apply to:

(1) Export sales and sales for export. These sales are covered by Ceiling Price Regulation 61.

(2) Sales of imported alfalfa products. These sales are covered by Ceiling Price Regulation 31.

SEC. 2. *Processors' ceiling prices per ton, bulk, carload quantities, f. o. b. plant for dehydrated and sun-cured alfalfa meal.* If you are a processor, your ceiling prices for alfalfa meal, per ton, bulk, carload shipments or pool carlots, f. o. b. your plant, are as follows:

(a) *Dehydrated alfalfa meal*—(1) *Unblended meal without carotene content guarantee.* Your ceiling prices during each month for delivery of grades of dehydrated alfalfa meal set forth in Table I are the prices set forth in the same table for the area in which your plant is located.

TABLE I—PROCESSORS' CEILING PRICES, PER TON, BULK, F. O. B. PLANT, FOR DEHYDRATED ALFALFA MEAL

Months	Alfalfa stem meal	Alfalfa meal				Alfalfa leaf meal 20–22 percent (and less than 18 percent fiber)
		13 percent but less than 15 percent [1]	15 percent but less than 17 percent	17 percent but less than 20 percent	20–22 percent (but over 18 percent fiber)	
AREA 1						
January	$49.50	$62.00	$67.00	$71.00	$77.00	$79.00
February	49.50	62.00	68.50	72.50	78.50	80.50
March	49.50	65.00	70.00	74.00	80.00	82.00
April	49.50	65.00	70.00	74.00	80.00	82.00
May	47.50	54.50	59.50	63.50	69.50	71.50
June	47.50	54.50	59.50	63.50	69.50	71.50
July	47.50	54.50	59.50	63.50	69.50	71.50
August	47.50	54.50	59.50	63.50	69.50	71.50
September	49.50	56.00	61.00	65.00	71.00	73.00
October	49.50	57.50	62.50	66.50	72.50	74.50
November	49.50	59.00	64.00	68.00	74.00	76.00
December	49.50	60.50	65.50	69.50	75.50	77.50
AREA 2						
January	$43.50	$56.00	$61.00	$65.00	$71.00	$73.00
February	43.50	56.00	62.50	66.50	72.50	74.50
March	43.50	59.00	64.00	68.00	74.00	76.00
April	43.50	59.00	64.00	68.00	74.00	76.00
May	41.50	48.50	53.50	57.50	63.50	65.50
June	41.50	48.50	53.50	57.50	63.50	65.50
July	41.50	48.50	53.50	57.50	63.50	65.50
August	41.50	48.50	53.50	57.50	63.50	65.50
September	43.50	50.00	55.00	59.00	65.00	67.00
October	43.50	51.50	56.50	60.50	66.50	68.50
November	43.50	53.00	58.00	62.00	68.00	70.00
December	43.50	54.50	59.50	63.50	69.50	71.50

[1] Percentages refer to percentage of protein content except where they specifically refer to fiber.

(2) *Blended alfalfa meal.* Your ceiling price for blended, dehydrated alfalfa meal, as defined in section 17 (b) (4), is the price listed in Table I for the same grade of unblended alfalfa meal for the area in which your plant is located, plus $4.00 per ton.

(3) *Carotene content.* (i) If, upon delivery, a lot of your dehydrated alfalfa meal contains less than 50,000 international units of Vitamin A as carotene content, deduct $2.00 per ton from your ceiling price.

(ii) If, for any deliveries made during the months of January, February, March, April, October, November and December, you guarantee the carotene content of dehydrated alfalfa meal at the minimum amounts specified in Table II, and, upon delivery, you meet that guarantee, you may add to your ceiling price the amount allowable under Table II:

TABLE II—DIFFERENTIALS FOR MINIMUM GUARANTEES OF VITAMIN A AS CAROTENE CONTENT

Vitamin A as carotene content	Amount per ton to be added to ceiling prices
First 75,000 International units	$2.50
Each 25,000 above 75,000 International units	2.50

(iii) If, upon delivery, your lot of dehydrated meal fails to meet your minimum carotene guarantee, deduct from your ceiling price for the minimum guarantee 20 cents per ton for each 1,000 I. U. (or part thereof) deficiency in Vitamin A as carotene content.

(b) *F. o. b. ceiling prices for sun-cured alfalfa meal*—(1) *No. 1–13 percent protein content meal.* Your ceiling price for No. 1–13 percent protein sun-cured alfalfa meal is the price set forth in Table III for the state in which your plant is located.

TABLE III—PROCESSORS' CEILING PRICES, PER TON, BULK, FOR NO. 1—13 PERCENT PROTEIN SUN-CURED ALFALFA MEAL

State	F. o. b. plant price, per ton	State	F. o. b. plant price, per ton
Alabama	$57.39	New Jersey	$54.70
Arizona	47.53	New Mexico	47.12
Arkansas	50.56	New York	49.55
California	48.67	Nebraska	43.38
Colorado	45.51	Nevada	47.47
Idaho	45.72	North Dakota	42.00
Illinois	47.04	Ohio	48.23
Indiana	46.56	Oklahoma	47.09
Iowa	45.64	Oregon	49.58
Kansas	43.94	Pennsylvania	51.20
Kentucky	50.95	South Dakota	43.89
Louisiana	52.85	Tennessee	51.41
Michigan	45.61	Texas	53.11
Minnesota	45.21	Utah	47.70
Mississippi	53.17	Washington	49.48
Missouri	46.73	Wisconsin	47.70
Montana	46.21	Wyoming	47.41

(2) *Other grades.* Your ceiling price f. o. b. your plant for a grade of sun-cured alfalfa meal set forth in Table IV is the ceiling price for No. 1–13 percent protein meal (determined under subparagraph (1) of this paragraph), as adjusted by the applicable differential in Table IV.

TABLE IV—DIFFERENTIALS PER TON FOR OTHER GRADES OF SUN-CURED ALFALFA MEAL

Grade	Amount per ton to be added or subtracted from ceiling price for No. 1–13 percent protein meal
No. 1—15 percent protein content	Add $3.00.
No. 1—17 percent protein content	Add $7.00.
No. 1—20 percent protein content	Add $12.00.
No. 2—13 percent protein content	Subtract $5.00.

(3) *Adjustments in sun-cured alfalfa meal ceiling prices.* (i) You may increase your ceiling price under subparagraph (1) or (2) of this paragraph by the dollars and cents amount per ton by which the "reported alfalfa hay price" for the state in which your plant is located exceeds the "basic price" of alfalfa hay for the same state, as set forth in Table V.

TABLE V—"BASIC PRICES" OF BALED ALFALFA HAY

State	Price per ton	State	Price per ton
Alabama	$41.09	New Jersey	$38.40
Arizona	31.23	New Mexico	30.82
Arkansas	34.26	New York	33.25
California	32.37	Nebraska	27.08
Colorado	29.21	Nevada	31.17
Idaho	29.42	North Dakota	25.70
Illinois	30.74	Ohio	31.93
Indiana	30.26	Oklahoma	30.79
Iowa	29.34	Oregon	33.28
Kansas	27.64	Pennsylvania	34.90
Kentucky	34.65	South Dakota	27.59
Louisiana	34.03	Tennessee	35.11
Michigan	29.31	Texas	36.81
Minnesota	28.91	Utah	31.40
Mississippi	36.67	Washington	33.18
Missouri	30.43	Wisconsin	31.40
Montana	29.91	Wyoming	31.11

(ii) "Reported alfalfa hay price" means the most recent reported price received by farmers for baled alfalfa hay in the State in which the processor's

plant is located, as set forth in Agricultural Prices (published monthly by the Bureau of Agricultural Economics of the U. S. Department of Agriculture).

(iii) If you have made any upward adjustment of your ceiling prices under subdivision (i) of this subparagraph and any subsequent "reported alfalfa hay price" is less than the "reported alfalfa hay price" upon which you have based the last adjustment in your ceiling price, you must, within 10 days after the date of the issue of Agricultural Prices in which such subsequent reported price is set forth, revise your adjusted ceiling price downward by using the method set out in subdivision (i) of this subparagraph. You must apply your ceiling, as revised downward in this manner, to all deliveries made on and after the date you are required to put such ceiling price into effect.

(c) *Failure to meet minimum protein guarantees.* (1) Except as provided in subparagraph (2) of this paragraph, if you guarantee the minimum protein content of a lot of alfalfa meal, and, upon delivery, you fail to meet that guarantee, deduct $2.00 per ton from your ceiling price for each unit of protein (or fraction thereof) by which the protein content fails to meet the guarantee.

(2) If, upon delivery, the deficiency in the protein content guaranteed is such as to result in a different grade of alfalfa meal, your ceiling price per ton is the applicable ceiling price for that different grade.

Example. You are a processor of dehydrated alfalfa meal whose plant is located in Area 1. You guarantee that a lot of your meal has a 17 percent protein content. You make no guarantee of its Vitamin A as carotene content. Upon delivery and analysis in the month of February, the meal is found to have a protein content of less than 17 percent but more than 15 percent. Accordingly, your f. o. b. ceiling price for the lot of the actual protein content, as set forth in Table I is $68.50 per ton, and not the $72.50 per ton price for 17 percent protein content meal.

SEC. 3. *Processors' ceiling prices, per ton, bulk, f. o. b. plant for other alfalfa products.* If you are a processor, establish your per ton, bulk, f. o. b. plant ceiling price for any other alfalfa product (including chopped alfalfa, cut alfalfa, and any other product not meeting the specifications in this regulation of any grade of alfalfa meal because of the presence of too much crude fiber or otherwise), by the first of the following methods which you are able to use:

(a) *Method 1.* (1) Determine the dollar-and-cents difference per ton, for any month during the period September 1, 1950 through December 31, 1950, between your highest f. o. b. price for your alfalfa product and your highest f. o. b. price for alfalfa meal of any selected protein content. Such meal must be a dehydrated meal if your alfalfa product is processed by dehydration, or a suncured meal if your alfalfa product is processed from suncured alfalfa.

(i) If your prices during this period were set on a delivered basis, convert them to an f. o. b. basis by deducting the transportation costs per ton you actually incurred from your plant to the point of delivery.

(ii) Both prices you use in determining the highest dollar-and-cents difference must be prices for sacked lots or for bulk lots.

(2) (i) If your alfalfa product is processed by dehydration, calculate your ceiling price during each month of delivery by applying the dollar-and-cents difference obtained under subparagraph (1) of this paragraph to the ceiling price for the same month under section 2 (a) for the dehydrated meal of the same guaranteed carotene content (if any) and the same protein content as you selected in subparagraph (1).

(ii) If your alfalfa product is processed from suncured alfalfa, apply the dollar-and-cents difference in subparagraph (1) to the applicable suncured alfalfa meal ceiling price under section 2 (b) (1) or (2) in arriving at your ceiling price for that product.

(iii) If you wish, you may instead apply the dollar-and-cents difference in subparagraph (1) to the applicable suncured alfalfa meal ceiling price under section 2 (b) (1) or (2) as adjusted under section 2 (b) (3); but if you elect to do this you must recalculate your ceiling price in accordance with the subsequent adjustments provided for in section 2 (b) (3).

(b) *Method 2.* (1) If you claim you are unable to determine your ceiling price for an alfalfa product under the foregoing provision of this regulation, you may apply by registered mail, return receipt requested, to the Grains and Related Products Branch, Office of Price Stabilization, Washington 25, D. C., for the establishment of a ceiling price. Your application should contain the following:

(i) Your name and business address;

(ii) A reference to this section and a statement as to why you are unable to establish your ceiling price under the other provisions of the regulation;

(iii) The name, description and a chemical analysis of the product for which you request the establishment of a ceiling price;

(iv) A breakdown of your unit direct costs of production;

(v) Your proposed ceiling price and the reason why you believe that price is in line with the ceiling prices otherwise established under this regulation.

(2) You may begin to sell your alfalfa product as soon as the Director of Price Stabilization notifies you, in writing, of your ceiling price.

SEC. 4. *Processors' delivered ceiling prices.* If you are a processor, your delivered ceiling price is your f. o. b. ceiling price plus your transportation cost from your plant.

SEC. 5. *L. c. l. pelleting and oil differentials.* If you are a processor and you make a sale of a less-than-carload lot, or pellet or treat a lot of an alfalfa product with oil, add to your ceiling price the applicable markup set forth in Table VI.

TABLE VI—L. C. L., PELLETING AND OIL DIFFERENTIALS PER TON

	Amount per ton to be added to the ceiling price
L. c. l. sales	$1.00
Pelleting	3.00
Oil	[1] 1.00

[1] Plus the actual cost of the oil not to exceed its ceiling price.

SEC. 6. *Jobbers' ceiling prices.* If you are a jobber, your ceiling price per ton for a lot of an alfalfa product is your supplier's ceiling price on the sale to you, your transportation cost, if any, and the applicable markup listed in Table VII.

TABLE VII—JOBBERS' MARKUPS

Type of deliveries	Markup per ton
For deliveries in pool carlots	$2.25
For all other deliveries	2.00

SEC. 7. *Wholesalers' and retailers' ceiling prices.* (a) If you are a wholesaler or retailer, you determine your ceiling price by adding to your "cost at ceiling," as determined under paragraph (b) of this section, your transportation cost, if any, from your warehouse or store and the applicable markup set forth in Table VIII.

TABLE VIII—MARKUPS FOR WHOLESALERS AND RETAILERS

	Markup per ton
Wholesalers	$5.00
Retailers	9.00

(b) Determine your "cost at ceiling" for an alfalfa product by one of the following methods:

(1) *Method 1.* If you maintain the identity of any receipt, you may use as your "cost at ceiling" your supplier's ceiling price to you for that receipt plus your transportation cost, if any, to your warehouse or store. You may use this method of determining your "cost at ceiling" even though you are simultaneously determining your "cost at ceiling" for resale of other receipts under Method 2.

(2) *Method 2.* You may use this method for the resale of any two or more receipts. In using it, you may not include in your calculations any receipt whose identity is maintained and for which you figure a "cost at ceiling" under Method 1 above.

For receipts of an alfalfa product in sacks, use as your "cost at ceiling" the weighted average of your supplier's ceiling prices for deliveries to you in sacks plus your transportation costs, if any, to your warehouse or store. Determine your "cost at ceiling" for receipts in bulk by the same method. Calculate each weighted average of ceiling prices as follows:

(i) Select a day for calculation and recalculate on that day each week thereafter (or, in case that day falls on a legal holiday, recalculate on the next business day).

(ii) Make your first calculation under this Method 2 as follows:

Step 1. Take your latest receipt prior to the day of calculation delivered to you on the basis (sacked or bulk) for which you are calculating a weighted average of ceiling prices, and all receipts delivered to you on the same basis for the 28 days preceding that last receipt.

Step 2. Multiply the number of tons of each receipt by your supplier's ceiling price per ton to you for that receipt and add to this amount your transportation cost for the receipt, if any, to your warehouse or store.

Step 3. Add the results obtained under Step 2 and divide by the total number of tons involved in your calculations. The result is your "cost at ceiling" for the first week for all your sales of that alfalfa product (except, of course, for the sales for which you elect to determine your ceiling price under Method 1).

(iii) Follow the directions of subdivisions (i) and (ii) of this subparagraph for all weekly recalculations except that you use your last receipt prior to that day of calculation and all receipts during the 14 day period preceding such last receipt in arriving at your "cost at ceiling."

(iv) If you wish to discontinue the use of Method 2 for an alfalfa product, you may do so if, on your next recalculation day, you take an inventory of the product. You may then treat the amount in inventory (excluding any receipts priced under Method 1) as a receipt on which your "cost at ceiling" is the weighted average price you would compute under this Method 2 for the succeeding week. If some of your receipts are bulk and some sacked, calculate separate weighted averages for these two types of receipts.

SEC. 8. *Limitation on distributors' markups.* Only one markup by a jobber and one markup by a wholesaler are permitted under this regulation in connection with the sale of any lot of an alfalfa product. Accordingly:

(a) If you are a jobber and you buy a lot which another jobber has handled, your ceiling price is your supplier's ceiling price to you plus your transportation cost, if any, and not your ceiling price as determined under section 6.

(b) If you are a wholesaler and you buy a lot which another wholesaler has handled, your ceiling price is your supplier's ceiling price to you plus your transportation cost, if any, to and from your warehouse or store. You must, of course, exclude such lot from the calculation of any "cost at ceiling" under section 7 of this regulation.

SEC. 9. *Allowances for sacks and sacking.* If you are a processor and you sell and deliver an alfalfa product in sacks, or if you are a wholesaler or retailer and you sack an alfalfa product which you buy in bulk, you may add to your ceiling price, per ton, bulk, as otherwise determined under this regulation, the following:

(a) $1.00 per ton, plus

(b) The lower of the following:

(1) An amount consisting of the cost per sack of your most recent customary purchase of sacks of the kind, size, and condition (new or used) used for the lot, multiplied by the number of sacks furnished per ton of the alfalfa product you deliver; or

(2) The applicable allowance per ton from the following table:

TABLE IX—DOLLAR-AND-CENTS BAG ALLOWANCES PER TON

Bag size	Burlap				Cotton		Paper		"Cottes" [1]	
	New		Used		New	Used	New	Used	"Once used"	"Alfalfa used"
	7½ ounces	10 ounces	7½ ounces	10 ounces						
45 x 74	$6.00		$5.40		$7.20	$5.30				
40 x 60		$5.40		$4.70	6.70					
40 x 58		5.20		4.40	6.40	5.00				
45 x 60	4.80		4.40							
40 x 47	3.80	3.85		3.50	5.40	4.50				
18 x 4½ x 39 printed							$1.00	$1.40		
									$4.40	$3.80

[1] Bags in which coffee beans have been imported.

SEC. 10. *Modification of section 3 ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may, at any time, request further information concerning ceiling prices on products covered in section 3 of this regulation and he may also, at any time, modify or disapprove any section 3 ceiling price if he finds it was not properly established or not in line with the level of ceiling prices otherwise established under this regulation.

SEC. 11. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revised (16 F. R. 4974).

SEC. 12. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 13. *Excise taxes.* If you have customarily separately stated and collected any excise or similar tax, you may continue to collect the current amount of any such tax in addition to your ceiling price. If you did not customarily state and collect separately from the purchase price the amount of tax paid by you, you may not collect the amount of such tax in addition to your ceiling price. In the case of such tax imposed after the effective date of this regulation, if at the time you calculate your ceiling price the statute or ordinance imposing the tax does not prohibit you from stating and collecting the tax separately from the purchase price, you may collect in addition to your ceiling price, the amount of the tax actually paid by you. In every case where the tax is collected from the purchaser, the amount thereof shall be separately stated.

SEC. 14. *Transfer of business.* If, after the effective date of this regulation, you acquire the business, assets or stock-in-trade of any alfalfa product business and carry on the business or continue to deal in any alfalfa product separately from any other establishment previously owned or operated by you, you shall have the same ceiling prices and be under the same obligation to keep records as the person from whom you acquired the business, assets or stock. If, after the effective date of this regulation, you transfer your business assets or stocks, you must either preserve and make available, or turn over to the transferee all records which are necessary for him to comply with the ceiling price or record provisions of this regulation.

SEC. 15. *Records.* Except as otherwise provided in this section, every person who sells and every person who in the course of business buys an alfalfa product shall keep for inspection by the Office of Price Stabilization for a period of two years accurate records of each sale or purchase made after the effective date of this regulation.

(a) *Sales*—(1) *General.* Every person making a sale under this regulation to a buyer other than a feeder shall record each sale on an invoice or bill of sale, a copy of which must be given to the buyer. Every person making a sale to a feeder in a lot of more than 1,000 pounds must keep a record thereof, although it does not have to be in the form of an invoice or bill of sale, and, upon demand, must give a copy of the record to the feeder. Each record must indicate: the name and address of the seller and buyer; the date of sale and delivery; the kind and grade of the alfalfa product and the quantity sold; the selling price; the protein and Vitamin A as carotene content, and the guarantee, if any, of protein and Vitamin A content; the blending charge, if any; and the seller's ceiling price for the lot. Except for sales of 5,000 pounds or less, every sales record must also indicate: the point at which the lot was produced (if the seller knows it); the buyer's receiving point; any charge for sacks and sacking, for pelleting or for treating the lot with oil; any transportation charge included in the ceiling price which is incurred by the seller in making delivery to his buyer; and any markup specified in this regulation which is added by the seller.

(2) *Processors pricing under Method 1 of section 3.* In addition to the sales records which he is required to give his

buyer under subparagraph (1) of this paragraph, each processor who has established his ceiling price for an alfalfa product under Method 1 of section 3 of this regulation must keep the sales records upon which he based the dollar-and-cents difference between a grade or type of his alfalfa meal and the alfalfa product priced under Method 1.

(3) *Wholesalers and retailers.* In addition to the sales records which he is required to keep under subparagraph (1) of this paragraph, every wholesaler or retailer electing to apply Method 2 under section 7 must keep the calculations of each "cost at ceiling" used under that method.

(b) *Purchases.* Every person other than a feeder making a purchase of an alfalfa product in the course of trade or business must keep the sales record which his seller is required to give him under this section.

SEC. 16. *Compliance with this regulation.*—(a) *Prohibitions.* On and after the effective date of this regulation, regardless of any contract or other obligation, no person shall sell or deliver and no person shall buy or receive in the course of trade or business any product covered by this regulation at prices higher than the ceiling prices fixed by this regulation, and no person shall agree, offer, solicit, or attempt to do anything prohibited in this section.

(b) *Evasion.* The ceiling prices established by this regulation shall not be evaded in any manner, either by direct or indirect methods in connection with the purchase, sale, delivery, or transfer of alfalfa products or in conjunction with any other commodity, or by way of any commission, service, transportation or any other charge or discount, premium, or other privilege, or by tie-in requirements or other trade understanding.

(c) *Enforcement.* Any person who violates any provision of this regulation is subject to the criminal penalties, civil enforcement actions, and suits for damages provided by the Defense Production Act of 1950, as amended.

SEC. 17. *Definitions.*—(a) *Areas.* (1) "Area 1" includes all that territory lying east of Lake Michigan and of the eastern Illinois-western Indiana State borders and east of a line drawn due south from the junction of the Wabash and Ohio Rivers to the Gulf of Mexico.

(2) "Area 2" includes all that territory lying west of the boundary of Area 1.

(b) *Products covered.* (1) "Alfalfa meal" means the product obtained by grinding alfalfa hay which is reasonably free of other crop plants, weeds and mold. It must not contain more than 33 percent of crude fiber.

(2) "Alfalfa leaf meal" means the ground product, consisting chiefly of alfalfa leaves. It must be reasonably free of other crop plants and weeds and shall contain not less than 20 percent crude protein and not more than 18 percent crude fiber.

(3) "Alfalfa stem meal" means the ground product remaining after the separation of the leafy material from alfalfa hay or meal. It must be reasonably free of other crop plants and weeds.

(4) "Blended dehydrated alfalfa meal" means that meal resulting from the mixing of two or more grades of dehydrated alfalfa meal of known protein, fiber and vitamin content, and color and grind characteristics, as a separate process following dehydration so that the resultant blend of meal shall: (i) be uniform in one or more of these factors, and, (ii) contain at least 100,000 I. U. of vitamin A as carotene. It shall not be construed as the product resulting from the commingling of two or more grades of freshly cut, undried alfalfa prior to or simultaneously with dehydration, or that meal which results from the "feeding back" or the introducing of one or more grades of dehydrated meal into the stream while dehydration and grinding is taking place prior to sacking, loading or storing.

(5) "Chopped alfalfa" means chopped alfalfa hay which is reasonably free of other crop plants, weeds and mold and which is not ground finely enough to become meal.

(6) "Cut alfalfa" means cut alfalfa hay which is reasonably free of other crops, weeds and mold and is not ground finely enough to become meal.

(7) "Dehydrated alfalfa meal" means any alfalfa meal processed from freshly cut alfalfa having a moisture content of not less than 50 percent which has been artificially dried at a temperature of at least 100 degrees C. or 212 degrees F., provided that such drying process covers a period of not more than forty minutes and that there be no admixture of sun-cured alfalfa.

(8) "Sun-cured alfalfa meal" means any alfalfa meal processed from alfalfa hay which has been mowed and cured in the field where grown under existing atmospheric conditions.

(i) No. 1 Sun-cured alfalfa meal means that meal processed from whole alfalfa hay of a fair green color, sound and sweet; it must be reasonably free from other plants, weeds or mold, and must contain not less than 13 percent protein and 1 percent fat, and not more than 33 percent crude fiber and 11 percent moisture.

(ii) No. 2 Sun-cured alfalfa meal means that meal processed from whole alfalfa hay of a fair color—not distinctly brown—sound and sweet; it must be reasonably free from other plants, weeds or mold, and must contain not less than 13 percent protein and 1 percent fat, and not more than 33 percent crude fiber and 11 percent moisture.

(9) "Alfalfa product" includes any product enumerated in subparagraphs (1)–(8) of this paragraph, and any other product (except chlorophyll) derived exclusively from alfalfa hay and/or freshly cut alfalfa.

(c) *Sellers and related terms.* (1) "Jobber" means, with respect to any lot, a person other than the processor who sells such lot without having previously unloaded it into a warehouse or store.

(2) "Feeder" means, with respect to any lot, a person who uses such lot for feeding animals or poultry.

(3) "Processor" means, with respect to any lot, a person who manufactures that lot from alfalfa hay or freshly cut alfalfa or one who further processes that lot. When any alfalfa product is processed (or further processed) by a person who does not own it, the owner on whose behalf the product was processed (or further processed) shall be deemed to be the processor when he sells the resulting product.

(4) "Retailer" means a person, other than the processor, who maintains a "store", and who, with respect to any lot he has purchased and unloaded into the store resells such lot to a feeder.

(5) "Store" means a building where a regular business of selling and delivering feeds or grain at retail is carried on, and where the owner or one or more of his employees work on substantially a full-time, year-round basis in such retail business or in a general retail business of which such feed or grain business is a part.

(6) "Wholesaler" means, with respect to any lot:

(i) Any person, other than a processor who, after having unloaded it into a warehouse or store, sells such lot to anyone other than a feeder, or

(ii) A person, other that a processor, who does not maintain a store and who, after having unloaded it into a place of business other than a store, sells such lot to a feeder.

(7) "You" means a person subject to this regulation.

(8) "Person" includes any individual, corporation, partnership, association, or any other organized group of persons, or legal successors or representatives of the foregoing, and the United States or any other government or their political subdivisions or agencies.

(d) *Transportation terms.* (1) "Carload shipment" means a lot which, when shipped by rail, takes a carload rate under the applicable railroad tariff requirements, and includes mixed car shipments taking such rate.

(2) "Pool carlot" means a lot being shipped to the buyer as part of a rail carload shipment sold by one seller to two or more persons.

(3) "Less-than-carload lot" means any lot of less than a carload shipment other than a pool carlot. It includes any delivery by or into a truck.

(4) "Transportation cost" means:

(i) When a common carrier, contract carrier, or other carrier for hire or compensation is employed, the charges (exclusive of loading charges not customarily included in such transportation charges) which are actually incurred by the seller or purchaser, as the case may be. This amount may include, if applicable, the 3 percent transportation tax.

(ii) Where the seller or purchaser, as the case may be, does his own hauling, the reasonable value of the transportation service (exclusive of loading), not exceeding the common or contract carrier rate for the same service or any

ceiling price established by the Office of Price Stabilization for such service.

(iii) When any movement involves a combination of the types of transportation included in (i) and (ii), the sum of the amounts computed separately for each portion of the movement.

(e) *General.* (1) An "international unit" of Vitamin A as carotene content means the specific Vitamin A activity contained in one pound of alfalfa meal, as determined by the method prescribed in 1952 Official Publication of the Association of American Feed Control Officials.

(2) "Unit of protein" equals one percent of protein and "each unit of protein or fraction thereof" means the number of full units, if any, plus an additional unit for any fractional unit.

Effective date. This regulation becomes effective November 1, 1952.

NOTE: The record-keeping and report requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 27, 1952.

[F. R. Doc. 52-11663; Filed, Oct. 27, 1952; 4:38 p. m.]

[Ceiling Price Regulation 5, Collation 2]

CPR 5—IRON AND STEEL SCRAP

COLL. 2—INCLUDING AMENDMENTS 1–11

Ceiling Price Regulation 5 is republished to incorporate the texts of Amendments 1 through 11, inclusive. Ceiling Price Regulation 5 was issued February 5, 1951 (16 F. R. 1061). Statements of Consideration for Ceiling Price Regulation 5, and for Amendments 1–11, inclusive, as previously published, are applicable to this republication. The effective dates of this regulation and of the amendments are shown in a note preceding the first section of the regulation.

SCOPE OF THE REGULATION

Sec.
1. Prohibitions against dealing in iron and steel scrap at prices above the ceiling.
2. Geographical application.

CEILING PRICES

3. Basing point prices for steel scrap of dealer and industrial origin.
4. Ceiling shipping point prices for steel scrap of dealer and industrial origin.
5. Switching charge deductions.
6. Ceiling delivered prices for shipment by rail, vessel, or combination thereof, for steel scrap of dealer and industrial origin.
7. Basing point prices for steel scrap of railroad origin.
8. Ceiling on-line prices for steel scrap of railroad origin.
9. Ceiling delivered prices for shipment by rail, vessel, or combination thereof, for steel scrap of railroad origin.
10. Ceiling prices for railroad steel scrap sold by sellers other than railroads.
11. Ceiling shipping point for all cast iron scrap.
12. Ceiling delivered prices for shipment by rail, vessel, or combination thereof, for all cast iron scrap.
13. Ceiling prices for shipment by truck for all steel or cast iron scrap.

GENERAL PROVISIONS

14. Unlisted grades.
15. Intransit preparation.
16. Ceiling preparation charges.
17. Premium for alloy content.
18. Mixed shipments.
19. Commissions.
21. Transportation.
22. Weights to govern.

SPECIFICATIONS

23. Steel grades of dealer and industrial origin.
24. Steel grades of railroad origin.
25. All cast iron grades.

MISCELLANEOUS PROVISIONS

26. Imported scrap.
27. Exported scrap.
28. Definitions.
29. Records and reports.
30. Less than ceiling prices.
31. Evasion.
32. Enforcement.
33. Petitions for amendment.

AUTHORITY: Sections 1 to 33 issued under 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

DERIVATION: Sections 1–33 contained in Ceiling Price Regulation 5, February 5, 1951 (16 F. R. 1061), except as otherwise noted in brackets following text affected.

EFFECTIVE DATES: CPR 5, February 7, 1951, 16 F. R. 1061.

Amendment 1, March 2, 1951, 16 F. R. 2725.
Amendment 2, April 24, 1951, 16 F. R. 3480.
Amendment 3, September 5, 1951, 16 F. R. 8886.
Amendment 4, October 22, 1951, 16 F. R. 10597.
Amendment 5, October 30, 1951, or such earlier date between October 23, 1951 and October 30, 1951, as the seller may select. If a seller select such an earlier date, this amendment in its entirety becomes effective as to him for all his sales and deliveries covered by Ceiling Price Regulation 5. 16 F. R. 10808.
Amendment 6, December 24, 1951, 16 F. R. 12713.
Amendment 7, February 5, 1952, 17 F. R. 961.
Amendment 8, July 12, 1952, 17 F. R. 6146.
Amendment 9, August 2, 1952, 17 F. R. 6954.
Amendment 10, August 2, 1952, 17 F. R. 6956.
Amendment 11, October 22, 1952, 17 F. R. 9240.

SCOPE OF THE REGULATION

SECTION 1. *What this regulation does and prohibitions.* (a) This regulation establishes ceiling prices and fees for:

(1) All sales and deliveries, including export sales and sales for export, by any person of prepared and unprepared iron and steel scrap;

(2) Intransit preparation of iron and steel scrap;

(3) Brokerage service on sales of iron and steel scrap.

(b) *Prohibitions against dealing in iron and steel scrap at prices above ceiling.* On and after October 30, 1951, regardless of any contract or other obligations:

(1) No person shall sell, deliver, buy, receive, or prepare iron or steel scrap or agree, offer, solicit, or attempt to do any of the foregoing at prices above those established in this regulation;

(2) No person shall sell or deliver iron or steel scrap upon condition that the buyer shall sell or deliver to any person any other commodity. No person shall buy or receive iron or steel scrap upon the conditions that he shall sell or deliver to any person any other commodity;

(3) No person shall act as both broker and dealer in the purchase of any single lot or item of iron or steel scrap where the price paid for such lot or item of iron or steel scrap would exceed the applicable ceiling price established by this regulation.

[Section 1 amended by Amdts. 2 and 5]

SEC. 2. *Geographical application.* This regulation shall apply to sales, deliveries, and preparation of iron or steel scrap in the forty-eight States of the United States, its territories and possessions and the District of Columbia.

[Section 2 amended by Amdt. 3]

CEILING PRICES

SEC. 3. *Basing point prices for steel scrap of dealer and industrial origin.*—(a) *Basing point prices from which maximum shipping prices are computed.*—(1) *Basing point prices for the base grade, No. 1 bundles, Grade 1:*

[Headnote (1) amended by Amdt. 5]

Basing point:	Price per gross ton
Alabama City, Ala	$39.00
Ashland, Ky	42.00

(2) *Differentials per gross ton above or below the price of Grade 1 (No. 1 bundles) for other grades of steel scrap.*

OPEN HEARTH AND BLAST FURNACE GRADES

Grades	Differentials
2. No. 1 busheling	Base
3. No. 1 heavy melting steel	—$1.00
4. No. 2 heavy melting steel	—1.00
5. No. 2 bundles	—1.00
6. Machine shop turnings	—10.00
7. Mixed borings and short turnings	—6.00
8. Shoveling turnings	—6.00
9. No. 2 busheling	—4.00
10. Cast iron borings	—6.00

ELECTRIC FURNACE AND FOUNDRY GRADES

11. Billet, bloom and forge crop	+7.50
12. Bar crops and plate scrap	+5.00
13. Cast steel	+5.00
14. Punchings and plate scrap	+2.50
15. Electric furnace bundles	+2.00
16. Cut structural and plate scrap 3' and under	+3.00
17. Cut structural and plate scrap 2' and under	+5.00
18. Cut structural and plate scrap 1' and under	+6.00
19. Briquetted cast iron borings	Base
20. Foundry steel, 2' and under	Base
21. Foundry steel, 1' and under	+2.00
22. Springs and crankshafts	+1.00
23. Alloy free turnings	—3.00
24. Heavy turnings	—1.00
25. Briquetted turnings	Base
26. No. 1 chemical borings	—3.00
27. No. 2 chemical borings	—4.00
28. Wrought iron	+10.00
29. Shafting	+10.00
30. [Deleted by Amendment 7]	
31. Old tin and terne plate bundles	—10.00

UNPREPARED GRADES

32. Unprepared steel scrap which when compressed constitutes No. 1 bundles	—6.00
33. Unprepared steel scrap which when compressed constitutes No. 2 bundles	—9.00
34. Unprepared steel scrap other than material suitable for hydraulic compression	—8.00
35. Automobiles, buses, trucks, trailers and other motor vehicles	—12.00

[Subparagraph (2) amended by Amdts. 4, 5, 6, 7 and 9]

(b) *Restrictions on use.* (1) The prices established for Grade 11 (billet, bloom, and forge crops) and Grade 23 (alloy free turnings) may be charged only when shipped to a consumer directly from an industrial producer of such grades; otherwise the ceiling prices for Grade 11 shall not exceed the price established for Grade 12 (bar crops and plate scrap) and the ceiling price for Grade 23 shall not exceed the price established for Grade 8 (shoveling turnings).

[Subparagraph (1) amended by Amdt. 2]

(2) The prices established for Grade 26 (No. 1 chemical borings) and Grade 27 (No. 2 chemical borings) may be charged only when such grades are sold for use for chemical or annealing purposes, and in the case of Grade 27, for briquetting and direct charge into an electric furnace; otherwise the ceiling prices for such grades shall not exceed the price established for Grade 10 (cast iron borings).

[Subparagraph (2) amended by Amdt. 2]

(3) The price established for Grade 28 (wrought iron) may be charged only when sold to a producer of wrought iron; otherwise the ceiling price for such grade shall not exceed the ceiling price established for the corresponding grade of basic open hearth.

(4) The premiums established for Grades 11, 12, 13, 14, 15, 16, 17, 18, 20 and 21 may be charged only when sold for use in electric furnaces, acid open hearth furnaces, or foundries and when any such grade is sold for use in basic open hearth or blast furnaces the ceiling price applicable to the corresponding basic open hearth or blast furnace grade except that:

(i) The premiums established for Grades 20 and 21 may be charged and paid when such material is sold and purchased for use in a basic open hearth or blast furnace pursuant to an allocation of the National Production Authority;

(ii) The premiums established for Grades 11 to 18, inclusive, may be charged and paid when such material is sold and purchased for use in a basic open hearth or blast furnace only if authorization is received from the Office of Price Stabilization. Such authorization will be granted only when material has been allocated by the National Production Authority and the physical characteristics of his furnaces or the metallurgical nature of his product require the use of such material by the consumer or particular emergency circumstances make it necessary for a consumer to use such material to avoid a shutdown of his basic open hearth or blast furnace. Any authorization pursuant to this subdivision will be granted upon the basis of information furnished by the National Production Authority.

[Subparagraph (4) added by Amdt. 2; amended by amdts. 5, 6 and 7]

(5) The price established for Grade 29 (shafting) may be charged only when sold for forging or rerolling purpose; otherwise the ceiling price for such grade shall not exceed the ceiling price established for the corresponding basic open hearth, electric furnace or foundry grade.

[Subparagraph (5) added by Amdt. 2]

[Subparagraph (6) added by Amdt. 4; amended by Amdt. 6; deleted by Amdt. 7]

(c) *Special pricing provisions.* (1) Sellers of Grade 26 (No. 1 chemical borings) and Grade 27 (No. 2 chemical borings) may make an extra charge of $1.50 per gross ton for loading in boxcars or 75 cents per gross ton for covering gondola cars with a weather-resistant covering.

(2) The ceiling price of pit scrap, ladle scrap, salamander scrap, skulls, skimmings or scrap recovered from slag dumps and prepared to charging box size, shall be computed by deducting from the price of No. 1 heavy melting steel of dealer and industrial origin, the following amounts:

Where the iron content is 85 percent and over	—$6.00
Where the iron content is 75 percent and over	—10.00
Where the iron content is less than 75 percent	—12.00

[Subparagraph (2) amended by Amdt. 2]

(3) The ceiling price of any inferior grade of iron or steel scrap not listed in paragraph (a) (2) of this section, shall not exceed the price of No. 1 bundles less $15.00.

[Subparagraph (3) amended by Amdt. 5]

(4) Notwithstanding any other provisions of this regulation, any person may charge, and any person may pay, the ceiling price established herein for No. 1 bundles for detinned scrap otherwise qualifying as a No. 1 bundle and delivered during the period from February 7, 1951 to April 23, 1951, inclusive.

[Subparagraph (4) added by Amdt. 4]

(5) The ceiling shipping point price for the sale of any grade of unprepared steel scrap of dealer or industrial origin (grades 32, 33, 34 and 35) by a dealer to another dealer (excluding brokers) is the price determined for the applicable grade in accordance with section 4 plus an amount not to exceed one of the following:

(i) When the material is loaded in a railroad car or common carrier truck or vessel—$1.00 per gross ton.

(ii) When the material is delivered to the preparer's yard in a vehicle owned or controlled by the shipper—$2.50 per gross ton.

[Subparagraph (5) added by Amdt. 5; amended by Amdt. 9]

SEC. 4. *Ceiling shipping point prices for steel scrap of dealer and industrial origin.* (a) For shipping points located within a basing point named in section 3 hereof, the ceiling shipping point price for any grade of steel scrap shall be the price established at such basing point, minus the applicable switching charge deduction set forth in section 5 hereof.

(b) For shipping points located outside the basing points named in section 3 hereof, the ceiling shipping point price of any grade of iron or steel scrap shall be the price established for the scrap at the most favorable basing point, minus the lowest established charge for transporting scrap from the shipping point to such basing point by rail or water carrier, or combination thereof. (The most favorable basing point is the basing point named in section 3 hereof which will yield the highest shipping point price.)

(c) Where water rates are involved in the computations under subsection (b) the following additional deductions must be made. A flat charge of $1.25 per gross ton for dock charges, except, however, that at Memphis, Tennessee, the deduction shall be 95 cents per gross ton; at Great Lakes ports, $1.50 per gross ton; and at New England ports, $1.75 per gross ton.

Where the shipping point is located outside of the switching district of the city from which the water rate is applicable, the lowest established charge for transporting scrap by rail from the shipping point to the f. a. s. vessel point must be deducted. No deduction for switching charges need be made where the shipping point is located within the switching district of the city from which the water rate is applicable. If there is no established charge for transporting scrap by rail from the shipping point to the f. a. s. vessel point, water rates may not be used in computing shipping point prices.

(d) The ceiling shipping point price for No. 1 bundles (with differentials established in section 3 hereof for all other grades) at all shipping points in New York City (or Brooklyn, New York) shall be $36.99 per gross ton: *Provided, however,* a dealer whose yard is situated in New York City and who customarily places his scrap f. o. b. railroad cars at a point outside New York City may use the ceiling shipping point prices established above for shipping points in New York City, if the rail point outside New York City which he uses is the closest rail point to the yard in which the scrap originated.

[Paragraph (d) amended by Amdts. 5 and 10]

(e) Ceiling shipping point prices at all shipping points in Hudson and Bergen Counties, New Jersey shall be computed from the Bethlehem, Pa., basing point.

(f) Ceiling shipping point prices at all shipping points in the State of New Jersey shall be computed by the use of all rail transportation charges.

(g) The ceiling shipping point price for No. 1 bundles (with differentials established in section 3 of this regulation for all other grades) need not fall below $32.00 per gross ton.

[Paragraph (g) amended by Amdt. 5]

(h) Where scrap is sold on terms which require the purchaser to load the scrap on the transporting vehicle or place it f. a. s. vessel a deduction of not less than $1.50 per gross ton must be deducted for loading from the applicable ceiling price determined in accordance with this section.

[Paragraph (h) added by Amdt. 4]

SEC. 5. *Switching charge deductions.* The switching charges to be deducted from the basing point price of dealer and industrial scrap as set forth in section 3 hereof, or the basing point price of nonoperating railroad scrap, as set forth in section 7 hereof, in order to determine the ceiling shipping point prices for such scrap originating in basing points, are as follows:

(a) Basing point:	Dollars per gross ton
Alabama City, Ala	$0.43
Ashland, Ky	.47
Bethlehem, Pa	.52
Birmingham, Ala	.50
Brackenridge, Pa	.53
Buffalo, N. Y	.83
Butler, Pa	.65
Atlanta, Ga	.51
Canton, Ohio	.51
Chicago, Ill	1.34
Cincinnati, Ohio	.65
Claymont, Del	.79
Cleveland, Ohio	.76
Coatesville, Pa	.50
Conshohocken, Pa	.20
Detroit, Mich	.95
Duluth, Minn	.50
Harrisburg, Pa	.51
Houston, Tex	.57
Johnstown, Pa	.75
Kansas City, Mo	.78
Kokomo, Ind	.51
Los Angeles, Calif	.66
Middletown, Ohio	.26
Midland, Pa	.75
Minnequa, Colo	.33
Monessen, Pa	.51
Phoenixville, Pa	$0.51
Pittsburg, Calif	.65
Pittsburgh, Pa	.99
Portland, Oreg	.52
Portsmouth, Ohio	.51
St. Louis, Mo	.51
San Francisco, Calif	.66
Seattle, Wash	.59
Sharon, Pa	.75
Sparrows Point, Md	.20
Steubenville, Ohio	.51
Warren, Ohio	.75
Weirton, W. Va	.70
Youngstown, Ohio	.75

[Above list corrected by Amdt. 9]

(b) The Pittsburgh, Pa., basing point includes the switching districts of Bessemer, Homestead, Duquesne and Munhall, Pa.

(c) The Cincinnati, Ohio, basing point includes the switching district of Newport, Ky.

(d) The St. Louis, Mo., basing point includes the switching districts of Granite City, East St. Louis, Madison, and Federal, Illinois.

[Paragraph (d) amended by Amdt. 2]

(e) The San Francisco, Calif., basing point includes the switching districts of South San Francisco, Niles and Oakland, Calif.

(f) The Claymont, Del., basing point includes the switching districts of Chester, Pa.

(g) The Chicago, Ill., basing point includes the switching district of Gary, Ind.

[Paragraph (h) deleted by Amdt. 2]

SEC. 6. *Ceiling delivered prices for shipment by rail, vessel, or combination thereof, for steel scrap of dealer and industrial origin.* (a) The ceiling delivered price of any grade of steel scrap delivered by rail, vessel, or combination thereof, shall be the shipping point price as determined in section 4 hereof, plus the actual charge for transporting the scrap from the shipping point to the point of delivery by the means of transportation employed, except as provided in section 15 (f) on intransit preparation.

[Paragraph (a) amended by Amdt. 9]

(b) If delivery to the consumer involves vessel movement, the actual charges incurred at a public dock may be added to the actual transportation charges. Where the dock facilities are owned or controlled by the shipper of the scrap, a maximum charge of $1.25 per gross ton may be added to the actual transportation charges; except that the maximum charge shall be 95 cents per gross ton at Memphis, Tenn., $1.50 per gross ton at any Great Lakes port, or $1.75 per gross ton at any New England port.

(c) In the case of water movement by deck scow or railroad lighter, no established charges at the dock or any charge or cost customarily incurred at the dock may be included in the delivered price. In lieu thereof a maximum charge of $1.25 per gross ton may be included in the delivered price.

(d) Where scrap is allocated by the National Production Authority for rail shipment, and prior to the date of the NPA allocation order such scrap has been stored at a dock for water movement, the dock charges set forth in paragraph (b) may be charged and paid.

[Paragraph (d) added by Amdt. 9]

SEC. 7. *Basing point prices for steel scrap of railroad origin.*—(a) *Basing point prices from which ceiling on-line and ceiling delivered prices are computed.*—(1) *Basing point prices for the base grade, No. 1 railroad heavy melting steel, Grade 1.*

[Above list amended by Amdts. 2, 4 and 5]

(b) *Restrictions on use.* (1) The price established for grade 15 (rerolling rails) may be charged only when purchased and sold for rerolling use; otherwise, the ceiling price for such grade shall not exceed the ceiling price established for grade 14 (scrap rails in random lengths). (The term "rerolling rails" includes any rails which are sold to be used for rerolling, irrespective of whether or not such rails are usable for relaying.)

(2) The price established for grade 30 (Wrought Iron) may be charged only when sold to a producer of Wrought Iron; otherwise, the ceiling price for such grade shall not exceed the ceiling price established for the base grade, No. 1 railroad heavy melting steel.

(3) The price established for Grade 25 (Solid Steel Axles) may be charged only when sold for rerolling and forging purposes; otherwise, the ceiling price for such grade shall not exceed the ceiling price established for the base grade, No. 1 railroad heavy melting steel.

[Subparagraph (3) added by Amdt. 2]

SEC. 8. *Ceiling on-line prices for steel scrap of railroad origin.* The term "on-line prices" means the ceiling prices that the originating railroad may charge for scrap delivered to a consumer located on the line of the railroad.

(a) *On-line prices for operating railroads operating in a basing point.* The ceiling on-line price of any grade of steel scrap originating from an operating railroad operating in a basing point named in section 7 hereof shall be the price established in that section for the scrap at the highest priced basing point in which the railroad operates.

(b) *On-line prices for operating railroads not operating in a basing point.* The ceiling on-line price of any grade of steel scrap originating from an operating railroad not operating in a basing point named in section 7 hereof shall be the price established for the scrap at the most favorable basing point named in that section minus the lowest established foreign line proportion of any through rate for transporting scrap by rail from any point on the railroad to such basing point via the nearest junction point.

The "most favorable basing point" is the basing point named in section 7 hereof which will yield the highest ceiling on-line price. The "nearest junction point" means such point on the originating railroad nearest to the most favorable basing point in terms of transportation charges. The ceiling on-line price of No. 1 railroad heavy melting steel need not fall below $34.00 per gross ton (with differentials established in section 7 hereof for all other grades).

On and after the effective date of this regulation, as amended, no railroad covered by this paragraph (b) may sell or offer to sell steel scrap to a consumer or his broker until it has filed with the Office of Price Stabilization, Washington 25, D. C., a statement in writing setting forth its ceiling on-line price for No. 1 railroad heavy melting steel and describing the method by which the said ceiling on-line price was calculated. The statement shall include the most favorable basing point selected, the price at such basing point, the point on the originating line from which the through rate to the named basing point is determined, the lowest established charge for transporting scrap by rail from such point on the originating railroad to the named basing point, and the foreign line proportion of such lowest established charge.

[Paragraph (b) amended by Amdts. 2 and 4]

(c) *Ceiling shipping point (or on-line) prices for non-operating railroads.* (1) For shipping points located within a basing point named in section 7 of this regulation, the ceiling shipping point price for any grade of steel scrap originating from a non-operating railroad shall be the price established for the scrap at such basing point minus the applicable switching charge deduction set forth in section 5 of this regulation.

(2) For shipping points located outside the basing points named in section 7 of this regulation, the ceiling shipping point price of any grade of steel scrap originating from a non-operating railroad shall be the price established for the scrap at the most favorable basing point named in section 7 of this regulation, minus the lowest established charge for transporting scrap by rail from the shipping point of the railroad to such basing point.

The ceiling shipping point price of No. 1 railroad heavy melting steel need not fall below $34.00 per gross ton (with differentials established in section 7 of this regulation for all other grades). The "most favorable basing point" is the basing point named in section 7 of this regulation which will yield the highest ceiling shipping point price.

(3) Where a non-operating railroad believes that the shipping point method of pricing is not appropriate for its operations, it may request permission to price on an on-line basis from the Director of Price Stabilization. The request should set forth: (i) The nature of the non-operating railroad; (ii) the points from which its scrap is shipped; (iii) the basing point from which it would determine its price under paragraph (a) or (b) of this section; and (iv) the reasons which make it difficult to price under provisions of this paragraph.

[Paragraph (c) amended by Amdt. 2]

SEC. 9. *Ceiling delivered prices for shipment by rail, vessel, or combination thereof, for steel scrap of railroad origin.*—(a) *When delivered to a consumer located on the line of a railroad.* The ceiling delivered price of any grade of steel scrap originating from an operating railroad and delivered to a consumer's plant located on the line of that railroad shall be the ceiling on-line price established in section 8 hereof.

(b) *When delivered to a consumer located off the line of the originating railroad.* The ceiling delivered price of any grade of steel scrap originating from an operating railroad and delivered to a consumer located off the line of that railroad, by rail, vessel or combination thereof, shall be the ceiling on-line price established in section 8 hereof, plus the foreign line proportion of the through rate from the point of shipment to the consumer's plant via the junction nearest such plant in terms of transportation charges, or the commercial rate from such nearest junction to the consumer's plant (unless off-line routing at another point is directed by order of a government agency). In no case may a railroad seller participate in the transportation charges incurred in off-line delivery of scrap unless the ceiling on-line price for the scrap is reduced by the amount of the participation in the off-line charges.

(c) *When delivered to a consumer from a non-operating railroad.* The ceiling delivered price of any grade of steel scrap originating from a non-operating railroad shall be the ceiling price established in section 8 (c) hereof, plus transportation charges to the point of delivery. Such transportation charges shall be computed in the same manner as charges allowable under section 6 or 15 hereof for dealer or industrial scrap.

SEC. 10. *Ceiling prices for railroad steel scrap sold by sellers other than railroads.* (a) Railroad steel scrap prepared by a dealer or moving through a dealer's yard (except for unprepared scrap prepared in-transit pursuant to section 15 hereof) or sold by any other person than a railroad as defined in this regulation, shall be classified and priced under sections 3 and 4 hereof except that for Grades Nos. 3, 4, 8, 9, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28 and 29 of steel scrap set forth in section 7 (a) (2) hereof, the ceiling shipping point prices shall be the same as those established for non-operating railroads in section 8 (c) hereof, and the ceiling delivered prices shall be the same as those established for non-operating railroads in section 9 (c) hereof.

[Paragraph (a) amended by Amdt. 2]

(b) Where a dealer or contractor demolishes railroad equipment on the property of, or in a yard provided exclusively for that purpose by the railroad awarding the contract, the resultant railroad scrap may be sold at prices not in excess of the ceiling prices established in section 8 (c) hereof for non-operating railroads; *Provided*, That in each case the dealer or contractor awarded such contract by a railroad reports to the Office of Price Stabilization, Washington 25, D. C. within 7 days after the award of the contract the name of the selling railroad, the type of equipment involved, the location at which demolition will take place, and the estimated tonnage of each grade of scrap resulting; also such other relevant information as he considers necessary or advisable to explain the transaction.

SEC. 11. *Ceiling shipping point for all cast iron scrap.*

[Title of Section 11 amended by Amdt. 2]

(a) The ceiling price per gross ton for any of the following grades of cast iron scrap shall be the price shown in the following table, f. o. b. the shipping point:

Grades:	Price per gross ton
1. Cast iron No. 1 (cupola cast)	$49.00
2. Cast iron No. 2 (charging box cast)	47.00
3. Cast iron No. 3 (heavy breakable cast)	45.00
4. Cast iron No. 4 (burnt cast)	41.00
5. Cast iron brake shoes	41.00
6. Stove plate	46.00
7. Clean auto cast	52.00
8. Unstripped motor blocks	43.00
9. Wheels No. 1	47.00
10. Malleable	55.00
11. Drop broken machinery casts	52.00

(b) *Restrictions on use.* (1) The ceiling shipping point price which a basic open hearth consumer may pay for cast iron No. 1 (cupola cast), clean auto cast, malleable, or drop broken machinery cast shall be the ceiling price established for cast iron No. 2 (charging box cast).

[Subparagraph (1) amended by Amdt. 2]

(2) The ceiling shipping point price which any foundry consumer other than a malleable iron producer may pay for Grade 10 (malleable) shall be the ceiling price established for cast iron No. 1 (cupola cast).

[Subparagraph (2) amended by Amdt. 2]

(3) Where cast iron scrap is sold on terms which require the purchaser to load the scrap on the transporting vehicle or place it f. a. s. vessel a deduction of not less than $1.50 per gross ton must be deducted for loading from the applicable ceiling price determined in accordance with this section.

[Subparagraph (3) added by Amdt. 4]

(c) *Special pricing provisions.* The ceiling price of clean cast iron foundry runouts, spills, or cupola drops prepared by cleaning and/or breaking for further consumption shall be priced at 75 percent of the corresponding cast iron grade with the same restrictions as to use to apply.

[Paragraph (c) added by Amdt. 2]

(d) *Unprepared cast iron scrap.* Any iron casting which cannot be broken with an ordinary drop into Grade 2 (cast iron No. 2) or Grade No. 1 (cast iron No. 1) as established in section 11 hereof may not be classified as Grade No. 3 (cast iron No. 3). Where such iron casting requiring blasting or other special preparation is sold to a consumer of scrap, the shipping point price for Grade No. 3 (cast iron No. 3) as established in section 11 hereof must be reduced by the amount of the additional charges required for preparation.

[Paragraph (d) added by Amdt. 5]

SEC. 12. *Ceiling delivered prices for shipment by rail, vessel, or combination thereof, for all cast-iron scrap.* (a) The ceiling delivered price for shipment by rail, vessel, or combination thereof of any grade of cast iron scrap shall be the shipping point price as determined in section 11 hereof plus the actual charge for transporting the scrap from the shipping point to the point of delivery by the means of transportation employed. If delivery to the consumer involves water movement the actual charges incurred at a public dock may be added to the actual transportation charges. Where the dock facilities are owned or controlled by the shipper of the cast iron scrap, the following maximum dock charges may be added to the actual transportation charges: At Memphis, Tenn., 95 cents per gross ton; at any Great Lakes port, $1.50 per gross ton; at all New England ports, $1.75 per gross ton; and at all other ports, $1.25 per gross ton.

[Paragraph (a) amended by Amdt. 2]

SEC. 13. *Ceiling delivered prices for shipment by truck for all steel or cast iron scrap.* (a) Where delivery of any grade of iron or steel scrap is made by public carrier truck, the ceiling delivered price shall be the ceiling shipping point price, or in the case of steel scrap of railroad origin, the ceiling on-line price, as established in sections 4, 8, 10, or 11 of this regulation, whichever is applicable, plus the actual public carrier charge.

[Paragraph (a) amended by Amdt. 2]

(b) When delivery of any prepared grade of iron or steel scrap is made in a truck owned or controlled by the shipper or broker the ceiling delivered price shall be the ceiling shipping point price (or on-line price in the case of steel scrap originating from operating railroads) as established by sections 4, 8, 10, or 11 of this regulation plus the published and applicable motor common carrier charge for transporting scrap from the shipping point to the consumer's receiving point. This charge for transporting scrap, however, may not exceed $4.00 and need not fall below $2.50 per gross ton.

[Paragraph (b) amended by Amdts. 2, 5 and 6]

(c) Where delivery of any unprepared grade of iron or steel scrap is made in a truck owned or controlled by the shipper or broker, no trucking charge may be added to the ceiling shipping point or on-line price: *Provided, however*, That the ceiling delivered price on such shipments need not fall below the ceiling shipping point price for the applicable unprepared grade at the point of delivery.

[Paragraph (c) added by Amdt. 5]

GENERAL PROVISIONS

SEC. 14. *Unlisted grades.* If the seller is unable to determine a ceiling price for any grade of iron or steel scrap under the applicable provisions hereof (which, in the opinion of the Director of Price Stabilization, provide adequate pricing instructions for all recognized grades), he shall file an application for approval of a ceiling price with the Office of Price Stabilization, Washington 25, D. C. The application shall set forth: (1) A complete description of the material, and (2) the ceiling price being requested.

The seller may not deliver or sell at his requested price until he has received written approval of the price from the Office of Price Stabilization.

SEC. 15. *Intransit preparation.* (a) A consumer may designate a dealer or dealers to prepare steel scrap of dealer and industrial origin intransit on a preparation fee basis under one of the following circumstances:

(1) Where unprepared steel scrap of dealer and industrial origin (other than grade 35) is allocated for preparation intransit by the National Production Authority.

[Subparagraph (1) amended by Amdt. 9]

(2) Where a consumer purchases unprepared steel scrap of dealer and industrial origin (other than grade 35) for shipment by rail to the preparer's yard in minimum rail carload lots. A railroad car loaded to maximum visible capacity will be considered a minimum rail carload lot. Grade 35 cannot be prepared on an intransit preparation fee basis.

[Subparagraph (2) amended by Amdt. 9]

(3) Where Grade 6 (machine shop turnings) or other grades of long or bushy turnings are allocated by the National Production Authority in rail carload lots to a consumer, or where a consumer purchases such turnings in rail carload lots for crushing.

(4) Where Grade 10 (cast iron borings) is allocated by the National Production Authority to a consumer for briquetting.

(b) A consumer may designate a dealer or dealers to prepare steel scrap of railroad origin intransit on a preparation fee basis only where a consumer without adequate preparation facilities purchases unprepared steel scrap from an originating railroad.

(c) A consumer may designate a dealer or dealers to prepare cast iron scrap intransit on a preparation fee basis where such consumer is without adequate preparation facilities.

(d) No fee may be paid to the person preparing scrap intransit pursuant to the provisions of this section if the scrap originates in the preparer's yard or if title to the scrap resides in the preparer at any time after the scrap leaves its shipping point, unless such scrap is allocated by the National Production Authority.

(e) The maximum preparation fee for preparing any grade of iron or steel scrap intransit shall be the applicable fee established in section 16 hereof.

(f) Whenever intransit preparation of iron or steel scrap is permissible pursuant to the provisions of this section, the ceiling delivered price shall be the ceiling shipping point price plus the rail transportation charges to the point of

preparation, or the ceiling on-line price plus any off-line rail transportation charges to the point of preparation, plus the applicable ceiling preparation fee as established in section 16 of this regulation, plus the transportation charges from the preparation yard to the point of delivery as established and restricted in sections 6, 9, 12 or 13 of this regulation, whichever is applicable.

The rail transportation charges to the point of preparation may include any charges for dead freight providing the scrap material is loaded in the railroad car to maximum visible capacity and weighs not less than 30,000 pounds. If the scrap material weighs less than 30,000 pounds an adjustment must be made for the prorated dead freight charges for the difference in the weight actually shipped and 30,000 pounds so that this proportion of the dead freight charges will not be paid by the consumer or his broker.

[Paragraph (f) amended by Amdts. 2 and 9]

SEC. 16. *Ceiling preparation charges.* (a) The ceiling fees which may be charged for intransit preparation of any grade of steel scrap of dealer or industrial origin, authorized under section 15 of this regulation, shall be as follows:

[Paragraph (a) amended by Amdt. 2]

(1) For preparing into Grade No. 3 (No. 1 heavy melting steel), Grade No. 4 (No. 2 heavy melting steel) or Grade No. 2 (No. 1 busheling), $8.00 per gross ton.

[Subparagraph (1) amended by Amdt. 5]

(2) For hydraulically compressing Grade No. 1 (No. 1 bundles), $6.00 per gross ton or Grade No. 5 (No. 2 bundles), $8.00 per gross ton.

[Subparagraph (2) amended by Amdt. 5]

(3) For crushing Grade No. 6 (machine shop turnings), $3.00 per gross ton.

(4) For preparing into Grade No. 25 (briquetted turnings), $6.00 per gross ton.

(5) For preparing into Grade No. 19 (briquetted cast iron borings), $6.00 per gross ton.

(6) For preparing into Grade No. 12 (bar crops and plate scrap), Grade No. 13 (cast steel), Grade No. 14 (punchings and plate scrap), Grade No. 16 (cut structural, 3 feet and under), or Grade No. 20 (foundry steel, 2 feet and under), $10.00 per gross ton.

[Subparagraph (6) amended by Amdt. 2]

(7) For preparing into Grade No. 17 (cut structural and plate scrap, 2 feet and under) or Grade No. 21 (foundry steel, one foot and under), $11.00 per gross ton.

[Subparagraph (7) amended by Amdt. 2]

(8) For preparing into Grade No. 18 (cut structural and plate scrap, 1 foot and under), $12.00.

[Subparagraph (8) amended by Amdt. 2]

(9) For hydraulically compressing Grade No. 15 (electric furnace bundles), $8.00 per gross ton.

(10) For preparing into Grade No. 28 (wrought iron), $10.00 per gross ton.

(b) The ceiling fees which may be charged for intransit preparation of any grade of steel scrap of railroad origin shall be as follows:

(1) For preparing into Grade No. 1 (No. 1 railroad heavy melting steel) and Grade No. 2 (No. 2 railroad heavy melting steel), $8.00 per gross ton.

(2) For hydraulically compressing Grade No. 13 (No. 1 sheet scrap), $6.00 per gross ton.

(3) For preparing into Grade No. 16 (Cut Rails, 3 feet and under), $4.00 per gross ton.

(4) For preparing into Grade No. 17 (Cut Rails, 2 feet and under), $5.00 per gross ton.

(5) For preparing into Grade No. 18 (Cut Rails, 18 inches and under), $7.00 per gross ton.

(6) For preparing into Grade No. 21 (cut tires), $4.00 per gross ton.

(7) For preparing into Grade No. 23 (cut Bolsters and side Frames), $4.00 per gross ton.

(c) The ceiling fees which may be charged for intransit preparation of cast iron shall be limited to the following:

(1) For preparing Grade No. 8 (unstripped motor blocks) into Grade No. 7 (clean auto cast), $9.00 per gross ton.

(2) For preparing Grade No. 3 (heavy breakable cast) into Grade No. 11 (drop broken machinery cast), $7.00 per gross ton.

(3) For preparing Grade No. 3 (heavy breakable cast) into Grade No. 1 (cast iron No. 1), $4.00 per gross ton.

[Paragraph (c) amended by Amdt. 2]

(d) Whenever scrap has arrived at its point of delivery and the consumer engages a dealer to prepare such scrap, no fee may be charged or paid for such service unless the consumer obtains prior written approval from the Office of Price Stabilization, Washington 25, D. C.

(e) No preparation charge in excess of the charges set forth in this section may be made for the preparation of any grade of iron or steel scrap unless the consumer has secured prior written approval of such charge from the Office of Price Stabilization, Washington 25, D. C.

[Paragraph (e) amended by Amdt. 2]

SEC. 17. *Premium for alloy content.* With the exception of the premium specifically authorized in this section no premium may be charged for alloys contained in iron or steel scrap. Except as outlined below the premiums are not confined to a particular use.

(a) *Nickel.* (1) A premium of 5 cents per gross ton for each .01% of nickel content may be charged and paid in addition to the ceiling price for the applicable grade of scrap, except as limited in subparagraph (2) of this paragraph, where the scrap contains not less than 0.5 percent and not over 6.99 percent nickel.

(2) The premium established by this paragraph for nickel content from 0.5 percent to 0.99 percent may be paid only where both of the following conditions are met:

(i) The material is shipped to a consumer directly from an industrial producer of such nickel alloy steel scrap; and

(ii) The material is purchased for use by a consumer who has received authorization from the Office of Price Stabilization, Washington 25, D. C., to pay the nickel premium. Such authorization will be granted only where it is shown that the metallurgical nature of the consumer's product requires such nickel alloy scrap. Any authorization pursuant to this subdivision will be granted upon the basis of information furnished by the National Production Authority on the metallurgical and tonnage requirements of the applicant.

[Paragraph (a) amended by Amdts. 2 and 8]

(b) *Molybdenum.* A premium of $2.00 per gross ton may be charged in addition to the ceiling price for the applicable grade for scrap containing not less than .15 percent molybdenum. A premium of $3.00 per gross ton may be charged in addition to the ceiling price for the applicable grade for scrap containing not less than .65 percent molybdenum.

[Paragraph (b) amended by Amdt. 2]

(c) *Manganese.* A premium of $4.00 per gross ton over the applicable basing point price for No. 1 heavy melting steel or No. 1 railroad heavy melting steel may be charged where scrap contains not less than 10 percent manganese and is in sizes larger than 12" x 24" x 8". A premium of $14.00 per gross ton over the applicable basing point price for No. 1 heavy melting steel or No. 1 railroad heavy melting steel may be charged where scrap contains not less than 10 percent manganese and is cut to sizes of 12" x 24" x 8" or smaller. The manganese premiums provided in this paragraph (c) are only applicable if the scrap is sold for electric furnace use except on allocation by the National Production Authority.

(d) *Silicon.* The differentials established under section 3 of this regulation for electric furnace and foundry grades shall not be applicable if the scrap contains between .5 percent and 1.75 percent silicon.

[Paragraph (d) amended by Amdt. 2]

(e) *Chromium.* Steel scrap conforming to SAE 52100 may command a premium of $1.00 per gross ton in addition to the ceiling price for the applicable grade.

[Paragraph (e) amended by Amdt. 2]

(f) *Multiple alloys.* Where any grade of scrap contains two alloy elements for which premiums have been established in this section, the total premium may not exceed the ceiling premium for any one contained alloy.

SEC. 18. *Mixed shipments.* (a) When grades of scrap commanding different ceiling prices under the provisions of this regulation are included in one vehicle, the ceiling price shall be the applicable ceiling price in section 4, 8, 10 or 11 hereof for the lowest grade contained in the vehicle, except when the grades are invoiced as separate grades and the grades are so loaded in the vehicle that they can readily be distinguished and separately weighed.

(b) When grades of scrap commanding different ceiling prices under the provisions of this regulation are included in one vehicle, the ceiling price shall be as follows:

(1) Where a portion of the material has been unloaded and the balance of the shipment returned to the shipper, the ceiling price for that portion which has been unloaded shall be the ceiling price for the grade unloaded;

(2) Where no portion of the shipment is returned to the shipper, the ceiling price for the entire shipment shall be the ceiling price established for the lowest priced grade in the car.

[Paragraph (b) added by Amdt. 5]

SEC. 19. *Commissions.* (a) No commission shall be payable on sales made under this regulation except by a consumer to a broker for brokerage services rendered to the consumer. Where scrap is allocated by the National Production Authority other than from a government agency, the seller may designate a broker. Where scrap is allocated by the National Production Authority from a governmental agency, the consumer may designate a broker. In the event that a broker purchases iron or steel scrap for sale to a consumer, such consumer may pay such broker a commission not exceeding $1.00 per gross ton. No commission shall be payable unless

(1) The broker is regularly and primarily engaged in the business of buying for, and selling scrap to, a consumer;

[Subparagraph (1) amended by Amdt. 2]

(2) The broker guarantees the quality and delivery of an agreed tonnage of scrap;

(3) The scrap is purchased by the consumer at a price no higher than the ceiling prices established in this regulation;

(4) The broker sells the scrap to the consumer at the same price, with the same discounts and allowances, at which he purchased it, and does not include in the shipping point price any cost, fee, or charge incurred in placing the scrap at its shipping point;

(5) The broker does not split or divide the commission, in whole or in part, with the seller or sellers of the scrap or with the consumer and does not split or divide the commission with a sub-broker to an extent greater than 50 percent;

[Subparagraph (5) amended by Amdt. 2]

(6) The commission is shown as a separate item on the invoice.

(b) No commission shall be payable to a person for scrap which he prepares: *Provided, however,* That whenever intransit preparation is permitted by any provision of this regulation, a broker may charge a commission notwithstanding the fact that he also prepares the scrap.

[Paragraph (b) amended by Amdt. 2]

(c) No commission shall be payable to a person controlling, or holding directly or indirectly a substantial financial interest in the person preparing the scrap, or to a person employed or controlled by the person preparing the scrap, or to a person in whom the person, preparing the scrap holds directly or indirectly a substantial financial interest or control: *Provided, however,* That the Director of Price Stabilization may authorize, upon application, the payment of brokerage commissions otherwise prohibited by this paragraph where it is shown that the conditions set forth in paragraph (a) of this section will be complied with and that the financial relationship between the broker and preparer of the scrap does not arise out of an attempt to evade paragraph (b) of this section.

[Paragraph (c) amended by Amdt. 2]

[Section 20 deleted by Amdt. 5]

SEC. 21. *Transportation charges.* (a) The rail or vessel charges, or combination rail-vessel charges, used in computing ceiling shipping point or ceiling on-line prices in section 4 or 8 hereof need not reflect any increase in rates which became effective after January 1, 1951, nor need such charges reflect any transportation tax.

(b) Any tax imposed upon the transportation charges from the shipping point to the point of delivery, may be included in the ceiling delivery price.

(c) No vessel charge shall be deemed an established charge within the provisions of this regulation unless regular vessel movement of scrap, except for seasonal restrictions, is being made to the most favorable basing point as of the effective date of this regulation, as a customary business practice.

(d) Where rail or vessel charges vary because of seasonal factors, the lowest established charge shall be the lowest charge in effect at any time during the year.

SEC. 22. *Weights to govern.* (a) Except as otherwise provided in this section, settlement for all scrap shall be made on the basis of weights at the point of delivery.

(b) *Rail shipments.* If the consumer is a member of a weighing association, settlement shall be on the basis of mill weights. If the consumer does not have weighing facilities, settlement shall be made on the basis of railroad weights at the point of delivery.

No adjustment need be made for shortages of 500 pounds or less per car between shipping point weights and weights at the point of delivery. If the shortage exceeds 500 pounds per car, adjustment must be made for the full shortage.

(c) *Vessel shipment.* When shipment is wholly or partially by vessel, weights at the dock prior to vessel movement shall govern. If the scrap moves from the shipping point to the dock by rail and weights at the shipping point have been determined, no adjustment need be made for differences of 500 pounds or less per car between shipping point weights and weights at the dock. If the difference exceeds 500 pounds per car, adjustment must be made for the full shortage in the car.

(d) *Sales by government agencies.* Governmental agencies may at their option use either the weights at point of delivery as otherwise provided in this paragraph, or the weights at point of shipment. Where weights at point of shipment are used, such weights shall be determined at the expense of the seller and in the following manner:

(1) *Removal by rail.* In the case of scrap removed by rail, the actual tare weight of the railroad car shall be used instead of the marked tare in determining the net weight. The actual tare weight shall be determined by weighing the empty car, cleaned of all foreign material, before loading.

(2) *Removal by vessel.* In the case of removal by vessel, weights at the dock prior to vessel movement shall govern.

(3) *Removal by truck.* In the case of removal by truck, weighing shall be at the option of the seller on (i) government scales, or (ii) certified scales in the vicinity of the location of the property.

[Paragraph (d) added by Amdt. 4]

SPECIFICATIONS

SEC. 23. *Steel grades of dealer and industrial origin.* (a) The specifications set forth in this section and sections 24 and 25 are subject to the following general provisions:

(1) All grades must be free of dirt, nonferrous metals or foreign material of any kind and free of excessive rust and corrosion. The term "free of dirt, nonferrous metals or foreign material of any kind" shall not preclude the accidental inclusion of negligible amounts where it can be shown that this negligible amount is unavoidable in the customary preparation and handling of the particular grade involved.

(2) The inclusion, in a shipment of a particular grade of iron or steel scrap, of a negligible amount of metallic material which exceeds to a minor extent the applicable size limitations or which fails to meet to a minor extent the applicable requirements as to quality or kind of material shall not change the classification of the shipment: *Provided,* That it can be shown that the inclusion of such off-grade material is unavoidable in the customary preparation and handling of the grade involved.

(3) Wherever the term "free of alloys" is used in the following specifications it shall mean that any alloys contained in the steel are residual and have not been added for the purpose of making an alloy steel. Steel scrap will be considered free of alloys where the residual alloying elements do not exceed the following amounts:

	Percent
Nickel	0.45
Chromium	.20
Molybdenum	.10
Manganese	1.65

and where the combined residuals other than the manganese do not exceed a total of 0.60 percent.

[Paragraph (a) added by Amdt. 11]

(b) *Basic open hearth and blast furnace grades.* (The numbering of the paragraphs does not necessarily correspond to the grade numbers established in section 3 of this regulation.)

(1) *No. 1 heavy melting steel.* Clean wrought iron or steel scrap ¼ inch and over in thickness, not over 18 inches in

width and not over 5 feet in length. Individual pieces must be free from attachments, and so cut as to lie flat in the charging box. May include heavy forgings, forge butts, billet, bloom, slab or bar crops not conforming to chemical analysis required for electric furnace or acid open hearth use. May include new pipe ends. May not include auto body and fender stock.

[Subparagraph (1) amended by Amdt. 2]

(2) *No. 2 heavy melting steel.* Wrought iron or steel scrap, black or galvanized, ⅛ inch and over in thickness, not over 18 inches in width and not over 5 feet in length. (Uncut bumpers and front axles of passenger automobiles, and uncut rear ends of passenger automobiles free of wheels and brake assemblies and drained of oil, may be included even though over 5 feet in length.) Individual pieces must be free from attachments and so cut as to lie flat in the charging box. May include pipe; heavy oil field or similar cable not less than 1 inch in diameter and cut to lengths of 3 feet or less; and car sides and light plate cut 15 inches by 15 inches or under. May not include auto body and fender stock.

(3) *No. 1 busheling.* Clean new wrought iron or steel scrap ⅛ inch and over in thickness, not exceeding 12 inches in any dimension, including new factory busheling 20 gauge or heavier (for example, sheet clippings, stampings, etc.) and steel cartridge cases 40 mm. or less. May not contain burnt material or auto body and fender stock. Must be free of metal coated, limed or porcelain enameled stock.

(4) *No. 1 bundles.* New black steel sheet scrap, clippings, or skeleton scrap, hydraulically compressed or hand bundled to charging box size and weighing not less than 75 pounds per cubic foot. (Hand bundles must also be tightly secured and stand handling with a magnet.) Must be free of paint or protective coating of any kind. May include Stanley balls, or mandrel wound bundles or skeleton reels, tightly secured. May include chemically detinned material. No tin can will be deemed to be detinned unless it has undergone the chemical process for the removal and recovery of tin. May not include electrical sheets, or any material over 0.5% of silicon.

[Subparagraph (4) amended by Amdt. 2]

(5) *No. 2 bundles.* Body and fender scrap, or old black and/or galvanized scrap, hydraulically compressed to charging box size and weighing not less than 75 pounds per cubic foot. May include galvanized, but not vitreous enameled stock, tin plate, terne plate or other metal coated material. Painted or lacquered material shall not be considered as coated material. May include hydraulically compressed black or galvanized fence wire, light coil spring and any bundles which are excluded from No. 1 bundles by reason of their containing painted, lacquered, lithographed or galvanized material.

[Subparagraph (5) amended by Amdt. 2]

(6) *Machine shop turnings.* Clean steel or wrought iron turnings, free of cast or malleable iron borings, nonferrous metals in a free state, scale or excessive oil. May not contain badly rusted or corroded stock.

(7) *Mixed borings and turnings.* Shoveling turnings mixed with cast or malleable iron borings and drillings, free of scale or excessive oil or nonferrous metals in a free state. May not contain badly rusted or corroded stock.

(8) *Shoveling turnings.* Clean short steel or wrought iron turnings, drillings or screw cuttings. May include any such material whether resulting from crushing, raking or other processes. Must be free of springy, bushy, tangled or matted material, lumps, nonferrous metals in a free state, scale, grindings, or excessive oil.

(9) *No. 2 busheling.* Cut hoops, netting, cut unbaled fence wire, light sheets, rusted car sides, cotton ties, and galvanized light material. No dimension over 12 inches. May be black or galvanized. May include oil field or similar cable cut to lengths of 2 feet or less and machine gun clips. No hard steel, porcelain enameled, or metal coated material may be included.

(10) *Cast iron borings.* Clean cast iron or malleable iron borings and drillings, free of steel turnings, scale, lumps and excessive oil.

[Title of Paragraph (a) amended by Amdt. 5; redesignated (b) by Amdt. 11]

(c) *Electric furnace and foundry grades.*

(11) *Billet, bloom and forge crops.* Billet, bloom, axle, slab, heavy plate and heavy forge crops, not over 0.05% phosphorus or sulphur and not over 0.5% silicon, free from alloys. Must not be less than 2 inches in thickness, not over 18 inches in width and not over 36 inches in length. Must be new material delivered to the consumer directly from the industrial producer.

(12) *Bar crops and plate scrap.* Bar crops, plate scrap, forgings, bits, jars and tool joints, containing not over 0.05% phosphorus or sulphur, not over 0.5% silicon, free from alloys. Must not be less than ½ inch in thickness, not over 18 inches in width and not over 36 inches in length.

[Subparagraph (12) amended by Amdt. 2]

(13) *Cast steel.* Steel castings not over 48 inches long, 18 inches wide and ¼ inch in thickness, containing not over 0.05% phosphorus or sulphur, free from alloys and attachments. May include heads, gates and risers.

(14) *Punchings and plate scrap.* Punchings or stampings, plate scrap and bar crops containing not over 0.05% phosphorus or sulphur and not over 0.5% silicon, free from alloys. All material must be cut 12 inches and under and with the exception of punchings or stampings must be at least ⅛ inch in thickness. Punchings and stampings may be of any gauge but must not be more than 6 inches in diameter.

[Subparagraph (14) amended by Amdt. 2]

(15) *Electric furnace bundles.* New black steel sheet scrap hydraulically compressed into bundles 14 x 14 x 20 inches or smaller.

(16) *Cut structural and plate scrap, 3 feet and under.* Clean open hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch in thickness, nor over 3 feet in length and 18 inches in width. Must not contain over 0.05% phosphorus or sulphur.

(17) *Cut structural and plate scrap, 2 feet and under.* Clean open hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch in thickness, not over 2 feet in length and 18 inches in width. Must not contain over 0.05% phosphorus or sulphur.

(18) *Cut structural and plate scrap, 1 foot and under.* Clean open hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch in thickness or over 1 foot in length or width. Must not contain over 0.05% of phosphorus or sulphur.

(19) *Briquetted cast iron borings.* Cast iron borings, Grade 12, compressed into a cohesive solid, reasonably free from oil, each briquette to weigh not more than 20 pounds and to have a density of not less than 60 percent.

(20) *Foundry steel, 2 feet and under.* Steel scrap ⅛ inch and over in thickness, not over 2 feet in length or 18 inches in width. Individual pieces must be free from attachments. May not include nonferrous metals, metal coated material, cast or malleable iron, body and fender stock, cable, enameled or galvanized material.

[Subparagraph (20) amended by Amdt. 2]

(21) *Foundry steel, 1 foot and under.* Steel scrap ⅛ inch and over in thickness, not over 1 foot in length or width. Individual pieces must be free from attachments. May not include nonferrous metals, metal coated material, cast or malleable iron, body and fender stock, cable, enameled or galvanized material.

[Subparagraph (21) amended by Amdt. 2]

(22) *Springs and crankshafts.* Clean automotive springs and crankshafts, either new or used.

(23) *Alloy free turnings.* New, short, clean steel turnings free from lumps, tangled or matted material, cast iron borings, or excessive oil, containing not more than 0.05% phosphorus or sulphur and free of alloys. Must be delivered to the consumer directly from the industrial producer.

(24) *Heavy turnings.* Short, heavy steel turnings, containing not over 0.05% phosphorus or sulphur and free of alloys. May include rail chips. May not include machine shop or other light turnings and must weigh not less than 75 pounds per cubic foot in the original state of production.

[Subparagraph (24) amended by Amdt. 2]

[Paragraph (b) redesignated (c) by Amdt. 11]

(d) *Special grades.*

(25) *Briquetted turnings.* Steel turnings compressed into a cohesive solid, reasonably free from oil, each briquette to weigh not more than 20 pounds and to have a density of not less than 60 percent.

(26) *No. 1 chemical borings.* New clean cast or malleable iron borings and drillings containing not more than 1% oil, free from steel turnings, or chips, lumps, scale, corroded or rusty material.

(27) *No. 2 chemical borings.* New clean cast or malleable iron borings and drillings, containing not more than 1.50% oil, free from steel turnings, or chips, lumps, scale, corroded or rusty material.

(28) *Wrought iron.* Clean wrought iron scrap, free of steel and with rivets and attachments removed. May include structural shapes, plates, bars, pipes, staybolts or any other material known to have been manufactured from wrought iron.

(29) *Shafting.* Random length shafting suitable without further preparation for rerolling, or forging. Must be reasonably straight and free of attachments.

[Subparagraph (30) added by Amdt. 4; deleted by Amdt. 7]

(31) *Old tin and terne plate bundles.* Old tin plated and terne plated steel scrap hydraulically or mechanically compressed to charging box size.

[Subparagraph (31) added by Amdt. 4]

(e) *Unprepared grades.*

(32) *Unprepared steel scrap which when compressed constitutes No. 1 bundles.*

(33) *Unprepared steel scrap which when compressed constitutes No. 2 bundles.*

(34) *Unprepared steel scrap other than material suitable for hydraulic compression.*

(35) *Automobiles, buses, trucks, trailers and other motor vehicles.* Automobiles, buses, trucks, trailers and other motor vehicles; it may include non-ferrous and non-metallic attachments which are an integral part of the vehicle, including the attached tires, batteries, radiators, upholstery and glass. It must be free of all non-metallic material which is not an integral and attached part of the vehicle.

[Paragraph (d) added by Amdt. 9; redesignated (e)]

SEC. 24. *Steel grades of railroad origin.* (1) *No. 1 railroad heavy melting steel.* (A. A. R. No. 24.) Clean wrought iron or steel scrap ¼ inch and over in thickness, not over 18 inches in width, and not over 5 feet in length. Individual pieces must be free from attachments and cut so as to lie reasonably flat in charging box. May include new mashed pipe ends, original diameter 4 inches and over. No needle or skeleton plate, agricultural shapes, annealing pots, boiler tubes, grate bars, cast iron, malleable iron, or curly or unwieldy pieces will be accepted.

(2) *No. 2 railroad heavy melting steel.* (A. A. R. No. 25.) Plate scrap, such as car sides ⅛ inch and over in thickness, punchings ¼ inch and over in thickness, heavy clippings, unmashed pipe ends under 4 inches in diameter and/or similar material. Car sides and all light plates to be sheared 15 inches by 15 inches or under and all light rods to be 12 inches and under in length. Any curved or twisted pieces must be sheared in such shape that they will lie reasonably flat in a charging box and not tangle in handling with a magnet; all to be free from cast iron, malleable iron, burnt scrap, dirt or foreign material of any kind. Maximum size 15 inches wide by 3 feet long.

(3) *No. 2 steel wheels.* (A. A. R. No. 41.) Includes all kinds of built up or steel tired wheels 36 inches and under.

(4) *Hollow bored axles and solid locomotive axles with keyways between the wheelseats.* (A. A. R. Nos. 4 and 2.)

[Subparagraph (4) amended by Amdt. 2]

(5) *No. 1 busheling.* (A. A. R. No. 10.) Clean wrought iron and/or steel 1/16 inch and over in thickness and/or pipe and/or flues not exceeding 12 inches in any dimension. May not contain burnt material. Must be free from metal coated, lined or porcelain enameled stock.

(6) *No. 1 turnings.* (A. A. R. No. 38.) Heavy turnings from wrought iron and/or steel railroad axles or heavy forgings and/or rail chips, to weigh not less than 75 pounds per cubic foot. Free from dirt or other foreign material of any kind.

(7) *No. 2 turnings, drillings and borings.* (A. A. R. No. 39.) Cast wrought steel and/or malleable iron borings, turnings and/or drillings, mixed with other metals.

(8) *Cast steel No. 2 and uncut wheelcenters.* Steel castings over 18 inches in width and/or over 5 feet in length. Uncut wheelcenters.

[Subparagraph (8) amended by Amdt. 2]

(9) *Uncut frogs and switches with or without manganese.* (A. A. R. Nos. 18 and 18a.) Steel and/or iron frogs and switches that have not been cut apart. May include manganese.

[Subparagraph (9) amended by Amdt. 2]

(10) *Flues, tubes and/or pipes.* (A. A. R. No. 21.) Wrought iron and/or soft steel. Must be free from dirt, excessive corrosion or lime and riveted seams. Fittings attached permitted.

(11) *Structural, wrought iron and/or steel, uncut.* (A. A. R. No. 35.) All steel or steel mixed with iron from bridges, structures, and/or equipment that has not been cut apart; may include uncut bolsters, brake beams, steel trucks, underframes, channel bars, steel bridge plates, frog and/or crossing plates and/or other steel of similar character.

(12) *Destroyed steel cars.* (A. A. R. No. 45.) Bodies of steel cars cut apart sufficiently to load.

(13) *No. 1 sheet scrap.* (A. A. R. No. 30.) Under ¼ inch thick, consisting of cut stacks and/or netting, hoops, band iron and/or steel, scoops and/or shovels (free of wood), and/or wire rope, all sizes. Must be free from burnt or metal coated material, cushion or other similar springs and lime crusted pipe and flues from boilers.

(14) *Scrap rails in random lengths.* (A. A. R. No. 29.) Standard section tee, girder or guard rails, to be free from frogs, and switch rails not cut apart, and contain no manganese, cast welds, or attachments of any kind except angle bars. Free from concrete, dirt and foreign material of any kind.

(15) *Rerolling rails.* (A. A. R. No. 27.) Standard section tee rails, original weight 50 pounds per yard or heavier, 5 feet long and over. Suitable for rerolling into bars and shapes. Free from bent and twisted rails, frog, switch and guard rails, or rails with split heads and broken flanges.

(16) *Cut rails, 3 feet and under.* (A. A. R. No. 28–A.) Cropped rail ends 3 feet and under in length. Free from concrete, dirt, or other foreign material.

(17) *Cut rails, 2 feet and under.* (A. A. R. No. 28–B.) Cropped rail ends 2 feet and under in length. Free from concrete, dirt, or other foreign material.

(18) *Cut rails, 18 inches and under.* (A. A. R. No. 28–C.) Cropped rail ends 18 inches and under in length. Free from concrete, dirt and other foreign material.

(19) *Cast steel No. 1.* (A. A. R. No. 11–A.) Steel castings cut to sizes 4 feet in length or 18 inches in width or smaller.

(20) *Uncut tires.* (A. A. R. No. 36.) All locomotive or car tires, uncut.

(21) *Cut tires.* (A. A. R. No. 37.) All locomotive or car tires cut 3 foot lengths and under.

(22) *Uncut bolsters and side frames.* (A. A. R. No. 9.) Cast steel bolsters and/or truck side frames, uncut.

(23) *Cut bolsters and side frames.* (A. A. R. No. 11–A.) Cast steel bolsters and/or truck side frames cut to sizes 4 feet in length by 18 inches in width or smaller.

(24) *Angle and splice bars and tie plates.* (A. A. R. No. 6.) Fish plates and/or patented joints, iron or steel, tie plates.

[Subparagraph (24) amended by Amdt. 2]

(25) *Solid steel axles.* (A. A. R. Nos. 2 and 3.) Solid car and/or locomotive steel axles. Free of axles with key-way between wheel seats; no axles or shorter lengths than distances between wheel seats to be included.

(26) *Steel wheels, No. 3, oversize.* (A. A. R. No. 42–A.) Solid cast steel, forged, pressed or rolled steel car and/or locomotive wheels over 42 inches in diameter.

(27) *Steel wheels, No. 3.* (A. A. R. No. 42.) Solid cast steel forged, pressed or rolled steel car and/or locomotive wheels, not over 42 inches in diameter. May include wheels over 42 inches in diameter, if cut to a length of not over 36 inches in the shortest dimension.

(28) *Spring steel.* (A. A. R. No. 34.) Coil and/or elliptical springs, minimum thickness ¼ inch; may be assembled or cut apart.

(29) *Couplers and knuckles.* (A. A. R. No. 17.) Railroad car and/or locomotive steel couplers, knuckles and/or locks stripped clean of all other attachments.

(30) *Wrought iron.* (A. A. R. No. 43.) Clean wrought iron scrap free of steel and with rivets and attachments removed.

(31) *Fireboxes, cut and uncut.*

[Subparagraph (31) added by Amdt. 2]

(32) *Boilers, cut and uncut.* (A. A. R. No. 8.) With or without fireboxes attached, locomotive cisterns and/or tanks. Cut apart sufficiently to load. May include all kinds of material from interior of boilers or tanks which are encrusted, such as crown bars and bolts, except flues.

[Subparagraph (32) added by Amdt. 2]

(33) *No. 2 sheet scrap.* (A. A. R. No. 31.) Galvanized material, composition brake shoes and/or gas retorts, and/or any other iron or steel material.

[Subparagraph (33) added by Amdt. 2]

(34) *Carsides, doors, and car ends, cut apart.* Cut apart to dimensions of not over 8 feet in length and 8 feet in width and suitable to be prepared into No. 1 railway steel.

[Subparagraph (34) added by Amdt. 2]

(35) *Unassorted iron and steel scrap.* Unassorted iron and steel scrap consisting of car, locomotive and track scrap free of cable, sheet iron and turnings, drillings or borings.

[Subparagraph (35) added by Amdt. 4]

SEC. 25. *All cast iron grades.*

(1) *Cast iron No. 1 (cupola cast).* Clean cast iron scrap such as columns, pipes, plates and castings of a miscellaneous nature, including the cast iron parts of agricultural machinery. Must be free from stove plate, burnt iron, brake shoes, or foreign material. Must be cupola size, not over 24 inches by 30 inches, and no piece to weigh over 150 pounds.

(2) *Cast iron No. 2 (charging box cast).* Clean cast iron scrap in sizes not over 5 feet in length or 18 inches in width, suitable for charging into an open-hearth furnace without further preparation. Must be free from burnt iron, brake shoes or stove plate.

(3) *Cast iron No. 3 (heavy breakable cast).* Cast iron scrap over charging box size or weighing more than 500 pounds and which can be broken by an ordinary drop into cupola size. May include cylinders, driving wheel centers, but may not include hammer blocks or bases. May include steel which is an integral part of the casting, which does not protrude more than 6 inches and which does not exceed 10 percent of the weight of the casting.

(4) *Cast iron No. 4 (burnt cast).* Burnt cast iron scrap such as stove parts, grade bars and miscellaneous burnt iron. Includes sash weights or window weights.

(5) *Cast iron brake shoes.* Driving and/or car brake shoes of all types except composition filled shoes.

(6) *Stove plate.* Clean cast iron stove plate. Must be free from malleable and steel parts, window weights, plow points or burnt cast.

(7) *Clean auto cast.* Clean auto blocks, free of all steel parts except camshafts, valves, valve springs and studs.

(8) *Unstripped motor blocks.* Automobile or truck motors from which steel and non-ferrous fittings have not been removed. Must be free of drive shafts, transmissions, and all parts of frames.

[Subparagraph (8) amended by Amdt. 2]

(9) *Wheels, No. 1.* Cast iron railroad car or locomotive wheels.

(10) *Malleable.* Malleable parts of automobiles, railroad cars, locomotives or miscellaneous malleable iron castings. Must be free of cast iron and steel parts and other foreign material.

(11) *Drop broken machinery casts.* Clean heavy cast iron machinery scrap that has been broken under a drop. All pieces must be in cupola size, not over 24" x 30", and no piece to weigh over 150 pounds and not less than 5 pounds.

MISCELLANEOUS PROVISIONS

SEC. 26. *Imported scrap.* (a) This Ceiling Price Regulation No. 5 is not applicable to imported scrap as defined in section 28 (f) hereof.

SEC. 27. *Exported scrap.* The ceiling price for any grade of iron or steel scrap sold for export or to an exporter shall be the ceiling shipping point or on-line price as established in section 4, 8, 10 or 11 hereof, whichever is applicable, plus all transportation charges allowable under the appropriate section, to the place of export. For scrap exported by vessel, this ceiling export price shall be f. a. s. vessel at the place of export, and the actual cost incidental to shipment and export from that point may be added, if shown as separate charge on the invoice.

SEC. 28. *Definitions.* (a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Iron and steel scrap" means all ferrous materials, either alloyed or unalloyed, of which iron or steel is a principal component, which are the waste of industrial fabrication, or objects that have been discarded on account of obsolescence, failure or any other reason. It does not include any material which qualifies as a re-usable product by reason of its condition, which is sold as a reusable product, and which is not purchased for use in any of the operations mentioned in paragraph (c) of this section. It does not include demolition projects, as defined in paragraph (n) of this section, prior to demolition. It includes automobiles, buses, trucks, trailers and other motor vehicles when sold for demolition into scrap or when sold to any consumer as defined in paragraph (c). It does not include metal coated ferrous material sold for the recovery of the coating substance to a person regularly engaged in such operation. It does not include tool steel scrap containing 1 percent or more of tungsten or molybdenum nor does it include stainless steel scrap for which ceiling prices have been established under Ceiling Price Regulation 29.

[Paragraph (b) amended by Amdts. 2, 4 and 9]

(c) "Consumer" means a purchaser of iron or steel scrap for use in the production of iron or steel products by melting, rerolling or forging; or any person purchasing iron or steel scrap for use as a reduction agent in the production of chemicals or pigments, for use in the production of non-ferrous materials, for use as ballast or counterweights, or for annealing; and includes any governmental agency or sub-division.

[Paragraph (c) amended by Amdt. 2]

(d) "Operating railroad" means a railroad, terminal association, or switching company which operates a railway line and derives at least a portion of its revenue from the carrying of freight.

(e) "Non-operating railroad" means all railroads other than operating railroads, as defined in paragraph (d) of this section, and includes suburban and interurban electric railroads, street railways, refrigerator car, stock car, sleeping car and tank car companies engaged primarily in the transportation business, but does not include mine or logging roads.

(f) "Imported scrap" means all iron and steel scrap having a point of origin outside the United States, its territories and possessions, and the District of Columbia.

[Paragraph (f) amended by Amdt. 3]

(g) "Free of alloys" means that any alloys contained in the steel are residual and have not been added for the purpose of making an alloy steel. Steel scrap will be considered free of alloys where the residual alloying elements do not exceed the following amounts:

	Percent
Nickel	0.45
Chromium	.20
Molybdenum	.10
Manganese	1.65

and where the combined residuals other than the manganese do not exceed a total of 0.60 percent.

(h) "Lowest established charge". The term shall mean the rail or vessel freight rate for transporting material generally classified as iron or steel scrap and shall not refer to freight charges for transporting any special grade thereof even though the latter grade is actually being shipped.

(i) "Shipping point". Scrap is at its shipping point in the case of all rail, rail-vessel, rail-truck, or truck-rail movement when it has been placed f. o. b. railroad cars for shipment to the destination designated by the purchaser; in case of all vessel, vessel-rail, vessel-truck, or truck-vessel, scrap is at its shipping point when it has been placed f. a. s. vessel for shipment to the destination designated by the purchaser; and in the case of all-truck movement, scrap is at its shipping point when it has been placed f. o. b. truck for shipment to the destination designated by the purchaser.

[Paragraph (i) amended by Amdt. 4]

(j) "Point of delivery" shall mean that point at which scrap has arrived for unloading at the purchaser's receiving point.

[Paragraph (j) amended by Amdt. 4]

(k) "Dealer and industrial origin" shall mean all sources of scrap other than railroads as defined in this regulation.

(l) "Industrial producer" means any person engaged in manufacturing, fabricating, repairing, mining, or refining or in furnishing communication or transportation services, who produces iron or steel scrap as a by-product of such operations or from obsolescence.

[Paragraph (l) amended by Amdt. 2]

(m) "Dealer" means any person whose business includes the acquisition of any material for the purpose of sale as waste, scrap, or salvage materials.

[Paragraph (m) added by Amdt. 5]

(n) "Unprepared scrap". The term shall have its customary trade meaning and shall not include such demolition projects as bridges, rail abandonments, vessels, and locomotives, cranes, freight cars and similar equipment on its own wheels. Prior to demolition such projects are not iron and steel scrap and must be priced under the applicable provisions of the General Ceiling Price Regulation.

[Paragraph (n) added by Amdt. 5; amended by Amdt. 9]

SEC. 29. *Records and reports.* (a) Every person making a sale of iron or steel scrap to a consumer or a broker and every consumer or broker purchasing iron or steel scrap shall keep for inspection by the Office of Price Stabilization for as long as the Defense Production Act of 1950 remains in effect, complete and accurate records of each such sale or purchase: the date thereof, the name and address of the buyer or seller, the shipping point price (or in the case of railroad sellers, the on-line price), the quantity in pounds, the quality in grades as defined in the applicable section, the method of transportation used from shipping point to point of delivery, the delivered price and the commission, if any, involved in the sale.

(b) Buyers and sellers of iron or steel scrap affected by this regulation shall submit such further reports to the Office of Price Stabilization as may from time to time be required, subject to the approval of the Director of the Bureau of the Budget under the Federal Reports Act.

(c) Where shipment of scrap to the consumer or his broker involves rail or water movement, the shipper must execute and mail to the consumer or his broker a shipping notice simultaneously with the shipment of the scrap. Such shipping notice must contain the date of shipment, number and initial of the car or name of vessel, the consumer's and/or broker's purchase order number, the specific grade or grades of scrap as they are designated in the applicable section of this regulation and the signature of the shipper or his duly authorized representative.

SEC. 30. *Less than ceiling prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 31. *Evasion.* The provisions of this regulation shall not be evaded by direct or indirect means.

SEC. 32. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Defense Production Act of 1950.

SEC. 33. *Petitions for amendment.* Any person seeking an amendment of this regulation may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revised.

[Section 33 amended by Amdt. 4]

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE WOODS,
Director of Price Stabilization.
By: JOSEPH L. DWYER,
Recording Secretary.

[F. R. Doc. 52-11678; Filed, Oct. 28, 1952; 10:50 a. m.]

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Interpretation 5, Revised]

INT. 5—AUTHORIZED ADJUSTMENTS IN SALARIES AND OTHER COMPENSATION UNDER SECTION 41 OF GENERAL SALARY STABILIZATION REGULATION 1, AMENDED

AUTHORIZED PERCENTAGE INCREASES (SEC. 41 (a))

SECTION 1.1 Q. What is the purpose of section 41 of General Salary Stabilization Regulation 1, Amended?

A. To permit an employer to grant to employees under the jurisdiction of the Salary Stabilization Board the economic equivalent of certain types of increases in compensation granted to employees under the jurisdiction of the Wage Stabilization Board.

SEC. 1.2 Q. What are examples of such types of increases?

A. Examples of such types of increases are improvement or productivity factor increases, cost-of-living increases and special increases granted by the Wage Stabilization Board either on an industry or area wide basis or in special instances such as increases to remedy intra-plant inequities among groups of employees under its jurisdiction.

SEC. 1.3 Q. How are employees under the jurisdiction of the Salary Stabilization Board and employees under the jurisdiction of the Wage Stabilization Board referred to in this Interpretation?

A. Employees under the jurisdiction of the Salary Stabilization Board are referred to as the "Salary Board Group," and employees under the jurisdiction of the Wage Stabilization Board are referred to as the "Wage Board Group."

SEC. 1.4 Q. May increases to employees in the Salary Board Group under section 41 be granted on a self-administering basis?

A. Yes.

SEC. 1.5 Q. On what basis are the self-administering percentage increases authorized under section 41 computed?

A. Increases authorized under section 41 are computed as the difference between the net percentage increase in base compensation granted to the Wage Board Group and that granted to the Salary Board Group. For the details of the computation see section 2 of this Interpretation.

SEC. 1.6 Q. Does the formula employed in section 41 yield an exact percentage increase either for the Wage Board Group or for the Salary Board Group?

A. No. The simplified computation formula employed under section 41 results in a somewhat smaller percentage of increase than a precise formula would yield, because the increase is computed as a percentage of the payroll in the payroll period in which the increase is granted; rather than as a percentage of the payroll in the period preceding the increase.

However, if the employer desires, and is able to apply a more accurate method of computation, he may do so with the approval of the Office of Salary Stabilization. (See also sec. 5.1.)

A more accurate percentage may be obtained by computing the increase not as a percentage of the payroll for the current payroll period, but as a percentage of the payroll for the current payroll period reduced by the amount of the increases granted therein.

SEC. 1.7 Q. Is the percentage increase authorized by section 41 normally made prospectively from the date of computation?

A. Yes, except in the situations set forth in section 2 of this Interpretation.

Increases are made normally for future payroll periods beginning with the first payroll period following the close of the current computation. The authorized percentage of increase, however, is based on all past increases in base compensation, i. e., all increases granted to either the Wage or the Salary Board Group since January 25, 1951 or since the end of the latest payroll period included in the previous computation.

COMPUTATION OF AUTHORIZED PERCENTAGE INCREASES (SEC. 41 (b))

SEC. 2.1 Q. What constitutes base compensation under section 41?

A. Base compensation is the compensation paid to an employee in either the Wage Board Group or the Salary Board Group for the normal work-week, month or other normal time unit.

Base compensation means salaries paid to an employee for the normal work-week, month or other normal time unit, but excluding shift differentials, time and incentive earnings, bonuses of the types specified in General Salary Stabilization Regulation 2, as amended (for the Salary Board Group), and General Wage Regulation 14, as amended (for the Wage Board Group), and all other compensation.

SEC. 2.2 Q. What increases are taken into account in determining the author-

ized net percentage of increase under section 41?

A. The following are the major examples of such increases:

(a) Cost-of-living increases under General Wage Regulation 8 or Article III of General Salary Stabilization Regulation 1, Amended.

(b) Tandem increases under General Wage Regulation 10 or section 43 of General Salary Stabilization Regulation 1, Amended.

(c) Improvement or productivity factor increases.

(d) Increases to remedy inter-plant inequities granted under General Wage Regulation 17 or section 42 of General Salary Stabilization Regulation 1, Amended, to all employees subject to the jurisdiction of the Wage Stabilization Board or the Salary Stabilization Board or to specified categories of such employees.

(e) Increases granted to remedy intra-plant inequities.

(f) Increases authorized under any determination of the Wage Stabilization Board or of the Office of Salary Stabilization which are not charged against any of the increases listed in this paragraph (e) or in section 2.3.

Example. The Office of Salary Stabilization authorizes an employer to increase the salary of four employees by a total of $100 per week. No charge of the increase either against the ten percent increase or against the increase authorized under section 41 is required. Since the increase raises straight salaries of employees in the Salary Board Group, it is taken into account in computing the net authorized percentage increase under section 41.

SEC. 2.3 Q. What increases shall not be taken into account in determining the authorized net percentage of increase under section 41?

A. The following are the major examples of increases which do not constitute increases in base compensation:

(a) Merit or length-of-service increases under General Wage Regulation 5 and Article V of General Salary Stabilization Regulation 1, Amended.

(b) Increases granted as a result of promotions, transfers or assignment of employees to new or changed positions.

(c) Increases granted as part of the ten percent increase authorized under General Wage Regulation 6 or under section 22 of General Salary Stabilization Regulation 1, Amended.

(d) Increases to remedy inter-plant inequities granted under General Wage Regulation 17 or section 42 of General Salary Stabilization Regulation 1, Amended, to employees on an individual basis.

(e) Increases authorized under any determination of the Wage Stabilization Board or of the Office of Salary Stabilization which are charged against any of the types of increases listed in paragraphs (a) to (d) of this section.

Example. The Office of Salary Stabilization authorizes an employer to increase the salary of an employee $20 per week, requiring the amount of the increase to be charged to the amount available to the employer for a ten percent increase under section 22 of General Salary Stabilization Regulation 1, Amended. Since increases granted under section 22 may not be taken into account in computations under section 41, the particular increase should not be taken into account in determining the net authorized percentage increase under section 41.

SEC. 2.4 Q. May an employer convert a grant of paid vacations to the Wage Board Group into a percentage increase under section 41?

A. No. The grant of a fringe benefit, such as a paid vacation does not constitute an increase in base compensation, and therefore a percentage increase to the Salary Board Group is not authorized under section 41.

SEC. 2.5 Q. Between January 15, 1950 and January 25, 1951 the Wage Board Group had received increases totaling 14 percent or 4 percent in excess of the 10-percent increases authorized under General Wage Regulation 6. May the excess over 10 percent be taken into account in computing the net percentage of increase for the Wage Board Group under section 41?

A. No. Such excess percentage may not be taken into account because section 41 applies only to increases granted after January 25, 1951.

SEC. 2.6 Q. May the employer make his first computation of the authorized percentage increase under section 41 at any time?

A. Yes. However, the computation must include the entire period after January 25, 1951 to the time of the actual computation.

SEC. 2.7 Q. An employer desires to give salary increases authorized under section 41 to his Salary Board Group on March 1, 1952.

On July 1, 1951, and on January 1, 1952, he gave productivity increases to the Wage Board Group. In computing the amount available to him under section 41, may the employer limit his computation to payroll periods ending July 31, 1951?

A. No. Computations of the percentage or amount of increases in salaries and other compensation must be made to include all payroll periods up to the payroll period during which the computation is actually made.

If it takes the employer about a week or ten days prior to March 1 to compute the amount available to him and to prepare new payrolls reflecting the proposed increases, he should include at least all payrolls ending on or immediately before February 15.

The employer should endeavor to bring his computations as close to the date of actual payment of the increase as possible.

SEC. 2.8 Q. An employer had granted to employees in the Wage Board Group after January 25, 1951 and prior to March 1, 1952, the date of his computation of the authorized percentage increase under section 41, a cost-of-living increase of four percent and, in addition, over the same period of time had granted various individual increases. The employer has decided that to take these scattered minor increases into account would impose upon him a considerable mechanical burden, and he desires to disregard such increases. During the same period, the Salary Board Group has received no increases in base compensation under section 41. May the employer disregard the scattered minor increases?

A. Yes. The employer may grant to the Salary Board Group a four percent increase. However, since computation must start with the first payroll period commencing after January 26, 1951 and must include all payroll periods up to the time when the computation is actually made, the omission of an increase from computation under section 41 precludes further adjustments for the period covered, and the employer accordingly gives up the right to use such increases in any subsequent computation.

On the other hand, the employer may not so disregard minor percentage increases given to the Salary Board Group which must be deducted from the percentage increases granted to the Wage Board Group in order to arrive at the authorized net percentage.

SEC. 2.9 Q. An employer granted increases under section 41 on March 1, 1952 closing his computations with all payroll periods ending on or immediately before February 15, 1952. He desires to give further increases under section 41 on October 1, 1952, having granted tamdem and cost-of-living increases to the Wage Board Group on August 1st and September 1st, 1952. All payroll periods of the employer end either on the 15th or the last day of the month. In order to grant the increases to the Salary Board Group on October 1, 1952, he requires ten days of work prior to October 1. Which payroll periods must be included to compute the amount of increases available on October 1, 1952?

A. All payroll periods commencing after February 15, 1952, up to and including all payroll periods ending on September 15, 1952. No payroll period may be included in more than one computation of increases under section 41.

SEC. 2.10 Q. An employer has used four separate payrolls to pay employees in the Wage Board Group.

Employees on payroll A are paid semi-monthly on the 15th and last days of the month; employees on payroll B are paid weekly every Friday; employees on payroll C are paid bi-weekly (e. g. on the 10th and 25th days of the month) and employees on payroll D are paid monthly on the last day of the month. Having given increases in base compensation to employees on each of these payrolls during the month of January 1952, how does the employer obtain the percentage of such increases granted the Wage Board Group in January 1952?

A. By consolidating all his January payroll periods and consolidating all the increases in base compensation made during the month on a uniform time basis.

Generally it is easiest to make the consolidation on the basis of the longest payroll period included in the consolidation. Four and one-third (4⅓) weekly payroll periods, 2⅙ bi-weekly and 2 semi-monthly payroll periods are the equivalent of a monthly payroll period.

If, at the time of computation, increases in base compensation have occurred in more than one month in situations where consolidation is required on a monthly basis, the percentage of increase should be computed separately for each month, and all monthly percentages should then be added up to the last payroll period included in the computation to obtain the total percentage increase granted to the Wage Board Group.

If selection of the payroll period, with which the compensation ends, makes it impossible to use the longest payroll period for the closing month, the computation may be made on a shorter time basis.

If in the above example the employer closed his computation on February 15, the computation of the February percentage increase, if any, may be made on a semi-monthly consolidated basis. In that case one-half of payroll D is included in the February 1 to 15 computation.

EXAMPLE

1. Consolidation of increases in base compensation on monthly basis:

Payroll	Payroll period	Amount of increases per payroll period	When increase is granted during the month	Amount of increase on monthly basis
A	Semimonthly	$500	Jan. 16	[1] $1,000
B	Weekly	2,100	2d week	[2] 9,100
		900	3d week	3,900
C	Biweekly			0
D	Monthly	750	Jan. 1	[3] 750
Total monthly increases in base compensation for Wage Board Group				14,750

[1] 2 payroll periods. [2] 4⅓ payroll periods. [3] 1 payroll period.

2. Consolidation of base compensation payrolls on monthly basis:

[Payroll changes during month]

Payroll	Payroll period	First week	Second week	First semi-monthly	Third week	Fourth week	Second semi-monthly	Monthly total
A	Semimonthly			$10,000			$10,500	[1] $20,500
B	Weekly	$35,000	$37,100		$38,000	$38,000		[2] 160,667
C	Biweekly		10,000			10,000		[3] 21,666
D	Monthly							[4] 45,750
Total monthly Wage Board Group								248,583

Percentage of increases in base compensation for Wage Board Group for January 1952: 5.93 percent.

[1] 2 payroll periods.
[2] 4 payroll periods plus ⅓ of last payroll period.
[3] 2 payroll periods plus ⅓ of last payroll period.
[4] $45,000 and $750 increase granted during month.

SEC. 2.11 Q. An employer operates three plants located in three different states. In computing the authorized percentage increase under section 41, must the employer consolidate the Wage or Salary Board Group payrolls for all three plants?

A. No. The employer in his discretion may or may not limit consolidation of payrolls to a single plant. If he does so, the increases are limited to the plant or plants for which the computation is made. However, the employer may not change the practice once adopted without prior approval of the Office of Salary Stabilization.

SEC. 2.12 Q. Having selected the period for which the computation of the authorized percentage increase is to be made and having consolidated his payrolls, if that is required, how is the percentage itself computed?

A. By following the method set forth in section 41 (b) (3) and explained in detail with the example attached hereto as Appendix A (originally published in Salary Stabilization Board Release No. 32, dated November 21, 1951).

SEC. 2.13 Q. On October 1, 1951, an employer granted the employees of the Wage Board Group a single cost-of-living increase equal to two percent of base compensation. Assuming that the Salary Board Group received a single increase of one percent on January 1, 1952, what percentage increase may the employer grant as the first increase under section 41 to the Salary Board Group on February 1, 1952?

A. One percent, i. e., the difference between the total percentage increase in base compensation granted to the Wage Board Group prior to February 1, 1952, and the total percentage increase in base compensation granted to the Salary Board Group prior to February 1, 1952.

SEC. 2.14 Q. An employer has 10 employees in the Salary Board Group receiving total base compensation of $1,050 per week. On January 31, 1952, the employer grants merit increases to these employees totaling $60 per week. On the same date he grants to the Wage Board Group a one percent cost-of-living increase. What is the amount of base compensation of the Salary Board Group on which the percentage increase authorized under section 41 is computed and what is the amount of the increase?

A. The amount of base compensation, on which the percentage increase is computed is $1,110, since the merit increase became part of the employee's base compensation and is, therefore, part of the amount on which the percentage under section 41 is computed. The Salary Board Group is entitled to an increase of 1 percent of $1,110 or $11.10 per week, assuming the cost-of-living increase to be the only one involved.

SEC. 2.15 Q. An employer pays Wage Board Group employees at the flat rate of $65 per week for a 42 hour week under a guaranteed work-week contract. What is the base compensation of such employees?

A. $65 per week per employee.

SEC. 2.16 Q. In computing the authorized percentage of increase to the Wage Board Group the employer has determined the total increases granted, but finds that it would be too cumbersome to separate base compensation from overtime and other forms of compensation paid the Wage Board Group. May the employer use the entire compensation paid the Wage Board Group, in order to determine the percentage of increase in the payroll periods when increases were given?

A. Yes. However, this results in a lesser percentage than the maximum authorized by section 41 and the employer may not thereafter make an adjustment for the percentage thus relinquished, since the making of a computation under section 41 for a given period precludes further adjustments with regard thereto. Of course, the computation of the percentage may be based only on those increases which may be included in computations under section 41. (See section 2.2).

SEC. 2.17 Q. May the employer avoid separating base compensation from other forms of compensation in the Salary Board Group payroll used in computing the net authorized percentage increase, analogous to the manner of computation authorized in section 2.16?

A. No. The employer may not include amounts not constituting base compensation under section 41 (see section 2.1) in the total Salary Board Group payroll since to do so would result in a greater amount than that authorized by section 41.

SEC. 2.18. Q. An employer computes his authorized net percentage under section 41. None of the increases included in the computation were granted retroactive to an earlier date. On these facts, as of what date may an increase in salaries or other compensation under section 41 be made effective?

A. As of the day following the last payroll period included in the computation of the authorized percentage increase.

If the employer, upon granting the Wage Board Group a current increase in base compensation, decides immediately to grant an increase in base compensation under section 41 to the Salary Board Group, and closes his computation as of the payroll period when the Wage Board Group increase becomes effective, increases to both groups may be put into effect simultaneously.

Examples. (1) An employer decides on September 15, 1952, to give the Wage Board Group a permissible increase in base compensation as of October 1, 1952. He may put into effect for the Salary Board Group an increase under section 41 (if otherwise permissible), on October 1, 1952.

(2) An employer has granted the Wage Board Group a single permissible increase in base compensation effective September 1, 1952. Commencing computation of an

increase to the Salary Board Group immediately after September 1 and completing all computations during a consolidated payroll period from September 1 to September 15, 1952, he may put the permissive increase for the Salary Board Group into effect as of September 1, 1952.

(3) Assume the facts as to the Wage Board Group increase as in example (2). However, the employer does not decide on an increase to the Salary Board Group until October 2, 1952. The computation must then include the September payrolls and the increase to the Salary Board Group may not be put into effect before October 1, 1952.

(4) Assume the facts as in (2), except that completion of the employer's computations requires two payroll consolidated periods, the increase in compensation may, nevertheless, be put into effect for the Salary Board Group as of September 1, 1952.

SEC. 2.19 Q. An employer desires to compute his percentage of increase under section 41 for the period from January 1 to September 30, 1952. On March 1 and on September 7, 1952, he had granted non-retroactive increases to the Wage Board Group totaling five (5) percent. During the same period the Salary Board Group received scattered increases totaling one-half of one (½) percent. May the employer, in view of the retroactivity provisions contained in section 41, grant increases in compensation to the Salary Board Group retroactive to March and September respectively?

A. No. The employer may only grant increases to the Salary Board Group up to four and one-half (4½) percent, effective October 1, 1952, since his postponement in granting such increases shows conclusively that retroactive increases in compensation are not necessary in order to reestablish or maintain historical or customary relationships and differentials which existed on January 25, 1951, between the compensation of employees under the jurisdiction of the Salary Stabilization Board.

SEC. 2.20 Q. On March 1, 1952 an employer was permitted by the Wage Stabilization Board to grant a wage increase to the Wage Board Group retroactive to January 1. On July 1 the employer granted to the Salary Board Group an increase in salaries under General Salary Order 6, as amended (now General Salary Stabilization Regulation 1, Amended, section 41). General Salary Order 6, as amended, did not take into account the retroactivity of increases in base compensation granted to either the Wage Board or the Salary Board Group. In view of the provisions as to retroactivity contained in General Salary Stabilization Regulation 1, Amended, section 41 (a), may the employer now reopen the computation made for the July 1 salary increase in order to take into account the retroactivity of the March 1 increase to the Wage Board Group?

A. No. The retroactivity provision of section 41 (a) of General Salary Stabilization Regulation 1, Amended, applies only to computations under section 41 made subsequent to the date of adoption of General Salary Stabilization Regulation 1, Amended, by the Salary Stabilization Board, July 22, 1952.

Employers who between July 22 and the effective date of General Salary Stabilization Regulation 1, Amended, August 18, 1952, made computations under section 41, which include retroactive increases in base compensation to the Wage Board Group, may apply to the Office of Salary Stabilization for permission to reopen their computations in accordance with this Interpretation.

SEC. 2.21 Q. On August 25, 1952, an employer granted an increase in base compensation to the Wage Board Group retroactive to March 1, 1951. This increase was the only one granted to the Wage Board Group by the employer during the period covered in his computation under section 41, to wit: the period from August 1 to September 1, 1952. During the same period no increase was granted to the Salary Board Group. May the authorized increase in salaries and other compensation available to the Salary Board Group be made on a retroactive basis?

A. Yes. Paragraph (a) of section 41 authorizes increases in compensation on a retroactive basis; the amount of the authorized increase is to be computed and distributed in accordance with the provisions of paragraph (b) and (d) of that section.

SEC. 2.22 Q. Subsequent to April 1, 1952, the close of his last computation under section 41 (then General Salary Order 6, as amended) an employer granted one retroactive and one non-retroactive increase in base compensation to the Wage Board Group, and also granted an increase in base compensation to the Salary Board Group. The employer desires to grant an increase in compensation under section 41 retroactively to the extent permissible under section 41 (a). How does the employer determine the percentage which may be granted retroactively?

A. By computing the net authorized percentage in accordance with the provisions of paragraph (b) of section 41:

(a) If the net authorized percentage of increase so computed is less than the percentage of the retroactive increase in base compensation granted to the Wage Board Group, the entire net authorized percentage may be distributed retroactively to the date to which the increase to the Wage Board Group was made retroactive.

(b) If the net authorized percentage of increase is greater than the percentage of the retroactive increase in base compensation granted to the Wage Board Group, only the portion of the net authorized percentage of increase equal to the percentage of the retroactive increase granted to the Wage Board Group may be distributed as retroactive increases to the Salary Board Group.

Example. An employer makes a computation under section 41 for the period from July 1 to August 31, 1952, during which he grants a retroactive wage increase and a non-retroactive wage increase of 5 percent each and salary increases of 6 percent to the Salary Board Group. The net retroactive percentage authorized under section 41 (a) is arrived at as follows:

	Percent
Retroactive Wage Board Group Increase	5
Nonretroactive Wage Board Group increase	5
Total Wage Board Group increase	10
Less: Total increase to Salary Board Group during same period	6
Net authorized percentage	4

The entire percentage is retroactive since it is less than the percentage (5%) of the retroactive wage increase.

If the increase in base compensation to the Salary Board Group during the same period had only been 3 percent, the net authorized percentage under section 41 would be 7 percent. Only 5 of the 7 percent (i. e., the percentage equal to the retroactive increase granted to the Wage Board Group) would be retroactive for the Salary Board Group and the balance of the net authorized percentage (2%) would be nonretroactive.

SEC. 2.23 Q. If during the period of computation the employer has granted one or more retroactive increases in base compensation to the Wage Board Group, in addition to non-retroactive increases in base compensation to both the Wage Board and the Salary Board Groups, how does the employer determine the date or dates to which corresponding increases in compensation to the Salary Board Group may be made retroactive?

A. Having computed the authorized net percentage of increase pursuant to the provisions of section 41 (b) (see section 2.22), the dates to which increases in compensation to the Salary Board Group may be made retroactive are the date or dates to which the increases in base compensation to the Wage Board Group were made retroactive.

Where the net authorized percentage is less than the total of the several retroactive increases in base compensation granted to the Wage Board Group, increases to the Salary Board Group may be made retroactive to the date of the earliest increase in base compensation granted to the Wage Board Group provided that the percentage of this earliest increase is not exceeded; and if any percentage of increase to the Salary Board Group remains available, then to the date of the next earlier increase in base compensation granted to the Wage Board Group until the net authorized percentage available for increases in compensation to the Salary Board Group or any portion thereof which may be made retroactive, has been exhausted. Under no circumstances may an increase to the Salary Board Group be made retroactive to a date prior to the effective retroactive date of an increase in compensation granted to the Wage Board Group.

The following examples show how this rule is applied in various situations:

(a) During the period covered by the computation under section 41, the employer granted a single retroactive increase in base compensation of 5 percent to the Wage Board Group and a non-retroactive increase in base compensation of 1 percent to the Salary Board Group. An increase in compensation of 4 percent may be granted to the Salary Board Group retroactive to the effective date of the Wage Board Group increases.

(b) During the period covered by the computation under section 41, the employer granted a retroactive increase in base compensation of 3 percent and a non-retroactive increase of 4 percent to the Wage Board Group and also granted a non-retroactive increase to the Salary Board Group of 2 percent. Three (3) of the 5 percent remaining available for the Salary Board Group may be used for retroactive increases to the Salary Board Group as of the effective date of the retroactive increase in base compensation granted to the Wage Board Group.

(c) During the period covered by the computation under section 41, the employer granted one non-retroactive and three retroactive increases in base compensation to the Wage Board Group as follows:

Date on which increase was granted	Effective (retroactive) date of increase	Net authorized percentage available per payroll period under "retroactive" computation
July 1, 1951	May 1, 1951	2
Jan. 1 1952	Nov. 1, 1951	3
July 1, 1952	May 1, 1952	4
July 15, 1952	July 15, 1952	2
		11
Less nonretroactive increase in base compensation to Salary Board Group on July 1, 1952		4
Net authorized percentage of increase		7

This net authorized percentage of increase may be used for increases in compensation to the Salary Board Group, retroactive to the effective date of increases in base compensation to the Wage Board Group, as follows:

2 percent to May 1, 1951.
3 percent to Nov. 1, 1951.
2 percent to May 1, 1952.

If it is assumed that 2 percent yields a fund of $5,000 and 3 percent yields a fund of $7,500 per payroll period, then the employer may not grant increases totaling $17,500 as of May 1, 1951, but may only grant increases totaling $5,000 as of May 1, 1951, $7,500 as of November 1, 1951, and again $5,000 as of May 1, 1952.

SEC. 2.24 Q. Are the limitations upon the distribution of increases in salaries and other compensation to individual employees of the Salary Board Group, contained in paragraph (d) of section 41, applicable in the case of retroactive increases?

A. Yes, except that the authorized percentage of retroactive increase is not necessarily the entire authorized net percentage of increase arrived at in the computation, but may be limited to the percentage of the retroactive increase granted to the Wage Board Group (see section 2.22).

SEC. 2.25 Q. An employer has available for increases in salaries and other compensation under section 41 an unused net authorized percentage of increase carried forward from a prior computation. May the employer under paragraph (c) of section 41 add such percentage to a percentage obtained in a subsequent computation which includes a retroactive increase?

A. Yes. The carry-over is added to the net authorized percentage obtained in the subsequent computation and must be distributed in accordance with sections 2.18 to 2.24 of this Interpretation.

INCREASES SUBSEQUENT TO THE COMPUTATION OF THE FIRST ADJUSTMENT (SEC. 41 (C))

SEC. 3.1 Q. An employer computed the authorized net percentage increase to the Salary Board Group on December 1, 1951 as three percent. His base compensation payroll was $50,000. However, the decision to grant increases as of January 1, 1952 was abandoned. A second computation early in February 1952 shows an additional authorized net percentage increase of two percent. On February 1, 1952, the monthly base compensation payroll of the Salary Board Group is $70,000 as the result of new hires and merit and length-of-service increases. What is the amount available to the employer for increases as of February 1, 1952?

A. Five percent of the total base compensation payroll as of the date of increase, or $3,500.

DISTRIBUTION OF AUTHORIZED INCREASES (SEC. 41 (D))

SEC. 4.1 Q. An employer desires to use monies available for increases under section 41 for the purpose of restoring customary differentials between the compensation of his foremen and the employees supervised by them. The employer has available an authorized net percentage of five percent but the granting of increases to individual foremen in varying percentages exceeding five percent of their compensation is required to restore the differentials. May he grant these increases?

A. Yes. Section 41 generally limits increases in an employee's compensation to the authorized net percentage. It permits increases in excess of the authorized net percentage only to restore historical or customar differentials in the compensation of foremen and supervisors in positions comparable to foremen, or to remove existing inequities in the compensation of employees under the jurisdiction of the Salary Stabilization Board.

SEC. 4.2 Q. May increases authorized by section 41 be distributed as additional bonuses under an existing bonus plan?

A. Yes, provided the employer distributes such additional bonuses to the employees eligible to participate under the employer's bonus plan in accordance with the provisions of General Salary Stabilization Regulation 2, as amended, and Interpretation 3, Revised, and within the limitations imposed thereby. For instance, the employer cannot increase the highest single bonus by addition of the amount which may be added to the bonus fund under section 41.

SEC. 4.3 Q. May an employer who did not pay bonuses on or prior to January 25, 1951 utilize the amount available for increases under section 41 for the payment of bonuses?

A. Yes, in accordance with any salary stabilization regulation dealing with new bonuses.

SUBSTITUTE METHODS OF COMPUTATION (SEC. 41 (E))

SEC. 5.1 Q. May the employer select a method of computation different from that provided in section 41?

A. Yes, but only with the approval of the Office of Salary Stabilization. The methods of computation set forth in section 41 and the examples attached hereto as Appendix A and given in this Interpretation can be applied by most employers.

SEC. 5.2 Q. An employer grants an across-the-board percentage increase in base compensation of the kind specified in section 2.2 to all employees in the Wage Stabilization Board Group in a single payroll period. He grants no other increases of this kind on a non-uniform or non-percentage basis in the same payroll period. In this specific situation, may this percentage increase be used, without further computation, as the percentage increase in base compensation granted to the Wage Stabilization Board Group in this payroll period under the formula set forth in section 41?

A. Yes.

Example. Between January 25, 1951 and June 30, 1952, the Wage Board Group received a few scattered individual increases and an across-the-board increase of three (3) percent granted in the payroll period ending June 30, 1952. The employer has not granted any increases in base compensation of the kind taken into account under section 41 to the Salary Board Group during this period. He may give a three (3) percent increase to the Salary Board Group on June 30, 1952, if, as of June 30, 1952, the gross percentage increase granted to the Wage Board Group exceeds the gross percentage increase granted to the Salary Board Group by three (3) percent. In determining the gross percentage increase granted to the Wage Board Group to June 30, 1952, the employer may, at his option, disregard minor increases granted in other payroll periods during the period covered by the computation. However, by so doing, the employer gives up the right to use these minor increases in any subsequent computation. (See section 2.8.)

SEC. 5.3 Q. If the percentage increase granted to all the employees in the Wage Board Group (see section 5.2) had been based upon the average hourly rate of compensation for these employees rather than their total base compensation during the payroll period, would the employer, without further computation, be able to use the percentage increase in the average hourly rate as the percentage increase granted in the payroll period to the Wage Board Group under the formula set forth in section 41?

A. Yes.

SEC. 5.4 Q. An employer has 50 employees in the Wage Board Group and with special permission of the Wage Stabilization Board grants a one and one-half (1½) percent cost-of-living increase to 40 of these employees but does not grant such increase to the remaining ten employees. Based on this increase, how is the percentage increase granted to the entire Wage Board Group computed?

A. *Step 1.* Obtain the total dollar amount of the increase granted to the 40 employees by multiplying their combined base compensation by one and one-half (1½) percent.

Step 2. Divide the figure obtained in Step 1 by the total base compensation of

computations are made for each of these groups. The computations involve the following steps:

A. For employees under the jurisdiction of the Wage Stabilization Board.

(1) List the permissible increases [1]	Amount of increase granted and the payroll period in which it was initially granted [2]					
Employees	Feb. 12-25	Mar. 12-25	Apr. 9-22	May 7-20	June 4-17	July 16-29
A.	$2.00					$1.23
B.						1.40
C.		$2.00				1.80
D.			$2.00			2.09
E.				$2.00	$2.50	2.80
(2) Total increase	2.00	2.00	2.00	2.00	2.50	10.80
(3) Total base compensation	$542.00	$546.00	$548.00	$548.00	$550.50	$561.30
(4) Percent increase: (2) divided by (3)	0.37%	0.37%	0.37%	0.36%	0.45%	1.92%
(5) Gross percent increase:						
Add	.37%	+.37%	+.37%	+.36%	+.45%	+1.92% =
Total	3.84%					

[1] Permissible increases include increases such as cost-of-living and tandem authorized under General Wage Stabilization Regulations, but exclude increases for merit or length-of-service, promotions or transfers, and new or changed positions, as well as increases out of the 10 percent general increase fund, and those granted in individual cases because of inter-plant inequities.

[2] Payroll periods in which no increases were granted are omitted.

B. For employees under the jurisdiction of the Salary Stabilization Board.

(1) List the permissible increases [1]	Amount of increase granted and the payroll period in which it was initially granted [2]			
Employees	Apr. 23-May 6	July 16-29	Sept. 10-23	Oct. 8-21
A.	$3.00	$3.00	$3.00	$3.50
C.				
D.				
(2) Total increase	3.00	3.00	3.00	3.50
(3) Total base compensation	$973.00	$976.00	$979.00	$982.50
(4) Percent increase: (2) divided by (3)	0.31%	0.31%	0.31%	0.36%
(5) Gross percent increase:				
Add	.31%	+.31%	+.31%	+.36% =
Total	1.29%			

[1] Permissible increases include increases such as cost-of-living and tandem, authorized under General Salary Stabilization Regulations, but exclude increases for merit or length-of-service, promotions or transfers, and new or changed positions, as well as increases out of the 10 percent general increase fund, and those granted in individual cases because of inter-plant inequities.

[2] Payroll periods in which no increases were granted are omitted.

Step 2. Obtain the authorized net percentage increase for employees under the jurisdiction of the Salary Stabilization Board as follows:

	Percent
Subtract from the gross percentage increase for employees under WSB jurisdiction (see Step 1A (5))	3.84
The gross percentage increase for employees under SSB jurisdiction (see Step 1B (5))	1.29
The permissible net percentage increase (expressed in terms of "per Payroll Period") is	2.55

Step 3. Figure the dollar amount permissible for increases as follows:

Multiply the permissible percentage increase 2.55 percent, by the total base compensation in the current payroll period. The "current payroll period" is the last payroll period in the entire time period covered by the computation. In this example, it is the payroll period November 5–18, 1951. The total base compensation for the employees under SSB jurisdiction for this payroll period was $982.50. $25.05 is the total amount per payroll period which is available on December 1, 1951, for increases in the compensation for the four employees under the SSB jurisdiction.

EFFECT OF INCREASE OR DECREASE IN PERSONNEL ON COMPUTATION OF AUTHORIZED PERCENTAGE INCREASES

In the example, it was assumed that there was no increase or decrease in the number of employees under the jurisdiction of the Salary Board from the payroll period October 8–21, 1951, the payroll period in which the last increase was given, to the November 5–18, 1951, payroll period. If an additional employee, earning $250.00 per payroll period had been added to the staff during the last payroll period, the total base compensation for the payroll period November 5–18 would have been $982.50 plus $250.00 or $1,232.50. In that case, the dollar amount of permissible increase per payroll would have been $31.43 which would be distributed among the five employees. This amount is arrived at by multiplying the total base compensation, $1,232.50, by the permissible percentage increase, 2.55 percent.

Conversely, if an original employee, earning $200 per payroll period, had left the company during this period, his base compensation would not have appeared in the total base compensation for the last payroll period in the computation. The total base compensation for the current payroll period would then have been $782.50, which is the difference between $982.50 less $200.00, the salary of the employee who left the company. The total dollar amount of permissible increase would have been $19.95, which would be distributed among the remaining three employees. This amount is arrived at by multiplying the total base compensation, $782.50, by the permissible percentage increase, 2.55 percent.

[F. R. Doc. 52-11668; Filed, Oct. 28, 1952; 9:53 a. m.]

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-2 as Amended Oct. 28, 1952]

M-2—RUBBER

This order as amended is found necessary and appropriate to promote the national defense. It is issued pursuant to both the Defense Production Act of 1950, as amended, and the Rubber Act of 1948, as amended. In the formulation of this amended order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

This amended order revises NPA Order M-2, as last amended August 29, 1952, by changing the definition of pale crepe in section 3 (j), deleting the definition of sole crepe in section 3 (k), and revising section 6 so as to permit the use of sole crepe and certain types of pale crepe in the manufacture of shoes. In addition, a new section, section 5, requires the marking of butyl tubes.

REGULATORY PROVISIONS

Sec.
1. Explanation.
2. Applicability of other regulations and orders.
3. Definitions.
4. Limitation on inventory of dry natural rubber.
5. Marking of butyl tubes.
6. Limitation on use of pale crepe.
7. Reports of rubber consumption and stocks.
8. Reports by tire, tube, and camelback manufacturers.
9. Records and reports.
10. Request for adjustment or exception.
11. Communications.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Explanation.* This amended order continues in effect only certain of the restrictions heretofore applicable to the use of natural crepe rubber, and requires the marking of tire tubes made of butyl. The order contains no other controls on acquisition, inventories, and consumption of either natural or synthetic rubber. In the interest of national security, however, it has been jointly determined by the appropriate Government agencies that production by the Government-owned synthetic rubber plants should be maintained at levels substantially in excess of the minimum quantities required by the Rubber Act of 1948, as amended; viz, 200,000 long tons per annum for GR-S and 15,000 long tons per annum for butyl. In order to support the higher production levels desirable for national security, GR-S consumption cannot be permitted to fall below the rate of 450,000 long tons per annum, and butyl consumption cannot be permitted to fall below the rate of 60,000 long tons per annum. Since voluntary industry usage appears unlikely to drop below such levels, mandatory consumption of synthetic rubber has not been imposed, but if consumption falls below these levels the order will be amended by establishing industry-wide manufacturing specifications requiring the use of stated percentages of synthetic rubber in all rubber products. This action is in accord with the legislative policy of section 2 of the Rubber Act of 1948, as amended, which states that "In order to strengthen national security through a sound industry it is essential that * * * regulations requiring mandatory use of synthetic rubber * * * be ended and terminated whenever consistent with national security * * * ."

SEC. 2. *Applicability of other regulations and orders.* Nothing contained in this order as amended shall be construed to relieve any person from complying with such limitations as may be contained in any other applicable NPA regulation or order, or any order or regulation of any other competent authority. Moreover, nothing contained in this order as amended shall be construed as relieving any person of any obligation or liability incurred under this order as originally issued or as amended from time to time.

SEC. 3. *Definitions.* As used in this order:

(a) "Natural rubber" means all forms and types of tree, vine, or shrub rubber, both dry and latex, including all grades of wild rubber, but excluding balata, gutta percha, and reclaimed natural rubber.

(b) "Dry natural rubber" means all natural rubber in solid form.

(c) "Natural rubber latex" means the dry latex solids contained in natural rubber liquid latex.

(d) "Synthetic rubber" means all new RHC products of chemical synthesis in solid or latex form, prepared from a diolefin or derivative therefrom as an essential component, similar in general properties and applications to natural rubber and specifically capable of vulcanization, but excluding reclaimed synthetic rubber.

(e) "GR-S" means a general-purpose synthetic rubber of the butadiene or butadiene-styrene type produced in the United States, generally suitable for use in the manufacture of transportation items such as tires or camelback, as well as any other type of synthetic rubber equally or better suited for use in the manufacture of transportation items such as tires or camelback, as determined from time to time by NPA, but excluding reclaimed general-purpose synthetic rubber.

(f) "Cold rubber" means GR-S polymers produced at low temperatures as classified by the Reconstruction Finance Corporation.

(g) "Butyl" or "GR-I" means special-purpose synthetic rubber produced, in the United States, suitable for use in the manufacture of transportation items such as pneumatic inner tubes, but excluding reclaimed special-purpose synthetic rubber.

(h) "Reclaimed rubber" means any rubber derived from the processing or treatment of vulcanized rubber or cured scrap rubber.

(i) "New RHC" means total new rubber hydrocarbon. This is the total content of dry natural rubber, natural rubber latex, synthetic rubber including the oil in oil-extended GR-S), uncured scrap rubber, and uncured in-process materials.

(j) "Pale crepe" means dry natural rubber produced from the fresh coagula of natural liquid latex meeting the specifications of the Rubber Manufacturers Association for pale latex crepes, thick or thin, number IX and 1.

(k) "Consume" means (in the case of dry natural rubber, natural rubber latex, or synthetic rubber) to compound, expend, formulate, or in any manner make any substantial change in the form, shape, or chemical composition thereof.

(l) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(m) "NPA" means the National Production Authority.

SEC. 4. *Limitation on inventory of dry natural rubber.* Inventories of dry natural rubber are subject to the provisions of NPA Reg. 1.

SEC. 5. *Marking of butyl tubes.* Every tire tube containing butyl (GR-I) synthetic rubber shall be marked by the

all 50 Wage Board Group employees. The resultant figure is the percentage increase granted to the entire Wage Board Group.

SEC. 5.5 Q. An employer has 120 employees in his Wage Board Group. One hundred of these employees are in Division A and 20 are in Division B. The average wage for employees in Division A is $70 per week and the average wage for Division B is $40 per week. All employees in Division A receive an increase in base compensation of one percent and all employees in Division B receive an authorized increase in base compensation of four percent. What is the proper method of computation of the percentage increase for the entire Wage Board Group?

A. *Step 1.* Compute the total base compensation and the total amount of increase as follows:

	Number of employees	Average base compensation per week	Total base compensation	Percent	Amount of increase
Division A	100 ×	$70 =	$7,000 ×	1 =	$70
Division B	20 ×	40 =	800 ×	4 =	32
Total Wage Board Group			7,800		102

Step 2. Divide the total dollar amount of the increase ($102) by the total base compensation ($7,800). The resultant figure, 1.3 percent, is the percentage increase for the Wage Board Group.

SEC. 5.6 Q. If an employer's records show the base compensation of the Wage Board Group most clearly in terms of hourly wage rates, may he compute the percentage increase for the Wage Board Group in terms of a percentage increase in the hourly wage rates?

A. Yes.

RECORDS AND SUMMARY STATEMENTS

SEC. 6.1 Q. Must an employer making increases in salaries and other compensation under section 41 file periodic reports?

A. No. The employer must, however, comply with the requirements as to keeping records and preparing summary statements contained in section 101 of General Salary Stabilization Regulation 1, Amended.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization, October 23, 1952.

JOSEPH D. COOPER,
Executive Director.

APPENDIX A

METHOD OF COMPUTING NET ALLOWABLE INCREASE

Generally speaking, the amount available for distribution is computed as follows: (1) obtain the gross percentage of certain types

manufacturer with one or more circumferential light blue stripes, applied on the base section of the tube, any one of which stripes shall be $\frac{1}{8}$ inch minimum width. No other tire tube shall be so marked.

SEC. 6. *Limitation on use of pale crepe.* No person shall use or consume any pale crepe in the manufacture of pneumatic tires, shoes, shoe soles, heels, welting, or wrappers.

SEC. 7. *Reports of rubber consumption and stocks.* Every person who consumes or owns, at any time during any month, any type of rubber listed in this section shall file a monthly report on Form NPAF–3 with NPA in accordance with the instructions accompanying the form. This report form covers consumption, stocks, receipts, production, and shipments. Those persons who consume rubber for the production of both transportation and nontransportation products shall also file a monthly report on Form NPAF–3A, showing, separately, consumption by type of rubber for each of the two product groups. Also, any person who does not file a Form NPAF–3 for any type of rubber listed in this section for each month of any calendar year shall file an annual report for such year on Form NPAF–4. Any person who consumes rubber as part of a scientific laboratory experimental program only, shall file his report annually on Form NPAF–4. Each person who is hereby required to file Form NPAF–4 shall do so by the twentieth of January of each year.

TYPES TO BE REPORTED

Dry natural rubber.
Natural rubber latex.
Reclaimed rubber.
GR–S types, excluding latex.[1]
GR–S type latex.[1]
Butyl types.[1]
Neoprene, excluding latex.
Neoprene latex.
Butadiene-acrylonitrile types (N-type) excluding latex.
Butadiene-acrylonitrile types (N-type) latex.

SEC. 8. *Reports by tire, tube, and camelback manufacturers.*—(a) *Monthly reports.* Each manufacturer of tires, tubes, and camelback shall file with NPA a report of his production, shipments, and inventory for each calendar month on Form NPAF–5 in accordance with the instructions accompanying the form.

(b) *Weekly reports of cured tires.* Each manufacturer of tires shall file with NPA a report of his production of cured tires for each week on Form NPAF–6 in accordance with the instructions accompanying the form.

SEC. 9. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 10. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–2.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect October 28, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

SECTION 1. *What this direction does.* The purpose of this direction is to assist the domestic and Canadian petroleum programs in the interest of national defense by permitting certain trading and exchanging of oil country tubular goods and line pipe used therein.

SEC. 2. *The direction.* Notwithstanding the provisions of any NPA order or regulation and notwithstanding that the accounting arrangement of the parties may include a cash payment by each to the other of the agreed lawful value of the material to be traded or exchanged, a petroleum or gas operator may trade new, domestically produced oil country tubular goods to any other petroleum or gas operator in exchange for new, domestically produced oil country tubular goods, or may trade new, domestically produced line pipe to any other petroleum or gas operator in exchange for new, domestically produced line pipe, subject to the following limitations:

(a) Any such trade or exchange shall include simultaneous undertakings by each party to deliver to the other a substantially equal tonnage of the oil country tubular goods or line pipe received. "Substantially equal tonnage" means that the lesser volume shall constitute at least 90 percent of the tonnage of the greater volume.

(b) Each party to such trade or exchange shall at the time of the arrangement, as to the oil country tubular goods or line pipe which are the subject of the trade or exchange, either (1) have such material in his possession or (2) have been issued an allotment for such material and have an authorized controlled material order for the same accepted by a steel distributor or steel producer.

(c) Where the parties to such trade or exchange have the materials the subject of such trade or exchange in their possession, delivery of the materials shall be completed by the parties within 30 days from the date of the arrangement.

(d) Where one of the parties to such trade or exchange does not have the material in his possession but has received an allotment for the material and has an authorized controlled material order for the same accepted by a steel distributor or steel producer, delivery of such materials under the trade or exchange arrangement shall be completed within 30 days of their receipt under such authorized controlled material order.

(e) Each party to such trade or exchange shall make a written memorandum of the terms of the arrangement, including the names of the parties, size, grade, weight, footage, tonnage, and dates of delivery of the oil country tubular goods or line pipe involved, and shall preserve such memorandum for a period of 3 years.

This direction shall take effect October 28, 1952.

SEC. 2. *The direction.* Notwithstanding the provisions of any NPA order or regulation and notwithstanding that the accounting arrangement of the parties may include a cash payment by each to the other of the agreed lawful value of the material to be traded or exchanged, a petroleum operator may trade new, domestically produced oil country tubular goods to any other petroleum operator in exchange for new, domestically produced oil country tubular goods, or may trade new, domestically produced line pipe to any other petroleum operator in exchange for new, domestically produced line pipe, subject to the following limitations:

(a) Any such trade or exchange shall include simultaneous undertakings by each party to deliver to the other a substantially equal tonnage of the oil country tubular goods or line pipe received. "Substantially equal tonnage" means that the lesser volume shall constitute at least 90 percent of the tonnage of the greater volume.

(b) Each party to such trade or exchange shall at the time of the arrangement, as to the oil country tubular goods or line pipe which are the subject of the trade or exchange, either (1) have such material in his possession or (2) have been issued an allotment for such material and have an authorized controlled material order for the same accepted by a steel distributor or steel producer.

(c) Where the parties to such trade or exchange have the materials the subject of such trade or exchange in their

possession, delivery of the materials shall be completed by the parties within 30 days from the date of the arrangement.

(d) Where one of the parties to such trade or exchange does not have the material in his possession but has received an allotment for the material and has an authorized controlled material order for the same accepted by a steel distributor or steel producer, delivery of such materials under the trade or exchange arrangement shall be completed within 30 days of their receipt under such authorized controlled material order.

(e) Each party to such trade or exchange shall make a written memorandum of the terms of the arrangement, including the names of the parties, size, grade, weight, footage, tonnage, and dates of delivery of the oil country tubular goods or line pipe involved, and shall preserve such memorandum for a period of 3 years.

This direction shall take effect October 28, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

STANDARD DEDUCTION

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR, Part 29) to section 308 (relating to the standard deduction) of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.23 (aa)-1 the following:

SEC. 308. STANDARD DEDUCTION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Method of election.* Subparagraphs (A) and (B) of section 23 (aa) (3) (relating to optional standard deduction for individuals) are hereby amended by striking out the word "only"; and subparagraph (C) of section 23 (aa) (3) is hereby amended to read as follows:

(C) If the taxpayer upon making his return fails to signify, in the manner provided by subparagraph (A) or (B), his election to take the standard deduction, such failure shall be considered his election not to take the standard deduction.

(b) *Change of election.* Section 23 (aa) is hereby amended by adding at the end thereof the following new paragraph:

(7) *Change of election.* Under regulations prescribed by the Secretary, a change of an election to take, or not to take, the standard deduction for any taxable year may be made after the filing of the return for such year. If the spouse of the taxpayer filed a separate return for any taxable year corresponding, for the purposes of paragraph (4), to the taxable year of the taxpayer, the change shall not be allowed unless, in accordance with such regulations—

(A) The spouse makes a change of election with respect to the standard deduction for the taxable year covered in such separate return, consistent with the change of election sought by the taxpayer, and

(B) The taxpayer and his spouse consent in writing to the assessment, within such period as may be agreed upon with the Secretary, of any deficiency, to the extent attributable to such change of election, even though at the time of the filing of such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

This paragraph shall not apply if the tax liability of the taxpayer's spouse, for the taxable year corresponding (for the purposes of paragraph (4)) to the taxable year of the taxpayer, has been compromised under the provisions of section 3761.

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1949.

PAR. 2. Section 29.23 (aa)-1, as amended by Treasury Decision 5687, approved February 16, 1949, is hereby amended as follows:

(A) By striking out the word "only" in the first sentence of paragraph (b) (1) thereof.

(B) By striking out the fourth sentence of paragraph (b) (1) thereof.

(C) By striking out the word "irrevocable" in paragraph (b) (1) (i) thereof.

(D) By striking out the word "irrevocably" in paragraph (b) (1) (ii) thereof.

(E) By striking out the word "only" in the first sentence of paragraph (b) (2) thereof.

(F) By adding at the end thereof the following paragraph (d):

(d) *Change of election to take, or not to take, the standard deduction.* (1) With respect to taxable years beginning before January 1, 1950, the election to take, or not to take, the standard deduction for any taxable year shall be irrevocable after the time prescribed for filing the return for the taxable year. With respect to taxable years beginning after December 31, 1949, a change of the election to take, or not to take, the standard deduction for any taxable year may be made before or after the time prescribed for filing the return for the taxable year. However, the period of time prescribed in section 322 within which claim for credit or refund of tax must be made is not extended by the right to effect a change of election. (See § 29.322-7.)

(2) If the spouse of the taxpayer filed a separate return for any taxable year that corresponds, for the purpose of section 23 (aa) (4) (see paragraph (c) of this section), to the taxable year of the taxpayer, a change of election may not be made by the taxpayer unless (i) the spouse makes a change of election in such separate return with respect to the standard deduction consistent with the change of election sought by the taxpayer, and (ii) the taxpayer and his spouse file a consent in writing to the assessment, within such period of time as may be agreed upon, of any deficiency of either to the extent attributable to such change of election even though at the time of the filing of such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

(3) A change of election for any taxable year shall not be permitted if the tax liability of the taxpayer for the taxable year, or of the taxpayer's spouse for the taxable year corresponding, for the purpose of section 23 (aa) (4) (see paragraph (c) of this section), to the taxable year of the taxpayer, has been compromised under the provisions of section 3761.

PAR. 3. Section 29.402-1, as amended by Treasury Decision 5687, approved February 16, 1949, is hereby amended by changing the second undesignated subparagraph of paragraph (b) thereof to read as follows:

With respect to taxable years beginning before January 1, 1950, an election under Supplement T once made for the taxable year may not be revoked by an amended return or otherwise, but a new election is allowed for each subsequent taxable year; and, if for any taxable year the taxpayer makes a return without regard to Supplement T, he may not thereafter elect to have his tax computed under such supplement for that taxable year. With respect to taxable years beginning after December 31, 1949, an election under Supplement T, or the making of a return without regard to Supplement T, for any taxable year may be changed under the same circumstances that an election to take, or not to take, the standard deduction may be changed (see § 29.23 (aa)-1 (d)).

[F. R. Doc. 52-11611; Filed, Oct. 28, 1952; 8:52 a. m.]

[26 CFR Parts 29, 40]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941; EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) and Regulations 130 (26 CFR Part 40) to section 319 of the Revenue Act of 1951, approved October 20, 1951, and to conform Regulations 111 (26 CFR Part 29) to Public Law 594, 82d Congress, 2d Session, approved July 21, 1952, such regulations are hereby amended as follows:

PARAGRAPH 1. Section 29.23 (m)-1 (f), as amended by Treasury Decision 5461, approved July 9, 1945, is further amended as follows:

(A) By inserting in subparagraph (3) of the fifth undesignated subparagraph thereof immediately after the word "sintering" the following: "(agglomerating by incipient fusion)"; and

(B) By inserting immediately preceding the next to the last undesignated paragraph thereof the following new undesignated paragraph:

Except where otherwise specifically provided, the phrase "ordinary treatment processes" does not include such processes as (1) treatment effecting a chemical change, (2) blending with other material, (3) thermal action for purposes other than agglomeration by incipient fusion, or (4) fine pulverization, pressing into shape, molding or similar processes undertaken in the manufacture of a finished product.

PAR. 2. Section 29.23 (m)-3, as amended by Treasury Decision 5645, approved July 20, 1948, is further amended by substituting for the heading and first two sentences of the first paragraph the following:

§ 29.23 (m)-3 *Computation of depletion of mines and other natural deposits (other than those in respect of which percentage depletion is allowable) on basis of discovery value.* (a) The basis on which depletion is to be computed in the case of mines and other natural deposits (other than those in respect of which depletion is allowed on the basis of percentage of income under § 29.23 (m)-5) discovered by the taxpayer after February 28, 1913, is the fair market value of the property at the date of discovery or within 30 days thereafter, if such mines or deposits were not acquired as the result of purchase of a proven tract or lease, and if the fair market value of the property is materially disproportionate to cost. Such basis may not be used in the case of the mines or deposits listed under § 29.23 (m)-5 for any period in respect to which depletion on the basis of percentage of income is allowable. * * *

PAR. 3. Section 29.23 (m)-5, as amended by Treasury Decision 5645, is further amended as follows:

(A) By substituting for the heading and the first sentence of the first paragraph the following:

§ 29.23 (m)-5 *Computation of depletion based on percentage of income in case of certain mines or other natural deposits.* (a) In the case of the mines or other natural deposits listed hereinafter, a taxpayer may deduct for depletion under section 114 (b) (4) (A) amounts equal to the following percentages of the gross income from the property during the periods indicated below:

Mine or deposit	Percent	Taxable years beginning after
Aplite	15	(1)
Asbestos	10	(1)
Barite	15	Dec. 31, 1943
Bauxite	15	Dec. 31, 1946
Bentonite	15	Do.
Beryl	15	Dec. 31, 1943
Borax	15	(1)

[1] Effective January 1, 1951. For taxable years beginning before January 1, 1951, and ending after December 31, 1950, see below.

Mine or deposit	Percent	Taxable years beginning after
Bromine	5	(1)
Brucite	10	(1)
Calcium carbonates	10	(1)
Calcium chloride	5	(1)
Clam shell	5	(1)
Clay, ball	15	Dec. 31, 1941
Clay, brick and tile	5	(1)
Clay, china	15	Dec. 31, 1946
Clay, refractory and fire	15	(1)
Clay, sagger	15	Dec. 31, 1941
Coal	5	Do.
Coal	10	(1)
Diatomaceous earth	15	(1)
Dolomite	10	(1)
Feldspar	15	Dec. 31, 1943
Fluorspar	15	Dec. 31, 1941
Fullers earth	15	(1)
Garnet	15	(1)
Gilsonite	15	Dec. 31, 1946
Granite	5	(1)
Graphite, flake	15	Dec. 31, 1942
Gravel	5	(1)
Lepidolite	15	Dec. 31, 1943
Limestone, chemical grade	15	(1)
Limestone, metallurgical grade	15	(1)
Magnesite	10	(1)
Magnesium carbonates	10	(1)
Magnesium chloride	5	(1)
Marble	5	(1)
Metal mines	15	Dec. 31, 1941
Mica	15	Dec. 31, 1943
Oyster shells	5	(1)
Perlite	10	(1)
Phosphate rock	15	Dec. 31, 1943
Potash	15	Dec. 31, 1943
Pumice	5	(1)
Pyrophillite	15	Dec. 31, 1946
Quartzite	15	(1)
Rock asphalt	15	Dec. 31, 1941
Sand	5	(1)
Scoria	5	(1)
Shale	5	(1)
Slate	5	(1)
Sodium chloride	5	(1)
Spodumene	15	Dec. 31, 1943
Stone	5	(1)
Sulphur	23	Dec. 31, 1941
Talc	15	Dec. 31, 1943
Thenardite	15	Dec. 31, 1946
Tripoli	15	(1)
Trona	15	Dec. 31, 1946
Vermiculite	15	Dec. 31, 1943
Wollastonite	10	(1)

[1] Effective January 1, 1951. For taxable years beginning before January 1, 1951, and ending after December 31, 1950, see below.

Such deduction shall not in any case exceed 50 percent of the net income of the taxpayer (computed without allowance for depletion) from the property. * * *

(B) By redesignating paragraph (b) as paragraph (c) and by inserting the following new paragraph (b):

(b) For the purposes of this section, the minerals indicated below shall have the following meanings:

Borax: Any boron material including that contained in brines.

Bromine: Bromine if obtained from brine wells.

Calcium carbonates: Miscellaneous limestones and other calcium carbonate rocks (not specifically provided for at a 5 percent or 15 percent rate of percentage allowance) such as cement rock and limestone used or sold for use in soil treatment. This classification does not include rock or minerals used or sold for use as ballast, road making, concrete aggregates, or other purposes for which chemical composition is not a major requirement.

Calcium chloride: Calcium chloride if produced from brine wells.

Clay, brick and tile: Clay used or sold for use in the manufacture of common brick, drain and roofing tile, sewer pipe, flower pots and kindred products, the use of which is not dependent upon the properties of the clays for which a 15 percent rate of percentage allowance is specifically provided.

Coal: All coal including lignite.

Limestone, chemical grade: Limestone used or sold for use in the chemical trades.

Limestone, metallurgical grade: Limestone used or sold for use in the production of metals.

Magnesium chloride: Magnesium chlorides if produced from brine wells.

Phosphate rock: Any phosphate ore.

Pumice: All pumice including pumicite.

Scoria: All scoria produced from natural deposits.

Stone: All common dimension, crushed or broken stone within the ordinary meaning of these terms.

Thenardite: All sodium sulphate minerals, including those contained in brine.

Trona: All sodium carbonate minerals including those contained in brine; and

(C) By inserting the following new paragraphs (d) and (e):

(d) In the case of a taxpayer whose taxable year began before January 1, 1951, and ended after December 31, 1950, and who became entitled to percentage depletion, or an increase therein, or whose basis for depletion changed on January 1, 1951, the allowance for depletion for the taxable year under this section is an amount equal to the sum of:

(1) That portion of a tentative allowance computed under the provisions of this section (without regard to the amendments to section 114 (b) (4) effective January 1, 1951), which the number of days in such taxable year prior to January 1, 1951, bears to the total number of days in such taxable year; plus

(2) That portion of a tentative allowance computed under the provisions of this section as though the amendments to section 114 (b) (4), effective January 1, 1951, were applicable to the entire taxable year, which the number of days in such taxable year after December 31, 1950, bears to the total number of days in such taxable year.

(e) For taxable years ending after December 31, 1950, percentage depletion is not allowable with respect to any disposal of coal to the extent that income therefrom is treated as a capital gain or loss under section 117 (k) (2).

PAR. 4. Section 29.23 (m)–3 is amended by substituting for the first sentence of the introductory paragraph the following: "No revaluation of a property whose value as of any specific date has been determined and approved will be made or allowed during the continuance of the ownership under which the value was so determined and approved, except in the case of a subsequent discovery of nonmetallic minerals in respect to which depletion is not allowed on the basis of percentage of income under § 29.23 (m)–4 or 5, or of misrepresentation or fraud or gross error as to any facts known on the date as of which the valuation was made."

PAR. 5. Section 29.23 (m)–10 (d), as amended by Treasury Decision 5645 is further amended to read as follows:

(d) In lieu of the treatment provided for in paragraphs (a) and (b) of this section, the owner of an economic interest in minerals in respect of which depletion is allowed on the basis of percentage of income under §§ 29.23 (m)–4 or 29.23 (m)–5 may take as a depletion deduction in respect of any bonus or advanced royalty from the property for the taxable year or period for which such deduction is allowable under such section an amount computed on the basis of the percentages applicable as indicated in such sections; but the deduction shall not in any case exceed 50 percent of the net income of the taxpayer (computed without allowance for depletion) from the property.

PAR. 6. Section 29.23 (m)–13 (a), as amended by Treasury Decision 5645 is amended by substituting for so much of paragraph (a) as precedes subparagraph (1), the following:

(a) There shall be attached to the return of every taxpayer who claims depletion on the basis of percentage of income under §§ 29.23 (m)–4 or 29.23 (m)–5, a statement containing the following information with respect to every property for which percentage depletion is allowable:

* * * * * *

PAR. 7. Section 29.23 (m)–14 (a), as amended by Treasury Decision 5645 is further amended by substituting for the heading and so much of paragraph (a) as precedes the last sentence thereof the following:

§ 29.23 (m)–14 *Discovery of mines or other natural deposits (except those in respect of which percentage depletion is allowable under § 29.23 (m)–5).* (a) To entitle a taxpayer to a valuation of his property, for the purposes of depletion allowances, by reason of the discovery of a mine or minerals (other than those in respect of which percentage depletion is allowable under §§ 29.23 (m)–4 or 29.23 (m)–5, it must appear that the mine or minerals were not acquired as the result of the purchase of a proven tract or lease; also the discovery must be made by the taxpayer after February 28, 1913, and must result in the fair market value of the property becoming disproportionate to cost. For the purposes of this section, mines or minerals shall not be entitled to valuation upon the basis of discovery for any taxable year or period in respect to which percentage depletion is allowable under §§ 29.23 (m)–4 or 29.23 (m)–5. * * *

PAR. 8. There is inserted immediately preceding § 29.114–1 the following:

SEC. 319. PERCENTAGE DEPLETION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Allowance of percentage depletion.* So much of paragraph (4) of section 114 (b) as precedes the last sentence of subparagraph (A) is hereby amended to read as follows:

(4) Percentage depletion for coal and metal mines and for certain other mines and natural mineral deposits—

(A) *In general.* The allowance for depletion under section 23 (m) in the case of the following mines and other natural deposits shall be—

(i) In the case of sand, gravel, slate, stone (including pumice and scoria), brick and tile clay, shale, oyster shell, clam shell, granite, marble, sodium chloride, and, if from brine wells, calcium chloride, magnesium chloride, and bromine, 5 per centum,

(ii) In the case of coal, asbestos, brucite, dolomite, magnesite, perlite, wollastonite, calcium carbonates, and magnesium carbonates, 10 per centum,

(iii) In the case of metal mines, aplite, bauxite, fluorspar, flake graphite, vermiculite, beryl, garnet, feldspar, mica, talc (including pyrophyllite), lepidolite, spodumene, barite, ball clay, sagger clay, china clay, phosphate rock, rock asphalt, trona, bentonite, gilsonite, thenardite, borax, fuller's earth, tripoli, refractory and fire clay, quartzite, diatomaceous earth, metallurgical grade limestone, chemical grade limestone, and potash, 15 per centum, and

(iv) In the case of sulfur, 23 per centum, of the gross income from the property during the taxable year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property.

(b) *Technical amendment.* So much of paragraph (2) of section 114 (b) as precedes "discovered by the taxpayer after February 28, 1913" is hereby amended to read as follows:

(2) *Discovery value in the case of mines.* In the case of mines (except mines in respect of which percentage depletion is allowable under paragraph (4) of this subsection).

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1950.

PUBLIC LAW 594—82D CONGRESS APPROVED JULY 21, 1952

SEC. 5. Section 319 (c) of the Revenue Act of 1951 is amended to read as follows:

(c) *Effective date.* The amendments made by this section shall be effective on and after January 1, 1951.

PAR. 9. Section 29.114–1, as amended by Treasury Decision 5645, is further amended to read as follows:

§ 29.114–1 *Basis for allowance of depreciation and depletion.* The basis upon which exhaustion, wear and tear, obsolescence, and depletion will be allowed in respect of any property is the same as is provided in section 113 (a), adjusted as provided in section 113 (b), for the purpose of determining the gain from the sale or other disposition of such property, except that as provided in § 29.23 (m)–21 in the case of the cutting of timber which is considered to be a sale or exchange of such timber under section 117 (k) (1), the basis shall be the fair market value of such timber as of the first day of the taxable year in which it is cut; and except as provided in § 29.23 (m)–3 relating to depletion based on discovery value, in § 29.23 (m)–4 relating to percentage depletion in the case of oil and gas wells; in § 29.23 (m)–5 relating to percentage depletion in the case of certain minerals with respect to the applicable taxable years or effective date specified therein, and in sections 23 (cc) (3) and 23 (ff) (4) relating to basis for depletion for taxable years ending after December 31, 1950.

PAR. 10. Section 40.453–2 (h) of Regulations 130 is amended by adding at the end thereof the following undesignated paragraph:

The non-metallic minerals referred to in sections 453 (a) (13) and 453 (b) (2) and (4) shall be given the meanings set forth in § 29.23 (m)–5 of this chapter.

PAR. 11. Section 40.453–2 (j) (3) of Regulations 130 is amended by inserting after subdivision (iii) the following new undesignated paragraph:

Except where otherwise specifically provided, the phrase "ordinary treatment processes" does not include such processes as: (*a*) Treatment effecting a chemical change, (*b*) blending with other material, (*c*) thermal action for purposes other than agglomeration by incipient fusion, or (*d*) fine pulverization, pressing into shape, molding or similar processes undertaken in the manufacture of a finished product.

TAXES ON SAFE DEPOSIT BOXES AND ON CERTAIN TRANSPORTATION AND COMMUNICATIONS SERVICES

EXCISE TAX ON CERTAIN TELEPHONE AND TELEGRAPH MESSAGES AND WITH RESPECT TO TRANSPORTATION OF PERSONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 3472 and 3791 of the Internal Revenue Code (53 Stat. 423, 467, 55 Stat. 722; 26 U. S. C. 3472, 3791).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 42 (1942 Edition) (26 CFR Part 130), relating to the taxes on the use of safe deposit boxes, transportation of oil by pipe line, telephone, telegraph, radio and cable messages and services, and transportation of persons under the provisions of the Internal Revenue Code, to sections 491, 492, 493, and 494 of the Revenue Act of 1951 (Public Law 183, 82d Congress, 1st Session), approved October 20, 1951, such regulations are amended as follows:

PARAGRAPH 1. Section 130.0, as amended by Treasury Decision 5559, approved April 18, 1947, is further amended as follows:

(A) By striking in paragraph (c) the words "and sections 2, 3, and 4 of the Excise Tax Act of 1947," and inserting in lieu thereof the following: ", sections 2, 3, and 4 of the Excise Tax Act of 1947, and sections 491 and 492 of the Revenue Act of 1951,".

(B) By striking in paragraph (d) the words "and sections 2, 3, and 4 of the Excise Tax Act of 1947," and inserting in lieu thereof the following: ", sections 2, 3, and 4 of the Excise Tax Act of 1947, section 607 of the Revenue Act of 1950, and sections 493 and 494 of the Revenue Act of 1951,".

PAR. 2. Immediately preceding § 130.30, there is inserted the following:

SEC. 491. REDUCTION OF TAX ON TELEGRAPH DISPATCHES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Reduction of tax.* The table contained in section 1650 (relating to the war tax rates of certain miscellaneous taxes) is hereby amended by striking out the following:

3465 (a) (1) (B) (insofar as it relates to domestic telegraph, cable, and radio dispatches).	Domestic Telegraph, Cable, or Radio Dispatches.	15 per centum	25 per centum.

(b) *Effective date.* Subject to the provisions of subsection (c), the amendments made by this section shall apply with respect to amounts paid on or after the rate reduction date (as defined in subsection (d)) for services rendered on or after such date.

(c) *Amounts paid pursuant to bills rendered.* The amendments made by this section shall not apply with respect to amounts paid pursuant to bills rendered prior to the rate reduction date. In the case of amounts paid pursuant to bills rendered on or after the rate reduction date for services for which no previous bill was rendered, the amendments made by this section shall apply except with respect to such services as were rendered more than 2 months before such date. In the case of services rendered more than 2 months before such date the provisions of sections 1650 and 3465 of the Internal Revenue Code in effect at the time such services were rendered shall be applicable to the amounts paid for such services.

(d) *Rate reduction date.* For the purposes of this section the term "rate reduction date" means the first day of the first month which begins more than 10 days after the date of the enactment of this Act.

PAR. 3. Paragraph (b) of § 130.30, as amended by Treasury Decision 5559, is further amended by adding at the end thereof the following new sentences: "The provisions of section 1650 were further amended by section 491 of the Revenue Act of 1951, effective November 1, 1951, and as so amended, the rate of tax on amounts paid on and after that date for domestic services specified in section 3465 (a) (1) (B) rendered on and after that date was reduced. The amendment as it relates to this tax applies to amounts paid pursuant to bills rendered on and after November 1, 1951, for services furnished on or after September 1, 1951, for which no previous bill was rendered."

PAR. 4. Section 130.33, as amended by Treasury Decision 5559, is further amended by (b) inserting new subparagraphs (1) and (2) after the headnote of paragraph (b) and by redesignating present subparagraphs (1) and (2) as (3) and (4):

(b) *Telegraph, cable, and radio dispatches and messages*—(1) *International messages.* The amount paid for each international telegraph, cable, or radio dispatch or message is subject to tax at the rate of 10 percent.

(2) *Domestic messages.* The amount paid for each domestic telegraph, cable, or radio dispatch or message is subject to tax at the specified rates for the following periods:

(i) On and after November 1, 1951, 15 percent;
(ii) April 1, 1944 through October 31, 1951, 25 percent;
(iii) November 1, 1942 through March 31, 1944, 15 percent;
(iv) Prior to November 1, 1942, 10 percent.

PAR. 5. Immediately preceding § 130.44, there is inserted the following:

SEC. 492. EXEMPTION OF CERTAIN OVERSEAS TELEPHONE CALLS FROM THE TAX ON TELEPHONE FACILITIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Telephone calls from members of armed forces in combat zones.* Section 3466 is amended by redesignating subsection (c) thereof as subsection "(d)" and by inserting after subsection (b) the following new subsection:

(c) No tax shall be imposed under section 3465 (a) (1) (A) upon any payment received for any telephone or radio telephone message which originates within a combat zone, as defined in section 22 (b) (13), from a member of the Armed Forces of the United States performing service in such combat zone, as determined under such section, provided a certificate, setting forth such facts as the Secretary may by regulations prescribe, is furnished to the person receiving such payment.

(b) *Effective date.* The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than 10 days after the date of enactment of this Act for telephone or radio telephone messages made on or after such date.

PAR. 6. Section 130.44, as amended by Treasury Decision 5521, approved June 14, 1946, is further amended by striking "(See also § 130.46)" in the second sentence of paragraph (e), and by inserting in lieu thereof "(See also § 130.47)".

PAR. 7. Section 130.46 is renumbered § 130.47 and a new § 130.46 is inserted to read as follows:

§ 130.46 *Telephone calls from members of armed forces in combat zones.* (a) The exemption provided by section 3466 (c) is applicable to any payment received on or after November 1, 1951, for any telephone or radio telephone message or call which originates, on or after such date, within a combat zone as defined in section 22 (b) (13), from a member of the Armed Forces of the United States performing service in such combat zone, if a properly executed certificate of exemption substantially in the form shown below is furnished the person receiving such payment. (See also § 130.47.)

(b) Service is performed in a combat zone only if it is performed in an area which the President of the United States has designated by Executive Order, for the purpose of section 22 (b) (13), as an area in which Armed Forces of the United States are or have (after June 24, 1950) engaged in combat, and only if it is perfored on or after the date designated by the President by Executive Order as the date of the commencing of combatant activities in such zone and on or before the date designated by the President by Executive Order as the date of the termination of combatant activities in such zone.

EXEMPTION CERTIFICATE

(Overseas Telephone Calls)

---------- 19----
(Date)

I certify that the toll charges of $--------- are for telephone or radio telephone messages originating at ----------
(Point of origin)
within a combat zone from ----------
(Name)
a member of the Armed Forces of the United States performing service in such combat zone, that the transmission facilities were furnished by ----------;
(Name of carrier)
that the charges are exempt from tax under section 3466 (c) of the Internal Revenue Code.

(Signature of Subscriber)

(Address)

NOTE: Penalty for fraudulent use, $10,000 or imprisonment or both. (See section 1718 of the Internal Revenue Code.)

PAR. 8. There is inserted immediately preceding § 130.50 the following:

SEC. 493. EXEMPTION OF FISHING TRIPS FROM TAX ON TRANSPORTATION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Exemption.* Section 3469 (b) (relating to exemption of certain trips from the tax of transportation of persons) is hereby amended by striking out "or to amounts" and inserting in lieu thereof "to amounts", and by inserting after the words "one month or less" the following ", or to amounts paid for transportation by boat for the purpose of fishing from such boat".

(b) *Effective date.* The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than 10 days after the date of the enactment of this Act for transportation on or after such first day.

PAR. 9. Section 130.51, as amended by Treasury Decision 5929, approved September 2, 1952, is further amended by revising the second sentence of paragraph (g) thereof to read as follows: "For other payments not subject to tax, see §§ 130.54 and 130.60 to 130.64."

PAR. 10. Section 130.53, as amended by Treasury Decision 5929, is further amended by adding at the end of subparagraph (1) of paragraph (i) thereof the following: "(For information with respect to the exemption of amounts paid on or after November 1, 1951, for transportation, on or after that date, of persons on boats chartered for fishing purposes, see § 130.60a.)"

PAR. 11. Section 130.54, as amended by Treasury Decision 5929, is further amended by deleting the words "See §§ 130.60 to 130.63" appearing in the first sentence thereof and inserting in lieu thereof the words "See §§ 130.60 to 130.64".

PAR. 12. Immediately preceding § 130.59, there is inserted the following:

SEC. 493. EXEMPTION OF FISHING TRIPS FROM TAX ON TRANSPORTATION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Exemption.* Section 3469 (b) (relating to exemption of certain trips from the tax of transportation of persons) is hereby amended by striking out "or to amounts" and inserting in lieu thereof "to amounts", and by inserting after the words "one month or less" the following ", or to amounts paid for transportation by boat for the purpose of fishing from such boat".

(b) *Effective date.* The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than 10 days after the date of the enactment of this Act for transportation on or after such first day.

PAR. 13. Immediately following § 130.60 there is inserted the following new section:

§ 130.60a *Fishing trips.* No tax is imposed upon an amount paid on or after November 1, 1951, for transportation by boat, on or after that date, where the transportation is for the purpose of fishing from such boat.

PAR. 14. Immediately preceding § 130.64, there is inserted the following:

SEC. 494. TAX ON TRANSPORTATION OF PERSONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Exemption of certain foreign travel.* Section 3469 (a) of the Internal Revenue Code (relating to tax on transportation of persons) is hereby amended by striking out the third sentence and inserting in lieu of such sentence the following: "In the case of transportation by water on a vessel which makes one or more intermediate stops at ports within the United States, Canada, or Mexico on a voyage which begins or ends in the United States and ends or begins outside the northern portion of the Western Hemisphere, no part of such transportation shall be considered for the purposes of the preceding sentence to be from any port within the United States, Canada, or Mexico to any other such port if the vessel in stopping at any such intermediate port is not authorized both to discharge and to take on passengers. A port or station within Newfoundland shall not for the purposes of the preceding two sentences, be considered as a port or station within Canada."

(b) *Effective date.* The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than ten days after the date of the enactment of this Act for transportation on or after such first day.

PAR. 15. Section 130.64, as amended by Treasury Decision 5929, is further amended as follows:

(A) By striking the third sentence in the first undesignated paragraph thereof.

(B) By inserting immediately following the first paragraph the following new undesignated paragraphs:

The tax does not attach to any part of a payment made on or after November 1, 1951, for transportation by water, on or after that date, on a vessel which makes one or more intermediate stops at ports within the United States, Canada, or Mexico, on a voyage between the United States and a port outside the northern portion of the Western Hemisphere, provided the vessel in stopping at any such intermediate port is not authorized both to discharge and to take on passengers.

In any case where the vessel in stopping at any such intermediate port is authorized or is permitted both to discharge and to take on passengers, the rules set forth in the first paragraph of this section apply. A vessel is authorized both to discharge and to take on passengers at the intermediate port unless there is a legal or other authoritative prohibition of such traffic. For the purposes of the preceding sentence, an order issued by the owner or operator of a vessel prohibiting such vessel from either discharging or taking on passengers at the intermediate port is not a legal or other authoritative prohibition of such traffic.

A port or station within Newfoundland shall not, for the purposes of the preceding paragraphs, be considered as a port or station within Canada.

(C) By inserting immediately following Example 6 thereof two new examples as follows:

Example 7. H purchases a steamship ticket in New York City for transportation from New York City to Southampton, England. The vessel on which H sails makes an intermediate stop during the course of such voyage at Boston, Massachusetts, to take on passengers. The vessel is not, however, authorized to discharge passengers at such port. No tax applies to the portion of the transportation between New York City and Boston, since H's voyage involved transportation between a port within the United States and a port outside the northern portion of the Western Hemisphere and the vessel on which H traveled was not authorized both to discharge and to take on passengers at the intermediate port at which it stopped.

Example 8. I purchases a steamship ticket in San Francisco for a voyage from San Francisco to Manila. The vessel on which he travels makes a stop at Honolulu to discharge passengers. The vessel is, however, permitted also to take on passengers at Honolulu. The tax applies to that portion of the transportation between San Francisco and Honolulu, since the vessel on which I traveled was permitted to both discharge and to take on passengers at Honolulu, the intermediate port at which it stopped.

[26 CFR Part 472]

REGULATIONS UNDER SECTION 3804 OF THE INTERNAL REVENUE CODE

TIME FOR PERFORMING CERTAIN ACTS POSTPONED IN CASE OF CHINA TRADE ACT CORPORATIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 (53 Stat. 32, 467; 26 U. S. C. 62, 3791) of the Internal Revenue Code and in section 3805 of such Code, as amended by section 614 of the Revenue Act of 1951.

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Treasury Decision 5279, approved July 10, 1943, as amended by Treasury Decision 5610, approved March 15, 1948 (26 CFR Part 472), to section 614 (relating to postponement of time for performing certain acts in case of China Trade Act corporations) of the Revenue Act of 1951, approved October 20, 1951, such Treasury decision is hereby amended as follows:

PARAGRAPH 1. Immediately preceding the caption "Public Law 490 (Seventy-Seventh Congress), approved March 7, 1942", which precedes § 472.0, the following is inserted:

SEC. 614. TIME FOR PERFORMING CERTAIN ACTS POSTPONED IN CASE OF CHINA TRADE ACT CORPORATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 3805 (relating to postponement of income tax due dates in the case of China Trade Act corporations) is hereby amended to read as follows:

SEC. 3805. INCOME TAX DUE DATES POSTPONED IN CASE OF CHINA TRADE ACT CORPORATIONS.

In the case of any taxable year beginning after December 31, 1948, and ending before October 1, 1953, no Federal income tax return of, or payment of any Federal income tax by, any corporation organized under the China Trade Act of 1922 (42 Stat. 849, U. S. C., Title 15, chapter 4), as amended, shall become due until December 31, 1953, but only with respect to any such corporation and any such taxable year which the Secretary may determine reasonable under the circumstances in China pursuant to such regulations as he may prescribe. Such due date shall be subject to the power of the Secretary to extend the time for filing such return or paying such tax, as in other cases.

PAR. 2. Section 472.806, as amended by Treasury Decision 5610, is further amended by striking therefrom paragraph (a) and inserting in lieu thereof the following new paragraph:

(a) *Income tax*—(1) *In general.* (i) Section 3805, immediately prior to amendment by section 614 of the Revenue Act of 1951, approved October 20, 1951, provided that in the case of any taxable year beginning after December 31, 1940, no Federal income tax return of, or payment of any Federal income tax by, any corporation organized under the China Trade Act, 1922, should become due until December 31, 1947. Section 3805, as amended by section 614 of the Revenue Act of 1951, provides with respect to any taxable year beginning after December 31, 1948, and ending before October 1, 1953, that the Federal income tax return of, or the payment of Federal income tax by, a corporation organized under such China Trade Act shall not become due until December 31, 1953, if, in the case of any such taxable year of any such corporation, the application of such postponed due date is determined by the Secretary under regulations to be reasonable in view of the circumstances in China.

(ii) The due dates (December 31, 1947, or December 31, 1953, whichever is applicable) thus prescribed are expressly subject to the power of the Commissioner to extend, as in other cases, the time for filing the income tax return or paying the income tax. See sections 53 (a) (2) and 56 (c) (1); and, the regulations thereunder.

(2) *Specific rules applicable to taxable years beginning after December 31, 1948, and ending before October 1, 1953.* The postponement of the due date to December 31, 1953, permitted by section 3805 shall apply with respect to:

(i) Any taxable year beginning after December 31, 1948, and ending before October 1, 1953, of any corporation organized under the China Trade Act, 1922, as amended, if during such taxable year conditions in China have been generally so unsettled as to militate against the normal commercial operations and corporate activities of such corporation, except:

(*a*) In the case of any such taxable year of any such corporation in respect to which the situation is such that, despite such unsettled conditions, the books of account and business records are available so as to permit the filing of a proper return and the corporation has otherwise been in a position to carry on its commercial operations and corporate activities and to make a proper distribution of its earnings or profits, if any, so as to permit the certification required by section 262 (b); or

(*b*) In the case of any such taxable year of any such corporation during which all the commercial operations and corporate activities of such corporation have been carried on in Hong Kong, Macao, or Taiwan; and

(ii) Any such taxable year of any such corporation excepted under subdivision (i) (*a*) or (*b*) of this subparagraph in respect of which the corporation satisfies the Commissioner that special circumstances exist, related to the unsettled conditions in China, which warrant such postponement.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 52]

U. S. STANDARDS FOR GRADES OF CANNED CARROTS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of United States Standards for Grades of Canned Carrots, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.), and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451; 82d Cong., approved July 5, 1952). This revision, if made effective, will be the fourth issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

§ 52.216 *Canned carrots.* "Canned carrots" means the canned product properly prepared from the clean, sound roots of the carrot plant as defined in the definitions and standards of identity for canned vegetables (21 CFR, Cum. Supp. 52.990, as amended 17 F. R. 8176) issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(a) *Styles of canned carrots.* (1) "Whole" or "whole carrots" means canned carrots consisting of whole carrots that retain the approximate original conformation of the whole carrot.

(2) "Slices" or "sliced carrots" means canned carrots consisting of carrot slices produced by slicing whole carrots transversely to the longitudinal axis.

(3) "Quarters" or "quartered carrots" means canned carrots consisting of quarters of carrots produced by cutting whole carrots longitudinally into four approximately equal units. Whole carrots cut longitudinally into six units approximating the size and appearance of the quartered carrots are also permitted in this style.

(4) "Diced carrots" means canned carrots consisting of units produced by cutting whole carrots into cubes having edges, other than the rounded outer edges, measuring approximately ½ inch or less.

(5) "Julienne," "French style," or "shoestring" means canned carrots consisting of strips of carrots.

(6) "Cut" means canned carrots consisting of units which with respect to size or shape do not conform to any of the foregoing styles. Carrots which have been cut longitudinally into two approximately equal units are included in this style.

(7) "Unit" means an individual carrot or portion of a carrot in canned carrots.

(b) *Grades of canned carrots.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of canned carrots that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a good color; that are practically free from defects; that are tender; that are practically uniform in size and shape; and that score not less than 85 points when scored in accordance with the scoring system outlined in this section.

(2) "U. S. Grade C" or "U. S. Standard" is the quality of canned carrots that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a fairly good color; that are fairly free from defects; that are fairly tender; that are fairly uniform in size and shape; and that score not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "Substandard" is the quality of canned carrots that fail to meet the requirements of U. S. Grade C or U. S. Standard.

(c) *Recommended fill of container.* The recommended fill of container is not incorporated in the grade of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that the container of canned carrots be filled as full as practicable with carrots without impairment of quality and that the product and packing medium occupy not less than 90 percent of the total capacity of the container.

(d) *Recommended drained weight.* The drained weight recommendations in Table No. I of this paragraph are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of canned carrots is determined by emptying the contents of the container upon a U. S. Standard No. 8 sieve of proper diameter so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage and allowing to drain for two minutes. The drained weight is the weight of the sieve and carrots less the weight of the dry sieve. A sieve 8 inches in diameter is used for the No. 2½ size can (401 x 411) and smaller sizes; and a sieve 12 inches in diameter is used for containers larger than the No. 2½ size can.

TABLE NO. I—RECOMMENDED MINIMUM DRAINED WEIGHTS, IN OUNCES, OF CARROTS

Container size or designation	Style of canned carrots				
	Whole	Diced	Quartered cut	Sliced	Julienne
8-ounce tall	5¾	6	6	5¾	5½
8-ounce glass	5¾	6	6	5¾	5½
No. 1 picnic	7¼	7½	7½	7¼	7
No. 300	9½	10	10	9½	9
No. 303	10½	11	11	10½	10
No. 303 glass	10½	11	11	10½	10
No. 2	12½	13	12½	12½	12
No. 2½	18½	19	18½	18½	18¼
No. 2½ glass	18¼	18¾	18¼	18¼	18
No. 10	68	72	70½	69	68

(e) *Sizes of carrots in whole carrots.* The size of any carrot is determined by measuring the longest diameter through the center transversely to the longitudinal axis of the carrot.

(f) *Sizes of carrot slices in sliced carrots.* The size of any slice in sliced carrots is determined by measuring the smallest diameter of the largest surface of the slice.

(g) *Ascertaining the grade.* (1) The grade of canned carrots is ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, uniformity of size and shape, absence of defects, and texture.

(2) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
(i) Color	25
(ii) Uniformity of size and shape	15
(iii) Absence of defects	30
(iv) Texture	30
Total score	100

(3) "Normal flavor and odor" means that the canned carrots are free from objectionable flavors and objectionable odors of any kind.

(h) *Ascertaining the rating for the factors which are scored.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical range for the rating of each factor is inclusive (for example, "12 to 15 points" means 12, 13, 14, or 15 points).

(1) *Color.* (i) Canned carrots that possess a good color may be given a score of 21 to 25 points. "Good color" means that the canned carrots possess an orange-yellow color that is bright and typical of canned carrots, and that the presence of green units does not more than slightly affect the appearance or eating quality of the product.

(ii) If the canned carrots possess a fairly good color, a score of 18 to 20 points may be given. Canned carrots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the canned carrots possess the typical color of canned carrots, that such color may be slightly dull but not off-color, and that the presence of green units does not materially affect the appearance or eating quality of the product.

(iii) Canned carrots that are off-color for any reason or that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 17 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Uniformity of size and shape.* (i) Canned carrots that are practically uniform in size and shape may be given a score of 12 to 15 points. "Practically uniform in size and shape" has the following meanings with respect to the various styles of canned carrots:

(a) *Whole carrots.* The size of the individual carrot is not more than 1¾ inches in diameter, measured as aforesaid; the carrots may vary moderately in shape and the diameter of the largest unit is not more than 50 percent greater than the diameter of the second smallest unit.

(b) *Quartered carrots.* The carrots from which the quarters have been prepared were of a size not more than 2½ inches in diameter, measured as aforesaid, and the weight of the largest quarter is not more than 50 percent greater than the weight of the second smallest quarter.

(c) *Sliced carrots.* The individual slice is not more than ⅜ inch in thickness when measured at the thickest portion; the size of each slice is not more than 2½ inches in diameter, measured as aforesaid, and the diameter of the largest slice is not more than 50 percent greater than the diameter of the second smallest slice.

(d) *Diced carrots.* The units are practically uniform in size and shape with edges, other than the rounded outer edges, measuring approximately ½ inch or less; and the aggregate weight of all units of irregular shape which are noticeably smaller than one-half the volume of an average size cube and of all noticeably large and large irregular shaped units does not exceed 12 percent of the weight of all the units.

(e) *Julienne, French style, or shoestring.* The strips of carrots are practically uniform in size and shape, with cross sections measuring approximately $\frac{3}{16}$ inch, and the aggregate weight of all strips less than ½ inch in length does not exceed 12 percent of the weight of all the strips.

(f) *Cut.* The individual units weigh not less than ¼ ounce and the largest unit is not more than four times the weight of the second smallest unit. When cut longitudinally into two approximately equal units, the carrots from which the units have been prepared were of a size not more than 2½ inches in diameter, measured as aforesaid, and the weight of the largest unit is not more than 50 percent greater than the weight of the second smallest unit.

(ii) If the canned carrots are fairly uniform in size and shape a score of 8 to 11 points may be given. Canned carrots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly uniform in size and shape" has the following meanings with respect to the various styles of canned carrots:

(a) *Whole carrots.* The size of the individual carrot is not more than 2¼ inches in diameter, measured as aforesaid; the carrots may vary considerably in shape, and the diameter of the largest unit is not more than twice the diameter of the second smallest unit.

(b) *Quartered carrots.* The carrots from which the quarters have been cut were of a size not more than 2½ inches in diameter, measured as aforesaid, and the weight of the largest quarter is not more than twice the weight of the second smallest unit.

(c) *Sliced carrots.* The individual slice is not more than ⅜ inch in thickness when measured at the thickest portion; the size of each slice is not more than 2½ inches in diameter, measured as aforesaid; and the diameter of the largest slice is not more than twice the diameter of the second smallest slice.

(d) *Diced carrots.* The units are fairly uniform in size and shape, with edges, other than the rounded outer edges, measuring approximately ½ inch or less; and the aggregate weight of all units of irregular shape which are noticeably smaller than one-half the volume of an average size cube and of all noticeably large and large irregular shaped units does not exceed 25 percent of the weight of all the units.

(e) *Julienne, French style, or shoestring.* The strips of carrots are fairly uniform in size and shape, with cross sections measuring approximately $\frac{3}{16}$ inch and the aggregate weight of all the strips less than ½ inch in length does not exceed 25 percent of the weight of all the strips.

(f) *Cut.* The individual units weigh not less than ⅛ ounce and the largest unit is not more than twelve times the weight of the second smallest unit. When cut longitudinally into two approximately equal units, the carrots from which the units have been prepared were of a size not more than 2½ inches in diameter, measured as aforesaid, and the weight of the largest unit is not more than twice the weight of the second smallest unit.

(iii) Canned carrots that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 7 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* (i) The factor of absence of defects refers to the degree of freedom from defective units. Defective units are units damaged by mechanical injury, unpeeled units, units blemished by brown or black internal or external discoloration, sunburn, or green colored units, pathological injury or insect injury, and units blemished by other means.

(a) "Damaged by mechanical injury" means crushed, broken, or cracked units, units with excessively frayed edges and surfaces, excessively trimmed units, or damaged by other means.

(b) "Unpeeled unit" means any unit possessing an unpeeled area greater than the area of a circle ¼ inch in diameter.

(c) "Blemished" means any unit blemished to the extent that the appearance or eating quality is materially affected.

(d) "Seriously blemished" means any unit blemished to the extent that the appearance or eating quality is seriously affected.

(ii) Canned carrots that are practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" has the following meanings with respect to the various styles of canned carrots:

(a) *Whole carrots.* The aggregate weight of all defective units does not exceed 15 percent of the weight of all the units, and of such 15 percent not more than ½ thereof or one carrot, whichever weighs more, may consist of blemished units and seriously blemished units: *Provided*, That not more than ½ of 1 percent, by weight, of all the units may be seriously blemished: *And further provided*, That the presence of blemished and seriously blemished units does not more than slightly affect the appearance or eating quality of the product.

(b) *Sliced, quartered, and cut carrots.* The aggregate weight of all defective units does not exceed 15 percent of the weight of all the units, and of such 15 percent not more than ½ thereof or one slice, quarter or cut, whichever weighs more, may consist of blemished units and seriously blemished units: *Provided*, That not more than ½ of 1 percent, by weight, of all the units may be seriously blemished: *And further provided*, That the presence of blemished and seriously blemished units does not more than slightly affect the appearance or eating quality of the product.

(c) *Diced, Julienne, French style, or shoestring carrots.* The aggregate weight of all defective units does not exceed 10 percent of the weight of all the units and of such 10 percent not more than ½ thereof may consist of blemished units and seriously blemished units: *Provided*, That not more than ½ of 1 percent, by weight, of all the units may be seriously blemished: *And further provided*, That the presence of blemished and seriously blemished units does not more than slightly affect the appearance or eating quality of the product.

(iii) Canned carrots that are fairly free from defects may be given a score of 22 to 25 points. Canned carrots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" has the following meanings with respect to the various styles of canned carrots:

(a) *Whole carrots.* The aggregate weight of all defective units does not exceed 25 percent of the weight of all the units, and of such 25 percent, not more than ½ thereof may consist of blemished units and seriously blemished units: *Provided*, That not more than 2 percent, by weight, of all the units may be seriously blemished: *And further provided*, That the presence of blemished and seriously blemished units does not seriously affect the apperance or eating quality of the product.

(b) *Sliced, quartered, and cut carrots.* The aggregate weight of all defective units does not exceed 25 percent of the weight of all the units, and of such 25 percent not more than ½ thereof may consist of blemished units and seriously blemished units: *Provided*, That not more than 2 percent, by weight, of all the units may be seriously blemished: *And further provided*, That the presence of blemished and seriously blemished units does not seriously affect the appearance or eating quality of the product.

(c) *Diced, Julienne, French style, or shoestring carrots.* The aggregate weight of all defective units does not exceed 20 percent of the weight of all the units, and of such 20 percent not more than ½ thereof may consist of blemished units and seriously blemished units: *Provided*, That not more than 2 percent, by weight, of all the units may be seriously blemished: *And further provided*, That the presence of blemished and seriously blemished units does not seriously affect the appearance or eating quality of the product.

(iv) Canned carrots that fail to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(4) *Texture.* (i) The factor of texture refers to the tenderness of the carrots and the degree of freedom from coarse and fibrous units.

(ii) Canned carrots that possess a tender texture may be given a score of 26 to 30 points. "Tender texture" means that the carrots are tender, not fibrous, and possess a uniform character.

(iii) If the canned carrots possess a fairly tender texture, a score of 22 to 25 points may be given. Canned carrots that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly tender texture" means that the

carrots are fairly tender, may be variable in character but not tough or hard, and there may be present a few units which possess a coarse or fibrous texture.

(iv) Canned carrots that fail to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(i) *Tolerance for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of canned carrots, the grade for such lot will be determined by averaging the total score of all containers, if:

(i) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

[7 CFR Part 978]

[Docket No. AO–194 A–9]

HANDLING OF MILK IN NASHVILLE, TENN., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Nashville, Tennessee, on October 10 and 11, 1952, pursuant to notice thereof which was issued on October 2, 1952 (17 F. R. 8923).

The material issues of record related to:

(1) The adjustment of the Class I price differential for the months October 1952 through March 1953 and a revision of the supply-demand adjustment schedule.

(2) The emergency character of marketing conditions and the need for immediate change in the order provisions.

Findings and conclusions. (1) The Class I price differential of $1.25 per hundredweight should be increased by $0.46 for the months of November 1952 through January 1953 and by $0.23 durin February and March 1953.

During July and August 1952, handlers paid producers premiums above the minimum order Class I price of $0.46 in July and $0.38 in August. Handlers testified that these premiums were paid to help compensate producers for extreme drought conditions which prevailed throughout the Nashville milkshed. On September 27, one handler announced a reduction of $0.20 per hundredweight for the month of October from the September premium Class I price of $6.40. The record indicates that other handlers will likewise reduce their October paying price to this level.

Crop production reports issued by the Bureau of Agricultural Economics show pasture feed conditions for August and September 1952, to be less than 35 percent of normal. These reports characterize the area encompassing the Nashville milkshed as "extreme drought". The corn crop for Tennessee is estimated at 39.8 million bushels, the lowest in 86 years of record keeping. Hay production is expected to be little more than 50 percent of normal, the smallest crop since 1930. It was further indicated that much of the acreage intended for hay was pastured. Permanent pastures were severely damaged and will require reworking and reseeding before they will be of value next spring.

Normally, the Nashville milkshed is self-sufficient in its production of hay and forage crops, but this year substantial quantities of forage and concentrates which the dairy farmer would have produced will have to be purchased from outside sources. Because of the dry weather, the corn crop produced little grain and to salvage some feed many farmers had to convert their crop into silage. The record also indicates that winter pasture crops were extremely late and would supply only limited amounts of forage prior to the usual seasonal frost. Under such circumstances, producers may adopt measures which will curtail the current rate of production and seriously impair established herds unless they are assured of an adequate price increase.

Handlers stated, on the other hand, that fall sown small grains and cover crops appeared to be in good condition, and, since many farmers diverted their corn crop into silage, the feed situation was no longer critical. They argued that the present pricing provisions in conjunction with seasonal increases in the basic formula price, similar to those that prevailed during 1951 and 1952, would provide adequate prices to producers. Handlers also supported their position on the basis of an increase in production per producer in September of 1952, over September 1951, and the recent and potential entries of new producers into the market.

There is no firm basis for judging the extent to which recent increases in producer-numbers and September production per farm are the direct result of the operation of the base-excess plan. Because of poor pasture conditions, it was necessary for many producers to shift to barn feeding much earlier than usual. Rains in early September resulted in rapid growth of certain types of pasture which may have provided temporary relief for some producers and stimulated milk flow. All of these factors may have contributed to a temporary increase in production on some farms during September, but this increase is not necessarily indicative of an adequate production level for the short production season ahead.

It is concluded that the Class I price differential should be increased $0.46 per hundredweight through January of 1953. The supply-demand adjustment should be continued in its present form. If the resulting prices and other factors influence the production of more milk than is necessary in relation to Class I sales, the Class I price differential will be decreased accordingly by the supply-demand adjustment. On the other hand, if the ratio of receipts to Class I sales remains relatively low in relation to the desired ratio set forth in the supply-demand schedule, the revised Class I price differential will continue in effect. A further decline in this relationship will increase the Class I differential.

In view of the seasonal pattern shown in the basic prices for the past several years, and because of the basic price for the previous month is used in establishing the Class I price for the current month, it is appropriate to reduce the Class I differential $0.23 per hundredweight during the months of February and March 1953.

The changes recommended herein would have increased the minimum order Class I price for October from $6.93 to $6.39—one cent per hundredweight less than the $6.40 price paid by handlers for the month of September.

Producers also proposed that the present supply-demand schedule be expanded to provide for further upward adjustments in the Class I price differential, if the current supply-demand ratio varies from the base period or desired supply-demand index by more than 24 percentage points. It is concluded that the supply-demand adjustment should not be changed at this time. The present schedule has been in operation for a relatively short period of time and more experience should obtain before revisions are made.

(2) The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Assistant Administrator of Production and Marketing Administration and the opportunity for exceptions thereto on the above issues.

Conditions complained of are such that it is urgent that remedial action be taken as soon as possible. Delay beyond the minimum time required to make the attached order effective will defeat the purpose of such amendment. Producers need some assurance now that the additional costs resulting from abnormal purchases of forages and concentrates will be reflected in somewhat higher prices than would prevail under the current order provisions. Without that assurance, producers might be forced to adopt measures which would seriously impair the rate of production and result in added expense and difficulty in rebuilding herds and production in the future. Accordingly, the time necessarily involved in the preparation, filing and publication of the recommended decision and exceptions thereto would make such relief ineffective.

The propriety of omitting a recommended decision and opportunity of filing exceptions thereto with respect to the issues here considered was indicated on the record.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers who would be subject to the proposed marketing agreement and order, as amended, and as hereby proposed to be further amended. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of August 1952 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Nashville, Tennessee, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Nashville, Tennessee, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met:

It is hereby ordered, That all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of October 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

Order [1] Amending the Order, as Amended, Regulating the Handling of Milk in the Nashville, Tennessee, Marketing Area

§ 978.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Nashville, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 978.51 (a), insert after "$1.25", the following: "except for November and December 1952 and January 1953, such differential shall be $1.71, and for February and March 1953, such differential shall be $1.48."

[F. R. Doc. 52–11616; Filed, Oct. 23, 1952; 8:54 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

FEDERAL POWER COMMISSION

[18 CFR Part 154]

[Docket No. R-124]

REGULATIONS UNDER NATURAL GAS ACT

NOTICE OF PROPOSED RULE MAKING

OCTOBER 24, 1952.

Amendment of general rules and regulations to govern the filing of rate increase applications under the provisions of section 4 (e) of the Natural Gas Act, as amended.

The "Proposed Substitution for Existing § 154.63 (b) (3)" attached to the Notice of Proposed Rule Making, dated September 30, 1952, in the above-designated matter (published in the FEDERAL REGISTER, October 8, 1952, 17 F. R. 8989–8991), contains certain typographical errors which should be corrected as follows:

1. Under *"Statement B—Rate base and return"*, change reference to "Statements D, E and F" to read "Statements C, D, and E."

2. Under "(4) *Cost of common stock capital*" subparagraph (iv) (*a*), change reference to "(3) (i)" to read "(4) (i)."

3. Under "(4) *Cost of common stock capital*" subparagraph (iv) (b), change reference to "(3) (iii)" to read "(4) (iii)."

4. Under *"Statement I—Allocation of Over-all Cost of Service"*, change reference to "(Statement C)" to read "(Statement A)."

[SEAL] LEON M. FUQUAY, *Secretary.*

NOTICES

DEPARTMENT OF STATE

[Public Notice 115; Delegation of Authority 23-A]

CERTAIN OFFICIALS

DELEGATION OF AUTHORITY TO NEGOTIATE CERTAIN PURCHASES AND CONTRACTS

OCTOBER 13, 1952.

By virtue of the authority vested in the Secretary of State by the act of May 26, 1949 (63 Stat. 111; 22 U. S. C. Sup. 811a)

1. And by virtue of the authority vested in the Secretary of State by delegation of authority dated August 9, 1950 (15 F. R. 6130–6131), signed by Jess Larson, Administrator of General Services, and in accordance with the authority conferred by section 307 of the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress (63 Stat. 377), as amended, upon the "Agency Head" as defined in section 309 (a) of said act, there is hereby delegated to the officials listed below (and to any official legally designated to act for one of those enumerated during the absence or incapacity of the latter) authority to make purchases and contracts, to sign and issue purchase orders, contracts, and certificates of award in connection therewith, and to use the procurement procedures contained in Title III of the above-cited Public Law 152, as amended, subject to the provisions of the above-mentioned delegation of authority from the Administrator of General Services and the specific limitations indicated below. The authority hereby delegated is subject to all other applicable provisions of law, and to all instructions, regulations, and directives which are now in effect or which may be issued hereafter by the Department of State, or by any other Government agency of competent jurisdiction, governing purchasing and contracting functions.

a. Chief and Assistant Chief, Division of Central Services.

Chief and Assistant Chief, Procurement and Property Management Branch.

Chief and Assistant Chief, Procurement Section and Chief, Purchase Unit, Procurement and Property Management Branch.

Chief and Assistant Chief, Foreign Service Procurement and Supply Branch (New York), Division of Central Services.

Limitations: No authority is delegated to make the determinations and decisions specified in Public Law 152, as amended, section 305 (a) or paragraphs (11) and (12) of section 302 (c). Authority to make determinations or decisions specified in paragraph (10) of section 302 (c) is delegated only to the Chief, Division of Central Services, and only with respect to contracts which will not require the expenditure of more than $25,000. Authority to authorize cost, cost-plus-a-fixed-fee contracts, or any other incentive-type contract, either within or outside the United States and its possessions, and to make the determinations and decisions specified in section 304 (b) is delegated to the Chief, Division of Central Services only.

b. Chief and Assistant Chief, Division of Library and Reference Service.

Chief, Technical Services Branch, Division of Library and Reference Service.

Chief, Selection and Records Section, Technical Services Branch, Division of Library and Reference Service.

Limitations: Chargeable to funds available to the Division of Library and Reference Services for the purchase of newspapers, books, maps, and periodicals. No authortiy is delegated to make the determinations and decisions specified in Public Law 152, as amended, section 305 (a) or paragraphs (10), (11), and (12) of section 302 (c). No authority is delegated to authorize cost, cost-plus-a-fixed-fee contracts, or any other incentive-type contract, or to make the determinations and decisions specified in section 304 (b).

c. Director and Deputy Director, Foreign Buildings Operations; Chief, Building Projects Branch and Chief, Furniture and Furnishings Branch, Foreign Buildings Operations.

Limitations: Chargeable to funds available for Foreign Buildings Operations. No authority is delegated to make the determinations and decisions specified in Public Law 152, as amended, section 305 (a) or paragraphs (10), (11), and (12) of section 302 (c). No authority is delegated to authorize cost, cost-plus-a-fixed-fee contracts, or any other incentive-type contract, covering supplies or services to be furnished within the United States and its possessions or to make the determinations and decisions specified in section 304 (b). Authority to authorize such contracts covering supplies or services to be furnished outside the United States and its possessions, and to make the determinations and decisions specified in section 304 (b), is delegated to the Director of Foreign Buildings Operations only.

d. Any chief of a division;

Any official in charge of a commission, project, agency or other major activity;

Officer in charge, or such other officer as may be legally designated, at a conference within the United States;

Head of the delegation, or such other officer as may be legally designated at a conference outside the United States.

Limitations: No authority is delegated to make the determinations and decisions specified in Public Law 152, as amended, section 305 (a) or paragraphs (10), (11), and (12) of section 302 (c). No authority is delegated to authorize cost, cost-plus-a-fixed-fee contracts, or any other incentive-type contract, or to make the determinations and decisions specified in section 304 (b). The above authority may only be exercised when funds are available for such expenditures, and within the United States and its possessions, only when immediate action is required and the time element involved precludes the making of the purchase or contract through the Department's normal procurement channels.

2. And by virtue of the authority conferred upon the Secretary of State by Delegation of Authority No. 8 from the National Production Authority (16 F. R. 1509), there is hereby delegated to the officials listed below (and to any other official designated to act for one of those enumerated, during the absence or incapacity of the latter) authority (1) to apply ratings to direct contracts and purchase orders of the Department of State and (2) to assign the right to apply ratings to persons placing orders for materials to be delivered to or for the account of the Department of State or to be used in the performance of contracts with the Department of State. The authority hereby delegated is subject to all applicable NPA regulations and orders and to the limitations contained in the above-cited delegation of authority from the National Production Authority.

Chief and Assistant Chief, Division of Central Services;

Chief and Assistant Chief, Procurement and Property Management Branch;

Chief and Assistant Chief, Procurement Section and Chief and Assistant Chief, Procurement Section (TCA), Procurement and Property Management Branch;

Chief and Assistant Chief, Foreign Service Procurement and Supply Branch (New York), Division of Central Services.

These delegations of authority shall be effective upon publication in the FEDERAL REGISTER and supersede Public Notice 5 effective April 27, 1949 (14 F. R. 2070); Public Notice 6 effective May 18, 1949 (14 F. R. 2614); Public Notice 61 (Delegation of Authority No. 23 dated July 1, 1950) 15 F. R. 6832; Delegation of Authority No. 33, dated February 19, 1951; and any other delegations which may be in conflict herewith.

For the Secretary of State.

CARLISLE H. HUMELSINE, *Deputy Under Secretary, for Administration.*

[F. R. Doc. 52-11588; Filed, Oct. 28, 1952; 8:46 a. m.]

[Public Notice 116; Delegation of Authority 43-A]

NEW YORK OFFICES OF INTERNATIONAL INFORMATION ADMINISTRATION

DELEGATION OF AUTHORITY FOR PROCUREMENT TRANSACTIONS

OCTOBER 13, 1952.

By virtue of the authority vested in the Secretary of State by the act of May 26, 1949 (63 Stat. 111; 22 U. S. C. Sup. 811a):

1. And by virtue of the authority vested in the Secretary of State by delegation of authority dated August 9, 1950, signed by Jess Larson, Administrator of General Services (15 F. R. 6130–6131), and in accordance with the authority conferred by section 307 of the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress (63 Stat. 377) as amended, upon the "Agency Head" as defined in section 309 (a) of said act, there is hereby delegated to the officials listed below (and to any official legally designated to act for one of those enumerated during the absence or incapacity of the latter) authority to make purchases and contracts chargeable to any allotment made to an organizational element of the Department in New York, and to sign and issue purchase orders, contracts, Government bills of lading, and certificates of award in connection therewith. This delegation includes authority to make purchases and contracts, and determinations and decisions in connection therewith, pursuant to the provisions of title III of the above-cited Public Law 152, as amended, subject to the provisions of the above-mentioned delegation of authority from the Administrator of General Services and the specific limitations indicated below. The authority hereby delegated is subject to all other applicable provisions of law, and to all instructions, regulations, and directives which are now in effect or which may be issued hereafter by the Department of State, or by any other Government agency of competent jurisdiction, governing purchasing and contracting functions.

Chief and Assistant Chief, New York Administrative Office, International Information Administration;

Chief and Assistant Chief, Procurement Branch;

Chief, Contracts Section and Chief, Purchase Section, Procurement Branch.

Limitations: No authority is delegated to make the determinations or decisions specified in section 305 (a) or in paragraphs (10), (11), and (12) of section 302 (c) in Public Law 152 and no authority is delegated to authorize cost, cost-plus-a-fixed-fee contracts, or any other incentive-type contract.

2. There is hereby delegated to the officials enumerated below (and to any official legally designated to act for one of those enumerated during the latter's absence or incapacity) authority to make purchases and contracts covering the specified types of supplies and services when required for official use. The authority hereby delegated is subject to all requirements of law and to all instructions, regulations, and directives which are now in effect or which may be issued hereafter by the Department of State, or by any other Government agency of competent jurisdiction, governing purchasing and contracting functions.

(a) Chief, New York Liaison Staff, International Information Center Service: Recordings, musical scores, sheet music, and related items.

(b) Administrative Officer, International Broadcasting Service; Assistant Administrative Officer, International Broadcasting Service: Studio rentals, off-the-line recordings, and services related to Special Events. Photographs required for shortwave Radio Program Schedules.

(c) Administrative Officer, International Broadcasting Service; Chief, Music Unit, Overseas Service Section, Program Operations Branch, International Broadcasting Service: Special types of recordings required by the International Broadcasting Service Music Unit.

(d) Business Manager, International Motion Pictures Service: Moving picture coverage of special events and news items.

(e) Chief, Magazine Section, and Business Representative, Magazine Section, International Press Service: Photographs from picture agencies not covered by contract.

3. And by virtue of the authority conferred upon the Secretary of State by Delegation of Authority No. 8 from the National Production Authority (16 F. R. 1509), there is hereby delegated to the officials listed below (and to any other official legally designated to act for one of those enumerated, during the absence or incapacity of the latter) authority (1) to apply ratings to direct contracts and purchase orders of the Department of State and (2) to assign the right to apply ratings to persons placing orders for material to be delivered to or for the account of the Department of State or to be used in the performance of contracts with the Department of State. The authority hereby delegated is subject to all applicable NPA regulations and orders and to the limitations contained in the above-cited delegation of authority from the National Production Authority.

Chief and Assistant Chief, New York Administrative Office, International Information Administration;

Chief and Assistant Chief, Procurement Branch;

Chief, Contracts Section and Chief, Purchase Section, Procurement Branch.

Limitations: The above authority does not include authority to make direct contact by telephone, letter, personal visit or otherwise with other Government agencies having jurisdiction over the granting of priorities, allocations of materials, export licenses, or other related matters. This limitation does not, however, prohibit contacts with such agencies when made through or in company with the Department's designated representative.

These delegations of authority shall be effective July 29, 1952, and as of that date shall supersede Public Notice 101 (Delegation of Authority No. 43) effective September 1, 1951 (16 F. R. 9665), and any prior delegations of authority for procurement transactions in the New York Administrative Office.

For the Secretary of State.

CARLISLE H. HUMELSINE, *Deputy Under Secretary for Administration.*

[Public Notice 117; Delegation of Authority 51-A]

CERTAIN OFFICIALS

DELEGATION OF AUTHORITY TO NEGOTIATE PURCHASES AND CONTRACTS IN CONNECTION WITH THE "POINT IV" PROGRAM

OCTOBER 13, 1952.

By virtue of the authority vested in the Secretary of State by the act of May 26, 1949 (63 Stat. 111, 22 U. S. C. Sup. 811a) and by virtue of the authority vested in the Secretary of State by delegation of authority dated October 30, 1951 (16 F. R. 11249) signed by Russell Forbes, Acting Administrator of General Services, and in accordance with the authority conferred by section 307 of the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress (63 Stat. 377), as amended, upon the "Agency Head" as defined in section 309 (a) of said act, there is hereby delegated to the officials listed below (and to any official legally designated to act for one of those enumerated during the absence or incapacity of the latter) authority to make purchases and contracts, to sign and issue purchase orders, contracts, and certificates of award in connection therewith, and to use the procurement procedures contained in Title III of the above-cited Public Law 152, as amended, subject to the provisions of the above-mentioned delegation of authority from the Acting Administrator of General Services, and the specific limitations indicated below. The authority hereby delegated is subject to all other applicable provisions of law, and to all instructions, regulations, and directives which are now in effect or which may be issued hereafter by the Department of State, or by any other Government agency of competent jurisdiction, governing purchasing and contracting functions.

Chief and Assistant Chief, Division of Central Services.

Chief and Assistant Chief, Procurement and Property Management Branch.

Chief and Assistant Chief, Procurement Section (TCA), Procurement and Property Management Branch, Division of Central Services.

Limitations: No authority is delegated to make determinations or decisions specified in Public Law 152, as amended, section 305 (a) or paragraphs (11) and (12) of section 302(c). Authority to make determinations or decisions specified in paragraph (10) of section 302(c) is delegated only to the Chief, Division of Central Services, and only with respect to contracts which will not require the expenditure of more than $25,000. Authority to authorize cost, cost-plus-a-fixed-fee, or any other incentive type contract, either within or outside the United States and its possessions, and to make the determinations and decisions specified in section 304(b) is delegated to the Chief, Division of Central Services only.

This delegation of authority shall be effective upon publication in the FEDERAL REGISTER and supersede Public Notice 104 (Delegation of Authority No. 51 dated November 28, 1951) 16 F. R. 12403.

For the Secretary of State.

CARLISLE H. HUMELSINE,
Deputy Under Secretary for Administration.

[F. R. Doc. 52-11590; Filed, Oct. 28, 1952; 8:46 a. m.]

[Public Notice 118; Delegation of Authority 63]

CERTAIN OFFICIALS

DELEGATION OF AUTHORITY TO SIGN AND ISSUE GOVERNMENT BILLS OF LADING

OCTOBER 13, 1952.

By virtue of the authority vested in the Secretary of State by the act of May 26, 1949 (63 Stat. 111, 22 U. S. C. Sup. 811a), there is hereby delegated to the officials listed below (and to any official legally designated to act for one of those enumerated during the absence or incapacity of the latter) authority to sign and issue Government bills of lading. The authority hereby delegated is subject to the specific limitations indicated below and to all other applicable provisions of law, and to all instructions, regulations, and directives which are now in effect or which may be issued hereafter by the Department of State, or by any other Government agency of competent jurisdiction governing the signing and issuing of Government bills of lading.

a. Chief and Assistant Chief, Division of Central Services.

Chief and Assistant Chief, Procurement and Property Management Branch;

Chief and Assistant Chief, Procurement Section and Chief, Purchase Unit, Procurement and Property Management Branch;

Chief, Property Utilization Section and Chief, Stores and Shipping Unit, Procurement and Property Management Branch;

Chief and Assistant Chief, Procurement Section (TCA), Procurement and Property Management Branch;

Chief and Assistant Chief, Foreign Service Procurement and Supply Branch (New York), Division of Central Services. Chargeable to any funds available to the Department of State.

b. Chief and Assistant Chief, Transportation Branch, Division of Central Services;

Chief and Assistant Chief, Household and Personal Effects Section, Transportation Branch, Division of Central Services. Chargeable to funds available for movement of household goods and personal effects in connection with authorized official travel.

c. Assistant Chief of Division for Diplomatic Mail, Division of Communications and Records;

Chief, Diplomatic Pouch Section, Diplomatic Mail and Courier Branch, Division of Communications and Records. Chargeable to funds available for diplomatic pouch and courier operations.

d. Director and Deputy Director, Foreign Buildings Operations;

Chief, Buildings Project Branch and Chief, Furniture and Furnishings Branch, Foreign Buildings Operations. Chargeable to funds available for Foreign Buildings Operations.

e. United States Despatch Agents in New York, New Orleans, and San Francisco;

Foreign Service Officers at offices located on the border of the United States and Mexico or United States and Canada. Chargeable to funds available for forwarding properly authorized official shipments.

f. Station Director, Honolulu Relay Base, Honolulu, Territory of Hawaii;

Resident Representative, West Coast, Department of State, San Francisco, California. Chargeable to International Information Administration funds available for forwarding properly authorized official shipments.

g. Any chief of a division;

Any official in charge of a commission, project, agency or other major activity;

Officer in charge, or such other officer as may be legally designated, at a conference within the United States;

Head of the delegation, or such other officer as may be legally designated, at a conference outside the United States.

The above authority may only be exercized when funds are available for such expenditures, and, within the United States and its possessions, only when immediate action is required and the time element involved precludes the signing and issuing of Government bills of lading through the Department's normal channels.

This delegation of authority shall be effective upon publication in the FEDERAL REGISTER and supersedes any other delegation which may be in conflict herewith.

For the Secretary of State.

CARLISLE H. HUMELSINE,
Deputy Under Secretary For Administration.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

PEANUTS

NOTICE OF REDELEGATION OF FINAL AUTHORITY BY OKLAHOMA STATE PRODUCTION AND MARKETING ADMINISTRATION COMMITTEE REGARDING MARKETING QUOTA REGULATIONS FOR 1952 CROP

Section 729.369 of the Marketing Quota Regulations for the 1952 Crop of Peanuts (17 F. R. 4317) issued pursuant to the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301-1376), provides that any authority delegated to the State Production and Marketing Administration Committee by the regulations may be redelegated by the State Committee. In accordance with section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002 (a)), which requires delegations of final authority to be published in the FEDERAL REGISTER, there are set out herein the redelegations of final authority which have been made by the Oklahoma State Production and Marketing Administration Committee of authority vested in such committee by the Secretary of Agriculture in the regulations referred to above.

The Oklahoma State PMA Committee redelegates to the Chairman of the Oklahoma State PMA Committee the authority delegated to the State PMA Committee in §§ 729.361 (b) and 729.362 (c), and redelegates to the Executive Officer, State PMA Committee, the authority delegated to the State PMA Committee in §§ 729.341 (j) (2) (ii), 729.353 (a), 729.353 (c), 729.348 (d) (3), and 729.366, of the Marketing Quota Regulations for 1952 Crop of Peanuts.

Issued at Washington, D. C., this 23d day of October 1952.

[SEAL] HAROLD K. HILL,
Acting Administrator, Production and Marketing Administration.

[Docket No. 5031 et al.]

NORTHWEST AIRLINES, INC., ET AL.; TRANS-PACIFIC CERTIFICATE RENEWAL CASE

NOTICE OF PREHEARING CONFERENCE

Certificates held by Northwest Airlines and Pan American World Airways authorizing service in the Pacific Area expire on varying dates from July 4, 1952, to December 14, 1953. Applications seeking an extension and modification of these authorizations have been filed by both companies. In addition, in the North Atlantic Certificate Renewal Case, Docket No. 5065, et al., the Board deferred consideration of certain parts of Pan American's application in Docket No. 5073 and Trans World Airlines' application in Docket No. 5065 for consideration with Northwest Airlines' application in Docket No. 5031.

A prehearing conference is hereby assigned to be held on November 19, 1952, at 10:00 a. m., e. s. t., in Room 5855, Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before an examiner of the Board.

It is contemplated that at this conference consideration will be given to consolidating all or part of the following applications for hearing and decision:

Docket No.	Case
1580	Central Pacific Airlines.
2577	City of Portland.
2773	Pacific Overseas Airlines Corp.
3612	Pan American World Airways, Inc.
3724	Transocean Air Lines, Inc.
4061	Transocean Air Lines, Inc.
4845	Pan American World Airways, Inc.
4950	Northwest Airlines, Inc.
5031	Northwest Airlines, Inc.
5065	Trans World Airlines, Inc.
5073	Pan American World Airways, Inc.
5168	Northwest Airlines, Inc.
5434	Overseas National Airways.
5710	Pan American World Airways, Inc.

Other applicants not covered by the above list proposing service in the general area covered by this case should request consolidation of their applications at the prehearing conference.

Dated at Washington, D. C., October 24, 1952.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 52-11606; Filed, Oct. 28, 1952; 8:50 a. m.]

[Docket No. 5168 et al.]

NORTHWEST AIRLINES, INC., ET AL.; UNITED STATES-ALASKA CASE

NOTICE OF PREHEARING CONFERENCE

This is to advise that a prehearing conference is hereby assigned on November 17, 1952, at 10:00 a. m., Conference Room "A" Departmental Auditorium, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C., before an Examiner of the Board on applications involving scheduled service between the United States and Alaska. It is contemplated that at this conference consideration will be given to consolidation of the following applications proposing service in this area:

Docket No.	Case
2478	Wien Alaska Airlines, Inc.
2927	Alaska Transportation Co.
3689	Totem Air Service.
3698	Arctic-Pacific, Inc.
3777	Air Transport Associates, Inc.
4312	Golden North Airways, Inc.
4950	Northwest Airlines, Inc.
5168	Northwest Airlines, Inc.
5185	Wien Alaska Airlines, Inc.
5710	Pan American World Airways, Inc.
5756	Alaska Airlines, Inc.

Other parties desiring to apply for service in this area should file such applications without delay and request their consolidation at the conference.

Dated at Washington, D. C., October 24, 1952.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

DEFENSE MATERIALS PROCUREMENT AGENCY

[Delegation No. 16]

REGIONAL DIRECTOR OF REGION 2, LIMA, PERU

DELEGATION OF AUTHORITY WITH RESPECT TO STAFF AND OPERATING FUNCTIONS

Pursuant to the authority vested in me as Defense Materials Procurement Administrator by Executive Order 10281 of August 28, 1951 (16 F. R. 8789) and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., and Pub. Laws 69 and 96, 82d Cong.) and other applicable law, I hereby delegate to the Regional Director, Defense Materials Procurement Agency, Region 2, Lima, Peru, authority to perform staff and operating functions as set forth below. The authority delegated herein shall be exercised in accordance with such applicable laws and regulations, and such administrative policies, procedures and controls as are effective on the date of exercise of the authority, provided, however, that failure to comply with administrative procedures and controls shall not impair legal authority exercised thereunder.

1. *General provisions*—a. *Redelegation.* Except where precluded by law, any officer or employee delegated authority hereunder may redelegate, and authorize the successive redelegation of, any such authority: *Provided, however,* That such redelegation shall conform to the existing administrative procedures and directives of the Defense Materials Procurement Agency.

b. *Exercise of authority during absence or incapacity.* Any officer or employee empowered to act for an officer or employee delegated authority hereunder may exercise such authority during the latter's absence or incapacity.

c. *Execution and delivery of instruments and acceptance of security.* Any authority delegated herein shall include the authority to take any action incidental to the exercise of such authority, such as but not limited to the following:

(1) To execute, acknowledge, and deliver appropriate written documents or instruments, including contracts and receipts.

(2) To perform any other acts necessary to effectuate the transfer of title to property.

2. *Procurement.* To negotiate purchases and contracts in accordance with section 303 of the Defense Production Act of 1950, as amended by the Defense Production Act Amendment of 1951 (Pub. Law 774, 81st Cong.; Pub. Law 96, 82d Cong.).

3. *Stock piling and special programs.* a. To make purchases and contracts in behalf of the General Services Administration for materials, supplies and nonpersonal services in connection with the Strategic and Critical Materials Stock Piling Act and special purchase programs for foreign aid and assistance.

b. To advertise for bids and make awards, including rejection of all bids, in accordance with section 303 of the Federal Property and Administrative Services Act of 1949, as amended, hereinafter referred to as "the act."

c. To negotiate purchases and contracts without advertising under subsections 302 (c) (2), (3), (4), (7), (8), (9), (13), and (14) of said act.

d. To determine the type of contract and warranty in accordance with section 304 (a) of said act.

e. To conduct tests and charge fees in accordance with section 109 (g) of said act.

f. Findings and determinations authorized in section 3 shall be made only with respect to individual purchases and contracts, and shall be put in writing, preserved, and reported in accordance with section 307 of said act.

4. *Development.* a. To allocate authorized commodity program requirements within the region.

b. To make preliminary approval or disapproval of project applications and if favorably considered, to investigate and examine such projects.

c. To negotiate and execute the contracts on all projects within the region upon clearance from the Defense Materials Procurement Administrator, Washington.

d. To carry out any follow-up, checks, or investigations relating to executed contracts.

5. *Management activities.* a. To issue travel authorizations and transportation requests within regional boundaries only, to officers and employees, to approve administratively the payment of per diem in lieu of subsistence with respect to such travel, and to authorize or approve expenses incurred under paragraphs 13, 15, 75, 76, and 79 of the Standardized Government Travel Regulations, as amended.

b. To authorize payment of expenses of travel by officers and employees, including expenses of transportation of immediate families under regulations pre-

scribed by the President, on travel from one official station to another for permanent duty and to authorize payment of expenses of travel of officers and employees, including the transportation of household effects and personal effects and members of immediate families, under applicable rules and regulations of the President, upon transfer of such officers and employees from one official station to another for permanent duty. The above authority shall include the approval of the expense of travel and transportation of an officer or employee, pursuant to Public Law 600, 79th Congress, who is transferred from another Government department to this Agency, for permanent duty, when authorized in the order directing the transfer.

c. To purchase or contract for administrative supplies and administrative and technical services.

d. To order or approve overtime duty in excess of a forty-hour basic work week.

e. To grant cost-of-living and living quarters allowances and to authorize the payment of foreign post differentials to (1) eligible employees of Region 2 (including employees in District Offices) who occupy positions in the General Schedule of the Classification Act of 1949, as amended, and (2) to eligible employees of the General Services Administration who are assigned to Region 2. This authority shall be exercised in accordance with Department of State "Standardized Government Civilian Allowance Regulations (Foreign Areas)" and "Standardized Government Post Differential Regulations (Foreign Areas)," as well as applicable IMPA and GSA regulations. This authority may be redelegated by the Regional Director, but may not be further redelegated.

f. To determine the need for local nationals in Region 2 and to request their employment through established Embassy channels.

6. *Budget and accounting.* a. Administratively examine and approve accounts current rendered by regional disbursing officers of the State Department.

b. Approve and make advances of funds through proper disbursing officers, to persons in the Defense Materials Procurement Agency entitled to per diem, mileage or the movement of household goods and personal effects.

c. Certify that long distance telephone calls and cables are for official business and necessary in the interest of the Government.

d. Approve and make advances of funds to contractors through proper disbursing officers, in accordance with contractual arrangements.

e. Determine the financial responsibility of contractors doing business with the Defense Materials Procurement Agency in the region.

f. Approve financing arrangements in the procurement and sale of commodities in accordance with Title III of the Defense Production Act of 1950, as amended, and other applicable law.

g. Process Letters of Credit.

7. *Legal activities.* a. To the extent that such authority is vested in the Defense Materials Procurement Administrator by law, to consider, adjust and settle claims, demands, or requests for adjustment arising out of or incident to contracts or commitments executed pursuant to competent authority vested in the Regional Director.

b. To certify true copies of Delegations of Authority or portions thereof and provide such other certifications as may be necessary to effectuate the intent of Delegations of Authority in form required for recording in any jurisdiction.

c. To determine whether release of authenticated copies of regional records is legal and not prejudicial to the national interest or security of the United States, to certify and authenticate copies of such records, and to furnish such certified and authenticated copies of such records in response to formal or informal requests, in appropriate cases.

This delegation shall be effective September 1, 1952.

Dated: October 23, 1952.

JESS LARSON,
Defense Materials Procurement Administrator.

[F. R. Doc. 52-11651; Filed, Oct. 27, 1952; 4:29 p. m.]

[Delegation No. 17]

REGIONAL DIRECTOR OF REGION 4, SINGAPORE, BRITISH MALAYA

DELEGATION OF AUTHORITY WITH RESPECT TO STAFF AND OPERATING FUNCTIONS

Pursuant to the authority vested in me as Defense Materials Procurement Administrator by Executive Order 10281 of August 28, 1951 (16 F. R. 8789) and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., and Pub. Laws 69 and 96, 82d Cong.) and other applicable law, I hereby delegate to the Regional Director, Defense Materials Procurement Agency, Region 4, Singapore, British Malaya, authority to perform staff and operating functions as set forth below. The authority delegated herein shall be exercised in accordance with such applicable laws and regulations, and such administrative policies, procedures and controls as are effective on the date of exercise of the authority, *Provided, however,* That failure to comply with administrative procedures and controls shall not impair legal authority exercised thereunder.

1. *General provisions*—a. *Redelegation.* Except where precluded by law, any officer or employee delegated authority hereunder may redelegate, and authorize the successive redelegation of, any such authority: *Provided, however,* That such redelegation shall conform to the existing administrative procedures and directives of the Defense Materials Procurement Agency.

b. *Exercise of authority during absence or incapacity.* Any officer or employee empowered to act for an officer or employee delegated authority hereunder may exercise such authority during the latter's absence or incapacity.

c. *Execution and delivery of instruments and acceptance of security.* Any authority delegated herein shall include the authority to take any action incidental to the exercise of such authority, such as but not limited to the following:

(1) To execute, acknowledge, and deliver appropriate written documents or instruments, including contracts and receipts.

(2) To perform any other acts necessary to effectuate the transfer of title to property.

2. *Procurement.* To negotiate purchases and contracts in accordance with section 303 of the Defense Production Act of 1950, as amended by the Defense Production Act Amendment of 1951 (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.).

3. *Stock piling.* a. To make purchases and contracts in behalf of the General Services Administration for materials, supplies and nonpersonal services in connection with the Strategic and Critical Materials Stock Piling Act.

b. To advertise for bids and make awards, including rejection of all bids, in accordance with section 303 of the Federal Property and Administrative Services Act of 1949, as amended, hereinafter referred to as "the act."

c. To negotiate purchases and contracts without advertising under subsections 302 (c) (2), (3), (4), (7), (8), (9), (13), and (14) of said act.

d. To determine the type of contract and warranty in accordance with section 304 (a) of said act.

e. To conduct tests and charge fees in accordance with section 109 (g) of said act.

f. Findings and determinations authorized in section 3 shall be made only with respect to individual purchases and contracts, and shall be put in writing, preserved, and reported in accordance with section 307 of said act.

4. *Development.* a. To allocate authorized commodity program requirements within the region.

b. To make preliminary approval or disapproval of project applications and if favorably considered, to investigate and examine such projects.

c. To negotiate and execute the contracts on all projects within the region upon clearance from the Defense Materials Procurement Administrator, Washington.

d. To carry out any follow-up, checks, or investigations relating to executed contracts.

5. *Management activities.* a. To issue travel authorizations and transportation requests within regional boundaries only, to officers and employees, to approve administratively the payment of per diem in lieu of subsistence with respect to such travel, and to authorize or approve expenses incurred under paragraphs 13, 15, 75, 76, and 79 of the Standardized Government Travel Regulations, as amended.

b. To authorize payment of expenses of travel by officers and employees, including expenses of transportation of immediate families under regulations prescribed by the President, on travel from one official station to another for permanent duty and to authorize payment of expenses of travel of officers and employees, including the transportation of household effects and personal effects and members of immediate families, under applicable rules and regulations of the President, upon transfer of such officers and employees from one official station to another for permanent duty. The above authority shall include the approval of the expense of travel and transportation of an officer or employee, pursuant to Public Law 600, 79th Congress, who is transferred from another Government department to this Agency, for permanent duty, when authorized in the order directing the transfer.

c. To purchase or contract for administrative supplies and administrative and technical services.

d. To order or approve overtime duty in excess of a forty-hour basic work week.

e. To grant cost-of-living and living quarters allowances and to authorize the payment of foreign post differentials to (1) eligible employees of Region 4 (including employees in District Offices) who occupy positions in the General Schedule of the Classification Act of 1949, as amended, and (2) to eligible employees of the General Services Administration who are assigned to Region 4. This authority shall be exercised in accordance with Department of State "Standardized Government Civilian Allowance Regulations (Foreign Areas)" and "Standardized Government Post Differential Regulations (Foreign Areas)," as well as applicable DMPA and GSA regulations. This authority may be redelegated by the Regional Director, but may not be further redelegated.

f. To determine the need for local nationals in Region 4 and to request their employment through established Embassy channels.

6. *Budget and accounting.* a. Administratively examine and approve accounts current rendered by regional disbursing officers of the State Department.

b. Approve and make advances of funds through proper disbursing officers, to persons in the Defense Materials Procurement Agency entitled to per diem, mileage or the movement of household goods and personal effects.

c. Certify that long distance telephone calls and cables are for official business and necessary in the interest of the Government.

d. Approve and make advances of funds to contractors through proper disbursing officers, in accordance with contractual arrangements.

e. Determine the financial responsibility of contractors doing business with the Defense Materials Procurement Agency in the region.

f. Approve financing arrangements in the procurement and sale of commodities in accordance with Title III of the Defense Production Act of 1950, as amended, and other applicable law.

g. Process Letters of Credit.

7. *Legal activities.* a. To the extent that such authority is vested in the Defense Materials Procurement Administrator by law, to consider, adjust and settle claims, demands, or requests for adjustment arising out of or incident to contracts or commitments executed pursuant to competent authority vested in the Regional Director.

b. To certify true copies of Delegations of Authority or portions thereof and provide such other certifications as may be necessary to effectuate the intent of Delegations of Authority in form required for recording in any jurisdiction.

c. To determine whether releases of authenticated copies of regional records is legal and not prejudicial to the national interest or security of the United States, to certify and authenticate copies of such records, and to furnish such certified and authenticated copies of such records in response to formal or informal requests, in appropriate cases.

This delegation shall be effective October 1, 1952.

Dated: October 23, 1952.

JESS LARSON,
Defense Materials Procurement Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10282, 10283, 10328]

WIBM, INC., ET AL.

ORDER CONTINUING HEARING

In re applications of WIBM, Inc., Jackson, Michigan, Docket No. 10282, File No. BPCT-929; Jackson Broadcasting and Television Corporation, Jackson, Michigan, Docket No. 10283, File No. BPCT-969; Sparton Broadcasting Company, Jackson, Michigan, Docket No. 10328, File No. BPCT-1202; for construction permits for new television broadcast stations.

The Commission has under consideration for the purposes hereinafter stated the applications set out in the caption above and the facts and circumstances evidenced by the docket records and by statements of counsel made on the record at the prehearing conferences heretofore held on October 13 and 15, 1952; and

It appearing, that the applications under consideration will not be ready for hearing on October 20, the hearing date fixed by prior Commission order, for these reasons, among others: (a) Certain pleadings relating to the enlargement or clarification of the hearing issues were acted upon by the Commission on October 15, 1952; (b) counsel for Jackson Broadcasting and Television Corporation stated the firm intention of that applicant to petition for dismissal of its application; and (c) the areas of possible agreements among the parties upon substantive and procedural matters have not been adequately developed, in part because the Sparton application was not designated herein until October 8, 1952, and the planned dismissal of the Jackson Broadcasting application was not firmly announced until October 15, 1952; and

It further appearing, that the granting of additional time to the parties before commencement of the hearing will enable them to achieve the maximum delineation of areas of agreement and of contest upon the issues herein and thus will facilitate the orderly and expeditious completion of the hearing and conduce to the proper dispatch of business and to the ends of justice; and

It further appearing, that the time for commencement of the hearing as hereinafter ordered serves the purposes above stated and acceptably meets the convenience of the parties; now therefore:

It is ordered, this 17th day of October 1952, that the hearing in this proceeding which is now scheduled to be commenced on Monday, October 20, 1952, be and it is hereby continued, and the hearing shall be commenced at Washington, D. C., at 10:00 o'clock a. m. on Wednesday, October 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-6456]

CENTRAL MAINE POWER CO.

NOTICE OF DECLARATION OF INTENTION

OCTOBER 23, 1952.

Public notice is hereby given that Central Maine Power Company, of Augusta, Maine, has filed a declaration of intention pursuant to section 23 (b) of the Federal Power Act (16 U. S. C. 817) to construct a hydroelectric development, to be known as the Indian Pond Project (Docket No. E-6456), on the East Branch of Kennebec River, in Somerset and Piscataquis Counties, Maine, consisting of a gravity type concrete spillway structure and intake works with overall length of about 600 feet and maximum height of about 165 feet flanked on left bank by 2,500 feet of earth embankment; a reservoir having usable capacity of 400 million cubic feet of water with a drawdown of 5 feet from full pond level, Elevation 955 feet; three main penstocks and one service unit penstock, each about 350 feet long; a powerhouse providing for 75,000 kw. ultimate installation, initial installation to be 2 turbines direct-connected, one 30,000-kw. generator, one 15,000-kw. rated capacity; at full load units will pass 2,800 and 1,400 cfs, respectively, in gross operating head range 154 to 146 feet; in addition, one 1,500-kw. service unit will be installed.

The Commission will investigate the proposed construction and determine whether a license under the Federal Power Act is required or whether the project may be constructed merely upon compliance with State Law.

Any communication from persons interested in this matter may be submitted within 30 days from publication of this notice to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-11599; Filed, Oct. 28, 1952; 8:48 a. m.]

[Docket No. E–6460]

PUBLIC SERVICE CO. OF COLORADO

ORDER TO SHOW CAUSE AND SETTING DATE FOR HEARING

OCTOBER 21, 1952.

It appears, in the absence of any other relevant facts or legal considerations not thus far brought to the attention of the Commission, and subject to any showing made as hereinafter provided for that:

(a) Public Service Company of Colorado (hereinafter referred to as "Public Service"), a corporation organized September 3, 1924, under the laws of the State of Colorado, is engaged in the generation, transmission, distribution and sale of electric energy in that State. Public Service entered into an agreement dated June 28, 1938, with the United States, Department of the Interior, Bureau of Reclamation (Bureau), under which there was established an interconnection between its transmission facilities and those of the Bureau at Greeley, Colorado. By that agreement Public Service contracted, among other things, to receive and purchase a minimum of 40,000,000 kilowatt-hours annually generated at the Bureau's Seminoe hydroelectric plant in the State of Wyoming and transmitted by the Bureau over its Seminoe-Greeley 115,000-volt line and delivered to Public Service at Greeley, Colorado. Public Service further contracted to supply to the Bureau at Greeley, Colorado, to the extent available, such electric energy as the Bureau may utilize or request. Operations under this agreement commenced April 19, 1940, and the agreement by its terms was to expire ten years from that date. However by several subsequent letter agreements the last being November 30, 1951, it was extended from time to time and terminated on December 31, 1951.

(b) On January 2, 1952, Public Service and the Bureau entered into a new agreement, superseding the above-mentioned agreement of June 28, 1938, the new agreement providing, among other things, for the interconnection and coordination of their respective power systems at Greeley and Dillon, Colorado, and at such other points as they may agree upon, in order that mutual benefits may be derived by such interconnection and coordination. This agreement further provided that Public Service shall have the right to receive from the Bureau during on-peak periods, a minimum of 200,000 kw.-h. each month, and that Public Service will supply the Bureau at off-peak periods as requested a maximum of 10,000,000 kw.-h. a month subject to the limitation that the Bureau shall not use any of such energy to serve any Bureau load or customer not already being served or under contract to be served under the agreement of August 18, 1950. The latter agreement of August 18, 1950. The latter agreement of August 18, 1950, provides among other things, that Public Service shall transmit over its high voltage transmission facilities, Bureau generated energy to Bureau loads and customers up to distances of 150 miles from the point of receipt, which energy may include energy generated outside the State of Colorado.

(c) Public Service owns and operates an electric system in northeast Colorado commonly designated as the Sterling-Brush System. This system is interconnected with Public Service's Main System by a 115,000-volt transmission line owned and operated by the Bureau, extending approximately 65 miles from Greeley, Colorado, to a point of interconnection with the facilities of Public Service at Brush, Colorado, and an additional distance of some 35 miles to another point of interconnection with the facilities of Public Service at Sterling, Colorado.

(d) By an agreement dated February 15, 1950, superseding a prior agreement dated December 31, 1946, the Bureau contracted to transmit over its Greeley-Brush-Sterling line, to the extent of the available excess capacity in said line, Public Service generated energy to serve the Sterling-Brush System. However, in operating under this agreement the energy transmitted and delivered by the Bureau to serve Public Service's Sterling-Brush loads includes energy generated by the Bureau outside the State of Colorado.

(e) Public Service sells electric energy to Home Light and Power Company (Home), formerly The Home Gas and Electric Company, for resale by the latter to its customers in Colorado. Such sales to Home for resale have been made regularly and continuously since April, 1940, and include substantial quantities of electric energy generated by the Bureau outside the State of Colorado and delivered to Public Service at Greeley, Colorado, as described in (a) and (b) above. The deliveries of energy by Public Service to Home are presently being made at Greeley, Boyd, and La Salle, Colorado.

(f) Public Service sells electric energy to Colorado Central Power Company (Colorado Central) for resale by the latter to its customers in Colorado. Such sales to Colorado Central for resale have been made regularly and continuously since April, 1940, and include substantial quantities of electric energy generated by the Bureau outside the State of Colorado, delivered to Public Service at Greeley, Colorado, as described in (a) and (b) above. The deliveries of energy by Public Service to Colorado Central are presently being made at Milliken and Platteville, Colorado.

(g) Public Service transmits and sells for resale, and owns and operates facilities for transmitting and selling for resale, electric energy transmitted from a state or states and consumed at points outside the state from which it is transmitted. Such facilities include facilities which are not used for the generation of electric energy, or in local distribution, or only for transmission of electric energy in intrastate commerce, or for the transmission of electric energy consumed wholly by the transmitter. Such sales are sales at wholesale in interstate commerce, and such transmission is transmission in interstate commerce, subject to the jurisdiction of the Commission. By reason of the ownership and operation of the aforesaid facilities, Public Service is a "public utility" within the meaning of that term as used in the Federal Power Act, and is subject to the requirements prescribed by and pursuant to that act for such "public utilities."

(h) Public Service has failed to comply with the Commission's Order No. 42, adopted June 16, 1936, prescribing a Uniform System of Accounts for Public Utilities and Licensees, as amended and supplemented by orders Nos. 42–A, 43 and 45 by failing or refusing to keep its books in accordance with the system of accounts prescribed thereby; has failed to comply with the Commission's order of May 11, 1937, that all public utilities and licensees subject to its jurisdiction submit certain data, statements and information pursuant to Electric Plant Accounts Instruction 2–D of the Commission's Uniform System of Accounts, on or before January 1, 1939; and has further failed to comply with the requirements of the general rules and regulations, effective January 1, 1948, pursuant to order No. 141, governing the filing of rate schedules subject to the jurisdiction of the Commission.

The Commission orders:

(A) Public Service show cause, if any there be, at a public hearing to be held commencing at 10:00 a. m. (e. s. t.), December 8, 1952, in the hearing room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., why the Commission should not by order find and determine that Public Service:

(i) Has been, and continues to be a "public utility" under the Federal Power Act;

(ii) Was, and continues to be, subject to and has not complied with the Commission's order No. 42, adopted June 16, 1936, and has not adopted the Uniform System of Accounts prescribed thereby;

(iii) Was, and continues to be, subject to and has not complied with Electric Plant Account Instruction 2–D of the Commission's Uniform System of Accounts and with the Commission's order of May 11, 1937, relating thereto;

(iv) Has sold and continues to sell electric energy at wholesale in interstate commerce to Home and Colorado Central; that such sales were and are subject to the provisions of sections 205 and 206 of the Federal Power Act and rules prescribed with respect thereto; and that Public Service has failed and omitted to file rate schedules for those sales as required by such provisions and rules.

(v) Should now be required by order of this Commission to comply with the requirements referred to in subparagraphs (i) to (iv), above.

(B) Nothing contained in this order shall be construed as a waiver or stay of any of the requirements of the act or any orders or regulations of the Commission which may be applicable to Public Service.

(C) Interested State commissions may participate in said hearing, as provided

in § 1.37 of the general rules and regulations, effective January 1, 1948.

Date of issuance: October 23, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52–11598; Filed, Oct. 28, 1952; 8:48 a. m.]

[Docket No. G–2079]

TENNESSEE NATURAL GAS LINES, INC.

ORDER SUSPENDING PROPOSED RATE SCHEDULES AND PROVIDING FOR HEARING

On September 26, 1952, Tennessee Natural Gas Lines, Inc. (Tennessee Natural), filed with the Commission First Revised Sheets Nos. 4, 6 and 7 to its FPC Gas Tariff, Original Volume No. 1, proposed to become effective October 22, 1952.

The proposed rate schedules would increase the presently effective rates and charges to Tennessee Natural's sole interstate wholesale customer, Nashville Gas Company, an affiliate of Tennessee Natural. According to Tennessee Natural, the proposed rate schedules would result in increased rates and charges of about $388,000, or 20 percent, per annum, based on operations for the year ending July 31, 1953.

Tennessee Natural avers that the proposed increased rates are necessitated in order to meet increased costs of service, principally increased cost of gas purchased from Tennessee Gas Transmission Company. The new rates of Tennessee Gas Transmission Company are not yet effective, having been suspended by the Commission by order issued September 12, 1952, in Docket No. G–2052.

The rates, charges and classifications set forth in First Revised Sheets Nos. 4, 6 and 7 to Tennessee Natural's FPC Gas Tariff, Original Volume No. 1, may be unjust, unreasonable, unduly discriminatory or preferential, and may place an undue burden upon the ultimate consumers of the natural gas.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to section 4 of the Natural Gas Act, concerning the lawfulness of the rates, charges, classifications and services set forth in Tennessee Natural's FPC Gas Tariff, Original Volume No. 1, as amended by First Revised Sheets Nos. 4, 6 and 7; and that said tariff sheets be suspended pending hearing and decision thereon.

The Commission orders:

(A) A public hearing be held at a date and place hereafter to be fixed by the Commission concerning the lawfulness of the rates, charges, classifications and services, subject to the jurisdiction of the Commission, as set forth in the FPC Gas Tariff, Original Volume No. 1, as amended by First Revised Sheets Nos. 4, 6 and 7, filed by Tennessee Natural Gas Lines, Inc.

(B) Pending such hearing and decision thereon, said tariff sheets filed by Tennessee Natural on September 26, 1952, be and the same hereby are suspended and the use thereof is deferred until March 27, 1953, and until such further time thereafter as such tariff sheets may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37(f) (18 CFR 1.8 and 1.37(f)) of the Commission's rules of practice and procedure.

Date of issuance: October 23, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52–11595; Filed, Oct. 28, 1952; 8:47 a. m.]

[Docket No. G–2080]

SOUTH JERSEY GAS CO.

ORDER SUSPENDING PROPOSED TARIFF SHEET

OCTOBER 23, 1952.

On September 25, 1952, South Jersey Gas Company (South Jersey) filed with the Commission First Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1.

The proposed tariff sheet, as filed, would increase the rates for natural-gas service, which would result in increased annual payments by New Jersey Natural Gas Company, South Jersey's single wholesale customer, amounting to about $57,000, which is an increase of about 21.7 percent based on estimated sales for the year ending September 30, 1953. South Jersey states that the rate increase is necessitated principally by a proposed increase by South Jersey's supplier, Transcontinental Gas Pipe Line Corporation. Such higher rates of Transcontinental Gas Pipe Line Corporation are, however, not presently effective, having been suspended by order of the Commission in Docket No. G–2075.

The increased rates and charges provided in said First Revised Sheet No. 4 have not been shown to be justified and may be unjust, unreasonable, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of South Jersey's FPC Gas Tariff, Original Volume No. 1, as amended by First Revised Sheet No. 4 and that said sheet be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision herein.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, and classifications contained in the aforesaid South Jersey's FPC Gas Tariff, as amended by First Revised Sheet No. 4, tendered on September 25, 1952.

(B) Pending such hearing and decision thereon, First Revised Sheet No. 4 of South Jersey Gas Company's FPC Gas Tariff, Original Volume No. 1, tendered on September 25, 1952, be and the same is hereby suspended and the use thereof deferred until March 26, 1953, and until such further time as such sheet may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: October 23, 1952.

By the Commission.

[Project No. 2031]

CITY OF SPRINGVILLE, UTAH

NOTICE OF ORDER ISSUING LICENSE (MINOR PART)

OCTOBER 23, 1952.

Notice is hereby given that on September 4, 1952, the Federal Power Commission issued its order entered August 28, 1952, issuing license (Minor Part) in the above-entitled matter.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52–11600; Filed, Oct. 28, 1952; 8:49 a. m.]

[Docket No. G–2078]

EAST TENNESSEE NATURAL GAS CO.

ORDER SUSPENDING PROPOSED GAS TARIFF

On September 30, 1952, the Commission accepted for filing East Tennessee Natural Gas Company's FPC Gas Tariff, First Revised Volume No. 1 in termination of the rate proceeding at Docket No. G–1925. Under said order and pursuant to the request of all parties to that proceeding, said gas tariff is to take effect as of December 1, 1952.

On September 29, 1952, East Tennessee Natural Gas Company (East Tennessee) filed its FPC Gas Tariff, Second Revised Volume No. 1, to take effect December 2, 1952, and superseding its FPC Gas Tariff, First Revised Volume No. 1.

The Second Revised Volume No. 1 proposes an increase in the G–1 Rate Schedule from 39 cents per Mcf to 45 cents per Mcf; an increase in the G–2 Rate Schedule from $3.00 per Mcf per month of billing demand to $3.25 per Mcf per month of billing demand, and an increase in the commodity charge from 18 cents per Mcf to 23 cents per Mcf; and an increase in the I–1 Rate Schedule from 24 cents per Mcf to 25 cents per Mcf.

East Tennessee's proposed rate increase, which would increase its revenues for the year ending September 30, 1953, by $486,909, is based on a proposed increase in rates from its supplier, Tennessee Gas Transmission Company, and

on increased Federal income taxes. The supplier's proposed rate increase has been suspended by the Commission at Docket No. G–2052 and the claimed tax increases do not appear to be justified by the data submitted by East Tennessee. Additionally, the allocation method employed by East Tennessee does not appear to be justified.

Accordingly, East Tennessee's FPC Gas Tariff, Second Revised Volume No. 1, may be unjust, unreasonable, unduly discriminatory or preferential, and may place an undue burden upon ultimate consumers of natural gas.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to section 4 of the act, concerning the lawfulness of the rates, charges, classifications and services of East Tennessee's FPC Gas Tariff, Second Revised Volume No. 1 and that said tariff be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) A public hearing will be held in this proceeding at a time and place to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, classifications and services contained in East Tennessee's FPC Gas Tariff, Second Revised Volume No. 1.

(B) East Tennessee's FPC Gas Tariff, Second Revised Volume No. 1, be and the same is hereby suspended, pursuant to Section 4 of the Natural Gas Act, and pending a hearing and decision, thereon, its use deferred until May 2, 1953, and until such further time as such tariff may be made effective in accordance with the provisions of the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: October 23, 1952.

By the Commission.

[F. R. Doc. 52–11594; Filed, Oct. 28, 1952; 8:47 a. m.]

FEDERAL TRADE COMMISSION

[File No. 21–441]

PHOTOENGRAVING INDUSTRY OF SOUTHEASTERN STATES

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, partnerships, corporations, organizations, or other parties, including farm, labor, and consumer groups, affected by or having an interest in the proposed trade practice rules for the Photoengraving Industry of the Southeastern States, to present to the Commission their views concerning said rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than November 17, 1952. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., e. s. t., November 17, 1952, in Room 332, Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D. C., to any such persons, firms, partnerships, corporations, organizations, or other parties, who desire to appear and be heard.

After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry for which trade practice rules are sought to be established through these proceedings is composed of persons, firms, corporations, and organizations engaged in the business of photoengraving, including the production of art work, halftones, line etchings, process color plates, and plate work and illustrations used by letterpress printers. The products of this industry are used in newspapers, magazines, books, and all other types of publications, as well as in the production of advertising, letterheads, and related matter.

Pursuant to the notice herein, all persons or concerns engaged in the photoengraving industry in the states of Virginia, North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, and Mississippi, and all other interested or affected parties, are afforded opportunity to present their views, suggestions, or objections regarding the proposed rules, either in writing or at the hearing to be held on November 17, 1952.

Issued: October 24, 1952.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54–202]

ALABAMA POWER CO. ET AL.

ORDER APPROVING PLAN AND ADOPTING REPORT

OCTOBER 21, 1952.

In the matter of Alabama Power Company, Birmingham Electric Company, the Southern Company; File No. 54–202.

Alabama Power Company ("Alabama"), an exempt registered holding company, and Birmingham Electric Company ("Birmingham") having filed a plan, with amendments thereto, pursuant to section 11 (e) of the act providing for the merger of Alabama and Birmingham, with Alabama as the surviving corporation; Alabama and Birmingham being subsidiaries of the Southern Company ("Southern"), a registered holding company, and Southern having joined in said plan to the extent necessary to permit consummation thereof; and

Said plan providing, inter alia, that in connection with the merger there will be exchanged, on a share-for-share basis, shares of the 4.20 percent preferred stock of Alabama for the publicly held 4.20 percent preferred stock of Birmingham, and there will be paid $22.75 in cash for each share of publicly held Birmingham common stock or, at the election of such common stockholders, there will be exchanged 1½ shares of Southern common stock for each share of Birmingham common stock, plus in each case $2.40 in cash per share of such Birmingham common stock; and

Public hearings having been held, after appropriate notice, at which hearings all interested persons were afforded an opportunity to be heard; and

Alabama having requested the Commission to enter an order approving the plan and containing recitals in accordance with the requirements of the Internal Revenue Code, as amended, including Supplement R and section 1808 (f) thereof; and

Southern and Alabama having requested an exemption from the provisions of Rule U–45 (a) respecting the allocation of the reduction of income taxes arising from the loss on the sale by Birmingham of its transit properties; and

Alabama having requested that the Commission modify its orders dated March 13, 1946 (File No. 70–1226), and October 11, 1950 (File No. 70–2475), so as to eliminate therefrom certain conditions concerning the limitation of dividends on the Alabama common stock; and

Alabama having proposed that subsequent to the order of this Commission approving said plan it will solicit proxies from its preferred stockholders to be voted in favor of said plan which plan provides that it will be submitted to the votes of the stockholders of Alabama and Birmingham, but that its consummation is not conditioned upon the results of such votes; and

Alabama having requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate court, in accordance with the provisions of section 18 (f) of the act, to enforce and carry out the terms and provisions of the plan; and

The Commission being duly advised, and having this day issued its findings and opinion, on the basis of said findings and opinion and pursuant to the applicable provisions of the act and the rules and regulations thereunder:

It is ordered, That the plan be, and hereby is, approved subject to the terms and conditions contained in Rule U–24 of the general rules and regulations promulgated under the act, and to the following additional terms and conditions:

(1) The order entered herein shall not be operative to authorize the consummation of the transactions proposed in the plan, other than such action as is proposed in connection with submitting the proposed merger to a vote of the stockholders and including with respect thereto the solicitation of proxies pursuant to Rule U–62, until a court of competent jurisdiction shall, upon application thereto, enter an order enforcing said plan;

(2) Alabama, Birmingham, and Southern shall pay only such fees and expenses in connection with the plan and the proceedings relating thereto as the Commission may approve on appropriate application made to it; and

(3) Jurisdiction is hereby specifically reserved with respect to the following matters:

(a) The supervision of efforts to locate public stockholders of Birmingham;

(b) The supervision of communications to be sent the public common stockholders of Birmingham at or about the effective date of the plan advising them of their rights under the plan; and

(c) The entertaining of such further proceedings, the entering of such further orders, and the taking of such other action as may be necessary or appropriate to effectuate the provisions of section 11 (b) of the act and as may be appropriate in connection with the plan, the transactions incident thereto, and the consummation thereof, and with the application to any or all of the transactions proposed by the plan of the provisions of Supplement R or section 1808 (f) of the Internal Revenue Code.

It is further ordered, That when the merger agreement shall have become effective the Commission's orders dated March 13, 1946, at File No. 70–1226 (Holding Company Act Release No. 6472) and October 11, 1950, at File No. 70–2475 (Holding Company Act Release No. 10150) shall be deemed modified to the extent of eliminating therefrom paragraph numbered (1) of the order dated March 13, 1946, and paragraph numbered (2) of the order dated October 11, 1950.

It is further ordered, That a copy of the findings and opinion of the Commission entered under even date herewith be sent to the preferred stockholders of Alabama as and for a report of the Commission on said plan pursuant to section 11 (g) of the act.

It is further ordered, That Southern and Alabama be, and they hereby are, exempt from the provisions of Rule U–45 (a) with respect to the allocation of the 1951 consolidated income tax liability of Southern and its subsidiaries as reflected in the plan.

It is further ordered and recited, That all steps and transactions embraced within the plan, and all issuances, transfers, exchanges, and conveyances made in accordance with the terms and provisions thereof, including but not limited to those referred to below, are necessary or appropriate to the integration or simplification of the Southern and the Alabama holding company systems and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act and are hereby authorized, approved and directed:

1. The merger of Birmingham into Alabama in accordance with the merger agreement and applicable law and the transfer to and vesting in Alabama of all of the assets of Birmingham and the assumption by Alabama of all of the liabilities of Birmingham.

2. The assets of Birmingham to be transferred to and vested in Alabama, as provided in the next preceding paragraph, include all of the real and personal property of Birmingham located or situated in the County of Jefferson, State of Alabama, and all other property of Birmingham, real or personal, wherever situated or located.

3. The issuance by Alabama of 8,394 shares of its 4.20 percent Preferred Stock, par value $100 per share, pursuant to the plan and the delivery and transfer of said shares by Alabama, and by Birmingham, in exchange, share for share, for the presently outstanding 8,394 shares of the 4.20 percent Preferred Stock of Birmingham, $100 par value, and the surrender of such outstanding shares of 4.20 percent Preferred Stock of Birmingham to Alabama.

4. The issuance by Southern of part or all of 16,196 shares of its Common Stock, $5 par value, and the deliveries and transfers of said shares by Southern and, together with cash, by Alabama and by Birmingham for and in exchange for any part of the presently outstanding 10,797 shares of Common Stock of Birmingham, without par value, at the rate of 1½ shares of Common Stock of Southern (subject to adjustment of $7.60 in cash in lieu of any one-half share of Common Stock of Southern otherwise issuable) plus $2.40, for each share of Common Stock of Birmingham, and the transfers and surrenders of such shares of Common Stock of Birmingham to Southern and by Southern to Alabama.

5. The transfer and surrender by the holders of the presently outstanding 10,797 shares of Common Stock of Birmingham of any part or all of such shares to Alabama or to Birmingham against the payment to such holders of amounts aggregating $25.15 per share.

6. The issuance and the transfer and delivery by Alabama to Southern of any part or all of 540 shares of Common Stock of Alabama, without par value.

7. The cancellation and extinguishment, and any transfer incidental thereto, in accordance with the plan and the Merger Agreement, of the 55,606 shares of 4.20 percent Preferred Stock of Birmingham and of the 534,813 shares of the Common Stock of Birmingham now owned by Alabama.

8. The execution and delivery by and between Alabama and the Hanover Bank and J. T. Harrigan, as Trustees, and the recording of the Second Supplemental Indenture dated as of July 1, 1952, to the Mortgage and Deed of Trust of Birmingham, dated as of August 1, 1944, as heretofore amended and supplemented, to said Trustees.

By the Commission.

AMESBURY ELECTRIC LIGHT CO. ET AL.

ORDER AUTHORIZING PROPOSED ISSUANCE BY SUBSIDIARIES OF PROMISSORY NOTES AND ACQUISITION OF SUCH NOTES BY PARENT COMPANY

OCTOBER 23, 1952.

In the matter of Amesbury Electric Light Company, Athol Gas Company, Attleboro Steam and Electric Company, Beverly Gas and Electric Company, Connecticut River Power Company, Gloucester Electric Company, Northampton Electric Lighting Company, Northern Berkshire Gas Company, Norwood Gas Company, Quincy Electric Light and Power Company, Southern Berkshire Power & Electric Company, Weymouth Light and Power Company, New England Electric System; File No. 70–2931.

New England Electric System ("NEES"), a registered public-utility holding company, and certain of its public-utility subsidiary companies, namely, Amesbury Electric Light Company ("Amesbury"), Athol Gas Company ("Athol"), Attleboro Steam and Electric Company ("Attleboro"), Beverly Gas and Electric Company ("Beverly"), Connecticut River Power Company ("Connecticut"), Gloucester Electric Company ("Gloucester"), Northampton Electric Lighting Company ("Northampton"), Northern Berkshire Gas Company ("Northern Berkshire"), Norwood Gas Company ("Norwood"), Quincy Electric Light and Power Company ("Quincy"), Southern Berkshire Power & Electric Company ("Southern Berkshire") and Weymouth Light and Power Company ("Weymouth"), hereinafter collectively referred to as "the borrowing companies", having filed with this Commission a joint application-declaration, pursuant to sections 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 ("the act") and Rules U–23, U–43, U–45 and U–50 promulgated thereunder, with respect to the following proposed transactions:

The borrowing companies propose to issue to NEES, from time to time during the period from October 1, 1952, to December 31, 1952, unsecured promissory notes in an aggregate amount of $9,380,000. Each of the proposed notes will mature July 1, 1953, and will bear interest at the prime rate of interest charged by banks for such notes at the time of the issuance thereof. It is stated that said interest rate for such notes at the present time is 3 percent per annum. In the event that such interest rate is in excess of 3¼ percent per annum at the time of any of said promissory notes are to be issued, the borrowing company or companies and NEES will file an amendment to this application-declaration setting forth therein the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. The borrowing companies and NEES request that such amendment become effective at the end of such period unless the Commission notifies them to the contrary within said period. The proposed notes may be prepaid, in whole or in part, without premium.

The application-declaration states that the proceeds derived from the notes proposed to be issued by the borrowing companies will be used to pay notes payable to NEES, due December 1, 1952, for construction costs, to reimburse the companies' treasuries for prior construction expenditures and for other corporate purposes. The following table sets forth the aggregate amount of notes each borrowing company proposes to issue and the use of the proceeds therefrom:

Company	Amount of notes proposed to be issued	Use of proceeds	
		Notes and advances to NEES	Construction and other corporate purposes
Amesbury	$515,000	$455,000	$60,000
Athol	60,000	45,000	15,000
Attleboro	495,000	405,000	90,000
Beverly	2,290,000	1,990,000	300,000
Connecticut	750,000		750,000
Gloucester	730,000	655,000	75,000
Northampton	175,000	175,000	
Northern Berkshire	1,280,000	1,080,000	200,000
Norwood	400,000	275,000	125,000
Quincy	930,000	730,000	200,000
Southern Berkshire	905,000	855,000	50,000
Weymouth	850,000	750,000	100,000
Totals	9,380,000	7,415,000	1,965,000

The application-declaration further states that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $200 for each of the borrowing companies and for NEES, or an aggregate of $2,600. The Public Utilities Commission of New Hampshire has approved the notes proposed to be issued by Connecticut and the application-declaration states that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The borrowing companies request that the Commission's order herein become effective forthwith upon issuance.

Notice of the filing of the application-declaration having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration be, and hereby is, granted and permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

Office of Price Stabilization

CERTAIN REGIONS

LIST OF COMMUNITY CEILING PRICE ORDERS

The following orders under General Overriding Regulation were filed with the Division of the Federal Register on October 20, 1952.

REGION I

Boston Order 1-G1-1, Amendment 2, changes and deletes certain food items for retail sales in the Boston area, filed 4:51 p. m.

Manchester Order 1-G1-1, Amendment 2, adds and deletes certain food items and changes the ceiling prices for retail sales in the Manchester and Nashua area, filed 4:51 p. m.

Manchester Order 1-G2-1, Amendment 2, adds, deletes and changes the ceiling prices of certain food items for retail sales in the Manchester and Nashua area, filed 4:51 p. m.

Manchester Order 1-G3-1, Amendment 2, adds, deletes and changes the ceiling prices of certain food items for retail sales in the Manchester and Nashua area, filed 4:51 p. m.

Manchester Order 1-G4-1, Amendment 2, adds, deletes and changes the ceiling prices of certain food items in the Manchester and Nashua area, filed 4:52 p. m.

Manchester Order 1-G4A-1, Amendment 2, adds, deletes and changes the ceiling prices of certain food items for retail sales in the Manchester and Nashua area, filed 4:52 p. m.

Montpelier Order 1-G1-1, Amendment 1, changes and deletes certain food items for retail sales in the Montpelier area, filed 4:52 p. m.

Montpelier Order 1-G2-1, Amendment 1, changes and deletes certain food items for retail sales in the Montpelier area, filed 4:52 p. m.

Montpelier Order 1-G3-1, Amendment 1, changes and deletes certain food items for retail sales in the Montpelier area, filed 4:52 p. m.

Montpelier Order 1-G3-1, Amendment 2, changes, adds and deletes certain food items for retail sales in the Montpelier area, filed 4:53 p. m.

Montpelier Order 1-G4-1, Amendment 1, changes and deletes certain food items for retail sales in the Montpelier area, filed 4:53 p. m.

Montpelier Order 1-G4-1, Amendment 2, changes, adds and deletes certain food items for retail sales in the Montpelier area, filed 4:53 p. m.

Portland Order 1-G1-1, Amendment 2, changes, adds and deletes certain food items for retail sales in the Portland area, filed 4:49 p. m.

Portland Order 1-G2-1, Amendment 2, changes, adds and deletes certain food items for retail sales in the Portland area, filed 4:50 p. m.

Portland Order 1-G3-1, Amendment 2, changes, adds and deletes certain food items for retail sales in the Portland area, filed 4:50 p. m.

Portland Order 1-G4-1, Amendment 2, changes, adds and deletes certain food items for retail sales in the Portland area, filed 4:50 p. m.

Providence Order 1-G1-1, Amendment 1, changes certain food items for retail sales in the Rhode Island area, filed 4:50 p. m.

Providence Order 1-G2-1, Amendment 1, changes certain food items for retail sales in the Rhode Island area, filed 4:50 p. m.

Providence Order 1-G3-1, Amendment 2, changes certain food items for retail sales in the Rhode Island area, filed 4:50 p. m.

Providence Order 1-G4-1, Amendment 2, changes certain food items for retail sales in the Rhode Island area, filed 4:51 p. m.

REGION II

New York Order 1-G1-1, Amendment 2, changes and deletes certain food items for retail sales in the New York area, filed 4:54 p. m.

New York Order 1-G2-1, Amendment 2, changes and deletes certain food items for retail sales in the New York area, filed 4:54 p. m.

New York Order 1-G3-1, Amendment 2, changes certain food items for retail sales in the New York area, filed 4:54 p. m.

New York Order 1-G4-1, Amendment 2, changes certain food items for retail sales in the New York area, filed 4:54 p. m.

Newark Order 1-G1-1, Amendment 1, changes and deletes certain food items for retail sales in the Newark area, filed 4:53 p. m.

Newark Order 1-G2-1, Amendment 1, changes and deletes certain food items for retail sales in the Newark area, filed 4:53 p. m.

Newark Order 1-G3-1, Amendment 1, changes and deletes certain food items for retail sales in the Newark area, filed 4:54 p. m.

Newark Order 1-G4-1, Amendment 1, changes and deletes certain food items for retail sales in the Newark area, filed 4:54 p. m.

REGION IV

Richmond Order 1-G1-1, covering retail prices for certain dry grocery items sold by retailers in the Richmond area, filed 4:56 p. m.

Richmond Order 1-G2-1, covering retail prices for certain dry grocery items sold by retailers in the Richmond area, filed 4:56 p. m.

[Ceiling Price Regulation 34, as Amended, Supplementary Regulation 3, as Amended, Section 5, Special Order 3]

FORD MOTOR CO.

APPROVAL OF REVISIONS ATTACHED TO LETTER TO DEALERS, DATED OCTOBER 21, 1952

Statement of considerations. This Special Order, pursuant to section 5 of Supplementary Regulation 3 to Ceiling Price Regulation 34, approves certain modifications and supplements to time allowances which appear in the Ford Suggested Time Schedule Reprint dated June 15, 1952, Passenger Cars and Trucks.

The Director of Price Stabilization has determined from the data submitted by the publisher of the Ford Suggested Time Schedule, 1952, that the approval of these modifications and supplements would not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. 1. On and after the effective date of this order, the modifications and supplements to the Ford Suggested Time Schedule Reprint dated June 15, 1952, as covered in Ford Application #FPSB–3 are authorized for use in establishing the time allowances for the operations described therein.

2. The following notice must be printed or stamped in a prominent position in the publication "Approved by OPS October 25, 1952, by Special Order No. 3 issued under section 5 of SR 3 to CPR 34."

3. All provisions of Ceiling Price Regulation 34, as amended, and Supplementary Regulation 3, as amended, except as changed by this Special Order shall remain in full force and effect.

4. This Special Order or any provision thereof may be revoked, suspended or amended at any time by the Director of Price Stabilization.

Effective date. This order shall become effective October 25, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 24, 1952.

[F. R. Doc. 52–11584; Filed, Oct. 24, 1952; 11:03 a. m.]

[Ceiling Price Regulation 34, as Amended, Section 20 (c), Special Order 17]

T-N-T FOOD PRODUCTS, INC., T-N-T POPCORN DIVISION

PRICES FOR CANNED POPCORN BROKERAGE SERVICES SUPPLIED

Statement of considerations. The ceiling price for brokerage services supplied to T-N-T Popcorn Division, T-N-T Food Products, Inc., Lawrence, Kansas, by its brokers on sales of canned popcorn is adjusted by this Special Order pursuant to section 20 (c) of Ceiling Price Regulation 34, as amended.

This section authorizes the Director of Price Stabilization to adjust ceiling prices of sellers of an essential non-retail service as to which there is a limited supply available. In order to obtain an adjustment under this section, the buyer must demonstrate that he is purchasing an essential non-retail service as to which there is a limited supply available from sellers thereof who are too numerous to make recourse by them to section 20 (b) of Ceiling Price Regulation 34, as amended, practicable. The purchaser must further demonstrate that these sellers are threatening to discontinue supplying him with such service, and in addition, the applicant must agree to absorb any price increase over his sellers' existing ceiling prices, and must so state in his application. The buyer may not apply for or obtain an increase in his suppliers' ceiling prices for the service supplied to him which would bring the proposed increased ceiling prices in excess of the price he would be required to pay to other suppliers of the same service. The buyer's application must also show the nature and extent of the sellers' direct labor and material cost increases incurred by them since their ceiling prices for that service were established. These cost increases will be considered by the Office of Price Stabilization in determining the amount of price increase which may be granted. Where practicable the purchaser must state the names and addresses of the sellers and the ceiling prices of each seller.

It appears from information submitted in the application that applicant sells 10-ounce canned popcorn (unpopped for popping purposes) throughout the United States through the services of 75 food brokers. The Director of Price Stabilization has determined that the supply of such service is limited; that the increased ceiling prices for brokerage service will not exceed the prevailing prices at which the applicant could purchase the same service; that the applicant's suppliers are threatening to discontinue supplying such service because their ceiling prices are below prevailing rates; that the applicant has agreed to absorb any price increases and will not pass on such increases in the form of increased prices to others; and that the sellers of canned popcorn brokerage service to the applicant are too numerous to make recourse to paragraph 20 (b) of Ceiling Price Regulation 34 practicable. The increased ceiling prices reflect the direct labor and material cost increases incurred by these sellers since their ceiling prices for the service were established, and such increases will not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 20 (c) of Ceiling Price Regulation 34, as amended, this Special Order is hereby issued.

1. The application of T-N-T Popcorn Division, T-N-T Food Products, Inc., Lawrence, Kansas (hereinafter referred to as T-N-T), for an adjustment of the ceiling prices which sellers may charge applicant for brokerage service is granted as follows:

On and after the effective date of this Special Order, the ceiling price for brokerage services supplied on sales of canned popcorn to T-N-T by the following firms shall be 17½ cents per case of 10-ounce cans:

Benton Brokerage Co., Birmingham, Ala.
The Gouley Burcham Co., Phoenix, Ariz.

Truman B. Fittro, Clarksburg, W. Va.
Meinrath Brokerage Co., Milwaukee, Wis.

2. T-N-T may pay to the sellers listed above the increased price determined under paragraph 1 of this Special Order provided that it shall absorb the increase over the former ceiling price and shall not pass on such increase in rates in the form of increased prices to others.

3. Copies of this order shall be provided by T-N-T to the firms listed above. A copy of this order shall be kept at the place of business of each of these firms and another copy shall be filed by each seller or brokerage service with the appropriate District Office of the Office of Price Stabilization with which each of the firms has filed or is required to file a statement of its ceiling prices under section 18 of Ceiling Price Regulation 34.

4. All requests in the application of T-N-T not granted herein are denied.

5. All provisions of Ceiling Price Regulation 34, as amended, except as changed by the pricing provisions of this Special Order shall remain in effect.

6. This Special Order or any provisions thereof may be revoked, suspended or amended by the Director of Price Stabilization at any time.

Effective date. This order shall become effective October 25, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 24, 1952.

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 24]

EAST HOBBS FIELD, GAINES COUNTY, TEXAS

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the purchase of crude petroleum produced from the East Hobbs Field, Gaines County, Texas.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the East Hobbs Field, Gaines County, Texas. During the base period there was a lack of competitive factors and as a result, the crude petroleum produced from this field was sold at a lower price than that paid for crude petroleum of comparable quality produced in this same general area. It appears that this condition has been eliminated and these differentials should no longer be imposed.

From the information available to this office, it appears that the adjusted price will be in line with the ceiling price of comparable crude petroleum produced in this same area. The ceiling prices as posted during the base period for sweet crude petroleum produced in this same general area are: $2.65 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°; and $2.58 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, *It is ordered:*

1. That your ceiling price at the lease receiving tank for sweet crude petroleum produced from the East Hobbs Field, Gaines County, Texas shall be: $2.58 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

Effective date. This special order shall become effective on October 25, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 24, 1952.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27480]

PETROLEUM PRODUCTS FROM CHOCOLATE BAYOU, TEX., TO POINTS IN ILLINOIS, WESTERN TRUNK-LINE, AND SOUTHWESTERN TERRITORIES

APPLICATION FOR RELIEF

OCTOBER 24, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Petroleum, its products, and related articles, carloads.

From: Chocolate Bayou, Tex.

To: Points in Illinois, western trunk-line, and southwestern territories.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3585, Supp. 525; F. C. Kratzmeir, Agent, I. C. C. No. 3825, Supp. 152; F. C. Kratzmeir, Agent, I. C. C. No. 3494, Supp. 254.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27481]

SOAP AND WASHING COMPOUNDS FROM CINCINNATI, OHIO, AND JEFFERSONVILLE, IND., TO NEW ORLEANS, LA.

APPLICATION FOR RELIEF

OCTOBER 24, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1062.

Commodities involved: Soap and washing compounds, carloads.

From: Cincinnati, Ohio, and Jeffersonville, Ind.

To: New Orleans, La.

Grounds for relief: Competition with motor-water carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27482]

THREAD FROM OTTLEY, GA., TO SKOKIE, ILL.

APPLICATION FOR RELIEF

OCTOBER 24, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for the St. Louis Southwestern Railway Company and other carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 899, pursuant to fourth-section order No. 16101.

Commodities involved: Thread, crochet, darning, embroidery, or knitting, cotton, carloads.

From: Ottley, Ga.

To: Skokie, Ill.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

PART 674—FARM STORAGE FACILITIES

SUBPART — PROGRAM TO FINANCE THE PURCHASE OF MOBILE DRYING EQUIPMENT FOR FARM COMMODITIES

This bulletin states the requirements with respect to the Program To Finance the Purchase of Drying Equipment for Farm Commodities formulated by Commodity Credit Corporation (hereinafter referred to as "CCC") and the Production and Marketing Administration (hereinafter referred to as "PMA"). The program will be carried out by PMA under the general supervision and direction of the President, CCC.

Loan applications under the program announced 16 F. R. 6494, as extended 17 F. R. 5853, may not be submitted subsequent to October 31, 1952.

Sec.
674.190 Administration.
674.191 Availability of loans.
674.192 Approved lending agencies.
674.193 Eligible borrowers.
674.194 Eligible equipment.
674.195 Terms and conditions of loan.
674.196 Disbursement of loans.
674.197 Service charges.
674.198 Sale or conveyance of security.

AUTHORITY: §§ 674.190 to 674.198 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 4, 6, 62 Stat. 1070, as amended, 1072; 15 U. S. C. Sup., 714b, 714c.

§ 674.190 *Administration.* The program will be administered by PMA, under the general direction and supervision of the President, CCC, and in the field will be carried out by State PMA and PMA county committees (hereinafter called State and county committees). State and county committees do not have authority to modify or waive any provisions of this bulletin or amendments or supplements hereto.

§ 674.191 *Availability of loans*—(a) *Area.* Loans will be available in any State in the continental United States.

(b) *Time.* Loan applications may be submitted from November 1, 1952, through June 30, 1953.

(c) *Source.* Loans may be obtained directly from CCC or through approved lending agencies. Application for loans shall, in either case, be made to the county committee.

(d) *Approved forms.* All forms and documents will be made available through offices of county committees.

§ 674.192 *Approved lending agencies.* An approved lending agency shall be any bank, partnership, individual, or other legal entity which has entered into a lending agency agreement for storage equipment loans, on the form prescribed by CCC.

§ 674.193 *Eligible borrowers.* A person shall be eligible for a loan for the purchase of eligible equipment provided such person (a) is a tenant, landlord, or land owner-operator who produces one or more of the commodities listed in § 674.194, or a landowner who rents for cash his land on which one or more of such commodities are produced, and (b) has facilities for the storage of one or more of such commodities suitable for adaptation to artificial drying and needs such eligible equipment in connection with the utilization of such facilities. Any two or more such persons may join together in purchasing such equipment. The term "person" as used in this section means an individual, partnership, corporation, or other legal entity.

§ 674.194 *Eligible equipment.* Mobile drying equipment (such as air-circulators, ventilators, tunnels and power-fans, or any combination thereof, and mechanical driers of a mobile type) will be eligible equipment under this program provided such mobile drying equipment will be used in connection with the conditioning of corn, oats, barley, grain sorghums, wheat, rye, soybeans, flaxseed, rice, dry edible beans, dry peas, peanuts, cottonseed, hay seeds, pasture seeds, and winter cover crop seeds. Equipment for use in connection with the conditioning of commodities which the borrower intends to purchase or to store for others shall not be eligible equipment.

§ 674.195 *Terms and conditions of loan.* (a) *Term.* The maximum term of the loan will be for a period of approximately three years, except that the term of particular loans may be extended, at the option of CCC, under con-

ditions prescribed by the President, CCC. Loans will be payable in equal annual principal payments with interest at four percent per annum on the unpaid balance. Loans will be secured by chattel mortgages on the mobile drier and/or equipment, or by other security instruments approved by CCC.

(b) *Amount of loan.* The maximum amount to be loaned on any single mobile drier, or any mobile equipment suitable for the conditioning of grain shall not exceed seventy-five percent of the delivered and assembled cost of such drier or equipment, exclusive of farm-labor costs.

(c) *Repayment of loan.* Payment will be due annually in equal principal payments beginning on the first anniversary date of the disbursement of the loan, and a like principal payment plus interest shall be due on each anniversary date thereafter until the principal, together with interest thereon, has been paid in full. The notes securing loans will provide for acceleration in event of default under conditions set forth therein. Any unpaid amount on a delinquent loan or any past due amount on any annual payment may be deducted and paid out of any amounts due the borrower under any program carried out by the Department of Agriculture, excepting amounts due the borrower out of appropriated funds when the loan is held by a lending agency. The loan may be paid in part or in full by the borrower at any time before maturity. Upon payment of a loan secured by a mortgage which is held by CCC, the county committee should be requested to release the mortgage of record by filing an instrument of release or by a marginal release on the county records. Upon payment of loans secured by mortgages held by a lending agency, the lending agency should be requested to release such mortgage. The chairman of each county committee is authorized to act as agent of CCC in executing or obtaining such releases.

(d) *Insurance.* The borrower will be required to provide insurance in an amount sufficient to cover the loan and with coverage for fire and other hazards common to the area for such equipment as determined necessary by the county committee. The insurance shall be maintained during the life of the loan, shall contain a loss payable clause in favor of the holder of the note and CCC, as their interest may appear, and the cost shall be borne by the borrower.

§ 674.196 *Disbursement of loans.* Loans will be disbursed to borrowers by lending agencies under agreement with CCC or direct by CCC. Direct loans to borrowers may be disbursed by means of sight drafts issued by County PMA Offices.

§ 674.197 *Service charges.* A service charge of $2.50 or one-half (½) of one percent of the amount of the loan, whichever is greater, shall be paid by the borrower at the time the application is made. If the loan is rejected or is not completed, the minimum fee of $2.50 shall be retained by the county committee and the balance returned to the applicant.

§ 674.198 *Sale or conveyance of security.* When a borrower desires to sell or convey the mobile drying equipment without repaying the loan in full, he shall apply to Chairman of the county committee for approval of the sale or conveyance on behalf of CCC. If such approval is granted, the borrower and his purchaser shall execute an assumption agreement in form prescribed by CCC under which the borrower remains liable for the balance of the indebtedness and the purchaser assumes the balance of the indebtedness and agrees to comply with all the terms, conditions, covenants, and agreements set out in the security instruments. Approval of the transaction on behalf of CCC shall be shown by signature of the Chairman of the county committee in the space provided in the assumption agreement. The Chairman of each county committee is authorized to approve such transactions on behalf of CCC with respect to mobile drying equipment located within the county, by executing the consent provision in the assumption agreement. The assumption agreement form may be obtained from the county committee office.

Issued this 27th day of October 1952.

[SEAL] JOHN H. DEAN,
Acting Vice President,
Commodity Credit Corporation.

Approved:

HAROLD K. HILL,
Acting President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 976—MILK IN FORT SMITH, ARKANSAS, MARKETING AREA

ORDER AMENDING ORDER REGULATING HANDLING

§ 976.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Fort Smith, Arkansas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for milk in the marketing area, and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, effective not later than November 1, 1952. Any delay beyond that date in the effective date of this order will seriously disrupt the orderly marketing of milk for the Fort Smith, Arkansas, marketing area. The changes effected by this order do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing it is hereby found that good cause exists for making this order effective November 1, 1952 (Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order which is marketed within the Fort Smith, Arkansas, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing

agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who during the determined representative period (September 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Fort Smith, Arkansas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order as hereby amended, and the aforesaid order is hereby amended as follows:

1. In § 976.51 (a) change the period at the end of the sentence to a colon and add *"And provided further,* That except for the purpose of computations pursuant to § 976.61 (b), the amount to be added to the basic formula price for the months of November 1952 through January 1953 shall be $2.25 in lieu of $1.85, and for the months of February and March 1953 such amount shall be $2.05 in lieu of $1.85."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 27th day of October 1952, to be effective on and after the 1st day of November 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter E—Organized Reserves

PART 564—ENLISTED RESERVE CORPS

PHYSICAL EXAMINATION

In § 564.8, paragraph (d) is revised and paragraph (e) is added, as follows:

§ 564.8 *Physical examination.* • • •

(d) All other applicants for enlistment or reenlistment will be given final type physical examination. Accomplishment of chest X-ray, electrocardiogram, audiometer reading, blood serology, lens correction, and microscopic urinalysis is not required unless otherwise indicated. Pelvic examination for female personnel is not required unless otherwise indicated. The report of physical examination may be accomplished and signed by a medical officer of any component of the United States Army, Navy, Air Force, or Marine Corps, whether or not on active duty, or by any reputable doctor of medicine. The signature of only one examiner is required. Any expense incurred in having such physical examination by a medical officer not on active duty or by a civilian physician, except as provided in paragraph (e) of this section, will be borne by the applicant.

(e) When organized units and applicants for enlistment therein are located in remote areas where no medical examining facility nor any medical officer of any component of the Armed Forces qualified to effect a final type physical examination is available within a reasonable travel distance, examination of applicants for enlistments by a qualified local civilian physician is authorized. (A hundred-mile round trip may be used as a guide in determining "reasonable travel distance," such determination to be made by the recruiting officer.) Fees for such examinations will not exceed those authorized in Department of the Army circulars for similar professional services. Transportation costs incidental to such examination by a local civilian physician will not be borne by the Government.

[C5, SR 140-107-1, Oct. 14, 1952] (39 Stat. 195, 41 Stat. 780, 44 Stat. 705; 10 U. S. C. 421, 423-427)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 123]

GCPR, SR 123—ADJUSTED CEILING PRICES FOR MANUFACTURERS OF CROWN CLOSURES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 123 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes adjusted ceiling prices for manufacturers of crown closures. The method provided is to apply a uniform adjustment factor of 9 percent to the General Ceiling Price Regulation (GCPR) ceiling prices of the industry. The adjustment was derived from a financial survey of the crown closure industry.

At an Industry Advisory Committee meeting held on May 20, 1952 the Committee indicated that the level of earnings for this industry had fallen below the minimum prescribed by the "industry earnings standard." This standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the industry's dollar profits (computed before Federal income and excess profits taxes) amount to 85 percent of the average return on net worth for the industry's best three years during the period 1946-49, inclusive.

A survey was undertaken by OPS and financial data were obtained from nine of the twelve companies in the industry. Total sales of these nine companies represent approximately 75 percent of total sales for the industry. Based upon this survey, the Director of Price Stabilization has determined that in order for the dollar profits of the industry to meet the industry earnings standard, and for ceiling prices to be generally fair and equitable ceiling prices for this industry would have to be established at 9 percent above the level of present ceiling prices. In conducting this survey and computing the appropriate adjustment, such operations performed by the manufacturer as lithographing, coloring, printing, coating and packaging the closures were taken into consideration. These so-called "extras" are covered by this regulation.

Also, in determining the 9 percent adjustment factor recognition was given, among other costs, to the increased cost of steel incurred by the industry since the issuance of SR 100 to the GCPR on August 19, 1952, and to increased costs of outbound transportation. For this reason, use of this regulation precludes crown closure manufacturers from applying the pass-through provisions of General Overriding Regulation 35, which permits manufacturers to pass-through cost increases resulting from the issuance of SR 100 to the GCPR, and of SR 122 to the GCPR, which permits adjustments to reflect increases in the cost of outbound transportation. On the other hand, manufacturers covered by this supplementary regulation are relieved of the necessity of reporting to their purchasers the amount of the steel cost increase pass-through, as is required by GOR 35. An amendment to GOR 35 will inform purchasers of crown closures of the exact amount which they, in turn, may pass-through.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Coverage.
3. Adjusted ceiling prices.
4. Use of GOR's 20, 21, and 35, and SR 122 to the GCPR.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 805, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6104; 3 CPR 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes adjusted ceiling prices for sales by manufacturers of crown closures, as defined in section 2. Such manufacturers are currently subject to the General Ceiling Price Regulation (GCPR). The method provided is to apply to the GCPR ceiling prices of the industry a uniform adjustment ratio.

SEC. 2. *Coverage—(a) Persons covered.* This supplementary regulation applies to you if you manufacture the commodities described in paragraph (b) of this section and establishes your ceiling prices for sales of such commodities. Except to the extent that they are inconsistent with the provisions of this supplementary regulation, all provisions of the GCPR shall continue to be applicable to you.

(b) *Commodities covered.* This supplementary regulation covers crown closures, as defined below:

(1) Crown closures are metallic caps, produced by punch press operation, from one-quarter pound steel tin plate or one-half pound black sheet steel, containing a gas-tight cork liner, and used principally in bottling malt liquors and carbonated beverages.

(2) For the purposes of this SR, crown closures, as defined in subparagraph (1) above, shall include all "extras" supplied by the manufacturer, such as, but not limited to, lithographing, printing, coloring, coating and packaging irrespective of whether the manufacturer's charges for such extras are separately stated or are included in a single charge together with the basic crown closure.

SEC. 3. *Adjusted ceiling prices—(a) How to compute.* Your ceiling price for the sale of any commodity covered by this supplementary regulation is your ceiling price in effect under the GCPR increased by 9 percent (i. e., 109 percent of your GCPR ceiling price).

(b) *Rounding ceiling prices.* You may round your ceiling prices per unit determined under this section so that they will be expressed to the nearest cent. If you elect to do so you must similarly round the ceiling prices for all your commodities normally priced on the same basis to reflect decreases as well as increases. For example, if your ceiling price for one gross of commodity A is 21.7 cents you may round that ceiling price to 22 cents. However, if your ceiling prices for one gross of commodity B is 21.3 cents you must round its ceiling price to 21 cents.

(c) *Terms and conditions of sale.* Your ceiling prices under this supplementary regulation must be consistent in all respects with your GCPR ceiling prices; that is, they must carry all customary discounts, allowances, premium and extras, deductions, guarantees and other terms and conditions of sale.

SEC. 4. *Use of GOR's 20, 21 and 35, and SR 122 to GCPR—(a) GOR 20, GOR 21.* Notwithstanding any provision of this supplementary regulation you may elect to apply the provisions of General Overriding Regulation 20 or 21 to establish your ceiling prices. If you do so elect, you may not use the provisions of this supplementary regulation.

(b) *GOR 35; SR 122 to GCPR.* You may not employ any of the provisions of General Overriding Regulation 35 (pass-through for steel, pig-iron, copper and aluminum cost increases) or SR 122 to GCPR (adjustments to reflect increased outbound transportation rates).

Accordingly, you will not have to make any of the reports to your purchasers required by GOR 35 as to the amount of your selling prices or ceiling prices reflecting the pass-through for increases in the cost of metals covered by that regulation.

Effective date. This supplementary regulation shall become effective October 29, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 29, 1952.

[F. R. Doc. 52-11710; Filed, Oct. 29, 1952; 10:58 a. m.]

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation No. 1, Direction 18 as Amended Oct. 29, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 18—AUTOMATIC ALLOTMENT PROCEDURE FOR PRODUCERS OF CLASS B PRODUCTS

This direction as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

EXPLANATORY

This amendment affects Direction 18, as last amended August 29, 1952, to CMP Regulation No. 1 by amending section 3 thereof.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definitions.
3. Persons affected by automatic allotment procedure.
4. Use of allotment symbol to obtain controlled materials.
5. Use of rating to obtain production materials other than controlled materials.
6. Certification.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction relates only to producers of Class B products who received allotments pursuant to applications submitted on Form CMP-4B for the third calendar quarter of 1952. Such producers may calculate their own allotments and place purchase orders for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, only if their allotments for the third quarter of 1952 did not exceed certain maximum amounts. A producer of a Class B product who received an allotment for such product pursuant to Form CMP-4B for the third quarter of 1952 which did not exceed such maximum amounts, but who desires quantities of controlled materials commencing with the first quarter of 1953 which exceed the automatic allotment quantities as calculated under this direction, must submit an application on Form CMP-4B. The provisions of Direction 1 to CMP Regulation No. 1 may be used only through the fourth quarter of 1952.

SEC. 2. *Definitions.* As used in this direction:

(a) "Product class" means a Product Class Code as shown in the Official CMP Class B Product List.

(b) "Total third-quarter allotment" means the total net allotments of a particular kind of controlled material (carbon steel, alloy steel, nickel-bearing stainless steel, all copper or aluminum) received by a producer of a Class B product for a particular product class for the third calendar quarter of 1952 pursuant to an allotment on Form CMP-4B or Form CMP-10, plus any quantity of such kind of controlled material for which such producer was entitled to self-authorize pursuant to Direction 1 to CMP Regulation No. 1 for the third calendar quarter of 1952 in such product class. Total net allotments shall be computed as of the close of business on August 29, 1952. In making such computation, the producer shall deduct any allotment decrease which he has received on Form CMP-11 and any portion of his third-quarter allotments which he has returned on Form CMP-12.

SEC. 3. *Persons affected by automatic allotment procedure.* (a) Subject to the limitations of paragraphs (b) and (c) of this section, a producer of any Class B product which is listed in the Official CMP Class B Product List may, without submitting an application on Form CMP-4B, calculate his own allotments and place purchase orders calling for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, if his total third-quarter allotment of each kind of controlled material (including controlled material for Class A product components) for the production of that product and all other products in the same product class did not exceed the amounts specified below:

Carbon steel (including wrought iron).	500 tons.
Alloy steel (except nickel-bearing stainless steel).	90 tons.
Nickel-bearing stainless steel.	10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	40,000 pounds.
Aluminum	60,000 pounds.

Provided, however, That no such producer, unless specifically authorized by NPA, shall avail himself of the automatic allotment procedure provided by this direction if he has not received an allotment pursuant to application submitted on Form CMP-4B for the third calendar quarter of 1952, or if his total third-quarter allotment of any kind of controlled material exceeded the above amounts, for the manufacture of the same product and all other products in the same product class. Instead, a producer who has not received such third-quarter allotment, or whose total third-quarter allotment of any kind of controlled material exceeded the above amounts, shall obtain his controlled ma-

terial requirements beginning with the first calendar quarter of 1953 either pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP–4B, whichever is appropriate.

(b) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for the first calendar quarter of 1953 a quantity of each of the following kinds of controlled material equal to the specified percentage or percentages of his total third-quarter allotment of such material for the manufacture of the same product and all other products in the same product class:

Kinds of controlled material	Calculation of allotments on basis of total third quarter 1952 allotments
Carbon steel (including wrought iron).	100 percent of first 60 tons of total third quarter 1952 allotment, plus 60 percent of any excess between 60 tons and 500 tons.
Alloy steel (except nickel-bearing stainless steel).	100 percent of first 16 tons of total third quarter 1952 allotment, plus 80 percent of any excess between 16 tons and 90 tons.
Nickel-bearing stainless steel.	100 percent of first 500 pounds of total third quarter 1952 allotment, plus 80 percent of any excess between 500 pounds and 10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	100 percent of total third quarter 1952 allotment if it did not exceed 40,000 pounds.
Aluminum	100 percent of total third quarter 1952 allotment if it did not exceed 60,000 pounds.

(c) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for the second calendar quarter of 1953 and for each succeeding calendar quarter a quantity of each kind of controlled material listed in paragraph (b) of this section which is equal to his total third-quarter allotment of such material for the manufacture of the same product and all other products in the same product class.

(d) Notwithstanding the provisions of paragraphs (b) or (c) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section need not during any calendar quarter reduce his allotment authority below the specified quantity of each of the following kinds of controlled material for the manufacture of the same product and all other products in the same product class:

Carbon steel (including wrought iron).	25 tons.
Alloy steel (except nickel-bearing stainless steel).	1 ton.
Nickel-bearing stainless steel.	500 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	10,000 pounds.
Aluminum	20,000 pounds.

(e) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP–4B for such Class B product and others in the same product class, and has placed orders for controlled materials pursuant to such allotments, must deduct the quantity of orders so placed from the quantity of his calculated allotment under this section for such quarter.

(f) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP–4B for such Class B product and others in the same product class, which exceed his automatic allotment authority as calculated under this section with respect to any kind of controlled material, need not return such excess allotments, but his allotment authority shall be limited to the amounts calculated under this section for such quarter.

(g) A producer of any Class B product who need not submit an application on Form CMP–4B pursuant to this direction shall be subject to all applicable regulations and orders of NPA. For example, he shall make allotments of controlled material to a person producing Class A product components for him in the manner prescribed by CMP Regulation No. 1.

(h) Class A products which a producer has been authorized by NPA to treat as Class B products in accordance with section 24 (b) of CMP Regulation No. 1, and Class A products which are sold to a distributor or for use as maintenance, repair, or operating supplies in accordance with paragraph (b) or (c) of section 15 of CMP Regulation No. 1, shall be deemed Class B products for purposes of this direction. A producer may calculate his own allotments and place purchase orders without filing a Form CMP–4B for any calendar quarter, beginning with the first calendar quarter of 1953, in which his total requirements for delivery from suppliers of each kind of controlled material (including controlled material for Class A product components) for the production of all Class A products which are deemed Class B products for purposes of this direction do not exceed the quantities indicated in this section.

(i) Except as otherwise provided by NPA, a producer of a Class B product must obtain his requirements of all kinds of controlled materials in a particular calendar quarter for a particular product class pursuant to this direction or pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP–4B, and may not use the automatic allotment procedure of this direction or the self-authorization procedure of Direction 17 for one or more kinds of controlled materials and submit a Form CMP–4B for one or more other kinds of controlled materials.

SEC. 4. *Use of allotment symbol to obtain controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP–4B, is authorized to use the allotment symbol which identifies the allotment he has received for the same products pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952 (and not the allotment symbol SU), or such other allotment symbol as NPA may expressly authorize, on delivery orders for controlled materials within the limits set forth in section 3 of this direction. He may also append the suffix program identification B–5 to such allotment symbol in accordance with the provisions of section 11 (d) of CMP Regulation No. 1. An order so designated, when certified as provided in section 6 of this direction, shall constitute an authorized controlled material order. The quantity of such Class B products which may be produced with controlled materials obtained with the use of such allotment symbol, or with such other allotment symbol as NPA may expressly authorize, plus controlled materials properly contained in inventory, shall constitute an authorized production schedule for the purpose of all CMP regulations.

SEC. 5. *Use of rating to obtain production materials other than controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP–4B, is authorized to use the DO rating which accompanies the allotment he has received for the same products pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952 (and not the rating DO–SU), or such other rating as NPA may expressly authorize, on delivery orders for production materials as defined in CMP Regulation No. 3 in accordance with the provisions of that regulation. He may also append the suffix program identification B–5 to such rating in accordance with the provisions of section 6 (f) of CMP Regulation No. 3.

SEC. 6. *Certification.* Every delivery order placed under the provisions hereof shall contain, in the case of an order for controlled materials, the certification required by section 19 of CMP Regulation No. 1, or, in the case of an order for production materials other than controlled materials, the certification required by section 6 of CMP Regulation No. 3.

This amended direction shall take effect October 29, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

Chapter XXIII—Defense Materials Procurement Agency

[Revision 1, Amdt. 1]

COLUMBIUM-TANTALUM PURCHASE PROGRAM REGULATION

Pursuant to the authority vested in me by Executive Order 10281, as amended, this regulation, as revised, is amended by adding thereto the following which, for convenience, is designated "Article II".

Purpose. The purpose of this amendment is to provide a means for small domestic producers of columbium-tantalum ores and concentrates to sell such material to the Government in quantities of less than 2,000 pounds avoirdupois. Under this amendment, the Government will buy at its established purchase depots columbium-tantalum ores and concentrates of domestic origin (defined as ores and concentrates produced within the United States, its Territories or possessions) offered in any size lots up to 2,000 pounds avoirdupois.

SEC. 9. *Small lot purchases.* For the purposes of this Article II, a "small lot" is defined as any quantity of columbium-tantalum ores or concentrates of less than 2,000 pounds of domestic origin. Any seller may offer to the Government, during the term of this program, at the Government purchase depots located at Spruce Pine, North Carolina; Franklin, New Hampshire; and Custer, South Dakota, small lots meeting the requirements set forth in this Article II. Acceptability of small lots shall be determined on the basis of visual inspection by the Government, whose decision shall be final: *Provided, however,* That the seller may request a chemical analysis and if, in the judgment of the Government, a chemical analysis is justified, such an analysis may be made at the seller's expense by a laboratory mutually acceptable to the Government and the producer.

SEC. 10. *Requirements.* (a) Small lots offered for sale to the Government may be rejected if, in the opinion of the Administrator, they are not of acceptable or desirable grade. The removal of objectionable substances, by cleaning, cobbing or other methods may be required as a condition to purchase by the Government.

(b) All acceptable small lots shall contain a minimum of fifty percent (50%) contained combined pentoxide (Cb_2O_5 plus Ta_2O_5), and for the purpose of payment all small lots meeting requirements shall be considered as containing not more than fifty percent (50%) contained combined pentoxide (Cb_2O_5 plus Ta_2O_5).

(c) Each seller shall be required to certify that the small lot offered for sale to the Government is of domestic origin.

(d) The ratio of Cb_2O_5 to Ta_2O_5 shall not be a factor in the acceptability of a small lot, nor in making payment therefor.

(e) All small lots offered to the Government under this Article II shall be delivered by the seller f. o. b. Government purchase depot.

SEC. 11. *Payment.* Irrespective of the actual Cb_2O_5 plus Ta_2O_5 content, all small lots meeting requirements shall be purchased at the flat rate of $3.40 per pound of contained combined pentoxide (Cb_2O_5 plus Ta_2O_5), and for purposes of payment all small lots purchased shall be considered as containing not more than fifty percent (50%) contained combined pentoxide (Cb_2O_5 plus Ta_2O_5). This price is the maximum allowed for purchases under this Article II and is calculated to include bonus, premiums and penalties.

(Sec. 704, 64 Stat. 816, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 303, 64 Stat. 801, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2093. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; E. O. 10281, Aug. 25, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.)

This amendment is effective as of the date hereof.

Dated: October 24, 1952.

JESS LARSON,
Defense Materials Procurement Administrator.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 17—MEDICAL

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Doc. 52-11391, appearing on page 9561 of the issue for Tuesday, October 21, 1952, item 2 should read as follows:

2. In § 17.46, paragraph (a) (5) is amended to read as follows:

§ 17.46 *Persons entitled to hospital treatment or domiciliary care.* • • •

(a) • • •

(5) Members or former members of the uniformed services (Army, Navy, Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service) temporarily or permanently retired for physical disability or receiving disability retirement pay who require hospitalization for chronic diseases and who have no eligibility to hospitalization under laws governing the Veterans' Administration or who have eligibility do not elect hospitalization as Veterans' Administration beneficiaries (Pub. Law 351, 81st Cong., and Executive Order 10122 as amended by Executive Order 10400).

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III; LOAN GUARANTY

LOAN GUARANTY COMMITTEES

1. In § 36.4381, paragraphs (a) and (b) are amended to read as follows:

§ 36.4381 *Jurisdiction of regional office loan guaranty committee.* (a) The regional office committee will have original jurisdiction to adjudicate all cases in its area involving an indebtedness by a veteran to the United States of $2,500 or less, resulting from payment of the gratuity, or the guaranty or insurance of a loan under Title III of the Servicemen's Readjustment Act of 1944, as amended (sec. 694, et seq., 38 U. S. C.).

(b) The regional office committee will determine whether the indebtedness of the veteran borrower or any part thereof, shall be waived and if not waived (1) whether a compromise settlement shall be accepted (except as to litigated cases), or (2) whether the indebtedness on the loan shall or shall not be collected from compensation or pension; and whether a compromise settlement shall be accepted from any other obligor.

• • • • •

2. In § 36.4382, paragraph (b) is amended to read as follows:

§ 36.4382 *Jurisdiction of central office loan guaranty committee on waivers and compromises.* • • •

(b) The central office committee will determine whether the indebtedness of the veteran borrower or any portion thereof, shall be waived and if not waived (1) whether a compromise settlement shall be accepted (except in litigated cases), or (2) whether the indebtedness on the loan shall or shall not be collected from compensation or pension; and whether a compromise settlement shall be accepted from any other obligor.

• • • • •

3. In § 36.4384, paragraphs (a) and (d) (2) are amended and new paragraphs (e) and (f) are added as follows:

§ 36.4384 *Principles to be followed by loan guaranty committee for waivers and compromises.* (a) In determining whether an indebtedness or any part thereof shall be waived, the general equitable principles of section 28, World War Veterans Act, as amended (38 U. S. C. 453), as explained in Veterans' Administration claims procedures will be applied. The indebtedness may be waived in whole or in part: (1) When the veteran was not at fault in the creation of indebtedness which is being considered by the committee, and (2) where recovery of the whole or the part concerned (i) would defeat the purposes of the benefits otherwise authorized under the laws administered by the Veterans' Administration, or (ii) would be against equity and good conscience.

• • • • •

(d) • • •

(2) Money paid under mistake cannot be recovered where the payee is entitled in equity and good conscience to retain it.

• • • • •

(e) Proposed compromises do not involve the equitable considerations of paragraphs (a) through (d) of this section. An offer of a veteran or other obligor to effect a compromise of an indebtedness shall be reviewed by a committee within its respective authority and such offer may be accepted if deemed advantageous to the Government.

(f) The general waiver or compromise (whether by a release, covenant not to sue, or otherwise) of a veteran's indebtedness shall inure to the spouse of such veteran insofar as concerns said indebtedness, unles the obligation of the spouse is specifically excepted.

(Sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 694d)

This regulation is effective October 30, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 869]

FLORIDA

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE NAVY IN CONNECTION WITH A GUNNERY RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Florida are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Navy in connection with a gunnery range:

TALLAHASSEE MERIDIAN

T. 3 S., R. 32 W.,
Sec. 33, lots 5 to 20, inclusive.

The areas described aggregate 39.91 acres.

It is intended that the lands described shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

JOEL D. WOLFSOHN,
Assistant Secretary of the Interior.

OCTOBER 24, 1952.

[F. R. Doc. 52-11621; Filed, Oct. 29, 1952; 8:46 a. m.]

[Public Land Order 870]

ALASKA

REVOKING EXECUTIVE ORDER NO. 2981 OF OCTOBER 25, 1918

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F. R. 4831), it is ordered as follows:

Executive Order No. 2981 of October 25, 1918, reserving the following-described lands in Alaska for the use of the War Department as a Signal Corps cable line, is hereby revoked:

A tract 150 feet wide on either side of the following-described line for the first 400 feet from the point of beginning, and 25 feet on either side thereof for the remainder of the distance: Beginning at a point on Frederick Sound, Mitkof Island, whence the Red Light Blinker, in Lat. 56°49' N. and Long. 132°56' W., bears northwest 2,700 feet; extending thence S. 65°21' W., 6,500 feet to the intersection of Seventh and "E" Streets, Petersburg Townsite; thence west, following the Middle of "E" Street, 1,825 feet to the intersection of Main and "E" Streets on the shore of Wrangell Narrows.

Portions of the lands released from withdrawal comprise a street in the Town Site of Petersburg, Alaska, or extend across an unsubdivided part of Petersburg Town Site, in U. S. Survey No. 1168. Such lands are not subject to application.

Another portion, comprising a strip of land varying in width from 50 feet for the greater portion of its length to 300 feet for a distance of 400 feet of its length, extends across sec. 26, T. 58 S., R. 79 E., Copper River Meridian. This order shall not otherwise become effective to change the status of such lands until 10 a. m. on the 91st day after the date of this order. At that time the said lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager of the Land Office at Anchorage, Alaska.

JOEL D. WOLFSOHN,
Assistant Secretary of the Interior.

OCTOBER 24, 1952.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Rev. S. O. 872, Amdt. 4]

PART 95—CAR SERVICE

MOVEMENT OF GRAIN TO TERMINAL ELEVATORS BY PERMIT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of October A. D. 1952.

Upon further consideration of the provisions of Revised Service Order No. 872 (16 F. R. 8185, 10560; 17 F. R. 896, 4950), and good cause appearing therefor: It is ordered, that:

Section 95.872 *Movement of grain to terminal elevators by permit*, of Revised Service Order No. 872, be, and it is hereby, amended by substituting the following paragraph (e) hereof for paragraph (e) thereof:

(e) *Expiration date.* This section shall expire at 11:59 p. m., March 31, 1953, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 11:59 p. m., October 31, 1952; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[S. O. 887, Amdt. 1]

PART 95—CAR SERVICE

SUBSTITUTION OF REFRIGERATOR CARS FOR BOX CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of October A. D. 1952.

Upon further consideration of Service Order No. 887 (17 F. R. 5954), and good cause appearing therefor: It is ordered, that:

Section 95.887 *Substitution of refrigerator cars for box cars*, of Service Order No. 887, be, and it is hereby amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* This section shall expire at 11:59 p. m., March 31, 1953, unless otherwise modified, changed, suspended or annulled by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p. m., October 31, 1952.

It is further ordered, that a copy of this amendment and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-11643; Filed, Oct. 29, 1952; 8:50 a. m.]

[Rev. S. O. 888]

PART 95—CAR SERVICE

MINIMUM LOADING OF CARLOAD TRANSFER FREIGHT REQUIRED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of October A. D. 1952.

It appearing, that the Defense Transport Administration has made representations to the Interstate Commerce Commission that the railroads are engaged in the practice of lightly loading transfer part-shipments in box cars at origin and transfer points; that such practice is wasteful and aggravates the car shortage, depleting and diminishing the use, control, supply, distribution and interchange of such cars which are urgently needed for the movement of certain essential defense materials. The Commission is of the opinion an emergency requiring immediate action exists in all sections of the country where this practice is permitted. It is ordered, that:

§ 95.888 *Minimum loading of carload transfer freight required.* (a) (1) No common carrier by railroad subject to the Interstate Commerce Act shall permit carload shipments in box cars to be stopped-off in transit to partially load under tariff provisions where the carrier may for operating convenience, or upon request of the shipper, place a separate car at the stop-off point, or points, to be loaded with the freight that would otherwise be loaded thereinto the car, or cars, containing the shipment ordered to be stopped, and such car, or cars, shall not be treated as though they had been partially loaded at the stop-off point, or points, unless the amount of such freight at point of origin, or the stop-off point, or points, equals or exceeds 15,000 pounds for each car.

(2) No common carrier by railroad, subject to the Interstate Commerce Act, shall permit carload shipments in box cars to be stopped-off in transit to partially unload under the tariff provisions where the carrier will, at its convenience, or upon specific request of a shipper, transfer that portion of the shipment consigned to either the stop-off point, or points, or to the final destination, and forward shipment to stop-off point, or points, or the final destination in another box car unless the amount of such freight destined to the stop-off point, or points, equals or exceeds 15,000 pounds for each car. In the event that such car, or cars, is loaded with less than the minimum herein provided that shipment shall not be transported.

(b) *Application.* The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This section shall become effective at 7:00 a. m., November 1, 1952.

(d) *Expiration date.* This section shall expire at 6:59 a. m., April 1, 1953, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Exceptions.* Any exceptions to the provisions of this section shall be covered by special permits issued by Mr. Charles W. Taylor, Director, Bureau of Service, Washington 25, D. C., for the use of certain types of box cars.

(f) *Rules and regulations suspended.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(g) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that this order vacated and supersedes Service Order No. 888 and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

[F. R. Doc. 52-11644; Filed, Oct. 29, 1952; 8:50 a. m.]

[Rev. S. O. 891]

PART 95—CAR SERVICE

SUBSTITUTION OF STOCK CARS FOR BOX CARS TO TRANSPORT FRUIT AND VEGETABLE CONTAINERS, BOX SHOOKS AND COTTON

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of October A. D. 1952.

It appearing, that fruit and vegetable containers, box shooks, other packing material and uncompressed cotton are now moving in box cars from origins in the States of Washington, Oregon and California, to destinations in the States of Washington, Oregon, California, Nevada and Arizona; that the substitution of stock cars for such box cars will release the box cars for other and more essential transportation; in the opinion of the Commission an emergency exists requiring immediate action to prevent a shortage of equipment. It is ordered, that:

§ 95.891 *Substitution of stock cars for box cars to transport fruit and vegetable containers, box shooks and cotton.* (a) Any common carrier by railroad subject to the Interstate Commerce Act transporting fruit and vegetable containers, box shooks or other packaging or packing materials and uncompressed cotton, in carloads, from origins located in the States of Washington, Oregon, and California, to destinations in the States of Washington, Oregon, California, Nevada and Arizona may, at their option, furnish and transport not more than two stock cars (Southern Pacific Series 70300–77775) in lieu of each box car ordered, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car.

(b) *Application.* The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This section shall become effective at 12:01 a. m., November 1, 1952.

(d) *Expiration date.* This section shall expire at 11:59 p. m., January 31, 1953, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Rules and regulations suspended.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(f) *Announcement of suspension.* Each of such railroads, or its agents, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that this order shall vacate and supersede Service Order No. 891 and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

[F. R. Doc. 52-11645; Filed, Oct. 29, 1952; 8:50 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[14 CFR Part 565]

INTERPRETATIONS OF SURPLUS AIRPORT PROPERTY INSTRUMENTS OF DISPOSAL EXECUTED PURSUANT TO SURPLUS PROPERTY ACT OF 1944

NOTICE OF PROPOSED RULE-MAKING

Notice is hereby given that I propose to adopt, as part of a new Part 565 of the regulations of the Administrator of Civil Aeronautics, a regulation interpreting certain language contained in many deeds and other instruments by which the United States has disposed of surplus airport property pursuant to the Surplus Property Act of 1944. Such proposed regulation is as hereinafter set forth.

Interested persons may participate in this proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Administrator of Civil Aeronautics, attention Office of Airports (W–135), Washington 25, D. C. In order to ensure their consideration by the Administrator before any further action is taken on the proposed interpretation, communications must be received by December 1, 1952. Copies of such communications will be available after December 1, 1952, for examination by interested persons in Room 1310, T–5 Building, Washington, D. C.

On July 30, 1947, the Surplus Property Act of 1944 (58 Stat. 765, as amended, was further amended by the enactment of Public Law 289, 80th Congress (61 Stat. 678). That act added to the Surplus Property Act of 1944 a new section 13 (g) authorizing agencies of the Government, under certain conditions, "to convey or dispose of to any State, political subdivision, municipality, or tax-supported institution, without monetary consideration to the United States" but subject to certain prescribed "terms, conditions, reservations, and restrictions," all of the right, title, and interest of the United States in and to any surplus real or personal property (with the exception of certain industrial property) "which, in the determination of the Administrator of Civil Aeronautics, is essential, suitable, or desirable for the development, improvement, operation, or maintenance of a public airport as defined in the Federal Airport Act (60 Stat. 170) or reasonably necessary to fulfill the immediate and foreseeable future requirements of the grantee for the development, improvement, operation, or maintenance of a public airport, including property needed to develop sources of revenue from non-aviation businesses at a public airport."

It is one of the "terms, conditions, reservations, and restrictions" prescribed by Public Law 289 which now gives rise to the interpretation here proposed. That term, condition, reservation, and restriction is set forth in section 2 of that act as paragraph (F), reading as follows:

"(F) The United States shall at all times have the right to make non-exclusive use of the landing area of the airport at which the surplus property is located or used, without charge: *Provided, however,* That such use may be limited as may be determined at any time by the Administrator of Civil Aeronautics to be necessary to prevent undue interference with use by other authorized aircraft: *Provided, further,* That the United States shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

Since the enactment of Public Law 289, a great many deeds, leasehold surrender agreements, and other instruments of disposal have been executed by the Government pursuant thereto. Such instruments, in many if not all cases, contain provisions whereby the grantees agree to, and covenant to abide by, certain "reservations and restrictions" which usually correspond and conform in substance to the "terms, conditions, reservations, and restrictions" prescribed by Public Law 289. One such reservation and restriction, corresponding to paragraph (F) of the statute, as quoted above, normally is stated in the following language:

That the United States of America (hereinafter sometimes referred to as the "Government") through any of its employees or agents shall at all times have the right to

make nonexclusive use of the landing area of the airport at which any of the property transferred by this instrument is located or used, without charge: *Provided, however,* That such use may be limited as may be determined at any time by the Civil Aeronautics Administrator or his successor to be necessary to prevent undue interference with use by other authorized aircraft: *Provided, further,* That the Government shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made of it.

The Civil Aeronautics Administration has knowledge that many owners of public airports which are subject to surplus airport property instruments of disposal containing such language are in doubt as to the nature and extent of their obligation thereunder to make the landing areas of their airports available for non-exclusive use by the military services of the Government without charge and would like to have an authoritative and reliable interpretation of the language in question, clarifying their obligation in that regard. As an example, the Administrator has received a letter from the Secretary of the Southeastern Airport Managers' Association notifying him that the Association has adopted a resolution requesting him "to set up a policy and the necessary machinery so as to determine when military air traffic at civilian airports becomes 'substantial use'" within the meaning of the term as used "in the majority of quitclaim deeds under which many municipalities have obtained surplus airports."

It is the Administrator's opinion that some clarification of the term "substantial" as used in instruments of disposal under Public Law 289 is necessary in order to permit the owners of public airports subject to such instruments to make proper plans and arrangements for the use and operation of their airports, and that such a clarification is therefore necessary to protect and advance the interests of the United States in civil aviation. It is also the Administrator's opinion that clarification of the term "substantial" would be helpful to the military agencies of the Government in that it would serve to define the military use rights of the Government insofar as it defined the corresponding obligations of airport owners.

This matter is of concern to, and within the province of, the Civil Aeronautics Administration largely by virtue of the following provisions of Public Law 311, 81st Congress (63 Stat. 700):

SEC. 3. The Administrator of Civil Aeronautics shall have the sole responsibility for determining and enforcing compliance with the terms, conditions, reservations, and restrictions contained in any instrument of disposal by which surplus property is or has been transferred to States and their political subdivisions, municipalities, and tax-supported institutions pursuant to the Surplus Property Act of 1944, for use in the development, improvement, operation, or maintenance of a public airport or to provide sources of revenue from non-aviation businesses at a public airport (including property transferred for any such use pursuant to such act prior to July 30, 1947), and the Administrator is authorized to reform, correct, or amend any instrument of disposal by which such property was conveyed by the issuance of a corrective, reformative, or amendatory instrument where such action is determined by him to be necessary to correct such instrument or to conform the transfer to the requirements of applicable law.

SEC. 4. Notwithstanding any other provision of law, the Administrator of Civil Aeronautics is further authorized, without monetary consideration to the United States, to grant releases from any of the terms, conditions, reservations, and restrictions contained in, and to convey, quitclaim, or release any right or interest reserved to the United States by, any such instrument of disposal, if he determines that the property transferred by such instrument no longer serves the purpose for which it was transferred, or that such release, conveyance, or quitclaim will not prevent accomplishment of the purpose for which the property was transferred and is necessary to protect or advance the interests of the United States in civil aviation: *Provided,* That any such release, conveyance, or quitclaim may be granted on, or made subject to, such terms and conditions as the Administrator of Civil Aeronautics deems necessary to protect or advance the interests of the United States in civil aviation: *And provided further,* That no release, conveyance, or quitclaim shall be executed by the Administrator pursuant to this section except upon the condition that, in the event that the property to which such release, conveyance, or quitclaim relates shall be sold to any third party within five years after the date of enactment of this act, the proceeds of such sale shall be devoted exclusively to the development, improvement, operation, or maintenance of a public airport.

On the basis of these statutory provisions, it appears that the Administrator of Civil Aeronautics is the only official of the Government having authority to determine the nature and extent of the obligations of grantees of surplus airport property under Public Law 289, and that it is his duty to make such determinations whenever requested to do so by any person or agency having an interest in the matter. In addition, it appears that the statutory provisions quoted grant to the Administrator of Civil Aeronautics authority to make such determinations by issuing interpretations of the provisions of instruments of disposal executed pursuant to Public Law 289, which will be binding on the United States and all agencies of the Government.

Accordingly, the Civil Aeronautics Administration has made a thorough and careful study in an effort to determine the intent of the Government in using the term "substantial" in those provisions of Public Law 289 instruments of disposal corresponding to the above-quoted paragraph (F) of that act. Such study has included a review of the legislative history of the act and of all available correspondence and other materials in the files of the Civil Aeronautics Administration, relative to the act and the regulations and policies of the War Assets Administration under which the instruments in question were executed. In addition, the Civil Aeronautics Administration has drawn on the recollections of its personnel who participated in the drafting of the bill which was enacted as Public Law 289 and in the drafting of the applicable regulations of the War Assets Administration and has considered the views of its airport engineers and experts on airport operation as to the nature and extent of military aircraft operations at civil airports and the effect of such operations on the airports so used.

On the basis of such studies and in view of the foregoing considerations, the Administrator of Civil Aeronautics now proposes to adopt the following new Part 565—Surplus Airport Property:

§ 565.1 *Interpretations of instruments of disposal.* Notice is hereby given that the Administrator, if and when called upon to do so, will interpret deeds, leasehold surrender agreements, and other instruments of disposal by which surplus airport property of the Government has been transferred or otherwise disposed of pursuant to the Surplus Property Act of 1944, as provided in this section. Upon request in such cases the Administrator will cause to be executed such corrective, reformative, or amendatory instrument, or instrument of release, as he may deem appropriate to give effect to the interpretation.

(a) *Instruments executed pursuant to Public Law 289.* In interpreting instruments of disposal executed pursuant to section 13 (g) of the Surplus Property Act of 1944, as added by Public Law 289, 80th Congress, the Administrator will construe the several provisions of such instruments as provided in subparagraph (1) of this paragraph.

(1) *Provisions corresponding to paragraph (F) of Public Law 289.* All provisions of instruments of disposal executed pursuant to Public Law 289, containing generally the following language of paragraph (F) of that act:

(F) The United States shall at all times have the right to make nonexclusive use of the landing area of the airport at which the surplus property is located or used, without charge: *Provided, however,* That such use may be limited as may be determined at any time by the Administrator of Civil Aeronautics to be necessary to prevent undue interference with use by other authorized aircraft: *Provided, further,* That the United States shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

will be construed as follows:

(i) The right of use granted or reserved by the paragraph is confined to use of the landing area by Government aircraft weighing, at the time of such use, not more than the maximum weight which the runways and other facilities used were designed to withstand, and does not include any use by heavier Government aircraft.

(ii) The proviso obligating the Government to pay a share of the airport owner's operating and maintenance costs where Government use of the landing area of the airport is "substantial", is to be applied on a calendar month basis, considering among other things the nature and extent of Government aircraft operations during the calendar month. For purposes of such proviso, use of the landing area for such operations is to be considered "substantial" if (a) a military

agency of the Government (including a National Guard Squadron when in a "Federalized" status) maintained on the airport or on property adjacent thereto, throughout the calendar month in question, a squadron or larger military body (including a National Guard Squadron when in a "Federalized" status) equipped with military aircraft; or (b) the total number of movements (counting each landing and each take-off as a movement) of Government aircraft, including itinerant as well as based aircraft, on the landing area during the calendar month in question, was 300 or more, or, if less than 300, amounted to as much as 10 percent of the total aircraft movements, Government and non-Government, on the landing area during the month. In addition, it may be that there will be cases in which the Government use will be considered "substantial" within the meaning of the proviso even though such use does not meet either of the above-stated conditions. No test or yardstick can be given which would apply in all such cases due to the varying nature of the facts and circumsances to be considered. Consequently, in any case in which the Administrator is requested to determine whether the Government's use of the landing area of an airport is "substantial" within the meaning of the deed proviso, and such use does not meet either of the above-stated conditions, it will be necessary that the Administrator's determination be based upon a study of the several facts and circumstances of that particular case.

(58 Stat. 765 as amended by 61 Stat. 678, 63 Stat. 700; 50 U. S. C. App. 1622, 1622b, 1622c)

Dated October 22, 1952, at Washington, D. C.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

NOTICES

DEPARTMENT OF DEFENSE

Munitions Board

AIRCRAFT PRODUCTION RESOURCES AGENCY

DELEGATION OF AUTHORITY TO RESCHEDULE DELIVERY OF MATERIALS AND TO SCHEDULE OR RESCHEDULE PRODUCTION AND DELIVERY OF APRA CLASS B PRODUCTS

Pursuant to delegation of authority from the Secretary of Defense, in accordance with Defense Production Act and NPA Delegation 1 Supplement 1, as amended October 23, 1952, there is hereby delegated to the Director, Aircraft Production Resources Agency, authority:

(1) To reschedule deliveries of materials which are required in support of the Department of Defense Aircraft Program (A1): *Provided, however,* (a) That such authority shall be applicable only to reschedule deliveries on orders rated DO-A1 or on Authorized Controlled Material Orders bearing the program identification A1 issued by or under the authority of the Secretary of Defense; and (b) that such rescheduling of deliveries requires no change in production schedules of the person making the deliveries;

(2) To schedule or reschedule the production and delivery of any APRA Class B products shown under Product Class Code No. 9500 in the NPA Official CMP Class B Product List: *Provided, however,* (a) That the consent of the manufacturer or producer of any such Class B product proposed to be scheduled or rescheduled is first obtained; (b) that in providing for such scheduling or rescheduling the manufacturer or producer is not required or authorized to displace the production of, or delay the delivery of, any product other than an APRA Class B product; (c) that the Aircraft Production Resources Agency shall require the manufacturer or producer whose production or delivery has been so rescheduled to notify immediately in writing all customers whose deliveries have been changed as a result of such rescheduling; and (d) that this authority does not extend to the rescheduling of the production or delivery of materials or products furnished by suppliers to manufacturers of APRA Class B products;

(3) To require a copy of an order board or in lieu thereof, the necessary scheduling data, covering APRA Class B products only, from a manufacturer of any such products which are in critically short supply and the lack of which products is seriously interfering with the accomplishment of other aircraft component or aircraft end-item schedules.

The exercise of this authority shall conform to the terms of the regulations and orders of the National Production Authority and to such priorities and allocations policy directives and procedures as may be issued by the Munitions Board to implement policies and procedures issued by the National Production Authority.

This delegation shall take effect October 23, 1952, and supersedes and cancels delegation of authority of November 15, 1951, to the Director, Aircraft Production Resources Agency (17 F. R. 214, January 8, 1952).

J. C. HOUSTON, Jr.,
Acting Chairman, Munitions Board.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED TRANSFER OF JURISDICTION

OCTOBER 21, 1952.

Notice is hereby given that the Office of Territories, Department of the Interior, has filed amended application, Anchorage 021424, for transfer of jurisdiction of interest to the Office of Territories, under section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), in the following described lands for a public works project (Anchorage Warehouse Area. 50-A-60), which has been approved under section 4 of said act:

All that portion of Block 40, as shown upon the plat of Anchorage Town Site with Second, East, Third, and Fourth Additions approved December 19, 1917, lying south of Ship Creek, and that portion of Block 33, according to the plat of Anchorage Town Site with Second, East, Third and Fourth Additions approved December 19, 1917, described as follows: Beginning at the northeast corner of Block 33, thence approximately 360 feet south, thence approximately 300 feet west, thence approximately 360 feet north, thence approximately 300 feet east to the point of beginning.

The purpose of this notice is to give persons having bona fide objection to the transfer, the opportunity to file with the Manager of the Land Office, Anchorage, Alaska, a protest within 30 days from the date of the notice, together with evidence that a copy of the protest has been served on the District Director, Office of the Territories, Juneau, Alaska.

LOWELL M. PUCKETT,
Regional Administrator.

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 65

OCTOBER 23, 1952.

1. Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, the following described public lands in the Anchorage, Alaska Land District, for lease and sale:

NINILCHIK AREA—NINILCHIK UNIT NO. 1

FOR HOME SITES

Seward Meridian

T. 1 S., R. 14 W.:
NE¼NW¼NE¼SW¼, SE¼SW¼NE¼SW¼, S½SE¼SW¼, S½N½SE¼SW¼, NE¼NW¼SE¼SW¼.

Containing 23 tracts aggregating 37.5 acres.

FOR HOME OR BUSINESS SITES

Seward Meridian

T. 1 S., R. 14 W.:
Sec. 34: S½NW¼NE¼SW¼, N½SW¼NE¼SW¼, SW¼SW¼NE¼SW¼, NW¼NW¼SE¼SW¼.

Containing 10 tracts aggregating 15 acres.

2. The lands are located near the town of Ninilchik, Alaska, on the west side of the Kenai Peninsula. Lying on benchlands south of the Ninilchik River, the lands are for the most part well-drained and support a vegetative cover of white spruce and scattered stands of birch and aspen. Automobile access to a portion of the lands is obtainable via all-weather Sterling Highway, which traverses the north portion of the area. Ninilchik business establishments and Ninilchik Territorial School are within walking distance of the lands. Adequate water for domestic uses may be obtained from wells and sewage disposal may be made by the use of cesspools or septic tanks. No public utilities are available in the unit at the present time; however, such services as religious, educational, commercial, and transportation are obtainable at Ninilchik. The climate is a favorable combination of the maritime climate of coastal Alaska and the temperate climate of south central Alaska.

3. This classification order shall not become effective to change the status of the land or to permit the leasing thereof under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on November 13, 1952. At that time the land shall, subject to valid existing rights, become subject to application as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on November 13, 1952, to close of business on February 11, 1953, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279, 282), as amended, and by other qualified persons entitled to credit for service under the said act, subject to the requirements of applicable law, and (2) applications under any applicable public land laws, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed on October 23, 1952, or thereafter, up to and including 10:00 a. m. on November 13, 1952, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on February 12, 1953, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under Small Tract Act by the general public filed on January 22, 1953, or thereafter, up to and including 10:00 a. m. on February 12, 1953, shall be treated as simultaneously filed.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial, and appropriate for the use for which the lease is issued. Leases will be for a period of not more than three years, at an annual rental of $5 for homesites, payable in advance for the entire lease period. The rental for business sites will be in accordance with a schedule of graduated charges based on gross income, with a minimum charge of $20 payable yearly in advance, the remainder, if any, to be paid within 30 days after each yearly anniversary of the lease. Every lease will contain an option to purchase clause and every lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts varying in size from approximately 1.25 acres to approximately 2.5 acres, in accordance with the classification map on file in the Land Office, Anchorage, Alaska. The tracts, where possible, are made to conform in description with the rectangular system of survey, in compact units.

8. Lessees must locate any well water supply system or sewage disposal facility according to regulations and laws of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, of 50 feet in width, on each side of the tracts contiguous to the section and/or quarter section lines, and 33 feet in width along other tract boundaries, or as shown on the classification maps on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

10. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

FRED J. WEILER,
Chief, Division of Land Planning.

[F. R. Doc. 52-11622; Filed, Oct. 29, 1952; 8:46 a. m.]

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 66

OCTOBER 23, 1952.

1. Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior on August 20, 1951, (16 F. R. 8625), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, the following described public lands in the Anchorage, Alaska, Land District:

KENAI PENINSULA AREA—ANCHOR RIVER UNIT NO. 3

FOR LEASE AND SALE, FOR CABIN SITES

Seward Meridian

T. 5 S., R. 14 W.
Sec. 29: SE¼SW¼, N½SW¼SW¼, W½SW¼SW¼SW¼, NE¼SW¼SW¼SW¼, NW¼SE¼SW¼SW¼, E½SE¼SW¼SW¼.
Sec. 30: NE¼NW¼.
Sec. 32: NE¼NW¼, S½NW¼NW¼, NW¼NW¼NW¼, N½NE¼NW¼NW¼.
T. 5 S., R. 15 W.
Sec. 10: SE¼NW¼, SE¼SW¼.
Sec. 14: N½N½SE¼SW¼NW¼, S½S½NE¼SW¼NW¼, SE¼SW¼, N½SW¼SE¼, N½SE¼SW¼SE¼.
Sec. 23: NE¼NW¼, S½NW¼NE¼, W½NE¼NW¼NE¼, E½NE¼NW¼NE¼, SW¼NE¼NW¼NE¼, SE¼NW¼NW¼NE¼.
Sec. 24: NE¼SE¼, S½SE¼NE¼, NE¼SE¼NE¼.

The above described areas comprise 97 tracts, aggregating approximately 485 acres.

2. The lands are located in the southwestern portion of the Kenai Peninsula, nine to sixteen miles north of Homer, Alaska. Lying on small knolls and similar minor uplands, the lands are for the most part well drained and support a vegetative cover of white spruce and scattered stands of birch and aspen interspersed with open areas of muskeg. Automobile access to most of the tracts is obtainable via all-weather Sterling Highway, which traverses the general area. Adequate water for domestic uses may be obtained from wells and sewage disposal may be made by the use of cesspools or septic tanks. No public facilities are available in the area at the present time; however, such services as religious, educational, commercial, and transportation are obtainable at Homer. The climate is a favorable combination of the maritime climate of coastal Alaska and the temperate climate of south central Alaska.

3. Pursuant to § 257.6 of the Code of Federal Regulations (43 CFR Part 257), a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed under the regulations issued pursuant to the act prior to this classification, and (b) are of the type of site for which the land subject thereunder have been classified. As to such applications, this order shall become effective upon the date which it is signed.

4. As to the lands not covered by the applications referred to in paragraph 3, this order shall not become effective to permit the leasing of such land under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on November 13, 1952. At that time, such land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on November 13, 1952, to close of business on February 11, 1953, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279, 282), as amended, and by other qualified persons entitled to credit for service under the said act, subject to the requirements of applicable law, and (2) applications under any applicable public land laws, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed on October 23, 1952, or thereafter, up to and including 10:00 a. m. on November 13, 1952, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on February 12, 1953, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on January 22, 1953, or thereafter, up to and including 10:00 a. m. on February 12, 1953, shall be treated as simultaneously filed.

5. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claim, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

7. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial, and appropriate for the use for which the lease is issued. Leases will be for a period of not more than three years, at an annual rental of $5, payable in advance for the entire lease period. Every lease will contain an option to purchase clause and every lessee may file an application to purchase at the sale price as provided in the lease.

8. All of the land will be leased in tracts of 5 acres, in accordance with the classification map on file in the Land Office, Anchorage, Alaska. The tracts are made to conform in description with the rectangular system of survey, in compact units.

9. Lessees must locate any well, water supply system or sewage disposal facility according to regulations and laws of the Territory of Alaska.

10. The leases will be made subject to rights-of-way for road purposes and public utilities, of 50 feet in width, on each side of the tracts contiguous to the section and/or quarter section lines, and 33 feet in width along other tract boundaries, or as shown on the classification maps on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

FRED J. WEILER,
Chief, Division of Land Planning.

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In exchanges made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976), 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States.

MONTANA PRINCIPAL MERIDIAN

T. 5 N., R. 2 W.
Sec. 21: All.
Sec. 32: NE¼NW¼ and NE¼SW¼.

The areas described aggregate 720 acres.

The lands are primarily suitable for grazing of livestock. The surface is rolling to rough and the vegetation consists of native grasses and sagebrush with patches of scrub timber.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral publicland laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to: Montana Land Office, Billings, Montana.

MAX CAPLAN,
Acting Regional Administrator.

[Misc. 55185]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In exchanges made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976), 43 U. S. C. sec. 315g, the following described lands have been reconveyed to the United States:

WYOMING PRINCIPAL MERIDIAN

T. 13 N., R. 105 W., 6th P. M. Wyoming,
Sec. 21, E½ (now lot 39).
T. 14 N., R. 105 W.,
Sec. 9, W½NW¼, NW¼SW¼ (now lot 49).
T. 19 N., R. 105 W.,
Sec. 36, E½SE¼.
T. 30 N., R. 113 W.,
Sec. 16, NW¼, W½NE¼, SE¼NE¼.
T. 32 N., R. 113 W.,
Sec. 36, all.
T. 20 N., R. 121 W.,
Sec. 36, lot 2.

The areas described aggregate 1470.05 acres.

The lands are primarily suitable for grazing purposes. The surface is rolling to rough and the vegetation consists of native grasses and sagebrush with patches of scrub timber.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Cheyenne Land and Survey Office in Cheyenne, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to: Cheyenne Land and Survey Office, 405 Federal Building, Box 578, Cheyenne, Wyoming.

MAX CAPLAN,
Acting Regional Administrator.

Bureau of Reclamation

[Commissioner's Order 17]

CHIEF COUNSEL AND REGIONAL COUNSEL

REDELEGATION OF AUTHORITY WITH RESPECT TO CONDEMNATION PROCEEDINGS AND TITLE OPINIONS

OCTOBER 22, 1952.

SECTION 1. *Redelegation.* The Chief Counsel and Regional Counsel of the Bureau of Reclamation are severally authorized:

(1) To approve and sign, after review by appropriate land acquisition officials, correspondence concerning pleadings, awards, or judgments in condemnation proceedings, and any other routine, incidental, or related correspondence regarding the conduct of such proceedings, except that requests for condemnation proceedings and declarations of taking shall be submitted to the Solicitor for consideration and approval.

(2) To request the Attorney General to render opinions concerning the validity of title pursuant to section 355, Revised Statutes (40 U. S. C., 1946 ed., sec. 255).

SEC. 2. *Authority.* This order is issued pursuant to Departmental Order No. 2509, Amendment No. 16 (17 F. R. 6793), as amended by Amendment No. 17 (17 F. R. 8634).

MICHAEL W. STRAUS,
Commissioner of Reclamation.

[F. R. Doc. 52-11627; Filed, Oct. 29, 1952; 8:50 a. m.]

WEBER BASIN PROJECT, UTAH

FIRST FORM RECLAMATION WITHDRAWAL

AUGUST 22, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

SALT LAKE BASE AND MERIDIAN, UTAH

T. 2 N., R. 1 E.,
Sec. 8, E½E¼.
T. 5 N., R. 1 E.,
Sec. 28, N½S½ and SW¼SW¼;
Sec. 30, S½ (Subject to existing R's of W.);
Sec. 34, NW¼NW¼.
T. 6 N., R. 2 E.,
Sec. 12, lots 1, 3 and 4, NW¼NE¼, NW¼, SE¼SW¼ and SW¼SE¼.
T. 2 N., R. 3 E.,
Sec. 14, W½NW¼ and NW¼SW¼.
T. 6 N., R. 3 E.,
Sec. 6, lots 2 to 7 incl., 11 and 12.
T. 8 N., R. 2 W.,
Sec. 21, tracts 57A and 71A;
Sec. 22, lots 5, 6, 7, 9 and 10, tracts 52A, 57B and 71B;
Sec. 27, lots 5 to 10 incl., tracts 79A, 83A, 91A and 93A;
Sec. 29, tracts 79B, 88B, 91B, and 93B.

The above areas aggregate 1,743.52 acres.

G. W. LINEWEAVER,
Acting Commissioner.

I concur. The records of the Bureau of Land Management will be noted accordingly.

WILLIAM ZIMMERMAN, JR.,
Associate Director,
Bureau of Land Management.

DEPARTMENT OF COMMERCE

Federal Maritime Board

CITY OF JACKSONVILLE, FLA., ET AL.

NOTICE OF AGREEMENTS FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

(1) Agreement No. 7835, between City of Jacksonville (Municipal Docks & Terminals), Strachan Shipping Company, Commodores Point Terminal Corporation, Heide Warehouse Co., North Carolina State Ports Authority, City Compress & Warehouse Company, Shipyard River Terminals, Charleston Tidewater Terminals, Inc., the Brunswick Port Authority, South Carolina State Port Authority, Georgia Ports Authority and Wilmington Terminal Warehouse Company, provides for the creation of an association to be known as the "South Atlantic Marine Terminal Association" for the establishment of just and reasonable terminal rates, charges, classification, rules, regulations, and practices at terminals located in the United States South Atlantic range from Morehead City, North Carolina through Miami, Florida.

(2) Agreement No. 7872 between Th. Brovig, Mexican Line and Waterman Steamship Corp. covers the transportation of general cargo under through bills of lading from Mexico to Puerto Rico with transhipment at New Orleans.

(3) Agreement No. 7873 between Compagnie De Navigation Cyprien Fabre and Bull Insular Line, Inc., covers the transportation of cargo under through bills of lading in either direction between ports in Spain, France, Portugal, and North Africa and ports in Puerto Rico with transhipment at New York, Baltimore, or Philadelphia.

(4) Agreement No. 7874 between Th. Brovig, Mexican Line and Alcoa Steamship Co., Inc., covers the transportation of general cargo under through bills of lading from Mexico to Puerto Rico with transhipment at New Orleans.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: October 27, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

DEFENSE TRANSPORT ADMINISTRATION

[Organization Order DTA 3, as Amended October 23, 1952]

ORGANIZATION AND FUNCTIONS; SUBMITTALS AND REQUESTS

Correction

In F. R. Doc. 52-11641, appearing at page 9706 of the issue for Tuesday, October 28, 1952, the following change should be made:

In the first sentence of section 1, "the Production Act of 1950" should read "the Defense Production Act of 1950".

ECONOMIC STABILIZATION AGENCY

Construction Industry Stabilization Commission, Wage Stabilization Board

ALABAMA AND ARIZONA

AREA WAGE RATES

Area rates for the States of Alabama and Arizona approved by the Construction Industry Stabilization Commission under Construction Industry Stabilization Commission Regulation 1 (16 F. R. 7565), as amended, up to approximately August 31, 1952, are published under succeeding sections of this part. Area rates for the remainder of the States will be published in periodic installments. The compilation of rates published herein includes area rates for the continental United States only. Information as to area rates not yet published may be obtained on request from the Construction Industry Stabilization Commission, U. S. Department of Labor Building, Washington, D. C.

A section number from 1 through 49 has been assigned to each of the 48 States and to the District of Columbia, in alphabetical order under this part. Under each State and section number, the approved area rate is listed alphabetically according to the particular craft to which it is applicable. Under such headings there appear the area rates for particular job classifications together with a designation of either the city, county (or counties), or other geographical unit in the whole of which the particular rate is applicable. In the absence of a complete geographical description of the area covered, the territorial jurisdiction of the local craft union will also be indicated.

The applicable area in a decision which is designated as within the territorial jurisdiction of a local union, is only such area as was included within the territorial jurisdiction of the local union on January 25, 1951, unless a subsequent change in such territorial jurisdiction was specified in the wage application on the basis of which the Commission rendered its area rate decision. Any area subsequently added to the territorial jurisdiction of a local union may not put into effect the rates in effect for the local union (if higher than the rates in effect for the area added) unless prior approval by the CISC has been obtained. If any areas are combined to form the territorial jurisdiction of a new local, the area rate may not exceed the rate in effect for any of the different areas so combined, unless prior approval by the CISC has been obtained.

Area practices, as distinguished from straight wage rates, are not included herein. Information concerning approved changes in area practices may be obtained on request from the Construction Industry Stabilization Commission, U. S. Department of Labor Building, Washington, D. C.

DUNCAN CAMPBELL,
THOMAS J. KALIS,
Co-Chairmen, Construction Industry Stabilization Commission.

OCTOBER 15, 1952.

SECTION 1. *Area wage rates for Alabama.*

Asbestos Workers

Case C-3559: Halfway from Knoxville, Tenn., to Birmingham, Ala.; building construction only.

Journeyman asbestos worker mechanic	$2.6125
Improver, first year	1.625
Improver, second year	1.895
Improver, third year	2.175
Improver, fourth year	2.225

Case C-4202: Halfway from Memphis, Tenn., to Birmingham, Ala.; building construction only.

Asbestos worker mechanic	$2.6125

Case C-6655: Halfway from Atlanta, Ga., to Birmingham, Ala.; building construction only.

Asbestos worker mechanic	$2.625
Improver, first year	1.625
Improver, second year	1.875
Improver, third year	2.125
Improver, fourth year	2.375

Case C-8057: Halfway from Nashville, Tenn., to Birmingham, Ala.; building construction only.

Heat and frost insulator mechanic	$2.625
Improver, first year	1.425
Improver, second year	1.58
Improver, third year	1.80
Improver, fourth year	2.075

Case C-5485: Birmingham, and halfway to Mobile, Ala., Jackson, Miss., Memphis, Tenn., Nashville, Tenn., and Atlanta, Ga.; building construction only.

Journeyman asbestos mechanic	$2.625

Blacksmiths

Case C-3236: Entire State of Alabama; field construction only.

Journeyman blacksmith	$2.60
Blacksmith helper	2.35

Boilermakers

Case C-3236: Entire State of Alabama; field construction only.

Journeyman boilermaker	$2.60
Boilermaker helper	2.35

Bricklayers

Case C-4720: That part of Jackson County in the north eastern corner down to the northern city limits of the town of Stevenson; building and heavy construction only.

Journeyman bricklayer	$2.875
Concrete block layer	2.875
Cleaner, caulker and pointer	2.875

Case C-6862: Counties of Jefferson, Shelby and Chilton to the city of Clanton; Talladega county down to and including city of Sylacauga; Blount county to and including city of Oneonta; St. Clair County to 4 miles South of Pell City; building and heavy construction only.

Journeyman bricklayer	$3.00

Case C-5435: Counties of Etowah, De Kalb, Marshall and St. Clair; building construction only.

Journeyman bricklayer, cement block layer, pointer, cleaner and caulker	$2.90
Apprentice:	
First 6 months	1.10
Second 6 months	1.35
Third 6 months	1.60
Fourth 6 months	1.85
Fifth 6 months	2.20
Sixth 6 months	2.55

Case C-6659: Sheffield, and area within the territorial jurisdiction of Bricklayers, Masons and Plasterers International Union, Local 8; building construction only.

Journeyman bricklayer	$2.90
Saw operator	3.15

Carpenters

Case C-2891: Halfway from Pascagoula, Miss., to Mobile, Ala.; building construction only.

Journeyman carpenter	$1.925
Millwright	2.20
Pile driver	2.31
Cabinet maker	1.60

Case C-5209: Counties of Barbour, Chambers, Lee, and Russell; building, heavy and highway construction.

Journeyman carpenter	$2.05

Case C-5673: Counties of Escambia and Baldwin; building construction only.

Journeyman millwright	$2.40

Case C-6613: Counties of Calhoun, Cleburne, Randolph, and Clay, one-half of Talladega, including the city of Talladega (eastern half); southern part of St. Clair County northward to and including Eden; building construction only.

Journeyman carpenter	$2.125

The Commission also voted to approve maintenance of the differentials in existence on June 24, 1950, for other classifications of carpenters.

Case C-5690: Counties of Jefferson, Shelby, Chilton, Coosa and portions of Blount, Talladega, Bibb, St. Clair, Tallapoosa, Clay, Elmore, and Autauga; building, heavy and highway construction.

Journeyman carpenter	$2.24
Journeyman millwright and power saw operator	2.365

Case C-5560: County of Cullman; building, heavy and highway construction.

Journeyman carpenter	$1.90

Case C-1062: Decatur, and area within the territorial jurisdiction of the United Brotherhood of Carpenters and Joiners, Local 1274; building construction only.

Journeyman carpenter	$1.90
Millwright	2.00

Case C-6628: Gadsden, and area within the territorial jurisdiction of United Brotherhood of Carpenters and Joiners, Local 1371; building and heavy construction only.

Journeyman carpenter	$2.125
Apprentice:	
First year	1.30
Second year	1.40
Third year	1.75
Fourth year	2.00

The Commission also voted to approve maintenance of the previously established differentials for millwrights and pile drivers.

Case C-4302: Scottsboro, and area within the territorial jurisdiction of United Brotherhood of Carpenters and Joiners, Local 1711; building, heavy and highway construction.

Journeyman carpenter	$1.90

Case C-3783: Cities of Florence, Sheffield, Tuscumbia, Muscle Shoals, and Russellville; building and heavy construction only.

Journeyman carpenter	$2.275
Journeyman pile driver	2.325
Journeyman millwright	2.325

Cement Finishers and Masons

Case C-4550: Counties of Escambia and Baldwin; building construction only.

Journeyman cement mason	$2.00

Case C-6958: Counties of Jefferson, Blount, St. Clair, Shelby, Chilton, and Bibb; building and highway construction only.

Journeyman cement mason	$2.38

Case C-8624: Counties of Houston, Henry, Geneva, Dale, Coffee, Pike, Covington, and Barbour; building construction only.

Cement finisher	$2.25

Case C-5435: Counties of Etowah, De Kalb, Marshall, and St. Clair; building construction only.

Journeyman mason	$2.90
Apprentice:	
First 6 months	1.10
Second 6 months	1.35
Third 6 months	1.60
Fourth 6 months	1.85
Fifth 6 months	2.20
Sixth 6 months	2.55

Case C-6659: Sheffield, and area within the territorial jurisdiction of Bricklayers, Masons and Plasterers International Union, Local 8; building construction only.

Journeyman mason	$2.90

Electrical Workers

Case C-3568: Counties of Barbour, Chambers, Henry, Russell, and Lee; building and heavy construction only.

Journeyman cable splicer	$2.625
Journeyman wireman	2.375
Journeyman lineman	2.375
Apprentice and groundman:	*Percent*
First 6 months of first year	[1] 40
Second 6 months of first year	[1] 47
Second year	[1] 54
Third year	[1] 63
Fourth year	[1] 71

[1] Of journeyman's rate.

Case C-4405: Counties of Sumter, Pickens, and Lamar; building and heavy construction only.

Fence erector	2.50
Welder	2.50
Rodman	2.25
Apprentice iron worker	1.67
Tower erector	2.50
Tower erector foreman	2.75
Apprentice rodman	1.55

Case C–2940: Sheffield, and area within the territorial jurisdiction of International Association of Bridge, Structural and Ornamental Iron Workers, Local 477; from Sheffield, to points one-half way to Birmingham, Ala., to Nashville, Tenn., and to Chattanooga, Tenn., and to and including Columbus, Miss.; bridge, structural and ornamental iron work only.

Journeyman structural iron worker	$2.55
Journeyman ornamental iron worker	2.55
Reinforced rodman	2.55
Rigger	2.55
Fence erector	2.55
Welder	2.55
Tower erector	2.55
Structural iron worker foreman	2.80
Reinforced rod foreman	2.80
Sheeter	2.80
Bucker-up	2.675
Sheeter foreman	3.05

Laborers

Case C–5160: Counties of Sumter, Greene, Hale, Perry, Chilton, Coosa, Tallapoosa, Chambers, and all counties north of these; pipeline construction only.

Laborer	$1.10

Case C–5160: All other counties; pipeline construction only.

Laborer	$1.05

Case C–8090: Counties of Escambia and Baldwin; building, heavy and highway construction.

Common laborer, building laborer—creosote material and concrete work	$1.00
Jackhammer operator, mortar mixer and pipe laying	1.10

Case C–7013: Counties of Calhoun, Cleburne, Randolph, and part of Talladega, Southwest to and including the city of Talladega; building, heavy and highway construction.

Air tool operator	$1.325
Asphalt raker and tamper	1.325
Pipe layer, concrete and clay	1.325
Mortar mixer	1.225
Lime slacker	1.225
Carpenter tender	1.125
Laborer	1.125
Tunnel miner	1.925
Laborer foreman	1.625
Powderman	1.725
Night watchman	1.125

Case C–5275: Counties of Jefferson, Bibb, Chilton, Shelby, Coosa; the southern half of Talladega up to but not including the city of Talladega; in St. Clair County eastward to the Coosa River, 7 miles east of Pell City, up to and including Ashville; building, heavy and highway construction.

Air tool operator	$1.375
Vibrator operator, operator of mechanical equipment which replaces wheelbarrows or buggies	1.325
Mortar mixer	1.325
Pipe layer, concrete and clay	1.325
Hod carrier as applied to plasterer trade only	1.275
All other building labor	1.225
Unskilled labor rather than on buildings	1.225
Wagon drill operator helper	1.225
Concrete rubber	1.225
Asphalt raker	1.375
Wagon drill operator	1.625
Powder man	2.025
Laborer foreman	2.025
Caisson driller	1.475
Mucker	1.325
Tunnel work (free air)	
Head miner	2.225
Tunnel miner	2.025
Pneumatic concrete gun operator and nozzleman	1.925
Chuck tender	1.775
Tunnel laborer	1.625

Case C–3911: Counties of Etowah, Marshall, Cherokee, De Kalb, and Blount; building construction only.

Laborer and concrete foreman	$1.85
Carpenter tender	1.20
Lime slacker	1.45
Asphalt raker	1.30
Tunnel miner	1.95
Mortar mixing machine	1.825
Powder man	1.70
Wagon drill	1.55
Chuck tender	1.70
Laborer (unskilled)	1.10
Night watchman	1.10
Air tool operator, jackhammer, vibrator, tamper, smoother, pipe layer, concrete mixing, clay and mortar mixing	1.30
Flagman	1.50

Case C–3399: Counties of Walker, Winston, Marion, and Fayette; building, heavy and highway construction.

Laborer (unclassified)	$1.10
Form stripper	1.20
Mortar mixer	1.20
Air tool operator	1.20
Pipe layer	1.20
Hod carrier	1.20
Tender to carpenter and cement finisher	1.20
Asphalt raker	1.20
Asphalt smoother	1.20
Form setter	1.20
Form stripper (highway construction)	1.20
Wagon drill operator	1.60
Powder man	1.80
Foreman (minimum)	1.60

Case C–3839: Counties of Montgomery, Macon, and Elmore; building, heavy and highway construction.

Air tool operator (jackhammer man, vibrator)	$0.95
Asphalt raker	1.05
Laborer, building	.90
Laborer, concrete	.90
Laborer, unskilled	.90
Mortar mixer	.95
Pipe layer	.95
Powder man	1.60
Wagon drill operator	1.40

Case C–3751: Counties of Colbert, Lauderdale, Franklin, Lawrence and Morgan; building, heavy and highway construction.

Laborer unclassified	$1.25
Concrete laborer	1.35
Mortar mixer	1.50
Hod carrier	1.35
Carpenter tender	1.35
Form stripper	1.50
Tunnel miner (free air)	2.25
Chuck tender (free air)	2.00
Tunnel laborer (inside free air)	1.75
Pneumatic concrete nozzleman (free air)	2.02
Pneumatic air operator (free air)	2.375
Air tool operator	1.50
Jack hammer operator	1.50
Vibrator operator	1.50
Wagon drill operator	1.60
Flagman, cranes and derricks	1.60
Powder man	2.05
Powder man helper	1.40
Powder man foreman	2.05
Pipe layer	1.50
Asphalt tamper, smoother and raker	1.35
Labor foreman	2.05
General labor foreman	2.40
Sewer foreman	2.05
Concrete foreman	2.15
Night watchman	1.25
Paving breaker operator	1.50

Case C–3397: Counties of Tuscaloosa, Pickens, Greene, Hale, Marengo, and Lamar; building, heavy and highway construction.

Unskilled laborer	$0.95
Air tool operator	1.00

Vibrator operator	$1.00
Mechanical wheelbarrow	1.00
Mortar mixer	1.00
Pipe layer, concrete and clay	1.00
Asphalt raker	1.10
Wagon drill operator	1.35
Powder man	1.50

Lathers

Case C–4335: County of Baldwin; building and heavy construction only.

Journeyman lather	$1.925

Case C–5412. City of Nashville and area halfway to Birmingham, Ala.; building construction only.

Journeyman lather	$2.625

Marble Setters

Case C–4720: That part of Jackson County in the northeastern corner down to the northern city limits of the town of Stevenson; building and heavy construction only.

Marble mason	$2.875

Case C–7775: Counties of Jefferson, Shelby, and part of Chilton to include Clanton and Oneonta; building and heavy construction only.

Marble setter	$2.625

Mason and Plasterer Tenders

Case C–7013: Counties of Calhoun, Cleburne, Randolph, and part of Talladega, southwest to and including the city of Talladega; building, heavy and highway construction.

Plasterer tender	$1.125
Mason tender	1.125

Case C–5275: Counties of Jefferson, Bibb, Chilton, Shelby, Coosa; the southern half of Talladega up to but not including the city of Talladega; Saint Clair County eastward to the Coosa River, 7 miles east of Pell City, up to and including Ashville; building, heavy and highway construction.

Plasterer tender	$1.275
Mason tender	1.225

Case C–3911: Counties of Etowah, Marshall, Cherokee, De Kalb, and Blount; building construction only.

Mason tender	$1.20
Plasterer tender	1.20

Case C–3399: Counties of Walker, Winston, Marion, and Fayette; building, heavy and highway construction.

Tender to plasterer, cement finisher, and brick mason	$1.20

Case C–3839: Counties of Montgomery, Macon, and Elmore; building, heavy and highway construction.

Mason tender	$0.90
Plasterer tender	.95

Case C–3751: Counties of Colbert, Lauderdale, Franklin, Lawrence and Morgan; building, heavy and highway construction.

Plasterer tender	$1.35
Brick tender	1.35

Case C–3397: Counties of Tuscaloosa, Pickens, Greene, Hale, Marengo, and Lamar; building, heavy and highway construction.

Mason tender	$1.00
Plasterer tender	1.00

Mosaic and Terrazzo Workers

Case C–4720: That part of Jackson County in the northeastern corner down to the northern city limits of the town of Stevenson; building and heavy construction only.

Terrazzo worker	$2.875

Case C–7775: Counties of Jefferson, Shelby, and part of Chilton to include the cities of Clanton and Oneonta; building and heavy construction only.

Terrazzo worker	$2.625

Operating Engineers

Case C–4702: Counties of Winston, Cullman, Blount, Etowah, Cherokee, Lamar, Fayette, Walker, Jefferson, St. Clair, Calhoun, Cleburne, Pickens, Tuscaloosa, Shelby, Talladega, Clay, Randolph, Greene, Bibb, Chilton, Coosa, Tallapoosa, Chambers, Hale, Sumter, Perry, Autauga, Elmore, Lee, Dallas, Macon, Russell, Lowndes and Montgomery; building, heavy and highway construction.

Master mechanic	$2.71
Heavy duty mechanic	2.44
Crane-derrick-dragline	2.44
Hoist operator, 1 drum	2.16
Hoist operator, 2 drum	2.44
Scraper	2.44
Mixer	2.44
Pile driver	2.44
Shovel	2.44
Trenching machine and all similar equipment	2.44
Asphalt plant	2.41
Motor grader	2.30
Bulldozer	2.19
Distributor (bituminous surface)	2.16
Roller	2.16
Tractor	2.16
Blade grader	2.135
Air compressor	2.025
Finishing machine	2.025
Pump	2.025
Mixer—under 5 bags	2.025
Apprentice engineer (oiler, fireman and mechanic helper)	1.585

Case C–2577: Counties of Winston, Cullman, Blount, Etowah, Cherokee, Lamar, Fayette, Walker, Jefferson, St. Clair, Calhoun, Cleburne, Pickens, Tuscaloosa, Shelby, Talladega, Clay, Randolph, Greene, Bibb, Chilton, Coosa, Tallapoosa, Chambers, Hale, Sumter, Perry, Autauga, Elmore, Lee, Dallas, Macon, Russell, Lowndes, and Montgomery; industrial, commercial and heavy construction, namely: steel erection, blast furnaces, boilers, tanks, steel mills, byproduct plants, hydroelectric plants, steam generating plants, chimney erection and all industrial and commercial plants, highway and railroad bridges.

Master mechanic	$2.75
Heavy duty mechanic	2.50
Crane-derrick-dragline operator	2.50
Hoist operator	2.50
Wenchtruck crane operator	2.50
Gasoline driven welding machines	2.25
Air compressor operator	2.25
Apprentice engineer (oiler, fireman, mechanic's helper, etc.)	1.65

Case C–3557: Florence, and area within the territorial jurisdiction of International Union of Operating Engineers, Local 320; building and heavy construction only.

Air compressor	$1.65
Asphalt plant operator	1.65
Back hoe operator	2.475
Tugboat operator	2.00
Bull dozer operator	2.25
Chief marine engineer	2.00
Clamshell operator	2.475
Concrete mixer, all operations	1.65
Conveyor operator	1.50
Crane operator	2.475
Distributors, bituminous	1.65
Dragline operator	2.475
Dredge operator	2.475
Elevating grader	2.25
Finishing machine (pavement concrete)	1.65
Fireman-oiler (new classification)	1.65
Hoist—1 drum	2.00
Hoist—2 or 3 drum	2.475
Hostler	1.50
Locomotive brakeman	1.50
Locomotive conductor	1.65
Locomotive engineer	$2.00
Locomotive flagman	1.50
Locomotive switchman	1.50
Master pilot	2.00
Mechanic, heavy duty	2.475
Mechanic helper	1.50
Motorboat	1.50
Motor patrol	2.25
Oiler classification elliminated.	
Pile driver operator	2.475
Paving machine	2.25
Pump operator	1.65
Rock crusher operator	1.65
Roller operator	2.00
Scraper carry-all	2.25
Shovel operator	2.475
Tractor	2.00
Tractor, special equipment	2.25
Trenching machine	2.25
Turnpull operator	2.25
Welding machine operator	1.65
Well drill operator	1 65
Yardmaster	2.00

Painters

Case C–4807: Cities of Auburn, Phenix City, Camp Rucker, Dothan and Opelika; building and heavy construction only.

Journeyman painter	$2.05
Journeyman painter (spray)	2.60

Case C–5329: Counties of Jackson and De Kalb; building construction only.

Journeyman painter and paperhanger	$2.125

Case C–6993: Counties of Escambia and Baldwin; building construction only.

Journeyman painter, brush	$1.91
Swing stage and boatswain	2.41
Steel structural	2.16
Spray gun	2.41
Paperhanger	1.91
Apprentice:	
First year	1.135
Second year	1.285
Third year	1.435

Case C–2320: Anniston, and area within the territorial jurisdiction of Brotherhood of Painters, Decorators and Paperhangers, Local 151; building construction only.

Painter, brush	$2.00
Painter, sign	2.10
Painter, steel	2.25

Fifth 1,000 hours	60
Sixth 1,000 hours	65
Seventh 1,000 hours	70
Eighth 1,000 hours	75
Ninth 1,000 hours	80
Tenth 1,000 hours	85

Case C–5888: Counties of Tuscaloosa, Fayette, Lamar, Pickens, Greene, Hale, Sumter, Marengo, Perry, and northern half of Choctaw; building, heavy and highway construction.

Journeyman plumber	$2.575
Apprentice:	
First year	1.00
Second year	1.25
Third year	1.50
Fourth year	1.75
Fifth year	2.00

Roofers

Case C–5254: Northeastern half of Jackson and De Kalb Counties; building construction only.

Journeyman roofer slate and tile	$2.50
Journeyman roofer composition	2.25
Roofer helper	1.30

Case C–4082: Birmingham, and area within the territorial jurisdiction of United Slate, Tile and Composition Roofers, Damp and Waterproof Workers Association, Local 110; building construction only.

Journeyman composition flat roofer	$1.87
Journeyman slate, tile and steep roofer	2.09
Helper	1.21
Journeyman waterproofer	1.87

Sheet Metal Workers

Case C–7373: City of Birmingham; counties of Blount, Chambers, Cherokee, Choctaw, Cleburne, Colbert, Cullman, De Kalb, Etowah, Fayette, Franklin, Greene, Hale, Jackson, Lamar, Lauderdale, Lawrence, Limestone, Madison, Marengo, Marion, Marshall, Morgan, Pickens, Randolph, Sumter, Winston, Jefferson, Shelby, Bibb, Autauga, Bullock, Chilton, Clay, Coosa, Dallas, Elmore, Lowndes, Macon, Montgomery, Perry, Tallapoosa, Walker, St. Clair, Talladega, Calhoun, and Tuscaloosa; building construction only.

Journeyman sheet metal worker	$2.49

The differentials previously paid to sketch men and layout men, which were in existence on or before January 25, 1951, may continue to be paid pursuant to this decision.

Case C–7460: City of Mobile; counties of Mobile, Baldwin, Coffee, Covington, Butler, Clarke, Crenshaw, Conecuh, Monroe, Pike, Wilcox, Washington, Dale, Escambia, Geneva, Henry, and Houston; building construction only.

Journeyman sheet metal worker	$2.375

Case C–2951: Counties of Russell, Lee, and Barbour; building construction only.

Journeyman sheet metal worker	$2.00

Steamfitters

Case C–3900: Counties of Russell, Chambers, Lee, Barbour, and Macon; building construction only.

Steam fitter	$2.65

Case C–2995: Counties of Jefferson, Walker, Cullman, Blount, St. Clair, Shelby, Talladega, Clay, Randolph, and Chilton; building construction only.

Steam fitter	$2.65

Case C–4361: Counties of Etowah, Calhoun, Cherokee, Talladega, Marshall, St. Clair, De Kalb, Jackson, and Cleburne; building construction only.

Steam fitter	$2.65
Apprentice:	
First year	1.00
Second year	1.20
Third year	1.35
Fourth year	1.50

Case C–2938: Montgomery, and area within the territorial jurisdiction of United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry, Local 52; building construction only.

Steam fitter	$2.50

Case C–5824: Cities of Sheffield, Florence, Tuscumbia, and Muscle Shoals; counties of Colbert, Lauderdale, Limestone, Franklin, Marion, Winston, and the west half of Lawrence; building and heavy construction only.

Steam fitter	$2.65
Apprentice:	*Percent*
First 1,000 hours	40
Second 1,000 hours	45
Third 1,000 hours	50
Fourth 1,000 hours	55
Fifth 1,000 hours	60
Sixth 1,000 hours	65
Seventh 1,000 hours	70
Eighth 1,000 hours	75
Ninth 1,000 hours	80
Tenth 1,000 hours	85

Case C–5888: Counties of Tuscaloosa, Fayette, Lamar, Pickens, Greene, Hale, Sumter, Marengo and Perry and northern half of Choctaw; building, heavy and highway construction.

Journeyman steam fitter	$2.575
Apprentice:	
First year	1.00
Second year	1.25
Third year	1.50
Fourth year	1.75
Fifth year	2.00

Stone Masons

Case C–4720: That part of Jackson County in the north eastern corner down to the northern city limits of the town of Stevenson; building and heavy construction only.

Journeyman stone mason	$2.875

Case C–6862: Counties of Jefferson, Shelby, and Chilton to the city of Clanton; Talladega County down to and including city of Sylacauga; Blount County to and including city of Oneonta; St. Clair County to 4 miles south of Pell City; building and heavy construction only.

Journeyman stone mason	$3.00

Teamsters

Case C–5473: Counties of Marshall, St. Clair, Perry, Montgomery, De Kalb, Calhoun, Chilton, Macon, Marion, Cleburne, Coosa, Russell, Winston, Butler, Blount, Tuscaloosa, Sumter, Crenshaw, Etowah, Talladega, Tallapoosa, Bullock, Cullman, Shelby, Chambers, Pickens, Marengo, Pike, Cherokee, Bibb, Dallas, Barbour, Lamar, Clay, Autauga, Fayette, Randolph, Elmore, Walker, Greene, Lee, Jefferson, Hale, and Lowndes; building, heavy and highway construction.

Truck driver:	
Up to but not including 1½ tons	$1.26
1½ tons, including 3 tons	1.37
3 tons, but not including 5 tons	1.65
5 tons and over, including special equipment such as euclids, winch trucks, dumpsters and low boys	1.92
Foreman	1.95

Tile Layers

Case C–4720: That part of Jackson County in the northeastern corner down to the northern city limits of the town of Stevenson; building, and heavy construction only.

Tile worker	$2.875

Case C–7775: Counties of Jefferson, Shelby, and part of Chilton to include the cities of Clanton and Oneonta; building and heavy construction only.

Tile setter	$2.625

SEC. 2. *Area wage rates for Arizona.*

Asbestos Workers

Case C–3866–B: Halfway from Phoenix, Ariz., to Los Angeles, Calif.; Albuquerque, N. Mex., and El Paso, Tex.; building construction only.

Asbestos worker mechanic	$2.75
Improver:	
First year	1.75
Second year	1.875
Third year	2.0625
Fourth year	2.375

Boilermakers

Case C–4845: Entire State of Arizona; building construction only.

Foreman	$3.00
Assistant foreman (pusher)	2.85
Journeyman boilermaker	2.75
Boilermaker helper	2.45

Bricklayers

Cases C–314, C–696, C–5347: All the counties in Arizona except Pima, Santa Cruz, and Cochise; building construction only.

Journeyman bricklayer	$3.50
Manhole builder	3.50
Adobe layer	3.50
Fire-proofer	3.50
Stack builder	3.50
Caulker	3.50
Cement block layer	3.50
Marble layer	3.50

Case C–3485: Counties of Santa Cruz and Pima; building construction only.

Journeyman bricklayer, manhole builder, stack builder, cement block layer, adobe layer, fireproofer & caulker	$3.30

Carpenters

Case C–7835: Entire State of Arizona; building, heavy and highway construction.

Carpenter foreman, floorlayer (finish) and carpenter employed on tower, scaffold or temporary structure over 40 feet high	$2.775
Carpenter, saw filer and shingler (composition or wood)	2.525
Millwright, power tool operator (when employed over 2 consecutive hours in the classification.) Carpenters shall have jurisdiction over assistants in this classification; pile driver	2.65

Cement Finishers and Masons

Case C–7835: Entire State of Arizona; building, heavy and highway construction.

Cement finisher (including curb, gutter, sidewalk and road form setter where mechanical finishing equipment is not used)	$2.525
Concrete troweling machine operator and composition finisher	2.65

Case C–3485: Counties of Santa Cruz and Pima; building construction only.

Journeyman mason	$3.30

Electrical Workers

Case C–8333: Phoenix, and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 640; building and heavy construction only.

Journeyman electrician and lineman	$2.75

Case C–7869: Tucson, and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 570; building and heavy construction only.

Journeyman electrician and lineman	$2.75
Cable splicer	3.00
Apprentice:	*Percent*
First 6 months of first year	45
Second 6 months of first year	50
First 6 months of second year	55
Second 6 months of second year	60
First 6 months of third year	65
Second 6 months of third year	70
First 6 months of fourth year	75
Second 6 months of fourth year	80

Iron Workers

Case C–7835: Entire State of Arizona; building, heavy and highway construction.

Reinforcing iron worker foreman	$2.775
Reinforcing iron worker journeyman	2.525
Reinforcing iron worker apprentice (two-thirds of journeyman rate)	1.79

Case C–8241: Entire State of Arizona, excluding Davis Dam area (California); but including Blythe, California area, and Lordsburg, New Mexico area; building, heavy and highway construction.

Journeyman iron worker	$2.73

Laborers

Case C–5160: Entire State of Arizona; pipeline construction only.

Laborer	$1.825

Case C–7835: Entire State of Arizona; building, heavy and highway construction.

Labor, general or construction tool dispatcher or checker, watchman, flagman and all helpers not herein separately classified	$1.875
Operator and tender of pneumatic tool, vibrating machine and similar mechanical tool not separately classified herein	2.075
Asphalt raker and ironer	2.075
Cement dumper (on 1 yard or larger mixer and handling bulk cement)	2.075
Cement finisher tender	1.975
Chuck tender and powderman helper	2.025
Concrete road form setter	2.525
Concrete curing (impervious membrane)	2.05
Cutting torch operator	1.925
Driller (core, diamond or wagon)	2.30
Driller (jackhammer and pavement breaker)	2.15
Form stripper (all types)	1.925
Fine grader (highway and street paving only)	1.975
Kettleman, tarman and bander	1.975
Landscape gardener and nurseryman	1.875
Miner—underground (hand or machine)	2.225
Power type concrete buggy	1.925
Pipe wrapper	2.125
Powderman	2.30
Sandblaster (pot tender)	2.05
Sandblaster (nozzleman)	2.30
Scaler, using bos'n's chair on safety belt or power tool	2.125
Scaler (driller)	2.375
Sewer pipe caulker	2.05
Sewer pipe layer (excluding caulker)	2.175
Spiker and wrencher (railroad)	2.025
Window cleaner	2.025
Gunnite nozzleman	2.425
Gunnite gunman and mixerman	2.175
Gunnite rodman	2.50

Marble Setters

Case C–3485: Counties of Santa Cruz and Pima; building construction only.

Marble mason	$3.30

Mason and Plasterer Tenders

Case C–7835: Entire State of Arizona; building, heavy and highway construction.

Mason tender	$2.25
Plasterer tender	2.45

Mosaic and Terrazzo Workers

Cases C–314, C–696, C–5347: All the counties in Arizona except Pima, Santa Cruz, and Cochise; building construction only.

Terrazzo worker	$3.50

Case C–3485: Counties of Santa Cruz and Pima; building construction only.

Terrazzo worker	$3.30

Operating Engineers

Case C-7835: Entire State of Arizona; building, heavy and highway construction.

A-frame boom truck	$2.50
Apprentice engineer, including oiler, heavy duty repairman helper, heavy duty welder helper and field equipment serviceman helper	2.075
Air compressor operator	2.20
Asphalt plant fireman	2.35
Asphalt plant mixer man	2.45
Batch plant operator—power type and over 1 cubic yard batch capacity (where the operator is directly responsible for the operation of power equipment)	2.45
Central mix and batching plant operator—over 1 cubic yard mixer capacity	2.55
Concrete or asphalt spreading, mechanical tamping or finishing machine operator	2.45
Concrete mixer operator—paving type and mobile mixer	2.55
Concrete pump or pump crete gun operator	2.325
Concrete mixer operator—skip type	2.325
Crushing plant operator	2.45
Dinkey operator	2.325
Drilling machine operator, including water well	2.575
Elevating grader, euclid loader, Athey Force feed loader operator	2.575
Elevator hoist operator	2.40
Engineer—generating plant	2.275
Fireman, field equipment serviceman, motor crane driver	2.20
Heavy duty repairman, heavy duty welder	2.45
Highline cableway operator	2.65
Highline cableway signalman	2.575
Locomotive engineer	2.575
Material loader or conveyor operator	2.20
Motor patrol operator, including any type of power blade	2.575
Mucking machine operator	2.65
Oshkosh, DW, tournapull, terra-cobra, euclid and similar equipment operator	2.575
Pavement breaker operator	2.40
Pump operator	2.20
Pile driver operator	2.65
Road oil mixing machine operator	2.50
Roller operator	2.40
Ross carrier driver	2.325
Skip loader operator—wheel type	2.325
Screed operator	2.20
Surface heater and planer operator	2.50
Tow blade or grader operator	2.325
Tractor hi-lift shovel operator	2.65
All wheel type tractor operator, except as otherwise classified	2.325
Tractor operator-bulldozer, tamper or scraper	2.45
Train handler (other than engine crew)	2.075
Traveling pipe wrapper and cleaning machine operator	2.65
Trenching machine operator	2.525
Universal equipment operator (shovel, dragline, clamshell, derrick and crane—both crawler and pneumatic type)	2.65

Painters

Case C-1556: Ajo, and area within the territorial jurisdiction of Brotherhood of Painters, Decorators and Paperhangers, Local 1735; building construction only.

Journeyman brush painter, spray painter, and paperhanger	$2.20
Work inside tanks and vaults; structural steel; 25 feet or over; swing stage; boatswain's chair; creosote injurious to skin; sign painter	2.50

Case C-1179: Phoenix, and area within the territorial jurisdiction of Brotherhood of Painters, Decorators and Paperhangers, Local 86; building construction only.

Journeyman painter	$2.345
Spray painter	2.52
Brush, swing stage	2.47
Steel and bridge	2.595
Sand blaster, swing	2.72
Paint burner	2.47
Paperhanger	2.47
Steeple jack	3.595
Creosote applier	3.22

Case C-6044: Cities of Tucson, Nogales and Fort Huachuca; building construction only.

Journeyman brush painter	$2.40
Journeyman spray painter	2.40
Journeyman paperhanger	2.40
Swing stage	2.70
Sign painter	2.70

Plasterers

Case C-7414: Phoenix, and area within the territorial jurisdiction of Operative Plasterers and Cement Masons International Association, Local 394; building and heavy construction only.

Journeyman plasterer	$3.30
Foreman	3.675

Plumbers

Case C-4998: Entire State of Arizona; mainline pipeline construction only.

Journeyman pipe fitter	$2.65
Pipe fitter welder	2.65
Pipe fitter apprentice	[1] 1.35

[1] Or 15 cents per hour over and above the common laborer rate in any given area.

Case C-8546: Entire State of Arizona; building construction only.

Journeyman sprinkler fitter	$2.79

Roofers

Case C-7199: Entire State of Arizona, with the exception of the territorial jurisdiction of United Slate, Tile and Composition Roofers, Damp and Waterproof Workers Association, Local 239, Tucson; building construction only.

Journeyman slate, tile and composition roofer, damp and waterproof worker	$2.35

Sheet Metal Workers

Case C-6227: County of Mohave; building construction only.

Journeyman sheet metal worker	$2.90

Case C-3843: City of Tucson; counties of Pima, Pinal, Cochise, Santa Cruz, and Yuma; building construction only.

Journeyman sheet metal worker	$2.50

Soft Floor Layers

Case C-3444: City of Tucson and vicinity, which includes Nogales, and Fort Huachuca on the southern border of Arizona; building construction only.

Journeyman linoleum, tile layer and floor coverer	$2.30

Stone Masons

Cases C-314, C-696, C-5347: All the counties in Arizona except Pima, Santa Cruz, and Cochise; building construction only.

Stone mason	$3.50

Case C-3485: Counties of Santa Cruz and Pima; building construction only.

Stone mason	$3.30

Teamsters

Case C-7835: Entire State of Arizona; building, heavy and highway construction.

Teamster and/or warehouseman	$1.875
Dump truck driver—less than 4 yards, WLC, flat rack truck driver—less than 6 tons legal pay load capacity and industrial lift-truck driver	1.95
Dump truck driver—4 yards but less than 8 yards, WLC flat rack truck driver—6 tons but less than 10 tons, legal pay load capacity	1.975
Buggymobile, 1 yard or less, water truck driver—under 2,500 gallons, warehouse—clerk or foreman and shop greaser and/or fireman	2.00
Dump truck driver—8 yards less than 12 yards, WLC flat rack driver—10 tons, less than 15 tons, legal pay load capacity	2.025
Heavy duty repairman helper and/or welder helper and/or field equipment serviceman helper, dumpter truck driver, 6.9 CY or less, WLC and dumpcrete truck driver (less than 6¼ CY, WLC)	2.075
Dump truck driver—12 yards but less than 16 CY, WLC flat rack driver—15 ton but less than 20 ton, legal pay load capacity	2.10
Water truck driver—2,500 gallons but less than 7,000 gallons oil truck driver and/or bootman, under 2,500 gallons	2.125
Transit mix driver—under 3 yards	2.175
Dumptor driver—7 CY but less than 16 CY, WLC and field equipment serviceman	2.20
Oil truck driver and/or bootman—2,500 gallons but less than 7,000 gallons and water truck driver—7,000 gallons or more	2.25
Dumpster truck driver, dump truck driver—16 yards or more, WLC, flat rack driver—20 tons or more, legal pay load capacity, euclid type spreader truck driver, dumptor truck driver—16 CY or more, WLC and transit mix driver—3 yards or more	2.30
Ross carrier driver	2.325
Oil truck driver and/or bootman—7,000 gallons or more	2.375
Heavy duty repairman and/or welder	2.45

Tile Layers

Cases C-314, C-696, C-5347: All the counties in Arizona except Pima, Santa Cruz, and Cochise; building construction only.

Tile layer	$3.50

Case C-3485: Counties of Santa Cruz and Pima; building construction only.

Tile setter	$3.30

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2925]

AMERICAN & FOREIGN POWER CO., INC.

ORDER PERMITTING ISSUANCE OF COMMON STOCK AS STOCK DIVIDEND

OCTOBER 23, 1952.

American & Foreign Power Company Inc. ("Foreign Power"), a registered holding company and a subsidiary of Electric Bond and Share Company, also a registered holding company, having filed a declaration, pursuant to sections 6, 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act"), with respect to the proposed payment of a common stock dividend to the holders of its common stock at the rate of one share of common stock for each 100 shares of such stock held, or an aggregate of 71,527 shares, such stock dividend being in addition to a cash dividend of 10 cents per outstanding share, with the payment of both dividends subject to our approval of the stock dividend;

Public hearings having been duly held after appropriate notice, at which hearings all interested persons were afforded an opportunity to be heard;

The Commission having considered the record in the matter and having filed its memorandum opinion herein on October 17, 1952, concluding therein that it should permit the declaration to become effective upon the filing of an amendment to provide for the sale at the stockholder's request of shares to be received as the stock dividend in amounts up to 5 shares on the basis of assembling shares and selling for the account of stockholders at round-lot prices;

Foreign Power having, on October 21, 1952, filed an amendment in accordance with the aforesaid memorandum opinion of the Commission;

The Commission having examined said amendment and finding with respect to the declaration, as thus amended, that the requirements of the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration, as amended, be permitted to become effective subject to the following terms and conditions and reservation of jurisdiction:

It is hereby ordered, That the said declaration, as amended, be and the same hereby is permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that Foreign Power explain fully to its stockholders at the time the payments are made the nature of the stock dividend and the effect of converting it to cash and also provide an explanation of the present situation of the company which made it necessary to declare the stock dividend in order to conserve cash:

It is further ordered, That jurisdiction be and the same hereby is reserved to pass upon the sufficiency of the informative material to be sent to stockholders pursuant to the aforesaid condition.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File Nos. 70-2936, 70-2940]

REPUBLIC SERVICE CORP. AND GENERAL PUBLIC UTILITIES CORP.

NOTICE OF PROPOSED CAPITAL CONTRIBUTION AND EXCHANGE OF SECURITIES

OCTOBER 24, 1952.

In the matter of Republic Service Corporation, File No. 70-2936; General Public Utilities Corporation, File No. 70-2940.

Notice is hereby given that Republic Service Corporation ("Republic"), a registered holding company, has filed and application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("the act"), designating sections 9 (a) and 12 (d) thereof and Rules U-44 and U-45 thereunder as applicable to its proposed transactions, and that General Public Utilities Corporation ("GPU"), a non-affiliate, also a registered holding company, has filed an application-declaration relating to the same matter, designating sections 6, 7, 9 and 10 of the act and Rule U-23 thereunder as applicable to its proposed transaction; which several transactions are summarized as follows:

Republic proposes to deliver to GPU all the outstanding capital stock of Republic's wholly owned subsidiary Brockway Light, Heat and Power Company ("Brockway"), being 1,000 common shares of the par value of $100 each, in exchange for 20,150 shares of the common stock of GPU; and GPU proposes in turn to deliver to Republic 20,150 shares of its common stock, now held in its treasury, in exchange for the 1,000 common shares of Brockway. Immediately prior to the exchange, Republic proposes to contribute to Brockway the total amount of all open account indebtedness owing by Brockway to Republic, which amounted to $50,000 as of June 30, 1952.

Applicants state that Brockway is engaged in distributing electric energy in the Borough of Brockway and Snyder Township, in Jefferson County, Pennsylvania; that Brockway normally purchases all its electric energy requirements from GPU's subsidiary Pennsylvania Electric Company ("Penelec"), whose service area almost surrounds that of Brockway.

Republic represents that the sale of its investment in Brockway and its acquisition of the GPU stock is a step in its over-all program to divest itself of its investment in its public utility subsidiaries and thus cease to be a holding company under the act. GPU represents that it will retain Brockway as a part of its integrated electric utility system, and that it contemplates merging the properties of Brockway with those of Penelec.

Financial data furnished by the applicants indicate that Brockway's current earnings (adjusted to give effect to certain assumed savings upon acquisition by GPU) amount to approximately $1.85 per share per annum as applied to the 20,150 GPU shares, which is less than GPU's current earnings per share (approximately $1.98) but more than its

current dividends per share ($1.40); that Brockway's net assets applicable to its common stock are approximately $225,000 less than the market value (about $24.75 per share) of the 20,150 GPU shares. GPU expresses the belief that closer coordination between Penelec's operations and those of Brockway will result in further operating economies.

Each applicant states that the exchange agreement was effected by arm's-length bargaining, and that no brokerage fees or commissions will be paid in connection with the transactions. Republic estimates its expenses at approximately $2,500, including a legal fee of $1,200 and an accounting fee of $1,000. GPU estimates its expenses other than legal at approximately $750 and states that all legal work in its behalf is being done by its regularly retained counsel whose over-all compensation will include compensation for services rendered herein.

Applicants further state that no other regulatory commission has jurisdiction over the steps to be taken in carrying out the proposed transactions, and they request that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than November 7, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said applications-declarations which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said applications-declarations, as filed or as amended, may be granted and permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[Vesting Order 19044]

CAROLINE AUMER

In re: Bank account owned by Caroline Aumer, also known as Carolyn Aumer. F-28-31632, F-28-31632-E-1.

Under the authority of the Trading With the Enemy Act, as amended, (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Caroline Aumer, also known as Carolyn Aumer, whose last known address is c/o Heil und Pflegaenstalt, Regensburg-Karthaus, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of Central Savings Bank (in the City of New York), Fourth Avenue at 14th Street, New York, New York, arising out of a savings account, account number 1006012, entitled Carolyn Aumer, maintained at the aforesaid Bank, and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Caroline Aumer, also known as Carolyn Aumer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that such person be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 27, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS, *Assistant Attorney General, Director, Office of Alien Property.*

SANTA SCHUMANN

In re: Bank account owned by Santa Schumann, also known as Creszens Schumann. F-28-31989-E-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Santa Schumann, also known as Creszens Schumann, whose last known address is Munich, Lilienstrasse 29, Bavaria, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of the Nassau County National Bank, 41 Front Street, Rockville Centre, New York, arising out of a savings account numbered 10043, entitled Creszens Schumann, maintained with the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Santa Schumann, also known as Creszens Schumann, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person named in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 27, 1952.

For the Attorney General.

HANS W. L. AND INGE NOACK

In re: Rights of Hans W. L. Noack and of Inge Noack under Insurance Contracts. File Nos. F-28-26738-H-2, H-3 and H-4.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Hans W. L. Noack and Inge Noack, each of whose last known address is Lesum Bei Bremen, Deichweg 134 A, Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

2. That the net proceeds due or to become due under contracts of insurance evidenced by Policies Nos. 1469039, 1583-293 and 1681043 issued by the John Hancock Mutual Life Insurance Company, Boston, Massachusetts, to Hans W. L. Noack, and any and all other benefits and rights of any kind or character whatsoever under or arising out of said contracts of insurance except those of the aforesaid John Hancock Mutual Life Insurance Company, together with the right to demand, enforce, receive and collect the same, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Hans W. L. Noack and Inge Noack, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons named in subparagraph 1 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "nationals" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 27, 1952.

FEDERAL REGISTER

VOLUME 17 NUMBER 214

Washington, Friday, October 31, 1952

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 29—TOBACCO INSPECTION

SUBPART C—STANDARDS

OFFICIAL STANDARDS FOR BURLEY TOBACCO

On October 17, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 9200) regarding the issuance of proposed Official Standards for Burley Tobacco. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, and by virtue of the authority vested in the Secretary of Agriculture by The Tobacco Inspection Act, approved August 23, 1935 (49 Stat., 732; 7 U. S. C. 511 et seq.), there is prescribed and promulgated the following grades for Burley tobacco of Type 31 to be known as the Official Standard Grades for Burley Tobacco, to be in force and effect on November 28, 1952. These official standard grades shall supersede the present standard grades for Burley tobacco promulgated on November 25, 1936 (1 F. R. 2040), and amended January 18, 1938 (3 F. R. 189).

The revised standards are as follows:

OFFICIAL STANDARD GRADES FOR BURLEY TOBACCO (U. S. TYPE 31)

LEAF GRADES (B-GROUP)

29.494 Rule 12.
29.495 Rule 13.

AUTHORITY: §§ 29.401 to 29.495 issued under sec. 14, 49 Stat. 734; 7 U. S. C. 511m.

OFFICIAL STANDARD GRADES FOR BURLEY TOBACCO (U. S. TYPE 31)

LEAF GRADES (B-GROUP)

§ 29.401 *General specifications.* All grades of the B group must be clean, sound, medium to heavy body, and must not exceed the tolerances specified with respect to waste and other injury. General tolerance, 20 percent undersized leaves.

GRADE DESCRIPTION, SPECIFICATIONS, AND TOLERANCES

U. S. Grade	
B1F	Choice Quality Leaf in Tan Color. Very smooth, very good texture, oily, ripe, firm, medium to fairly fleshy body, strong, fairly spready, open weave, light color shade, very clear finish, blending fibers, uniform, over 20" long. Tolerance, 5 percent injury.
B1R	Choice Quality Leaf in Red Color. Very oily, fairly fleshy to heavy body, otherwise same as B1F.
B2F	Fine Quality Leaf in Tan Color. Smooth, good texture, oily, ripe, firm, medium to fairly fleshy body, strong, normal width, open weave, fairly light color shade, clear finish, emerging fibers, harmonizing, over 20" long. Tolerance 10 percent injury.
B2R	Fine Quality Leaf in Red Color. Very oily, fairly fleshy to heavy body, otherwise same as B2F.
B3F	Good Quality Leaf in Tan Color. Fairly smooth, fair texture, oily, ripe, firm, medium to fairly fleshy body, fairly strong, normal width, fairly open weave, true color shade, fairly clear finish, similar, over 18" long. Tolerance, 15 percent injury.
B3R	Good Quality Leaf in Red Color. Very oily, fairly fleshy to heavy body, otherwise same as B3F.
B3M	Good Quality Mixed Leaf. Average quality of B3 or better.
B3G	Good Quality Green Leaf. Quality of B3, except oil, maturity, and porosity.
B4F	Fair Quality Leaf in Tan Color. Unrough, fairly oily, fairly ripe, fairly firm, medium to fairly fleshy body, normal strength, not stringy, fairly true color shade, dull finish, unmixed, over 16" long. Tolerance, 20 percent total injury of which not over 5 percent may be waste or other badly injured tobacco.
B4R	Fair Quality Leaf in Red Color. Oily, fairly fleshy to heavy body, otherwise same as B4F.
B4D	Fair Quality Leaf in Dun or Dull Red Color. Medium to heavy body, dusky color shade, otherwise quality of B4F.
B4M	Fair Quality Mixed Leaf. Average Quality of B4.
B4G	Fair Quality Green Leaf. Quality of B4, except oil and maturity.
B5F	Low Quality Leaf in Tan Color. Fairly ripe, medium to fairly fleshy body, not tender, dusky color shade, cloudy to dingy finish, unmixed, over 16" long. Tolerance, 30 percent total injury of which not over 10 percent may be waste or other badly injured tobacco.
B5R	Low Quality Leaf in Red Color. Fairly fleshy to heavy body, otherwise same as B5F.
B5D	Low Quality Leaf in Dun or Dull Red Color. Medium to heavy body, otherwise quality of B5F.
B5M	Low Quality Mixed Leaf. Average quality of B5.
B5G	Low Quality Green Leaf. Quality of B5, except maturity.

LUGS OR CUTTERS (C-GROUP)

§ 29.402 *General specifications.* All grades of the C group must be clean, sound, thin to medium body, lean to low in oil, and must not exceed the tolerances specified with respect to waste and other injury. General tolerance, 20 percent undersized leaves.

GRADE DESCRIPTION, SPECIFICATIONS, AND TOLERANCES

U. S. Grade	
C1L	Choice Quality Cutters in Straw Color. Silky, fine texture, lean, very ripe, firm, thin body, strong, broad, very open weave, very light color shade, very bright finish, blending fibers, uniform, over 20" long. Tolerance, 5 percent injury.
C1F	Choice Quality Cutters in Tan Color. Fairly lean, fairly thin to medium body, otherwise same as C1L.
C2L	Fine Quality Cutters in Straw Color. Very smooth, very good texture, lean, very ripe, firm, thin body, fairly strong, spready, open weave, light color shade, very clear finish, blending fibers, harmonizing, over 20" long. Tolerance, 10 percent injury.
C2F	Fine Quality Cutters in Tan Color. Fairly lean, fairly thin to medium body, otherwise same as C2L.
C3L	Good Quality Cutters in Straw Color. Smooth, good texture, lean, very ripe, fairly firm, thin body, normal strength, fairly spready, open weave, fairly light color shade, clear finish, emerging fibers, similar, over 18" long. Tolerance, 15 percent injury.
C3F	Good Quality Cutters in Tan Color. Fairly lean, fairly thin to medium body, otherwise same as C3L.
C3R	Good Quality Cutters in Red Color. Low in oil, fairly thin to medium body, otherwise same as C3L.
C4L	Fair Quality Cutters in Straw Color. Fairly smooth, fair texture, lean, ripe, not flimsy, thin body, normal strength, normal width, fairly open weave, true color shade, fairly clear finish, unmixed. Tolerance, 20 percent total injury of which not over 5 percent may be waste or other badly injured tobacco.
C4F	Fair Quality Cutters in Tan Color. Fairly lean, fairly thin to medium body, otherwise same as C4L.
C4R	Fair Quality Cutters in Red Color. Low in oil, fairly thin to medium body, otherwise same as C4L.
C4M	Fair Quality Mixed Cutters. Average quality of C4 or better.
C4G	Fair Quality Green Cutters. Quality of C4, except maturity and porosity.
C5L	Low Quality Cutters in Straw Color. Unrough, lean, fairly ripe, not flimsy, thin body, not weak or narrow, fairly open weave, fairly true color shade, dull to cloudy finish, unmixed. Tolerance, 30 percent total injury of which not over 10 percent may be waste or other badly injured tobacco.
C5F	Low Quality Cutters in Tan Color. Fairly lean, fairly thin to medium body, otherwise same as C5L.
C5R	Low Quality Cutters in Red Color. Low in oil, fairly thin to medium body, otherwise same as C5L.
C5M	Low Quality Mixed Cutters. Average quality of C5 or better.
C5G	Low Quality Green Cutters. Quality of C5, except maturity and porosity.

GRANULATORS OR FLYINGS (X-GROUP)

§ 29.403 *General specifications.* All grades of the X group must be clean, sound, tissuey to fairly thin body, porous, very lean and low in oil, and must not exceed the tolerances specified with respect to waste.

GRADE DESCRIPTION, SPECIFICATIONS, AND TOLERANCES

U. S. Grade	
X1L	Choice Quality Flyings in Straw Color. Smooth, very lean, mellow, fairly firm, tissuey body, not weak, normal width, very open weave, pale color shade, clear finish, blending fibers, harmonizing. Tolerance, 5 percent waste.
X1F	Choice Quality Flyings in Tan Color. Lean, very thin body, otherwise same as X1L.
X2L	Fine Quality Flyings in Straw Color. Smooth, very lean, mellow, not flimsy, tissuey body, not weak or narrow, open weave, light color shade, fairly clear finish, emerging fibers, similar. Tolerance, 10 percent waste.
X2F	Fine Quality Flyings in Tan Color. Lean, very thin body, otherwise same as X2L.
X3L	Good Quality Flyings in Straw Color. Fairly smooth, very lean, ripe to mellow, not flimsy, tissuey body, not tender or stringy, porous, true color shade, dull finish, unmingled. Tolerance, 20 percent waste.
X3F	Good Quality Flyings in Tan Color. Lean, very thin body, otherwise same as X3L.
X3R	Good Quality Flyings in Red Color. Fairly lean, fairly thin body, otherwise same as X3L.
X4L	Fair Quality Flyings in Straw Color. Unrough, very lean, fairly ripe to mellow, tissuey body, very porous, fairly dusky color shade, cloudy finish, unmixed. Tolerance, 30 percent waste.
X4F	Fair Quality Flyings in Tan Color. Lean, very thin body, otherwise same as X4L.
X4R	Fair Quality Flyings in Red Color. Fairly lean, fairly thin body, otherwise same as X4L.
X4M	Fair Quality Mixed Flyings. Average quality of X4 or better.
X4G	Fair Quality Green Flyings. Quality of X4, except maturity and porosity.
X5L	Low Quality Flyings in Straw Color. Very lean, fairly ripe to overripe, tissuey body, very porous, dusky color shade, dingy finish, unmixed. Tolerance, 40 percent waste.
X5F	Low Quality Flyings in Tan Color. Lean, very thin body, otherwise same as X5L.
X5R	Low Quality Flyings in Red Color. Fairly lean, fairly thin body, otherwise same as X5L.
X5M	Low Quality Mixed Flyings. Average quality of X5.
X5G	Low Quality Green Flyings. Quality of X5, except maturity and porosity.

MIXED GROUP GRADES (M-GROUP)

§ 29.404 *General specifications.* All grades of the M group must be clean and sound. The specifications for the M group grades shall apply in relation to the type as a whole and in the sense that "General color" and "General quality" are defined. Thus, "tobacco having the general quality of C3 or better", may include, in case of a relatively thin crop, tobacco which would grade B2F if separated from the general mixture. Based on the general quality and color of the type, the F colored grades shall consist chiefly of tobacco which is relatively very thin to medium in body and relatively light or tannish in color, and the R colored grades shall consist chiefly of tobacco which is relatively medium to heavy in body and relatively dark or reddish in color. General tolerance, 20 percent of light thin green in the F colored grades and 20 percent of green in the R colored grades.

GRADE DESCRIPTION AND SPECIFICATIONS

U. S. Grade	
M3F	Good Quality Mixed Group of Relatively Light General Color. Shall consist chiefly of tobacco having the general quality of C3, X3, or better, and the minor portion shall consist of tobacco having the general quality of B3, T3, or better.
M3R	Good Quality Mixed Group of Relatively Dark General Color. Shall consist chiefly of tobacco having the general quality of B3, T3, or better, and the minor portion shall consist of tobacco having the general quality of C3, X3, or better.
M4F	Fair Quality Mixed Group of Relatively Light General Color. Shall consist chiefly of tobacco having the general quality of C4, X4, or better, and the minor portion shall consist of tobacco having the general quality of B4, T4, or better.
M4R	Fair Quality Mixed Group of Relatively Dark General Color. Shall consist chiefly of tobacco having the general quality of B4, T4, or better, and the minor portion shall consist of tobacco having the general quality of C4, X4, or better.
M5F	Low Quality Mixed Group of Relatively Light General Color. Shall consist chiefly of tobacco having the general quality of C5, X5, or better, and the minor portion shall consist of tobacco having the general quality of B5, T5, or better.
M5R	Low Quality Mixed Group of Relatively Dark General Color. Shall consist chiefly of tobacco having the general quality of B5, T5, or better, and the minor portion shall consist of tobacco having the general quality of C5, X5, or better.

SPECIAL GROUPS (N, W, AND S GROUPS); SPECIFICATIONS

§ 29.405 *U. S. Group N.* Nondescript, as defined in this part.

§ 29.406 *U. S. Group W.* Web or Strip Blend, as defined in this part.

§ 29.407 *U. S. Group S.* Scrap, as defined in this part.

DEFINITIONS

§ 29.408 *Terms defined.* For the purposes of §§ 29.401 to 29.495, the terms appearing in §§ 29.409 to 29.481 shall be construed as explained therein.

§ 29.409 *Aircured.* Tobacco cured under natural atmospheric conditions without the use of fire, except for the purpose of preventing pole-burn in damp weather. Subjecting tobacco to excessive artificial heat in the curing process influences its physical characteristics and chemical composition to such an extent that it cannot be designated as a true aircured tobacco. Burley tobacco which has been subjected to excessive heat in the curing process is classified as an "offtype" of Burley.

§ 29.410 *Airdried.* The condition of unfermented tobacco as customarily prepared for storage under natural atmospheric conditions.

§ 29.411 *Body.* The thickness and density of leaf or weight per unit of surface.

§ 29.412 *Botched.* The grade of any tobacco, not defined as nested or offtype, which does not reasonably conform to the common and accepted practices of preparing tobacco for market in the type district, including: (a) Extreme mixtures which cannot be classified in the grades of the M group, such as very poor quality or nondescript tobacco intermingled with good quality tobacco, badly injured tobacco intermingled with tobacco which is not materially injured, mixed group tobacco which contains green in excess of the tolerances specified, et cetera; (b) tobacco which clearly and obviously contains an abnormal quantity of foreign matter such as strings, rubber bands, sand, muddy or extremely dirty leaves; (c) tobacco prepared in a disorderly or tangled manner, such as not being packed reasonably straight in layers or flakes with the butts of the leaves or the heads of the bundles in the same direction; and (d) tobacco tied with abnormally large or long heads so that it cannot be properly redried in the customary manner.

§ 29.413 *Chief.* The Chief of the Standards and Technical Research Division, Tobacco Branch, Production and Marketing Administration.

§ 29.414 *Class.* A major division of tobacco based on characteristics caused by varieties, soils, and climatic conditions, and the method of cultivation, harvesting, and curing.

§ 29.415 *Clean.* Normally free of dirt and other foreign matter.

§ 29.416 *Color.* A subdivision of a group based on the relative hues, saturations, and brilliances common to the group and on certain elements of quality, such as body and maturity, which are closely related to color.

§ 29.417 *Condition.* The state of tobacco in storage, or in relation to its preparation for storage, with reference to its manner or preparation or its degree of fermentation, such as Undried, Airdried, Steamdried (Redried), Sweating, Sweated, and Resweated.

§ 29.418 *Crude.* (a) Any very immature leaf of which one-fifth or more of its surface has a positive green color; or (b) any lot of tobacco containing 30 percent or more crude leaves.

§ 29.419 *Cured.* Tobacco thoroughly dried of its sap by either natural or artificial processes.

§ 29.420 *Cutters or Lugs (C).* A group of tobacco which, compared with the general characteristics of the type, is relatively lean to low in oil, thin to medium body, and spready; which has an open weave and a very light to fairly true color shade; which has sufficient tensile strength and solidity to be stemable into whole strips; and which is not injured sufficiently to materially reduce the strip yield.

§ 29.421 *Damaged.* The effect of mold, must, rot, black-rot, or other fungous or bacterial diseases which attack tobacco in its cured state, including tobacco having the odor of mold, must, or rot.

§ 29.422 *Decayed.* Any tobacco which is damaged to the extent of 20 percent or more.

§ 29.423 *Dun or Dull Red (D).* Tobacco which is chiefly composed of leaves having a very dull or dingy finish and a very dusky or dark shade of brown color and which is not crude, green, or mixed.

§ 29.424 *Flyings or Granulators (X).* A group of tobacco which, compared with the general characteristics of the type, is relatively nonelastic, very lean or low in oil, tissuey to fairly thin in body and which has a very open to porous weave, a pale to dusky color shade, and low tensile strength and solidity. Flyings normally do not have sufficient strength, body, or solidity, or contain too much injury and waste to be stemable into whole strips.

§ 29.425 *Foreign matter.* Any substance or material extraneous to tobacco, including dirt, sand, stalks, suckers, straw, strings, et cetera.

§ 29.426 *Form.* The stage of preparation of tobacco, such as Unstemmed and Stemmed.

§ 29.427 *General color.* The color of any tobacco considered in relation to a type as a whole as distinguished from the restricted use of the term "color" as a subdivision of a group. General colors are basically related to body and other over-all characteristics of the type.

§ 29.428 *General quality.* The quality of any tobacco considered in relation to a type as a whole as distinguished from the restricted use of the term "quality" as a subdivision of a group. The group divisions of a type are based upon certain quality characteristics of the type as a whole, while the restricted use of quality as a subdivision of a group is limited to the relative qualities appearing in a particular group.

§ 29.429 *Grade.* A subdivision of a type according to group and quality, and according to color when it is of sufficient importance to be treated as a separate factor.

§ 29.430 *Green (G).* (a) Any leaf of which one-fifth or more of its surface is predominantly green in color; or (b) any lot of tobacco containing 20 percent or more green leaves; or (c) any lot of tobacco which is not crude but which contains 20 percent of green and crude combined.

§ 29.431 *Greenish (V).* (a) Any leaf of which one-fifth or more of its surface has a decided greenish tinge or cast; or (b) any lot of tobacco containing 30 percent or more greenish leaves; or (c) any lot of tobacco which is not green but which contains 30 percent of green and greenish leaves combined.

§ 29.432 *Group.* A division of a type covering several closely related grades based on the general quality of the tobacco, including body, the percentage of injury, and other characteristics.

§ 29.433 *Injury.* Hurt or impairment from any cause except damage. Injured tobacco shall include dead, burnt, hail-cut, or ragged tobacco; or tobacco that has been torn or broken, frozen or frosted, sunburned or scalded, scorched or fire-killed, bulk-burnt or steam-burnt, pole-burnt or house-burnt, bleached or bruised; or tobacco containing deformed leaves; or tobacco hurt by insects; or tobacco affected by wild-fire, rust, frog-eye, mosaic, frenching, sandgrown, or other similar diseases.

§ 29.434 *Leaf (B).* A group of tobacco which, compared with the general characteristics of the type, is relatively medium to very heavy in body. Leaf is basically characterized by a medium to very heavy body as compared with Cutters (Lugs) and Flyings. Three kinds of leaf are generally recognized, namely: Smoking-leaf, Heavy-leaf, and Tips.

§ 29.435 *Leaf-scrap.* Unstemmed scrap, which is a by-product from handling unstemmed tobacco consisting of loose and tangled whole or broken leaves.

§ 29.436 *Lot.* A pile, basket, bulk, bale, case, hogshead, tierce, or other definite unit.

§ 29.437 *Major.* The principal or leading kind of tobacco of which a lot consists; or the kind of tobacco which constitutes the largest percentage of a lot.

§ 29.438 *Mixed (M-color).* A moderate mixture of fairly closely related grades, including: (a) Any tobacco of the same group of which 30 percent or more is distinctly different in quality or color, or (b) any tobacco of which the major or principal kind is of one group but which contains 30 percent or more tobacco of a closely related group which is not distinctly different in general quality or color.

§ 29.439 *Mixed group (M-group).* Any extreme mixture, not defined as nondescript, containing tobacco of two or more distinctly different groups, including: (a) Any lot of tobacco which has not been sorted (graded) in the customary and commonly accepted manner and which consists of tobacco of two or more distinctly different groups, or (b) any lot containing tobacco which is extremely different in body, general quality, or general color.

§ 29.440 *Nested.* The grade of any tobacco which has been loaded, packed, or arranged in such a manner as to conceal foreign matter or tobacco of inferior grade, quality, or condition. Specifically, the grade "Nested" shall include: (a) Any lot of tobacco which contains damaged, injured, tangled, or other inferior tobacco, or an abnormal quantity of sand or other foreign matter, which cannot be readily detected upon inspection due to the way the lot is packed or arranged; (b) any lot of tied tobacco which contains foreign matter in the inner portions of the hands, or which contains foreign matter in the heads under the tie leaves; (c) any lot of tied tobacco in which the leaves on the outside of the hands are so placed or arranged as to conceal from view relatively inferior quality leaves on the inside of the hands, or which contains wet tobacco or tobacco of relatively lower quality in the heads under the tie leaves; (d) any lot of tobacco consisting of distinctly different grades, qualities, or conditions which is stacked or arranged in layers with the same kinds together so that the tobacco in the lower layer or layers is distinctly inferior in grade, quality, or condition from the tobacco in the top or upper layers.

§ 29.441 *Nondescript (N).* Except as may be designated by a special factor, nondescript shall include: (a) Any tobacco which does not meet the minimum specifications of the lowest grade of any other group; (b) any wet, semicured, or unsound tobacco; (c) any tobacco which has wasted or contains waste to the extent of 40 percent or more; or (d) any tobacco defined as botched, crude, decayed, offtype, or nested.

§ 29.442 *Offtype.* The grade of any tobacco which cannot be properly classified in any other grade of the type due to its distinctly different characteristics; or any tobacco which for any reason is distinctly foreign to the grades of an established type. Specifically, the grade "Offtype" shall cover any kind of tobacco which is not ordinarily sold on the markets at which it is offered for inspection and shall include any smutty or smoked tobacco, tobacco containing or showing the residue from insecticides, tobacco having the odor of insecticides or any odor foreign to the type, or tobacco showing the effects of excessive heat (coking), smoke, or fumes from open fires.

§ 29.443 *Order (case).* The state of tobacco with respect to its moisture content.

§ 29.444 *Package.* A hogshead, tierce, case, bale, or other securely enclosed parcel or bundle.

§ 29.445 *Packing.* A lot of tobacco consisting of a certain number of packages submitted for sampling or inspection as one definite unit and represented to contain the same grade and kind of tobacco and having a common identification number or mark on each package.

§ 29.446 *Quality.* A division of group, forming the second factor of a grade, based upon the relative degree of one or more of the elements of quality in tobacco, construed in relation to a specific group as a whole.

§ 29.447 *Raw.* Freshly harvested tobacco, or tobacco as it appears between the time of harvesting and the beginning of the curing process.

§ 29.448 *Resweated.* The condition of tobacco which has passed through a second fermentation under abnormally high temperatures, or refermented with a relatively high percentage of moisture, including tobacco which has been dipped or reconditioned after its first fermentation and put through a forced or artificial sweat.

§ 29.449 *Scrap.* A by-product from handling tobacco in both the unstemmed and stemmed forms, consisting chiefly of loose, untied, and unstemmed leaves or the web portions of leaves, which ac-

cumulate in warehouses, packing and conditioning plants, and stemmeries; or tobacco which has been reduced to scrap by any process.

§ 29.450 *Semicured.* Tobacco in the process of being cured, or tobacco which is partially, but not thoroughly cured, including tobacco which contains fat-stems, wet-butts, swell-stems, or stems which have not been thoroughly dried in the curing process.

§ 29.451 *Side.* Any distinct characteristic of tobacco; or a certain phase of quality, color, or length as compared with some other phase of quality, color, or length.

§ 29.452 *Smoking-leaf (H).* A subgroup of Leaf: Composed of relatively thin, non-elastic, very ripe, grainy, and porous leaves; being relatively low in oil; and characterized by a somewhat duller finish than the corresponding colors of the leaf group.

§ 29.453 *Sound.* Free of damage.

§ 29.454. *Special factor.* A symbol or term authorized to be used with specified grades to designate a certain side or characteristic of importance, varying from or not covered by the specifications of the grades.

§ 29.455 *Steamdried.* The condition of unfermented tobacco as customarily prepared for storage by means of a redrying machine or other steam-conditioning equipment.

§ 29.456 *Stem.* A midrib of a tobacco leaf.

§ 29.457 *Stemmed.* A form of tobacco from which the stems or midribs have been removed, which may consist of either strips or web-scrap.

§ 29.458 *Stems.* A tobacco by-product composed of the midribs of tobacco leaves.

§ 29.459 *Strips.* (a) The two whole sides of a tobacco leaf from which the stem has been removed; or (b) a lot of tobacco composed of strips.

§ 29.460 *Subgrade.* Any grade modified by a special factor or subgroup symbol.

§ 29.461 *Subgroup.* A group formed by the substitution of a different group symbol to denote a modification of the specifications or to indicate a certain side or characteristic of the tobacco.

§ 29.462 *Sweated.* The condition of tobacco which has passed through one or more fermentations natural to tobacco packed with a normal percentage of moisture.

§ 29.463 *Sweating.* The condition of tobacco in the process of fermentation.

§ 29.464 *Tips (T).* A subgroup of Leaf tobacco of which 20 percent or more of its leaves are under 16" in length. Tips normally consist of relatively narrow, sharp pointed, and heavy bodied leaves, under 16" long, which grow on the top or upper part of the plant but may consist of any short leaf tobacco having the characteristics of tips.

§ 29.465 *Tobacco.* Tobacco as it appears between the time it is cured and stripped from the stalk, or primed and cured, and the time it enters into the different manufacturing processes. The acts of stemming, sweating, and conditioning are not regarded as manufacturing processes. Tobacco, as used in this part, does not include any raw tobacco or manufactured products.

§ 29.466 *Tobacco products.* Products manufactured from tobacco which are subject to internal revenue taxes, including: Cigarettes, cigars, and smoking, chewing, and snuff tobaccos.

§ 29.467 *Type.* A division of a class of tobacco having certain common characteristics and closely related grades. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths, shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco.

§ 29.468 *Type 31.* That type of Light Aircured Tobacco, U. S. Class 3a, commonly known as Burley or Burley Aircured, and produced principally in Kentucky, southern Ohio and Indiana, western West Virginia, central and eastern Tennessee, and sections of Virginia, North Carolina, and Missouri, including any Burley which is not a true aircured tobacco, such as the "Oltype" grade of Burley tobacco.

§ 29.469 *Under-size.* Tobacco which is shorter than the minimum size established for a particular group or grade of a type.

§ 29.470 *Undried.* The condition of unfermented tobacco which has not been airdried or steamdried.

§ 29.471 *Uniformity.* One of the elements of quality in tobacco having reference to the consistency of a lot of tobacco, as ordinarily sorted and prepared for market, with respect to other elements of quality or color. The following are the specifications for the several degrees of uniformity showing for each degree the percentage of a lot that may contain a minor portion of a closely related group, or tobacco of the same group which is distinctly different in quality or color from the major or principal kind of which a lot consists: (a) Alike or very uniform, less than 5 percent; (b) uniform, less than 10 percent; (c) harmonizing or fairly uniform, less than 15 percent; (d) similar, less than 20 percent; (e) unmingled, less than 25 percent; (f) unmixed, less than 30 percent; and (g) mixed, 30 percent or more. Mixed group tobacco shall be construed as not having any degree of uniformity.

§ 29.472 *Unsound (U).* Damaged under 20 percent.

§ 29.473 *Unstemmed.* A form of tobacco from which the stems or midribs have not been removed, including both whole-leaf and leaf-scrap.

§ 29.474 *Variegated (K).* Having a diversity of contrasting colors or tints, other than green, within a leaf; or leaves which are in part distinctly mottled, bleached, or stained; or leaves which in part have been badly discolored in the curing process; or leaves which do not blend with the normal colors of straw, tan, red, or dull red established for the type. Any lot of tobacco containing 30 percent or more of such leaves is classified as variegated.

§ 29.475 *Waste.* That portion or portions of the web of tobacco leaves which has been lost or rendered unserviceable for use in tobacco products, including: (a) Portions which have decomposed or largely decomposed by field diseases, field firing, pole-burning, or bulk-burning; and (b) portions which are dead, lifeless, and do not have sufficient strength or stability to hold together in the normal manufacturing process or due to excessive injury of any kind.

§ 29.476 *Web.* (a) That portion of a tobacco leaf expanded from the midrib, as distinguished from the stem or midrib, or that portion of a tobacco leaf from which the midrib has been removed; or (b) a lot of tobacco consisting of the web of tobacco leaves, or any unmanufactured tobacco, except scrap, which does not contain stems.

§ 29.477 *Web or Strip Blend (W).* A group of tobacco consisting of the web or strips of closely related grades which have been systematically and uniformly blended together in the stemming process.

§ 29.478 *Web-scrap.* Stemmed scrap or stemless scrap which is a byproduct from stemming tobacco or handling strips, consisting chiefly of portions of strips; or a lot of tobacco from which the stems have been removed by thrashing or other means which breaks the web or sides of the leaves into small pieces.

§ 29.479 *Web-yield.* The weight of clean web which is normally serviceable and useable in reputable tobacco products expressed as the percent of the original unstemmed weight.

§ 29.480 *Wet (W).* Any sound tobacco containing excessive moisture to the extent that it is in an unsafe or doubtful keeping state for the condition or purpose the tobacco is to be used, handled, or stored. Wet shall apply to any semicured or other tobacco which is not damaged, but which is likely to damage on account of excessive moisture if treated in the customary manner or unless unusual precaution is taken.

§ 29.481 *Yield.* The potential quantity or percentage of a given product which can be produced, per unit, from a lot or packing of tobacco.

RULES

§ 29.482 *Rules.* The application of §§ 29.401 to 29.481 shall be in accordance with the rules appearing in §§ 29.483 to 29.495.

§ 29.483 *Rule 1.* Each grade shall be treated as a subdivision of a particular type and when the grade is stated in an inspection certificate, the type shall also be stated.

§ 29.484 *Rule 2.* The determination of grade shall be based upon a thorough examination of a lot of tobacco or an official sample of the lot.

§ 29.485 *Rule 3.* In determining the grade of a lot of tobacco, the lot as a whole shall be considered, and minor irregularities which do not affect over one percent of the tobacco shall be overlooked.

§ 29.486 *Rule 4.* In drawing an official sample from a hogshead or other package of tobacco, three or more breaks shall be made at such points and in such manner as the inspector or sampler may find necessary to determine the kinds of tobacco and the percentage of each kind contained in the lot. One break shall be made not more than 12 inches from the top of the package and one, not more than 12 inches from the bottom of the package and all breaks shall be made so that the tobacco contained in the center of the package is visible to the sampler. Tobacco shall be drawn from at least three of the breaks so made and, from these draws, a representative sample of not less than six hands shall be selected. The sample shall include tobacco of each different quality, color, length, and kind found in the lot in proportion to the quantities of each contained in the lot.

§ 29.487 *Rule 5.* Tobacco damaged under 20 percent shall be classed as unsound and treated as a subgrade by placing the special factor letter "U" after the grade mark. For example: A lot of unsound tobacco which otherwise meets the specifications of B4F shall be graded B4F–U.

§ 29.488 *Rule 6.* When a lot of tobacco, unmixed in color, is on the marginal line between two colors so that there is a question as to which is the predominant color, it shall be placed in the color with which the tobacco best corresponds with respect to body and maturity.

§ 29.489 *Rule 7.* Any lot of tobacco shall be regarded as meeting the specifications of a certain grade when the tobacco is not lower in any degree of quality than that stated in the specifications of such grade. The degree of uniformity specified for a particular grade governs the percentage of a lot which must meet the specifications with respect to other degrees of quality.

§ 29.490 *Rule 8.* Any lot of tobacco which clearly and fully meets the specifications of two or more grades shall be placed in the highest one of such grades; but any lot of tobacco which is on the marginal line between two or more grades so that the grade cannot be determined by applying other rules, shall be placed in the lowest grade in question.

§ 29.491 *Rule 9.* The grade assigned to any lot of tobacco shall be a true representation of the tobacco at the time of inspection and certification thereof.

§ 29.492 *Rule 10.* If, at any time, it is found that a lot of tobacco does not comply with the description and specifications of the grade previously assigned, it shall not thereafter be represented as being of such grade.

§ 29.493 *Rule 11.* Any special factor symbol, approved for the purpose by the Chief of the Standards and Technical Research Division, Tobacco Branch, P. M. A., may be used after a grade mark to show a peculiar side or characteristic of the tobacco. The Chief is authorized to establish, from time to time, grade subdivisions of the special groups of N, W, and S. Interpretations on the application of these standards, the use of specifications, and the meaning of terms shall be in accordance with determinations or clarifications made by the Chief. The use of any grade may be restricted by the Chief, during any marketing season, when he finds that the grade is not needed or appears in insufficient volume to justify making the grade.

§ 29.494 *Rule 12.* Any Leaf in F or R colors of the B3, B4, or B5 qualities, and any Leaf in D or G colors of B4 or B5 qualities, which is under 16" long shall be made a subgroup by substituting the letter "T" for the group letter "B" in the grade symbol.

§ 29.495 *Rule 13.* All qualities of Leaf in F and R colors which have the characteristics of Smoking-leaf may be made a subgroup by substituting the letter "H" for the group letter "B" in the grade symbol.

Issued at Washington, D. C., this 28th day of October 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 978—MILK IN THE NASHVILLE, TENN., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 978.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, as amended, effective not later than November 1, 1952. Any delay beyond that date in the effective date of this order would result in hardship to producers whose pastures and crops have been seriously affected by drought conditions. Producers might be forced to reduce their herds with a consequent loss of milk production and added expense and difficulty in rebuilding herds and production in the future.

The provisions of the said order are known to handlers, having been published in a decision which was issued by the Secretary on October 23, 1952.

The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found therefore that good cause exists for making this order effective November 1, 1952. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Nashville, Tennessee, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the

producers who, during the determined representative period (August 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Nashville, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. In § 978.51 (a), insert after "$1.25", the following: "except that for November and December 1952 and January 1953, such differential shall be $1.71, and for February and March 1953, such differential shall be $1.48,".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 28th day of October 1952, to be effective on and after November 1, 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter C—Procedural Regulations

[Regs., Serial No. PR-19]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

INTERVENTIONS BY CITIES, OTHER PUBLIC BODIES, AND CHAMBERS OF COMMERCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of October 1952.

In Draft Release No. 4, dated September 15, 1952, the Civil Aeronautics Board gave notice that it had under consideration a revision of § 302.15 of the Procedural Regulations relating to the filing of petitions for intervention in economic proceedings by cities, other public bodies, and chambers of commerce. The proposed rule would permit the filing of intervention petitions by such groups not later than the last day prior to the beginning of the hearing.

Pursuant to the opportunity given by the Board to participate in the making of the proposed rule, comments have been received from a number of cities, chambers of commerce, air carriers, and one government department.

The cities and chambers of commerce support the proposed rule pointing out the procedures they must follow to obtain formal permission for intervention which makes difficult meeting the time requirements of existing Board intervention rules.

The air carriers sending in comments generally oppose the revision primarily upon the ground that it would impose an unfair burden upon them by eliminating advance notice of the identity of all intervenors and the position to be taken by them. As an alternative these carriers suggest that cities and chambers of commerce be given until 20 days after the prehearing conference to file an intervention petition.

The comments filed by cities and chambers of commerce, which are backed by Board experience, would indicate that the alternative suggestion of the carriers would not meet the problem outlined in the notice of proposed rule making. The Board also believes that it will be a rare case in which the operation of the proposed rule will operate to the real detriment of a carrier. We will seek the cooperation of cities, other public bodies, and chambers of commerce which normally participate in Board proceedings to file their petitions for intervention by the date for exchange of exhibits. In those cases where they are unable to do so past experience does not indicate the imposition of an undue burden on carrier participants. Finally, if the new rule should be abused and should produce the results the commenting carriers fear, the Board will always be prepared to consider an appropriate revision.

We also do not believe the new rule should be broadened, as requested, to include government departments. The reason given is the difficulty of ascertaining the scope of a proceeding in advance of the prehearing conference. This reason is equally applicable to all participants in Board proceedings and was fully considered and disposed of prior to adoption of the present rules.

In consideration of the foregoing and the reasons set forth in the notice of September 15, 1952, the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR Part 302) as follows, effective November 14, 1952:

By adding to the provisions of paragraph (c), subparagraph (2), of § 302.15, a new subdivision (iii) to read as follows:

(iii) A petition to intervene in any Board proceeding filed by a city, other public body, or a chamber of commerce shall be filed with the Board not later than the last day prior to the beginning of the hearing thereon.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply sec. 1001, 52 Stat. 1017, 49 U. S. C. 641)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 52-11695; Filed, Oct. 30, 1952; 8:51 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 80]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.284 *Red civil airway No. 84 (Lafayette, La., to Atlanta, Ga.)*, concluding portion, is amended to read: "From the Meridian, Miss., radio range station via the Montgomery, Ala., Maxwell AFB radio range station; the intersection of the east course of the Maxwell AFB radio range and the northwest course of the Columbus, Ga., radio range; Columbus, Ga., radio range station; the intersection of the north course of the Columbus, Ga., radio range and the south course of the Campbellton, Ga., radio range, excluding the portion which overlaps danger areas, to the intersection of the south course of the Campbellton, Ga., radio range and the southwest course of the Atlanta, Ga., radio range."

2. Section 600.639 is amended by changing caption to read: *"Blue civil airway No. 39 (Savannah, Ga., to Elmira, N. Y.)"*, and by adding a new first portion to read: "From the Savannah, Ga., radio range station via the intersection of the northwest course of the Savannah, Ga., radio range and the south course of the Augusta, Ga., radio range; Augusta, Ga., radio range station; the intersection of the north course of the Augusta, Ga., radio range and the south course of the Greenville, S. C., radio range to the Greenville, S. C., radio range station."

3. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended by deleting the following portion: "Allentown, Pa., omnirange station to the Caldwell, N. J., omnirange station.", and by adding the following portion in lieu thereof: "Allentown, Pa., omnirange station to the Matawan, N. J., VHF VAR station via the Allentown omnirange 110° True radial."

4. Section 600.6015 *VOR civil airway No. 15 (Galveston, Tex., to Minot, N. Dak.)*, is amended by changing the first portion to read: "From the Galveston, Tex., omnirange station via the Houston, Tex., omnirange station; College Station, Tex., omnirange station; Waco, Tex., omnirange station, including an east alternate; Dallas, Tex., omnirange station, including an east alternate via the intersection of the Waco omnirange 036° True and the Dallas omnirange 178° True radials; Ardmore, Okla., omnirange station to the Tulsa, Okla., omnirange station, including an east alternate."

5. Section 600.6016 *VOR civil airway No. 16 (Los Angeles, Calif., to Nashville, Tenn.)* is amended by changing the first portion to read: "That airspace over the United States territory from the Ontario, Calif., omnirange station via the intersection of the Ontario omnirange 091° True and the Blythe omnirange 288° True radials; Blythe, Calif., omnirange station; Hassayampa, Ariz., omnirange station to the Phoenix, Ariz., omnirange station."

6. Section 600.6020 is amended by changing the caption to read: *"VOR civil airway No. 20 (Laredo, Tex., to Montgomery, Ala.)"*, and by deleting the following portion: "intersection of the New Orleans 066° True and the Mobile omnirange 242° True to the Mobile, Ala., omnirange station.", and by adding the following portion: "intersection of the New Orleans omnirange 066° True and the Mobile omnirange 242° True radials; Mobile, Ala., omnirange station; Evergreen, Ala., omnirange station to the Montgomery, Ala., omnirange station."

7. Section 600.6022 is amended to read:

§ 600.6022 *VOR civil airway No. 22 (New Orleans, La., to Tallahassee, Fla.)*. From the New Orleans, La., omnirange station via the intersection of the New Orleans omnirange 081° True and the Mobile omnirange 200° True radials; Mobile, Ala., omnirange station; intersection of the Mobile 070° True and the Crestview omnirange 274° True radials; Crestview, Fla., omnirange station; Marianna, Fla., omnirange station to the Tallahassee, Fla., omnirange station, excluding that portion above 19,000 feet which lies within the Tyndall AFB danger area (Area II) between sunset and sunrise.

8. Section 600.6030 *VOR civil airway No. 30 (Milwaukee, Wis., to New York, N. Y.)*, is amended by deleting the following portion: "Allentown, Pa., omnirange station to the Matawan, N. J., VHF VAR station via the Allentown omnirange 110° True radial.", and by adding the following portion in lieu thereof: "Allentown, Pa., omnirange station to the Caldwell, N. J., omnirange station."

9. Section 600.6070 is amended to read:

§ 600.6070 *VOR civil airway No. 70 (Palacios, Tex., to Lake Charles, La.)*. From the Palacios, Tex., omnirange station via the Galveston, Tex., omnirange station to the Lake Charles, La., omnirange station.

10. Section 600.6095 is amended to read:

§ 600.6095 *VOR civil airway No. 95 (Phoenix, Ariz., to Winslow, Ariz.)*. From the Phoenix, Ariz., omnirange station to the Winslow, Ariz., omnirange station.

11. Section 600.6105 is amended to read:

§ 600.6105 *VOR civil airway No. 105 (Phoenix, Ariz., to Prescott, Ariz.)*. From the Phoenix, Ariz., omnirange station to the Prescott, Ariz., omnirange station.

12. Section 600.6107 is amended to read:

§ 600.6107 *VOR civil airway No. 107 (Santa Barbara, Calif., to Bakersfield, Calif.)*. From the Santa Barbara, Calif., omnirange station to the Bakersfield, Calif., omnirange station.

13. Section 600.6113 is amended to read:

§ 600.6113 *VOR civil airway No. 113 (Modesto, Calif., to Reno, Nev.)*. From the Modesto, Calif., omnirange station to the Reno, Nev., omnirange station.

14. Section 600.6115 is amended to read:

§ 600.6115 *VOR civil airway No. 115 (Crestview, Fla., to Montgomery, Ala.)*. From the Crestview, Fla., omnirange station to the Montgomery, Ala., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. November 11, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-11690; Filed, Oct. 30, 1952; 8:50 a. m.]

[Amdt. 85]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone, and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 601 is amended as follows:

1. Section 601.639 is amended by changing the caption to read: *"Blue civil airway No. 39 control areas (Savannah, Ga., to Elmira, N. Y.)"*.

2. Section 601.1015 *Control area extension (Greenwood, Miss.)* is amended by adding the following portion to present control area extension: "and extending 5 miles either side of the 138° True and 318° True radials of the Greenwood omnirange to points 20 miles southeast and northwest of the omnirange station."

3. Section 601.1016 is amended to read:

§ 601.1016 *Control area extension (Jackson, Tenn.)*. Within 5 miles either side of the north course of the Jackson, Tenn., radio range extending from the radio range station to a point 20 miles north.

4. Section 601.1085 *Control area extension (Cherry Point, N. C.)* is revoked.

5. Section 601.1085 is added to read:

§ 601.1085 *Control area extension (Edwards Air Force Base, Calif.)*. All that airspace bounded on the south by Green civil airway No. 4, on the southwest by Blue civil airway No. 14, on the north by Lat. 34°58'00", on the east by Long. 117°48'00", including the airspace within 5 miles either side of a line bearing 56° True extending from the Edwards Air Force Base and passing through the Edwards omnirange station site at Lat. 35°00'18", Long. 117°41'14" to a point 15 miles northeast of the omnirange station site, excluding the portions which overlap danger areas.

6. Section 601.1125 is amended to read:

§ 601.1125 *Control area extension (Tallahassee, Fla.)*. Within 5 miles either side of the Tallahassee (Dale Mabry Field) ILS localizer course extending from the localizer to a point 30 miles southeast, within 5 miles either side of the south course of the Tallahassee radio range extending from the radio range station to a point 25 miles south, and within 5 miles either side of the 162° True and 342° True radials of the Tallahassee omnirange extending from the omnirange station to points 20 miles southeast and northwest, excluding the airspace above 19,000 feet overlapping Tyndall AFB danger area (Area II) (No. D-336) between sunset and sunrise.

7. Section 601.1134 is amended to read:

§ 601.1134 *Control area extension (Columbus, Ga.)*. Within 5 miles either side of the southwest course of the Columbus radio range extending from the radio range station to a point 20 miles southwest and within 5 miles either side of the 57° True radial of the Columbus omnirange extending from the omnirange station to a point 20 miles northeast, excluding the airspace overlapping danger areas, and the area within 5 miles either side of a line bearing 235° True through the Muscogee County Airport ILS outer compass locator extending from Red civil airway No. 84 on the northeast to Red civil airway No. 84 on the southwest.

8. Section 601.1135 is added to read:

§ 601.1135 *Control area extension (Marianna, Fla.)*. Within 5 miles either side of the 130° True radial of the Marianna omnirange extending from the omnirange station to a point 20 miles southeast, excluding the airspace above 19,000 feet overlapping Tyndall AFB danger area (Area II) (No. D-336) between sunset and sunrise.

9. Section 601.1156 is amended to read:

§ 601.1156 *Control area extension (Albany, Ga.)*. Within 5 miles either side of the west course of the Albany radio range extending from the radio range station to a point 25 miles west and within 5 miles either side of the 335° True radial of the Albany omnirange extending from the omnirange station to a point 20 miles northwest.

10. Section 601.1166 *Control area extension (Mobile, Ala.)*, is amended by adding the following portion to present control area extension: "and the area 5 miles either side of the 292° True radial of the Mobile omnirange extending from the omnirange station to a point 20 miles northwest."

11. Section 601.1174 is added to read:

§ 601.1174 *Control area extension (Santa Ana, Calif.)*. All that area bounded on the northeast by Amber civil airway No. 1, on the southwest by the Oceanside, Calif., control area extension (293° True from the Oceanside non-directional radio beacon) and on the west by the Los Angeles, Calif., control area extension 163° True from the Los Angeles radio range station.

12. Section 601.1175 is added to read:

§ 601.1175 *Control area extension (Charleston, S. C.).* Within 5 miles either side of the 341° True radial of the Charleston, S. C., omnirange extending from the omnirange station to a point 20 miles northwest.

13. Section 601.1200 is amended to read:

§ 601.1200 *Control area extension (Columbia, S. C.).* From the Columbia Airport extending 5 miles either side of the centerline of the northeast-southwest runway to a point 30 miles southwest of the airport, and within 5 miles either side of the 282° True radial of the Columbia omnirange extending from the omnirange station to a point 20 miles west.

14. Section 601.1264 *Control area extension (Dyersburg, Tenn.)*, is amended by adding the following portion to present control area extension: "and within 5 miles either side of the 78° True and 258° True radials of the Dyersburg omnirange extending from the omnirange station to points 20 miles northeast and southwest."

15. Section 601.1317 is added to read:

§ 601.1317 *Control area extension (Tuscaloosa, Ala.).* Within 5 miles either side of the 60° True radial of the Tuscaloosa omnirange extending from the omnirange station to a point 20 miles northeast.

16. Section 601.1318 is added to read:

§ 601.1318 *Control area extension (Muscle Shoals, Ala.).* Within 5 miles either side of the 118° True and 298° True radials of the Muscle Shoals omnirange extending from the omnirange station to points 20 miles southeast and northwest.

17. Section 601.1319 is added to read:

§ 601.1319 *Control area extension (Key West, Fla.).* Within 5 miles either side of the 313° True radial of the Key West omnirange extending northwest from the omnirange station to the eastern boundary of the Key West Warning Area (No. W–174).

18. Section 601.2054 is amended to read:

§ 601.2054 *Hutchinson, Kans., control zone.* Within a 5-mile radius of the Hutchinson Municipal Airport, within an 8-mile radius of the Hutchinson Naval Air Station, within 2 miles either side of the south course of the Hutchinson radio range extending from the radio range station to a point 23 miles south, and within 2 miles either side of the 222° True radial of the Hutchinson omnirange extending from the Hutchinson Municipal Airport to a point 10 miles southwest of the omnirange station.

19. Section 601.2134 is amended to read:

§ 601.2134 *Charleston, S. C., control zone.* Within a 5-mile radius of the Charleston Municipal Airport, within 2 miles either side of the northwest course of the Charleston radio range extending from the radio range station to the Summerville fan marker and within 2 miles either side of the 161° True and 341° True radials of the Charleston omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

20. Section 601.2137 is amended to read:

§ 601.2137 *Columbia, S. C., control zone.* Within a 5-mile radius of the Columbia Airport, within 2 miles either side of the east and west courses of the Columbia radio range extending from the airport to a point 5 miles east of the radio range station, and within 2 miles either side of the 102° True and 282° True radials of the Columbia omnirange extending from the airport control zone to a point 10 miles west of the omnirange station.

21. Section 601.2138 is amended to read:

§ 601.2138 *Crestview, Fla., control zone.* Within a 5-mile radius of the Crestview Airport, within 2 miles either side of the east course of the Crestview radio range extending from the radio range station to a point 10 miles east, and within 2 miles either side of the 110° and 290° True radials of the Crestview omnirange extending from the airport control zone to a point 10 miles west of the omnirange station.

22. Section 601.2142 is amended to read:

§ 601.2142 *Florence, S. C., control zone.* Within a 5-mile radius of the Florence Municipal Airport, within 2 miles either side of the southeast course of the Florence radio range extending from the radio range station to a point 10 miles southeast, and within 2 miles either side of the 51° True and 231° True radials of the Florence omnirange extending from the airport control zone to a point 10 miles northeast of the omnirange station.

23. Section 601.2143 *Fort Myers, Fla., control zone* is amended by adding the following to present control zone: "and within 2 miles either side of the 227° True radial of the Fort Myers omnirange extending from the omnirange station to a point 10 miles southwest."

24. Section 601.2146 *Greenwood, Miss., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the 138° True and 318° True radials of the Greenwood omnirange extending from the airport control zone to a point 10 miles southeast of the omnirange station."

25. Section 601.2148 is amended to read:

§ 601.2148 *Jackson, Miss., control zone.* Within a 5-mile radius of Hawkins Airport extending 2 miles either side of the north course of the Jackson radio range to the Flora Fan Marker and within 2 miles either side of the 162° True and 342° True radials of the Jackson omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

26. Section 601.2150 *Key West, Fla., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the 313° True radial of the Key West omnirange extending from the omnirange station to a point 10 miles northwest."

27. Section 601.2154 *Memphis, Tenn., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the 109° True radial of the Memphis omnirange extending from the airport control zone to a point 10 miles east of the omnirange station."

28. Section 601.2157 *Mobile, Ala., control zone* is amended by adding the following portion to the present control zone: "and within 2 miles either side of the 112° True and 292° True radials of the Mobile omnirange extending from the Bates Field control zone to a point 10 miles northwest of the omnirange station."

29. Section 601.2158 *Mobile, Ala., control zone* is amended by changing name of airport from "Brookley Field" to read: "Brookley Air Force Base."

30. Section 601.2160 *Muscle Shoals, Ala., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the 118° True radial of the Muscle Shoals, omnirange extending from the omnirange station to a point 10 miles southeast."

31. Section 601.2165 *Savannah, Ga., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the 196° True radial of the Savannah omnirange extending from the omnirange station to a point 10 miles south."

32. Section 601.2167 is amended to read:

§ 601.2167 *Tallahassee, Fla., control zone.* Within a 5-mile radius of Dale Mabry Field, within 2 miles either side of the northwest course of the Tallahassee radio range extending from the radio range station to a point 10 miles northwest, and within 2 miles either side of the 162° True and 342° True radials of the Tallahassee omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station, excluding the airspace above 19,000 feet overlapping Tyndall AFB Danger Area (Area II) (No. D–336) between sunset and sunrise.

33. Section 601.2168 *Tampa, Fla., control zone* is amended by adding the following portion to present control zone: "including the area within 2 miles either side of the 274° True radial of the Tampa omnirange extending from the Pinellas County Airport control zone to a point 10 miles west of the omnirange station."

34. Section 601.2192 is amended to read:

§ 601.2192 *Ontario, Calif., control zone.* Within a 5-mile radius of the Ontario International Airport and within 2 miles either side of a line bearing 89° True extending from the airport to the centerline of the northwest course of the Riverside, Calif., radio range.

35. Section 601.2211 *Cherry Point, N. C., control zone* is revoked.

36. Section 601.2211 is added to read:

§ 601.2211 *Edwards Air Force Base, Calif, control zone.* Within a 5-mile radius of the Edwards Air Force Base, excluding the portion which overlaps danger areas.

37. Section 601.2237 *Dyersburg, Tenn., control zone* is amended by adding the following to present control zone: "and within 2 miles either side of the 78° True radial of the Dyersburg omnirange extending from the airport control zone to a point 10 miles northeast of the omnirange station."

38. Section 601.2251 *Albany, Ga., control zone* is amended by adding the following to present control zone: "and within 2 miles either side of the 155° True and 335° True radials of the Albany omnirange extending from the Municipal Airport control zone to a point 10 miles northwest of the omnirange station."

39. Section 601.2286 is amended to read:

§ 601.2286 *Columbus, Ga., control zone.* Within a 5-mile radius of the Muscogee County Airport, within 2 miles either side of the north course of the Columbus, Ga., radio range extending from the radio range station to include a 5-mile radius of Lawson Air Force Base, within 2 miles either side of the southwest course of the radio range extending from the radio range station to a point 10 miles southwest, and within 2 miles either side of the 57° True radial of the Columbus omnirange extending from the omnirange station to a point 10 miles northeast, excluding the airspace which overlaps danger areas.

40. Section 601.2315 is added to read:

§ 601.2315 *San Bernardino, Calif., control zone.* Within a 5-mile radius of Norton Air Force Base and within 2¼ miles either side of a line bearing 248° True extending from the Norton AFB to the centerline of the northwest course of the Riverside, Calif., radio range.

41. Section 601.2316 is added to read:

§ 601.2316 *Marianna, Fla., control zone.* Within a 5-mile radius of the Marianna Airport and within 2 miles either side of the 130° True radial of the Marianna omnirange extending from the omnirange station to a point 10 miles southeast.

42. Section 601.2317 is added to read:

§ 601.2317 *Tuscaloosa, Ala., control zone.* Within a 5-mile radius of the Van De Graaff Airport and within 2 miles either side of the 60° True radial of the Tuscaloosa omnirange extending from the omnirange station to a point 10 miles northeast.

43. Section 601.2318 is added to read:

§ 601.2318 *Myrtle Beach, S. C., control zone.* Within a 5-mile radius of the Myrtle Beach Municipal Airport and within 2 miles either side of the northeast course of the Myrtle Beach VHF VAR radio range extending from the VHF VAR radio range station to a point 10 miles northeast.

44. Section 601.4639 is amended by changing caption to read: *"Blue civil airway No. 39 (Savannah, Ga., to Elmira, N. Y.)."*

45. Section 601.6020 is amended to read:

§ 601.6020 *VOR civil airway No. 20 (Laredo, Tex., to Montgomery, Ala.).* All of VOR civil airway No. 20.

46. Section 601.6070 is amended to read:

§ 601.6070 *VOR civil airway No. 70 (Palacios, Tex., to Lake Charles, La.).* All of VOR civil airway No. 70.

47. Section 601.6095 is amended to read:

§ 601.6095 *VOR civil airway No. 95 (Phoenix, Ariz., to Winslow, Ariz.).* All of VOR civil airway No. 95.

48. Section 601.6105 is amended to read:

§ 601.6105 *VOR civil airway No. 105 (Phoenix, Ariz., to Prescott, Ariz.).* All of VOR civil airway No. 105.

49. Section 601.6107 is amended to read:

§ 601.6107 *VOR civil airway No. 107 (Santa Barbara, Calif., to Bakersfield, Calif.).* All of VOR civil airway No. 107.

50. Section 601.6113 is amended to read:

§ 601.6113 *VOR civil airway No. 113 (Modesto, Calif., to Reno, Nev.).* All of VOR civil airway No. 113.

51. Section 601.6115 is amended to read:

§ 601.6115 *VOR civil airway No. 115 (Crestview, Fla., to Montgomery, Ala.).* All of VOR civil airway No. 115.

52. Section 601.7001 *VOR reporting points* is amended by changing the Point Reyes Intersection to read: "Point Reyes intersection: intersection of the Oakland, Calif., omnirange 305° True and the Ukiah, Calif., omnirange 162° True radials."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. November 11, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52–11691; Filed, Oct. 30, 1952; 8:50 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

PART 2—RULES OF PRACTICE

INTERLOCUTORY APPEALS

The Commission on October 23, 1952, amended § 2.20 of its rules of practice (§§ 2.1 to 2.31) so as to make said section read as follows, effective thirty days from date of publication in the FEDERAL REGISTER.

NOTE: In said section, the number to the right of the decimal point corresponds with the Roman number in the Commission's rules of practice, as included in its publication, Rules, Policy, Organization and Acts.

§ 2.20 *Interlocutory appeals to the Commission from rulings of hearing examiners.* Except as provided for in §§ 2.14 and 2.16, parties shall have the right to prosecute interlocutory appeals from rulings of a hearing examiner during the time the proceeding is pending before him only when it is shown to the satisfaction of the Commission that the prompt decision of such appeal is necessary to prevent unusual expense and delay, and such showing shall be made in the appeal. An appeal under this section must be filed within ten (10) days following the adverse ruling by the hearing examiner and any reply thereto, including any supporting memoranda or brief by an opposing party, must be filed within ten (10) days after service of the appeal upon him.

Promulgated as of this date in pursuance of the action of the Federal Trade Commission under date of October 23, 1952, effective thirty days from date of publication in the FEDERAL REGISTER.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46)

By direction of the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[F. R. Doc. 52–11688; Filed, Oct. 30, 1952; 8:49 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1951 Supp., 141; 17 F. R. 2359) are amended as indicated below:

1a. Section 141.5 (d) is amended to read:

§ 141.5 *Sodium penicillin, calcium penicillin, potassium penicillin; moisture, clarity, crystallinity, and heat stability.* * * *

(d) *Heat stability*—(1) *Crystalline penicillin, crystalline penicillin G.* Store a weighed sample (approximately 30 milligrams) of crystalline penicillin in an unstoppered 50-milliliter Erlenmeyer flask for 4 days in an electric oven at 100° C.±1°. At the end of this period it does not show a loss of more than 10 percent of its original potency when determined as follows: Dilute a weighed sample (approximately 30 milligrams) with a 1-percent phosphate buffer at *pH* 6.0 to a concentration of approximately 1.2 milligrams per milliliter (2,000 units per milliliter). Add 2.0-milliliter aliquots to each of two 125-milliliter glass-stoppered Erlenmeyer or iodine flasks. To one add 2.0 milliliters of 1N NaOH and allow to stand at room temperature for 15 minutes. At the end

of this time add 2.0 milliliters of 1.2N HCl and add 10 milliliters of 0.01N I_2 (prepared from 0.1N I_2 U. S. P.). (Equal volumes of 1N NaOH and 1.2N HCl when mixed give *p*H 1.0.) After 15 minutes titrate the excess iodine, using 0.01N $Na_2S_2O_3$ (prepared from 0.1N $Na_2S_2O_3$) standardized accurately against potassium iodate. Toward the end of the titration add one drop of starch solution or about 5.0 milliliters of CCl_4. Continue the titration by the addition of 0.01 to 0.02-milliliter portions of 0.01N $Na_2S_2O_3$, shaking vigorously after each addition. The end point is reached when the blue color of the starch-iodine complex is discharged or when the CCl_4 layer becomes colorless. To the second flask add 10 milliliters of 0.01N I_2 and titrate immediately with 0.01N $Na_2S_2O_3$ for the blank determination. Divide the difference in titers by a factor, F, which is the number of milliliters of 0.01N I_2 absorbed by 1.0 milligram of sodium penicillin G working standard, to obtain the milligrams of penicillin sodium salt. Determine the factor F by actual standardization against the sodium penicillin G working standard, using the above method.

$$\text{Units of penicillin G per milligram} = \frac{\text{Difference in titers} \times 1{,}667 \times \text{N of } Na_2S_2O_3}{\text{Milligrams in 2.0 milliliters} \times F \times 0.01}$$

$$\text{Percent loss of potency} = \frac{(\text{Original assay} - \text{assay after 4 days at } 100^\circ\text{ C}) \times 100}{\text{Original assay}}$$

(2) *Crystalline penicillin O.* Proceed as directed in subparagraph (1) of this paragraph, except make the calculations as follows: Divide the difference in titers by a factor, *F*, which is the number of milliliters of 0.01N I_2 absorbed by 1.0 milligram of the penicillin O working standard, to obtain the milligrams of potassium penicillin O. Determine the factor *F* by actual standardization against the penicillin O working standard.

$$\text{Units of penicillin O per milligram} = \frac{\text{Difference in titers} \times 1{,}612 \times \text{N of } Na_2S_2O_3}{\text{Milligrams in 2 milliliters} \times F \times 0.01}$$

Penicillin O does not show a loss of more than 10 percent of its original potency.

b. Section 141.5 (g) is amended to read:

(g) *Penicillin G content of crystalline penicillin O.* Accurately weigh approximately 300 milligrams of the sample to be tested in a 250-milliliter Erlenmeyer flask, dissolve in 1.0 milliliter of 2.5 percent KOH solution, add with swirling 50.0 milliliters of 4.5 percent $KMnO_4$ solution and heat on the steam bath for 2 hours, covering the flask with a watch glass. Cool to room temperature and add 25.0 milliliters of 10 percent oxalic acid solution. When the reaction has ceased, add 15.0 milliliters of 18N H_2SO_4 stepwise with agitation and cooling. Add 30.0 grams of NaCl and agitate until a clear, colorless solution is obtained. Transfer to a separatory funnel and extract with three portions of chloroform, 30 milliliters, 20 milliliters, and 10 milliliters in that order. Filter the extracts through a pledget of cotton previously moistened with chloroform and collect in a second separatory funnel. Add 50.0 milliliters of 0.1N NH_4OH to the combined extracts, shake 5 minutes and allow the phases to separate for 10 minutes. Discard all but a few milliliters of the chloroform layer. Draw off the last few milliliters of chloroform and about 15.0 milliliters of the NH_4OH layer into a glass-stoppered test tube and centrifuge 2 minutes to obtain a clear aqueous layer. Prepare a blank by shaking 50.0 milliliters of 0.1N NH_4OH with 60.0 milliliters of chloroform as described above. Determine the optical density of the blank compared with 0.1N NH_4OH at 220 and 224 mμ. Determine the optical density of the sample at 220 and 224 mμ compared with the blank. Calculate the quantity of benzoic acid in the solution from the equation:

$$x = \frac{RE224 - E220}{RB - A}.$$

x = concentration of milligrams per milliliter of benzoic acid in sample.
A = optical density per milligram of benzoic acid U. S. P. per milliliter 0.1N NH_4OH at 220 mμ.
B = optical density per milligram of benzoic acid U. S. P. per milliliter of 0.1N NH_4OH at 224 mμ.
R = $\frac{\text{optical density of blank at 220 m}\mu}{\text{optical density of blank at 224 m}\mu}$.
$E220$ = optical density of sample at 220 mμ.
$E224$ = optical density of sample at 224 mμ.

Calculate the quantity of penicillin G in the sample from the equation:

$$\frac{3.05 \times (50)\,(100)}{\text{Weight of sample in milligrams}} = \text{percent penicillin G.}$$

2. In § 141.27 *Procaine penicillin in oil*, paragraph (a) *Potency* is amended by inserting the following new sentence between the third and fourth sentences: "The sample may also be prepared as follows: Introduce 1 milliliter of the well-shaken sample by means of a 2.0-milliliter hypodermic syringe into a blending jar containing 98 milliliters of 1-percent phosphate buffer at *p*H 6.0 and 1.0 milliliter of polysorbate 80. Using a high-speed blender, blend the mixture for 1 minute and make the proper estimated dilutions in 1-percent phosphate buffer at *p*H 6.0."

3. Section 141.112 (b) (1) (iii) and (iv) are amended to read:

§ 141.112 *Streptomycin-polymyxin-bacitracin tablets.* • • •

(b) *Polymyxin used in making the tablets*—(1) *Potency.* • • •

(iii) *Working standard.* Weight out a sufficient quantity of the working standard (obtained from the Food and Drug Administration) and make a 10,000 unit per milliliter stock solution by diluting with 1-percent phosphate buffer, *p*H 6.0. This solution may be used for 2 weeks if kept in the refrigerator.

(iv) *Standard curve.* Prepare daily a standard curve as directed in § 141.101 (d) with the following exceptions: Using a solution of the polymyxin working standard in 1-percent phosphate buffer, *p*H 6.0, prepare volumetrically the following concentrations: 60, 70, 80, 90, 100, 110, 120, 130, 140, and 150 units per milliliter in 1-percent phosphate buffer, *p*H 6.0. The 100 units per milliliter is used as the reference point.

This order, which provides for a change in the iodometric assay procedure for crystalline penicillin, crystalline penicillin G, and crystalline penicillin O; a change in the method for determining the quantity of penicillin G that may be contained in penicillin O; a change in the assay procedure for polymyxin; and for the optional use of a high-speed blender in the assay of procaine penicillin in oil, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay providing for the changes set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: October 27, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

Dated, October 27, 1952.

[F. R. Doc. 52-11680; Filed, Oct. 30, 1952; 8:48 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MEXICO, RYUKYU ISLANDS, AND STATE OF ISRAEL

a. In § 127.304. *Mexico*, amend subdivision (i) (b) of paragraph (b) (9), to read as follows:

(b) Each parcel exceeding 1,000 pesos in value must be accompanied by a commercial invoice in triplicate.

b. In § 127.342 *Ryukyu Islands*, make the following changes:

1. Amend paragraph (a) (2) to read as follows:

(2) *Registration.* Fee, 40 cents. (See § 127.101.)

2. Amend paragraph (a) (3) to read as follows:

(3) *Indemnity.* See §§ 127.105 to 127.110, inclusive.

c. In § 127.282 *Israel (State of)*, make the following changes:

1. In paragraph (a) (8) redesignate present subdivisions (i) and (ii) as (ii) and (iii), respectively, and insert new subdivision (i), to read as follows:

(i) Israeli currency.

2. In paragraph (b) (5) amend subdivision (vi) to read as follows:

(vi) State monopolies, etc.:
(*a*) False and counterfeit money.
(*b*) Israeli currency.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] V. C. BURKE,
Acting Postmaster General.

[F. R. Doc. 52-11674; Filed, Oct. 30, 1952; 8:46 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs. Amdt. 18 [1]]

PART 371—GENERAL LICENSES

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

MISCELLANEOUS AMENDMENTS

1. Section 371.9 *General in-transit license GIT* is amended in the following particulars:

The note following paragraph (c) *Commodities excepted from the provisions of this general license* is amended by adding thereto the following paragraph:

See § 372.4 of this subchapter for export application requirements for in-transit shipments where General In-transit License GIT is not applicable.

2. Section 371.13 *Ship and plane stores, supplies and equipment; crew's effects* is amended in the following particulars:

a. The titles and letter designations of paragraphs (a) *Ship stores, supplies, and equipment general license*, (c) *Plane stores, supplies and equipment general license*, and (d) *Crew's effects general license* are changed to read respectively as follows:

(a) *General license SHIP STORES.* • • •

(b) *General license PLANE STORES.* • • •

(c) *General license CREW.* • • •

b. Paragraph (b) *United States and Canadian registered vessels; ship stores, supplies and equipment general license* is deleted and a new paragraph (d) is added to read as follows:

(d) *General license REGISTERED CARRIER STORES.* (1) A general license REGISTERED CARRIER STORES is hereby established authorizing exportations of certain commodities for use by or on a vessel or plane of United States or Canadian registry located at a port outside the United States or Canada: *Provided*, That such commodities are (i) shipped as cargo under a bill of lading on an exporting carrier of United States or Canadian registry; (ii) in usual and reasonable kind or quantities; (iii) ordered by the person in command of the vessel or plane to which they are consigned, or the owner or agents thereof, and intended to be used or consumed on board such vessel or plane; (iv) not intended for unlading in a foreign country except for transshipment on another carrier of U. S. or Canadian registry and delivery to the vessel or planes to which they are consigned; and (v) covered by such shipper's export declarations as are required to be filed by § 379.1 (b) of this subchapter.

(2) Only commodities described in paragraph (a) of this section may be exported to vessels of United States or Canadian registry located at a port outside the United States or Canada, and only articles described in paragraph (b) of this section may be exported to planes of American or Canadian registry located outside the United States or Canada.

(3) In addition, commodities may be exported to vessels or planes of United States or Canadian registry located outside the United States or Canada pursuant to the provisions of any other general license applicable to the commodities proposed to be exported and to the country in which the port and ship or plane are located.

c. The note following former paragraph (c) *Plane stores, supplies and equipment general license* is moved to the end of the section and given the following title: *"Spare parts for vessels of war and aircraft"*.

3. Section 372.4 *License applications for in-transit shipments* is amended to read as follows:

§ 372.4 *License applications for in-transit shipments*—(a) *Information required on application.* License applications for commodities moving in transit through the United States which may not be exported under the general in-transit license, GIT, must include in the commodity description column of the application for license, Form IT-419, the following:

(1) The name and address of the foreign consignor who shipped the goods to the United States;

(2) A statement that the shipment is wholly of foreign origin; and

(3) The notation "IN-TRANSIT SHIPMENT."

(b) *Applicability of special provisions.* In addition, except for shipments originating in Canada, the applicant must comply, where applicable, with the provisions of § 373.34 of this subchapter with respect to confirmation of country of ultimate destination and verification of actual delivery (IC/DV); § 372.3 (d), with respect to ultimate consignee statement; § 373.22 of this subchapter with respect to Swiss blue import certificate; and § 373.23 of this subchapter with respect to Austrian import identification number and Belgian Congo and Swedish import certificate or other import authorization number.

(c) *Shipments originating in Canada.* License applications for shipments originating in Canada which may not be exported under the general in-transit license, GIT, need not comply with the requirements set forth in paragraph (b) above. In lieu thereof, such applications must contain the following certification in the commodity description column of Form IT-419, or on an attached sheet:

As a material representation in connection with this application, I certify that I have examined Canadian Export License or Permit No. ------ expiring ----------, or a copy certified by the Canadian exporter, and that such permit authorizes the exportation of the commodity(ies) to the ultimate destination and ultimate consignee shown on this application.

(d) *Nature of exportations covered by provisions of this section.* Licenses issued under this section will be valid only for the export of in-transit shipments wholly of foreign origin and for which a Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry is outstanding covering the shipments.

NOTE: 1. The provisions of Parts 370 through 399 of this subchapter, inclusive, relating to quota limitations or other short supply considerations affecting the licensing of the commodity, are not applicable to license applications for in-transit shipments. For example, the following requirements are inapplicable: Adherence to timetable licensing (§ 373.51 of this subchapter); NPAF forms on totally allocated commodities (§ 373.29 of this subchapter); priority ratings (Part 398 of this subchapter); evidence of availability (§ 373.16); and statement of past participation in exports of certain commodities (§ 373.24 of this subchapter).

2. For in-transit shipments under general license, see § 371.9 of this subchapter; for special provisions affecting applications covering in-transit shipments of certain commodities originating in Japan, see § 373.14 of this subchapter; and for special clearance procedures applicable to in-transit shipments, see § 379.3 (b) of this subchapter.

3. In clearing an in-transit shipment under a validated license, the collector of customs may, at his discretion, require the licensee to submit a copy of the Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry covering such shipment.

4. Exportations made under a validated export license for shipments of foreign origin moving in transit through the United States must comply with the destination control provisions (§ 381.4 of this subchapter). Under these provisions all copies of the in-transit shipper's export declaration presented to the collector at the port of exit must contain the destination control statement. In addition, the destination control statement must be shown on all bills of lading and commercial invoices in the possession of, or sent to the ultimate consignee or purchaser by, the shipper, exporter, carrier, and agent in the United States.

4. Section 373.14 *Special provisions for certain commodities originating in*

[1] This amendment was published in Current Export Bulletin No. 682, dated October 23, 1952.

Japan is amended by adding thereto the following note:

NOTE: See § 372.4 of this subchapter for export application requirements for commodities requiring a validated license when moving in-transit through the United States.

5. Section 373.23 *Special provisions for exportations to Austria, the Belgian Congo or Sweden*, is amended in the following particulars:

The footnote (footnote 1) is amended to read as follows:

[1] For exportations to Austria, the applicant must show the Austrian import identification number. Such numbers run in series from 1,000 to 399,999 inclusive, and in all instances will be preceded by the letters "IKN."

6. Section 373.51 *Supplement No. 1*, "Time schedules for submission of applications for licenses to export certain Positive List commodities" is amended in the following particulars:

a. Footnote 1 is amended to read as follows:

[1] Applications for licenses to export commodities for which no specified filing dates are announced may be submitted at any time. (See § 372.3 (a) of this subchapter.) Export applications for commodities requiring a validated license when moving in transit through the United States may be submitted at any time and are not subject to specified filing dates (see § 372.4 of this subchapter).

b. For the fourth quarter, 1952, the following entries and related submission dates are added:

Dept. of Commerce Schedule B No.	Commodity	Submission dates, fourth quarter 1952
619159 664998	Selenium powder..... Selenium metal.....	Nov. 3–Nov. 17, 1952.

This amendment shall become effective as of October 23, 1952.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F R. 12245, 3 CFR 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR 1948 Supp.)

LORING K. MACY,
Director,
Office of International Trade.

[F. R. Doc. 52–11692; Filed, Oct. 30, 1952; 8:51 a. m.]

[1] This amendment was published in Current Export Bulletin No. 682, dated October 23, 1952.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required	Commodity lists
	Power excavators and dredging machines, and parts: Construction power cranes and shovels, new (report used in 720160):					
720112	Crawler mounted, full revolving, convertible, 2 and 2½ cu. yd. dipper capacity, new.[1]	No.	CONS	None	RO	A
720112	Crawler mounted, full revolving, convertible, less than 2 cu. yd. dipper capacity, new.[1]	No.	CONS	None	RO	----------
720117	Crawler or walker mounted, full revolving, convertible, over 2½ cu. yd. dipper capacity, new.[2]	No.	CONS	None	RO	A B D
720122	Rubber-tired mounted, including truck or wagon mounted, full revolving, convertible, designed for airborne transport, new.[3]	No.	CONS	None	RO	A
720122	Rubber-tired mounted, including truck or wagon mounted, full revolving, convertible, 2 cu. yd. dipper capacity and over, new.[3]	No.	CONS	None	RO	A
720122	Other rubber-tired mounted, including truck or wagon mounted, full revolving, convertible, new.[3]	No.	CONS	None	RO	----------
720127	Full revolving, unmounted, 2 cu. yd. dipper capacity and over, new.[4]	No.	CONS	None	RO	A
720127	Full revolving, unmounted, less than 2 cu. yd. dipper capacity, new.[4]	No.	CONS	None	RO	----------
720132	Not full revolving, mounted and unmounted, new.[5]	No.	CONS	None	R	----------
	Power excavators and dredging machines, used and rebuilt (report new in 720112–720147):					
720160	Power cranes and shovels, rubber-tired mounted, including truck or wagon mounted, full revolving, designed for airborne transport, used and rebuilt.[6]	No.	CONS	None	RO	A
720160	Power cranes and shovels, full revolving, mounted and unmounted, 2 cu. yd. dipper capacity and over, used and rebuilt.[6]	No.	CONS	None	RO	A
720160	Other power cranes and shovels, full revolving, mounted and unmounted, used and rebuilt.[6]	No.	CONS	None	RO	----------
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for power cranes and shovels designed for airborne transport, included on the Positive List under Schedule B Nos. 720122 and 720160 (specify by name).[7]	-------	CONS	None	RO	A
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for other power cranes and shovels for which an import certificate is required, included on the Positive List under Schedule B Nos. 720112, 720117, 720122 and 720127 (specify by name).[7]	-------	CONS	1,000	RO	A.
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for power cranes and shovels for which no import certificate is required, included on the Positive List under Schedule B Nos. 720112, 720122, and 720127 (specify by name).[7]	-------	CONS	1,000	RO	----------
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for power cranes and shovels included on the Positive List under Schedule B No. 720132 (specify by name).[7]	-------	CONS	1,000	R	----------
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for other power cranes and shovels, included on the Positive List under Schedule B No. 720160, for which an import certificate is required (specify by name).[7]	-------	CONS	100	RO	A
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for power cranes and shovels included on the Positive List under Schedule B No. 720160, for which no import certificate is required (specify by name).[7]	-------	CONS	100	R	----------
720210	Parts, accessories, and attachments, n. e. c., specially fabricated for trenchers, ditchers, and excavating leaders included on the Positive List under Schedule B Nos. 720137, 720142, and 720160 (specify by name).[7]	-------	CONS	100	R	----------

[1] The above two entries are substituted for the entry presently on the Positive List under Schedule B No. 720112. The effect of this revision is to amend the commodity description without making substantive change in the coverage of the entry; and to add the commodities in the above first entry to the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), effective December 8, 1952, as indicated in the column headed "Commodity Lists".

[2] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 720117. The effect of this revision is to amend the commodity description without making substantive change in the coverage of the entry; and to add the commodities in the above entry to the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), effective December 8, 1952, as indicated in the column headed "Commodity Lists". The commodities covered by this entry are subject to the dollar-limit (DL) restrictions (§ 371.2 of this subchapter).

[3] The above three entries are substituted for the entry presently on the Positive List under Schedule B No. 720122. The effect of this revision is to add the commodities in the above first two entries to the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), effective December 8, 1952, as indicated in the column headed "Commodity Lists".

[4] The above two entries are substituted for the entry presently on the Positive List under Schedule B No. 720127. The effect of this revision is to add the commodities in the above first entry to the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), effective December 8, 1952, as indicated in the column headed "Commodity Lists."

[5] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 720132. The effect of this revision is to clarify the coverage of the entry and makes no substantive change.

[6] The above three entries are substituted for the first entry presently on the Positive List under Schedule B No. 720160. The effect of this revision is to add the commodities in the above first two entries to the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), effective December 8, 1952, as indicated in the column headed "Commodity Lists".

[7] The above seven entries are substituted for the first and third entries presently on the Positive List under Schedule B No. 720210. The effect of this revision is to reduce the GLV dollar-value limits from $100 to none for the commodities included in the above first entry; to increase the GLV dollar-value limits from $100 to $1,000 for the commodities included in the above second entry; to increase the GLV from $100 to $1,000 and to remove the commodities included in the above third entry from the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), as indicated in the column headed "Commodity Lists"; to increase the GLV dollar-value limits from $250 to $1,000 for the commodities included in the above fourth entry; to list separately the commodities included in the above fifth entry without making substantive change; and to reduce the GLV dollar-value limits from $250 to $100 for the commodities included in the above sixth and seventh entries.

[6th Gen. Rev. of Export Regs., Amdt. P. L. 14[1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following revisions are made in commodity descriptions. These revisions include changes in general license GLV dollar-value limit where indicated.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required	Commodity lists
722022	Parts, accessories, and attachments, n. e. c., specially fabricated for tractor-mounted scraper loaders, 10 tons and over net vehicle weight.[1]	-------	CONS	100	RO	A
722022	Parts, accessories, and attachments, n. e. c., specially fabricated for scrapers and graders.[1]	-------	CONS	100	RO	----------

[1] The above two entries are substituted for the first entry presently on the Positive List under Schedule B No 722022. The effect of this revision is to remove the commodities in the above second entry from the commodities subject to the IC/DV procedure (§ 373.34 of this subchapter), effective October 23, 1952, as indicated in the column headed "Commodity Lists".

This part of the amendment shall become effective as of 12:01 a. m., October 30, 1952.

2. The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity
	Metal manufactures, n. e. c., not specially fabricated for particular machines, or equipment (see § 399.2 of this subchapter):
	Other metals, except precious (specify by name and type of metal):
619030	Fabricated metal manufactures, n. e. c. (specify by selenium content and grade).[1]
	Nonferrous ores and concentrates, n. e. c. (specify by name) (report radium ore concentrates for industrial use in 629940):
664598	Selenium (specify selenium content and grade).[1]

[1] By this amendment, the last entry presently on the Positive List under Schedule B No. 619030 is revised to except selenium metal manufactures (report iron and steel manufactures in 619010; and precious metal manufactures in 629900–669710)."

[2] By this amendment, the last entry presently on the Positive List under Schedule B No. 664598 is revised to read as follows: "Other ores and concentrates, n. e. c., except selenium."

This part of the amendment becomes effective as of 12:01 a. m., October 23, 1952.

Shipments of any commodities whose GLV dollar-value limits were reduced as a result of changes set forth in Part 1 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., October 30, 1952, may be exported under the previous general license provisions up to and including November 22, 1952. Any such shipment not laden aboard the exporting carrier on or before November 22, 1952, requires a validated license for export.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Office of International Trade.

[F. R. Doc. 52–11693; Filed, Oct. 30, 1952; 8:51 a. m.]

(d) Allotment number, date of trust patent, and name of the reservation where the applicant is allotted.

(e) If the applicant is unallotted, the names of all relatives who may have received allotments, their blood relationship to the applicant, and the name of the reservation where such relative may be allotted.

(f) The name and degree of Indian blood of each parent of the applicant; the name of the tribe or band with which each parent of the applicant is enrolled or affiliated; and the names and addresses of any brothers and sisters of the applicant who may have filed applications for enrollment.

(g) If the applicant has previously been enrolled on an approved roll of Indians of California or an earlier roll of the respective Bands, the number thereon of the applicant.

(h) If an applicant has been adopted into one of the Bands, the name of the band and the date and evidence of such adoption.

§ 54.5 *Persons to be enrolled.* The names of persons in any of the following categories shall be placed on the respective membership rolls of the Bands:

(a) Indians of the Bands, living on June 30, 1949, who have received allotments on the reservation of one of the Bands.

(b) Children, living on June 30, 1949, who were born of such allottees.

(c) Descendants, living on June 30, 1949, of such allottees who died prior to June 30, 1949.

(d) Indians, not included in the categories set out in paragraphs (a), (b), and (c) of this section, who have one-fourth or more degree of Indian blood and can establish that they have been affiliated with one of the Bands for a period of one year or more preceding June 30, 1949. If during the said period an Indian maintained a residence on the reservation; was a reasonably active participant in the tribal affairs of one of the Bands in which he or she applies for enrollment, and was recognized as a member of one of the Bands, such person shall be deemed to be entitled to enrollment.

(e) Children, living on June 30, 1949, who were born of an Indian parent, living on June 30, 1949. If such parent would otherwise be eligible for enrollment under paragraph (d) of this section.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter G—Enrollment and Reallotment of Indians

PART 54—ENROLLMENT OF INDIANS OF THE CABAZON, AUGUSTINE, AND TORRES-MARTINEZ BANDS OF MISSION INDIANS IN CALIFORNIA

Sec.
54.1 Purpose.
54.2 Definitions.
54.3 Preparation of rolls.
54.4 Application for enrollment.
54.5 Persons to be enrolled.
54.6 Enrollment Committee election.
54.7 Review of applications by Enrollment Committee.
54.8 Determination of eligibility and enrollment by Director.
54.9 Appeal.
54.10 Approved rolls.
54.11 Certificate.
54.12 Special instructions.

AUTHORITY: §§ 54.1 to 54.12 issued under sec. 10, 54 Stat. 64. Interpret or apply sec. 5, 64 Stat. 471.

§ 54.1 *Purpose.* The regulations in this part govern the enrollment of persons in the Cabazon, Augustine, and Torres-Martinez Bands of Mission In-

(f) If an Indian, who applies for enrollment under the provisions of paragraph (d) or (e) of this section, has received in his or her own right an allotment with some other band or tribe and has not relinquished such allotment prior to June 30, 1949, such person shall not be enrolled. Ownership of an allotment or an interest in an allotment acquired through inheritance shall not, however, be a bar to enrollment in accordance with this part.

§ 54.6 *Enrollment Committee election.* A person whose name now appears on a roll of one of the bands which is maintained by the Director, or, if not so maintained, on a roll which is maintained by the respective Band, shall be entitled to vote, at a time and place and in a manner to be designated by the Director, to elect three persons whose names appear on such roll as members of the Enrollment Committee. The three persons receiving the highest number of votes shall constitute the Enrollment Committee of such band.

§ 54.7 *Review of applications by Enrollment Committee.* The Director shall refer duly filed applications for enrollment to the Enrollment Committee of the band in which the applicant seeks enrollment. The Enrollment Committee shall review each such application, and may require an applicant to furnish additional information in writing or in person to assist the Enrollment Committee to make a recommendation. The Enrollment Committee shall file with the Director a separate written report and recommendation with respect to each application thirty (30) days from the date of referral to it of an application. If the recommendation of the Enrollment Committee with respect to an application is not unanimous, the members of the Enrollment Committee shall file majority and minority reports thereon.

§ 54.8 *Determination of eligibility and enrollment by Director.* The Director shall review the reports and recommendations of the respective Enrollment Committees, and shall determine the applicants who are eligible for enrollment in accordance with the provisions of § 54.5. The Director shall transmit for review to the Commissioner and for final determination by the Secretary, the reports and recommendations of the Enrollment Committee relating to applicants who may have been determined by the Director to be eligible for enrollment, against the report and recommendation of any member of the Enrollment Committee, with a statement of the reasons for his determination.

§ 54.9 *Appeal.* If the Director determines that an applicant is not eligible for enrollment in accordance with the provisions of § 54.5, he shall notify the applicant in writing of his determination and the reasons therefor. Such applicant shall then have thirty (30) days from the date of the mailing of the notice to him to file with the Director an appeal, together with such data as the applicant may present in support of his application. The Director shall forward the appeal, any such supporting data, and his recommendation thereon, and the report and recommendation of the Enrollment Committee, to the Commissioner. After review, if the Commissioner determines that an applicant is not eligible for enrollment in accordance with the provisions of § 54.5, he shall cause the applicant to be notified in writing of his determination and the reasons therefor. The applicant shall then have thirty (30) days from the date of the mailing of the notice to him to take an appeal to the Secretary. The decision of the Secretary thereon shall be final.

§ 54.10 *Approved rolls.* Thereafter the Director shall prepare, in quadruplicate, a separate roll of members, alphabetically arranged, of each of the Bands and submit such rolls to the Secretary or his duly authorized representative for approval. When approved, three copies of each approved roll shall be returned to the Director, who shall make one copy available to the governing body of each of the Bands.

§ 54.11 *Certificate.* The Director shall affix a certificate to each approved roll, certifying that the roll to the best of his knowledge and belief, contains only the names of Indians entitled to enrollment with the respective Bands, in accordance with the provisions of the act of August 25, 1950 (64 Stat. 470, Pub. Law 728, 81st Cong.).

§ 54.12 *Special instructions.* To facilitate the work of the Director, the Commissioner may issue special instructions to him not inconsistent with the regulations in this part.

VERNON D. NORTHROP,
Acting Secretary of the Interior.

OCTOBER 27, 1952.

[F. R. Doc. 52-11669; Filed, Oct. 30, 1952; 8:45 a. m.]

Subchapter L—Irrigation Projects: Operation and Maintenance

PART 130—ORDERS FIXING OPERATION AND MAINTENANCE CHARGES

FORT HALL INDIAN IRRIGATION PROJECT, IDAHO; BASIC AND OTHER WATER CHARGES

OCTOBER 24, 1952.

On September 18, 1952, there was published in the daily issue of the FEDERAL REGISTER notice of intention to amend § 130.32 (a) of Title 25, Code of Federal Regulations, dealing with the operation and maintenance charges on assessable lands under the Fort Hall Indian Irrigation Project, Fort Hall Indian Reservation, Idaho. Interested persons were thereby given opportunity to participate in preparing the proposed amendment by submitting their views and data or argument in writing to E. Morgan Pryse Area Director, within 30 days from the date of publication of the notice. No views, data or arguments were submitted. Section 130.32 (a) of Title 25, Code of Federal Regulations, is accordingly amended.

Section 130.32 shall read as follows:

§ 130.32 *Basic and other water charges.* (a) In compliance with the provisions of the act of March 1, 1907 (34 Stat. 1024) the annual basic water charges for the operation and maintenance of the lands in non-Indian ownership to which water can be delivered for irrigation under the Fort Hall Indian Irrigation Project, Idaho, are hereby fixed at $3.25 per acre for the calendar year 1953 and subsequent years until further notice.

(b) In addition to the foregoing charge there shall be collected annually a minimum charge of $3.00 for the first acre or fraction thereof on each tract of land for which operation and maintenance bills are prepared. No bill shall be rendered for less than $6.50.

(c) Indian lands leased, as discussed in the letter from the Commissioner of Indian Affairs of December 1, 1938, and approved by the Assistant Secretary of the Interior on December 17, 1938, are subject to the payment of the foregoing charges as therein provided.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

E. MORGAN PRYSE,
Area Director.

[F. R. Doc. 52-11687; Filed, Oct. 30, 1952; 8:49 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 92, Amdt. 12]

CPR 92—LAMB, YEARLING AND MUTTON PRODUCTS SOLD AT WHOLESALE

SUSPENSION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 12 to Ceiling Price Regulation (CPR) 92 is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation (CPR) 92 suspends price control of lamb, yearling and mutton products sold at wholesale.

Lamb, yearling and mutton products have been selling considerably below the ceiling prices established by CPR 92 for sales at wholesale. In fact, certain cuts of lamb, yearling and mutton have been selling at prices below the pre-Korean level. Moreover, although it is expected that prices of these commodities will strengthen due to seasonal increase, there is no immediate outlook for any rise in prices to a point where the ceilings fixed by this regulation would be reached or exceeded. For these reasons and for the reason that lamb sales represent only a small portion of all meat sales, the Director of Price Stabilization deems it appropriate to suspend the ceiling prices established by this regulation.

The Director of Price Stabilization is maintaining a constant watch on the prices and the available supply of lambs and sheep, and if he finds that the market prices threaten to reach or exceed the ceiling prices previously fixed by this regulation, he will revoke this suspension.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Titles I and IV of the Defense Production Act of 1950, as amended, are appropriate to promote the national defense, and comply with all applicable standards of the act. In the formulation of this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 92 is amended by adding a new section 18 to read as follows:

SEC. 18. *Suspension.* As used in this section, "lamb, yearling or mutton" means carcasses and meat derived from ovine animals. All provisions of this regulation are suspended on and after October 29, 1952. The suspension of the provisions of this regulation does not operate to place sales at wholesale of any lamb, yearling or mutton, or any product derived from lamb, yearling or mutton, under the General Ceiling Price Regulation. The suspension of the provisions of this regulation, moreover, includes suspension of those provisions which establish wholesale ceiling prices for lamb, yearling or mutton, or for any products derived from lamb, yearling or mutton, under the General Ceiling Price Regulation, or Ceiling Price Regulation 61. You must, however, continue to comply with all the requirements of section 9 (a) and section 11 (c) (3) of this regulation, and with all the requirements of section 16 of the General Ceiling Price Regulation, to the extent that each of these sections is applicable to all records you are required to preserve on October 28, 1952.

This suspension will continue unless and until the Director of Price Stabilization terminates or modifies it.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective on October 29, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 29, 1952.

[F. R. Doc. 52-11785; Filed, Oct. 29, 1952; 4:41 p. m.]

[Distribution Regulation 2, Revision 1, Amdt. 1]

DR 2—ALLOCATION RECORDS

SUSPENSION OF LAMB

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, Economic Stabilization Agency General Order 2 and Economic Stabilization Agency General Order 5, Revision, this amendment to Distribution Regulation 2, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment suspends Distribution Regulation 2, Revision 1, with respect to lamb.

Current and foreseeable production of lamb are such as to make allocation of lamb unnecessary today and to make it highly unlikely that there will be any necessity to allocate lamb in the reasonably foreseeable future. Moreover, lamb constitutes but a small proportion of the total meat supply. Under these circumstances, there is no reason to continue, at this time, the requirement for grading and grade-marking of lamb for possible future allocation.

In the formulation of this amendment, special circumstances have rendered consultation with industry representatives including trade association representatives, impracticable.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title I and Title IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the national defense and comply with all of the applicable standards of the act.

AMENDATORY PROVISIONS

Distribution Regulation 2, Revision 1, is amended by adding a new section 9 to read as follows:

SEC. 9. *Suspension.* As used in this section, "lamb" means carcasses and meat derived from ovine animals. All provisions of this regulation, which relate to lamb, are suspended on October 29, 1952. You must, however, continue to comply with section 3 of this regulation to the extent that that section is applicable to all records you are required to preserve on October 28, 1952. This suspension will continue unless and until the Director of Price Stabilization terminates or modifies it.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective on October 29, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 29, 1952.

[F. R. Doc. 52-11786; Filed, Oct. 29, 1952; 4:41 p. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 38]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 38—CEILING PRICES FOR BICYCLES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 38 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes new ceiling prices for manufacturers of bicycles at a higher level than those previously in effect.

The Office of Price Stabilization has recently completed a financial survey of the bicycle industry. The survey was undertaken as the result of information submitted by industry members and trade association representatives at various informal meetings which indicated that the level of ceiling prices heretofore in effect for this industry was below the minimum prescribed by the "industry earnings standard" (the "Johnston Formula"). The industry earnings standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the dollar profits of the industry amount to not less than 85 percent of the average earnings for the industry's best three years during the period 1946–1949, inclusive, adjusted for changes in net worth. Financial data were obtained from a representative group of manufacturers in the bicycle industry, whose total sales represent over 85 percent of the industry's annual volume. Based upon this data, the Director of Price Stabilization has determined that in order for the dollar profits of the industry to meet the industry earnings standard ceiling prices for this industry will have to be established at 7 percent above the present level of selling prices. Such ceiling prices will be generally fair and equitable.

This adjustment reflects all increases in cost of steel, other materials, wages, and freight that are currently in effect. Manufacturers covered by this supplementary regulation may not, therefore, adjust their ceiling prices under GOR 35 (Pass Through for Steel, Pig Iron, Copper and Aluminum Cost Increases) and SR 35 to CPR 22 (Adjustments to Reflect Increased Outbound Transportation Costs).

This supplementary regulation establishes ceiling prices for manufacturers of bicycles which are 107 percent of their highest selling prices since July 1, 1952.

This supplementary regulation applies only to manufacturers who have previously established ceiling prices under CPR 22. However, supplementary regulations to the General Ceiling Price Regulation and Ceiling Price Regulation 161 are being issued simultaneously herewith, which provide a corresponding adjustment for manufacturers subject to those regulations.

Manufacturers continue to have the election to determine their ceiling prices under the various regulations that were issued pursuant to the so-called "Capehart Amendment." If they do so, however, they may not use this supplementary regulation.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. In the judgment of the Director, the provisions of this supplementary regulation are generally fair and equitable and are necessary

to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Commodities covered by this supplementary regulation.
3. Ceiling prices for bicycles dealt in between July 1, 1952 and October 30, 1952, inclusive.
4. Ceiling prices for bicycles which cannot be determined under section 3.
5. Reports.
6. Relationship of this supplementary regulation to other adjustment regulations.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803 as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes new ceiling prices for sales by manufacturers of bicycles. These new ceiling prices are to be used in place of those previously established under sections 3 and 30 to 34, inclusive, of Ceiling Price Regulation 22, or under any supplementary regulation to CPR 22. All provisions of CPR 22 and of any supplementary regulation to CPR 22 otherwise applicable and not inconsistent with this supplementary regulation remain in effect.

SEC. 2. *Commodities covered by this supplementary regulation.* The commodities covered by this supplementary regulation are bicycles, except power driven bicycles.

SEC. 3. *Ceiling prices for bicycles dealt in between July 1, 1952 and October 30, 1952, inclusive.* (a) Your ceiling price for a sale of a bicycle is 107 percent of the highest price at which you delivered it between July 1, 1952, and October 30, 1952, to a purchaser of the same class. You may not use a price as the highest price at which you delivered a commodity to a class of purchaser unless you made at least 20 percent by dollar volume of your total deliveries during the period July 1, 1952, to October 30, 1952, of that commodity to that class of purchaser at that price or a higher price. If you did not deliver the commodity during that period your ceiling price is 107 percent of the highest price at which you offered it for delivery during that period to a purchaser of the same class. The offer must have been made in writing and communicated to a substantial number of customers. If your highest price during this period exceeded the applicable ceiling price, your ceiling price under this regulation is 107 percent of the ceiling price in effect at the time you received your highest price.

(b) A ceiling price established under this section must be consistent in every respect with your CPR 22 ceiling price for the same bicycle. It must carry the same delivery terms, cash, trade and volume discounts, allowances, premiums and extras, deductions, guarantees and other terms and conditions of sale.

(c) You may not use as your highest price a selling price which includes adjustments made under either GOR 35 (Pass Through for Steel, Pig Iron, Copper and Aluminum Cost Increases) or SR 35 to CPR 22 (Adjustments to Reflect Increased Outbound Transportation Costs). If your highest price includes such adjustments you must reduce it by the dollar amount of such adjustments before using it to determine your new ceiling price under this supplementary regulation.

SEC. 4. *Ceiling prices for bicycles which cannot be determined under section 3.* If you are unable to establish a ceiling price for a bicycle under section 3 of this supplementary regulation, you must establish such ceiling price in accordance with the provisions of CPR 161 (Consumer Durable Goods Regulation). Ceiling prices which were established under sections 30 through 33 of CPR 22 prior to the effective date of this supplementary regulation, for commodities which have not yet been delivered or offered for sale within the meaning of section 3 of this supplementary regulation, may be recomputed, using as the ceiling price of the comparison commodity, a ceiling price determined under this supplementary regulation. You need not report this recomputation.

SEC. 5. *Reports.* Prior to using this supplementary regulation, you must have complied with the reporting requirements of sections 46 and 48 of CPR 22. If you have filed on OPS Public Form 8 in compliance with these sections of CPR 22, you need not amend your Form 8 to reflect the adjustment authorized by this supplementary regulation.

SEC. 6. *Relationship of this supplementary regulation to other adjustment regulations.* Notwithstanding any provisions of this supplementary regulation, you may elect to use Supplementary Regulations 17 or 18 to Ceiling Price Regulation 22 or GOR 20 to establish your ceiling prices for bicycles. If you so elect, you may not use the provisions of this supplementary regulation. You may not use the provisions of General Overriding Regulation 35 or Supplementary Regulation 35 to Ceiling Price Regulation 22 to adjust ceiling prices determined under this supplementary regulation.

Effective date. This supplementary regulation is effective October 30, 1952.

NOTE: The reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 30, 1952.

[F. R. Doc. 52–11805; Filed, Oct. 30, 1952; 11:18 a. m.]

[Ceiling Price Regulation 118, Supplementary Regulation 1]

CPR 118, SR 1—CERTAIN PRODUCERS OF BOLTS, NUTS, SCREWS AND RIVETS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation to Ceiling Price Regulation 118 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation authorizes producers of bolts, nuts, screws or rivets to apply to the Office of Price Stabilization for an adjustment of their ceiling prices if those ceiling prices do not bear the same relationship to the prices of competitive producers that was maintained during the period July 1, 1949, to June 30, 1950, or during the period July 1, 1949, to March 31, 1950. The latter, shorter, comparison period may be used by producers who, as a result of firm quarterly pricing policy, did not maintain their customary price relationship within the industry during the period April 1, 1950, to June 30, 1950, under Ceiling Price Regulation (CPR) 118.

CPR 118 establishes ceiling prices for sales by producers of bolts, nuts, screws or rivets at the level which prevailed during the period December 19, 1950, to January 25, 1951, inclusive by freezing the prices of each producer at the level at which he sold during that base period. As stated in the Statement of Considerations accompanying CPR 118 this level of prices is substantially the same as that which would be achieved through the application of the pricing formula set forth in CPR 22. The applications filed by a large number of companies under CPR 22, which set forth prices during the third quarter of 1949, clearly establish that an historical relationship exists between the prices of the various companies in the industry. CPR 118 was designed to maintain that historical relationship.

It has now become apparent that a few companies, as a result of their practice of establishing firm prices on a quarterly basis and because of other unavoidable circumstances, did not maintain their customary price relationship within the industry and their ceiling prices under CPR 118 are therefore out of line with those of other producers.

This supplementary regulation corrects these price inequities and permits certain producers of bolts, nuts, screws or rivets to apply to the Office of Price Stabilization to adjust their prices. This adjustment will be permitted in an amount sufficient to bring prices in line with the level of the majority of the industry during the period November 15, 1950, to January 25, 1951.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Application for individual adjustment.
3. Order of adjustment.
4. Applicability of provisions of CPR 118.
5. Definitions.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation permits producers of nuts, bolts, screws and rivets to apply for an adjustment of their ceiling prices established under CPR 118 if those ceiling prices do not bear the same relationship to the prices in the industry that the producer maintained during the period July 1, 1949, to June 30, 1950, or during the period July 1, 1949, to March 31, 1950. The latter, shorter, comparison period may be used only by producers who, during the period July 1, 1949, to March 31, 1950, maintained a uniform relationship between the prices of their products and the prices of other sellers within the industry but who, because of their practice of establishing firm prices on a quarterly basis, did not maintain their customary price relationship within the industry during the period April 1, 1950, to June 30, 1950.

SEC. 2. *Application for individual adjustment*—(a) *Who may apply.* If you are a producer of bolts, nuts, screws or rivets you may apply for an adjustment in the ceiling price of any product which you produce if all of the conditions set forth in subparagraphs (1) or (2) or both, are met.

(1) During the period from July 1, 1949, to March 31, 1950, the price of the product covered by your application was maintained in a uniform relationship to the price for the same or similar product charged by a competitive seller; you failed to maintain that relationship during the period April 1, 1950, to June 30, 1950, because of your practice of establishing firm prices on a quarterly basis; and your ceiling price under CPR 118 does not bear the same relationship to the ceiling prices of the same competitive seller that was maintained during the period July 1, 1949, to March 31, 1950.

(2) During the period from July 1, 1949, to June 30, 1950, the price of the product covered by your application was maintained in a uniform relationship to the price for the same or similar product charged by a competitive seller and your ceiling price under CPR 118 does not bear the same relationship to the ceiling price of the same competitive seller that was maintained during the period July 1, 1949, to June 30, 1950.

(b) *How to file an application.* (1) An application pursuant to this supplementary regulation must be filed with the Industrial Materials and Manufactured Goods Division of the Office of Price Stabilization, Washington 25, D. C., and must contain the following:

(i) Your trade name and address; a description of the bolts, nuts, screws or rivets on which you are applying for an adjustment, e. g., steel machine screw (slotted);

(ii) Your selling price for such bolts, nuts, screws or rivets in effect during the period July 1, 1949, to June 30, 1950, and your present ceiling prices;

(iii) Your competitive seller's trade name, address and selling prices for the same or similar nuts, bolts, screws or rivets during the period July 1, 1949, to June 30, 1950, and his present ceiling prices;

(iv) Your proposed ceiling prices for the commodities for which you are seeking an adjustment; and

(v) A statement that you establish firm prices on a quarterly basis. (This statement must be submitted only if you are applying under section 2 (a) (1)).

(2) Catalogs and price lists may be submitted if they contain the information required by subparagraphs (i), (ii) or (iii) but you need not submit any such information which has been previously submitted to OPS. If you cannot ascertain your competitive sellers prices OPS will undertake to obtain the information for you.

SEC. 3. *Order of adjustment.* Any adjustment pursuant to this supplementary regulation will be granted by letter order and will be limited to an amount sufficient to bring your ceiling prices in line with those established for competitive sellers under CPR 118.

SEC. 4. *Applicability of provisions of CPR 118.* Except to the extent expressly modified or supplemented by this regulation, all provisions of CPR 118, including the reporting provisions, shall be applicable to any producer subject to this supplementary regulation.

SEC. 5. *Definition.* (a) "Product" refers to a particular type or model of a commodity covered by CPR 118, e. g., steel machine screws (slotted).

(b) "Similar nuts, bolts, screws or rivets" means a nut, bolt, screw or rivet which (1) has the same purpose; (2) is made of the same material or material of equivalent quality and properties; and (3) contains substantially the same quantity of such material for the same size as the nuts, bolts, screws or rivets with which it is being compared.

(c) "Competitive seller" refers to another seller with whom you are in direct competition and who sells the same type of articles to the same class of purchasers.

Effective date. This supplementary regulation to Ceiling Price Regulation 118 is effective October 30, 1952.

NOTE: The reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 30, 1952.

[F. R. Doc. 52–11804; Filed, Oct. 30, 1952; 11:18 a. m.]

[Ceiling Price Regulation 161, Supplementary Regulation 2]

CPR 161—CONSUMER DURABLE GOODS REGULATION

SR 2—CEILING PRICES FOR BICYCLES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this supplementary regulation to Ceiling Price Regulation 161 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes new ceiling prices for manufacturers of bicycles at a level that is in accordance with the minimum prescribed by the industry earnings standard. A full statement of the reasons for this action is set forth in the Statement of Considerations for SR 38, Ceiling Price Regulation 22.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. In the judgment of the Director, the provisions of this supplementary regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV to the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Commodities covered by this supplementary regulation.
3. Ceiling prices for bicycles dealt in between July 24, 1952 and October 30, 1952, inclusive.
4. Ceiling prices for bicycles which cannot be determined under section 3.
5. Relationship of this supplementary regulation to other adjustment regulations.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes ceiling prices for sales by manufacturers of bicycles replacing those previously established under sections 3, 4, 5 and 6 of CPR 161. All provisions of CPR 161 not inconsistent with this supplementary regulation remain in effect.

SEC. 2. *Commodities covered by this supplementary regulation.* The commodities covered by this regulation are bicycles, except power driven bicycles.

SEC. 3. *Ceiling prices for bicycles dealt in between July 24, 1952, and October 30, 1952, inclusive.* (a) Your ceiling price for a sale of a bicycle is 107 percent of the highest price at which you delivered it between July 24, 1952, and October 30, 1952, to a purchaser of the same class. You may not use a price as the highest price at which you delivered a commodity to a class of purchaser unless you made at least 20 percent by dollar volume of your total deliveries during the period July 24, 1952, to October 30, 1952, of the commodity to that class of purchaser at that price or a higher price. If you did not deliver the commodity during that period, your ceiling price is 107 percent of the highest price at which you offered it for delivery during that period to a purchaser of the same class. The offer must have been made in writing and communicated to a substantial number of customers. If your highest price during this period exceeded the applicable ceiling price, your ceiling

price under this regulation is 107 percent of the ceiling price in effect at the time you received your highest price.

(b) A ceiling price established under this section must be consistent in every respect with your CPR 161 ceiling price for the same bicycle. It must carry the same delivery terms, cash, trade and volume discounts, allowances, premiums and extras, deductions, guarantees and other terms and conditions of sale.

(c) You may not use as your highest price a selling price which includes adjustments made under either GOR 35 (Pass Through for Steel, Pig Iron, Copper and Aluminum Cost Increases), SR 122 to the GCPR, or SR 35 to CPR 22 (Adjustments to Reflect Increased Outbound Transportation Costs). If your highest price includes such adjustments you must reduce it by the dollar amount of such adjustments before using it to determine your new ceiling price under this supplementary regulation.

SEC. 4. *Ceiling prices for bicycles which cannot be determined under section 3.* If you are unable to establish a ceiling price for the sale of any bicycle under section 3 of this supplementary regulation, you must establish such ceiling price in accordance with the provisions of CPR 161 (Consumer Durable Goods Regulation). Ceiling prices which were established under sections 3, 4 or 5 of CPR 161 prior to the effective date of this supplementary regulation for commodities which have not yet been delivered or offered for sale within the meaning of section 3 of this supplementary regulation, may be recomputed, using as the ceiling price of the comparison commodity, or commodities, a ceiling price determined under this supplementary regulation. You need not report this recomputation.

SEC. 5. *Relationship of this supplementary regulation to other adjustment regulations.* Notwithstanding any provisions of this supplementary regulation, you may elect to use General Overriding Regulation 20 or 21 or Supplementary Regulation 17 or 18 to CPR 22 to establish your ceiling prices for bicycles. If you so elect, you may not use the provisions of this supplementary regulation. You may not use the provisions of General Overriding Regulation 35 or SR 122 to the GCPR or SR 35 to CPR 22 to adjust ceiling prices determined under this supplementary regulation.

Effective date. This supplementary regulation is effective October 30, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 30, 1952.

[F. R. Doc. 52-11806; Filed, Oct. 30, 1952; 11:19 a. m.]

[General Ceiling Price Regulation, Supplementary Regulation 124]

GENERAL CEILING PRICE REGULATION

SR 124—CEILING PRICES FOR BICYCLES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this supplementary regulation to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes new ceiling prices for manufacturers of bicycles at a level that is in accordance with the minimum prescribed by the industry earnings standard. A full statement of the reasons for this action is set forth in the Statement of Considerations for SR 38, Ceiling Price Regulation 22.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, and, consideration has been given to their recommendations. In the judgment of the Director, the provisions of this supplementary regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV to the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Commodities covered by this supplementary regulation.
3. Ceiling prices for bicycles dealt in between July 1, 1952 and October 30, 1952, inclusive.
4. Ceiling prices for bicycles which cannot be determined under section 3.
5. Relationship of this supplementary regulation to other adjustment regulations.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes ceiling prices for sales by manufacturers of bicycles replacing those previously established under sections 3, 4, 6, and 7 of the General Ceiling Price Regulation. All provisions of the General Ceiling Price Regulation not inconsistent with this supplementary regulation remain in effect.

SEC. 2. *Commodities covered by this supplementary regulation.* The commodities covered by this regulation are bicycles, except power driven bicycles.

SEC. 3. *Ceiling prices for bicycles dealt in between July 1, 1952 and October 30, 1952, inclusive.* (a) Your ceiling price for a sale of a bicycle is 107 percent of the highest price at which you delivered it between July 1, 1952, and October 30, 1952, to a purchaser of the same class. You may not use a price as the highest price at which you delivered a commodity to a class of purchaser unless you made at least 20 percent by dollar volume of your total deliveries during the period July 1, 1952, to October 30, 1952, of the commodity to that class of purchaser at that price or a higher price. If you did not deliver the commodity during that period, your ceiling price is 107 percent of the highest price at which you offered it for delivery during that period to a purchaser of the same class. The offer must have been made in writing and communicated to a substantial number of customers. If your highest price during this period exceeded the applicable ceiling price, your ceiling price under this regulation is 107 percent of the ceiling price in effect at the time you received your highest price.

(b) A ceiling price established under this section must be consistent in every respect with your GCPR ceiling price for the same bicycle. It must carry the same delivery terms, cash, trade and volume discounts, allowances, premiums and extras, deductions, guarantees and other terms and conditions of sale.

(c) You may not use as your highest price a selling price which includes adjustments made under either GOR 35 (Pass Through for Steel, Pig Iron, Copper and Aluminum Cost Increases) or SR 122 to the GCPR (Adjustments to Reflect Increased Outbound Transportation Costs). If your highest price includes such adjustments you must reduce it by the dollar amount of such adjustments before using it to determine your new ceiling price under this supplementary regulation.

SEC. 4. *Ceiling prices for bicycles which cannot be determined under section 3.* If you are unable to establish a ceiling price for the sale of any bicycle under section 3 of this supplementary regulation, you must establish such ceiling price in accordance with the provisions of CPR 161 (Consumer Durable Goods Regulation). Ceiling prices which were established under sections 4 or 6 of the GCPR prior to the effective date of this supplementary regulation, for commodities which have not yet been delivered or offered for sale within the meaning of section 3 of this supplementary regulation, may be recomputed, using as the ceiling price of the comparison commodity a ceiling price determined under this supplementary regulation. You need not report this recomputation.

SEC. 5. *Relationship of this supplementary regulation to other adjustment regulations.* Nothwithstanding any provisions of this supplementary regulation, you may elect to use General Overriding Regulation 20 or 21 to establish your ceiling prices for bicycles. If you so elect, you may not use the provisions of this supplementary regulation. You may not use the provisions of General Overriding Regulation 35 or SR 122 to the GCPR to adjust ceiling prices determined under this supplementary regulation.

Effective date. This supplementary regulation is effective October 30, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 30, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-6A, as Amended, October 30, 1952]

M-6A—STEEL DISTRIBUTORS

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

EXPLANATORY

NPA Order M-6A as amended February 27, 1952, is hereby further amended by adding a certification requirement to section 4; by deleting the item "fence posts" from List A; and by rearranging some of the product groups in List A in the interest of greater clarity.

Direction 1 as amended June 16, 1952, Direction 3 as amended September 8, 1952, Schedule 1 as amended August 21, 1952, Schedule 2 of December 28, 1951, and Schedule 3 of April 23, 1952, to NPA Order M-6A, are not affected by this amendment and they remain in full force and effect.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Shipments to distributors.
4. Identification and certification of orders.
5. Item limitation for acceptance of authorized controlled material orders by distributors.
6. Certain earmarked distributors' stocks.
7. Direct shipments.
8. Relation to other NPA orders and regulations.
9. Applications for adjustment or exception.
10. Records and reports.
11. Communications.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This order and CMP Regulation No. 4 apply to steel distributors. This order requires producers to make monthly shipments of steel products to steel distributors on the basis set out in the order. It requires steel distributors to identify their purchase orders. It limits the required acceptance by distributors of purchase orders from any one purchaser during any one week. It makes provisions for the earmarking of certain steel distributors' stocks. It includes provisions incidental to the effectuation of the foregoing.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(b) "Steel product" means an iron or steel product set forth in List A of this order, subject to footnotes contained in List A.

(c) "Producer" means a person who produces one or more steel products.

(d) "Steel distributor" means any person (including a warehouseman, jobber, dealer, or retailer) engaged in the business of stocking any steel product at one or more locations regularly maintained by him for such purpose, for sale or resale, in the form or shape as received or after performing the operations described in the next sentence of this paragraph, and who, in connection therewith, maintains facilities and equipment necessary to conduct such business. Such operations are cutting, shearing, burning, or torch-cutting to length, size, or shape; pipe threading; corrugating and forming of roofing and siding; forming of ridge roll, valley, and flashing; sorting and grading; and the like. A person who, in connection with any sale of any steel product from his stock, bends, punches, or performs any fabricating or processing operation designed to prepare such material for final use or assembly, or who delivers straight lengths of reinforcing bars as part of a fabricated job or project, shall not be deemed a distributor with respect to such sale; and a person who, in connection with any purchase of any steel product for resale, does not take physical delivery of any such steel product into his own stock at a location regularly maintained by him for such purpose, shall not be deemed a distributor with respect to such resale. The term shall also include any steel distributor domiciled in, or incorporated under the laws of, the Dominion of Canada or any province thereof.

(e) "Base period" means the period commencing January 1, 1950, and ending September 30, 1950.

(f) "Base tonnage" means the average monthly shipments of any one steel product made by any one producer during the base period to any one distributor customer.

(g) "Item" means any steel product which is different from all other steel products by reason of one or more of its specifications, such as width, thickness, temper, alloy, or finish.

(h) "Alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: Manganese, maximum of range in excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheet and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium, cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect. For operations beginning with the second calendar quarter of 1952, clad steels which have an alloy-steel base or carbon steel for which nickel and/or chromium is contained in the coating or cladding material (e. g., inconel, monel, or stainless) are alloy steels.

(i) "Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements.

(j) "Nickel-bearing stainless steel" means a stainless steel, wrought, cast, or sintered, containing 1 percent or more of nickel.

(k) "Carbon steel (including wrought iron)" means any steel customarily so classified and also includes: (1) All grades of electrical sheet and strip; (2) low-alloy, high-strength steels; and (3) clad and coated carbon steels not included with alloy steels, e. g., galvanized, tin, terne, copper (excluding copper wire mill products) or aluminum clad and/or coated carbon steels. "Low-alloy, high-strength steels" means only the proprietary grades promoted and sold for this purpose, and Navy high-tensile steel grade HT Specification Mil-S-16113 (Ships).

(l) "NPA" means the National Production Authority.

SEC. 3. *Shipments to distributors.* (a) Each producer is hereby required to accept purchase orders from his steel distributor customers for shipments of steel products in January 1952 and subsequent months to the extent provided in this section. Each producer must accept purchase orders which call for shipments of any one or more of the steel products shipped by him to each steel distributor customer during the base period up to a minimum of not less than 100 percent of the base tonnage of each such steel product shipped to each steel distributor customer during the base period: *Provided, however,* That such orders are placed with the steel producers in accordance with the lead times for the various steel products set forth in Schedule III of CMP Regulation No. 1, as amended from time to time: *And further provided,* That orders placed under the provisions of this section must be for substantially the same products as were supplied to each steel distributor during the base period, except for minor variations in size and design.

(b) Whenever sales can be made without conflicting with other NPA orders, regulations, directions, or directives, a producer may sell to any steel distributor customer any tonnage of any steel product over and above the minimum tonnage, and may also sell to any steel distributor who has no base tonnage, any tonnage of any steel product. In determining the amount of the minimum monthly allotments, adjustments may be made by a producer with the consent of the steel distributor customer involved, to provide for any abnormal situations which affect any steel products.

SEC. 4. *Identification and certification of orders.* (a) In ordering steel products from producers, pursuant to section 3 of this order, each steel distributor is hereby required to identify each purchase order as an M-6A order. Such identification shall be placed or stamped on each purchase order in a prominent place so that the order may be readily identified as an M-6A purchase order.

(b) Each steel distributor who places purchase orders for any steel in the forms and shapes indicated in Schedule I of CMP Regulation No. 1 with a producer, shall also furnish to the producer with whom such order is placed, a certification in the following form:

Certified under NPA Order M-6A

which shall be signed as provided in NPA Reg. 2. This certification shall consti-

tute a representation, subject to criminal penalties provided for in applicable U. S. statutes, by the person placing the order to the seller and to NPA that (1) he is a steel distributor within the meaning of section 2 (d) of this order and (2) he will not perform or cause to be performed with respect to the steel so ordered, any operation other than an operation described in the second sentence of said section 2 (d),

SEC. 5. *Item limitation for acceptance of authorized controlled material orders by distributors.* No steel distributor shall be required to make delivery on an authorized controlled material order from inventory to any one customer to any one destination during any calendar week of any item of a steel product in quantities in excess of the following:

Any item of carbon steel more than 8,000 pounds.

Any item of alloy steel more than 5,000 pounds.

Any item of stainless steel sheet more than 2,000 pounds.

Any item of stainless bars and plates more than 1,000 pounds.

Any item of stainless tubing or pipe more than 1,000 pounds or feet, whichever is less.

In no case shall a steel distributor be required to make deliveries to any one customer aggregating 40,000 pounds or more during any calendar week unless the deliveries include 10 or more different items, subject to the limitations of the preceding sentence as to each item.

SEC. 6. *Certain earmarked distributors' stocks.* NPA from time to time may earmark particular steel products in the inventory of any steel distributor for special treatment by such distributor. Any such earmarking shall be accomplished by the issuance by NPA of published schedules under this order or by directives to specified distributors. Such schedules or directives may provide, among other things, that the steel products so earmarked shall be held by the steel distributor solely for sale to persons designated by an agency of the United States Government. Such schedules or directives may contain such other provisions particularly applicable to such earmarked stock as NPA may deem appropriate. All provisions of any schedule or directive shall be deemed to be incorporated into and made a part of this order as of the effective date of the schedule, or directive, or amendment thereto, as the case may be. In the event of any inconsistency between a schedule or directive and this order, the provisions of the schedule or directive shall govern. Schedules or directives may be issued or amended at any time and from time to time, and shall remain in full force and effect until individually amended, superseded, or revoked.

SEC. 7. *Direct shipments.* Nothing in this order shall be deemed to prevent a steel distributor, who normally acted as authorized agent of a producer, from acting not only in the capacity of a steel distributor as defined in section 2 of this order, but also acting as an agent of a producer for the purpose of receiving and transmitting to such producer authorized controlled material orders, as defined in section 2 of CMP Regulation No. 1, for direct shipment by the producer to the person placing such order.

SEC. 8. *Relation to other NPA orders and regulations.* All provisions of any NPA regulation or order are superseded to the extent that such provisions are inconsistent with this order, but in all other respects the provisions of such regulations and orders shall remain in full force and effect.

SEC. 9. *Applications for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment which claim that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resultant unemployment that would impair the defense program. Each request shall be in writing, by letter in duplicate, and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 10. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) Persons subject to this order shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

(c) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–6A.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or of using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect October 30, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

LIST A OF NPA ORDER M-6A

Product groups	Types: Carbon	Stainless [1]	Other alloy [2]
Industrial Steel Products			
1. Blooms, billets, slabs, tube rounds, die blocks, sheet, and tin bars	X	X	X
2. Structural shapes and piling	X	----	X
3. Plates (universal and sheared) including skelp	X	X	X
4. Rails and track accessories	X	----	X
5. Hot-rolled bars—except concrete reinforcing bars but including forged, galvanized, and wrought iron bars	X	X	X
6. Concrete reinforcing bars (unfabricated) [3]	X	----	----
7. Cold-finished bars	X	X	X
8. Sheets and strip, hot-rolled	X	X	X
9. Sheet and strip, cold-reduced	X	X	X
10. Tin mill black plate, tin plate, and terneplate	X	----	----
11. Sheets and strip, all other but not including items under Merchant Trade Steel Products	X	X	X
12. Welded tubing	X	X	X
13. Seamless tubing	X	X	X
14. Tool steel, including drill rod	X	----	X
15. Wire rope and strand	X	X	X
Merchant Trade Steel Products			
16. Standard and line pipe, water well tubular products, and couplings [4] (ineludes steel and wrought iron pipe)	X	----	----
17. Oil country casing, tubing, drill pipe, and couplings [4]	X	----	X
18. Galvanized, lead-coated, or painted sheet and strip, purchased for resale or for manufacture by the distributor of roofing and siding, valley, ridge roll, or flashing	X	----	----
19. Formed roofing and siding, valley, ridge roll, and flashing (painted, black, galvanized, or lead-coated)	X	----	----
20. Nails (cut and wire), fence and netting staples	X	X	----
21. Wire, drawn	X	X	----
22. Wire bale ties	X	----	----
23. Wire (barbed and twisted) and wire fence (woven or welded)	X	----	----
24. Wire netting	X	----	----
25. Welded wire concrete reinforcing mesh	X	----	----

[1] Nickel-bearing stainless steel only.

[2] Irrespective of the percentage of any grades of commercial quality alloy steels shipped by a producer to his steel distributor customer during the base period, each minimum tonnage of such alloy steels to be shipped shall be in any grades with a melting range of (a) 0.60 maximum nickel or 0.15 maximum molybdenum for steels 0.30 carbon and under, or (b) 0.40 maximum nickel or 0.15 maximum molybdenum for steels 0.31 carbon and over, used individually or in combination, with or without chromium, or any non-nickel-bearing, or non-molybdenum-bearing grades, with or without chromium.

[3] Excludes straight lengths sold by distributor for intended use as part of a fabricated job or project.

[4] Threaded couplings of the type normally supplied on threaded pipe by pipe producers.

[F. R. Doc. 52–11802; Filed, Oct. 30, 1952; 11:13 a. m.]

[NPA Order M–26, as Amended October 30, 1952]

M–26—PACKAGING CLOSURES

This amended order is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all affected trades and industries in advance of the issuance of this amended order has been rendered impracticable by the fact that a substantial number of different trades and industries is affected.

EXPLANATORY

This amended order affects NPA Order M–26, as amended April 24, 1952, by amending paragraph (a) of section 5 to include menders among the materials which may be used without restriction.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Restrictions on use of packaging closures.
4. Other restrictions.
5. Exceptions.
6. Certification upon delivery of packaging closures.
7. Request for adjustment or exception.
8. Records and reports.
9. Communications.
10. Violations.

AUTHORITY: Sections 1 to 10 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This amended order places restrictions upon the sale, delivery, and use of packaging closures as herein defined, but does not apply to any other sealing or covering devices. Schedule I, appearing at the end of this order, specifies the maximum tin coatings for packaging closures. This maximum varies according to the product packed.

SEC. 2. *Definitions.* As used in this order:

(a) "Packaging closure" means any new sealing or covering device made in whole or in part of tin plate and affixed or to be affixed to a glass container for the purpose of retaining the contents within the container, and includes any crown made of tin plate and affixed or to be affixed to a glass or metal container for the purpose of retaining the contents within the container.

(b) "Tin plate" means steel sheets coated with tin, and includes electrolytic tin plate, hot-dipped tin plate, primes, seconds, unassorted, tin plate waste-waste, menders, unmended menders, and unassorted temper tin plate. Tin plate (except waste-waste) is furnished as "specification production plate" or "mill accumulation plate," and each such class includes primes, seconds, and unassorted. Specification production plate is plate produced against orders for specific end uses. Mill accumulation plate is plate arising in the production of specification production plate not applicable against such orders.

(c) "Waste-waste" means hot-dipped or electrolytic tin-coated steel sheets or steel sheets coated with terne metal which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes, seconds, or unassorted.

(d) "Unmended menders" means tin-coated steel sheets arising in the production of electrolytic tin plate which have been set aside by the producer by reason of surface appearance which disqualifies such sheets from sale as primes, seconds, or unassorted.

(e) "Menders" means tin-coated steel sheets arising in the production of electrolytic tin plate which have been set aside by the producer by reason of surface appearance which disqualifies such sheets from sale as primes, seconds, or unassorted, and mended either into coke tin plate primes, seconds, or unassorted by hot-dipping in tin, or into unassorted terneplate by hot-dipping in terne metal.

(f) "Unassorted temper tin plate" means primes, seconds, or unassorted tin plate, arising in the production of hot-dipped or electrolytic tin plate, which has been packaged without regard to temper.

(g) "Waste" means scrap tin plate, and includes strips and circles produced in the ordinary course of manufacturing tin plate or packaging closures.

(h) "Packer" means any person who uses packaging closures for commercially packing any product.

(i) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(j) "NPA" means the National Production Authority.

SEC. 3. *Restrictions on use of packaging closures.* Subject to the exceptions in section 5 of this order, no packer shall purchase, accept delivery of, or use packaging closures for the purpose of packing products except as specifically permitted by the provisions of Schedule I of this order. Packaging closures may be used for packing the products included in a class of products listed in Schedule I only if such closures comply with the tin plate specifications set out in Schedule I as applicable to the products included in that class. Such specifications indicate the maximum number of pounds of tin coating per base box permitted for the particular products or classes of products listed.

SEC. 4. *Other restrictions.* (a) No person shall use tin plate in the manufacture of packaging closures, and no person shall sell or deliver any packaging closures, which he knows or has reason to believe will be accepted or used in violation of any provision of this order or of any other order or regulation of NPA.

(b) In the manufacture of home canning packaging closures, no person shall use any tin plate with a tin coating in excess of 0.50 pound per base box for the manufacture of top seal lids, or in excess of 0.25 pound per base box for the manufacture of bands or jelly glass lids.

SEC. 5. *Exceptions.* (a) The restrictions of this order shall not apply to packaging closures made entirely of menders, unmended menders, unassorted temper tin plate, waste-waste or waste, or entirely of any combination of any such materials.

(b) The restrictions of this order shall not apply to military requirements for packaging closures of a special design or style not normally produced or used commercially, nor to packaging closures for emergency rations and supplies for lifeboats.

(c) The restrictions of this order shall not apply to the sale or delivery of packaging closures for shipment outside the limits of the continental United States, its territories, and insular possessions.

(d) The plate specifications in Schedule I of this order shall not apply to orders requiring the packing of products in accordance with military specifications of the Department of Defense for use outside the 48 States of the United States and the District of Columbia by the Armed Forces of the United States, including the United States Coast Guard.

(e) The restrictions of this order do not apply to the use of any packaging closures which, on January 27, 1951, were in the inventory of the packer, or in the inventory of the manufacturer, or in process of manufacture.

SEC. 6. *Certification upon delivery of packaging closures.* No person shall sell or deliver packaging closures to a packer (except to a retail pharmacist) unless he has received from such packer a certificate signed manually. This certificate shall be by letter in substantially the following form, shall constitute a representation to the supplier and to NPA, and, once filed by a purchaser with a seller, shall cover all future deliveries of packaging closures from that seller to that purchaser:

To_____, Seller:

The undersigned purchaser certifies, subject to criminal penalties, that he is familiar with Order M–26 of the National Production Authority, and that all purchases from you of items regulated by that order, and the use and acceptance of the same by the undersigned, will be in compliance with said order, and any amendments thereto.

SEC. 7. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustments or exception claiming that the public interest is prejudiced by the application of any provision

of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 8. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 9. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–26.

SEC. 10. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Schedule I is hereto attached and made a part of this amended order. This amended order shall take effect October 30, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

(The term "food" as used in Schedule I of this order means "food" as defined in Executive Order 10161, September 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp., and in the Memorandum of Agreement between the Administrator of the National Production Authority, United States Department of Commerce, and the Administrator of the Production and Marketing Administration, United States Department of Agriculture, 16 F. R. 3410.)

SCHEDULE I OF NPA ORDER M–26—PACKAGING CLOSURES MADE OF TIN PLATE

Class and product	Tin-plate specifications (maximum pounds of tin coating per base box)
1. All food products for human consumption (except malt beverages and nonalcoholic beverages, each as defined in class 4 of this schedule) if preserved in a hermetically sealed container made sterile by heat	1.50
2. Olives, pickles, relishes, sauces, vinegar, french dressing, flavoring extracts, spices, mustard, horseradish, and cherries	.75
3. All other products, food or otherwise (except malt beverages and nonalcoholic beverages, each as defined in class 4 of this schedule)	.50
4. Malt beverages (meaning and including only beer, ale, porter, near beer, and mixtures thereof); and nonalcoholic beverages (meaning and including only soft drinks, still or carbonated, unflavored waters, still, or naturally or artificially carbonated; beverage drinks consisting of fruit or vegetable juice or juices or a combination thereof where less than 85 percent by weight of the product is pure fruit or vegetable juice or juices or a combination thereof; and sterilized milk drinks made with powdered milk)	.25

[NPA Order M–83—Revocation]

M–83—MECHANICAL, HYDRAULIC, AIR, AND ELECTRICALLY OPERATED JACKS

NPA Order M–83 (17 F. R. 6042) is hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under NPA Order M–83 as originally issued or as thereafter amended, nor deprive any person of any rights received or accrued under said order prior to the effective date of this revocation.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation is effective October 30, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

Chapter XI—Defense Electric Power Administration, Department of the Interior

[DEPA Order EO–4A]

EO–4A—LIMITATION OF CONSUMPTION AND DELIVERIES OF ELECTRIC ENERGY IN PACIFIC NORTHWEST

Seasonal changes in water conditions may reduce the output of electric energy in the Pacific Northwest region of the United States. This reduction, coupled with the increased electric power requirements for national defense and for essential civilian consumption, threatens to impair the deliveries of electric energy for civilian and defense purposes.

This order is designed to lessen the possible ill effects of these threatened shortages of electric power. Its issuance is necessary and appropriate to promote the national defense. Industry representatives, including trade association representatives, have been consulted in connection with its formulation, and their recommendations have been given consideration. The order is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended.

ARTICLE I—GENERAL PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Applications for adjustment or exception.
4. Communications to DEPA.
5. Violations.
6. Records.
7. Termination.

ARTICLE II—OPERATION AND INTEGRATION

21. Operation of electric utility facilities and equipment.
22. Operation of non-utility electric facilities and equipment.
23. Integration of power system operation.
24. Specific directions by DEPA.

ARTICLE III—LIMITATIONS ON USE, CONSUMPTION AND DELIVERIES OF ELECTRIC ENERGY

31. Curtailment of use during designated periods.
32. Limitations to become effective upon issuance of supplement to this order.
33. Preferred deliveries.
34. Exemptions.

ARTICLE IV—ACTIONS, NOTICES AND REPORTS BY ELECTRIC UTILITIES AND CONSUMERS

41. Notice to consumers.
42. Solicitation of voluntary curtailments.
43. Reports and information.

ARTICLE V—ADMINISTRATION OF ORDER

51. Northwest Area Representative.
52. Advisory Committee.
53. Appeals.

AUTHORITY: Sections 1 to 53 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended; 50 U. S. C. App. 2071; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; DPA Del. 1, Jan. 24, 1951, as amended Nov. 3, 1951, 16 F. R. 11245; Dept. of Interior Order No. 2605, as amended Sept. 10, 1952, 17 F. R. 8306.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this order does.* This order provides for orderly steps to be taken in the Pacific Northwest region of the United States to meet varying degrees of power shortage in that area and to achieve maximum power supply

in the interest of national defense. It provides for the maintenance and operation of electric utility equipment and of non-utility electric generating facilities, and for the integration of power system operation. It contains provisions to become effective upon further order of DEPA, and for reduction of deliveries and curtailment of consumption of electric energy generally.

SEC. 2. *Definitions.* For the purpose of this order.

(a) "DEPA" means the Administrator of Defense Electric Power Administration.

(b) "Person" means any individual, partnership, corporation, association, governmental agency, subdivision or other form of enterprise.

(c) "Shortage area" means all of the State of Washington and those portions of Northern and Western Oregon, Northern Idaho and Western Montana within the service areas of the electric utilities named in Appendix A to this order.

(d) "Electric utility" means any person designated in Appendix A, and any person located in the shortage area, supplying, or having facilities built for supplying, electric energy directly or indirectly for general use by the public or, in the case of a cooperative, for use by its members.

(e) "Non-utility power producer" means any person in the shortage area who has electric-generating facilities with a rated capacity of 100 kw or more and who is not included in the definition of an electric utility.

(f) "Consumer" means any person who is an ultimate user in the shortage area of electric energy self-generated or purchased or otherwise acquired from any non-utility power producer or from any electric utility as defined in this order.

(g) "Base period" means the period October 1, 1951, to April 30, 1952, inclusive.

(h) "Base billing period" for any consumer means the corresponding billing period occurring in the base period.

(i) "Base period consumption" for any consumer means the consumption in kilowatt-hours of electric energy during the base billing period, excluding energy delivered on an interruptible basis, as adjusted by the electric utility serving the consumer on the basis of changes in such consumer's method of operation during or since the base period which result in changes in consumption. DEPA may at any time specify the base period consumption for any consumer.

(j) "Weekly energy base" for any consumer means seven times the average daily consumption of electric energy in kilowatt-hours by such consumer during the base billing period. The weekly energy base for any consumer may be adjusted by the electric utility serving the consumer to reflect such other weekly proration of base period consumption as may accord with the consumer's method of operation.

(k) "Weekly energy quota" for any consumer means whichever is greater of the following amounts of electric energy delivered to such consumer at any single location:

(1) 8,000 kilowatt-hours, or

(2) The weekly energy base multiplied by the applicable percentage specified from time to time by supplemental order or direction of DEPA.

(l) "Base peak demand" means the maximum measured demand by a consumer at one location occurring within the base period. Such demand shall be measured by using the demand interval in use by the electric utility serving the consumer. If not measured, the base peak demand may be estimated after eliminating all abnormal non-recurring demands. An electric utility may adjust the base peak demand of a consumer on the basis of changes in such consumer's method of operation during or since the base period. DEPA may at any time specify the base peak demand for any consumer.

SEC. 3. *Applications for adjustment or exception.* Any person affected by this order who considers that its application would work an exceptional and unreasonable hardship on him or would interfere with military needs, defense production or essential civilian services may appeal for relief to DEPA, who may grant such special exemptions or take such other action as may be consistent with the purposes of this order.

SEC. 4. *Communications to DEPA.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to Northwest Area Representative, Defense Electric Power Administration, Ref: EO–4A.

SEC. 5. *Violations.* Any person who willfully violates any provision of this order or direction relating thereto or any other order or direction of DEPA, or who willfully conceals a material fact or furnishes false information in the course of operation under this order, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials (including electric energy) or of using facilities under priority or allocation control and to deprive him of further priorities assistance.

SEC. 6. *Records.* Each electric utility and non-utility power producer affected by this order shall keep and preserve for not less than two years complete records concerning deliveries of electric energy to consumers. Such records shall be subject to inspection by duly authorized representatives of DEPA.

SEC. 7. *Termination.* Unless earlier revoked, this order shall terminate at 12 p. m., P. s. t., April 30, 1953.

ARTICLE II—OPERATION AND INTEGRATION

SEC. 21. *Operation of electric utility facilities and equipment.* No electric utility shall take any power plant equipment out of service for routine maintenance or overhaul when the capacity or operation of such equipment is needed in the shortage area, and no electric utility shall abandon any electric generating facilities except upon specific authorization from DEPA.

SEC. 22. *Operation of non-utility electric facilities and equipment.* Each non-utility power producer shall operate its electric facilities and interchange electric energy with any electric utility or utilities with which it is interconnected so as to achieve maximum power supply: *Provided*, That such interchange is consistent with an agreement entered into between such utility and non-utility power producer.

SEC. 23. *Integration of power system operation.* Each electric utility shall continue to operate its reservoirs, generating plants, substations, transmission lines and other facilities and to interchange electric energy with other electric utilities so as to achieve the maximum coordination of power supply.

SEC. 24. *Specific directions by DEPA.* From time to time DEPA may issue specific directions to electric utilities and non-utility power producers as to the maintenance, operation and integration of electric facilities.

ARTICLE III—LIMITATIONS ON USE, CONSUMPTION AND DELIVERIES OF ELECTRIC ENERGY

SEC. 31. *Curtailment of use during designated periods.* When necessary, DEPA will issue directions restricting or prohibiting the delivery and use of electric energy:

(a) During designated hours or days of the week to or by any consumer or class of consumers, so as to reduce or eliminate their energy consumption;

(b) During peak periods to or by any consumer or class of consumers, so as to reduce or eliminate their demand during such peak periods.

SEC. 32. *Limitations to become effective upon issuance of supplement to this order.* Each of the following paragraphs of this section shall become operative on the date and in the manner specified in supplements to be issued as needed to this order.

(a) *Limitation on increased rates of deliveries of electric energy.* During any period in which this paragraph is operative:

(1) No electric utility or non-utility power producer shall increase the rate of deliveries of electric energy to any consumer with a base peak demand in excess of 300 kilowatts at any single location over the base peak demand of such consumer, and no such consumer shall take deliveries of electric energy at such increased rate, unless the amount of such increase is less than 25 kilowatts or 5 percent of base peak demand, whichever is greater, or unless prior authorization for such increase is received from DEPA.

(2) No electric utility or non-utility power producer shall serve any new consumer or existing consumer with a base peak demand of less than 300 kilowatts at any single location at a rate which exceeds 300 kilowatts or 105 percent of base peak demand, whichever is greater, and no such consumer shall take deliveries in excess of such rate unless prior authorization is received from DEPA.

(b) *Limitation on increased deliveries of electric energy.* During any period in which this paragraph is operative:

(1) No weekly energy base of any new consumer shall be established at more than 8,000 kilowatt-hours and no weekly energy base of any existing consumer shall be adjusted upward, except for adjustment up to 8,000 kilowatt-hours, without prior authorization of DEPA.

(2) No electric utility or non-utility power producer shall deliver knowingly at any single location more than 8,000 kilowatt-hours per week to any new consumer or to any existing consumer with a weekly energy base of less than 8,000 kilowatt-hours per week without prior authorization by DEPA, but an electric utility may, in lieu of so restricting deliveries to any such consumer, report immediately to DEPA the name and loads of any such consumer taking deliveries in excess of 8,000 kilowatt-hours per week.

(c) *Quota limitations on consumption and deliveries of electric energy.* During any period in which this paragraph is operative, DEPA will issue directions limiting deliveries to particular consumers or classes of consumers in specified amounts of kilowatts or kilowatt-hours or through use of energy quotas in kilowatt-hours, or both. The curtailments so directed will be carried out as nearly as possible in the manner provided in List I of Appendix B to this order. Upon the issuance of such directions, electric utilities shall notify each of their consumers affected by such curtailment, and from the effective date of any such direction no electric utility shall knowingly make, and no consumer shall take, deliveries of electric energy in excess of the quantity permitted by the direction, but an electric utility may, in lieu of so restricting deliveries, report immediately to DEPA the name and loads of any affected consumer taking deliveries in excess of such quantity. Unless prohibited by section 33 and List II of Appendix B, electric utilities are not prevented by this order from making any curtailments in accordance with their operating practice or contractual arrangements.

(d) *Reduction of deliveries to consumers with electric generating facilities.* During any period in which this paragraph is operative, each electric utility shall reduce deliveries to non-utility consumers who have electric generating facilities with rated capacity of 100 kilowatts or more, to the extent that the operation of such facilities is feasible and can help relieve the power shortage in the shortage area, provided arrangements exist to pay the additional cost of energy generated by such consumer's facilities to replace firm power deliveries required by contract.

SEC. 33. *Preferred deliveries.* No electric utility shall reduce its deliveries of electric energy to any consumer or class of consumers below quantities specified on List II of Appendix B to this order, without order or direction from DEPA, provided arrangements exist for the payment for electric energy delivered in excess of quantities required by contract.

SEC. 34. *Exemptions.* (a) Except as provided in paragraph (b) of this section, the mandatory provisions of this Article III relating to the prohibition or limitation of deliveries and consumption of electric energy shall not apply to any consumer whose operations come within the classifications listed in Appendix C to this order or to any consumer specifically exempted by direction of DEPA. Questions as to the classification of any consumer shall be referred to DEPA.

(b) Because of the shortage which makes this limitation order necessary, all consumers exempted by this section shall immediately undertake steps to reduce their energy consumption to the fullest practicable extent, consistent with the continued operation of their essential services, functions or activities, during any period in which any of the provisions of section 32 of this order are operative, and each such consumer using in excess of 8,000 kilowatt-hours per week shall notify the electric utility from which he obtains power of the steps taken and of his estimate of the savings in energy involved.

ARTICLE IV—ACTIONS, NOTICES AND REPORTS BY ELECTRIC UTILITIES AND CONSUMERS

SEC 41. *Notice to consumers.* (a) Each electric utility shall give such notices to its consumers as may be prescribed by DEPA.

(b) Within fourteen days after the effective date of this order, each electric utility shall notify its consumers whose operations do not come within the classifications listed in Appendix C to this order, of the base period consumption and of the weekly energy base of such consumer for each billing period in the base period in each case where base period consumption of such consumer exceeds, if prorated weekly, 8,000 kilowatt-hours a week.

SEC. 42. *Solicitation of voluntary curtailment.* Each electric utility shall take all possible steps to secure voluntary reductions in consumption of electric energy by its consumers, during any period in which any of the provisions of section 32 of this order are operative.

SEC. 43. *Reports and information.* (a) Each consumer who uses at any single location more than 8,000 kilowatt-hours in the first week or any succeeding week, during which the provisions of section 32 (c) are in effect as to such consumer, shall report to DEPA at the end of such week the kilowatt-hours of electric energy consumed by him during such week at each such location. Such report shall be filed with the electric utility supplying electric energy to such consumer on forms prescribed by DEPA and distributed by the electric utility, and each such electric utility shall keep custody thereof for and subject to the direction of DEPA.

(b) At the end of the first week and of each succeeding week during which any of the provisions of section 32 (c) of this order are operative with respect to any of its consumers, each electric utility affected by the provisions of section 32 (c) of this order shall report to DEPA the name and address of any consumer who such utility knows or has reason to believe has consumed during such week more electric energy than its weekly energy quota, and shall include in such report the weekly energy quota of such consumer and the amount of such excess.

(c) At the end of the first week and of each succeeding week during which any of the provisions of section 32 (a) of this order are operative, each electric utility shall report to DEPA weekly the name and address of any consumer who such utility knows or has reason to believe has exceeded his base peak demand during such week, and shall include in such report the base peak demand of such consumer and the extent of such excess.

ARTICLE V—ADMINISTRATION OF ORDER

SEC. 51. *Northwest Area Representative.* This order shall be administered by the Northwest Area Representative, Utilization Conservation Branch of Defense Electric Power Administration who is hereby authorized to exercise all powers and functions of DEPA necessary to carry out the provisions of this order including, but not limited to, authority:

(a) To classify consumers and to grant adjustments, exceptions and exemptions.

(b) To issue orders and directions concerning the operation of electric utility and non-utility power producing facilities and equipment.

(c) To direct the curtailment of delivery and use of electric energy during designated periods, to limit deliveries of electric energy to particular consumers or classes of consumers in specified amounts of kilowatts or kilowatt hours, and to establish and adjust energy quotas in kilowatt hours for such consumers in amounts or percentages varying between individual consumers and between classes of consumers in the same or different areas.

SEC. 52. *Advisory Committee.* The Northwest Area Representative shall consult with an advisory committee of five members selected by DEPA with the advice of the electric utilities. Two members shall be selected from the privately owned, two from the non-Federal publicly owned and one from the Federal electric utilities.

SEC. 53. *Appeals.* Any person aggrieved by any decision of the Northwest Area Representative may appeal to the Administrator of Defense Electric Power Administration.

NOTE: A. All record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

B. This order is issued pursuant to the Defense Production Act of 1950, as amended. Section 707 of that act provides as follows:

No person shall be held liable for damages or penalties for any act or failure to act resulting directly or indirectly from compliance with a rule, regulation, or order issued pursuant to this Act, notwithstanding that any such rule, regulation, or order shall thereafter be declared by judicial or other competent authority to be invalid. No person shall discriminate against orders or contracts to which priority is assigned or for which materials or facilities are allocated under title I of this Act or under any rule, regulation, or order issued thereunder, by charging higher prices or by imposing different terms and conditions for such orders or contracts than for other generally comparable orders or contracts, or in any other manner. (64 Stat. 818, 50 App. U. S. C. 2157.)

This order shall take effect on October 30, 1952.

JAMES F. FAIRMAN,
Administrator, Defense Electric Power Administration.

      - Cashmere, Wash.
      - Springfield, Oreg.
      - Waterville, Wash.

APPENDIX B

The following order of curtailments in deliveries and consumption of electric energy and the following preferred deliveries have been designated by the Defense Production Administration for implementation by DEPA.

List I. Curtailments in deliveries. Curtailments in deliveries of electric energy which shall be ordered or directed from time to time by DEPA shall be applied, insofar as possible, after all interruptible loads have been curtailed. Curtailments in deliveries of firm loads shall be applied, insofar as possible, by a pro rata reduction in consumption by all consumers using more than 8,000 kilowatt-hours per week at any single location.

The foregoing curtailments relate to mandatory cutbacks which may be ordered by DEPA, and unless prohibited by section 33 and List II of this Appendix B electric utilities are not prevented by this order from making any curtailments in accordance with their operating practice or contractual arrangements.

List II. Preferred deliveries, subject to the provisions of section 33 of this order. Unless specifically provided by order or direction of DEPA, no curtailment in deliveries of electric energy shall be applied to the following consumers or classes of consumers below quantities specified:

(Initial List)

Consumer or class of consumers

Atomic Energy Plants

Amount of preferred deliveries

Total demand and energy for process loads

APPENDIX C

Consumers falling within the following classifications are exempt from certain mandatory curtailment provisions of this order, as provided in section 34, but shall undertake the reduction of their electric energy consumption to the fullest practicable extent, consistent with their continued operation of the services, functions or activities set out below.

1. The following Federal, State, County and Municipal services: fire, police, prisons, and essential street and highway lighting.

2. The following essential community services: churches, hospitals, schools, newspapers and refrigeration for food preservation.

3. Transportation services:

(a) Urban, suburban and interurban common or contract carriers of passengers or freight, including terminals.

(b) Railways, terminals and related facilities.

(c) Shipping piers and terminals.

(d) Military, municipal and licensed commercial airports and airfields.

(e) Oil and gas pipe lines and pumping stations.

(f) Maintenance and repair yards or shops used exclusively for the maintenance or repair of the above transportation services.

4. Communication services including:

(a) Post offices.

(b) Radio communication.

(c) Telegraph and telephone systems.

(d) Traffic control and signal services.

5. Water supply and sanitation systems including waterworks, pumping stations, and sewage disposal plants and equipment.

6. Military establishments, including cantonments, ports, depots, and fortification or the construction thereof.

7. Manufactured, by-product, natural and mixed gas systems, including manufacturing plants, pipe lines, pumping stations and facilities for the maintenance and repair thereof.

8. Construction of dams, and of plants and facilities which will be exclusively engaged in the production of munitions, atomic energy or products, ordnance items, aluminum and bauxite.

9. Electric energy needed for operation and construction of electric utilities.

[F. R. Doc. 52-11766; Filed, Oct. 29, 1952; 12:32 p .m.]

[DEPA Order EO-4A, Direction 1]

EO-4A—LIMITATION OF CONSUMPTION AND DELIVERIES OF ELECTRIC ENERGY IN PACIFIC NORTHWEST

DIR. 1—CURTAILMENT OF INTERRUPTIBLE POWER

A portion of the electric power produced in the Pacific Northwest is available at all times during the year except for periods during the water storage season when stream flows are below expect-

ed levels. This power is sold to consumers on an interruptible basis. These consumers anticipate that their power supply will be interrupted when there is insufficient power available to meet both firm and interruptible demands. The power shortage has already caused electric utilities to cut off practically all interruptible power. Protection of defense production and essential civilian services now requires that all interruptible power be curtailed and all power resources in the shortage area be made available to meet firm loads.

This direction is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Sec.
1. What this direction does.
2. Curtailment of interruptible power.
3. Effective date.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended; 50 U. S. C. App. 2071; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; DPA Del. 1, Jan. 24, 1951, as amended Nov. 3, 1951, 16 F. R. 11245; Dept. of Interior Order No. 2605, as amended Sept. 10, 1952, 17 F. R. 8366.

SECTION 1. *What this direction does.* This direction curtails the delivery and use of interruptible power in the Pacific Northwest shortage area.

SEC. 2. *Curtailment of interruptible power.* No electric utility will deliver, and no consumer will use, interruptible power. Interruptible power means any power delivered to an industrial consumer under a contract which permits the supplier to reduce or suspend deliveries of such power under specified conditions not restricted to force majeure or to scheduled maintenance.

SEC. 3. *Effective date.* This direction shall take effect at 12:01 a. m., P. s. t., Saturday, November 1, 1952.

JAMES F. FAIRMAN,
Administrator.

OCTOBER 29, 1952.

[F. R. Doc. 52-11767; Filed, Oct. 29, 1952; 12:32 p. m.]

[DEPA Order EO-4A, Direction 2]

EO-4A—LIMITATION OF CONSUMPTION AND DELIVERIES OF ELECTRIC ENERGY IN PACIFIC NORTHWEST

DIR. 2—QUOTA AND OTHER LIMITATIONS ON CONSUMPTION AND DELIVERIES OF ELECTRIC ENERGY

DEPA Order EO-4A, issued October 30, 1952, provides for the integration, operation and maintenance of electric generating facilities in the Pacific Northwest, and also contains certain provisions to limit the use of electric power. These limitation provisions of Order EO-4A become operative only when specifically invoked by direction of DEPA. Since the power now available and reasonably to be anticipated will not satisfy all the expected demands in the area, this direction invokes certain provisions of Order EO-4A limiting the use of electricity.

This direction is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Sec.
1. What this direction does.
2. Reduction in use of electricity.
3. Quota limitations on consumption and deliveries of electric energy.
4. Reduction of deliveries to consumers with electric generating facilities.
5. Effective date.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154. Interpret or apply sec. 101, 64 Stat. 799, as amended; 50 U. S. C. App. 2071; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; DPA Del. 1, Jan. 24, 1951, as amended Nov. 3, 1951, 16 F. R. 11245; Dept. of Interior Order No. 2605, as amended Sept. 10, 1952, 17 F. R. 8366.

SECTION 1. *What this direction does.* This direction limits the consumption and deliveries of electric energy in the Pacific Northwest shortage area.

SEC. 2. *Reduction in use of electricity.* No consumer will use more electric energy than his "weekly energy quota," and all consumers of electric energy are urged to reduce to the fullest practicable extent their use of electric energy.

SEC 3. *Quota limitations on consumption and deliveries of electric energy.* The "weekly energy quota" for each consumer of electric energy is:

(a) 8,000 kilowatt-hours; or

(b) 90 percent of his weekly energy base, whichever is greater. This quota limitation is established pursuant to DEPA Order EO-4A, sections 32 (b) and (c) thereof being hereby made operative.

SEC. 4. *Reduction of deliveries to consumers with electric generating facilities.* Electric utilities shall reduce deliveries of electric energy to consumers with electric generating facilities. This shall be done in accordance with section 32 (d) of DEPA Order EO-4A.

SEC. 5. *Effective date.* The provisions of this direction shall take effect at 12:01 a. m., P. s. t., Monday, November 17, 1952.

JAMES F. FAIRMAN,
Administrator.

OCTOBER 29, 1952.

[F. R. Doc. 52-11768; Filed, Oct. 29, 1952; 12:32 p. m.]

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

Subchapter D—Grants

PART 53—GRANTS FOR SURVEY, PLANNING AND CONSTRUCTION OF HOSPITALS

MISCELLANEOUS AMENDMENTS

Notice of proposed rule making and public rule making procedures have been omitted in the issuance of the following amendment of §§ 53.12, 53.13, 53.76 and 53.77 (c) (1), and the addition of a new § 53.48, which relates solely to grants to States, political subdivisions and public or other nonprofit agencies for construction of public and other nonprofit hospitals.

1. Section 53.12 is amended to read as follows:

§ 53.12 *Maximum State allowance.* (a) The number of general hospital beds required to provide adequate hospital services to the people residing in any State shall be:

(1) In States having 12 or more persons per square mile, 4.5 beds per thousand population;

(2) In States having less than 12 and more than 6 persons per square mile, 5 beds per thousand population; and

(3) In States having 6 persons or less per square mile, 5.5 beds per thousand population.

(b) If in any area (base, intermediate, or rural), as determined by the State agency, there are, as of the date of initial approval of the State plan, more beds than required by these standards, such excess (but no increase in such excess after such date) may be eliminated in calculating the maximum allowance for the State as a whole.

2. Section 53.13 is amended to read as follows:

§ 53.13 *Standards for construction program.* (a) The construction program under the State plan shall provide for general hospital beds, existing and proposed, in each area within the State in accordance with the following standards:

(1) In States having 12 or more persons per square mile, 2.5 beds per thousand population in rural areas, 4.0 beds per thousand in intermediate areas, and 4.5 beds per thousand in base areas;

(2) In States having less than 12 but more than 6 persons per square mile, 3 beds per thousand population in rural areas, 4.5 beds per thousand in intermediate areas, and 5 beds per thousand in base areas; and

(3) In States having 6 or less persons per square mile, 3.5 beds per thousand population in rural areas, 5.0 beds per thousand in intermediate areas, and 5.5 beds per thousand in base areas.

(b) In addition, the State agency shall subtract from the total number of beds permitted for each area under § 53.12 the total number of beds permitted for each area under paragraph (a) of this section or the number of beds in existence, whichever is greater. The total number of beds so determined for all areas may, in the discretion of the State agency and without regard to standards specified in § 53.12 and paragraph (a) of this section, be allocated to specific areas or held in reserve for subsequent allocation, or any combination of the two. Any allocation of beds under this paragraph shall be done in such a manner as to meet the special needs of the area or areas concerned, and to facilitate the coordination of hospital services. In allocating beds under this paragraph, the State agency shall give special consideration to hospitals serving persons in rural areas and communities with relatively small financial resources.

3. Subpart E—Priority of Projects, is amended by adding the following section:

§ 53.48 *Split projects.* Special consideration may be given to projects which are parts of facilities, with respect to other parts of which applications have been approved prior to July 1, 1952.

4. Section 53.76 is amended to read as follows:

§ 53.76 *Publicizing the State plan.* (a) Prior to the submission of the State plan and its annual revision to the Surgeon General, the State agency shall publish a general description of the provisions proposed to be included in the State plan and shall give reasonable notice of a public hearing at which all interested persons or organizations will be given an opportunity to be heard.

(b) After the Surgeon General has approved the State plan and its annual revisions the State agency shall publish a general description of its provisions in newspapers having general circulation throughout the State and shall make the approved State plan available for examination, upon request, to all interested persons or organizations.

5. Section 53.77 (c) (1) is amended to read as follows:

(1) That actual construction work will be performed by the lump sum (fixed price) contract method, that adequate methods of obtaining competitive bidding will be or have been employed prior to awarding the construction contract, either by public advertising or circularizing three or more bidders, and that the award of the contract will be or has been made to the responsible bidder submitting the lowest acceptable bid: *Provided, however,* That the purchase and installation of equipment which is unique to a hospital, as well as kitchen, laundry, and pharmacy equipment, need not be considered construction work for the purpose of this section, except that if open competitive bidding is employed to obtain any or all of these items, the award shall be made to the responsible bidder submitting the lowest acceptable bid.

(Sec. 215, 58 Stat. 690; 42 U. S. C. 216. Interpret or apply sec. 622, 60 Stat. 1041; 42 U. S. C. 291e)

The above amendments were approved by the Federal Hospital Council at meetings held October 6 and 7, 1952.

[SEAL] W. PALMER DEARING,
Acting Surgeon General.

Approved:

LEONARD A. SCHEELE,
Chairman,
Federal Hospital Council.

Approved: October 27, 1952.

JOHN L. THURSTON,
Acting Federal Security Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1834]

PART 244—RIGHTS-OF-WAY OTHER THAN FOR RAILROAD PURPOSES AND FOR LOGGING ROADS ON THE OREGON AND CALIFORNIA AND COOS BAY REVESTED LANDS

SUBPART D—RIGHTS-OF-WAY THROUGH PUBLIC LANDS AND RESERVATIONS FOR TELEPHONE AND TELEGRAPH LINES, TRANSMISSION LINES, RADIO AND TELEVISION SITES, AND FOR PIPELINES, CANALS, DITCHES, AND WATER PLANTS UNDER THE ACTS OF FEBRUARY 15, 1901, AND MARCH 4, 1911

TERMS AND CONDITIONS

Subparagraph (2) of paragraph (d) of § 244.44 is amended to read as follows:

§ 244.44 *Terms and conditions.* • • •

(d) • • •

(2) In order to utilize any surplus capacity certified by the holder to be available, or any increased capacity provided by the Department at its own expense, the Department may interconnect its transmission facilities with the holder's line in a manner conformable to approved standards of practice for the interconnection of transmission circuits.

(R. S. 161, 2478; 5 U. S. C. 22, 43 U. S. C. 1201)

VERNON D. NORTHROP,
Acting Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 967]

[Docket No. AO-170-A6]

HANDLING OF MILK IN SOUTH BEND-LA PORTE, IND., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at South Bend, Indiana, on June 2-3, 1952, pursuant to notice thereof which was issued on May 14, 1952 (17 F. R. 4539).

Upon the basis of the evidence introduced at the hearing, and the record thereof, the Assistant Administrator, Production and Marketing Administration, on October 10, 1952, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on October 5, 1952 (F. R. Doc. 52-11210, 17 F. R. 9144).

The material issues and the findings and conclusions of the recommended decision (F. R. Doc. 52-11210, 17 F. R. 9144) are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings, conclusions and amendment action decided in this decision, each of the exceptions filed was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions and amendment action decided upon herein are at variance with

the exceptions, such exceptions are overruled.

Determination of representative period. The month of September 1952 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the South Bend-La Porte, Indiana, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the South Bend-La Porte, Indiana, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met:

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 28th day of October 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

Order[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the South Bend-La Porte, Indiana, marketing area*

§ 967.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at South Bend, Indiana, on June 2–3, 1952, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the South Bend-La Porte, Indiana marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the South Bend-La Porte, Indiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete § 967.50 (b) (2) and substitute therefor the following:

(2) Add an amount computed as follows: From the simple average of the daily prices paid per pound, using the midpoint of any price range as one price, for Wisconsin State Brand cheddars in cars or truckloads, f. o. b. Wisconsin assembling points, as reported by the Department for the trading days during the delivery period, subtract 1.3 cents, and multiply by 2.4;

2. Delete § 967.51 in its entirety and substitute therefor the following:

§ 967.51 *Class I milk prices.* The minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received and classified as Class I milk for each delivery period shall be computed by the market administrator as follows:

(a) Add to the basic formula price (3.5 percent milk) the following amount for the delivery period indicated: May and June, $0.70; July through January, inclusive, $1.30; and February through April, inclusive, $0.90: *Provided,* That such Class I price differential shall be increased or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio is greater or less than 72 percent.

(b) Add together the amount computed pursuant to § 967.40 (c) (2) and any amount per hundredweight by which (on a 3.5 percent butterfat basis) the effective basic formula price pursuant to § 967.50 is higher than the price computed pursuant to § 967.50 (c), divide such sum by 0.035, and then add thereto the following amount for the delivery period indicated: May and June, $8.25; July through January, inclusive, $13.75; and all others, $11.00: *Provided,* That such amount for the delivery period indicated shall be increased or decreased, as the case may be, by the amount per hundredweight resulting from the proviso of paragraph (a) of this section divided by 0.035. The resulting amount shall be the price of butterfat in Class I milk.

(c) Subtract from the price computed pursuant to paragraph (a) of this section the amount computed in paragraph (b) of this section times 0.035, and divide the remainder by 0.965. The resulting amount shall be the price of skim milk in Class I milk.

(d) On or before the last day of each delivery period the market administrator shall make the following computations based upon the reported receipts and utilization of handlers as defined in the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, as computed by the market administrator under the latter order:

(1) Determine the total receipts of Grade A milk from all producers (including receipts from own farm production) for the most recent 12-month period.

(2) Determine the total pounds of Grade A milk actually utilized in Class I milk and Class II milk products during the most recent 12-month period and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period.

(3) Divide the amount obtained in subparagraph (2) of this paragraph by the amount obtained in subparagraph (1) of this paragraph and round to the nearest full percent, which resulting percentage shall be known as the "current supply-demand ratio".

(4) In making the computations specified in subparagraphs (1) and (2) of this paragraph, the market administrator shall use the reported receipts and utilization of handlers of Grade A milk under both Order 41 and former Order 69 (Suburban Chicago, Illinois, marketing area) when it is necessary to use data for delivery periods prior to July 1, 1951.

3. Delete § 967.52 (c) and substitute therefor the following:

(c) Compute the arithmetical average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or the Department by the companies listed in this paragraph: *Provided,* That in the case of any such plant for which prices are reported on a biweekly basis, the simple average of the two most recent price quotations applicable to milk received during the delivery period at such plant shall be used in computing the average price for the four plants.

Present Operator and Location

Goshen Milk Condensing Co., Goshen, Ind.
New Paris Creamery Co., New Paris, Ind.
Schlosser Bros. Creamery, Plymouth, Ind.
Elgin Milk Products Co., Galien, Mich.

4. Delete § 967.80 (c) and substitute therefor the following:

(c) On or before the 4th day after the end of such delivery period each handler shall pay to each producer, or to a cooperative association authorized to collect payment, not less than the amount per hundredweight provided in the schedule set forth in this paragraph, for milk received from such producer or caused to be delivered to such handler by such cooperative association during the first 15 days of such delivery period: *Provided,* That in the event any producer or cooperative association discontinues shipping to such handler during any delivery period, such partial payments shall not be made and full payment for all milk received from such producer or cooperative association during such delivery period shall be made on or before the 18th day after the end of such delivery period pursuant to paragraphs (a) and (b) of this section:

When the uniform price for the preceding delivery period is—	*The amount of the partial payment shall be—*
Under $1.00	$0.00
$1.00–$1.99	1.00
$2.00–$2.99	2.00
$3.00–$3.99	3.00
$4.00–$4.99	4.00
$5.00–$5.99	5.00
$6.00–$6.99	6.00
$7.00 and over	7.00

[F. R. Doc. 52–11697; Filed, Oct. 30, 1952; 8:53 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42, 61]

INSTALLATION OF PROPELLER REVERSE LIGHTS ON AIRCRAFT PRESENTLY IN SERVICE EQUIPPED WITH REVERSIBLE PITCH PROPELLERS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board is proposing the adoption of amendments to the operating parts of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by December 1, 1952. Copies of such communications will be available after December 4, 1952, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

At the present time, the operating parts of the Civil Air Regulations, Parts 41, 42, 61, and the proposed revision of Part 40 do not contain provisions concerning reversible pitch propellers on transport aircraft. This does not mean, however, that the Board has failed to follow with great interest the problems associated with the installation and operation of reversible pitch propellers. The Board believes that this technical advance in the aeronautical engineering field has been a great boon to the air transport industry in that an appreciable increase in safety may be gained by the use of these propellers. This is especially true during operations on icy or wet runways. In the event of brake failure, the reversing of propellers is obviously of great value and serves as a fail-safe feature. On the other hand, the Board has noted that there are certain characteristics associated with the installation of reversible pitch propellers that tend to create additional hazards. In the event of inadvertent reversal of one or more propellers in flight, a most dangerous condition is created unless immediate action is taken by the pilot. The Board has accident and incident reports which indicate that such reversals have occurred.

At the 1951 annual airworthiness meeting the subject of propeller reversing controls was discussed and, as a consequence, the Board adopted, on January 28, 1952, an amendment to Part 4b which reads as follows:

§ 4b.474 *Propeller controls.* • • •

(c) *Propeller reversing controls.* Propeller reversing controls shall incorporate a means to prevent their inadvertent movement to the reverse position. The means provided shall require a distinct and unmistakable operation by the crew in order to place the control in the reverse regime both in flight and on the ground.

Experience has indicated, however, that there may be a necessity for safeguards over and above those relating to the inadvertent operation of the propeller reversing controls. The Bureau of Safety Regulation is, therefore, proposing in the Draft Release stemming from the 1952 annual airworthiness meeting (Draft Release 52–27) a requirement which would make mandatory the installation of "a means, for each reversing propeller, to indicate to the pilot when the propeller is in reverse pitch." The Board is of the opinion, however, that since this proposed regulation, if adopted, will deal only with aircraft not yet type certificated, an additional change in the regulations may be necessary to make mandatory the installation of propeller reversal warning lights on aircraft currently in operation.

It is realized that the use of the word "lights" in this draft release is more restrictive than the use of the word "means" in Draft Release 52–27 and the Board would appreciate comments on this. Further, the word "pilots" is used in the wording proposed for the operating parts of the regulations, in the belief that these devices should be visible to both pilots.

Accordingly it is proposed to amend Parts 41, 42, and 61 (proposed revision of Part 40) of the Civil Air Regulations to include the following requirement:

After the next major overhaul but in no event later than December 31, 1953, a warning light shall be provided for each propeller on airplanes equipped with reversing propellers to indicate to the pilots when that propeller is in reverse pitch.

This proposal is made under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended, and may be changed in the light of comment received.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560; 52 Stat. 1216)

Dated: October 22, 1952 at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order No. 150–13]

BUREAU OF INTERNAL REVENUE REORGANIZATION

ABOLITION AND ESTABLISHMENT OF CERTAIN OFFICES

Bureau of Internal Revenue reorganization. Abolition of offices of Collectors and Deputy Collectors of Idaho, Montana, Oregon, and Washington Collection Districts; establishment of offices of District Commissioner and Directors of Internal Revenue.

By virtue of the authority vested in me as Secretary of the Treasury by Reorganization Plan No. 26 of 1950 and Reorganization Plan No. 1 of 1952:

1. *Abolition of existing offices.* The abolition of the offices of Collector of Internal Revenue and Deputy Collector for the Idaho, Montana, Oregon, and Washington Collection Districts shall become effective as of 12 o'clock midnight, October 30, 1952.

2. *Establishment of District Commissioner.* Effective as of 12:01 a. m., October 31, 1952, there is hereby established an office of District Commissioner of Internal Revenue, which shall be known as the Seattle District, and which shall be comprised of Idaho, Montana, Oregon,

and Washington, and the Territory of Alaska.

3. *Location of headquarters.* The headquarters office shall be located in the City of Seattle, Washington.

4. *Establishment of offices of Director of Internal Revenue.* Effective as of 12:01 a. m., October 31, 1952, there are hereby created the following offices within the Seattle District:

(a) Director of Internal Revenue for the Collection District of Idaho (as presently constituted). The headquarters of such office shall be located in Boise, Idaho, and the office shall have the operating title of Director of Internal Revenue, Boise.

(b) Director of Internal Revenue for the Collection District of Montana (as presently constituted). The headquarters of such office shall be located in Helena, Montana, and the office shall have the operating title of Director of Internal Revenue, Helena.

(c) Director of Internal Revenue for the Collection District of Oregon (as presently constituted). The headquarters of such office shall be located in Portland, Oregon, and the office shall have the operating title of Director of Internal Revenue, Portland.

(d) Director of Internal Revenue for the Collection District of Washington (as presently constituted). The headquarters of such office shall be located in Seattle, Washington, and the office shall have the operating title of Director of Internal Revenue, Seattle.

Dated: October 28, 1952.

[SEAL] E. H. FOLEY,
Acting Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Department of the Navy

[No. 14]

GENERAL STORES ISSUE SHIPS (AKS-27 CLASS)

NAVIGATION LIGHTS

Whereas, section 360, Title 33, United States Code, provides that any requirement as to the number, position, range of visibility or arc of visibility of navigation lights, required to be displayed by naval vessels under Acts of Congress, as enumerated in said section 360, Title 33, United States Code, shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible with respect to such vessel or class of vessels to comply with statutory requirements as to the number, position, range of visibility or arc of visibility of navigation lights; and

Whereas, a study of the arrangement and position of the navigation lights of that type of naval vessels known as General Stores Issue Ships, AKS-27 class, has been made in the Navy Department and as a result of such study, it has been determined that because of their construction it is not possible for General Stores Issue Ships, AKS-27 class, to comply with the requirements of the statutes enumerated in said section 360, Title 33, United States Code;

Now, therefore, I, Francis P. Whitehair, Acting Secretary of the Navy, as a result of the aforesaid study do hereby find and certify that the type of naval vessels known as General Stores Issue Ships, AKS-27 class, are naval vessels of special construction and that on such vessels, with respect to the position of the masthead light and the additional white light (commonly termed the range light) it is not possible to comply with the requirements of the statutes enumerated in section 360, Title 33, United States Code. Further, I do find and certify as follows:

(a) That it is feasible to locate the aforesaid masthead light in the after part of said vessels approximately two hundred and seventy feet abaft the stem.

(b) That it is feasible to locate the additional white light (commonly termed the range light), if such light is installed in any of the aforesaid type of vessels, in the forward part of the vessel and in front of the light referred to in the preceding paragraph.

I direct that the aforesaid lights, that is the masthead light and the additional white light (commonly termed the range light), if such light is installed, shall be located in this type of vessel in the manner above described. I further direct that the two aforesaid lights referred to in subparagraphs (a) and (b), if both lights are installed, shall be placed in line with the keel and that the after light shall be at least fifteen feet higher than the forward light and that the vertical distance between the two lights shall be less than the horizontal distance. I further certify that such locations constitute compliance as closely with the applicable statutes as I hereby find to be feasible.

Dated at Washington, D. C., this 20th day of October A. D. 1952.

FRANCIS P. WHITEHAIR,
Acting Secretary of the Navy.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[E: 61082]

ARIZONA

NOTICE OF FILING OF PLAT OF SURVEY

OCTOBER 24, 1952.

Notice is given that the plat of original survey and dependent resurvey of the following described lands, accepted August 22, 1952, will be officially filed in the Land and Survey Office, Phoenix, Arizona, effective at 10:30 a. m. on the 35th day after the date of this notice:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 4 S., R. 22 E.,
Lots 1, 2, 3, 4, Sec. 11,
All Sec. 12.

The area described, including both public and non-public lands, aggregates 791.15 acres.

Lot 2, Sec. 11, and the S½, Sec. 12, T. 4 S., R. 22 E. are patented.

Lot 1, Sec. 11, T. 4 S., R. 22 E. was withdrawn by Power Site Reserve No. 590, Executive order of March 21, 1917; and all lands within one mile of the Gila River were withdrawn under the provisions of Sec. 28 of the Act of Congress approved June 20, 1910, Water Power Designation No. 4, Arizona No. 1, of February 1, 1917.

In view thereof, the lands described will not be subject to disposition under the general public land laws by reason of the official filing of this plat.

THOS. F. BRITT,
Manager.

Office of the Secretary

[Order No. 2707]

GRAND COULEE AND HUNGRY HORSE DAMS

RATES FOR SALE OF ELECTRIC ENERGY

OCTOBER 24, 1952.

SECTION 1. *Establishment of existing rates and confirmation of prior sales.* Pursuant to a determination that the rate schedules presently applicable to the sale of electric energy generated at the Bonneville Project, if applied to the disposition of electric energy generated at the Grand Coulee Dam and the Hungry Horse Dam, would satisfy all requirements of the law for the establishment of rate schedules with respect to the sale of electric energy generated at those dams, the present Bonneville Project rate schedules are established as the rate schedules applicable to sale of electric energy generated at Grand Coulee Dam and Hungry Horse Dam, and sales of electric energy generated at those dams heretofore made in accordance with the rate schedules then in effect and applicable to sales of electric energy generated at the Bonneville Project are confirmed.

SEC. 2. *Establishment of future rates.* (a) Proposals for new rate schedules or for the modification of rate schedules applicable to the sale of electric energy generated at the Bonneville Project shall be submitted to the Secretary of the Interior for review prior to transmission to the Federal Power Commission for approval, and such review will include a determination as to whether or not the proposed new or modified rate schedule satisfies all the requirements of law for the sale of electric energy generated at the Grand Coulee Dam and the Hungry Horse Dam. Accordingly, in the future the Bonneville Power Administrator may, unless otherwise notified by the Secretary, dispose of electric energy generated at the Grand Coulee Dam and the Hungry Horse Dam in accordance with rate schedules which may hereafter become applicable to sales of electric energy generated at the Bonneville Project. If any rate schedules is determined to be inapplicable to sales of electric energy generated at the Grand Coulee Dam or the Hungry Horse Dam it will be listed in paragraph (b) of this section by an amendment to this order.

(b) The following rate schedules applicable to the sales of electric energy generated at the Bonneville Project are as specifically indicated not applicable to the sales of energy generated at the Grand Coulee Dam or the Hungry Horse Dam:

[No rate schedule is in this category at present.]

VERNON D. NORTHROP,
Acting Secretary of the Interior.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-180, 59-94]

GREEN MOUNTAIN POWER CORP.

MEMORANDUM FINDINGS AND OPINION AND ORDER REGARDING PAYMENT OF FEES AND EXPENSES

OCTOBER 27, 1952.

The Commission has before it for consideration and decision various applications for allowance of fees and reimbursement of expenses in connection with the amended plan of reorganization of Green Mountain Power Corporation ("Green Mountain"). Said plan was filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 and was approved by the Commission by orders dated May 3 and May 31, 1951. In these orders the Commission reserved jurisdiction over all fees and expenses in connection with the plan. By order, dated June 18, 1951, the Commission released jurisdiction with respect to the fees and expenses of Messrs. Choate, Hall & Stuart of Boston, Massachusetts, counsel for the underwriters in connection with the sale by Green Mountain of new common stock, and continued jurisdiction over all other fees and expenses.

The names of the applicants for fees and expenses and the amounts presently requested thereby are as follows:

	Fees	Expenses
Hausserman, Davison, Shattuck & Field, counsel for Green Mountain	[1] $50,000	$4,682.03
Stone & Webster Service Corp. consultant to Green Mountain	5,380	----------
Lybrand, Ross Bros. & Montgomery, accountants for Green Mountain	2,400	41.75
Scott committee for preferred stockholders:		
Hays, St. John, Abramson & Schulman, counsel	25,000	565.23
Lewis Merrill Scott, chairman	1,000	----------
Norman Johnson, secretary	1,500	25.00
Edward Leff, member	1,000	----------
Wishart committee for preferred stockholders, Finn, Monti & Davis, counsel	7,500	1,662.55
Baker, Obermeier & Rosner, counsel for certain preferred stockholders	5,000	206.69
Carl K. Ross, representing himself	300	127.95

[1] $27,000 has been paid by Green Mountain.

A public hearing has been held on the applications at which Green Mountain filed an exhibit with respect to the following expenses incurred in connection with the Plan:

Printing of reorganization plans, notices to stockholders, registration statement and prospectus	$11,251.40
Engraving and printing of certificates for new common stock	1,452.00
United States tax on issue of common stock	1,158.85
Chas. T. Main, Inc., engineering work	1,215.66
The Chase National Bank of the City of New York, Transfer Agent and Agent for Subscription to common stock	4,946.45
Travel and miscellaneous expenses of officers of Green Mountain	4,850.87
State of Vermont, fees	227.12
Postage, express, telephone, and miscellaneous	452.34
Advertising	201.31
State Street Trust Co., indenture trustees	75.00

In many earlier cases the Commission has stated the applicable standards under which it decides section 11 (e) fee cases. (See Engineers Public Service Corporation, Holding Company Act Release No. 11096.) It appears unnecessary to restate such standards here. With the exception of Carl K. Ross, the applicants for fees and expenses reduced their original requests to the amounts hereinabove set forth which amounts were recommended by the Division of Public Utilities and, in each case, agreed to by the applicant concerned and by Green Mountain. After carefully considering the whole record and on the basis thereof, the Commission finds that, with the exception of Carl K. Ross, the applicants performed useful services to Green Mountain and its security holders and that the fees and expenses requested are not unreasonable.

Carl K. Ross has requested payment of a fee of $300 and reimbursement of expenses of $127.95. He attended the initial hearing for one day and did not thereafter participate. He claims to have contributed to the reorganization plan by suggesting that the new common stock of Green Mountain have preemptive rights. The official record of the proceeding does not indicate that he made this suggestion. Even if he had, it is doubtful whether this would have entitled him to compensation since the Commission's policy in this regard is settled and well known.

It is ordered, That with the exception of the application of Carl K. Ross, said applications for the payment by Green Mountain of the fees and expenses set forth above, be, and the same hereby are, approved and that Green Mountain be, and hereby is, authorized and directed to make the payments approved.

It is further ordered, That the payment by Green Mountain of the above mentioned expenses incurred in connection with its plan of reorganization be, and the same hereby is, authorized and approved.

It is further ordered, That the application of Carl K. Ross for the payment by Green Mountain of a fee of $300 and the reimbursement of expenses in the amount of $127.95 be, and the same hereby is, denied.

It is further ordered, That this order shall become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-11676; Filed, Oct. 30, 1952; 8:47 a. m.]

[File No. 70-2926]

ELECTRIC BOND AND SHARE CO.

ORDER AUTHORIZING ACQUISITION OF ADDITIONAL COMMON STOCK OF SUBSIDIARY COMPANY AS A STOCK DIVIDEND

OCTOBER 27, 1952.

Electric Bond and Share Company ("Bond and Share"), a registered holding company, having filed an application pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9 and 10 thereof, regarding certain proposed transactions which are more fully set forth in the application, and which are summarized as follows:

American & Foreign Power Company Inc. ("Foreign Power"), a registered holding company subsidiary of Bond and Share, has declared a dividend, payable in cash and additional common stock of Foreign Power, as more fully set forth in the declaration of that company (File No. 70-2925). Pursuant to a hearing duly ordered by the Commission, the Commission permitted the declaration of Foreign Power to become effective (Memorandum Opinion dated October 17, 1952, Holding Company Act Release No. 11539; Order dated October 23, 1952, Holding Company Act Release No. 11550). Bond and Share as the holder of 3,902,956 shares (54.6 percent) of the common stock of Foreign Power will be entitled to receive 39,029 shares of additional common stock of Foreign Power as its proportion of the stock dividend. Bond and Share seeks such authorization as is necessary by the Commission for the acquisition of such additional 39,029 shares of the common stock of Foreign Power.

Notice of the filing of said application having been duly given in the form and

manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act, and that no adverse findings are necessary thereunder, and the Commission deeming it appropriate that said application, as amended, be granted, without the imposition of terms and conditions:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions contained in Rule U-24, that said application, as amended, be, and the same hereby is granted, effective forthwith.

By the Commission.

PHILADELPHIA CO., AND STANDARD GAS AND ELECTRIC CO.

SUPPLEMENTAL ORDER AUTHORIZING AND APPROVING SALE OF EQUITABLE DEBENTURES AND GRANTING APPLICATION

OCTOBER 24, 1952.

In the matter of Philadelphia Company, File No. 70-2941; and Standard Gas and Electric Company, File No. 54-173.

On October 3, 1952, this Commission issued an order which, among other things, recited that a notice dated September 25, 1952, as amended October 1, 1952, filed with this Commission by Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard Gas and Electric Company ("Standard") and Standard Power and Light Corporation ("Power"), both registered holding companies, pursuant to Rule U-44 (c) promulgated under the act was sufficient so that no declaration would be required of Philadelphia with respect to the proposed sale by it of $6,354,000 principal amount of Twenty-Year 3⅜ percent Sinking Fund Debentures, due March 1, 1970, of Equitable Gas Company ("Equitable"), a former subsidiary of Philadelphia, and the proposed application of the proceeds from such sale, to the extent required, in and for the retirement and cancellation of Philadelphia's 5 percent Preferred Stock and 6 percent Preferred Stock, any remaining balance after such application to be used for the retirement and cancellation of Philadelphia's other stocks presently outstanding. The order of October 3, 1952, authorized and approved the sale of said debentures in the manner and form proposed in the notice, subject to the requirement that the sale not be consummated until a further order of the Commission was issued approving the price and other terms of the sale.

On October 16, 1952, the Commission by order granted an application filed by Philadelphia to acquire debentures of Equitable, for the purpose of stabilizing the price thereof, by purchases on the over-the-counter market if, in the judgment of Philadelphia's officers, such purchases were necessary or advisable to facilitate the above-described sale.

Philadelphia has filed a post-effective amendment to its aforesaid notice and application in which it is stated that acting pursuant to said orders it invited bids to be opened at 11:00 a. m., October 23, 1952, and at that time received one bid which was rejected. Philadelphia now proposes, in its amended notification pursuant to Rule U-44 (c), that it will again advertise, by a publication in a newspaper of general circulation on October 27, 1952, for bids to be received by it for said debentures on October 29, 1952. Philadelphia requests that the Commission, acting pursuant to paragraphs (A) and (C) of Rule U-24, grant its application as thus amended and that the Commission modify its order of October 3, 1952, so as to permit the sale of the debentures as presently proposed;

The Commission having considered the modified notification under Rule U-44 (c) and having determined that no declaration with respect to the proposed sale of debentures is necessary, and the Commission having considered the request of Philadelphia that the application as amended be granted effective forthwith and deeming it appropriate and in the public interest to grant such request:

It is ordered, That the Commission's order dated October 3, 1952, be, and the same hereby is, modified so that the sale by Philadelphia in the manner described in said amended notice of October 24, 1952, of $6,354,000 principal amount of the aforedescribed Equitable debentures be, and hereby is, authorized and approved; *Provided,* That in accordance with the conditions set forth in said notice, said sale shall not be consummated until a further order shall have been issued by the Commission approving the price at which said debentures are to be sold and the terms of such sale, and that Philadelphia be, and hereby is, authorized and directed to use the proceeds from said sale to the extent required in and for the retirement and cancellation of its 5 percent Preferred Stock and 6 percent Preferred Stock.

It is further ordered, That except as modified by the above paragraph the previous order of this Commission dated October 3, 1952, concerning the proposed sale of the Equitable debentures shall remain in full force and effect.

It is further ordered, That the application, as amended, filed by Philadelphia with respect to the proposed stabilization be, and the same hereby is, granted effective forthwith, subject to the terms and conditions contained in Rule U-44 and to the further condition that acquisitions of Equitable debentures, if any, by Philadelphia shall be made only during the period beginning on the third full business day prior to the opening of bids for the purchase of the debentures and ending at the time of such opening and not to exceed in the aggregate $635,400 principal amount thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Conway Textiles, Inc., Conway, S. C., effective 10-14-52 to 4-13-53; 20 learners for expansion purposes; sewing machine operators, 240 hours at 65 cents per hour (novelty curtains).

Decatur Electric Service Co., Decatur, Ala., effective 10-15-52 to 2-14-53; one learner; Armature winder, 480 hours, 65 cents per hour for the first 320 hours and not less than 70 cents per hour for the remaining 160 hours (electric motor repair).

Richards & Associates, Box 1191, Fort Myers, Fla., effective 10-20-52 to 1-19-53; 15 learners; Sewing machine operators, 480 hours, 65 cents per hour for the first 320 hours and 70 cents per hour for the remaining 160 hours (garment bags and closet accessories).

Richards & Associates, Box 1191, Fort Myers, Fla., effective 10-20-52 to 4-19-53; 10 learners; sewing machine operators, 480 hours 65 cents per hour for the first 320 hours and 70 cents per hour for the remaining 160 hours (garment bags and closet accessories).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Manati Pearl Works, Inc., Manati, P. R., effective 9-29-52 to 3-28-53; 25 learners; Cutting, 320 hours at 35 cents per hour (pearl buttons).

Pan-Am Textiles, Inc., Caguas, P. R., effective 10-1-52 to 3-30-53; 55 learners; knitters, 160 hours at 25 cents per hour, 320 hours at 30 cents per hour, 320 hours at 35 cents per hour; seamers, 160 hours at 25 cents per hour, 320 hours at 30 cents per hour, 320 hours at 35 cents per hour; examiners, 240 hours at 30 cents per hour; menders, 160 hours at 25 cents per hour, 160 hours at 30 cents per hour, 160 hours at 35 cents per hour (full fashioned hosiery).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 21st day of October 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.
